Foreign gases effects on He-Ne lasers IR emission, describing quenching due to positive column electron temperature decrease

11 p2062 A70-25826

He-Ne laser optimal mixture component ratio for generating IR radiation at two wavelengths

12 p2251 A70-28293

IR spectroscopy and lasers for analysis of atmosphere in air pollution research and monitoring

13 p2407 A70-29106

Optically pumped cadmium phosphide laser, obtaining IR coherent oscillation from Q switched Nd doped YAG laser excitation

15 p2751 A70-31985

Lasers and GaAs diode emitters near IR radiation intensity distributions, using IR films and IR display phosphors

15 p2753 A70-32607

Encapsulated liquid crystal screens for IR laser beam imaging detectors with high thermal sensitivity and real time viewing in bright light

16 p2927 A70-33167

Carbon dioxide laser action at 10.6 micrometers at pressures up to atmospheric by transverse electrical discharges

16 p2928 A70-33643

Atomic spectroscopy of IR laser transitions in gases excited by HF pulsed discharges

17 p3105 A70-35093

Whisker diode coupling to polarized IR laser beam by orientation based on antenna theory

17 p3048 A70-35902

Carbon dioxide IR laser applications to manufacturing technology, discussing absorption, reflection and heat conduction characteristics of materials

19 p3447 A70-38452

Pulsed laser emission at IR transitions of xenon and neon under electron beam pumping

19 p3449 A70-38743

Thermal blooming of 10.6 micron laser beam in carbon dioxide absorption cell

22 p4049 A70-42335

ACRA supersonic antitank missile with IR laser beam guidance system

22 p4110 A70-43212

Frequency measurement extension to 5 micron region by IR laser harmonic frequency mixing in point contact diode as multiplier chain

23 p4201 A70-44917

Basalt heating with IR carbon dioxide laser, investigating vapor fractionation for inert atmospheres, very high temperatures and silicon dioxide poor materials

24 p4409 A70-45673

High efficiency gallium arsenide IR illuminators, comparing dome diodes fabricated from diffused or Si doped solution grown materials

24 p4319 A70-45784

Rate equation study of multiwavelength far IR laser oscillations in water vapor, taking into account molecular rotation-vibration interaction

24 p4354 A70-45812

INFRARED MASERS

U INFRARED LASERS

INFRARED PHOTOGRAPHY

IR holography using thermochromic material and cuprous mercuric iodide to record on-axis interference pattern, reconstructing in visible range with He-Ne laser

01 p0092 A70-11170

Aerial color IR photography for crop disease identification by tonal and geographic patterns, discussing cameras, films, filters and exposure procedures

05 p0837 A70-16144

Satellites for meteorological and geographical studies using information from TV and IR pictures

08 p1487 A70-20716

Color and color IR aerial photography, discussing effects of solar spectrum, films, filters, etc, in connection with terrain analysis

10 p1880 A70-24751

Aerial IR film optical density related to preharvest crop yield indicators in micro experiments with remote sensors

12 p2217 A70-26918

Aerial reconnaissance of soils, rocks, vegetation and streams, comparing color, IR color, and black-and-white photography

12 p2236 A70-27873

Soil characteristics determination from black and white, color and IR aerial photographs

14 p2577 A70-30980

Reflectance of single leaves and field plots of cotton, determining Cycocel treatment effects on aerial IR photography

14 p2577 A70-31233

Auxiliary minus-visual filters in high altitude IR aerial color photography, suggesting tests for film sensitometric properties

14 p2588 A70-31235

IR photography extension into long wave region of spectrum, discussing contact sensitized and electrically controlled semiconductor photographic systems

15 p2734 A70-31632

- False color aerial photography with IR film for distinguishing vegetation types and assessing plant vigor based on leaf reflectance 17 p3078 A70-35613
- Aerial IR surveys of surface temperature patterns of Hudson Bay during ice free seasons 17 p3079 A70-35621
- Background thermal radiation veiling effect on IR photography extension into long wave spectrum 18 p3257 A70-36282
- Aerial terrain analysis by color and color IR photography, analyzing physical factors affecting final image 22 p4018 A70-42963
- Photo copying in diapositive form, using ruby laser light on IR film 24 p4352 A70-45559
- INFRARED RADIATION**
- NT FAR INFRARED RADIATION
- NT NEAR INFRARED RADIATION
- IR emission from planetary nebulae, W-R, Of and symbiotic stars, discussing dust hypothesis for IR excess 01 p0173 A70-10039
- Mathematical model for saturable absorbers consisting of molecular gases for use in IR applied to carbon dioxide laser radiation absorption by sulfur hexafluoride 01 p0109 A70-10429
- Atmospheric IR radiation transmittance in 590 to 750 per cm interval, using balloon-borne spectrometer 02 p0256 A70-11928
- Two band Drude model validity for analysis of IR optical properties of transition metals obtained from experimental dielectric constant data 02 p0339 A70-12452
- IR light beam modulation in Gunn oscillator near fundamental edge of GaAs, investigating mechanism 03 p0539 A70-13160
- Image conversion scheme to obtain holograms of three dimensional objects illuminated with IR light, using nonlinear optics 04 p0685 A70-14406
- Angular tolerance on IR radiation for phase matched image up-conversion in material with nonlinear susceptibility 04 p0703 A70-15621
- Satellite IR measurements of surface horizontal temperature structure of Gulf Stream compared with ship and aircraft data 05 p0844 A70-17104
- Carbon dioxide and monoxide molecules IR emission in laser noting CO contribution to population of higher laser level 06 p1082 A70-17772
- Anomalous dispersion measurements in IR range with multibeam sequential Fabry-Perot interferometers using photoelectric method 06 p1064 A70-17811
- Laser harmonic-frequency mixing techniques extended into IR with IR metal-metal point contact diode 06 p1083 A70-17944
- Cloudy sky IR background radiation model for designing simulator of IR background for studying noise rejection characteristics of electro-optical automatic control systems 07 p1246 A70-19527
- Specular reflectivity measurement method for optical thin film coating in 10.6 micron IR region using carbon dioxide laser source 07 p1302 A70-20084
- Spectral band transmission functions of atmospheric water vapor, nitrogen, ozone, nitrous oxide and methane in IR region 07 p1330 A70-20306
- Optical to IR conversion in circumstellar dust envelope with spherical symmetry based on optical radiation scattering and absorption by dust 08 p1573 A70-21047
- Wall material diathermy effects on critical thermal load under radiant transfer, comparing results for quartz glass and stainless steel tubes 08 p1597 A70-21186
- Nonstellar 5 micron source in Orion nebula, noting intensity nonvariance and energy distribution calculation of temperature 08 p1575 A70-21375
- Center to limb variation of solar brightness measured at 5, 10 and 20 microns, discussing data collection and reduction and previous IR and UV measurements 08 p1562 A70-21396
- IR absorption properties of CO, HCl and sulfur dioxide measured for role in Venus greenhouse effect 08 p1579 A70-21567
- Temperature effects on IR absorption by water and carbon dioxide vapors measured in narrow spectral intervals 09 p1666 A70-22180
- IR energy interaction with earth atmosphere, determining multispectral scanner optimum wavelength intervals for earth resources applications [ALAA PAPER 70-289] 09 p1669 A70-22892
- IR light dispersion filters of compressed mixed powdered crystals, discussing optimal preparation procedures, passbands temperature dependence and stability 10 p1915 A70-24256
- Graphite IR radiator for radiative capacity and flame temperature measurements investigated for life time dependence on ambient pressure and temperature 10 p1888 A70-24257
- Atomic oxygen IR emission in earth atmospheric models, using reduction factor for comparison with optically thin atmosphere 10 p1875 A70-24439
- Carbon oxyfluoride IR radiation from boundary layer formed by arc-heated air passing over Teflon surface 10 p1968 A70-24475
- IR oxygen emission transmission characteristics in atmosphere compared with ground-based observation 10 p1876 A70-24538
- IR radiation sources /irtrons/ accounting for energy releases by continuous matter and antimatter creation 10 p1947 A70-24997
- Atmospheric absorption by ozone of solar radiation measured by balloon-borne spectrometer in 9-10 micron region 11 p2045 A70-25627
- Nimbus high resolution IR radiometer /HRIR/ data processed by color display enhancement system, demonstrating meteorological, oceanographic and geomorphological applications 11 p2049 A70-25636
- Corrugated skins solar absorbance and IR emittance computed for spacecraft thermal design, analyzing other nondiffusive radiative enclosures 11 p2150 A70-26352
- Recombination in hydrogen-oxygen reaction studied by monitoring IR emission from water vapor formed by shock initiated combustion 11 p1995 A70-26377
- IR radiation intensity distribution in solar neighborhood from grain models of dirty ice, graphite and graphite core-dirty ice mantle 11 p2106 A70-26710
- IR absorption in ozone band, including atmospheric inhomogeneity effects on accuracy of transmittance calculations 12 p2223 A70-27515
- Q switched CO-HE laser IR fluorescence, considering population inversion recovery by vibrational energy transfer 13 p2423 A70-28496
- Compton electron scattering generated galactic gamma ray flux effects on diffuse IR 13 p2476 A70-28630
- UV, visible and IR radiation measurement, discussing spectral distribution, thermopiles, monochromatic radiation and power measurements 13 p2410 A70-29653
- Lower and upper atmospheric IR fluxes and equivalent radiation temperatures measurements, describing two- and four-sphere mean radiation temperature /MRT/ meter 13 p2410 A70-29662
- Solar observations in intermediate IR, measuring continuum intensity of disk center in atmospheric water vapor window 13 p2498 A70-30006
- Atmospheric absorption, scattering and turbulence effect on visible and IR radiation propagation, discussing optical systems performance 14 p2583 A70-30399
- Cosmic IR radiation sources, discussing galactic and stellar masses 14 p2632 A70-30882
- Lunar IR radiation measurements for estimating thermophysical properties and small scale surface nature 14 p2645 A70-31057
- Balloon-borne midinfrared observations of lunar surface composition from interpreting peak emissivity differences 14 p2645 A70-31058
- Earth-space path attenuation measurements by 8-14 micrometer telescope appended to sun tracker 16 p2861 A70-32989
- Gas breakdown produced by long wave IR pulsed radiation of carbon dioxide laser 16 p2928 A70-33655
- Nitric oxide gas IR radiation properties at high temperatures, determining spectral mean fine structure and total band absorbance correlations 16 p3003 A70-34253
- Solar and IR radiation distribution in multiple scattering and absorbing ground fog, obtaining intensities, fluxes and vertical divergence 18 p3284 A70-35943
- IR radiation diffuse reflection, transmission and emission in water clouds 18 p3244 A70-35950
- Upper atmosphere IR emission model with reference to thermal excitation, chemical reactions and electron excitation 18 p3246 A70-36173
- IR absorption by water vapor in transmittance windows, considering continuous absorption coefficient dependence on window width 19 p3461 A70-37425
- Photon pair annihilation process in graviton pair, examining IR emission in two scalar particle collision 19 p3472 A70-38172
- Auroral enhancement of IR oxygen band, considering electric field excitation mechanisms 19 p3414 A70-38383
- Evening twilight airglow oxygen IR band ground based observation by two-channel photometric technique 19 p3415 A70-38385
- Nova Ser 1970 and Aql 1970 luminous IR emission, discussing stellar brightness, grain formation and optical decay 20 p3701 A70-39004
- CAT detection by IR radiation, remotely detecting atmospheric horizontal temperature gradients 20 p3626 A70-39080
- High speed electro-optic spectral scanning in UV, visible and IR regions, using monochromator deflection of dispersed light 20 p3671 A70-39090
- Anomalous IR auroral emission observation during rocket flight, indicating unknown energy sources of oxygen excitation 20 p3621 A70-39350
- InAs pulsed injection laser at cryogenic temperature for measuring time constant of IR radiation detectors 20 p3630 A70-39449
- Optical thermal testing by IR radiation, reviewing thermistor bolometer, various detectors, radiometric microscopes, NDT equipment, etc 21 p3831 A70-40747
- Apollo 11 rocks IR absorption properties, specific heat and thermal conductivity, discussing heat flow in surface layer 21 p3913 A70-41642
- IR radiation, transmission and detection in non-destructive testing, discussing atmospheric transmission, thermal and photon-type detectors, etc 22 p4029 A70-42595
- GaAs laser and noncoherent IR emitting diodes fabrication and design, discussing card readers, encoders, alarms, range finders, bomb fuses and night vision systems 22 p4050 A70-43248
- Stratosphere radiation measurements by Nimbus 3 infrared spectrometer for 15 micron frequency, considering temperature variations 24 p4330 A70-46074
- Ocean currents and sea surface temperature remote sensing by Nimbus 2 High Resolution IR Radiometer 24 p4332 A70-46400
- INFRARED REFLECTION**
- IR reflectance studies of lunar surface composition, showing absorption spectra suggestive of ferrous iron, olivines and orthopyroxenes 01 p0182 A70-10721
- Semiautomatic data collection system for IR reflectivity measurements, recording digitized output on punched cards for computer analysis 01 p0088 A70-10747
- Diamond-like glassy semiconductor compound of cadmium germanium arsenide, determining optical lattice vibrations from IR reflection spectra 01 p0160 A70-11599
- Solar IR light brightness distribution reflected by volcanic covers compared with lunar observation data 04 p0744 A70-14439
- Angular distribution measurements of visible and near IR radiation reflected from carbon dioxide cryodeposits formed on liquid nitrogen cooled surface in vacuum 04 p0720 A70-15538
- [ALAA PAPER 69-63] Doped n-type Ga-As electrophysical parameters determinable from IR reflection spectra 05 p0892 A70-16540
- Laboratory irradiation of rock samples for solar wind flux effects on IR reflectivity of lunar rocks 08 p1579 A70-21565
- Water depth determination by remote measurement of near IR reflectance of underwater plants, discussing effects of water path length changes 10 p1878 A70-24741
- IR reflectance of cirrostratus and cirrus clouds and jet contrail measured by spectrometer on high altitude aircraft 11 p2045 A70-25626
- Solar light brightness distribution reflected by volcanic covers compared with lunar observation data 13 p2485 A70-28464
- IR reflection spectrum of corundum compared for heating by reflecting furnace and laser radiation, discussing phonons statistical distribution 13 p2429 A70-29639
- InAs thin films electrical properties and IR reflectance, determining thickness and substrate temperature effects on carrier concentration and mobility 15 p2783 A70-31965
- IR radiation diffuse reflection, transmission and emission in water clouds 18 p3244 A70-35950

Lunar rocks mineralogy and visible and near IR reflectivity, discussing depression in telescopic curve
21 p3912 A70-41637

Visible and near IR radiation reflectance from vegetation, discussing incident solar radiation plant structures, leaf areas shadows and absorption by chlorophylls
22 p4014 A70-42767

INFRARED SCANNERS

NT MULTISPECTRAL BAND SCANNERS

IR microscope and digitally programmed mirror system for printed circuit inspection, allowing two dimensional scanning and magnetic tape reference
01 p0054 A70-10024

IR spectrometer scanning function measurement by gas laser
01 p0092 A70-10989

Aircraft multispectral IR scanning systems for earth resources remote sensing, discussing capabilities
03 p0491 A70-13670

Line scanning IR imagery system for thermal mapping of fire, water and soil conditions
05 p0836 A70-15770

IR energy interaction with earth atmosphere, determining multispectral scanner optimum wavelength intervals for earth resources applications
[AIAA PAPER 70-289] 09 p1669 A70-22892

Airborne IR line scanning systems for forest fire surveillance, determining size and characteristics during smoke or darkness
09 p1686 A70-23753

Earth IR horizon seasonal and longer variations for horizon sensing instruments design
12 p2226 A70-27931

Probe rocket Tacite 02 head attitude gyrorestoration for IR horizon analysis, using stellar sensor and signal measurements
13 p2500 A70-28408

Lunar surface brightness temperatures from IR observations, determining thermal emission directional characteristics to infer surface temperatures from Surveyor data
[AIAA PAPER 69-593] 13 p2486 A70-28501

Low altitude atmospheric effects on IR beam horizon sensors in carbon dioxide band, noting corrections for spacecraft attitude measurement
15 p2735 A70-31792

Airborne IR scanner as geophysical research tool depicting surface emission and heat mass transfer
18 p3259 A70-36558

Satellite-borne conical IR scanner flight data hybrid simulation and error analysis, suggesting carbon dioxide horizon noise model
[AIAA PAPER 70-1021] 20 p3631 A70-39513

Mechanical passive cone angle amplifier for spinning sounding rockets for IR sky scanning, solving equations of motion for system
21 p3931 A70-41905

Multispectral IR scanner system for earth resources survey programs
22 p4037 A70-43087

INFRARED SPECTRA

Atlas of near IR spectra of Venus, Mars, Jupiter and Saturn obtained by Fourier spectroscopy, discussing observational procedures, data recording and processing
01 p0173 A70-10078

Jupiter and Saturn near IR spectra for relative abundances of atmospheric constituents and distribution with altitude, noting rough solar composition
01 p0179 A70-10526

IR spectrometer on Mariner 7 Mars flyby recording sharp absorption near 3 microns at Martian southern polar cap
01 p0182 A70-10823

Double beam Michelson interferometer for middle IR with moving mirrors operating in constant velocity mode, applying method to atmospheric emission spectra
01 p0091 A70-10909

Near IR reflection spectra of artificial cumulus clouds with progressive droplet sizes
01 p0076 A70-10911

Stratospheric water vapor distribution from analyzing IR solar spectrum during sunset observed by balloon-borne spectrometer
01 p0081 A70-11295

Nitrogen, oxygen and air luminescence spectra excited by fast electrons at low gas pressures in IR spectral region compared with polar auroral spectra
01 p0083 A70-11536

Carbon dioxide temperature distribution, absorption and concentration as functions of molecular dissociation behind shock wave determined by measuring IR bands intensity
01 p0069 A70-11623

Hydrogen pressure-induced IR absorption spectra, noting applications to planetary atmosphere studies
02 p0341 A70-11805

Variable distribution of ammonia absorption on Jupiter deduced from IR spectra, indicating scattering in cloud layer
02 p0366 A70-11810

Atmospheric transmittance line by line calculations along variable pressure and mixing ratio paths from 1.7-20 microns
[AFCRL-70-0061] 02 p0289 A70-11908

IR spectra of four carbon stars and Sirius obtained with Michelson interferometer, indicating diatomic carbon and CO bands
02 p0372 A70-12252

IR spectrum of Jupiter with calibrations from laboratory studies of methane and ammonia bands
02 p0378 A70-12559

IR spectra of N isotopes adsorbed on nickel-on-Aerosil catalysts, investigating effects of intermolecular interaction and isotopic substitution
03 p0440 A70-13099

Eta Carinae IR region emission and absorption spectra characteristics in tabular form
03 p0565 A70-13269

IR spectra of M stars and alpha Tau obtained with Michelson interferometer, observing molecular features and water vapor absorption
04 p0747 A70-14548

Low resolution spectra of IR stars NML Tau, CIT 3, 6 and 13 considered inadequate for molecular band identification
04 p0748 A70-14591

IR colors and optical and IR spectra of irregular M variable star and bright OH source VY CMa indicating supergiant classification
04 p0749 A70-14592

Solar photospheric Fe abundance determined from IR supermultiplet line spectra, considering LTE effects
04 p0749 A70-14597

External optical phonon modes in ammonium and deuteroammonium halides phase transitions as function of temperature, using IR and Raman spectra
04 p0646 A70-14695

Integrated intensity measurements of carbon dioxide bands in micron regions, using self-broadening method
04 p0690 A70-15025

Spectral absorption and transparency of water vapor, carbon dioxide, carbon monoxide, methane and nitrous oxide bands in IR region
04 p0715 A70-15255

Identification of lines in Mohler photometric atlas of IR solar spectrum wavelengths
05 p0910 A70-16427

IR solar spectrum including water vapor, carbon dioxide and methane bands
05 p0913 A70-16566

Raman and IR spectra of unsymmetrical dimethylhydrazine and unsymmetrical dimethylhydrazine-d2 recorded in liquid and gaseous states
06 p1128 A70-17329

IR region spectral hemispherical emittance of surfaces measured by bihemispherical reflectometer
[AIAA PAPER 70-65] 06 p1107 A70-18205

Grating spectrometer with Ge-Cu detector used on balloon flights for studying variations of IR solar spectrum with altitude, emphasizing sunset features
06 p1152 A70-18523

Methylamine crystals lattice vibrations IR spectra recordings, making spectral band assignments according to translational and librational motions
07 p1356 A70-18958

IR spectra excited by fast electrons in nitrogen, oxygen, carbon monoxide, carbon dioxide, nitrogen oxide, methane, ammonia and water molecules
07 p1337 A70-19045

Nitrogen IR emission spectra from atomic and molecular excited electronic states transitions, studying DC discharges at various pressures
07 p1339 A70-20092

Jupiter and Saturn IR reflection spectra observed with Michelson interferometer-spectrometer, eliminating effects of terrestrial atmospheric absorption, solar spectral lines, etc
08 p1570 A70-20895

Threshold switching and thermal filaments in thick specimen of amorphous semiconductor using IR spectrum viewer
08 p1477 A70-21540

IR spectral absorption coefficients determined for water vapor at high temperatures, describing experimental details including data acquisition and reduction
09 p1725 A70-22069

IR absorption spectral curve interpretation using computer program for iterative solution
09 p1726 A70-22138

Hypersensitization of IR films for use in stellar photometry, discussing laboratory and astronomical tests
09 p1673 A70-22158

Seasonal measurements of atmospheric transmittance spectra for horizontal near-earth paths in IR region under haze and clear weather
09 p1666 A70-22179

Water vapor emission detection from IR stars, discussing radial velocities of microwave lines
09 p1756 A70-22523

Solar IR Fraunhofer line damping constants empirical values and variation with optical depth, noting discrepancy with theoretical constants
09 p1757 A70-22726

Photographic and IR multiband spectral discrimination for rock and soil mapping from orbiting ERTS satellites
[AIAA PAPER 70-303] 09 p1668 A70-22882

Binary collision-induced rotational far IR spectrum of tetrahedral molecular gas, using induced absorption theory
09 p1732 A70-22905

Saturn ring IR spectrum, discussing resemblance and discrepancies of ammonia and water frost spectra
10 p1935 A70-23813

Epoxy glass fiber composites pyrolyzates IR spectra as function of time, observing changes in fingerprint region
10 p1828 A70-24065

Gadolinium II solar lines classification from photographic IR observations
10 p1947 A70-24990

Stellar and planetary IR spectra from spectrometer with rotating circular variable thickness interference filter
11 p2113 A70-26468

Multichannel IR spectrophotometer to obtain albedo curves of Martian surface
12 p2229 A70-26927

Book on rotational structure of diatomic molecules spectra covering multiplets, intensity distributions and perturbations
12 p2274 A70-27094

Auroral enhancement of IR oxygen band at 1.27 micron compared with molecular nitrogen band intensity
12 p2222 A70-27185

Absorption spectra of semiinsulating gallium arsenide in IR region, investigating transmittance and absorption coefficient at room and low temperatures
12 p2287 A70-27492

Solar IR triplet of singly ionized Ca, suggesting limb darkening caused by chromospheric inhomogeneities for source function inequality
12 p2303 A70-27703

Solar rotational line positions due to red band in IR continuum region to resolve blue-violet ambiguity
12 p2303 A70-27704

Experimental IR earth horizon profiles measured by satellite in F region, discussing spectral channels and attitude control
12 p2225 A70-27751

Stark cell with high electric fields for studying inactive IR spectrum of homonuclear diatomic gas molecules
13 p2450 A70-28499

Nonoriented cadmium silicon arsenide single crystals optical properties, determining spectral distribution of IR absorptivity for various photon energies
13 p2470 A70-28883

IR reflection spectrum of corundum compared for heating by reflecting furnace and laser radiation, discussing phonons statistical distribution
13 p2429 A70-29639

Star HBV 475 emission spectra in near IR due to H, He I, OI and Ca II, confirming symbiotic character
13 p2495 A70-29641

Ice radiation and reflection characteristics in IR spectral region at certain Brewster angles
14 p2568 A70-30133

Radiant heat flux for standard model, dry and humid atmosphere, calculating temperature variations with altitude for entire IR spectrum
14 p2603 A70-30401

Water vapor absorption bands in solar IR spectrum, considering earth curvature and atmospheric inhomogeneity and refraction
14 p2572 A70-30404

Lunar surface thermal emission spectra, calculating IR emissivities
14 p2637 A70-30495

Bright IR stars observed using photometry and spectroscopy, suggesting protostars presence
14 p2641 A70-30880

OH radio emission from IR stars, discussing spectra, polarization properties and red giant star model with expanding atmosphere
14 p2641 A70-30881

IR photography extension into long wave region of spectrum, discussing contact sensitized and electrically controlled semiconductor photographic systems
15 p2734 A70-31632

Gaseous Al oxide bond bending frequency in Ne and Ar matrices at liquid He temperatures, investigating IR spectrum
15 p2695 A70-32830

Near IR electronic emission spectrum of positive column in flowing oxygen electric discharge, noting vibrational temperature
16 p2955 A70-33981

IR Raman and vibrational spectra and structure of gaseous and liquid 1-pyrazoline
16 p2857 A70-34007

IR and Raman spectra of gaseous and liquid germyl-cyclopentane, determining torsional barriers and skeletal ring atom symmetry

16 p2858 A70-34008
Interstellar silicate absorption in IR spectra, discussing existing observations

17 p3157 A70-34840
Approximate formulas for disperse attenuation and scattering coefficients for water drops in visible and IR spectrum

18 p3260 A70-36973
Trichroic IR absorption lines of triglycine selenate, computing optical and dielectric constants from transmission and reflection data

19 p3470 A70-37366
Electron temperature and concentration profiles behind shock front from IR emission and absorption simultaneous measurement, applying method to xenon ionization and recombination processes

19 p3402 A70-37443
Water vapor and OH spectra overlap, investigating association of galactic OH masers and water emission sources with IR stars

19 p3444 A70-37571
Pulsed emission in midinfrared region at neutral atomic transitions of inert gases and mixtures, tabulating wavelengths, intensity, component ratios and optimal pressure

19 p3448 A70-38736
Diatomic Cs 7667 A band vibrational spectrum analysis

20 p3676 A70-40349
Carbon dioxide and CO IR vibration-rotation spectral absorption coefficients, noting harmonic oscillator approximation

21 p3851 A70-40589
Aerosol IR emission, discussing relative humidity, water droplet size and temperature effects on atmospheric radiance levels

21 p3846 A70-40804
Atmospheric temperature profiles from terrestrial IR spectral radiances measured by balloon-borne grating spectrometer, discussing surface temperature variations

21 p3813 A70-40905
Auroral optical emission measurements, examining oxygen atmospheric and IR bands by rocket sounding

21 p3817 A70-41092
Solid para hydrogen IR and Raman spectra frequency analysis, examining lattice vibration effects

21 p3853 A70-41721
High resistivity single crystal silicon wafers induced IR absorption measurement, using Nd doped glass laser

21 p3837 A70-41916
Stellar IR spectra for types A0 to M7, using Mertz type Michelson interferometer as Fourier transform spectrometer

21 p3922 A70-41980
Planetary nebula NGC 7027 IR line spectra emission, examining S IV and AR III line intensities

22 p4094 A70-42933
Narrow band IR photometry of star alpha Orion, testing hypothetical correlation of emission peak with starlight-reflecting silicate dust

22 p4105 A70-43229
Circumstellar dust cloud model of spectral distribution and anomalous excess emissions in IR T Tauri and red giant stars coincident with photometric measurements

23 p4239 A70-43868
IR absorption bands absolute intensities determination method, giving special consideration to absorption band wings and precision

23 p4217 A70-44203
Ozone vertical distribution from satellite IR data, discussing Fredholm equations for radiation transfer

23 p4191 A70-44269
IR absorption spectra of high-cis forms of deuterated polyisoprenes

23 p4157 A70-44274
Spectral absorption of 2.7 micron water vapor band under various high temperature and pressure conditions, using black body radiation

23 p4220 A70-44444
Mars topography from Mariner 6 and 7 IR spectra, discussing geographical resolution, surface carbon dioxide pressure, depressions, ridges and valleys

24 p4399 A70-45128
Argon matrix isolated ammonia, examining IR spectra by carbon dioxide laser irradiation

24 p4354 A70-45648
Herculis 89 supergiant abnormal IR radiation flux originating in circumstellar shell of solid particles radiating at observed long wavelengths

24 p4410 A70-45772
Low temperature stars SiO IR spectral band identification based on rotation-vibration spectrum calculation

24 p4411 A70-45777

INFRARED SPECTROMETERS

Hydrocarbon content of coorongite derived from algae analyzed by IR spectrometry, gas chromatog-

raphy and mass spectrometry, discussing alkanes and alkenes occurrence

01 p0041 A70-10037
IR spectrometer scanning function measurement by gas laser

01 p0092 A70-10989
Grille spectrometer design for thermal IR measurements, discussing requirements to achieve optimum performance

02 p0296 A70-11917
Near IR reflectance spectrometer integrated into environmental chamber to study frost spectral properties

06 p1072 A70-18522
Long wave IR spectrometer with two diffraction gratings for various micron ranges

08 p1493 A70-20544
High resolution Fourier interference near IR spectrometer for aircraft, balloon and spacecraft remote sensing applications

09 p1683 A70-23508
Atmospheric temperature determination by satellite IR spectrometer (SIRS-A), describing data analysis and instrument design, calibration and performance

12 p2263 A70-26954
Grating spectrometer performance in measuring earth IR radiance determined from balloon flights

12 p2235 A70-27752
IR Michelson interferometer for Mariner Mars 1971 mission, investigating atmospheric and surface temperatures and atmospheric water vapor content

16 p2978 A70-34029
Nimbus 3 satellite-borne Michelson interferometer IR spectrometer for spectrum measurement, obtaining temperature, water vapor and ozone vertical distribution

18 p3257 A70-36175
Aircraft-borne spectrometer for atmospheric IR spectral transparency

18 p3260 A70-36972
Grille spectrometer design, fabrication and adjustments, noting increased IR sensitivity over slit devices

19 p3421 A70-37358
Atmospheric ozone remote sensing by high resolution IR interferometer spectrometer (IRIS) aboard Nimbus 3 satellite

19 p3414 A70-38262
Michelson IR interferometer spectrometer (IRIS) design calibration and performance onboard Nimbus 3 satellite, demonstrating data reduction and inflight calibration

20 p3626 A70-39078
Stellar IR spectra for types A0 to M7, using Mertz type Michelson interferometer as Fourier transform spectrometer

21 p3922 A70-41980
Temperature and height data for synoptic stratospheric evaluation, using Nimbus 3 satellite IR spectrometer

22 p4064 A70-42618
Double beam diffraction grating spectrometer for vacuum operation over far IR from 40 microns to 1 mm

24 p4339 A70-46323
INFRARED SPECTROPHOTOMETERS

Size and cost of Al mirror IR photometric telescopes optimized for scientific information acquisition

14 p2586 A70-30896

INFRARED SPECTROSCOPY

Nimbus 3 satellite carrying IR spectrometer to measure spectral radiances and retrieve atmospheric temperature profiles

04 p0675 A70-14393
Mariner 6 and 7 missions IR spectrometric records showing evidence of solid carbon dioxide in Martian upper atmosphere

06 p1137 A70-17194
Satellite determination of underlying surface temperature by IR spectroscopy, measuring emitted radiation in atmospheric windows

06 p1061 A70-17205
Reaction rate constants in heated mixture of hydrogen, carbon dioxide and Ar behind shock waves measured by IR spectroscopy

12 p2274 A70-26891
Airborne geological mapping by IR emission spectroscopy, describing instrumentation, materials discrimination capability, data processing, etc

12 p2230 A70-26957
IR spectroscopy and lasers for analysis of atmosphere in air pollution research and monitoring

13 p2407 A70-29106
IR spectroscopy, determining relative populations of carbon dioxide vibrational energy levels by comparing emission intensities

13 p2455 A70-29131
Tunable diode laser for high resolution IR spectroscopy of sulfur hexafluoride absorption near carbon dioxide laser lines

13 p2430 A70-29832
Bibliography of far IR spectroscopy with subject index

14 p2586 A70-30987

Mariner 6 and 7 TV camera pictures of Mars during approach and encounter, discussing IR spectroscopy, celestial mechanics experiment and Martian terrain

17 p3158 A70-34875
Atomic spectroscopy of IR laser transitions in gases excited by HF pulsed discharges

17 p3105 A70-35093
Submillimeter gas lasers with low noise and CW operation for far IR spectroscopy, noting emission lines multiplicity

20 p3641 A70-39423
Lunar environment diagnostic features enhancement on IR emission spectra, making moon excellent target for remote sensing

20 p3709 A70-39979
Peroxyacetyl nitrate decomposition products under continued and discontinued irradiations determined by IR spectral analysis

22 p3983 A70-42944
Ammonia gas phase IR intensity measurements for hydrogen bonding energy and related parameters

23 p4158 A70-44783
Boron impurities introduction into InP crystals grown by liquid encapsulation, detecting IR absorption bands due to localized lattice vibration

23 p4231 A70-44891

INFRARED TRACKING

Automatic IR control and tracking systems for aviation, space flights and military use, discussing sensor elements

01 p0139 A70-11262
Carbon dioxide laser radar system for studying radar techniques application to IR, discussing automatic tracking capability provision

03 p0450 A70-13676
Rockets trajectories recording on real time at Guiana Space Center using IR pointing deviation meter

15 p2698 A70-31960
Onboard IR receiver and ground photorecorder for Meteor satellite cloud tracking, using computer processed data

15 p2738 A70-32112

INFRASONIC FREQUENCIES

Two station simultaneous observations of auroral infrasonic wave substorms morphologies

01 p0071 A70-10411
Microbarographic oscillations associated with geomagnetic activity during observation of infrasonic waves on geomagnetically disturbed days

01 p0081 A70-11298
Health hazards and physiological effects of atmospheric infrasonic waves, discussing sources, ear protecting devices and electrochemical detectors

02 p0247 A70-12467
Auroral motions determined by absorption onsets pattern and infrasonic wave morphology

10 p1880 A70-24803
Infrasonic waves generated by pulsating aurora, using Joule heating and Lorentz force coupling

13 p2399 A70-29236
Infrasonic waves generation by supersonic translation of auroral electrojet currents

13 p2399 A70-29237
Long range infrasound from rockets, showing two wave groups generated by launch and first stage reentry

19 p3531 A70-37694

INGESTION [BIOLOGY]

NT DRINKING

NT EATING

Food ingestion initiation, investigating role of hyposmotic solutions from observation of rats under water deprivation

13 p2353 A70-29495
Antidiuresis associated with oral cavity stimulation during food ingestion by rats

13 p2355 A70-29813
Mongrel dogs pulmonary and systemic circulatory responses to dopamine infusion

20 p3569 A70-38986

INGESTION [ENGINES]

A-7 aircraft TF-41 engine tolerance to steam ingestion, discussing test program and results and engine modifications

01 p0165 A70-10700
Birdstrikes as aircraft hazard, discussing structural damage, engine ingestion and various countermeasures

18 p3213 A70-36319
Exhaust gas ingestion suppression model tests for VTOL lift engines, measuring inlet thermal environment

[AIAA PAPER 70-905] 19 p3490 A70-37396

INGOTS

Porosity formation in Al ingots made by semicontinuous casting, considering metal grade and purity, gas content and homogenization conditions

08 p1505 A70-21136
Homogeneity of commercially pure Ti and Ti-Al-V ingots, discussing oxygen distribution uniformity over cross section

17 p3112 A70-34353
Ti alloy ingot chemical macroinhomogeneity, investigating elimination by vacuum arc melting

17 p3112 A70-34355

INHABITANTS

NT MOUNTAIN INHABITANTS

INHALATION

U RESPIRATION

INHIBITION

Orientation detectors in human visual cortex, suggesting mutual lateral inhibition 23 p1414 A70-43813

INHIBITION (PSYCHOLOGY)

Retrospective and proactive inhibition in verbal discrimination learning, using paradigms characteristic of paired-associate retention studies 03 p0435 A70-13768

Efferent model to test inhibitory influence of inferotemporal cortex lesions on visual discrimination of monkeys, using paired flashes of light 04 p0629 A70-14449

Inhibitive stimulus control related to behavioral contrast during discriminative training 08 p1441 A70-20476

Vestibular nystagmic and electrical responses facilitation, inhibition and habituation, noting modulation by subcortical and cortical systems 14 p2538 A70-30909

Nervous inhibition effect on electroretinogram b wave during flash sequences 24 p4301 A70-45986

INHIBITORS

NT WEAR INHIBITORS

Burning velocity of methane-air flames inhibited by methyl bromide, using schlieren cone-nozzle burner method involving unburnt gas velocity measurement 03 p0607 A70-13918

Alpha-methyl-DOPA inhibitor effect on catecholamines and cardiac spontaneous activity in pacemaker fibers in rabbits 06 p0992 A70-17422

Cerebral biopotentials of rabbits exposed to RF weak electromagnetic field indicating cortex inhibition in EEGs 07 p1199 A70-18728

Glutethimide and aminoglutethimide reversible inhibitory effect on rat pituitary adrenal system in response to stress 07 p1203 A70-18902

Erythropoiesis inhibitor in blood from rabbit kidney vein during hyperoxia in nitrogen-oxygen atmosphere 14 p2535 A70-30155

Fast brittle crack slowing by mechanical twins in transformer steel and by slip bands in LiF and NaCl crystals 15 p2755 A70-31526

Tetrafluorodibromo-ethane and bromethyl inhibiting effects on explosion development in constant volume container and flame expansion rates in hydrogen-air mixtures 18 p3345 A70-36241

Auxin downward transport by gravity in leaves, examining ethylene inhibition 20 p3570 A70-39234

INHOMOGENEITY

Critical detonation diameter as function of concentration and dimensions of inhomogeneities in explosive, assuming chemical reaction generated behind detonation front 01 p0217 A70-11005

Stresses in plane elastic bodies analyzed by generalizing biharmonic stress function equation in polar coordinates, assuming constant Poisson ratio and nonhomogeneity 01 p0206 A70-11152

Transient temperature distribution in inhomogeneous material, using finite difference representation for temperature time derivative [ASME PAPER 69-WA/HT-33] 04 p0782 A70-14807

Fe diffusion coefficients measured at various temperatures above 1150 C to calculate homogenization times of Thailand tektite source 05 p0917 A70-16841

Disturbances in infinite aeolotropic inhomogeneous medium due to transient forces and twists on elastic cylindrical source surface 07 p1407 A70-19382

Nonlinear integral equations for inhomogeneous atmospheres derived from radiative transfer equations global form, noting relations to Ueno and Chandrasekhar equations 07 p1336 A70-20059

Torsional vibrations of nonhomogeneous anisotropic finite circular tube, computing natural frequencies for various parameters 07 p1414 A70-20173

Multibeam interferometer sensitivity restrictions due to diffraction effects on interference patterns near transparent inhomogeneities 08 p1493 A70-20540

Radio waveguides with random inhomogeneities, studying mathematical models by orthogonalization method 08 p1457 A70-20723

Total optical field in inhomogeneous medium, questioning uniqueness of division into direct and reversed wave propagation 08 p1546 A70-21785

Perseids time distribution, based on observations during meteor showers, contradicting appearance of homogeneous Poisson process 09 p1750 A70-22099

Active element inhomogeneity effects on semiconductor injection lasers emission spectra and radiation intensity distribution 09 p1695 A70-22481

Navier-Stokes equation approximation for nonhomogeneous case obtained by relating Burgers equation to Riccati equation through similarity transformation 09 p1711 A70-22613

Plane electromagnetic waves scattering from radially inhomogeneous cylindrical structure, deriving expressions for far field and cross section for both polarizations 10 p1841 A70-24856

Linear heat propagation in rarefied and nonhomogeneous atmospheres, considering Green function behavior and various boundary and initial value problems 11 p2107 A70-25542

Solar wind structure as function of corotating coronal inhomogeneities determined using perturbation equations for spherical polar coordinate system 12 p2292 A70-27179

Analytic expressions for concentration distribution functions in inhomogeneous solids within intermediate stages of homogenization process 12 p2253 A70-27282

Electromagnetic wave scattering on passively reflecting statistical clusters of inhomogeneities 12 p2184 A70-27498

Electromagnetic waves emission and propagation in chaotically inhomogeneous media, analyzing mean field and permittivity tensor for isotropic and anisotropic media 12 p2190 A70-28170

Geometrical theory of nonlinearly elastic inhomogeneous flexible shells, deriving variational equation in terms of displacement component and stress function 13 p2514 A70-29288

Anisotropic solar cosmic rays in inhomogeneous medium, investigating shell effect on pre-propagation by one dimensional model 15 p2795 A70-32624

Chemical and structural microinhomogeneity, diffusion and mechanical properties of Ti alloys in connection with phase transformation characteristics 17 p3112 A70-34354

Ti alloy ingot chemical macroinhomogeneity, investigating elimination by vacuum arc melting 17 p3112 A70-34355

Underlying surface inhomogeneity effect on radiation in presence of solid cloud cover 18 p3287 A70-36975

Planetary surface inhomogeneities detection by reflected and transmitted light polarimetry, using symmetry principles 18 p3319 A70-37057

Atmospheric inhomogeneity, comparing effective mass and Curtis-Godson approximation methods for transfer function of absorbing gas distribution 19 p3461 A70-37632

Gyrotropic waveguides parameters computer calculation based on inhomogeneous isotropic region, taking into account discontinuities 19 p3378 A70-37736

Safety factor limit analysis for anisotropic nonhomogeneous solids by variational method, exemplifying by four layer rectangular beam 19 p3547 A70-38355

Ti alloys fine structure, mechanical properties and alloying elements diffusion mobility during heat treatment, observing chemical and structural inhomogeneities 20 p3645 A70-39040

Nonhomogeneous shell theory, considering load carrying surfaces with constitutive equations independent of shell curvature 20 p3719 A70-39619

Plasma inhomogeneities effects on MHD generators I-V characteristics, energy conversion efficiency and optimum duct geometry 20 p3564 A70-39636

Mach-Zehnder interferometer for holographic investigation of inhomogeneities in transparent media, discussing photointerpretation error reduction 20 p3633 A70-39749

Statistically nonhomogeneous fields by variational principles of elasticity, obtaining bounds of average displacement for hollow sphere under pressure 20 p3732 A70-40112

External field perturbations by local inhomogeneities in elastic medium, deriving expressions for interaction energy and forces between defects 21 p3933 A70-40604

Electromagnetic wave propagation in inhomogeneous anisotropic linear media, discussing ray tracing, permittivity and relativistic electrodynamics 21 p3785 A70-40798

Linear heat propagation in rarefied and nonhomogeneous atmospheres, considering Green function behavior and various boundary and initial value problems 21 p3892 A70-41292

Beamguides with inhomogeneities regulated for constant radiation losses, systematizing broadening 22 p3984 A70-42389

Stationary saddle points phase method for wave diffraction problems in inhomogeneous medium, deriving asymptotic expansion for surface integrals 22 p3984 A70-42390

EM wave propagation in inhomogeneous media, examining permittivity and permeability 23 p4217 A70-43768

One dimensional radiation transfer equation in nonhomogeneous particle field, discussing spatial variations, particle number density, temperature, size distribution and optical properties 23 p4281 A70-44445

INITIAL VALUE PROBLEMS

U BOUNDARY VALUE PROBLEMS

INITIATION

Fatal ejections in USN, suggesting initiation delay as prime causal factor 07 p1191 A70-19006

Shock wave amplitude found strongest influence in explosives initiation to detonation by shock 07 p1359 A70-19675

INITIATORS (EXPLOSIVES)

NT DETONATORS

Electroexplosive devices - Conference, San Francisco, July 1969 03 p0544 A70-14101

Apollo spacecraft pyrotechnics on lunar landing mission, considering standard initiator, modular cartridges, noninterchangeability of special purpose devices, postmanufacture indexing and data system 03 p0582 A70-14102

Saturn 5 thru-bulkhead initiator for solid propellant rocket motor ignition, discussing transfer design, pressure output and postfire leakage 03 p0546 A70-14105

Electroexplosively powered release valve for high pressure N stored in hermetically sealed container of missile, discussing design and performance tests 03 p0546 A70-14106

Vacuum deposited thin film bridges in electroexplosive devices, discussing composition, surface conditions, substrate temperature, bell jar atmosphere and deposition rate 03 p0546 A70-14107

Detached electrode electroexplosive devices consisting of cylindrical column of explosive loaded into tube with thin closure disk at input end 03 p0547 A70-14109

Ordnance circuit RF filter in backshell of standard connector, discussing design, physical-electrical specifications and tests 03 p0494 A70-14113

Protuding, stepped and conical end fittings for confined detonating fuse, discussing assembly procedures effect on characteristics based on statistical scanning test 03 p0547 A70-14115

Nomographical solution of electroexplosive device firing time equation permitting firing data prediction from blueprint data 03 p0548 A70-14117

Computerized approximations for quantitative predictions of EED firing characteristics based on header geometry and electrical leads 03 p0548 A70-14118

Electrical and thermal factors in mathematical characterization of electroexplosive devices, including heuristic predictions 03 p0548 A70-14119

Electroexplosive devices output energy measurement through metal deformation by lead block and projectile penetration methods 03 p0548 A70-14121

Design reliability of through-bulkhead initiator explosive train using parametric test program data, discussing shock transmission and acceptor charge sensitivity energy balance 03 p0549 A70-14124

Test method for inertial impact sensor switches subjected to multiple and varied shock inputs, using high energy detonators 03 p0494 A70-14128

Electroexplosive devices (EED) in electromagnetic environments, discussing principles of warship safety 03 p0549 A70-14129

Broadband RF filter/attenuator plug to replace plastic type plugs for protecting wire bridge electroexplosive devices against RF energy 03 p0495 A70-14130

Electro-pyrotechnic initiators for space applications subjected to dry heat sterilization cycles and to post-sterilization mechanical and electrical environments 03 p0495 A70-14131

Electroexplosive devices protection from electrostatic discharge by creation of preferential discharge path, considering use of high intensity neon lamp 03 p0549 A70-14134

Philosophical, design, hardware or static sensitivity type myths refutation concerning electroexplosive devices 03 p0549 A70-14135

Test setup to determine safe limits of atmospheric potential gradients in electroexplosive device initiation 03 p0549 A70-14136

Initiator desensitization process involving use of volatile inert liquid to increase safety during assembly operations 03 p0549 A70-14137

Instrumentation concepts for electromagnetic compatibility measurements on electroexplosive devices, considering thin film thermocouple, electrical diode detector and microstrip transmission line techniques 03 p0495 A70-14138

Reduced ambient pressure effects on hot wire sensitivity of initiating materials of electroexplosive devices used in missiles 03 p0549 A70-14139

CW and radar type RF signal effects on electroexplosive devices sensitivity in bridgewire heating mode 03 p0550 A70-14142

Fluoric sensor for RF induced currents providing alternative to bridge wires as initiators of explosive charges 14 p2534 A70-30681

INJECTION GUIDANCE

Geostationary satellite payload-optimal injection trajectory from nonequatorial firing range, describing dog-logging maneuvers 03 p0573 A70-13845

Multiorbit injection earth departure technique for optimal thrust-weight ratio in manned interplanetary missions using NERVA engine [AAS PAPER 70-039] 17 p3175 A70-34780

Optimal explicit guidance equation using maximum principle for two stage vehicle injecting satellite into parking orbit 17 p3134 A70-35289

Parking orbit optimal orientation for minimal impulse maneuvers total velocity increment in three dimensional capture-escape mission [AIAA PAPER 69-918] 17 p3172 A70-35649

INJECTION LASERS

Frequency control of ruby laser pumped lithium niobate singly resonant parametric oscillator by radiation injection of CW Nd-YAG laser 01 p0110 A70-10566

Light emission by solids, discussing injection lasers, luminescence semiconductor diodes, group 2 and 6 compounds, etc 01 p0160 A70-11288

GaAs injection laser operated with external optical resonator for diffraction-limited radiation, considering peak power and quantum efficiency 02 p0311 A70-11920

Semiconductor injection laser modes, considering inhomogeneous lasing action levels over p-n junction area 03 p0499 A70-13410

Thermoelastic stresses in diode of pulsed and CW injection lasers, showing energy parameter limitation 03 p0499 A70-13437

Low threshold injection lasers in IR and visible spectrum at room temperature employing AlAs-GaAs heterojunctions, noting use for CW mode 03 p0501 A70-13723

Simple approximations for threshold current, gain and lasing frequency of GaAs injection laser at room temperature 03 p0503 A70-14085

Injection laser amplifier with emitting and amplifying diodes coupled by planar polyharmonic beam waveguide 04 p0702 A70-15292

Self induced light pulses from GaAs injection lasers in pulse driven diodes at liquid nitrogen temperatures, noting pulse width and frequency 04 p0703 A70-15623

Emission modulation in multifunctional injection laser-photodiode system used as optical memory, pulse generator, multivibrator and trigger 05 p0859 A70-16268

Semiconductor injection laser with large emitting area, discussing light absorption, waveguide channel formation as factors obstructing laser action 06 p1082 A70-17821

Injection laser theory taking into account radiative emission rates and spectral dependence, using two band semiconductor model 07 p1298 A70-19395

Thermoelastic stress degradation of injection lasers at high excitation levels, giving critical current densities for short pulse, CW and quasi-CW conditions 08 p1512 A70-20861

Semiconductor injection laser, analyzing light absorption by free carriers and gain characteristics 09 p1694 A70-22133

Active element inhomogeneity effects on semiconductor injection lasers emission spectra and radiation intensity distribution 09 p1695 A70-22481

Injection lasers for multichannel optical communication using composite cavities to improve spectral output 09 p1698 A70-23359

Second harmonic emission from GaAs injection laser and from stimulated KDP crystal at room temperature 12 p2245 A70-27306

Waveguide optical properties effect on injection GaAs laser threshold lasing and field distribution in near/far zones for various parameters of active region 12 p2246 A70-27365

Temperature effects on injection semiconductor lasers optical gain and threshold current using energy spectrum model 12 p2247 A70-27485

Active region characteristics of double injection laser employing electron-hole plasma in p-type indium antimonide 12 p2247 A70-27491

Emission field and Fermi quasi-levels distribution in injection laser with n-p heterojunction, determining frequency and threshold current temperature dependence 13 p2426 A70-28876

Injection lasers as logic elements in optical communication systems with time division multiplexing, examining optimal switching and pulse duration reduction 13 p2428 A70-29406

Injection semiconductor lasers emission characteristics, discussing gallium arsenide diodes, nonlinear losses in pulsed mode, laser interactions, etc 15 p2749 A70-31453

CW injection laser frequency stability, noting injection current influence on lasing frequency 15 p2750 A70-31629

Injection laser communication link for high data rate transmission, discussing design and construction of transmitter and receiver 16 p2862 A70-33139

GaAs laser with inhomogeneous injection, noting instability of stimulated RF oscillations 17 p3108 A70-35631

Reflectivity effect on external quantum efficiency of Fabry-Perot type GaAs injection lasers 18 p3268 A70-36731

Self induced intensity pulsations frequency stabilization and narrowing in continuously operating GaAs injection lasers 18 p3269 A70-36734

Self induced sustained light pulsations from GaAs injection lasers with tandem double section stripe geometry based on repetitively Q switched model 18 p3269 A70-36735

Pulsed GaAs injection lasers second harmonic generation with nonlinear crystal alpha iodic acid phase matched by angular tuning 18 p3269 A70-36737

InAs pulsed injection laser at cryogenic temperature for measuring time constant of IR radiation detectors 20 p3630 A70-39449

Thermoelectrically cooled GaAlAs injection laser illuminator, discussing optical-electronic interface problems and design and performance characteristics 22 p4052 A70-43603

GaAs injection lasers, calculating effect of active region displacement from p-n junction waveguide on wave generation 23 p4203 A70-45074

INJECTORS

Rocket engines gas/liquid injectors atomization characteristics using molten wax technique, considering drop sizes and gas streams velocity, density and pressure 01 p0161 A70-10326

Compression wave mechanism of supersonic combustion controlled by mixing, discussing multiple injector design, thermal compression and geometry effect 02 p0399 A70-12041

Fluorine injectors for main tank injection of space vehicle liquid hydrogen tank, including study of hypergolicity and reaction product freezing 04 p0736 A70-15406

Frozen wax measurement of droplet sizes and sprays from impinging injector elements, concerning like and unlike doublets and quintuplets 04 p0786 A70-15416

Optimum injector design for propellant spray mixing using nonreactive simulants and combustion efficiency model 04 p0737 A70-15419

Liquid rocket engine combustion processes determined by injector design using similarity principles 07 p1362 A70-19919

Optimum penetration and separation mixing of unlike doublet injector element with hypergolic hydrazine and nitrogen tetroxide propellants [JPL-TR-32-1487] 11 p2099 A70-25995

Solid state diffusion bonding applied to rocket engine injectors manufacture [AIAA PAPER 70-639] 16 p2968 A70-33597

Optimum manifold and injector hole area of pulsed exhaust systems of two cycle engine with turbosupercharger 22 p4091 A70-42809

Optimum acceleration profile for minimum severity index in injuries sustained by human subject 23 p4150 A70-44376

INLET FLOW

MHD entrance region compressible flow characteristics, determining velocity pressure and temperature distributions, friction and heat transfer coefficients, etc 01 p0067 A70-11136

Laminar isothermal entrance flows in circular cross section ducts with uniform mass injection at wall from boundary layer equations, discussing molecular weight effects 02 p0288 A70-12859

Monograph on laminar flow heat transfer in thermal entrance region of flat and profiled ducts, treating construction and efficiency of plate heat exchangers 03 p0603 A70-12988

Turbulent boundary layer of incompressible fluid flow in axisymmetric channels with swirl at inlet, considering components interaction, velocity, circulation profiles and resistance 03 p0466 A70-13389

MHD generators physical phenomena, discussing thermal efficiency, inlet parameters, operating principles, etc 04 p0625 A70-14716

Circular tube entrance upstream and downstream velocity profiles at small axial distances measured by laser Doppler flowmeter [ASME PAPER 69-WA/FE-13] 04 p0667 A70-14780

Heat transfer to absorbing fluid by coupled thermal radiation and laminar forced convection at pipe entry region, considering gray and nongray absorption [ASME PAPER 69-WA/HT-16] 04 p0783 A70-14818

Viscous inlet flow into straight channels, studying velocity profiles at low Reynolds numbers [ASME PAPER 69-APM-Q] 04 p0668 A70-14863

Noise radiated from VTOL lifting fan in wing inlet under static inflow conditions, attributing discrete tones to spacing between rotor and stator blades [ASME PAPER 69-WA/GT-6] 04 p0734 A70-14889

Settling length for turbulent air flow velocity profile in smooth concentric annuli with square-edged and bellmouth entrances [ASME PAPER 69-WA/APM-24] 04 p0669 A70-14908

Entrance length and pressure drop in MHD parallel plate channel flow using one parameter Pohlhausen method 05 p0887 A70-15978

Nonequilibrium models describing two phase critical discharge of initially saturated or subcooled liquid through sharp edged and smooth inlet geometries 05 p0956 A70-16162

Suddenly started laminar flow in circular tube entrance region, obtaining integral momentum equation for boundary layer thickness, entrance length, velocity profile, etc 06 p1034 A70-17528

Small disturbance theory for internal conical inlet hypersonic flows, using method of characteristics for similarity law verification [AIAA PAPER 70-127] 06 p0969 A70-18048

Velocity profile at entrance of two dimensional channel immersed in rarefied slow moving uniform flow with slip at walls

06 p1052 A70-18384

Heat transfer at inlet edge of turbine blade based on wind tunnel study of cylinder in air flow

07 p1362 A70-19061

Laminar flow forced convection heat transfer in circular pipe entrance region for constant wall temperature and constant wall heat flux

07 p1420 A70-19215

Cylindrical tubes steady axisymmetric inlet flow at lower Reynolds numbers, applying results to blood vessels entry flow

07 p1205 A70-19244

Blood-endothelial surface shear stress in artery inlet, considering asymmetric and radially symmetric plugging effects

07 p1220 A70-19248

Premixed compression initiated supersonic combustion, noting sensitivity to small perturbations in inlet flow variables

[AIAA PAPER 68-995] 07 p1421 A70-19318

Thermal entrance region effect on Nusselt number determination in asymmetrically heated rectangular duct with uniform heat flux

07 p1425 A70-20223

Straight-walled two dimensional diffusers with incompressible steady flow, noting effects of inlet blockage and aspect ratio on performance

08 p1433 A70-21322

Polymeric materials flow at tube entrance, discussing pressure drop and flow birefringent patterns at tapered and sharp entrances

08 p1486 A70-21861

Turbulent heat transfer in boundary layer at inlet of porous tube under nonisothermal conditions, studying velocity variations

09 p1787 A70-22169

Small disturbance and similitude applicability to internal hypersonic conical flows in edge shock and Busemann inlets

09 p1606 A70-23245

Velocity distribution along cylindrical pipe in adiabatic flow with friction and known inlet parameters

09 p1607 A70-23616

Laminar flow into channel with symmetrical jets along walls, considering velocity profiles and flow establishment lengths

10 p1870 A70-24790

Heat transfer at inlet edge of turbine blade based on wind tunnel study of cylinder in air flow

10 p1930 A70-25212

Conducting fluid incompressible flow in entrance of MHD channel by momentum integral method, permitting edge stress existence at boundary layer free steam interface

[AIAA PAPER 69-724] 11 p2035 A70-25977

Steady state two dimensional flow velocity profiles at low Reynolds numbers of homogeneous incompressible viscous liquid in straight channel inlet region

11 p2037 A70-26476

Turbulent and laminar heat transfer to gases in circular ducts entry region, considering various gas properties

12 p2212 A70-28114

Turbulent heat transfer in concentric annuli entrance region with uniform wall heat flux

12 p2333 A70-28117

Viscosity variation factor at film inlet in fluid square taper pad bearing investigated by modified Reynolds equation

13 p2418 A70-28746

Random data analysis application to aircraft inlet diagnostics

[AIAA PAPER 70-597] 13 p2375 A70-29878

Inflow and pressure difference for mean flow in straight suction duct with porous walls, using elementary momentum analysis

13 p2392 A70-30020

Steady and nonsteady engine/inlet flow field simulation for engine/compressor testing, determining feasibility of variable ramp aerodynamic device

[AIAA PAPER 70-591] 15 p2672 A70-31788

One flow influence on another at two plane jets interaction zone, applying to proportional fluid amplifier inlet impedance calculation

15 p2720 A70-32020

Heat transfer between incompressible fluid flow and insulated walls with time varying temperature at channel inlet, applying Laplace transforms

15 p2827 A70-32175

Inlet and engine control vector size and weight reduction, reliability, accuracy, etc

[AIAA PAPER 70-696] 16 p2967 A70-33559

Mathematical model of pulsatile viscous entrance flow in thick walled elastic tube, investigating flow development effects in large arteries

17 p3035 A70-34471

Hydrodynamic entry length for laminar flow between parallel porous plates, using finite difference theory for flow equations

17 p3069 A70-34983

Plane diffuser grid profiles for subcritical velocities of oncoming flow, using wind tunnel test data

18 p3205 A70-36129

Axial flow compressor off-design performance optimization by adjustable inlet guide vanes with variable trailing edge flaps

18 p3304 A70-36846

Axial flow compressor cascades, predicting total pressure losses for inlet relative Mach number greater than unity

[ASME PAPER 70-GT-57] 18 p3209 A70-36872

Tailpipe effects on gas turbine diffuser performance with fully developed inlet conditions

[ASME PAPER 70-GT-86] 18 p3210 A70-36881

Incompressible MHD flow in entrance region of channel with electrically conducting walls, calculating interacted laminar heat transfer by integral method

21 p3856 A70-41038

Constant property unsteady laminar flow thermal entrance problems, using variational formulation in Laplace transformed domain

21 p3954 A70-42169

Laminar-turbulent transition in magnetic field using Plexiglas model, observing inlet conditions effect on MHD flow stability

21 p3861 A70-42234

Newtonian fluid turbulent flow development characteristics in inlet region of smooth concentric annulus from momentum integral equations

22 p3957 A70-42304

Jet engine compressor noise analysis, noting inlet swirl role

22 p4090 A70-42725

Variable geometry radial inflow turbine performance estimation based on one dimensional flow theory

22 p3960 A70-43738

Controlled filling of container with compressed gas through time-variable cross section inlet, using variable mass thermodynamics

23 p4180 A70-44160

Turbulent nonadiabatic flow of compressible gas at inlet and main sections of variable cross section plane channel

23 p4183 A70-44739

Incompressible laminar flow in entrance region of rectangular duct allowing direct computation of eigenvalues

24 p4287 A70-45294

Porous tube inlet region, calculating fluid injection effect on laminar flow from integral form boundary layer equations

24 p4326 A70-45782

Radial inflow turbine optimum design geometry, calculating nozzle and rotor geometrical parameters efficiency

24 p4395 A70-46012

INLET NOZZLES

Entrance shape effects on tube rarefied flow in transition regime, noting role of Reynolds number in shape selection

04 p0675 A70-15593

Isentropic inlet diffusers of short design length at supersonic velocities

06 p0963 A70-17233

Flow distribution for short isentropic supersonic inlet diffusers, using method of characteristics and Oswatitch and Connors procedures

06 p0963 A70-17234

Wind tunnel tests of isentropic inlet diffusers, describing two dimensional model, test apparatus and modification and results

06 p0963 A70-17235

Inlet-engine compatibility testing for aircraft system development program

[AIAA PAPER 70-941] 16 p2965 A70-33534

Auxiliary inlet ejector and plug nozzle flight performance, describing design variation effects for high supersonic speeds

[AIAA PAPER 70-701] 16 p2841 A70-33563

Ejector maximum compression ratio calculation based on inlet nozzle gas flow model

21 p3746 A70-41767

Transition zone heat exchange during air mixed flow in pipes with conical duct or Vitoshinski nozzle inlets

23 p4283 A70-44729

INLET PRESSURE

Stability region of hydraulic system containing centrifugal pump calculated from pressure head dependence on pump inlet pressure

09 p1607 A70-23622

Aircraft turbojet engine/inlet compatibility, using data system for acquisition, identification and analysis of critical time variant pressure parameters

[AIAA PAPER 70-594] 13 p2375 A70-29877

Starting criterion for hypersonic inlets with large turbulent boundary layers, considering total pressure recovery from all shock and viscous losses

14 p2529 A70-30865

Gas-particle efflux from nozzle at critical velocities, noting particle size and concentration effects on inlet pressure

15 p2721 A70-32136

INLETS (DEVICES)

U INTAKE SYSTEMS

INNER RADIATION BELT

Satellite radiation dose rates in inner Van Allen belt, correlating calculated and measured rates with proton environment model

06 p1134 A70-17264

Space radiation doses in inner Van Allen belt, comparing calculated and satellite measured rates

06 p0991 A70-17272

Satellite observational data on time history of inner radiation belt /October 1963-December 1968/

09 p1746 A70-23488

Cosmos 137 proton spectra data obtained in inner radiation belt agreeing with Relay 1 data

11 p2106 A70-26786

Time comparative low energy proton measurements in inner radiation belt by Rubis rocket with detector telescopes and omnidirectional counters

13 p2475 A70-28572

Radio sounding of Van Allen inner belt from Antarctica, comparing American and Soviet deductions about magnetosphere structure

13 p2399 A70-29273

High energy proton flux variations in inner belt during solar cycle and magnetic storm, using satellite and balloon measurements

13 p2483 A70-30091

Book on dynamics of geomagnetically trapped radiation, covering radiation belts control, adiabatic theory, trapped particle diffusion, etc

16 p2972 A70-34300

Proton distribution in radiation belt inner zone from radial diffusion addition to cosmic ray produced albedo-neutron decay and atmospheric collision loss

17 p3150 A70-34644

INOCULATION

Radar measured precipitation increase from seeded cloud demonstrated by measurements, numerical cumulus model and physical reasoning

12 p2189 A70-28094

INORGANIC COATINGS

NT ANODIC COATINGS

NT CERAMIC COATINGS

Reflectance of clean and fluoride coated aluminum surfaces in vacuum UV

05 p0883 A70-16590

Soviet collection of papers on inorganic glassy coatings and materials

05 p0870 A70-16591

Metals mechanical properties with inorganic heat resistant coatings between 1900-2300 K in oxidizing medium, describing facility based on solar furnace

05 p0875 A70-17069

Dielectric coatings resistance to laser radiation, measuring rupture threshold of vacuum coatings consisting of zinc sulfide layers

10 p1901 A70-25111

Service life and friction coefficient of molybdenum disulfide-silicon lubricating coating as function of load, sliding rate and vacuum level

11 p2060 A70-25943

Boron and boron carbide coatings formation on graphite by vapor deposition, determining optimum parameters for reaction control

19 p3455 A70-38250

INORGANIC COMPOUNDS

NT AMMONIA

NT LIQUID AMMONIA

Thermal decomposition mechanism of inorganic oxidizers, discussing reactivity of alkali and alkali earth salts

18 p3299 A70-36240

Uridine phosphorylation by heating with inorganic orthophosphates achieved via nucleoside reactions

23 p4158 A70-44837

Inorganic liquid lasers, discussing Nd salts solution preparation and handling methods

23 p4201 A70-44929

INORGANIC MATERIALS

Inorganic liquid laser materials and use of circulating active medium

08 p1513 A70-21302

Inorganic ceramic materials in design and fabrication of microwave antennas, filters and stable resonators, discussing density and dielectric constant variability by ceramics foaming

09 p1689 A70-22007

Thermal analysis - Conference, Holy Cross College, August 1968, Volume 2, Inorganic materials and physical chemistry

11 p2070 A70-25808

INORGANIC NITRATES

NT AMMONIUM NITRATES

NT HYDRAZINE NITRATE

NT SILVER NITRATES

INORGANIC PEROXIDES

NT HYDROGEN PEROXIDE

Peroxides, superoxides and ozonides applications in industrial chemistry, semiconductors and rocket motor fuels, discussing chemical structure and properties and nomenclature

05 p0810 A70-15768

INORGANIC SULFIDES

NT CADMIUM SULFIDES

NT COPPER SULFIDES

NT HYDROGEN SULFIDE

NT MOLYBDENUM DISULFIDES

NT MOLYBDENUM SULFIDES
NT POLYSULFIDES
NT ZINC SULFIDES

INPUT
Rockets angular motion due to thrust with ramp input, presenting graphs for different inputs and inertia ratios
11 p2123 A70-26125
Random-input describing function as linear approximation to instantaneous nonlinearity in terms of minimum mean-squared error
13 p2382 A70-29070
Adaptive optimization methods involving minimization of unknown function, determining new input location via sequential search
13 p2383 A70-29583
High speed digital computer input device for reading data from magnetic tape, discussing design and operation principles
18 p3230 A70-36095
Real time analog display inputs for electronic computers and tracking in physiological control circuits, describing various manual controls
19 p3367 A70-37564
Bayesian identification of system parameters for observable and nonobservable input signals
24 p4316 A70-45474

INPUT/OUTPUT ROUTINES
State variable diagram for transfer function of single output/input linear stationary system obtained by parallel, direct and iterative methods
05 p0928 A70-16027
Autonomy and invariance conditions for control systems composed of multivariable components having same number of inputs and outputs
07 p1244 A70-18768
Pulse neurons random homogeneous networks macroscopic description, considering operation modes in terms of input frequencies and output pulse sequences
08 p1451 A70-21000
Real time sonic information input/output computer system for acoustic signals and speech synthesis, concerning man machine communication
14 p2553 A70-30425
Stable adaptive control design for linear time-invariant system with same number of inputs as outputs, considering disturbance effect
16 p2881 A70-33035
Finite settling response for single input/output feedback control system obtained by dual rate sampled data control algorithm
16 p2882 A70-33037
Digital computer input language with multiple access for engineering calculations
19 p3385 A70-38577
Linear discrete feedback systems uniqueness, existence and stability under various input-output conditions
22 p4004 A70-43024

INSECTICIDES
NT URETHANES

INSECTS
NT BEETLES
NT DROSOPHILA
NT MOTHS
Hibernation and glycerol production in wasps Ichneumonidae, discussing possible physiological cryoprotective function
24 p4304 A70-46140

INSENSITIVITY
U SENSITIVITY

INSERTION
Human mitral valve morphology, distinguishing chordae tendineae types by insertion mode
10 p1819 A70-24935

INSERTION LOSS
Microwave waveguide insertion-loss calibrations, comparing cavity Q and direct measurement methods
10 p1854 A70-25315

INSERTS
NT NOZZLE INSERTS
Infinite elastic plate with beam reinforced circular insert, using classical plate theory and Euler-Bernoulli hypothesis for beams
16 p2990 A70-33679
Water and alkali metal boilers, predicting helical-flow-promoting inserts effect on pressure drop penalties by constant slip model
21 p3949 A70-41308
Stress analysis of anisotropic circular ring with pressed-in solid disk, using sectionally holomorphic functions
22 p4119 A70-43686

INSPECTION
NT INFRARED INSPECTION
NT X RAY INSPECTION
Inspection penetrant systems reliability and performance predictability for nondestructive flaw detection
01 p0096 A70-10005
Automated inspection for defects and dimensions - Conference, Eastbourne, England, May 1969
01 p0105 A70-11394

Nondestructive inspection program for DC 10 aircraft maintenance
02 p0308 A70-12273
Automatic inspection data collecting and processing by human operator using display devices and computerized mathematical reduction for real time evaluation
02 p0266 A70-12469
Nondestructive test procedures for maintaining and determining serviceability of penetrant inspection materials during use
05 p0844 A70-15780
Lasers for optical inspection of components and calibration of machine tools
05 p0860 A70-16823
Liquid oxygen usage inspection penetrant systems combining nonreactivity with flaw detection sensitivity
08 p1508 A70-21745
Life support systems general inspection procedures, personal and survival equipment and accessories
11 p1990 A70-25673
Economical inspection of numerical-control produced parts through critical dimensions determination and dimension measurement reduction [SME PAPER IQ-70-710]
12 p2241 A70-27086
Computerized on-line industrial inspection involving automatic machine sequential control and product geometry error correction, discussing hardware and software requirements [SME PAPER IQ-70-712]
12 p2241 A70-27088
Manufacturing error rate and inspection efficiency relevance to hardware product reliability
12 p2244 A70-28014
Quality control goals for manufactured products translated into manufacturing process inspection and investment costs terms
13 p2421 A70-29675
Defect grouping role in MIL-STD-105D inspection techniques, discussing costs and acceptance probabilities
22 p4048 A70-43727
Ultrasonic crack detection in fastener holes in C-5A wings
24 p4341 A70-45571
Nondestructive testing technology, emphasizing component designer role in facilitating inspection of surface defects
24 p4342 A70-45679
Thickness measurement and internal defects inspection by ultrasonic resonance technique
24 p4343 A70-45683
Fluorescent penetrants vs magnetic powder test for individual and continuous material inspection, discussing sensitivity and surface finish influence
24 p4338 A70-45741
Inspection penetrant development for flaw detection, considering entrapment efficiency and dimensional sensitivity
24 p4348 A70-45743

INSPIRATION
Human tolerance and ventilatory response to inspiratory mechanical loads
23 p4144 A70-43822

INSTABILITY
U STABILITY

INSTALLATION
U INSTALLING

INSTALLING
Installation planning of electronic data processing unit using network and PERT program features
03 p0454 A70-13969
High precision strain gage installation, discussing specifications and errors caused by oblique load action, natural frequency and deformation
08 p1493 A70-20585
Accelerometer installation resonant frequency, discussing mounting methods, structure material, geometry and total mass
17 p3089 A70-35174

INSTITUTIONS
Launch facilities institutionalization for space shuttles launch cost minimization [AIAA PAPER 70-244]
07 p1251 A70-20374
Launch facilities institutionalization for space shuttles launch cost minimization [AIAA PAPER 70-244]
20 p3606 A70-39697

INSTRUCTIONS
U EDUCATION

INSTRUCTORS
Elementary flight training study in Royal Netherlands Air Force for improving pilot selection, discussing instructor and social science roles
12 p2176 A70-27030
Civilian pilot trainee stress level dependence on individual flying instructors, detecting psychophysiological variables by inflight recording
12 p2178 A70-27044

INSTRUMENT APPROACH
VTOL flight investigation to develop decelerating instrument approach capability with control-command information display for three degrees of freedom [SAE PAPER 690693]
05 p0792 A70-15862

INSTRUMENT COMPENSATION
Terminal area guidance for unpowered aircraft instrument approach relevant to manned space shuttle effort
14 p2614 A70-30465
Head up display /HUD/ flight tests, examining effects decreasing quality of manually handled instrument approach, discussing space myopia and disorientation
16 p2912 A70-33819
Pilot scanning dwell times and control workload in simulated instrument approach, using eye-point-of-regard/EPR/ measurements [AIAA PAPER 70-999]
20 p3580 A70-39532
Pilot heart rate during in-flight simulated ILS approaches in general aviation aircraft
24 p4306 A70-45333

INSTRUMENT COMPENSATION
NT TEMPERATURE COMPENSATION
One piece KDP and ADP reflector shutters used as laser Q switches, discussing compensation for working surfaces temperature displacement
01 p1016 A70-10060
Flip-flop type intergimbal compensation system for gyroscopic integrators error reduction, obtaining natural oscillations constant amplitude
01 p0092 A70-10987
Refraction-induced range and tracking errors estimation in exponential model atmosphere by closed functions
01 p0044 A70-11087
Low temperature high sensitivity temperature compensated heat flux transducers to measure conductive, convective and radiative heat transfer
02 p0303 A70-12740
Optimal nonlinear correcting of vertical gyro obtainable with correction containing nonlinear elements with variable linearized coefficients
03 p0483 A70-13363
Gyrostabil motion stabilization with respect to unperturbed circular orbit vector radius, considering gravitational, aerodynamic, perturbation moments action and zero dry friction moment
03 p0484 A70-13370
Constant temperature hot-wire anemometer to compensate for thermal lag of wire/film resistance thermometer within useful frequency range
03 p0492 A70-13761
Vertical gyroscope with nonlinear compensation circuit under random distortion of signal spectral composition
05 p0880 A70-16223
Ion counter circuit using second equivalent condenser for compensating background radiation current, assessing error
07 p1281 A70-19526
Solid state lasers thermal resonator buckling time dependence and compensation, graphing results of resonator field analysis
07 p1303 A70-20359
Dynamic force measurement methods, considering reaction force and operational compensation
09 p1672 A70-22013
Distortion-compensation circuit theory, considering voltage-frequency characteristics and varactor controlled oscillator nonlinearities of frequency modulators
09 p1632 A70-22235
Parabolic reflectors profile error compensation by means of multielement feed array with controllable phasing
09 p1644 A70-22236
Laser beam with small divergence angle kept in horizontal position by leveling instrument with automatic compensating device, discussing distortion effects on localization
09 p1699 A70-23442
Atmospheric particles photographed in situ by cameras using microsecond flash lamps, discussing required mechanical motion compensation at aircraft speed
10 p1886 A70-23930
Vacuum chamber for adjusting and calibrating spaceborne optical instruments used in studying UV radiations
10 p1860 A70-24479
Dynamic force measurement, evaluating hybrid system with reaction force summation and operational compensation subsystems
10 p1889 A70-24580
Microwave phase shift measurement errors caused by reflections from interference systems elements
10 p1853 A70-25130
Multiplicity recorder for cosmic rays neutron component studies, reducing star redistribution errors by coincidence effect compensation
11 p2103 A70-25527
Holographic compensation for atmospherically induced phase distortion of IR laser beam
11 p2049 A70-25638
Mechanical systems vibrations comprising tension couplings compensating misalignment between non-coaxial shafts
11 p2060 A70-26348

- Adjustable gyroscope errors under compensating-loop linearity zone limitation, showing saturation filtering influence on sensing element
12 p2233 A70-27562
- Gyroscopic platform stabilizers /GPS/ dynamic properties improved by compensation of perturbing torques
12 p2237 A70-28155
- Automatic cancelling devices with compensating coils for terrestrial magnetic field vector
13 p2401 A70-30044
- Motion and small vibration frequency stability of correctable gyroscope with correction moment at arbitrary angle with mismatch plane
15 p2738 A70-32154
- Adaptive radar beacon forming, using conjugate reflections for propagation path errors compensation
16 p2865 A70-34061
- Static weight tare compensation for V/STOL wind tunnel models, using accelerometer outputs
17 p3062 A70-35500
- Flight test instrumentation for V/STOL stability derivatives extraction, noting instrument errors and required compensation
17 p3094 A70-35502
- Magnetic compensation for attitude control of gravity gradient stabilized satellite using environmental torques and moment gyro damping
[ALAA PAPER 70-993]
20 p3668 A70-39537
- Strain gages for structural stress analysis in cryogenic environments, discussing correction factors for temperature dependent characteristics
21 p3932 A70-40545
- Multiplicity recorder for cosmic rays neutron component studies, reducing star redistribution errors by coincidence effect compensation
21 p3882 A70-41277
- Error sources and magnitudes in dynamic gradiometer using inertial grade pendulous accelerometer, discussing compensating modifications
22 p4042 A70-43658
- Ultrasonic inspection sensitivity loss, discussing depth compensation methods
24 p4343 A70-45690
- Circuit design providing thermal compensation for atmospheric pressure sensor, using mercury barometer
24 p4340 A70-46403
- INSTRUMENT DRIFT**
- Optimal nonlinear correcting of vertical gyro obtainable with correction containing nonlinear elements with variable linearized coefficients
03 p0483 A70-13363
- Transistorized photoelectric star transit recorder operable in ambient media with large temperature variations ensuring low zero point drift
04 p0694 A70-15490
- Drift error of correctable three degree of freedom free-floating astatic gyrocompass mounted on aircraft flying straight course at uniform speed
05 p0848 A70-16224
- INSTRUMENT ERRORS**
- Aeronautical satellites for monitoring positions of many commercial aircraft simultaneously crossing North Atlantic, discussing navigational error correction and atmospheric
01 p0178 A70-10454
- Right ascension screw error effects on observations of stellar image passage through meridian, evaluating effect
01 p0181 A70-10662
- Hot-wire probe support orientation to minimize flat plate turbulent boundary layer mean velocity determination errors
01 p0087 A70-10665
- Absorber positioning inaccuracy influence in concentrating solar unit mirror on unit energy parameters, discussing defocusing
01 p0010 A70-10763
- Flowmeter errors caused by nuclear magnetic relaxation decreased with increasing magnetic field strength of NMR sensor
01 p0091 A70-10981
- Flip-flop type intergimbal compensation system for gyroscopic integrators error reduction, obtaining natural oscillations constant amplitude
01 p0092 A70-10987
- X band electron paramagnetic resonance spectrometer with ruby maser preamplifier, correcting misinterpretation and noise figure analysis
01 p0114 A70-11196
- Instrument error analysis for spacecraft orientation and positioning near planet from planet disk observations
01 p0094 A70-11511
- Algorithm for determining readings dispersion during cosmic rays variability, statistical nature and instrument errors
01 p0172 A70-11526
- Rb-75 adapted reconnaissance cameras error sources on basis of processed Echo 2 satellite photographs
02 p0294 A70-11772

- Automatic landing systems research including VHF ILS accuracy, test equipment for servicing airborne equipment, etc
02 p0333 A70-11981
- Lateral separations using navigation error analysis, showing values for aircraft with or without Dioscures and inertial control under North Atlantic conditions
02 p0336 A70-12607
- Readjustment of aircraft navigation systems based on inertial platforms, discussing errors, corrections and damping stressing single platform
02 p0336 A70-12608
- Reliability of Doppler radar hail detection, discussing corrupting effects of turbulence and shear, size-sorting and vertical air motions
03 p0443 A70-13167
- UV radiation scattering and rocking instrument error source in vertical ozone profile determination with optical ozone probes
03 p0557 A70-13296
- Thermal balance of radiosonde thermometric elements and radiation errors in atmospheric temperature measurements using spectra of radiation fluxes reflected from cloud cover
03 p0557 A70-13297
- Gyrocompass composed of angular velocity integrators and interconnected by correction amplifiers, analyzing behavior during roll on vessel, determining error components
03 p0484 A70-13371
- Doppler memory mode of ground speed and drift angle calculations analyzed by operators for possible errors
04 p0716 A70-14629
- Corrections to observed thermistor temperature profiles presented for spherical bead thermistors with long lead or thin film mounting
[AAS PAPER 69-568]
04 p0687 A70-14664
- Probability theory for gimbal errors in directional gyroscopes under irregular rocking, using linearization of functions of random arguments
04 p0692 A70-15281
- Axial misalignment control of gimbal pivots and rotors in gyroscopes
04 p0692 A70-15282
- Error sources affecting data comparison accuracy between gyro measurements and reference solutions and due to gyro axes misalignment and gimbal angular movement
04 p0692 A70-15327
- Semidiurnal lunar tidal wave influence on clock corrections obtained by observations of stellar meridian passages at four localities
04 p0756 A70-15479
- Time measurement errors from astronomical observations resulting from thermal and refractive effects on instrument
04 p0756 A70-15482
- Transit instrument suspension improvement by isolating unloading mechanism from horizontal axis, reducing external observation errors
04 p0693 A70-15483
- Prismatic astrolabe errors, analyzing focal plane displacement due to temperature, micrometer motor adjustment, instrument and personal errors
04 p0693 A70-15485
- Differential screw gauge for determining micrometer screw periodic errors and error components in level triers, using Rydberg method
04 p0693 A70-15488
- Piezoelectric sensing diaphragm for detection of micrometeorites in space, noting vibration mode and effect of small beads contact time on calibration errors
04 p0695 A70-15567
- Block diagram for eliminating counting errors and spurious coincidences in telescope used at cosmic ray stations
05 p0845 A70-15931
- Neutron monitor calibration method to eliminate natural cosmic ray background, decreasing errors due to ray intensity variation
05 p0846 A70-15938
- Azimuthal telescope for recording cosmic rays intensity, noting statistical error for vertical and oblique incident component
05 p0846 A70-15967
- Aerological radio thermometers random and systematic errors compared to network radio probe
05 p0848 A70-16206
- Optical resonator reaction to coupled laser frequency, attributing differences between theory and experiment to errors in mirror reflection efficiency measurement
05 p0859 A70-16354
- Triaxial universal astrometric instrument for tracking artificial satellite path with eyepiece crosswire, considering instrument errors
05 p0851 A70-16698
- Network ozonometer compared to ozonometers with narrow interference filters, finding fictitious day lapse in data
06 p1064 A70-17791
- Errors arising in torsion-type ponderomotive wattmeter connected in homogeneous microwave trans-

- mission line with mismatched oscillator at input and mismatched load at output
06 p1024 A70-17861
- Photoelectric multislit micrometer for astronomical purposes, presenting stochastic variables mean error difference formula for arbitrary power spectrum
06 p1071 A70-18458
- Photometric error analysis and optimum use of photomultipliers, discussing pulse-height spectra, detection and weighting systems
06 p1071 A70-18517
- Flight configured single sideband telemetry accuracy determined by digitally computed frequency response
06 p1012 A70-18600
- Error analysis for pendulum type gyrocompass with indirect correction during irregular rolling, taking into account second infinitesimal order terms of equations of motion
07 p1278 A70-18735
- Linear vibrations in gimbal suspension rotor and base, estimating gyroscope drift during base and rotor vibrational coincidence
07 p1279 A70-18738
- Microscope objective effect on accuracy of optical systems modulation-transfer function based on corrected high speed lens measurements
07 p1334 A70-19147
- Optimal photometric data processing for planetary characteristics and surface details, considering errors due to image blurring in telescope
07 p1384 A70-19419
- Error estimation of gondola encased tugged undersea magnetometer as function of turbulence parameters
07 p1281 A70-19466
- Finite structural rigidity of statically unbalanced three degree of freedom gyroscope influence on operation, discussing instrument error
07 p1282 A70-19535
- Active and compensating sensors resistances, strain sensitivities, temperature gradients and lead resistances differences effect on accuracy of resistance strain gage measurements
07 p1283 A70-19747
- Inertial navigation system design principles, deriving error equations and equations of ideal operation
07 p1332 A70-20177
- High precision strain gage installation, discussing specifications and errors caused by oblique load action, natural frequency and deformation
08 p1493 A70-20585
- Soviet collection of papers on apparatus for meteorological measurements covering error analysis, reliability engineering, use of computers, etc
08 p1494 A70-20771
- Chromatic aberrations of Poltava observatory AVR-2 refractor
08 p1496 A70-21161
- Cup and vane anemometers theory, determining overestimation errors of differential equation for mean values in sinusoidally fluctuating winds
08 p1501 A70-21975
- Sewage water flowmeter calibration, analyzing error propagation and tolerance
09 p1672 A70-22027
- Stars photographic position determination errors with NAFA-3C/25 camera, comparing films and plates
09 p1673 A70-22164
- Atmospheric momentum and heat flux height variations in surface boundary layer, stressing instrument performance and measurement techniques
09 p1715 A70-22359
- Flow noise measurement for boundary layer pressure fluctuations at rigid wall, analyzing effect of transducer size, shape and orientation on resolution
09 p1675 A70-22387
- Strain gages for static deformation measurement of fiberglass reinforced plastics at room and higher temperatures, discussing error sources and gage-specimen adhesive bonding
09 p1780 A70-23107
- Tungsten-rhenium thermocouple for high temperature measurement of samples under unsteady heating processes, analyzing instrument error sources
09 p1789 A70-23108
- Directional gyroscopes with accelerated rotors on moving bases, deriving gyro errors as base motion functions
09 p1680 A70-23145
- Positional contact micrometer used to eliminate stars apparent oblique motion in astronomical universal instruments
09 p1681 A70-23342
- Dispersion effect on accuracy of measuring polycrystalline samples electronograms by comparator using statistical method
09 p1682 A70-23392
- Airborne monochromator and photoelectric filter radiometer for solar spectral irradiance measurements, estimating instrument errors
09 p1683 A70-23515

- Scanning spherical mirror interferometer for carbon dioxide lasers radiation spectrum analysis, discussing instrument errors in mode and wavenumber studies
09 p1683 A70-23519
- IR thermometers in situ calibration, analyzing maximum error due to reflection effect
09 p1684 A70-23536
- Large-base radio interferometer with separate heterodyne receivers and electrical length automatic control, studying causes of phase errors
09 p1650 A70-23631
- Constant temperature /phase transition/ calorimeter errors in measuring laser energy using ice as working medium
09 p1700 A70-23659
- Ambient temperature measurement by constant level balloon mounted thermistors, discussing errors from differential heating of thermistor support by solar radiation
10 p1886 A70-23935
- Network ozonometer compared to ozonometers with narrow interference filters, finding fictitious day lapse in data
10 p1892 A70-25023
- Microwave phase shift measurement errors caused by reflections from interference systems elements
10 p1853 A70-25130
- Extraterrestrial electron density precision measurement using HF impedance probe with guard ring to remove ion sheath effects
10 p1892 A70-25255
- FM telemetry channel noise effects on digital and analog accelerometer outputs accuracy, suggesting mean square error reduction methods
10 p1893 A70-25318
- Short wave signal field strength measurement errors by frame antenna, outlining correction procedure
11 p2003 A70-25552
- Plate measurement on comparators in satellite geodesy, discussing optics, magnification, mark selection and error elimination
11 p2051 A70-26181
- Quadratic error of semiautomatic measuring apparatus for photographic plates, noting operator contribution
11 p2051 A70-26182
- Steady state surface temperature measurement errors by thermistors, thinistors and thermocouples, discussing sources
11 p2052 A70-26361
- Dynamic errors of electric measurement devices during three dimensional polyharmonic vibrations of foundation
12 p2233 A70-27561
- Adjustable gyroscope errors under compensating-loop linearity zone limitation, showing saturation filtering influence on sensing element
12 p2233 A70-27562
- Polarization of extragalactic radio sources and supernova remnants emphasizing instrumental effects
12 p2309 A70-27894
- Probe rocket Tacite 02 head attitude gyrorestoration for IR horizon analysis, using stellar sensor and signal measurements
13 p2500 A70-28408
- Universal triaxial instrument with AT-1 telescope for visual observation of satellites, discussing applications and accuracy
13 p2408 A70-29274
- Reflecting surface nonplane parallelism effects on Fabry-Perot interferometers superposition bands contrast and multiplied length measurement accuracy
13 p2408 A70-29366
- Tungsten strip lamps spectral radiance calibration, discussing accuracy requirements for radiation constants, wavelength and black body temperature
13 p2410 A70-29655
- Black body design for radiometry, discussing error sources in calibration
13 p2410 A70-29658
- Superconducting bolometer operating temperature stabilization
13 p2412 A70-29868
- Electric resistance type strain gages, eliminating errors due to device length
14 p2582 A70-30174
- Heat removal influence on dynamic errors of cylindrical temperature sensors using electric models
14 p2662 A70-30183
- Errors magnitude in quartz vanometer readings resulting from variations of geomagnetic field perpendicular component
14 p2582 A70-30244
- Time constant equations for hair and film radiosonde hygrometers, allowing for inertial errors in humidity and cloud boundary measurements
14 p2603 A70-30412
- FPS-16/Jimsphere wind profiles measurement, discussing effect of data smoothing on accuracy and resolution
14 p2607 A70-30569
- Meteorological transponder rocketsonde instrumentation system evolution and data error analysis
14 p2585 A70-30579
- Implantable EM blood flowmeter errors due to nonsymmetrical blood flow velocity distribution and nonuniform magnetic flux density
14 p2542 A70-30797
- Convergence corrections for absorption coefficient measurements by far IR Michelson interferometer
14 p2586 A70-30988
- Photoelectric detector sensitivity variation effect on long term instability of servomagnet variometers
14 p2588 A70-31261
- Shifts method applicability to electronic camera for stellar magnitude photometry, studying instrument limitations and errors
14 p2589 A70-31379
- Asymmetrical transient attenuation effects of bridge circuit phase discriminator on accuracy of phase difference measurements
15 p2707 A70-31508
- Magnetoelastic sensors for small force measurement, describing instrument error reduction
15 p2733 A70-31577
- Discharged cleaned surface effect on accuracy and reliability of electron density and temperature measurements by Langmuir probes
15 p2778 A70-31765
- Null and fixed correction methods for pressure and/or velocity gradient error in flow direction measurement
15 p2736 A70-31898
- Plotter induced reconstruction errors minimization in computer generated binary Fourier transform holograms
15 p2737 A70-32044
- Ionospheric probe designs and measurement errors due to perturbations by satellite carriers
15 p2731 A70-32094
- Error measurements of sharpened edged circular static pressure hole normal to moving fluid boundary using flush transducers
15 p2722 A70-32374
- Thickness measurement for thin films in inaccessible locations using scanning electron microscope, comparing accuracy with interferometric techniques
15 p2741 A70-32435
- Thermoelectric force due to thermocouple inhomogeneities, showing relation to temperature gradient and measurement error
16 p2900 A70-33070
- Digital logic control of chromatographic system for measuring instrumental contributions to band broadening
16 p2855 A70-33120
- Ballistic missile instrument orientation optimization based on CEP criterion, considering acceleration induced errors
16 p2947 A70-33317
- Nonmagnetic explosive actuated indexing device permitting precise 180 deg rotation of magnetometer sensor on Pioneer 6 spacecraft
16 p2914 A70-34124
- Hypsometer design for accurate pressure measurements at high balloon altitudes
17 p3090 A70-35313
- Systematic errors in rotating mirror framing cameras and film records for quantitative high speed motion analysis
17 p3095 A70-35632
- Statistical analysis of cosmic radiation neutron component monitor error, taking into account generation multiplicity
18 p3307 A70-36097
- Recording instrumental noise resolution of standard algorithm for cosmic ray stations
18 p3307 A70-36100
- Statistical accuracy of standard muon azimuthal semicubic telescope for solar cosmic rays, discussing rms error
18 p3256 A70-36103
- Erroneous line of sight rates generation by radar radome refraction errors in aircraft tracking
18 p3231 A70-36457
- Error estimation of gondola encased tugged undersea magnetometer as function of turbulence parameters
18 p3260 A70-36940
- Mass spectrometer modified for use with X-Y recorder for accurate and reproducible ionization efficiency curves
18 p3262 A70-37099
- Error sources in carbon black coating on thin foil heat flux sensors accounting for false altitude effects in vacuum calibration
18 p3262 A70-37100
- Error reduction methods for linear acceleration gyrointegrators measuring linear velocities
19 p3420 A70-37257
- Ultrahigh vacuum gages absolute calibration by controllable conductance method, discussing accuracy
19 p3421 A70-37463
- Atmospheric aerosols optical and microphysical measurements comparison, evaluating sample collection equipment, errors, etc
19 p3421 A70-37637
- Hydrogen maser wall shift measurement, using flexible storage bulb for accuracy improvement
19 p3445 A70-37759
- Air total temperature measurement for jet powered aircraft, discussing subsonic and supersonic wind tunnel data for sensor thermal recovery characteristics
19 p3425 A70-37882
- High resolution successive approximation voltmeters using digital carry to improve speed and accuracy
19 p3427 A70-38049
- Bubble chamber photography and track image reconstruction by holography, discussing measurement apparatus, accuracy and tolerances
19 p3428 A70-38510
- Correction procedures for measurement errors in actinometers and pyroheliometers caused by circum-solar radiation
20 p3625 A70-39029
- Atmospheric ozone content during May 1966 solar eclipse, noting solar disk darkening effect on measurements
20 p3615 A70-39031
- Static pressure probes selection for measuring three dimensional flow at high velocities, considering sensitivity and errors
20 p3628 A70-39262
- Strapdown inertial guidance systems critical dynamic errors mathematical modeling and verification [AIAA PAPER 70-1029]
20 p3666 A70-39508
- Satellite-borne conical IR scanner flight data hybrid simulation and error analysis, suggesting carbon dioxide horizon noise model [AIAA PAPER 70-1021]
20 p3631 A70-39513
- Digital correlator errors due to quantization by levels, designing analyzer of slow processes
20 p3594 A70-39922
- Surface contaminated Langmuir probe measurements in glow discharge plasmas, discussing errors
20 p3633 A70-40161
- Electrostatic plasma probe inverse process I-V properties from current voltage characteristics, improving accuracy and reliability by theory in terms of new variables
20 p3683 A70-40162
- Optimum calibration intervals determination for obtaining instrument maintenance quality level at low cost
20 p3634 A70-40452
- Ionization spectrometer for hadron energy measurement, analyzing instrument accuracy by Monte Carlo model for nuclear-EM cascade in iron absorber
20 p3635 A70-40456
- Image orthicon in high precision astronomical camera, evaluating geometric accuracy and stability by distortion measurement
21 p3822 A70-40819
- Ion orientation technique based on counterflow sensing in earth upper atmosphere, discussing accuracy
21 p3927 A70-40844
- Heat conduction errors in immersion thermocouples and resistance temperature sensors, using mathematical model
21 p3823 A70-40856
- Inertial guidance technology applications for space navigation, considering instrument design tradeoff between accuracy and cost for performance and reliability improvements
21 p3848 A70-41128
- Short wave signal field strength measurement errors by frame antenna, outlining correction procedure
21 p3786 A70-41302
- Instrumental and atmospheric observational problems regarding dark mottles, fibrils and H alpha solar limb photographic interpretations
21 p3926 A70-42199
- Interference-polarization light filter, calculating phase shifter errors effects on transmittance by Poincare sphere method
22 p4072 A70-42505
- Optical telescope reflecting prism angle deviations effect on modulation transfer function and image quality
22 p4072 A70-42506
- Guidance and navigation systems precision azimuth measurement by star sighting and gyrocompass techniques
22 p4067 A70-42663
- Rocket-borne double probe electric field detector design and operation, discussing error sources
22 p4030 A70-42793
- Thermal and aerodynamic interactions between wires of velocity sensitive anemometric crossed-wire probe, showing reduction by correction of measurements and minimal gap
22 p4038 A70-43242
- Distance measurements by microwave tellurometers, discussing accuracy factors
22 p4039 A70-43426
- Precision gimbaled sensor pointing system calibration data errors due to misalignments and inaccuracies in transducer readout
22 p4040 A70-43587

- Gyro misalignment and encoder quantization effects for strapdown attitude error sources 22 p4040 A70-43588
- Error sources and magnitudes in dynamic gradiometer using inertial grade pendulous accelerometer, discussing compensating modifications 22 p4042 A70-43658
- Gravity error propagation in dynamic gravimetry associated with navigation and gradient measurement errors, emphasizing standard error limits in navigation data 22 p4068 A70-43660
- Gravity measurement errors in high speed aircraft parallel to undulating geoid attributed to associated vertical accelerations 22 p4025 A70-43662
- Stochastic processes for probabilistic error analysis in airborne gravimetry, using gravity sensing instruments 22 p4025 A70-43666
- Moving object coordinates autonomous determination errors in accelerometers with dry friction, investigating inertial navigation system with integral horizon correction 23 p4193 A70-43981
- Thermal calibration errors and sensitivity equations for hot-wire anemometers 23 p4195 A70-44288
- Guarded electrical cylindrical calorimeter measuring multilayer insulation thermal conductivity, discussing construction, test and error 23 p4195 A70-44366
- Isoclinic parameter determination from intersection points of secondary isochromatics lines in photoelastic analysis, discussing polariscope theory and imperfect quarter wave plates error effect 23 p4198 A70-44910
- X band horn antennas precision phase center measurement technique for high resolution system applications 23 p4176 A70-44966
- Laser sensors as alignment instrument for control and measurement of five degrees of freedom 24 p4351 A70-45383
- Radiosonde errors in temperature and pressure height determination using paired AN/GMD-1 probe flights 24 p4371 A70-46047
- Temperature induced humidity errors in military and Weather Bureau radiosondes carbon humidity element caused by solar irradiation 24 p4372 A70-46073
- Recording system errors for measuring pulmonary pressure-volume curves of excised lungs 24 p4309 A70-46122
- Errors magnitude in quartz vanometer readings resulting from variations of geomagnetic field perpendicular component 24 p4339 A70-46319
- ### INSTRUMENT FLIGHT RULES
- Low cost VHF and UHF navigation aids IFR procedures for low density airports [SAE PAPER 700230] 13 p2385 A70-29607
- Maximum throughput-rate capacity for runway and final approach path airspace involving multiple IFR landings 19 p3465 A70-38235
- ATC integration of SST, discussing en route and terminal projects of national airspace system, modular automation, instrument flight rules, etc 19 p3467 A70-38633
- VTOL aircraft instrument flight in terminal area, defining requirements and operating characteristics for vertical and low speed capabilities [AIAA PAPER 70-1333] 24 p4291 A70-45935
- ### INSTRUMENT LANDING SYSTEMS
- #### NT AUTOMATIC LANDING CONTROL
- Microwave ILS for difficult sites or conditions, detailing capabilities and operation principles 01 p0136 A70-10301
- Aircraft approach and guidance system radio components including localizer, glide path and marker systems and radio altimeters, discussing signal interference 02 p0333 A70-11980
- Automatic landing systems research including VHF ILS accuracy, test equipment for servicing airborne equipment, etc 02 p0333 A70-11981
- Airborne instrument landing systems and ground facilities analysis and specifications, examining future use of microwave frequencies 02 p0333 A70-11982
- VTOL steep descent beacon-guided landing systems 02 p0304 A70-12765
- Simplified aircraft instrument landing system /SAILS/ employing lightweight helicopter-borne radar for tracking radio beacon at touchdown point 02 p0337 A70-12768
- Geometrical model for characterizing instrument landing system /ILS/ null reference glide path utilizing CW measuring system 04 p0716 A70-15330
- Equation for disturbance of ILS localizer signals by reflection from flat hangar wall, discussing computer program 04 p0652 A70-15344
- Correlation protected instrument landing system proposed for international consideration to meet future aircraft traffic density 05 p0880 A70-16107
- Instrument landing system techniques based on hyperbolic geometry and correlation detection for terminal area traffic control, discussing applications 06 p1102 A70-17637
- ILS systems, considering possible improvements 08 p1541 A70-21021
- Pilot and copilot task distribution schedules adopted by European civil aviation for landing approaches under poor weather conditions 08 p1542 A70-21850
- Integrated glide path localizer system for landing, takeoff and enroute guidance through rugged country, minimizing spurious reflection, required information bits, etc 09 p1720 A70-22222
- Aircraft instrument landing system replacement requirements in terms of airports, aircraft, approach and landing paths, service classes, etc 12 p2269 A70-27917
- Air traffic control, discussing precision instrument landing, approach lighting, collision avoidance, navigation aids, etc 17 p3133 A70-35185
- Precision approach and landing guidance system selection by RTCA committee, discussing aircraft antennas, scan rates, international cooperation, etc [AIAA PAPER 70-937] 17 p3134 A70-35846
- ILS glide slope calibration using optically projected digital codes as reference 19 p3464 A70-37912
- Airport capacity and terminal area safety increase by scanning beam instrument landing system, discussing automatic guidance trajectory example 19 p3464 A70-37913
- ATC by scanning beam ILS and onboard control systems, increasing airport capacity and terminal area safety [AIAA PAPER 70-1033] 20 p3666 A70-39504
- Correlation detection methods providing information for ILS in terminal area congestion, discussing role in aircrew-ATC cooperation 22 p4068 A70-42667
- ### INSTRUMENT ORIENTATION
- Rocket telescope spectrometer precision pointing achieved by servocontrolling secondary mirror, discussing use for planetary atmospheres far UV spectrum studies 02 p0296 A70-11916
- Gyroplatform angular position with respect to reference stars from solving nonlinear differential equations, applying Liapunov method 03 p0524 A70-13366
- Transit instrument azimuthal stability, investigating horizontal axis support, screw controls and tube position during star observations 04 p0693 A70-15484
- Triaxial universal astrometric instrument for tracking artificial satellite path with eyepiece crosswire, considering instrument errors 05 p0851 A70-16698
- Errors in aerial stereo photogrammetry, deriving equation to account for lens distortion and internal orientation 09 p1682 A70-23394
- Molniya 1 communication satellite attitude control involving automatic solar panel and antenna orientation, using powered gyroscopic stabilizers 13 p2499 A70-28387
- Optically pumped He 4 magnetometers, investigating magnetic resonance signal dependence on orientation for nonresonance technique construction 13 p2414 A70-30036
- Upper atmospheric ion and neutral composition from rocketborne mass spectrometry, allowing for rocket velocity and analyzers orientation with respect to velocity vector 14 p2568 A70-30140
- Visual display reference system rotation effect on control quality and tracking error compensation using stick signal control 14 p2540 A70-30249
- Ballistic missile instrument orientation optimization based on CEP criterion, considering acceleration induced errors 16 p2947 A70-33317
- Thermal response of passive heliotrope solar array orientation device using rotating bimetallic helix, performing energy balance analysis for helix temperature distribution 17 p3082 A70-34761
- Whisker diode coupling to polarized IR laser beam by orientation based on antenna theory 17 p3048 A70-35902
- Geomagnetic field variations recording by two variometers, correcting for variation components effects by instruments orientation 19 p3420 A70-37335
- Quartz magnetic variometer allowing simultaneous recording of magnetic field variations and suspension axis inclination changes 19 p3420 A70-37336
- Transparent spherical rotor spin axis orientation by measuring Fresnel drag effect of optical beam inside ring laser cavity 19 p3445 A70-37669
- Ion orientation technique based on counterflow sensing in earth upper atmosphere, discussing accuracy 21 p3927 A70-40844
- Orientation system for pointing balloon-borne X ray detector using flux gate magnetometer, DC amplifier and motor control relay circuit 21 p3831 A70-42249
- Displacement effect of hot-wire anemometric probes near wall as function of support orientation 22 p4038 A70-43241
- Precision gimbaled sensor pointing system calibration data errors due to misalignments and inaccuracies in transducer readout 22 p4040 A70-43587
- Pointing systems for balloon-borne telescopes in astronomical investigations 22 p4041 A70-43649
- Internal and external orientation elements of aerial cameras from star photographs on clear dark sky 24 p4333 A70-45198
- ### INSTRUMENT PACKAGE
- #### NT APOLLO LUNAR SURFACE EXPERIMENTS PACKAGE
- ### INSTRUMENT PACKAGES
- #### NT APOLLO LUNAR SURFACE EXPERIMENTS PACKAGE
- Test program effectiveness for Saturn Instrument Unit /IU/, summarizing objectives, costs and results [AIAA PAPER 70-379] 10 p1891 A70-24924
- Upper atmospheric sounding rocket Skylark engine, attitude control and payload components modifications for increasing versatility and performance 13 p2503 A70-28678
- French EOLE tracking satellite-balloon network for global atmospheric data, describing satellite and electronic instrument package 14 p2611 A70-31154
- Gyro test package, dynamic test facility and real time attitude algorithm to investigate operational capabilities of strapdown inertial attitude package 17 p3134 A70-35652
- High impact Ag-Zn cell design for space missions instrument package landing, considering heat sterilization and minimum operational capability 21 p3757 A70-41013
- Scientific payloads integration with multimission electric propulsion interplanetary spacecraft, discussing possible contamination effects due to solar electric propulsion system [AIAA PAPER 70-1141] 21 p3930 A70-41781
- Strapdown redundant experimental sensor inertial navigation package containing gyros and accelerometers, discussing signal real time processing by digital computer [AIAA PAPER 69-851] 21 p3849 A70-41858
- Strapdown inertial system mechanization and modularized instrument packaging with self contained failure isolation, temperature control and redundant components [AIAA PAPER 70-1027] 22 p4066 A70-42315
- ### INSTRUMENT TRANSMITTERS
- Miniature temperature and strain telemetry transmitters developed for measurements in areas inaccessible to direct wire connections 06 p1069 A70-18433
- Rocket- and projectile-borne microwave miniature solid state transmitters, discussing transistor oscillator-multiplier, hybrid integrated circuits, bulk effect devices, etc 10 p1852 A70-24887
- Miniature wireless strain and temperature radio telemetry transmitters for measurements in areas inaccessible to direct wire connections 15 p2738 A70-32301

Instrumentation - ISA conference, New York, October 1968
09 p1613 A70-23683

Time shared computer system providing real time service to multiple laboratory instrumentation, discussing high speed channel, computer control and data abstracting techniques
13 p2375 A70-29830

Instrumentation in aerospace industry - Conference, Seattle, May 1970
19 p3423 A70-37873

Astronomical instrumentation and methods in different nations, emphasizing photoelectric image receivers
23 p4199 A70-45033

INSULATED STRUCTURES

Transient heat conduction in dual-layer insulated plate exposed to pulse heating, discussing temperature response
[AIAA PAPER 70-14] 06 p1180 A70-18120

INSULATING MATERIALS

U INSULATION

INSULATION

NT MULTILAYER INSULATION

NT THERMAL INSULATION

Solder mechanical contact strength to CdS insulating crystal platelets tested in liquid N, noting Ag epoxy
02 p0319 A70-12738

Insulating materials and apparatus evaluation in terms of thermal capability to effect competitive cost saving
05 p0869 A70-16033

Cable involving woven multiconductor arrangement and aromatic polyimide insulations to connect thermal moon probe with transmitter for temperature measurements on lunar surface
05 p0798 A70-16034

Portable megaohmmeter for measuring insulation resistance of strain gauge ceramic installations
05 p0848 A70-16378

Reusable booster rocket heat protection system design, discussing ablation and insulation methods
05 p0958 A70-16635

Radiative heat transfer along adjacent layers of multilayer insulation blanket determined as energy transport mode
09 p1789 A70-23265

Thermal conductivity of multilayer and mixed powder high temperature insulation systems over wide temperature range and vacuum conditions
[AIAA PAPER 70-637] 16 p2997 A70-33596

High voltage solar arrays for ion engines, discussing spacecraft propulsion, electric generation, insulation integrity, cell degradation and current leakage
[AIAA PAPER 70-1138] 20 p3567 A70-40211

INSULATORS

Electron surface states bands in insulators induced by image potential, determining lower limits for liquid and solid gases
02 p0345 A70-12823

Insulating materials and apparatus evaluation in terms of thermal capability to effect competitive cost saving
05 p0869 A70-16033

Diodes on cordwood module measured for stress during soldering, foaming and operation, describing methods for mounting semiconductor strain gages
05 p0854 A70-16036

Helium high energy molecular beams for insulating body heating and thermal constants determination
07 p1344 A70-20129

Strain gages moisture protection, deriving formula for calculating acceptable protection time of insulator
11 p2049 A70-25586

Linearized steady plane axisymmetric flows of inviscid finitely conducting incompressible fluid past insulator under magnetic induction with zero components
13 p2464 A70-29541

INSULIN

Blood glucose and plasma immunoreactive insulin concentrations before, during and after intermittent short duration maximal exercise and glucose infusion
17 p3030 A70-35420

Serum growth hormone response to hypoglycemia in man following insulin administration, reviewing lumped parameter model
19 p3360 A70-38006

INTAKE SYSTEMS

NT AIR INTAKES

NT CONICAL INLETS

NT ENGINE INLETS

NT HELICAL INDUCERS

NT HYPERSONIC INLETS

NT NOSE INLETS

NT SUPERSONIC INLETS

Pressure oscillations in LOX pump inducer of J-2 machine, using semianalytical first order model with retarded time mechanism
09 p1693 A70-23257

Hydrodynamic internal streamline flow analysis for turboprop inducer blades under cavitating and non-cavitating conditions
[AIAA PAPER 70-629] 16 p2964 A70-33528

Stress and vibration analysis of rocket engine turboprop inducer blades, using finite element method
[AIAA PAPER 70-630] 16 p2964 A70-33529

Bypass door control system for SST axisymmetric intake operation in external compression mode, obtaining dynamic performance
[AIAA PAPER 70-695] 16 p2966 A70-33558

S-IVB liquid rocket engine and propellant feed systems restart chilldown in orbital operations
[AIAA PAPER 70-672] 16 p2967 A70-33574

Turbofan engine compressor system performance dependence on circumferential extent, magnitude and rate of change of inlet temperature in altitude test facility
[AIAA PAPER 70-625] 16 p2968 A70-33590

Liquid hydrogen axial flow pump inducer, describing suction pressure measurements, fluid conditions and flow rate
[AIAA PAPER 70-627] 16 p2919 A70-33592

Prototype grill device for turboprop aircraft engine inlet protection against bird ingestion, discussing performance tests
18 p3212 A70-35996

Radial compressor diffusers design and technology
[ASME PAPER 70-GT-116] 18 p3304 A70-36850

M 3.5 two dimensional mixed compression inlet system with self restart using flexible variable ramp system
[AIAA PAPER 69-447] 22 p3959 A70-42707

Convection, transpiration and full coverage film cooling methods for various local turbine inlet temperatures, gas pressures and cooling air temperatures
22 p4092 A70-43275

INTEGERS

Equivalent linear programming in integer variables to solve production scheduling for N identical machines, minimizing changeover and inventory costs
10 p1895 A70-24662

INTEGRAL CALCULUS

Stochastic processes providing exposition of differential-integral calculus for Brownian motion paths, with applications to diffusion processes and related parabolic partial differential equations
01 p0133 A70-11322

Book on integrals and elliptic functions in real domain, solving fourth degree Hermitian equation and integral reduction
02 p0323 A70-11897

Integral dissipation method for predicting turbulent boundary layers, taking into account semiempirical past history
02 p0283 A70-12339

Boundary layer prediction methods criteria, discussing advantages and disadvantages of differential and integral methods for various flows
02 p0286 A70-12356

Energetic stability theorems of dynamical feedback system, removing assumption concerning local square integrability
03 p0460 A70-13971

One and two center Coulomb, hybrid and exchange integrals contributing to orbit-orbit interaction in diatomic molecules evaluated for Slater orbitals combinations
03 p0528 A70-14010

Inverse blunt body problem using integral relations method assuming inviscid axisymmetric hypersonic gas flow
10 p1798 A70-24116

Monograph on integral calculation method for disk problems with mixed boundary conditions covering two dimensional stress-strain state, extrapolation methods, etc
11 p2140 A70-26474

Keplerian integrals analogy to integrals of adjoint equations suggested by optimum space navigation trajectories considerations
12 p2261 A70-27834

Third integral of stellar dynamics, considering Centopoulous galactic system model separability
14 p2651 A70-31288

Confluent hypergeometric functions indefinite integrals analytic expressions and reduction formulas
22 p4062 A70-42572

INTEGRAL EQUATIONS

NT FREDHOLM EQUATIONS

NT SINGULAR INTEGRAL EQUATIONS

NT VOLTERRA EQUATIONS

NT WIENER HOPF EQUATIONS

Hydrodynamic and elasticity equations for squeeze films between elastic cylinders in normal approach reduced to integral equation
[ASME PAPER 69-LUB-13] 01 p0102 A70-10392

Optimization of distributed parameter control systems described by linear integro-partial differential

parabolic equation with delayed argument, using dynamic programming
01 p0131 A70-10548

Atomic variables elimination technique applied to Markovian laser master equation, resulting in integrodifferential equations for field statistical operator
01 p0112 A70-10884

Differential and integral inequalities theory and applications, Volume 1, Ordinary differential and Volterra integral equations
01 p0133 A70-11324

Time independent kernel integral equations in dynamic contact problems of elasticity and mathematical physics
01 p0146 A70-11571

Integral equation for emissivity inside uniform gray isothermal Lambertian cavity solved using successive approximations
02 p0323 A70-11889

Integral equation of first kind solution based on two dimensional boundary value problem solution
02 p0323 A70-11994

One dimensional diffusion equation serial solution implementation by hybrid computation, using equivalence between differential and integral equations
02 p0324 A70-12259

Prediction systems for turbulent boundary layers, noting momentum integral equation use in all integral methods
02 p0281 A70-12327

Integral method for turbulent shear flow based on momentum and moment-of-momentum equations and Cole velocity profile family, determining shear stress integral
02 p0282 A70-12329

Integral relations method efficiency and accuracy in solving incompressible turbulent boundary layer equations, noting acceptability for turbulent flows with small wake components
02 p0282 A70-12331

Turbulent boundary layers behavior prediction by strip integral momentum equation method, considering velocity profiles and shear stresses
02 p0282 A70-12332

Integral theory for two dimensional incompressible turbulent boundary layer in nonequilibrium flows, describing velocity profile in momentum and energy equations
02 p0283 A70-12335

Turbulent boundary layer development calculation by shear work integral method involving Reynolds number introduction procedure
02 p0283 A70-12336

Dissipation integral method for turbulent boundary layer problem based on nonequilibrium flow, analyzing inner and outer regions
02 p0283 A70-12338

Integral method for computing two dimensional incompressible turbulent boundary layer development, including entrainment process of irrotational fluid
02 p0284 A70-12343

Adiabatic invariance of action integral for motion in nonregular fields, explaining charged particles motion through magnetic shock front in interplanetary space
02 p0359 A70-12788

Integral equation solution in viscoelasticity theory based on creep tests with polymer containing elastic inclusion, improving convergence of approximations method
02 p0390 A70-12801

Integral formulas of thermoelasticity theory for calculating displacements and rotations caused by temperature field action in micropolar Cosserat and Hooke media
02 p0391 A70-12817

Shallow shell theory, discussing equation kernels, reduction of boundary value problems to integral equations, potential theory application and transformation into Fourier series
03 p0589 A70-13338

Integral equations for antisymmetric shallow shell stress-strain state with crack, obtaining asymptotic solution in form of power series
03 p0591 A70-13420

Laplace transform applied to ordinary differential equations with variable coefficients, obtaining representations of integral and integrodifferential equations
03 p0519 A70-13506

Averaging over finite and infinite intervals derived for nonlinear integrodifferential equations with varying variables
03 p0594 A70-13507

Existence theorems for optimal control problems with multiple integrals
03 p0460 A70-14075

Plane two body contact creep problem in presence of adhesive forces reduced to solving coupled integral equations with complex valued kernels
04 p0766 A70-14421

Method of integral relations, finite differences and method of characteristics applied to numerical solution of steady state problems of gas dynamics
04 p0670 A70-14961

Integral relations and finite difference methods application to problems of boundary layer equations in gas dynamics

04 p0670 A70-14962

Boundary value problems of Cauchy-Riemann differential equations using solution to derive integral equation for stationary infrasonic flow

04 p0671 A70-15094

Radiation view factor from differential area to conical surface determined using Stokes theorem and contour integration

04 p0787 A70-15598

Stress distributions in infinite elastic solids for shear loadings prescribed over coplanar circular regions, solving integral equations iteratively for coplanar penny-shaped cracks

05 p0928 A70-16057

Momentum-energy complex obtained for nonlocalized fields in variational mechanics, deriving integrodifferential identities for Euler equations quadratures

05 p0881 A70-16078

Integral constitutive relation representing incompressible viscoelastic materials and plane stress and strain conditions

05 p0930 A70-16087

Von Zeipel method applied to stellar three body problem, eliminating short period terms and establishing two integrals of motion

05 p0909 A70-16337

Integral equations for interpolation process remainder estimation, including convergence of functions interpolation and error analysis

05 p0877 A70-16970

Scattering matrix noniterative integral solutions applied to singlet and triplet s-wave Hartree-Fock phase shifts for electron-H-atom scattering

06 p1108 A70-17486

Noniterative integral solutions of scattering equations extended to coupled channels using matrix notation

06 p1108 A70-17487

Suddenly started laminar flow in circular tube entrance region, obtaining integral momentum equation for boundary layer thickness, entrance length, velocity profile, etc

06 p1034 A70-17528

Gaussian quadrature integration technique developed for collocation approach for integral equation of steady subsonic lifting surface theory

06 p0970 A70-18097

Stochastic model of information handling centers as typified by document storage and retrieval derived for integral equation to determine expected primary store size

06 p1016 A70-18450

Laminar boundary layer in hypersonic flow calculated by integral method, including effects of entropy gradient and induced pressure gradient

06 p0984 A70-18468

Cylindrical antennas immersed in arbitrary homogeneous isotropic media, solving integral equation for current

06 p1074 A70-18607

Optimal control of dynamical systems with transport lag determined using differential-integral equations

07 p1245 A70-19094

Simultaneous partial integrodifferential equations for transverse oscillations of uniform short beams

07 p1406 A70-19306

Integral methods for predicting two dimensional incompressible turbulent boundary layers development in arbitrary pressure gradients, using momentum integral equation and wall friction relation

07 p1256 A70-19308

Prandtl problem solution by reducing integrodifferential equation to linear differential equation in disk of complex variable, noting application to elliptical or rectangular wings

07 p1258 A70-19783

Integrodifferential equation derived for energy balance in laminar boundary layer of fluid flow, taking into account viscous energy dissipation, radiative energy transfer, etc

07 p1423 A70-19813

Plane anisotropic elastic bodies stress determination using Somigliana type integral formula to relate elastic displacement field to boundary traction and displacement vectors

07 p1412 A70-19953

Nonlinear integral equations for inhomogeneous atmospheres derived from radiative transfer equations global form, noting relations to Ueno and Chandrasekhar equations

07 p1336 A70-20059

Interference kernel discontinuities in integral equations relating amplitude of angle of attack and pressure distribution on T tail harmonically oscillating in subsonic flow

07 p1416 A70-20210

Integral equation for time development of harmonic oscillations in finite one dimensional chain of elastically coupled discrete elements, using Bessel functions for solution

08 p1547 A70-20535

Integral equations arising in contact problems of elasticity reduced to infinite linear algebraic equations

08 p1585 A70-20957

Paired integral equations of elasticity with kernels containing Legendre spherical harmonics, admitting exact solution in quadratures

08 p1544 A70-20960

Radiant heat exchange for rectangular groove represented by integral equations using rapid iteration method

08 p1600 A70-21835

Linear integral equations solutions using invariant functions

09 p1711 A70-22208

Heat and mass transfer coefficients in binary laminar boundary layer convection obtained with integral equations and Karman-Polhausen method

09 p1787 A70-22264

Integral equation perturbation technique, discussing applications to electrostatics, hydrodynamics, MHD, heat and mass transfer, etc

09 p1711 A70-22350

Earth shape formulas reduction to Taylor series, considering Molodenskii solution method for simple layer density integral equation

09 p1670 A70-23343

Radio wave propagation equations, applying stationary phase method for finite limits of dimensionless line integral

09 p1638 A70-23662

Integral equation for radiation patterns from vertical antenna over variable impedance surface

09 p1639 A70-23670

Time-bounded pulses with energy maximum in frequency band, solving integral equations for band-pass filters for maximum efficiency and optimum pulse shapes

11 p2004 A70-25799

Integral theorems on vorticity transport derived by Carstou method, suggesting need for redefining Truesdell concepts of convection and diffusion

11 p2037 A70-26175

Electromagnetic field singularities near sharp edge relating to geometry scatter used for treating singularities in current distribution integral equations

12 p2183 A70-26977

Integral manifolds of third order autonomous differential equations with unstable equilibrium point, investigating forward and negative asymptotic problems

12 p2261 A70-27375

Numerical quadratures application to integral equations for radiative heat transfer computations, discussing validity for parallel and adjoint plates

12 p2332 A70-27840

Nonlinear integral equations of radiation transfer of stellar and planetary atmospheres

12 p2305 A70-27852

Averaging over finite and infinite intervals derived for nonlinear integrodifferential equations with varying variables

13 p2440 A70-28656

Nonlinear integrodifferential equations of radiative transfer solved by invariant imbedding approach, discussing Rayleigh phase matrix

13 p2451 A70-29130

Shallow shell theory, discussing equation kernels, reduction of boundary value problems to integral equations, potential theory application and transformation into Fourier series

14 p2657 A70-30716

Monograph on nonlinear oscillation equations resonance solutions and solution stability, considering Green matrix, differential equations reduction to integrodifferential equations, etc

14 p2618 A70-31417

Asymptotic expansion of contour integrals involving analytic functions of complex variable, using steepest descent method

15 p2767 A70-31696

Linear integral equations for radiative transfer between parallel plates, using least squares method

15 p2826 A70-31822

Integral equation for transonic small disturbance flow applied to plane flows over lifting airfoils

15 p2673 A70-32768

Cylindrical and helical antennas impedance in cold magnetoplasma, using three dimensional integral involving Fourier transform and Green function

16 p2859 A70-32943

Electromagnetic field transmission through plasma slab with specified electron density-collision frequency profiles, using integral derived from transmission and reflection coefficients

16 p2957 A70-32979

German monograph on planar straight cascades in incompressible frictionless potential flow, basing method on singularity method integral equation reversal

16 p2839 A70-34081

Coupled integral equations for cutouts in shallow shells

17 p3186 A70-34970

Linear compressibility assumption incorporated into third order multiple integral representation of

nonlinear creep of polyurethane, reducing time independent kernel functions

17 p3186 A70-34972

Linear antennas theory using integral equations for current distributions

17 p3044 A70-35058

Elastic properties of complex screw dislocation arrays from equations for stress fields of dislocation segments

17 p3190 A70-35455

Integral equation for three dimensional Fourier transform applied to isotropic scattering of radiation from point source in finite spheroidal atmosphere

17 p3137 A70-35599

Boundary value problem approximation method for large numbers, using projective method applicable to linear integral, integrodifferential and differential equations

18 p3282 A70-36360

Spatial signal transmission through open resonator determination based on resonator integral equation, extending to dielectric lens with finite Fresnel diffraction number

18 p3259 A70-36480

Integrals of motion for minimum fuel rocket trajectories in inverse square field calculated for constant power and constant exhaust rockets

18 p3316 A70-36678

Satellite translational motion in circular problem of three bodies, discussing existence of equations integral

18 p3324 A70-37150

One dimensional integral equations for two dimensional problems of EM wave diffraction by cylindrical bodies

19 p3376 A70-37435

Asymptotic high energy behavior of Feynman integrals in scalar field theory models for elastic scattering

19 p3457 A70-37549

Nonlinear integral equations formal solution method, noting relationship to Fredholm solutions of linear integral equations

19 p3458 A70-38063

Subsonic wing theory calculation method, obtaining close solutions for integral expression constants for downward air currents

19 p3352 A70-38164

Noniterative homogeneous solutions of integral equations for coupled open channels and coupled eigenvalue scattering

19 p3473 A70-38264

Plane waveguide field with complex geometric inhomogeneity, describing perturbed section by integral equations

19 p3381 A70-38567

Integral equations for gravity field and plumb line deflections solved by Neumann and Molodenskii methods

20 p3617 A70-39073

Integral equations for plumb line deflections on earth surface model, considering Neumann, Molodenskii, Arnold methods, etc

20 p3617 A70-39074

Integrodifferential equation derived for energy balance in laminar boundary layer of fluid flow, taking into account viscous energy dissipation, radiative energy transfer, etc

20 p3736 A70-39261

Integral equations arising in contact problems of elasticity reduced to infinite linear algebraic equations

20 p3719 A70-39380

Paired integral equations of elasticity with kernels containing Legendre spherical harmonics, admitting exact solution in quadratures

20 p3672 A70-39382

Equations system for determining constants in Sedov integral for conformal mapping of polygonal airfoil lattice onto Riemann surface

20 p3658 A70-39767

Elasticity theory boundary value problems reduction to one dimensional integral equations

20 p3724 A70-39853

Asymptotic equivalent functions for integral Laplace transformation transition to original in continuous media mechanics

20 p3726 A70-39873

Asymmetric micropolar thermoelasticity, deriving integral expressions for strains, rotations and temperatures in finite body

20 p3726 A70-39878

Numerical methods, FORTRAN program and table form for complex integrals evaluation along unit circle in positive direction

20 p3605 A70-40120

Integral transforms applied to convective heat transfer during nonNewtonian fluid flow with power rheology in pipes and channels

20 p3613 A70-40177

Antenna radiation pattern analysis by application of Kirchhoff and Weber integrals, noting choice of complex radial wavenumber consistent with radial field decay

21 p3796 A70-40560

Integral equation of viscoelastic media with unstable properties, solving boundary value problems by approximation method 21 p3933 A70-40643

Circumstellar system crushing processes described by integrodifferential equations, deriving particle size distribution of fragments in interplanetary space 21 p3889 A70-41148

Linear control plant identification by solving integral equation obtained from input and output signals 22 p4005 A70-43565

Integral equations solution by Kupradze-Aleksidze general Fourier series method 23 p4211 A70-44094

Boundary value problems of fluid dynamics in dynamic cavities reduced to integral equations system 23 p4182 A70-44347

Unsteady aerodynamic loading of wings with control surfaces, discussing Kuessner integral equation of subsonic lifting theory 23 p4274 A70-44761

Relaxed minimax control with functional restrictions by Uryson integral financial equation 23 p4213 A70-44907

Dynamic structural stability analysis, describing integral equation matrix technique 24 p4419 A70-45156

Asymptotic properties of integral equations solutions for boundary value problems in theory of elasticity and mathematical physics 24 p4422 A70-45490

Multidimensional integral Monte Carlo evaluation applying regression analysis to linear unbiased estimators 24 p4370 A70-46100

Integral theorems for wave-type heat conductivity equation 01 p0219 A70-11398

Integral methods for turbulent boundary layer solutions, emphasizing shape factor improvement in differential equations 02 p0286 A70-12357

Two dimensional wave diffraction problems involving discontinuity line, analyzing instability behavior of geometrically induced singularities by applying integral transform on Helmholtz equations 03 p0525 A70-14199

Conjugate points for simple integral problems in calculus of variations extended to multiple integral problems, using Jacobi equation 04 p0713 A70-14674

Hankel integral transforms of half orders for solving boundary value problems in terms of spherical coordinates 09 p1712 A70-22834

Systems identification in parameter estimation to acquire stability properties using integral transforms 11 p2028 A70-26311

Arbitrary function expansion into series of Legendre functions by generalizing Weyl-Lebedev-Skalskaia integral transform 13 p2441 A70-29312

Bipolar moment integral in celestial mechanics formed by product of particle kinetic moments for n body problem order reduction 13 p2494 A70-29399

First vector integral of planetary motion different from moment of momentum and Runge-Lenz integrals 15 p2806 A70-32797

Group variational procedure for first integrals of nonconservative dynamical systems 19 p3458 A70-38060

Successive iterative solution for large matrix equations reduced from Fredholm integral equations of second kind 24 p4369 A70-45164

INTEGRATED CIRCUITS
 NT LARGE SCALE INTEGRATION

Dielectric overcoatings effect on Al interconnections electromigration in IC metallization, noting longer intervals between failures 01 p0153 A70-10083

Integrated digital circuits for office type desk calculators based on machine concept 01 p0052 A70-11287

Ferrite-type phase shifter production by microstrip technique and integrated microwave system use in Gunn element Doppler radar 01 p0052 A70-11290

Miniaturized components in microstrips on low loss dielectric or magnetic substrates, noting suitability for microwave systems integration 01 p0052 A70-11313

Functionally integrated superheterodyne receivers design by applying microwave IC technology, providing weight reduction, interconnecting cables elimination and circuit interface problems minimization 02 p0267 A70-12055

Noise source model of Si planar diffused bipolar IC transistors in operational amplifiers, noting base-emitter junction burst noise 02 p0257 A70-12192

Electronic integration assembly/EIA/ incorporating modular electronic packaging design techniques to provide reliable mechanical configuration for spacecraft equipment 02 p0268 A70-12579

Beam-lead substrate package for six stage TTL shift register, discussing metallization systems for interconnections and beams 02 p0271 A70-12846

Device modeling for computer aided design and analysis of integrated circuits, discussing list of desirable properties and applications to transistor design 03 p0454 A70-14026

Electron image projection tube for fabricating integrated circuits of micron size transistors 03 p0458 A70-14027

Photocell uses in semiconductor integrated circuit, discussing scanned arrays applications and economics 03 p0459 A70-14265

Complementary symmetry MOS/CMOS/ integrated circuit transient response to electron irradiation 04 p0657 A70-14733

Computer modeling of operational amplifier integrated circuit in ionizing radiation environment, using RLC network and voltage transfer curve 04 p0658 A70-14740

Ionizing radiation response of integrated microcircuits with different circuit functions and manufactured by different methods 04 p0658 A70-14741

Integrated analog voltage regulator sensitivity to small signal transient radiation, discussing circuit hardening by diode compensation 04 p0658 A70-14742

Fluidics background, operational principles, constituent elements, system assemblies and applications, discussing integrated and multiple function circuits, cost and reliability advantages, etc 05 p0798 A70-16146

Microwave Si transistors with overlay and interdigital geometries and integrated circuit design considerations for power amplifiers, power oscillators and frequency multipliers 05 p0819 A70-16149

Thick film hybrid circuit technology providing higher packaging density and better cooling 06 p0106 A70-17276

Black box modeling of linear integrated circuits for computer analysis in frequency domain 06 p0106 A70-17276

Integrated circuit technology impact on electronic equipment designers and organization relationships within industry 07 p1239 A70-18800

Integrated switching circuits design optimization by ALGOL program, analyzing circuits transient behavior 07 p1242 A70-19752

Plastic symmetrical trough waveguides with metallized surfaces for hybrid millimeter-wave integrated circuit systems, discussing ferrite resonant isolator 07 p1243 A70-20151

Large scale integration /LSI/ in electronics, discussing high density microelectronic, memory and logic circuits, fabrication and computer aided design 08 p1468 A70-20468

Plastic semiconductor devices encapsulation materials and fabrication techniques, considering device performance in various environments and military applications 08 p1468 A70-20626

Radiation hardened ICs development, discussing problem of dielectric isolation 08 p1468 A70-20627

Monolithic, thick film, thin film and multichip integrated circuit techniques applied to communication equipment design 08 p1471 A70-20785

Monolithic zero crossing AC trigger IC for thyristor power control systems operating in on-off mode 08 p1478 A70-20786

Microstrip integrated circuit technology in development of microwave components, discussing fabrication, design, performance and applications 08 p1471 A70-20787

Interdigitated microstrip quadrature couplers suited for monolithic or hybrid thin film microwave integrated circuitry 08 p1476 A70-21291

Parallel multiplier design with carry-save scheme and constructed from series integrated circuits, discussing speed, complexity and cost 08 p1467 A70-21784

Solid state IC-compatible display devices optical, electrical, mechanical and thermal characteristics 09 p1642 A70-22018

Three dimensional RC network simulating temperature fields in IC at different heat source power dissipation laws, discussing harmonic heat source field 09 p1643 A70-22128

Hybrid microwave integrated circuits technology and design, discussing distributed and lumped-element structures and component properties 09 p1644 A70-22225

French microwave semiconductor technology in terms of basic research, technology studies, reliability and integrated circuits 09 p1739 A70-22602

Integrated circuit film and hybrid technologies in microelectronics, discussing role of monolithic Si arrays 09 p1645 A70-22632

Silicon monolithic integrated circuits technology for radiation environment near nuclear detonation 09 p1647 A70-23076

Light-emitting integrated circuit semiconductor display devices with inherent memory permitting logic and optical output functions performed on surface 10 p1846 A70-23883

Integrated CW UHF power amplifier modules using thin film lumped elements and UHF power transistor chips 10 p1846 A70-23884

S band CW high power broadband power source consisting of transistor amplifier-driven varactor doubler chains in hybrid integrated form 10 p1846 A70-23885

DICAP system to analyze digital sequential switching circuits, studying simulation technique range and limitations of applicability 10 p1845 A70-24236

Integrated TDMA switching/transmission system implementation into existing network 10 p1837 A70-24354

Flexible logical elements in integrated circuits with internal connections controllable from outside to realize variety of logical functions 10 p1850 A70-24618

Integrated circuits involving long-strip heat source surrounded by multiple layers, expressing temperature distribution by Fourier transformation obtained integrals 10 p1850 A70-24620

Integrated circuit microwave phased array radar antenna systems for multiple frequency bands and multifunction operations to save cost and space 10 p1851 A70-24878

Hybrid microwave integrated circuits application to phased array and Data Relay Satellite System space transponder 10 p1851 A70-24879

Integrated microwave systems development taking into account cost effectiveness and anticipating kilowatt and megawatt systems 10 p1851 A70-24880

Rocket- and projectile-borne microwave miniature solid state transmitters, discussing transistor oscillator-multiplier, hybrid integrated circuits, bulk effect devices, etc 10 p1852 A70-24887

Microwave IC-compatible resonators for communication systems filters, comparing microstrips, disks, waveguide cavities and dielectric-loaded cavities 10 p1852 A70-24892

Book on integrated electronic systems covering integrated circuit design, device and material properties, quality control, applications, etc 10 p1853 A70-25049

Integrated circuit failure analysis with scanning electron microscopy taking into account ball bond contamination and open metallization at contact windows 11 p2015 A70-25366

Integrated logic circuits, considering switching properties and medium and large scale integration 13 p2372 A70-29116

Digital correlator LSI circuits design, layout and mask considerations, diffusion, metallization and dielectric deposition 13 p2378 A70-29551

Ta thin film integrated circuit technology including resistor and capacitor elements, conductors, crossovers, etc 14 p2625 A70-30284

Integrated circuits design by combined automatic and manual system 14 p2554 A70-30670

Microwave integrated circuit lumped element approach, showing performance as function of geometry and frequency 14 p2561 A70-30920

Microstripline and balanced stripline, discussing parameters affecting maximum attainable Q in microwave integrated circuits 14 p2561 A70-30921

Microwaves in integrated military avionics systems, discussing CNI, ECM, component reliability, etc 14 p2551 A70-31177

MOSFET integrated circuits radiation resistance measurements under electron irradiation, determining changes in threshold voltage, transconductance and on-resistance for applications in spacecraft 14 p2559 A70-31372

Multiple wiring algorithm for automatic pattern design for AI interconnections and printed wiring in integrated circuits

15 p2715 A70-31842

Integrated tunnel diode amplifiers design using hybrid technique for communications satellites, noting stability and noise performance

15 p2710 A70-32469

MAGFET devices for integrated circuits, calculating magnetic sensitivity as function of channel aspect ratio and Hall electrode position

15 p2710 A70-32572

Micro-Hall device as tool for evaluating epitaxial silicon in integrated circuit processing

15 p2710 A70-32573

Monolithic linear IC building blocks for radar systems circuit design

15 p2704 A70-32581

Topology and component values in computerized design of distributed lumped active networks

15 p2711 A70-32595

Integrated analog shift register circuits computer aided design, using insulated gate field effect transistor /IGFET/

15 p2711 A70-32597

Computer aided design for microwave branch line couplers dimensions practical for integrated circuit microstrip fabrication

15 p2711 A70-32602

Failure mode and mechanism in dielectrically isolated IC attributed to metal bridging under planar oxide

15 p2713 A70-32648

Integrated circuits failures due to electromigration in thin films, discussing hole formation and circuit reliability prediction

15 p2713 A70-32649

High usage military system integrated circuit failure modes analysis for reliability improvement

15 p2713 A70-32650

Failure analysis in third generation reliability approach to IC product quality improvement, investigating Si-Al contact irregularity cause and effect

15 p2713 A70-32663

Microscopic data importance in recognizing IC semiconductor failure characteristic traits, revealing current direction, voltage magnitude, microsurface temperature excursion and approximate transient duration

15 p2693 A70-32664

Microwave IC methods applied to solid state signal sources design, using varactor tuned transistor oscillators, resistive isolation pads, amplifiers and frequency multipliers

16 p2872 A70-33069

Integrated X band superheterodyne receiver design using planar transmission lines as components

16 p2874 A70-33388

High Q reactance network realization for integrated microwave systems employing evanescent mode waveguide components

16 p2875 A70-33402

Solid state phased array radar employing MIC modules in radiating elements, achieving reliability by redundancy

16 p2877 A70-33411

Interference free high speed monolithic digital integrated gate, determining current swing, lead inductances and switching times

17 p3048 A70-34587

LSI circuits in space electronics, discussing packaging, reliability, applications, etc

17 p3053 A70-35274

Wideband microwave IC tunnel diode amplifier /TDA/ for artificial satellites, discussing noise, size and weight reduction

17 p3053 A70-35277

Complex control systems in integrated logic circuits and light laboratory materials production, discussing measurement equipment for quality control

17 p3090 A70-35416

Hybrid integrated microwave power amplifiers, using high-Q thin film lumped passive elements

18 p3232 A70-36760

Microelectronic systems radiation resistance, examining logic IC gates for reactor neutron irradiation

18 p3233 A70-36783

Aircraft digital interior communication systems, combining multiplexing techniques with solid state integrated circuits technology and systems integration [SAE PAPER 700302]

18 p3216 A70-36813

Thin films for semiconductor integrated circuits and solid state devices

19 p3389 A70-38195

Integrated microcircuits reliability prediction models based on failure mode and mechanism knowledge

19 p3391 A70-38846

Nonlinear LC circuit with p-n junction capacitance, examining relaxation vibrations during automatic biasing

20 p3596 A70-38970

Planar thin film optical waveguides for integrated circuits, utilizing information carrying potential of laser light in optical communication

20 p3598 A70-40129

Complementary metal oxide semiconductor and bipolar transistors fabrication on same integrated circuit chip by C-squared technology

20 p3598 A70-40130

Integrated directly coupled gyrator operating mode via comparison with switching elements, considering behavior under capacitance load and high pass filter application

21 p3797 A70-40793

Integrated circuit requirements for space power conditioning equipment for ion thrusters

21 p3797 A70-41211

Power IC fabrication methods covering monolithic chip, monobrid chips and IC driver with external power transistors

21 p3797 A70-41212

High power IC technical limits involving packaging, bonding wires, interconnect metal, power transistors

21 p3797 A70-41213

High voltage MOST silicon integrated circuits, using dielectric isolation and field plate techniques

21 p3798 A70-41214

Integrated circuits for control and telemetry functions in oxide cathode ion thruster power conditioning system operating from solar panel

21 p3798 A70-41216

Automatic and command multiple sequencer for spacecraft solar cell battery charger, providing switching logic by integrated circuits design

21 p3758 A70-41218

Semiconductor circuits large scale integration for aerospace computers, discussing fabrication and design

21 p3799 A70-41692

Aerospace microelectronic digital computer design, discussing optimal packaging by use of integrated circuits

21 p3795 A70-41694

Metal nitride oxide silicon /MNOS/ integrated circuit transistor, reviewing characteristics, operation mechanisms and applications

21 p3800 A70-42113

Monolithic precision castings using photoetched plastic and lost-wax investment techniques [ASME PAPER 70-FLCS-8]

22 p4043 A70-42419

Reprogrammable read-mostly memory /RMM/ using integrated circuit array of amorphous and crystalline semiconductor devices, discussing design and applications

22 p3996 A70-42772

Linear IC for RF applications including multistage amplifiers, simulating by actual units

22 p3999 A70-42821

Integrated 7 GHz small signal microwave balanced mixer, using microstrip transmission lines

23 p4168 A70-43777

Stripline and microstrip junction circulators analysis for microwave integrated circuits, based on clockwise and counterclockwise rotation modes

23 p4169 A70-43787

Klystron microwave signal generator power stabilization using compact low consumption integrated circuits

23 p4170 A70-43797

Metallization systems materials for IC, discussing environmental stability, metals electromigration, electrochemical corrosion tests, etc

23 p4173 A70-44533

Plastic encapsulated IC for military environments, discussing cooker, corrosion and thermal shock tests

23 p4173 A70-44534

High performance military aircraft missile command and control signal data processor microelectronics packaging, using integrated and printed circuit modules

23 p4174 A70-44542

Integrated circuits failure analysis techniques, including electrical diagnostics, visual inspection, surface examination, shorts location, etc

23 p4175 A70-44749

IC metallization systems in semiconductor devices fabrication and packaging, assessing metals alternate to Al for electromigration difficulties avoidance

24 p4319 A70-46075

Computer optimization program for solid state components and integrated circuits design with conversational system for man machine dialogues

24 p4317 A70-46321

INTEGRATED MISSION CONTROL CENTER

Intersite trunk elements design and usage in integrated mission control center /IMCC/ as interface equipment between internal voice communication and worldwide network

08 p1460 A70-20814

Mission Control Center and Apollo flight controller team, discussing personnel qualifications, equipment and individual evaluation

21 p3805 A70-41197

Computer real time Apollo simulation, checkout and training system duplicating actual mission for flight controllers in Mission Control Center

21 p3805 A70-41198

INTEGRATION [REAL VARIABLES]

U MEASURE AND INTEGRATION

INTEGRATORS

NT DIGITAL INTEGRATORS

Flip-flop type intergimbal compensation system for gyroscopic integrators error reduction, obtaining natural oscillations constant amplitude

01 p0092 A70-10987

Electronic transistorized harmonic signal integrator operating in connection with static-bridge

03 p0493 A70-13975

Meksyn asymptotic method of integrating boundary layer equations applied to ordinary differential equations for slip flow past seminfinit plate

06 p0979 A70-18348

Circuit analysis of pulse integrator and square-law receiver used as optimal filter during incoherent radio pulse reception on background fluctuating noise

08 p1461 A70-20865

Thermal stresses determination in turbine blades by making analogy between actual and electrical model, using EGDA integrator

09 p1785 A70-23598

Optimal distributed feedback surface temperature control of inertial grade floated rate integrating gyroscope, minimizing instrument degradation

16 p2908 A70-33347

Error reduction methods for linear acceleration gyrointegrators measuring linear velocities

19 p3420 A70-37257

Products integration of unit vector components over all solid angles

24 p4370 A70-46029

INTEGRODIFFERENTIAL EQUATIONS

U DIFFERENTIAL EQUATIONS

U INTEGRAL EQUATIONS

INTELLECT

Pilot training applicant test profiles, discussing difference between intelligent and intellectual candidates

12 p2176 A70-27028

INTELLIGENCE

NT ARTIFICIAL INTELLIGENCE

NT INTELLECT

Pilot training applicant test profiles, discussing difference between intelligent and intellectual candidates

12 p2176 A70-27028

Preparatory aviation training applicants intelligence correlated with number of brothers and sisters

12 p2178 A70-27050

INTELLIGIBILITY

NT SPEECH RECOGNITION

Fire and fire test scope and meaning limitations for consumer awareness

23 p4208 A70-43871

INTELSAT SATELLITES

Intelsat 4 communication system design and international cooperation, considering satellite design, TV and telephone channels capacity, etc

01 p0196 A70-10883

Intelsat satellites telemetry and telecontrol /TTC/, describing Fucino plant design and operation

02 p0263 A70-12647

Intelsat 4 communications satellite design and manufacture, discussing European participation with emphasis on British involvement

02 p0383 A70-12649

Intelsat satellite telecommunications system application for future long distance telephone communications

03 p0451 A70-13836

Intelsat communications /1963-1969/, discussing boosters, satellites, system characteristics and ground stations

03 p0451 A70-13840

Second antenna at Pleumeur-Bodou /France/ for satellite transmissions reception in Intelsat network program

05 p0826 A70-15981

European role in future INTELSAT Organization operational rules and principles covering proprietary, financial and voting procedures

06 p1184 A70-17579

Multichannel PCM/TDMA INTELSAT network with time preassignment and time assignment speech interpolation features for field test

10 p1835 A70-24332

TDMA demand-assigned satellite communication system developed for INTELSAT, discussing PCM, voice signals and channels, etc

10 p1839 A70-24362

Multiple-access and demand-assignment techniques, discussing compatibility of PCM-FDMA /SPADE/, PCM-TDMA, ATIC and INTELSAT 4 systems

11 p1997 A70-25415

Global commercial communications satellite system arrangements, considering evolutionary political, economic and technological developments within INTELSAT context

11 p2152 A70-25478

[AIAA PAPER 70-446]

Launch vehicle selection, utilization and mission planning and analysis in Comsat programs, discussing INTELSAT I-IV [AIAA PAPER 70-484] 11 p2002 A70-25489
 Atlas/Centaur and Titan/ Centaur launching of Intelsat 4 communication satellites, discussing booster, stage characteristics and payload [AIAA PAPER 70-483] 11 p2127 A70-26605
 Commercial satellite communications, discussing creation and objectives of Comsat and establishment of Intelsat 13 p2368 A70-29618
 Demodulators threshold performance for satisfying carrier to noise ratios requirement of Intelsat 4 system 14 p2552 A70-31352
 Low noise wideband amplifier design for Intelsat 3 satellite ground stations 16 p2877 A70-33415
 Intelsat IV command and control system, describing ground stations, control center, telemetry data handling and acquisition, etc 17 p3046 A70-35275
 Legal questions of satellites telecommunications at Washington Intelsat Conference 17 p3201 A70-35778
 Navigation aids evolution and trends, noting ground stations, Intelsat 3 and navigation satellites 17 p3048 A70-35879
 Worldwide communication satellite network cost optimization and application, discussing Intelsat role 18 p3228 A70-36510
 Small earth stations to link isolated areas with Intelsat network, discussing costs 18 p3229 A70-36957
 Monograph on communicating by satellite covering INTELSTAT system design, pricing, procurement, broadcasting, international community responsibilities, etc 21 p3955 A70-40739
 Power conditioning systems for INTELSTAT satellites, describing methods for battery charging, charge control, voltage regulation and power management 21 p3757 A70-41207
 Ground station requirements for transition to multitransponder INTELSTAT 4 satellite, discussing interference filtering, group delay distortion, etc 21 p3789 A70-41346
 Intelsat compatibility with independent regional telecommunication satellite systems 22 p4111 A70-43514

INTENSIFICATION
U AMPLIFICATION
INTENSIFIER TUBES
U IMAGE INTENSIFIERS
INTENSIFIERS
 NT IMAGE INTENSIFIERS
 NT IMAGE ORTHONICS
INTEPLANETARY SPACECRAFT
 NT MARINER-MERCURY 1973
INTERATOMIC FORCES
 Atmospheric gases atomic and molecular binary short range repulsive forces, determining interaction potentials from elastic scattering cross sections 07 p1345 A70-20141
 Inhomogeneous interatomic magnetic field effects on spectral line widening and shifts of emitting atoms in low temperature plasma 12 p2278 A70-27318
 Integral Hellman-Feynman formula applied to binding energy of molecular H and LiH, using SCF wavefunctions for atomic states 12 p2276 A70-27570
 Dissociation energy and long range interatomic potential of diatomic molecules from vibrational spacings of higher levels 13 p2454 A70-28495
 Interatomic bond strength in solid solutions of Ti-Sn-O with respect to heat resistance at elevated temperatures 14 p2595 A70-30170
 Adiabatic corrections to long range Born-Oppenheimer interatomic potentials from rotationally coupled Schroedinger equations 17 p3138 A70-35199
 Inhomogeneous interatomic magnetic field effects on spectral line widening and shifts of emitting atoms in low temperature plasma 21 p3860 A70-42059

INTERCEPTION
 Computer program /TACTICS/ for simulating three vehicles simultaneous motion in space, considering interceptor-target guidance and intercept trajectories 07 p1239 A70-20414
 Deorbiting target intercept energy optimization by game theory approach [AIAA PAPER 70-1019] 21 p3848 A70-41778

INTERCEPTOR AIRCRAFT
U FIGHTER AIRCRAFT
INTERCEPTORS
 Optimal interceptor-target allocation and guidance for linear interception and rendezvous using real time and storage computer 16 p2947 A70-33311

UpSTAGE interceptor missile flight control system, discussing command logic to capitalize on lifting body advantages to enhance roll maneuver 21 p3927 A70-40782

INTERCONTINENTAL BALLISTIC MISSILES
NT MINUTEMAN ICBM
INTERCRANIAL CIRCULATION
 Extradural sensor for continuous measurement and recording of human intracranial pressure in neurosurgical practice 19 p3367 A70-37353

INTERFACE STABILITY
 Fiber-polymer matrix interfacial tensile and shear strengths evaluation methods, including data correlation from various tests 01 p0087 A70-10478
 Fiber-matrix interface mechanics in composites, considering shear strength, stress distribution, fiber strength effects, etc 01 p0127 A70-10479
 Weak interfaces effects in laminates under triaxial tensions at crack tip, analyzing delamination during crack propagation and fracture resistance 01 p0127 A70-10482
 Microstructural interfacial stability and property retention after elevated temperature exposure of eutectic composites, discussing coarsening rate relationship to interfacial area and energy 01 p0117 A70-10485
 Shear moduli and lattice parameters effect on screw dislocation equilibrium in bimetallic medium of soft and hard phases 03 p0587 A70-13117
 Interface instability between gases due to shock wave increased linearly with time 04 p0673 A70-15245
 Elastic fields in bimaterial plate under uniform compressive and anti-plane shear loadings, finding stress distribution and induced interfacial shear stresses 07 p1412 A70-19957
 Internal waves breaking on sloping surface in two fluid system, studying interfacial shear instability by capacitance probe on-line computer system 09 p1717 A70-22371
 Orbital refueling techniques, discussing vapor-liquid interface stability, pressurant requirements, transfer line chillover, propellant transfer dynamics, dielectrophoresis, suction speed estimating and system tradeoffs [AIAA PAPER 69-564] 14 p2653 A70-30752
 Interfacial and free surface mode instabilities of time periodic flows of viscosity and density stratified fluids at various Froude numbers 14 p2566 A70-31026
 Hydrostatic stability and damping characteristics of perforated plates and screens for passive propellant control schemes from drop tower tests [AIAA PAPER 69-531] 15 p2787 A70-32510
 Shear and tensile joint strength measurements at fiber-polymer matrix interface, using pull-out test and debonding methods 16 p2937 A70-33372
 Moisture induced failure of glass-resin composites at interface, discussing water adsorption, crack propagation, wet strength and nonsilicate reinforcements 16 p2937 A70-33373
 Interface stability of thin liquid film adjacent to supersonic air flow, using sphere-cone and blunt wedge test configurations [AIAA PAPER 70-801] 17 p3005 A70-34461
 Circular inclusion interface separation in matrix under incident compressive waves interpreted for fiber reinforced composites 17 p3185 A70-34963
 Cracks and tensile failure of interface bonds in elastic composite hollow cylinder, deriving wave front propagation equations 18 p3283 A70-36388
 Composite laminates under uniform axial strain, determining interlaminar stresses and displacements by finite difference techniques 22 p4060 A70-43684

INTERFACES
NT FLUID BOUNDARIES
NT GAS-SOLID INTERFACES
NT JET BOUNDARIES
NT LIQUID-LIQUID INTERFACES
NT LIQUID-SOLID INTERFACES
NT LIQUID-VAPOR INTERFACES
NT SOLID-SOLID INTERFACES
 Interfaces in composites - ASTM Conference, San Francisco, June 1968 01 p0126 A70-10476
 Eccentric face seal with tangentially varying film thickness, analyzing leakage flow proportional to eccentricity and surface waviness [ASLE FICFS PREPRINT 15B] 02 p0308 A70-12176
 Radio wave scattering and brightness on uneven interface, determining frequency spectrum of signal reflected from surface assuming uniformly moving receiver 05 p0813 A70-16261

Saint Venant torsion and flexure of composite prismatic and cylindrical bars with circular and concentric interfaces 05 p0936 A70-16318
 Thermal and electric conductivities for interface separating two parts of system with different temperature and chemical and electrical potential 14 p2617 A70-31296

INTERFACIAL ENERGY
 Interfacial equilibrium free surface energies between glass fibers, coupling agent and resin matrix, considering wetting, absorption and bonding 01 p0128 A70-10486
 MOS structure electrical characteristics dependence on silicon/silicon dioxide interfacial energy and electric charges, considering fabrication difficulties 02 p0350 A70-12541
 Forces at boundary surface in solid phase in solids and adhesive film interactions, considering boundary surface energy 08 p1503 A70-20879
 Failure mode in shear loaded graphite filament reinforced epoxy composites dependent on interfacial bond strength 08 p1533 A70-21915
 Interfacial energy and free energy estimation by quasi-continuum approximation for two component water-organic or organic-organic liquid systems 10 p1915 A70-23843
 Adhesive debonding in case-bonded solid propellant rocket motors, describing stress analysis and interfacial surface energy measurement 17 p3146 A70-35222
 Energy balance criterion for continuum mechanics analysis of fracture threshold for blistered adhesive elastic layer between elastic material and rigid substrate 19 p3536 A70-37774
 Postmechanical interface separation in elastically supported rotary face seals under input excitation [ASLE PREPRINT 70AM 3C-3] 19 p3439 A70-38808
 Alloys stacking faults thermodynamics based on Gibbs treatment of interfacial free energy 22 p4124 A70-42726

INTERFACIAL STRAIN
U INTERFACIAL TENSION
INTERFACIAL TENSION
 Fiber-composite materials fracture, noting interface mechanical strength effects on composite properties under tension and shear 01 p0127 A70-10481
 Rigid plastic body of material insensitive to strain rate under time dependent surface tension and time independent body forces 02 p0391 A70-12816
 Plane elasticity solution for differential expansion stresses on interface of laminated elastic rectangular strip 03 p0586 A70-13114
 Stress intensity and strain energy release rate in elastic fiber-reinforced composites with different thermomechanical properties and imperfect bonding [ASME PAPER 69-WA/APM-15] 04 p0771 A70-14913
 Equilibrium shapes of rotating weightless fluid with surface tension in absence of external force field obtained by boundary layer theory 04 p0673 A70-15241
 Axial compression of elastic circular cylinder in contact with identical elastic half spaces, determining interfacial surface stresses for frictionless and adhesive contacts 05 p0930 A70-16082
 Adhesive or frictionless compression /or extension/ under axial load of elastic rectangle between two identical elastic half spaces in condition of plane strain 05 p0931 A70-16132
 Heat transfer during nucleate boiling, discussing transfer from heated surface to superheated liquid layer and exchange on gas-liquid interface 06 p1176 A70-17695
 Interface stresses in ceramic/metallic spherical shells for deep superelastic structures using hydrostatic testing and photoelastic analysis [AIAA PAPER 70-135] 06 p1170 A70-18089
 Surface tension plotted against density and temperature of hydrocarbon jet fuels, determining critical temperature 07 p1357 A70-18653
 Ideal fluid in lightly filled spherical vessel under gravitational force investigated for surface tension effect on vibration frequencies 08 p1482 A70-20853
 Rehydratable food consumption in zero-gravity environments with spoons and forks, observing interfacial tensions between water and food, containers and utensils 09 p1628 A70-23464
 Liquid phase convective heat transfer as rate controlling mechanism for flame propagation, analyzing surface tension driven liquid flow induced by temperature profile 10 p1929 A70-24091

- Cavitation flow around wedge taking into account gravity and surface tension 10 p1868 A70-24162
- Film cavitation between flat annular surfaces in face seal resulting from hydrodynamic pressure generated by misalignment and surface waviness 13 p2417 A70-28613
- Negative g Drone aircraft surface tension fuel system preventing air inclusion in turbojet engine fuel by tank filters/screens/ [AIAA PAPER 70-910] 17 p3019 A70-35822
- Mathematical solutions validity in determining constant interface friction factor from ring compression tests [ASME PAPER 69-WA/LUB-8] 19 p3434 A70-37603
- Viscosity and vessel geometry effects on fluids natural and forced oscillation, taking surface tension into account 20 p3614 A70-40438
- Cellular convection in fluid layers with parabolic temperature distribution, calculating stability effects of gravity and surface tension gradients 21 p3952 A70-42078
- Surface tension role in microliquid layer formation on solid surface with growing bubble in nucleate boiling, using optical method 21 p3953 A70-42089
- Perfect nonrelativistic bounded gas thermodynamics and surface tension, assuming single particle energy level density dependence on external potential 23 p4284 A70-44928
- Fibrous composite interface effects and fracture work, discussing tip stresses of crack normal to fiber, energy dissipation by pullout and debonding in brittle fiber composites, etc 24 p4419 A70-45171
- Fibrous composites design for mechanical properties improvement, discussing interfacial properties conflicting requirements as to interlaminar shear, transverse tensile strength, high work of fracture values, etc 24 p4419 A70-45172
- Intermaterial adhesion relation to association contact resistance-tension characteristics based on electric potential barrier model for Maxwell-Wagner effect 24 p4379 A70-45617
- Air and liquid filled excised lungs P-V hysteresis curves, determining surface tension in situ 24 p4302 A70-46104
- ### INTERFERENCE
- Interference fringe in Fraunhofer hologram reconstruction of tapered glass fibers related to fiber profiles 01 p0090 A70-10906
- Interference phenomenon observable by ultrasonic fields visualization in 1-10 MHz range, discussing beam stratification 13 p2404 A70-28646
- Doppler effect in interference fringe formation in holographic vibration analysis, discussing path length variation 22 p4038 A70-43152
- Wind tunnel wall interference effects for V/STOL aircraft with lift jets, using modified theoretical model for complex jet arrangements [ICAS PAPER 70-54] 23 p4139 A70-44150
- Oscillatory motion of triangular wing with conical body of arbitrary cross section in supersonic flow, considering wing-body interference effects 24 p4288 A70-45592
- ### INTERFERENCE DRAG
- Upwash interference on oscillating wing in slotted wall wind tunnels, analyzing acceleration and velocity potentials using small wing theory 04 p0621 A70-15605
- Transonic aircraft testing capabilities and limitations, considering tunnel wall interference and Reynolds number effects [AIAA PAPER 70-580] 13 p2348 A70-29876
- Single and twin jet afterbody configuration models, describing drag and interference characteristics at subsonic speeds 14 p2528 A70-30862
- Critical flutter behavior of variable geometry aircraft with wing of 70 degree leading edge sweep, noting wing-tail interference 18 p3338 A70-36445
- Transonic wind tunnel porous walls, investigating interference effects and aerodynamic characteristics 22 p3958 A70-42337
- Exhaust nozzle/airframe interference test evaluation for twin engine supersonic fighter [AIAA PAPER 69-430] 22 p3958 A70-42702
- ### INTERFERENCE GRATING
- Spatial distribution of field intensities of resonators, using diffraction gratings and prisms 04 p0651 A70-15289
- Holographic dielectric gratings analyzed by Raman-Nath formalism modified for losses 11 p2050 A70-25640
- Double asymmetric grating with thin ideally conducting strips, describing incident E-polarized electromagnetic wave diffraction 19 p3378 A70-37744
- Diffraction amplitudes in plane H-polarized electromagnetic wave incident obliquely on grating with closely spaced conducting rectangular bars, obtaining transmission coefficient 19 p3378 A70-37745
- Welded joint strain measurement by grating etching and moire fringe technique 19 p3428 A70-38513
- Plane electromagnetic waves diffraction by moving periodic metal strip grating, writing E polarized wave of unit amplitude by Lorentz transforms 22 p3984 A70-42388
- ### INTERFERENCE LIFT
- Wind tunnel boundary interference on V/STOL model calculated in test section with solid vertical and slotted horizontal walls, using image method and Fourier transforms [AIAA PAPER 70-575] 13 p2343 A70-29894
- Subsonic boundary lift interference in wind tunnels with perforated walls, using point matching method 14 p2563 A70-30869
- Aerodynamic interferences of lifting surfaces harmonically vibrating in subsonic flow 23 p4136 A70-44765
- ### INTERFERENCE MONOCHROMATIZATION
- #### U DIFFRACTION
- #### U MONOCHROMATIZATION
- ### INTERFEROGRAMS
- #### U INTERFEROMETRY
- ### INTERFEROMETERS
- NT FABRY-PEROT INTERFEROMETERS
- NT MACH-ZEHNDER INTERFEROMETERS
- NT MICHELSON INTERFEROMETERS
- NT MICROWAVE INTERFEROMETERS
- NT PHASE SWITCHING INTERFEROMETERS
- NT RADIO INTERFEROMETERS
- Density distribution measurements in flow field using interference methods, including laser light sources 01 p0085 A70-10268
- Interferometer for compressing linearly FM light pulses and analyzing spectra of picosecond pulses 01 p0111 A70-10670
- Holographic two beam real-time Fizeau interferometer for recording and reconstructing reflected light waves in silvered flat surfaces measurement 01 p0090 A70-10905
- Gas pressure differences and diffusion rates recording using He-Ne laser interferometer, discussing aerodynamic applications and avionic instrumentation problems 02 p0299 A70-12272
- Twin wave interferometer and strain gauge mechanism for press-fit measurements of contact deformation on metallic and polymer samples 03 p0484 A70-13426
- Schlieren system converted into Kraushaar diffraction grating interferometer with isolated optical platform, considering applications to supersonic flow over airfoil shapes 04 p0689 A70-15016
- Frequency response of 6328 A He-Ne laser interferometer analyzed for multimode oscillations noting plasma diagnostics applications 05 p0861 A70-16989
- Displacement measurement to fractions of micron using laser interferometer 06 p1060 A70-17149
- Multiple beam interferometer coherence analyzer for temporal and spatial study of laser beams, emphasizing application to pulsed lasers, holography and nonlinear optics 07 p1297 A70-19145
- Vacuum UV spectrum interferometer with grazing incidence reflections between plane parallel mirrors to obtain coherent beams, discussing fringe patterns 07 p1286 A70-20081
- Multibeam interferometer sensitivity restrictions due to diffraction effects on interference patterns near transparent inhomogeneities 08 p1493 A70-20540
- Stellar interferometer with superposed beams designed for measurements of close binaries, showing point light modulation convenient for photoelectric recording 08 p1493 A70-20564
- Laser interferometric technique involving use of unstable external resonator to facilitate electron density measurements in presence of transverse plasma density gradients 08 p1499 A70-21693
- Compact unequal-path radial shearing laser interferometer designed for small angular aperture wave front testing 09 p1696 A70-22719
- High resolution Fourier interference near IR spectrometer for aircraft, balloon and spacecraft remote sensing applications 09 p1683 A70-23508
- Axial mode selection and frequency stabilization of Nd-YAG laser by optimally designed crystal quartz etalon 10 p1900 A70-24943
- Electron concentration measurement range expansion in plasma by laser interferometer with optical signal phase modulation 12 p2278 A70-27328
- Portable low cost shearing interferometer for plasma and flow analysis and instruction aid 12 p2235 A70-27754
- Maximum mode selection tuning of scanning interferometer with spherical mirrors applied to He-Ne laser spectrum analysis 12 p2250 A70-28182
- Backward facing separated step boundary layer flow at Mach 2.25 investigated by diffraction grating interferometer and color schlieren technique [AIAA PAPER 70-571] 13 p2343 A70-29898
- Savart interferometer for high sensitivity measurements of refractive index gradients using double exposure technique 14 p2583 A70-30400
- Stellar intensity interferometer for close binaries and emission line stars, investigating gamma-two Velorum 14 p2640 A70-30733
- Water sources associated with W3, Orion Nebula, W49 and VY Canis Majoris observed with coherent interferometers having long baseline 14 p2642 A70-30892
- Venus radar mapping using fixed base line interferometer for hemispheric ambiguity resolution 14 p2647 A70-31078
- False signal in scanning interferometer for helium-neon lasers in single and simultaneous TEM modes 15 p2749 A70-31557
- Optical polarization, discussing radiation intensity and state measurement by two beam interferometer 15 p2736 A70-32035
- Rayleigh type holographic interferometer featuring production method for base pattern of variable fringe density 15 p2741 A70-32438
- Stellar interferometer with superposed beams designed for measurements of close binaries, showing point light modulation convenient for photoelectric recording 15 p2742 A70-32719
- Plasma concentration measurement in coaxial accelerator, using gas laser and multiple wave interferometer in vacuum chamber 15 p2781 A70-32858
- Optical resonator thermal deformations during pumping of circular cylindrical interferometer rods in illuminators, measuring thermo-optical constants of neodymium glass 15 p2754 A70-32863
- Vacuum interferometer strain gage for absolute earth strain measurement via length change comparison with wavelength standard 16 p2925 A70-33024
- Optical heterodyne interferometer for stellar diameter measurements 16 p2925 A70-33025
- Optical system and light source imperfection effects interference image contrast lowering in laser interferometer for length measurements 16 p2928 A70-33292
- Holographic motion measurement verification of constant velocity, sinusoidal vibration and both, using interferometer 17 p3087 A70-35022
- Intensity interferometer for weak noise-like signal power measurement in presence of additive Gaussian noise 17 p3089 A70-35265
- Equivalent interferometer existence theorem in holography 19 p3423 A70-37830
- High accuracy length measurement by fringe counting using laser interferometer 19 p3447 A70-38050
- Ronchi test interferometer for optical quality checking of laser crystals 20 p3627 A70-39094
- Power diffraction losses at mirrors of asymmetric confocal laser interferometers with output coupling apertures 20 p3628 A70-39130
- Laser interferometer system unwanted reflections elimination and intensities control in each arm by linear polarization method 21 p3823 A70-40820
- Acoustic interferometer for speed of sound measurement in pure gases, determining second virial coefficient for Ar and N 21 p3828 A70-41766
- Electron concentration measurement range expansion in plasma by laser interferometer with optical signal phase modulation 21 p3860 A70-42069
- Wollaston prism schlieren interferometer for quantitative density gradient measurements in air [SMPT PREPRINT 25] 22 p4034 A70-43050
- ### INTERFEROMETRY
- #### NT DIFFERENTIAL INTERFEROMETRY

Holographic interferometry as stress analysis technique for crack propagation studies, discussing advantages over classic interferometric and conventional photoelastic methods

01 p0198 A70-10002

Holographic interferometry for determining optical path variations resulting from photographic plate emulsion thickness and refractive index changes during development

01 p0087 A70-10666

Secondary surveillance radar and interferometry techniques to determine aircraft positions in real time and all weathers for air terminal approach control

02 p0331 A70-11965

Optimum procedure for high speed cinematography of holographic interferograms permitting microsecond exposures while retaining picture quality

02 p0298 A70-12213

Sandwich structures nondestructive testing by holographic interferometry, discussing system operation, specimen stressing, acoustic vibration, etc

02 p0309 A70-12274

Quantitative interpretation of three dimensional weakly refractive phase objects using holographic interferometry, determining index of refraction

02 p0300 A70-12464

Holographic interferometry with pulsed ruby laser holocamera for examining flow distribution in supersonic free jet wind tunnel

03 p0480 A70-12948

Holographic interferometry applications in experimental mechanics, illustrating nondestructive testing by flaw detection in bonded honeycomb

03 p0481 A70-12959

Hologram interferometry to study stresses in fixed two dimensional photoelastic models and three dimensional slice qualitative analysis [SESA PAPER 1530]

03 p0482 A70-12964

Displacement interferograms and schlieren pictures of optical inhomogeneities in transparent media obtainable from single exposure hologram, using non-monochromatic and laser light for reconstruction

03 p0483 A70-13258

Double exposure holograms in diffuse radiation used to reconstruct in white light interferogram images localized in hologram plane

03 p0483 A70-13259

Hologram interferometry accuracy, reliability, application to plate deformation and translation measurements, using moire method and correction factors

03 p0493 A70-13945

Holographic method for measuring optical instruments transfer function, using laser light source and beams interference

03 p0493 A70-13946

Surface roughness measurements by coherent optics and interferometry, including theory and experimental verification

04 p0689 A70-15015

Gabor holography producing interference phenomena, discussing far field fringes, circular fringes, diffuser, etc

05 p0849 A70-16529

Holographic interferometry applied to amplitude measurement of periodic mechanical surface vibration

06 p1069 A70-18436

Holography history and applications to interferometry, contour mapping and three dimensional photography

07 p1279 A70-18900

Body displacement and deformation measurement by fringe separation in holographic interferometry

07 p1280 A70-19143

Hologram interference fringes formation and location using grating model of diffusely reflecting surface

07 p1280 A70-19144

Holography without reference beam for two and three dimensional interferential wave front recording and reconstruction

07 p1285 A70-19858

Holo-diagrams for simplified evaluation of amplitude and direction displacement in double exposed holograms for interferometric measurements

07 p1287 A70-20086

Interferograms taken by phase difference amplification technique with nonlinear hologram, considering amplified image accuracy

08 p1500 A70-21788

Holography in terms of photogrammetry, reviewing interferometry role, wave construction and reconstruction, etc

09 p1674 A70-22260

Real time hologram-interferometry application to optical aspheric surfaces testing explained by geometrical optics

09 p1676 A70-22717

Inexpensive live stroboscopic holographic interferometry, discussing time averaged and stroboscopic methods

09 p1676 A70-22787

Transient partially ionized plasmas observation by two wavelength holographic interferometry, describing electron density measurements

09 p1736 A70-23186

Sensitivity of nondiffuse double exposure holographic interferometry with transparent medium increased via multiple beam passage through medium placed in optical cavity

09 p1682 A70-23360

Weak phase objects detection based on interferential and streak photography methods, noting fringe deformation role

10 p1916 A70-24587

Ambiguities during brightness temperature distributions reconstruction from intensity interferograms

11 p2048 A70-25335

Plastic strains at sharp notch roots in Perspex plates using interference patterns formed by gas laser monochromatic light beam for fracture initiation

11 p2131 A70-25594

Photoelasticity stress analysis, determining principal stress differences and orientation, using holographic interferometry to obtain sum and separation

11 p2049 A70-25596

Pulsed laser holographic interferometry of density field created by high speed projectile motion in air [ALAA PAPER 69-347]

11 p2051 A70-25987

Radar interferometry as diagnostic method for remote probing of turbulent plasma

11 p2096 A70-26766

Interferometric stress analysis in three dimensional photoelasticity, including practical measurements and analysis in terms of refractive index

12 p2326 A70-27621

Interferometric combinations of frequency-shifted mode-locked laser pulses achieved by optical modulation-demodulation methods

12 p2249 A70-27755

Plasma diagnostics by high sensitivity holographic interferometry

12 p2235 A70-27794

Coherent light holographic and incoherent interferometric imaging analogy, noting three dimensional image formation

12 p2236 A70-28120

Laser beam photography utilization in engineering for optical pointers, interferometers and holographic visualization of surface strain and vibration

13 p2406 A70-28914

Hologram interferometry using moire method to determine bending moments of object surface

13 p2409 A70-29474

Displacement component in chosen direction on deformed object surface, using hologram interferometry with double illumination

13 p2409 A70-29475

Large diffraction gratings by interferometrically controlled commercial measuring machine

13 p2412 A70-29821

Interferometric measurement of spatial correlation function of optical radiation fields propagating through turbulent atmosphere

13 p2454 A70-29825

Displacement sensor based on interference fringes counting by laser interferometry

14 p2594 A70-30683

Nondestructive bond inspection by interferometric holography of ultrasonically excited plates

14 p2588 A70-31166

Superradiant pulsed 5401 A neon laser for interferograms of gas flow through nozzles in shock tunnel

15 p2750 A70-31763

Photoelastic stress analysis, discussing holographic interferometry for main stresses separation and polyester resins application to birefringence pattern superposition elimination

15 p2815 A70-31809

Interferograms of window wave front deformations to measure angular deviations to line of sight

15 p2737 A70-32038

Laser beam shaping for streak interferometry, obtaining thin beam uniform over filling length

15 p2752 A70-32049

Holographic interferometry combination with high speed photography, obtaining time resolved record of event

15 p2737 A70-32051

Fringe interpretation in stress-holo- interferometry, emphasizing isopachic-isochromatic interaction effects in photoelastic analysis [SESA PAPER 1642]

15 p2739 A70-32309

Fringe visibility and localization in double exposure holographic interferometry of diffusely reflecting flat objects

15 p2740 A70-32430

Laser interferometry strain gage for measuring earth strain, taking into account wavelength stabilization

16 p2925 A70-33023

Aircraft turbine engine components vibrational testing by holographic interferometry methods

16 p2903 A70-33134

Holographic interferometry for evaluating bond between diaphragm and base in pressure transducer

16 p2904 A70-33138

Holographic interferometry for moire strain analysis, discussing theory and applications

16 p2904 A70-33149

Turbulent wakes density fluctuations measurement using pulsed laser holographic interferometry in ballistic range

[ALAA PAPER 70-727]

Time-average holographic interferometry applied to HF transverse vibrations of uniform cantilever beam, noting correlation with Timoshenko beam theory

16 p2834 A70-33494

Holographic interferometry measurements, including low frequency quartz vibration and relaxation effects in materials following strain or impacts

17 p3085 A70-35005

Hologram interferometry for measuring surface deformation under force and anisotropy in transparent objects

17 p3085 A70-35009

Pressure transducer diaphragms displacement measurement by holographic interferometry

17 p3085 A70-35010

Normally loaded thin plate displacements, bending moments and stresses determined by hologram interferometry and indirect moire and superposition of grilles

17 p3085 A70-35011

Axially loaded cylindrical shells prebuckling deformation behavior measurement by holographic interferometry

17 p3086 A70-35012

Hologram interferometry with birefringent objects, showing advantages over polariscope and classical interferometers

17 p3086 A70-35013

Vibration measurement by hologram interferometry, discussing wave front reconstruction and fringe theory based on Rayleigh integral formulation of light propagation

17 p3086 A70-35017

Engineering components vibration mode studies by time averaged holographic interferometry

17 p3087 A70-35019

Precision components engineering inspection and sonic transducer surface vibration modes analysis by hologram interferometry

17 p3087 A70-35021

Light velocity from frequency and wavelength differences between gas laser lines, using precision long path interferometry

17 p3104 A70-35085

He-Ne laser emission wavelength, using laser interferometry based on feedback between moving mirror and resonator

17 p3104 A70-35088

Pulsed plasmas refractive index measurement by two-wavelength He-Ne laser interferometry, estimating effects of heavy atoms and neutral gas density

17 p3107 A70-35110

Laser interferometry for accelerometer and dynamic pressure transducer calibration and vibration measurement

17 p3089 A70-35124

Electron concentration distribution over plasma discharge cross section, using interferometry

17 p3142 A70-35732

Interferometric holograms of vibrating body via numerical analysis of oscillations amplitude and phases

18 p3258 A70-36303

Holographic interferometry applications in stress analysis of photoelastic resins, describing holographic interferometry assembly

18 p3262 A70-37209

Holographic interferometry of rapid phase objects by two wavelengths from ruby laser and KDP crystal filter, noting application to dense plasmas

19 p3422 A70-37650

Piezoelectric controlled device as standard for holographic interferometry, providing continuously variable subject plate displacement and/or rotation

19 p3425 A70-37890

Holography, discussing light propagation, basic principles, skew reference wave, diffused illumination interferometry, character recognition, microscopy, high density information storage, etc

19 p3427 A70-38449

Stress and vibration effects measurement by holographic interferometry, comparing results with direct measurements

19 p3427 A70-38450

Membrane attachment for pressure transducer with help of holographic interferometry, describing optical system

19 p3427 A70-38453

Laser rod faces parallelism measurement by interferometric method for Brewster or square ended rods

20 p3640 A70-39095

Characteristic functions for frequency analysis of fringes obtained by time-average holographic interferometry of generalized time dependent optical phase function

20 p3628 A70-39133

Ring lasers design and performance, measuring angular velocity by interferometry

20 p3641 A70-39418

Laser interferometry with unstable external resonator, determining radial electron density distributions

during implosion phase of linear z-pinch discharge in argon 20 p3630 A70-39420

Optical interferometry device for large amplitude vibration measurement 20 p3630 A70-39488

Cathode spaces electron concentration, time dependence and axial distribution by laser beams interferometric method, noting accuracy and resolution 21 p3836 A70-40796

Rigid cylinder rotation and flexible shaft torsion observation by holographic interferometry 21 p3822 A70-40813

Multiple wavelength desensitized hologram interferometry to extend displacement measurement range 21 p3822 A70-40814

Holographic interferometry measurements of surface amplitudes distribution under periodic mechanical vibration 21 p3824 A70-40864

Apollo 11 lunar dust small glassy spherules and cylinders examination by interferometry, discussing specular reflection, microcracking, chipping and origin 21 p3919 A70-41682

Time average holographic interferometry of circular plate vibrating simultaneously in rationally related modes 21 p3829 A70-41927

Combined hypersensitization and rapid in situ processing for time-average observation in real time hologram interferometry 22 p4025 A70-42321

Plasma diagnostics by two-beam optical interferometry and holographic techniques, discussing plasma parameter spatial distribution recording insensitivity to radiation and variable-sensitivity interferometry 22 p4079 A70-42382

Laser application to nondestructive testing via holography and hologram interferometry 22 p4028 A70-42587

Interferometric investigation of rapidly variable frequency dependent phase objects, using ruby laser waves [SMPT PREPRINT 26] 22 p4034 A70-43049

Real time holographic interferometry for flame propagation research, using high speed camera [SMPT PREPRINT 9] 22 p4035 A70-43053

Holographic interferometry sensitivity augmentation by use of nonlinear properties of photoemulsion 22 p4038 A70-43140

Holographic interferometry for study of transparent media, noting application to aerodynamic phenomena [ONERA-TP-851] 22 p4039 A70-43455

Holographic interferometry by backscattering, considering displacement and deformation problems [ONERA-TP-852] 22 p4039 A70-43456

Nondestructive measurement of elastic and plastic deformation in soldered joints and printed circuit boards by holographic interferometry 22 p4047 A70-43521

Holo-diagrams for predicting fringe patterns in hologram interferometry caused by translation motion and rotation 22 p4040 A70-43610

Transparent objects holographic interferometry with illumination derived from phase gratings to eliminate laser speckle 22 p4040 A70-43611

Hologram interferometry as noncontact tool for vibration mode measurements of turbine blade groups 23 p4193 A70-43925

Laser applications in length measurement and holography, describing principles and techniques, modulated laser beams and pulse transit time 23 p4201 A70-43998

Focused image holographic interferometry by double exposure with reconstruction in white light applied to flat rotating subject 23 p4199 A70-45058

Holographic interferometry of phase object by double exposure method, showing no effect of photographic emulsion compression on order of interference 24 p4334 A70-45368

Electro-optical light speed measurements with interference comparator using He-Ne lasers with light modulators 24 p4353 A70-45562

Turbine compressor blades vibration mode measurements by holographic interferometry 24 p4334 A70-45563

Holographic interference pattern interpretation, measuring object rotation 24 p4336 A70-45666

Holographic interferometry for NDT inspection of adhesive bonded honeycomb sandwich aerospace structures 24 p4338 A70-45754

X ray and neutron propagation in multilayer film composite, discussing boundary conditions in interlateral systems 24 p4380 A70-46095

INTERGALACTIC MEDIA

Diffused X ray background in isotropic world models in terms of Compton radiation from cosmic ray electrons in intergalactic space 02 p0356 A70-11743

Galactic satellite interpretation for high velocity hydrogen clouds at high latitudes 02 p0363 A70-11780

Quasars photoionization of intergalactic high density hydrogen gas to interpret absorption features absence, noting gas temperature 10 p1942 A70-24628

Observational cosmology, discussing aspects of radio source and quasar counts, intergalactic medium and cosmic black body radiation 12 p2298 A70-27061

Intergalactic medium lukewarm models, considering physical state, cosmic photon spectrum and isothermal and adiabatic expansion 14 p2651 A70-31291

Intergalactic gas condensation rates in galactic nuclei, considering recurrent magnetoplasma cores and quasar-like phenomena 15 p2801 A70-32479

Red shift absorption systems ions related to intergalactic medium properties in clusters of galaxies 17 p1353 A70-34526

UV background radiation observed above atmosphere for intergalactic gas, Galaxy and subcosmic ray components 17 p1363 A70-34903

Spiral galaxies structure, considering maintenance problem and effect of possible gas inflow from intergalactic space 18 p3326 A70-37152

X ray emission of hot dense intergalactic plasma, discussing evolution equation for temperature and degree of gas ionization vs red shift 21 p3877 A70-40702

UV and nonthermal X ray interaction with intergalactic gas, considering photoionization and recoil associated with Compton X ray scattering 21 p3878 A70-40706

High velocity intergalactic hydrogen origin, examining galactic evolution by gas infall 21 p3887 A70-41112

Universe density estimation by galaxy formation theory, discussing spiral galaxies intergalactic gas thermal radiation and soft X rays 21 p3887 A70-41113

Interstellar and intergalactic medium physics, examining H I and H II regions thermal and dynamic states 22 p4098 A70-42578

Intergalactic gas condensation rates in galactic nuclei, considering recurrent magnetoplasma cores and quasar-like phenomena 23 p4240 A70-43904

Primeval cosmic magnetic fields origin, discussing galactic fields and limits on present intergalactic field 24 p4403 A70-45396

INTERGRANULAR CORROSION

Austenitic stainless steels intergranular corrosion model proposed and supported by observations of structural changes and corrosion behavior, suggesting methods to reduce susceptibility 03 p0506 A70-13130

Intergranular corrosion mechanisms in ferritic stainless steels observed by electronmicroscopic examination on Cr Fe-base alloys vacuum-melt with C and N 03 p0506 A70-13131

Heat treatment produced semicoherent and incoherent precipitations diminished susceptibility to stress corrosion cracking of aluminum binary and ternary alloys 04 p0708 A70-15370

Aluminum alloys intergranular and stress corrosion, noting electron microscopy application for alloys performance improvement 04 p0710 A70-15680

High temperature oxidation of Ni-Cr alloys and stainless steels in molten salt, observing grain boundary corrosion with electron probe 15 p2757 A70-31875

INTERIOR BALLISTICS

Interior ballistics of high-low propulsion system with fixed volume high pressure combustion chamber coupled to variable volume lower pressure action chamber 03 p0548 A70-14116

Interior ballistics for wide temperature throttling of solid propellant rockets by variable-throat-area nozzle, noting composition effect screening 11 p2103 A70-26154

Internal ballistics equations solution on basis of pressure index law of burning taking into consideration density approximation 15 p2786 A70-31849

Spin effect on internal ballistic of radial burning solid propellant rocket motor spun about longitudinal axis 15 p2791 A70-32794

Internal ballistics of composite propellant charge in first stage of burning 19 p3489 A70-38373

INTERLAYERS

NT MULTILAYER INSULATION

Diffusion welding of dissimilar metals with or without intermediate layers, assessing joint strength factors 03 p0498 A70-14071

Interlayer ionization valley depth influence on F region heights, calculating N/h profiles from ionograms 14 p2571 A70-30229

Energy balance criterion for continuum mechanics analysis of fracture threshold for blistered adhesive elastic layer between elastic material and rigid substrate 19 p3536 A70-37774

Interlayer ionization valley depth influence on F region heights, calculating N/h profiles from ionograms 24 p4331 A70-46304

INTERLOCKING

U LOCKING

INTERMEDIATE FREQUENCIES

IF optimum bandwidth for maximizing output SNR in FM receiver with barrier to noise ratio below discriminator threshold 01 p0051 A70-11119

Ray tracing techniques applied to night sky wave medium frequency propagation, modifying program for absorption and polarization coupling losses 07 p1230 A70-19164

FM/FM telemetry threshold carrier SNR and receiver IF bandwidth optimization through computer program 11 p2014 A70-26272

IF combinator for broadband transhorizonal radio relay transmission improvement by providing optimum SNR 11 p2020 A70-26821

Radio wave field intensity in middle frequency range, determining propagation curves for large distances 14 p2547 A70-30208

Medium wave thin cylindrical dipole antenna arrays design, discussing operating impedance determination 15 p2714 A70-32816

Frequency and stability measurements of IF signals generated between laser far IR radiations and conventional oscillators 17 p3104 A70-35084

Solid state IF or baseband switching elements design for high capacity multichannel microwave systems 23 p4172 A70-44014

Radio wave field intensity in middle frequency range, determining propagation curves for large distances 24 p4316 A70-46283

INTERMEDIATE FREQUENCY AMPLIFIERS

Transistor RF and IF amplifiers designed for 210-ft antenna of Australian National Radio Astronomy Observatory 07 p1243 A70-20350

Wideband microwave transistor IF amplifier for mm wave communication system 14 p2555 A70-30283

Transistorized IF amplifier output matching to long transmission line, deriving formulas for gain and pass-band over wide output impedance range 22 p3995 A70-42520

INTERMETALLICS

Ni-Cb intermetallics phase precipitation during aging of Inconel alloy 718, composition, stability and structure 01 p0116 A70-10093

Martensite structure, discussing intensity anomalies in X ray diffraction pattern of intermetallic Ni-Nb 01 p0121 A70-10900

Al-Ni intermetallic whisker-reinforced Al microstructure and mechanical properties, studying effects of cold rolling 03 p0508 A70-13142

Phase alteration quenching effects in Ni-Mo alloys, discussing high temperature alpha region, isothermal annealing below peritectoid temperature and metastable nickel molybdenide phase 03 p0508 A70-13143

Ni-Nb intermetallic compound precipitation effect on various phase formations in strained samples of Alloy 718 / wrought Ni base alloy/ 03 p0511 A70-13568

Intermetallic precipitates development and mechanical properties of maraging steel as function of composition, tempering time and temperature using electron microscopy 07 p1310 A70-19748

Al-Cr-Zr alloy ingots macrostructural inhomogeneities, studying roles of casting rate and additives in intermetallics primary crystallization 08 p1517 A70-21128

Electrical resistivity of TiNi and TiCo compounds and alloys measured at various temperatures after quenching or annealing 09 p1707 A70-23194

Optical properties of beta prime phase CoAl, CoGa and NiGa as functions of composition and photon energy 10 p1919 A70-23986

Microconstituents effect on wear behavior of high hardness steels on basis of crossed-cylinder testing, discussing intermetallic compounds influence
10 p1895 A70-24853

Mechanism and kinetics of intermetallic layers formation and growth in welded joints of unlike metals
11 p2067 A70-26594

HF electrodeless plasma discharge synthesis of niobium and vanadium intermetallic compounds
11 p2061 A70-26746

Soviet monograph on intermetallic compounds with Laves phases, covering crystallographic and thermodynamic characteristics of Mg-Zn, Mg-Cu and Mg-Ni systems
12 p2252 A70-26885

Superconducting thin films of beta-tungsten structure Nb-Al-Ge compound, discussing high purity sputtering preparation techniques and properties in magnetic fields
12 p2285 A70-27259

Physical metallurgy, discussing metals, intermetallic compounds and polymorphic metals properties, single crystals production, etc
12 p2257 A70-28272

Solid solutions of GaAs with 2B or 6A intermetallic compounds, using metallographic and X ray methods
13 p2469 A70-28856

Phase transformations in TiNi with equiatomic composition, using internal friction, electrical resistivity and dilatometry
13 p2435 A70-29499

Quench hardening and Ni content relationship in Ti-Ni intermetallic compounds, investigating heat treatment effect on mechanical properties
16 p2930 A70-33084

Nb-Sn superconductors multiphase structure with three intermetallic phase, constructing diagram based on phase stability and composition
18 p3299 A70-37221

Magnetic and structural characteristics of ternary intermetallic systems with lanthanides, considering Ln substitution by other rare earth elements
22 p4085 A70-42481

Lanthanide zinc intermetallic compounds magnetic characteristics in 4-300 K range, observing Curie-Weiss behavior
22 p4085 A70-42482

Weak itinerant ferromagnetism theory for Ni-Ga and Ni-Al intermetallics, allowing for molecular field parameter magnetization dependence
22 p4087 A70-43197

Ni-Fe-Cr-Nb alloy, investigating precipitation hardening of Ni3Nb phases by transmission electron microscopy
24 p4357 A70-45226

INTERMITTENCY
Intermittency characteristics associated with fine scale structure and motion of atmosphere from data pertaining to various atmospheric layers
09 p1717 A70-22375

Intermittency role in free turbulent flow and EM wave scattering by hypersonic wakes
11 p1978 A70-26776

Geometrical figure fragmentation produced by intermittent illumination, examining dependence on presentation frequency and temporal factors
20 p3580 A70-39491

Highly accelerated boundary layer turbulence structure, measuring intermittency factor distribution with hot-wire probe
23 p4182 A70-44587

INTERMODULATION
Intermodulation noise performance of FM FDM trunk radio systems in two path fading situations, calculating noise/power ratio and baseband enhancements
09 p1632 A70-22337

Tetrode for single sideband short wave transmitter, discussing design, characteristics and intermodulation distortion reduction
17 p3054 A70-35412

Frequency division multiple access satellite communication system, calculating bandwidth variations effects on intermodulation distortion
21 p3787 A70-41328

Multiple channel VHF testing on ATS 1 and 3, describing transponder intermodulation and compression corrections
21 p3791 A70-41366

Intermodulation distortion reduction in four frequency parametric converter by low impedance path
23 p4169 A70-43785

INTERMOLECULAR FORCES
Well depth determination for weak intermolecular potentials based on dimerization enthalpy measurement of rare gas atoms by mass spectrometry
03 p0527 A70-13299

Transport properties of high temperature gases compared with room temperature differences, considering chemical equilibria, heat conduction and atom-free radical forces
07 p1424 A70-19880

Molecular beam research at low, intermediate and high energies, discussing inelastic processes, intermolecular potentials, etc
07 p1344 A70-20131

Intermolecular potential of atoms and/or molecules determined from scattering cross sections of super-sonic He and/or Ar atomic beams
07 p1344 A70-20132

Atmospheric gases atomic and molecular binary short range repulsive forces, determining interaction potentials from elastic scattering cross sections
07 p1345 A70-20141

Inert gases and nitrogen determined at high temperature, discussing revision of existing functions representing intermolecular energy
08 p1598 A70-21525

Oxygen-kerosene combustion product composition and characteristics in engine thermodynamic design allowing for intermolecular interaction forces
10 p1968 A70-24284

Reduced second virial gas coefficients calculations by modified Lennard-Jones intermolecular potential function
12 p2180 A70-26860

Integral Hellmann-Feynman formula for dissociation energies in H, Li and LiH molecules, discussing transition densities and dissociation energy
12 p2275 A70-27569

Integral Hellman-Feynman formula applied to binding energy of molecular H and LiH, using SCF wavefunctions for atomic states
12 p2276 A70-27570

Real hydrogen driver performance, analyzing intermolecular forces effects under high compression and heat
16 p2998 A70-33889

Cyclopropane-argon mixtures translational and vibrational energies exchange efficiencies analysis based on intermolecular potential
16 p2956 A70-34083

Dilute gases kinetic theory, discussing microscopic explanation of macroscopic properties under intermolecular forces
17 p3072 A70-35533

Fluid intermolecular potential and virial calculation, noting relationships to Boyle and Joule-Thompson inversion temperatures
20 p3671 A70-38988

Intermolecular forces at close approach distances in calculating thermodynamic and transport properties of high temperature dilute gases, using molecular beam methods
23 p4222 A70-44430

INTERNAL COMBUSTION ENGINES

NT DUCTED FAN ENGINES
NT GAS TURBINE ENGINES
NT JET ENGINES
NT RAMJET ENGINES
NT SUPERSONIC COMBUSTION RAMJET ENGINES
NT T-56 ENGINE
NT TURBOFAN ENGINES
NT TURBOJET ENGINES
NT TURBOPROP ENGINES
NT TURBORAMJET ENGINES
NT WANKEL ENGINES

Lubricating oil chemical composition changes influence on combustion engine internal friction, considering surface active Zn, armo-co-iron and Al
01 p0099 A70-10077

Gas mixture internal energy in internal combustion engine cylinder calculated with allowance for thermal discontinuity
06 p1130 A70-17628

Temperature at end of admission process and exhaust gas temperature in cylinder of internal combustion engine using reversible adiabatic hypothesis
06 p1173 A70-17629

Temperature distribution in cylinders of aircraft internal combustion rotary piston engine under air cooling
23 p4234 A70-44742

High speed internal combustion engine mixed flow type liquid cooling system, deriving dynamic thermal characteristics from differential equations solution
24 p4393 A70-45502

INTERNAL ENERGY

Collision induced dissociations of 2000 ev diatomic O, N, CO and NO positive molecular ions as function of reactant ion internal energy
01 p0148 A70-11354

Nonlinear wave propagation in relaxing gas with internal energy characterized by translational and internal temperature, using model equation for piston induced motion
04 p0786 A70-15324

Gas mixture internal energy in internal combustion engine cylinder calculated with allowance for thermal discontinuity
06 p1130 A70-17628

Collective approach to thermodynamics of N- particle electron gas including transverse radiation, calculating internal energy and pressure of modes
08 p1553 A70-21612

Book on energy conversion statics covering state functions, quasi-static processes, internal energy, chemical energy storage and conversion, dynamics and postulates and laws
12 p2165 A70-27670

Jupiter luminosity as indication of internal energy magnitude, comparing limb darkening with predicted brightness distribution
14 p2643 A70-30984

INTERNAL FRICTION

Lubricating oil chemical composition changes influence on combustion engine internal friction, considering surface active Zn, armo-co-iron and Al
01 p0099 A70-10077

High temperature internal friction measurements on miniature torsional pendulum specimens from TD nickel bar, showing damping differences due to microstructural anisotropy
01 p0122 A70-11237

Mixed anisotropic linear elastic solids stability with internal friction due to mechanical interaction, considering asymptotic motion stability
03 p0586 A70-13116

Star rotation and meridional circulation hydrodynamic theory, considering magnetic fields and internal friction
03 p0564 A70-13228

Nb-Mo alloy interstitial oxygen concentration determined by measuring internal friction/Snoek/peak
03 p0512 A70-13763

Internal friction method for studying dislocation, stacking points and strengthening processes in steels and heat resisting austenitic steel behavior at high temperatures
05 p0864 A70-16870

Internal friction and shear modulus of Co under dynamic and steady state conditions, discussing peak at alpha-epsilon transformation
07 p1306 A70-19073

Rotating shaft vibrations on assembly designed to balance rotor in magnetic field, eliminating bearings effect on shaft to determine internal friction
08 p1584 A70-20697

Star rotation and meridional circulation hydrodynamic theory, considering magnetic fields and internal friction
08 p1580 A70-21661

Dopant effect on dislocation mobility in elastically loaded silicon crystal using internal friction and modulus defect measurements
11 p2099 A70-26394

Hydrogen impurities anelastic relaxation effect on internal friction alpha peak in cold worked tantalum and niobium
13 p2435 A70-29350

Zirconium additions effect on Ni internal friction behavior and relaxation spectrum
13 p2435 A70-29498

Phase transformations in TiNi with equiatomic composition, using internal friction, electrical resistivity and dilatometry
13 p2435 A70-29499

Internal friction in hydrogenated Ti-Mn alloys, observing relaxation peak formation under stress induced hydrogen diffusion in beta phase
16 p2930 A70-33082

Hydrogen behavior in Ti and alloys by internal friction measurement, attributing relaxation peaks to stress induced ordering of atoms
17 p3115 A70-34382

Binary titanium-oxygen and titanium-carbon alloys, investigating interstitial pair mechanism for internal friction peak formation
17 p3115 A70-34383

Seismic wave attenuation mechanisms emphasizing partial melting, grain boundary relaxation and high temperature internal friction background
19 p3416 A70-38440

Free vibrating reed apparatus for polymer low temperature internal friction and Young modulus measurements, discussing polystyrene properties
21 p3827 A70-41464

Diluent molecules effect on polymers relaxation behavior at cryogenic temperatures from internal friction measurements, noting loss peaks shift
21 p3844 A70-42138

Internal friction and shear modulus of thin glass fibers of sodium silicate, aluminosodium silicate and nonalkaline aluminoborosilicate
22 p4059 A70-43135

Equations solution for turbine blade flexural vibration, considering internal friction
22 p4117 A70-43363

Impurities and heat treatment effects on W internal friction at high temperatures, considering relaxation processes, recrystallization and microstructure
24 p4357 A70-45227

INTERNAL PRESSURE

Numerical solution of bending stresses in internally pressurized elliptical tubular or ring specimens for testing uniaxial and multiaxial fracture strength
01 p0203 A70-11061

Internal hydrostatic or lateral pressure effect on deformations of infinitely long thin cylindrical isotropic shell subjected to equal concentrated radial loads
03 p0584 A70-12922

Torospherical heads attached to cylinders and under internal pressure as elastic and/or elastic-plastic shells, using finite element
[ASME PAPER 69-WA/PVP-7] 04 p0769 A70-14792

Internal pressure deformed cruciform crack energy and stress intensity factor determined by linear equations
04 p0777 A70-15499

Stress factor-displacement relation in cruciform line crack deformation in elastic medium under arbitrary internal pressure
05 p0926 A70-15976

Steel tube deformation under constant internal pressure and cyclic heating, plotting tangential and axial strain curves as function of cyclic loading
06 p1163 A70-17399

Rheological factors effect on deformation behavior of thin walled spherical shell made of strongly extensible elastically hereditary material and subjected to internal pressure
08 p1587 A70-21168

Collective approach to thermodynamics of N-particle electron gas including transverse radiation, calculating internal energy and pressure of modes
08 p1553 A70-21612

Endurance limit of momentless shells of revolution under uniform internal pressure, deriving differential equations based on aging and creep theories
09 p1779 A70-23096

Cylindrical shell stability under combined torsion and internal pressure, noting yield point effect on critical load, obtaining buckling-internal pressure relationship
09 p1786 A70-23722

Stiffened cylindrical shells under internal pressure numerically analyzed based on C-5A fuselage material parameters
[AIAA PAPER 68-29] 11 p2135 A70-25961

Stresses in cylindrical pressure vessels with heads formed by internal fluid pressure
13 p2509 A70-28532

Slender cylindrical shell loaded by internal pressure analyzed using numerical procedure developed for digital computer
13 p2512 A70-28981

Strength and critical load determination for spherical shells with reinforced hole under internal pressure based on stress-strain state analysis during deformations
15 p2814 A70-31543

Internal pressure deformation of thin cylindrical shells of materials with nonlinear stress-strain relations, considering Al alloy shell and axial strain
15 p2816 A70-32009

Internal pressure maximization for compound cylinders in elastic condition using accelerated direct search technique
16 p2987 A70-32919

Normally intersecting closed cylindrical shells subjected to internal hydrostatic pressure, using Donnell shell theory
16 p2990 A70-33678

Elastic thin walled toroidal shell under internal pressure, investigating large deformation and stress behavior
17 p3184 A70-34910

Circular cylindrical shell with round holes along generatrix subjected to internal pressure, determining stress concentration with aid of computer
18 p3335 A70-36131

Shallow circular cylindrical shell with rigid collar on lateral surface, calculating stress under axial tension and internal pressure loading
19 p3534 A70-37245

Long hollow nonlinearly viscoelastic cylinder in elastic shell, calculating stress and strain under internal pressure
20 p3720 A70-39731

Prestressed loadings on two layer fiberglass-reinforced plastic cylindrical shell under internal pressure
23 p4265 A70-43937

INTERNAL STRESS

U RESIDUAL STRESS

INTERNATIONAL COOPERATION

Legal aspects concerning outer space and boundaries, discussing treaty aspects considered by various international congresses
01 p0220 A70-10333

Noctilucent cloud observation stations and international cooperation in exchanging climatological data concerning annual variations, height distribution and latitude dependence
01 p0072 A70-10579

Intelsat 4 communication system design and international cooperation, considering satellite design, TV and telephone channels capacity, etc
01 p0196 A70-10883

UN General Assembly outer space treaties governing international exploration and use and rescue and return of astronauts and objects
02 p0402 A70-12308

Satellite international system chain consisting of down path, receiving earth station and domestic receiver for Europe, North Africa and Middle East TV distribution
02 p0258 A70-12420

German-French communication satellite project Symphonie for radio, TV, telephone, teletype and data transmission, discussing objectives, organization and technical problems
[DVL-910] 03 p0580 A70-13796

NASA network and Thor Delta type booster to launch Italian satellite to geostationary orbit, evaluating feasibility
03 p0451 A70-13841

Collection of papers on space law with regional viewpoints on peaceful cooperation in outer space
03 p0610 A70-14255

International law framework for outer space, resolutions and recommendations by UN and international bodies and Space Treaty of 27 January 1967
03 p0611 A70-14257

International Law Association and development of legal regime of outer space, discussing treaties
03 p0611 A70-14258

Space activities cooperation of European organizations including CERS/ESRO, CECLES/ELDO and CETS, discussing European Space Conference
03 p0611 A70-14259

Latin American viewpoint on Space Treaty and prior UN Declaration implications, discussing military activity, astronaut legal treatment, liability, information access, etc
03 p0611 A70-14260

Soviet viewpoint of international law regulating space activities, discussing space exploration and exploitation, legal liability, accidents, emergencies, landings, etc
03 p0611 A70-14261

Liability convention requirements for international space law, considering personal injury or property damage caused by space activities of another state
03 p0612 A70-14262

Astronaut rescue and return of objects launched into space, discussing U.S.S.R. and U.S. proposals
03 p0612 A70-14263

Spacecraft registration and legal liability issues, noting UN Treaty assumption of registration
03 p0612 A70-14264

Soviet SS-9 ICBM role in international debates over antiballistic missile, multiple independently targeted reentry vehicles, superhard silos and offensive forces
04 p0760 A70-14501

Mission objectives and technical realization of AZUR research satellite and Symphonie communication satellite
04 p0763 A70-15303

Ground station location, equipment and function for radio communication with German research satellites, noting NASA and ESRO cooperation
04 p0664 A70-15304

Illegal aircraft route diversion by unauthorized persons, discussing air piracy suppression efforts of various international bodies
05 p0960 A70-16539

European role in future INTELSAT Organization operational rules and principles covering proprietary, financial and voting procedures
06 p1184 A70-17579

Legal status of space flights in view of physical effects on atmosphere and near-earth space, discussing international and Polish air traffic statutes
07 p1425 A70-18783

Azur satellite program, describing NASA-German cooperative effort
[DGLR-69-052] 07 p1391 A70-18815

Aircraft noise reduction certifications program by tripartite draft plan
07 p1426 A70-18876

Legal implications of national flags on moon as symbols of national sovereignty, considering spacecraft and lunar colonies legal status by international agreements
07 p1426 A70-18877

International law applicability to national activities regarding exploration and use of space, examining Space Treaty and UN resolutions
07 p1426 A70-18879

Space role in competition between U.S. and U.S.S.R. since August 1957, discussing armament control agreements regarding space
07 p1426 A70-18882

Questions concerning Warsaw convention and supplementary agreements signing, considering membership eligibility and factors for general international laws evolution
07 p1427 A70-18883

International data exchange guide for solar-terrestrial physics, including listing of stations active during International Years of Active Sun
07 p1377 A70-18937

Instrumental space flight internationalization considering manned flight and military obstacles, suggesting scientific and political steps
07 p1427 A70-19097

ICAO Juridical Council criteria for nonnational aircraft registration, discussing international airlines recourse to Article 77 of Chicago Convention
07 p1428 A70-19105

UN treaty based on U.S.-U.S.S.R.-UK agreement banning nuclear arms in space and establishing international law covering space exploration
07 p1428 A70-19106

AEROS satellite A2 launching to investigate aeronomic processes in outer atmospheric layers, discussing scientific research program, mission data, satellite and ground station equipment
[DGLR-69-050] 07 p1393 A70-19149

Peaceful uses of outer space, discussing committee reports and recommendations, direct broadcast satellites, administrative and financial implications, etc
07 p1428 A70-19688

U.S. Civil Aeronautics Board policy in cooperative agreements involving foreign airlines, highlighting significant cases
08 p1600 A70-20578

Management planning for French-British Martel/Missile Antiradar et Television project, emphasizing tasks of government agencies and contractors
08 p1601 A70-21038

World air transport system in 1970s, analyzing industry economic performance, discussing fares, rates, technological developments, passenger and air freight increases, etc
09 p1792 A70-22332

International aircraft engine industry management in Europe, discussing cooperation, corporations, U.S. competition and structural changes
09 p1792 A70-22339

Upper atmosphere research by U.S.S.R. mass spectrometers onboard French rocket probes, discussing design, payloads and equipment tests
09 p1766 A70-22658

Worldwide telephone network optimum interoperation including communication satellites complementation
10 p1834 A70-24328

Civil aviation satellites for aircraft communication, navigation and traffic control, discussing technical, political and administrative problems
10 p1842 A70-24974

Franco-German telecommunication satellite Symphonie mission objectives and system design
[AIAA PAPER 70-406] 11 p1996 A70-25401

Terrestrial interface at SPADE terminals for converting international telephone exchange differences into common signaling format
[AIAA PAPER 70-413] 11 p1997 A70-25407

Initial Defense Communication Satellite Program/augmentation satellite design and mission, on-board communications equipment, control subsystems, American-British cooperation, etc
[AIAA PAPER 70-492] 11 p2121 A70-25449

Satellite video-telephone systems promoting economic growth in developing nations through linkage with developed nations advanced centers
[AIAA PAPER 70-474] 11 p2000 A70-25455

Canada/U.S. scientific sounding rocket program, describing facilities and projects at Churchill Research Range
11 p2032 A70-26292

Italian Sirio project, describing SHF propagation and communication, cosmic ray and confined plasma experiments
11 p2011 A70-26604

European company for providing and operating European application satellite systems (EUROSAT), discussing organization, tasks and financial structure
12 p2335 A70-27469

International safety standards for SST airworthiness
12 p2161 A70-27599

Oceanographic potential of spacecraft, discussing synoptic scanning, International Decade of Ocean Exploration, etc
12 p2225 A70-27746

Article 9 of 1944 Chicago treaty in view of prohibited air navigation area established by Spain around Gibraltar 11 April 1967
13 p2523 A70-28824

European Panavia 100/200 two engine variable wing military aircraft, noting prototype design, use and production sharing
13 p2347 A70-29051

German-French jet aircraft trainers, discussing Alpha Jet TA 501, E 650 Eurotrainer and VF T 291 flight characteristics
13 p2347 A70-29052

Signal decoder for barium USA Germany (BUG) project command reception system, discussing Ba ion cloud propagation and expansion along geomagnetic field
13 p2367 A70-29557

Book on aerospace law covering legal status of space and spacecraft use in scientific research and telecommunications, international cooperation, etc
14 p2667 A70-30375

- International cooperation in military aviation emphasizing cost effectiveness in R and D, production and export prospects
14 p2669 A70-30939
- International airline collaboration in engineering and maintenance for savings in initial and operational costs of aircraft fleets
14 p2669 A70-30940
- International cooperation in global meteorological network, outlining World Weather Watch
14 p2670 A70-31140
- Scientific satellites history, projects, technology, coordination and international collaboration
14 p2655 A70-31146
- Report to COSPAR on ESRO space research /1969/ covering ESRO 1 second flight model, sounding rockets, and sun- and star-pointing rockets development, etc
15 p2829 A70-31705
- Report to COSPAR on space research in Canada, covering Alouette satellites, ISIS I, international cooperation, etc
15 p2829 A70-31708
- Report to COSPAR on Indian space research describing organizational structure, facilities, experiments and international cooperation
15 p2830 A70-31715
- International Aeronautical Federation space records, discussing record classification for suborbital, earth orbital and lunar and planetary missions
15 p2831 A70-32245
- American-German solar probe HELIOS mission parameters for interplanetary and close proximity solar research, discussing spacecraft building and launching
15 p2801 A70-32281
- Outer space exploration and utilization, analyzing 1967 UN treaty provisions from standpoint of war potential inherent in space stations existence
16 p3003 A70-33100
- German-American HELIOS solar probe for solar wind, interplanetary magnetic field and cosmic rays
16 p2987 A70-34343
- Variable sweep high thrust-weight ratio multirole combat aircraft /MRCA/, discussing British- French cooperation, development programs and requirements
17 p3017 A70-34916
- Moon legal status, discussing territorial sovereignty, peaceful uses, UN Resolutions and Space Treaty, rule of occupation, etc
17 p3200 A70-35323
- Space law treaties and UN programs
17 p3200 A70-35324
- Legal problems of space telecommunications, discussing world juridical regime, United Nations work and satellite systems broadcasting
17 p3201 A70-35777
- International norms establishment for direct TV broadcast by satellites
17 p3201 A70-35780
- Legal aspects of telecommunications by satellite systems, discussing international organization, Intel-sat integration and direct broadcasting
17 p3202 A70-35781
- Juridical structure, risks and control of satellite telecommunication ensuring equality of nations
17 p3202 A70-35782
- Liability for damages by space objects, taking into account states and international organizations
17 p3202 A70-35783
- International organizations participation in convention on liability for damage caused by launching of objects into outer space
17 p3202 A70-35784
- Juridical condition of earth orbiting space stations, discussing term definitions in treaty on outer space
17 p3202 A70-35785
- Juridical status and sovereignty of rocket launching and cosmic stations in international law
17 p3202 A70-35786
- Registration procedure for space exploration objects
17 p3202 A70-35788
- Treaty on principles governing activities of states in exploration and use of outer space, appraising various provisions
17 p3173 A70-35792
- Meteorites and celestial products legal status with respect to rights of property
17 p3173 A70-35793
- Lunar and other celestial bodies natural resources, discussing need for international Space Resources Agreement
17 p3203 A70-35794
- Regulations existence and application to exploitation of resources in celestial bodies
17 p3203 A70-35798
- International Civil Aviation Organization /ICAO/ work on bird hazard reduction, including aircraft airworthiness specifications, bird data dissemination, etc
18 p3349 A70-35997
- Earth resources survey satellite programs, examining aspects of international participation
18 p3349 A70-36297
- NASA program for international cooperation in space involving developing and advanced nations, discussing television instruction for India, resource surveys, etc
18 p3349 A70-36514
- European participation in American space program, considering space station, shuttle and tug
19 p3531 A70-37379
- International civil aviation, discussing ICAO functions, airports and terminal facilities problems
19 p3533 A70-37748
- IATA policy on future ATC development, discussing controlled airspace, communications and radar requirements
19 p3555 A70-38630
- IFALPA views on ATC services, emphasizing aircraft approach spacing in North Atlantic airways
19 p3467 A70-38632
- Earth Resources Satellites political background, investigating international implications
20 p3739 A70-39060
- ERTS programs status and prospects from international utility viewpoint
20 p3739 A70-39064
- Earth Resources Technology Satellite program and international participation, taking into account UN involvement in outer space
20 p3741 A70-39796
- Global integrated communications satellite system, discussing International Telecommunication Union regulatory functions, etc
21 p3955 A70-40625
- Monograph on communicating by satellite covering INTELSAT system design, pricing, procurement, broadcasting, international community responsibilities, etc
21 p3955 A70-40739
- Post Apollo space research, discussing Saturn Workshop /Skylab/, Nerva nuclear rocket engine and international cooperation
21 p3956 A70-41496
- British government technological partnership with domestic industry and other countries
21 p3956 A70-41892
- European participation in U.S. space projects, discussing economics, space shuttles and tugs and earth orbital space station
22 p4126 A70-43407
- European avionics role in Post Apollo program, noting space shuttles, space tugs, space stations and modules
22 p3999 A70-43501
- Management organization of European operational application satellite systems, concerning interurban telecommunication and air traffic control
22 p4127 A70-43502
- U.S. aerospace industry participation in European Application Satellites Program
22 p4127 A70-43506
- European-U.S. cooperation in shuttle and space station program, noting experience in unmanned systems
22 p4127 A70-43508
- European cooperation possibilities in future NASA space programs
22 p4127 A70-43510
- Orbital international laboratory and space sciences - Conference, Cloudcroft, New Mexico, September 1969
22 p4107 A70-43626
- Orbital laboratories and international cooperation, discussing national and foreign viewpoints
22 p4128 A70-43631
- International cooperation in space exploration, UN role and benefits for nonspace nations
22 p4128 A70-43632
- European Space Research Organization programs, stressing international cooperation
22 p4128 A70-43633
- Manned orbital laboratories, discussing need for international cooperation
22 p4128 A70-43634
- International space program cooperation, discussing NASA projects, Apollo 11 flight and European and Soviet programs
22 p4129 A70-43655
- International photographic planetary patrol network, discussing filmstrips of Mars and Jupiter using blue, green and red filters
23 p4242 A70-44262
- European space policy decisions regarding continuation of existing programs and participation in U.S. post-Apollo programs
23 p4285 A70-44325
- Orbital space station utilization planning as international laboratory, discussing industry role, experiment program goals, etc
23 p4260 A70-44650
- European space organization as intergovernmental agency developing industry, scientific and technological research, application satellites and boosters
23 p4285 A70-44652
- Space treaty obligations concerning orbital laboratories, discussing legal conflicts and establishment of international organization for protection of common interests
23 p4286 A70-44673
- International earth orbital space laboratory program, discussing objectives, management, stations, shuttles, tugs, tracking, communication, data distribution network, etc
23 p4262 A70-44687
- International Space Research Organization /ISRO/ for space operations, considering political, economic, technical and scientific requirements
23 p4286 A70-44688
- Helios solar probe for automated spacecraft exploration of interplanetary space near sun, considering design, mission planning and U.S.-German cooperation
23 p4245 A70-44689
- Space vehicle for interstellar flight, discussing propulsion concepts, mission implications and international cooperation
23 p4254 A70-45011
- Space systems supporting international air transportation growth, discussing UHF satellite R and D programs on beam antennas
24 p3372 A70-45870
- [SAE PAPER 700760]
International participation in U.S. post-Apollo program involving reusable space transportation system and multipurpose space station
24 p4431 A70-46123
- ### INTERNATIONAL GEOPHYSICAL YEAR
- Earth satellites magnetic survey contributions to World Magnetic Survey project /WMS/, discussing international reference standards and magnetic mapping
01 p0075 A70-10595
- Catalog of solar radio bursts recorded at 208 MHz during IGY and IQSY
08 p1570 A70-20843
- Asian zone solar daily and storm time ionospheric disturbance variations synoptic study during IGY-IGC period
10 p1872 A70-23822
- IGY and IQSY aurora observations, discussing geographic distribution of observations, diurnal variation of aurora frequency, solar activity effects, etc
10 p1884 A70-25261
- Pc-periods dependence on geomagnetic latitude during active sun years, using IGY data
13 p2395 A70-28943
- 5577 A /OI/ airglow emission diurnal variations during IGY by normalization method, observing seasonal effects
14 p2578 A70-31239
- Meridional mean eddy transport of enthalpy in Southern Hemisphere during IGY, comparing results with Northern Hemisphere
20 p3661 A70-39143
- Universal time control of south polar F layer during IGY attributed to low energy electron precipitation, comparing IGY and recent satellite data
21 p3818 A70-41101
- ### INTERNATIONAL LAW
- #### NT SPACE LAW
- International agreement to govern hovercraft use covering application range, registry, rights, owner or user responsibility, leasing and goods transportation
01 p0220 A70-10373
- Juridical measures against air piracy, discussing civil aviation legislation, unlawful acts aboard aircraft and international agreements
01 p0220 A70-10374
- Party autonomy application to standardized international air transport contracts, discussing international treaties, law court judgments and literature
02 p4040 A70-12267
- Illegal in-flight route diversions of aircraft, discussing international juridical means of relief
05 p0960 A70-16535
- Illegal aircraft seizures inspired by political motives, discussing suppression, air traffic volume effects, Tokyo Convention juridical decisions, etc
05 p0960 A70-16537
- Air piracy, maritime law applicability, definition, internal laws and French law
05 p0960 A70-16538
- Montreal agreement of 1966 approved by CAB, considering air carrier liability
07 p1426 A70-18878
- Legal and national justification for limitation in air freight carrier liability taking into consideration Warsaw convention and legal decisions
07 p1426 A70-18880
- Air carriers legal liability, considering case decided in London involving Warsaw convention text
07 p1426 A70-18881
- Questions concerning Warsaw convention and supplementary agreements signing, considering membership eligibility and factors for general international laws evolution
07 p1427 A70-18883
- Inclusive Tour /IT/ Charter definition within framework of commercial air traffic, discussing concepts of scheduled and nonscheduled air services
07 p1427 A70-18885

International air traffic jurisdictional area of German aeronautical law regarding aircraft equipment regulations and residents

07 p1427 A70-18886

ICAO Juridical Council criteria for nonnational aircraft registration, discussing international airlines recourse to Article 77 of Chicago Convention

07 p1428 A70-19105

UN treaty based on U.S.-U.S.S.R.-UK agreement banning nuclear arms in space and establishing international law covering space exploration

07 p1428 A70-19106

Peaceful uses of outer space, discussing committee reports and recommendations, direct broadcast satellites, administrative and financial implications, etc

07 p1428 A70-19688

International legal and political aspects of earth resource surveying by satellite remote sensors, considering U.S. policy

[AIAA PAPER 70-331] 09 p1793 A70-22862

Article 9 of 1944 Chicago treaty in view of prohibited air navigation area established by Spain around Gibraltar 11 April 1967

13 p2523 A70-28824

Soviet book on legal aspects of artificial satellites for meteorology and radio communication purposes

14 p2668 A70-30632

Liability for damages due to supersonic flight sonic booms, discussing pertinent provisions in Dutch and international law

19 p3553 A70-37561

Air freight carrier liabilities in passenger transportation international regulations, noting conflicting interpretations

19 p3553 A70-37562

Book on law relating to activities of man in space covering liability, space communication, international organization, military implications, etc

19 p3553 A70-37676

International Telecommunication Union (ITU) legal recommendations on radio spectrum use, interference and frequency assignment problems

20 p3585 A70-39411

Juridical problems in satellite direct TV broadcasting, discussing regulation proposals submitted to UN and educational applications

24 p4430 A70-45596

INTERNATIONAL PRACTICAL TEMPERATURE

U TEMPERATURE SCALES

INTERNATIONAL QUIET SUN YEAR

Cosmic ray survey measurements during IQSY reduced to common atmospheric depth, determining attenuation coefficients of neutron and muon monitors

01 p0167 A70-10230

Physical processes responsible for conjugate point phenomena involving particles and waves in magnetosphere and IQSY observations

01 p0075 A70-10598

IQSY 27-day recurrence sequence for 1964 solar and terrestrial activity, considering geomagnetic, auroral and ionospheric disturbances correlation with phase

05 p0841 A70-16646

Backscatter observations of F region field-aligned irregularities during IQSY, discussing diurnal variations of echoes

06 p1059 A70-18539

Magnetic activity in Antarctica during IQSY, plotting space-time characteristics of perturbations

07 p1268 A70-19462

Catalog of solar radio bursts recorded at 208 MHz during IGY and IQSY

08 p1570 A70-20843

IGY and IQSY aurora observations, discussing geographic distribution of observations, diurnal variation of aurora frequency, solar activity effects, etc

10 p1884 A70-25261

Geomagnetic short period oscillations occurrence frequency during IQSY, discussing dependence on magnetic activity and time of day

14 p2572 A70-30242

Ionospheric cosmic noise absorption diurnal and seasonal variations at Alma-Ata during IQSY, noting chromospheric flares effects

18 p3306 A70-36089

Magnetic activity in Antarctica during IQSY, plotting space-time characteristics of perturbations

18 p3250 A70-36936

Meteor activity during IQSY by radar observations at 7.6 m wavelength

19 p3514 A70-37654

Whistler density variability correlated with solar activity during IQSY

19 p3462 A70-37924

Wind motions from meteor trails observation during IQSY, tabulating amplitudes and phases of constant, diurnal, semidiurnal and 8-hr components

19 p3526 A70-38788

Cosmic ray beta neutron component barometric coefficients planetary distribution during IQSY, establishing latitude dependence for mountain and sea level equations

20 p3697 A70-39292

Geomagnetic short period oscillations occurrence frequency during IQSY, discussing dependence on magnetic activity and time of day

24 p4332 A70-46317

INTERNATIONAL RELATIONS

NT INTERNATIONAL COOPERATION

International law applications to space, analyzing Space Treaty provisions

12 p2336 A70-27773

Lunar spaceports for military uses from legal viewpoint, considering Space Treaty

12 p2336 A70-27774

INTERNATIONAL SATS FOR IONOSPHERIC STUDY

U ISIS SATELLITES

INTERNATIONAL TRADE

Export market research for military aircraft

19 p3555 A70-38618

Airport planning for air transportation in underdeveloped nations, discussing economic, financial, technical and operational factors

[AIAA PAPER 70-1268] 24 p4323 A70-45926

INTERNUCLEAR PROPERTIES

Heitler-London curves calculation for electron exchange in H-H collisions as function of internuclear distance and velocity

24 p4381 A70-45252

INTERPLANETARY COMMUNICATION

Earth to planet radar signal time delay in general relativity expressed in relativistic spherical polar coordinates of earth and planet

15 p2806 A70-32801

INTERPLANETARY DUST

NT METEOROID DUST CLOUDS

NT ZODIACAL DUST

Libration clouds reality possibility from satellite dust counting experiments

03 p0572 A70-13819

Interplanetary dust measurements near earth compared to theories predicting dust characteristics, discussing concentration, flux, impact rate and solar radiation pressure

04 p0749 A70-14619

F corona heliocentric dust cloud model to account for temperature variations with particle size and optical properties, computing thermal emission

08 p1571 A70-20907

Circumstellar system crushing processes described by integrodifferential equations, deriving particle size distribution of fragments in interplanetary space

21 p3889 A70-41148

INTERPLANETARY FLIGHT

NT GRAND TOURS

High energy propulsion module utilizing F/H fuels for planet flyby, orbiter mission and injection of 24-hr satellites, discussing design and equipment

[JGLR-69-18] 04 p0736 A70-15176

Interplanetary midcourse velocity correction schedules optimization, discussing timing equations modifications, mission simulation and role of earth based radar

09 p1759 A70-22760

Physiology of hibernation and hypothermia, noting potential use for metabolic need reduction during long interplanetary flight

10 p1943 A70-24757

Interstellar flights, discussing human limitations, star systems with habitable planets and possible galactic communities

10 p1943 A70-24759

Evaluation technique for astronautics subsystems in automated spacecraft designed for interplanetary missions, considering operation times, navigation updating and midcourse correction

[AIAA PAPER 69-882] 11 p2079 A70-26118

Orbital laboratories role in planetary manned exploration, discussing flyby missions, flyby/lander modes, periodic orbits, etc

12 p2314 A70-27748

Planetary trajectory handbooks for mission and system analysis covering opportunities for Mercury, outer planets and Mars, contour charts, etc

13 p2486 A70-28525

Manned planetary flight systems engineering, discussing feasibility, objectives, propulsion, transplanet injection via geospace shuttle station, energy requirements for various synodic modes

[AAS PAPER 70-037] 17 p3155 A70-34778

Multiorbit injection earth departure technique for optimal thrust-weight ratio in manned interplanetary missions using NERVA engine

[AAS PAPER 70-039] 17 p3175 A70-34780

Future manned planetary missions with reusable nuclear shuttles, comparing operating modes in terms of propellant requirement, costs, complexity, etc

[AAS PAPER 70-040] 17 p3155 A70-34781

Unmanned flyby missions to Mercury in 1973-1990, discussing scientific objectives and payloads

[AAS PAPER 70-027] 17 p3155 A70-34798

System analysis to determine orbital parameters influence on mission scientific objectives under engineering constraints, using value function

[AIAA PAPER 68-1052] 17 p3172 A70-35648

Orbiting space stations and interplanetary flights, discussing spacecraft design, facilities, Mariner probes, etc

19 p3533 A70-38487

Power loss due to cumulative meteoroid impacts on solar cells during extended planetary missions, investigating hypervelocity particle impacts into glass

[AIAA PAPER 70-1139] 20 p3567 A70-40210

Planetary probes, orbiting space stations and manned spacecraft in interplanetary flights, discussing Mariner, Gemini and Apollo reentry and Venus landing

22 p4109 A70-42313

Interplanetary periodic orbits and flyby dates for multiple earth-Venus swingby missions, describing various iterative solutions for trajectory

[AIAA PAPER 69-931] 23 p4243 A70-44508

Interplanetary mission propellant reduction by using earth-moon-sun gravity field properties, discussing swingby techniques, low energy trajectories, etc

23 p4244 A70-44607

Travel time for trips to Neptune, calculating earth gravitational field escape hyperbola and waiting time before return

23 p4245 A70-44653

INTERPLANETARY GAS

Interplanetary plasma flow simulation around earth magnetosphere and planets not considering initial conditions influence

01 p0172 A70-11488

Compressible gas flow problem in point body gravitational field solved with reference to sun and interstellar gas

01 p0172 A70-11489

Hydrodynamic approximation to interplanetary gas motion influenced by solar flare caused perturbations

01 p0192 A70-11586

Interplanetary plasma inhomogeneity size, shape and spatial orientation and drift velocity and direction determined from radio telescope data

03 p0565 A70-13231

Unsteady state and transit time analysis of geoeffective interplanetary plasma flux observed near earth causing magnetospheric storm of 17-19 April 1965

04 p0683 A70-15736

Magnetic field fluctuations of interplanetary plasma, considering anisotropic temperature instabilities

05 p0915 A70-16750

Gaseous spheres gravitational stability in proper field, considering convection and radial perturbations effects

07 p1383 A70-19408

Integral methods of obtaining electron density profile of planetary ionospheres and interplanetary gases

07 p1388 A70-20160

Inhomogeneities in interplanetary plasma formation due to instability of electron flows moving along interplanetary magnetic field lines of force

08 p1570 A70-20845

Interplanetary density distribution of cold interstellar origin hydrogen dependent on solar EUV flux, considering interaction with solar wind protons

08 p1562 A70-21401

Interplanetary plasma inhomogeneity size, shape and spatial orientation and drift velocity and direction determined from radio telescope data

08 p1580 A70-21664

Type I comet tails orientations dispersion attributed to nonradial plasma waves and discontinuities in interplanetary gas, calculating solar angular momentum loss rate

10 p1947 A70-24987

Antimatter motion in solar system and earth atmosphere, discussing vaporization and annihilation energy in collisions with interplanetary gas atoms

11 p2119 A70-26793

Interplanetary and magnetospheric plasma structures experiments and theory

12 p2298 A70-27060

Unsteady state and transit time analysis of geoeffective interplanetary plasma flux near earth causing magnetospheric storm of 17-19 April 1965

14 p2575 A70-30820

Interplanetary plasma torque due to temperature and pressure anisotropy, considering solar wind angular velocity and sun angular momentum

20 p3712 A70-40423

Neutral interplanetary particle impact ionization of atmosphere, discussing density of neutral interstellar media near solar system

22 p4106 A70-43291

INTERPLANETARY MAGNETIC FIELDS

Interplanetary magnetic field sectoral structure effect on diurnal cosmic ray intensity and geomagnetic field, noting field direction influence

01 p0172 A70-11525

Solar mean magnetic field relation to sector structure of interplanetary magnetic field, discussing Explorer 33 and 35 observations

02 p0371 A70-12206

HEOS-1 satellite development for ESRO to investigate interplanetary magnetic fields, cosmic radiation

- tion, solar wind outside magnetosphere and earth shock wave
02 p0382 A70-12646
- Interplanetary field influence on auroral radio absorption, considering sector structure of solar wind
03 p0476 A70-13915
- Interplanetary magnetic field measurements from Mariner and OGO satellites at various paths, regions and intervals, finding dominant polarity effect dependent on sun latitude
03 p0575 A70-13980
- Geomagnetic tail observations by Pioneer 8 at 500 earth radii, analyzing time-averaged magnetic field data
03 p0575 A70-13983
- Interplanetary magnetic field during solar cycle rise and minimum based on Explorer 33 magnetometer measurements
03 p0575 A70-13999
- Magnetograms by Venera 4 and Mariner 5 compared to determine interplanetary magnetic field nature in Venus proximity
04 p0744 A70-14438
- Galactic cosmic rays scattering by solar wind magnetic field fluctuations, considering energy and momentum transfer
04 p0739 A70-14596
- Interplanetary magnetic field fluctuations stimulated by lunar wake, using Explorer 33 satellite measurements
04 p0753 A70-15122
- Turbulent-plasma electrons ballistic effects on solar wind magnetic field fluctuations in lunar vicinity
04 p0753 A70-15123
- Anomalous Doppler shift interaction between positive ions and right-hand polarized EM waves propagating at small angle to interplanetary magnetic field
05 p0905 A70-15761
- Cosmic ray intensity preceding Forbush effects as function of chromospheric flares solar longitude and solar wind velocity
05 p0903 A70-16730
- Relativistic solar proton propagation fluctuation effects in interplanetary magnetic field during cosmic ray intensity increase
05 p0903 A70-16731
- Cosmic ray angular distribution spectrum and interplanetary magnetic field properties determined from semidiurnal cosmic ray variations data
05 p0903 A70-16732
- Magnetic field fluctuations of interplanetary plasma, considering anisotropic temperature instabilities
05 p0915 A70-16750
- Solar cosmic rays diffusion enclosure in interplanetary space magnetic boundary suggested from balloon, satellite and ground observations of solar flare neutron component
05 p0904 A70-16753
- Pc 2-4 geomagnetic pulsations abrupt disappearance on global scale ascribed to magnetosphere boundary stabilization, noting interplanetary magnetic field role
05 p0843 A70-16766
- Lunar interior electrical conductivity estimated using lunar interaction with solar wind and interplanetary electric and magnetic fields
06 p1153 A70-18544
- Lunar surface magnetometer data interpretation by analysis of moon motion relative to interplanetary magnetic field spatial irregularities, using lunar electrical conductivity models
07 p1378 A70-18974
- Solar flare protons motion in sun radial magnetic field, considering protons interaction with interplanetary field inhomogeneities
07 p1366 A70-19427
- Solar wind velocity anisotropy effect on interplanetary magnetic field inhomogeneity
07 p1366 A70-19443
- Solar wind structural characteristics determination from cosmic ray variations in interplanetary medium, considering interplanetary magnetic field structure and spatial orientation
07 p1372 A70-20337
- Inhomogeneities in interplanetary plasma formation due to instability of electron flows moving along interplanetary magnetic field lines of force
08 p1570 A70-20845
- Lunar limb weak solar wind shock due to conducting crust-interplanetary magnetic field interaction
09 p1764 A70-23485
- Satellite solar wind observations concerning interplanetary magnetic field direction and strength, proton distribution, solar wind velocity, density and direction
10 p1935 A70-25286
- Polar ionospheric current and interplanetary magnetic field directions related from mean diurnal values of solar wind velocity
11 p2044 A70-25551
- Solar wind magnetic field power spectra and plasma velocity, discussing turbulence, viscosity and dissipation
11 p2106 A70-26770
- Interplanetary magnetic field intensity and geomagnetic activity level correlation with 27-day solar activity cycle based on Venera 4 and Mariner 5 data comparison
12 p2310 A70-28263
- Magnetograms by Venera 4 and Mariner 5 compared to determine interplanetary magnetic field nature in Venus proximity
13 p2485 A70-28463
- Monograph on polar aurora with emphasis on solar wind and interplanetary magnetic fields, discussing substorms, particle acceleration in current sheet, etc
13 p2395 A70-28983
- Statistical heliographic latitude dependence of dominant polarity of interplanetary magnetic field, using photospheric synoptic chart
13 p2492 A70-29195
- Pioneer 6-9 low magnetism spacecraft for interplanetary magnetic field observation
13 p2507 A70-30046
- Low and high apogee satellite and rocket magnetometers for space measurements, discussing self oriented fluxgate, proton, quantum cesium and three component types
13 p2415 A70-30047
- Solar wind effect on structure of magnetic field in magnetosphere and interplanetary space, noting interaction with moon
13 p2498 A70-30051
- Interplanetary magnetic field flux relationship to Kp index of magnetic activity
14 p2570 A70-30221
- German-American HELIOS solar probe for solar wind, interplanetary magnetic field and cosmic rays
16 p2987 A70-34343
- Solar flare protons motion in sun radial magnetic field, considering protons interaction with interplanetary field inhomogeneities
18 p3309 A70-36901
- Solar wind velocity anisotropy effect on interplanetary magnetic field inhomogeneity
18 p3309 A70-36917
- Geomagnetic activity relation to large scale variations in interplanetary magnetic field and solar wind deformation velocity, using satellite and space probe observations
19 p3491 A70-37304
- Magnetic field variations and structures in interplanetary space relationship to sun, discussing photospheric field lines random walk transport
19 p3494 A70-37480
- Interplanetary magnetic field during solar particle event of 25 February 1969 from Heos 1 measurements
19 p3495 A70-37500
- Interplanetary magnetic field measurements by Pioneer 8 during 25 February 1969 solar activity, discussing geomagnetic storms, cosmic rays, shock fronts and ionospheric disturbances
19 p3513 A70-37501
- Interplanetary magnetic field large scale structure from cosmic ray intensity secular variations during solar activity cycle
20 p3696 A70-39276
- High energy charged particles equations of motion in quiet interplanetary magnetic field for primary cosmic ray distribution, calculating diurnal and semidiurnal variations
20 p3698 A70-39297
- Interplanetary magnetic field structure, using solar wind model accounting for solar rotation
20 p3704 A70-39474
- Steady state magnetic and electric fields in magnetosheath by linear superposition of field vectors, using axisymmetric velocity function from gas dynamics
21 p3815 A70-41063
- Polar ionospheric current and interplanetary magnetic field directions related from mean diurnal values of solar wind velocity
21 p3819 A70-41301
- Low noise FET amplifier for satellite magnetometer, measuring interplanetary fields
21 p3799 A70-41923
- Helios solar probe magnetic field measurements, discussing magnetometer systems, interplanetary magnetic field implications, shock waves, magnetic storms, etc
21 p3923 A70-42172
- Interplanetary magnetic field directional variation effect on polar caps geomagnetic field, discussing polarity reversals
22 p4022 A70-43285
- Geomagnetic variations origin from satellite space probe data, correlating DP 1 activities to interplanetary magnetic field variations
22 p4022 A70-43286
- Interplanetary magnetic field and plasma structure observed with Mariners magnetometer, noting 27-day deviations from Parker spiral model
23 p4239 A70-43827
- Interplanetary magnetic field inhomogeneities structure from galactic cosmic rays intensity fluctuations observation
23 p4237 A70-44053
- Geomagnetic activity dependence on angle between earth-sun and hourly averaged vectors of interplanetary magnetic field
24 p4405 A70-45523
- Interplanetary magnetic field flux relationship to Kp index of magnetic activity
24 p4331 A70-46296

INTERPLANETARY MEDIUM

- NT INTERPLANETARY DUST
- NT INTERPLANETARY GAS
- NT METEOROID DUST CLOUDS
- NT ZODIACAL DUST
- Quasar 3C 273 scintillation intensity, considering role of interplanetary plasma inhomogeneities
01 p0174 A70-10199
- Low energy proton flux in neighborhood of Moon measured by Luna 12 satellite indicating magnetized plasma region effect on burst
01 p0172 A70-11493
- Mariner 2 measurements of geomagnetic field and interplanetary plasma parameters, analyzing interaction between interplanetary medium and magnetosphere during decreased solar activity
01 p0192 A70-11520
- Pulsar distance and distribution estimation, considering galactic spiral structure and nature of interstellar medium
02 p0371 A70-12201
- Low energy solar proton flux propagation model in interplanetary medium based on satellite data beyond earth magnetosphere
04 p0737 A70-14434
- Radio sources structure observations of Arecibo Ionospheric Observatory, discussing interplanetary scintillations of galaxies and quasars
06 p1138 A70-17216
- Galactic cosmic rays intensity long term modulation, studying roles of solar corona, solar wind and interplanetary electromagnetic field
07 p1369 A70-20075
- Diffraction pattern drift velocity increase with temporal frequency of Fourier components by dispersion analysis of interplanetary scintillation, noting solar wind structure
07 p1388 A70-20076
- Solar wind structural characteristics determination from cosmic ray variations in interplanetary medium, considering interplanetary magnetic field structure and spatial orientation
07 p1372 A70-20337
- Low energy proton distributions in interplanetary medium, correlating intensities with main-phase geomagnetic storm development
08 p1562 A70-21376
- Solar corona and interplanetary plasma structure and dynamics, calculating solar wind velocity as function of distance from sun
08 p1576 A70-21397
- Interplanetary medium kinetic equations to limit ion temperature anisotropies in solar wind, discussing Coulomb collisions and ion-cyclotron instability effects
11 p2105 A70-26561
- Low energy electron flux as interplanetary radiation primary component, considering data from IMP-1 observations
12 p2292 A70-27383
- Interplanetary shock waves layer formation in collisionless medium, using bulk transport parameters for dissipation requirement
12 p2308 A70-27885
- Low energy solar proton flux propagation model in interplanetary medium based on satellite data beyond earth magnetosphere
13 p2475 A70-28459
- Solar cosmic rays interaction with interplanetary shock waves, discussing chromospheric eruptions
13 p2476 A70-28959
- Low energy solar flare electrons scatter-free propagation through interplanetary medium, considering rise, decay and travel times
13 p2477 A70-29194
- Bow shock associated hydromagnetic waves generation in upstream interplanetary medium, constructing model in terms of ion cyclotron resonance
14 p2631 A70-30359
- Atomic hydrogen distribution in upper atmosphere and solar system obtained during spin operation of OGO 5 with Lyman alpha photometer
15 p2798 A70-31655
- Cosmic ray radial gradients and anisotropies, describing behavior in interplanetary medium
15 p2795 A70-32623
- Laboratory experiments applicability to interplanetary plasma physics, describing simulations of solar wind interactions, magnetosphere, collisionless shock waves, etc
17 p3164 A70-35123
- Interplanetary plasma disturbances in Venus proximity from Venera measurements
18 p3312 A70-36172
- Low energy solar and galactic cosmic rays propagation in interplanetary medium observed by Zond and

INTERPLANETARY MONITORING PLATFORM

Venus space probes, discussing shock waves retardation
19 p3493 A70-37475

Interplanetary shock wave of 26 February 1969, discussing association with solar flares
19 p3513 A70-37517

Quiet time intensity increases and long term solar modulation of interplanetary low energy electrons, using IMF observations
19 p3502 A70-38097

Interplanetary cosmic ray positrons energy spectral component with origin different from interstellar mesons decay
19 p3502 A70-38098

Interplanetary medium energetic electrons and isotopes measurement, discussing spectrometer electronics of IMP H and J
21 p3825 A70-41000

Cosmic ray energy loss in interplanetary medium, discussing solar wind effects on low energy particles
21 p3883 A70-42111

Comet Schwassmann-Wachmann 1 brightness variations due to interplanetary shock waves in solar wind
22 p4097 A70-42475

Interplanetary atomic hydrogen density distribution from Lyman alpha scattering calculation, explaining background radiation anisotropy detection by Vela 7 satellite
24 p4403 A70-45392

INTERPLANETARY MONITORING PLATFORM

U IMP

INTERPLANETARY NAVIGATION

Optical approach navigation experiment on 1969 Mariner mission to Mars demonstrating accuracy potential of spacecraft-based measurement
[AIAA PAPER 70-70] 06 p1103 A70-18152

Navigational accuracy of two way Doppler tracking of interplanetary spacecraft during heliocentric and planetary encounter trajectory phases
[AIAA PAPER 69-899] 07 p1331 A70-19727

Onboard navigational requirements for future planetary missions, discussing major subsystems
13 p2448 A70-28701

Deep Space Network (DSN) data accuracy limitations relation with ability to determine orbit of probe, examining improvements after Mariner 2 and trends
13 p2448 A70-28702

Planetary ephemerides accuracy and navigation during interplanetary missions, discussing machine readable ephemerides for outer planets
13 p2448 A70-28703

Spacecraft based data processing stages to perform navigation during outer planet missions
13 p2448 A70-28704

Navigation correction systems for space missions, discussing prelaunch analysis, design and mission operations, hardware, etc
13 p2448 A70-28705

Navigation for planetary orbiter and lander missions, considering orbit insertion, trim corrections and capsule descent for poor planetary gravity field model
13 p2448 A70-28706

Course correction requirements for ballistic grand tours and outer planet missions, considering trajectory disturbances by random nongravitational forces
13 p2448 A70-28707

Navigation instrument geometrical calibration by natural satellites and reference stars during interplanetary flight
[AIAA PAPER 70-1023] 20 p3669 A70-39586

Grand tours navigation system consisting of deep space network radio and onboard TV for future TOPS/Thermoelectric Outer Planet Spacecraft applications
21 p3849 A70-41799

INTERPLANETARY PROPULSION

U INTERPLANETARY SPACECRAFT

R ROCKET ENGINES

INTERPLANETARY SPACE

Interplanetary space investigation by HEOS 1 satellite during maximum solar activity, discussing orbital apogee, mission and technical requirements
01 p0186 A70-11113

Soviet book on physico-technological basis of space research covering near earth and interplanetary environmental factors and effects on spacecraft designs and materials
02 p0360 A70-11693

Cosmic ray protons, He nuclei and electrons solar modulation by betatron deceleration mechanism during interplanetary space passage
02 p0357 A70-12123

Adiabatic invariance of action integral for motion in nonregular fields, explaining charged particles motion through magnetic shock front in interplanetary space
02 p0359 A70-12788

Quiet time primary cosmic ray electron flux and energy spectrum from 10 to 200 Mev in interplanetary space observed byOGO 5 satellite
03 p0553 A70-12902

Large amplitude wave trains in cosmic ray neutron intensity compared with diurnal variations, determining interplanetary space directional distribution from monitor data
03 p0559 A70-13912

Meteoroids average velocity relative to spacecraft determined using sporadic meteor orbital elements data in interplanetary space
04 p0757 A70-15550

Electromagnetic structure of interplanetary space on basis of secondary cosmic ray intensity gradient annual variations as function of earth heliographic latitude
05 p0900 A70-15970

HEOS-A2 project development plan for investigating unexplored interplanetary space in eccentric orbit
05 p0923 A70-16588

Interplanetary plasma flow past earth and planets simulation using kinetic equations
06 p1147 A70-18292

VHF propagation variations relationship to changes in interplanetary plasma associated with interplanetary space sectorial structure rotation
07 p1226 A70-18757

Magnetosphere and interplanetary space diagnostics by micropulsations analysis, discussing geomagnetic cavity boundary, cold plasma density, energetic particles, etc
07 p1264 A70-19191

Solar wind effects on galactic cosmic rays isotropic diffusion and density distribution in interplanetary space in presence of azimuthal asymmetry
07 p1366 A70-19429

Report to COSPAR on Japanese space research including satellite, rocket and balloon observations of ionosphere, magnetosphere, interplanetary space, moon, planets, cosmic rays, etc
15 p2830 A70-31720

Soviet monograph on modulation of cosmic rays in interplanetary space, covering anisotropic diffusion approximation, diffusion equation, Forbush effects energy spectrum, etc
16 p2971 A70-32911

Solar wind effects on galactic cosmic rays isotropic diffusion and density distribution in interplanetary space in presence of azimuthal asymmetry
18 p3309 A70-36903

VHF propagation variations relationship to changes in interplanetary plasma associated with interplanetary space sectorial structure rotation
18 p3229 A70-37101

Solar wind disturbances associated with solar activity observed by spacecraft probing interplanetary space, considering geomagnetic activity classes
19 p3494 A70-37478

Interplanetary plasma observations by Vela satellites in solar wind and plasma sheet of magnetotail during magnetic storm
19 p3410 A70-37490

Proton spectra and time history in interplanetary space during solar flare by satellite observation, investigating particle flux by shock waves
19 p3495 A70-37503

HEOS 1 low energy proton measurements in interplanetary space, discussing particle direction during solar event and anisotropy time history
19 p3495 A70-37505

Solar protons directional and omnidirectional measurements during particle event of 25 February 1969 by Heos 1 spacecraft, indicating particle diffusion in interplanetary space
19 p3496 A70-37506

Large scale electric fields in ionosphere, magnetosphere and interplanetary space, considering further needs for theoretical and observational investigations
22 p4099 A70-42782

Space electric field considered for solar wind plasma drift origin and possible energy source for spacecraft propulsion, estimating intensity on lunar surface
22 p4100 A70-42789

Weak-scattering limit in thin screen model of interplanetary scintillations of radio sources involving solar wind fluctuations at Fresnel scale
22 p4104 A70-42996

Interplanetary plasma electron density inhomogeneities formation explained by instability due to electron stream curvilinearly obtained from spacecraft data
23 p4240 A70-44070

Helios solar probe for automated spacecraft exploration of interplanetary space near sun, considering design, mission planning and U.S.-German cooperation
23 p4245 A70-44689

Lyman alpha radiation scattering intensity during solar radiation period, discussing dependence of interstellar hydrogen density in interplanetary space on solar EUV
23 p4237 A70-44753

INTERPLANETARY SPACECRAFT

NT JUPITER PROBES

NT MARINER 2 SPACE PROBE

NT MARINER 4 SPACE PROBE

NT MARINER 5 SPACE PROBE

NT MARS PROBES

NT PIONEER SPACE PROBES

NT PIONEER 6 SPACE PROBE

NT PIONEER 8 SPACE PROBE

NT PIONEER 9 SPACE PROBE

NT VENERA SATELLITES

NT VENUS PROBES

NT ZOND 3 SPACE PROBE

Advanced reconnaissance electric planetary spacecraft/AREPS/ concept for repeated coverage of Mars or Venus surface, using solar- photovoltaic system
[AIAA PAPER 69-253] 01 p0196 A70-10837

Slow scan TV systems for planetary exploration, discussing sampled vidicon operation, digital encoding, data storage, signal to noise ratio, future design trends, etc
[SMPT PREPRINT 106-3] 02 p0294 A70-11682

Transonic dynamic stability of free flight half angle cones in wind tunnel for high drag planetary entry vehicles, discussing Mars entry trajectories
[AIAA PAPER 69-105] 06 p1154 A70-17164

Electronic packaging and cabling on Capsule System Advanced Development Lander for Mars rough landing
06 p1016 A70-17335

Thermal testing of planetary lander vehicle in vacuum chamber, modeling electronics modules and experiments using resistance heaters
[AIAA PAPER 70-222] 06 p1157 A70-18128

Short duration manned Mars and Venus exploration mission planning with chemical propulsion and Saturn 5 boosters
[AIAA PAPER 70-59] 06 p1147 A70-18238

Navigational accuracy of two way Doppler tracking of interplanetary spacecraft during heliocentric and planetary encounter trajectory phases
[AIAA PAPER 69-899] 07 p1331 A70-19727

NASA future space programs, discussing space shuttle and station, nuclear propulsion, manned Mars landing, unmanned Venus-Mercury probes, etc
09 p1762 A70-23065

Thermoelectric outer planet spacecraft (TOPS) project incorporating adaptable data handling system and self testing and repairing computer with triple redundancy subsystems
11 p1996 A70-25368

Interplanetary space systems, analyzing failure factors to assure reliability
11 p2112 A70-26051

Nuclear pulse propulsion system for manned missions to outer planets of solar system, discussing energy and travel time requirements
11 p2082 A70-26059

Asymmetrical slender planetary entry vehicle roll dynamics, analyzing steady state angular motion
[AIAA PAPER 70-560] 13 p2339 A70-29003

Digital computers for interplanetary spacecraft, comparing centralized and decentralized approaches for implementing onboard functions
[AIAA PAPER 68-840] 14 p2554 A70-30757

Nuclear solid core rocket engine performance for interplanetary orbital launch of spacecraft by multibit injection
[AIAA PAPER 69-535] 14 p2616 A70-30767

Astronomical observations, discussing advantages of human operators on interplanetary spacecraft or Mars
15 p2810 A70-31853

American-German solar probe HELIOS mission parameters for interplanetary and close proximity solar research, discussing spacecraft building and launching
15 p2801 A70-32281

Solar electric spacecraft for interplanetary missions including asteroid belt survey, Jupiter flyby and out-of-elliptic survey
[AIAA PAPER 70-645] 16 p2981 A70-33531

Nuclear orbital launch stages for interplanetary departure, comparing parallel and tandem spacecraft configurations
[AIAA PAPER 70-680] 16 p2950 A70-33580

Instrument size ball bearings lubricated with bonded dry or transfer films in simulated interplanetary spacecraft tests
16 p2923 A70-34166

Manned planetary spacecraft and space stations as ecological systems, considering common features
[AAS PAPER 70-023] 17 p3176 A70-34799

Mariner, explorer, high Data Orbiters, Viking and Rover landers as required systems for unmanned Mars exploration, examining ballistic and lifting entry
[AAS PAPER 70-030] 17 p3156 A70-34805

M-4 SS launch vehicle capabilities and development schedule for low energy interplanetary missions
17 p3168 A70-35253

Slow scan TV systems for planetary exploration, discussing sampled vidicon operation, digital encoding, data storage, signal to noise ratio, future design trends, etc
[SMPT PREPRINT 106-3] 17 p3095 A70-35634

Closed form approximate solution for restricted three body motion of lunar or interplanetary

spacecraft, demonstrating accuracy and flexibility in lunar mission trajectory calculations
[AIAA PAPER 70-1061] 19 p3529 A70-38875

Algorithm for trajectory analysis in closed loop terminal guidance of solar electrically thrusted interplanetary spacecraft
[AIAA PAPER 70-1152] 20 p3670 A70-40203

Solar panel flexibility effect on attitude control of solar electric spacecraft for deep space mission
[AIAA PAPER 70-1140] 20 p3716 A70-40209

Interplanetary solar electric spacecraft performance improvement by mission mode including earth swingby maneuver in solar orbit inclined to ecliptic
[AIAA PAPER 70-1117] 20 p3710 A70-40226

Scientific payloads integration with multimission electric propulsion interplanetary spacecraft, discussing possible contamination effects due to solar electric propulsion system
[AIAA PAPER 70-1141] 21 p3930 A70-41781

Multimission solar electric spacecraft propulsion module design for Asteroid Belt, Jupiter and out-of-ecliptic missions, including thruster failure and power conditioning requirements
[AIAA PAPER 70-1155] 21 p3868 A70-41785

Grand tours navigation system consisting of deep space network radio and onboard TV for future TOPS/Thermoelectric Outer Planet Spacecraft/applications
21 p3849 A70-41799

Venus atmosphere flight vehicle configuration, discussing payload capacity, range, velocity, flight altitude and aerostatic aerodynamic, ground effect and underwater capabilities
23 p4260 A70-44627

Jupiter Orbiting Vehicle for Exploration system for gathering Jupiter atmosphere, magnetic, radiation, gravitation, temperature, topography and interplanetary data
23 p4264 A70-45010

INTERPLANETARY TRAJECTORIES

Interplanetary trajectory selection, discussing transfer orbits, energy considerations, launch window computation, hyperbolic encounters and capture maneuvers
03 p0577 A70-14149

Interplanetary swingby trajectory correcting maneuvers for space vehicles return to earth after planet orbiting, with emphasis on singular points
06 p1142 A70-17877

Ground-based and onboard guidance and navigation systems for outer planet flyby missions concerning direct, Jupiter swingby and Grand Tour trajectories
[AIAA PAPER 70-71] 06 p1104 A70-18194

Earth oblateness effects on lunar and interplanetary trajectories, using algorithm based on orbital elements variations
[AIAA PAPER 70-97] 06 p1146 A70-18203

Interplanetary low thrust orbit transfer optimization by dynamic programming, including gravitational perturbation effects from earth, Mars and Jupiter
14 p2640 A70-30759

Restricted three body interplanetary guidance scheme using midcourse fixed time of arrival velocity correction
14 p2615 A70-30760

Fuel savings by Jupiter moon gravity assisted transfer trajectories from earth, considering initial energy, mass ratio, approach angle, timing and aiming errors
14 p2640 A70-30761

Optimum low thrust ion propelled interplanetary trajectory design using two step Chebyshev method
17 p3167 A70-35232

Interplanetary probes trajectory optimization for minimum energy expenditures, neglecting solar and terrestrial perturbations within earth sphere of influence
17 p3168 A70-35366

Primer vector theory applied to interplanetary trajectory optimization for high thrust chemically propelled spacecraft, considering 1973 Mars opportunity
[AIAA PAPER 70-1039] 19 p3527 A70-38854

Low thrust interplanetary swingby trajectories optimization, considering thrusting and coasting within sphere of influence
[AIAA PAPER 70-1041] 19 p3527 A70-38856

Interplanetary trajectories calculation using constant and/or slowly varying functions for accuracy, noting application to earth-moon spacecraft
[AIAA PAPER 70-1076] 19 p3530 A70-38888

Optimized trajectories and spacecraft for solar-electric missions to asteroids, using chemical booster for injection
[AIAA PAPER 70-1120] 20 p3710 A70-40223

INTERPLANETARY TRANSFER ORBITS

Orbit determination simultaneous optimal strategy and useful information set selection, discussing Mars transfer trajectory
04 p0750 A70-14940

Spacecraft optimal flight from earth orbit to outer planet orbit with ideally controlled engine using differential motion equations
10 p1941 A70-24512

INTERPOLATION

Four dimensional optimal interpolation for maximum wind velocity components, calculating spatiotemporal correlation functions
01 p0135 A70-10205

Table lookup/interpolation function generation for fixed point digital computations, illustrating sine-cosine generator
01 p0047 A70-10459

Interpolation method for predicting and correlating heat transfer in rarefied gases, yielding correct limiting results in free molecular and continuum regimes
[ASME PAPER 69-WA/HT-30] 04 p0782 A70-14808

Integral equations for interpolation process remainder estimation, including convergence of functions interpolation and error analysis
05 p0877 A70-16970

Algorithms based on Newton formula for polynomial interpolation and numerical differentiation
13 p2441 A70-29100

Interpolation method for nonlinear automatic control systems accuracy, discussing numerical integration optimal step and node number selection
22 p4003 A70-42886

Interpolation and smooth curve fitting based on local procedures and piecewise function
24 p4369 A70-45162

Human interpolation accuracy for pointer or index position between two scale graduations
24 p4308 A70-45512

INTERPOLATORS

U REPEATERS

INTERROGATION

Beacon identification-friend-foe/selective-identification-feature code-validation schemes for ATC, deriving expression for cumulative probability of validation on or within N interrogations
10 p1914 A70-24446

Optimal questionnaires characteristics and design algorithms
15 p2705 A70-32450

INTERRUPTION

Interruptions influence in discrete information flow on characteristics of radar tracking system
03 p0446 A70-13198

INTERSECTIONS

Fluid flow at pneumatic network junction, considering junction pressure determination as boundary condition for all transmission lines meeting at junction
[ASME PAPER 69-APM-N] 04 p0627 A70-14862

Geographic coordinates of intersection points determined directly on sphere, noting reduction on ellipsoid and adjustment for surplus intersections
09 p1670 A70-23441

Normally intersecting closed cylindrical shells subjected to internal hydrostatic pressure, using Donnell shell theory
16 p2990 A70-33678

INTERSTELLAR COMMUNICATION

Soviet book on extraterrestrial civilizations and problems of interstellar communication
08 p1457 A70-20766

INTERSTELLAR GAS

Velocity field measurements in NGC 5128 galaxy, discussing relative motion between gas and stars and correspondence of emission and absorption lines
01 p0184 A70-10898

Galactic satellite interpretation for high velocity hydrogen clouds at high latitudes
02 p0363 A70-11780

Cosmic ray primaries and secondaries direct heating of thermal electrons for computation of H I regions electron densities and temperatures
02 p0363 A70-11782

Thermal properties of neutral interstellar gas heated by low energy cosmic rays, noting role of electrons in heating processes
02 p0364 A70-11783

Stimulated emission of RF recombination lines from ionized atoms in H I regions
02 p0372 A70-12251

Ionized matter complex at galactic periphery deduced from neutral hydrogen line and continuous spectrum observations
03 p0564 A70-13222

Galactic bending dynamics, discussing omega and zeta motions coupling of neutral hydrogen in outer region
03 p0570 A70-13553

Molecular and solid hydrogen in dense interstellar clouds suggested from underabundance of neutral atomic hydrogen, discussing grain temperature
04 p0747 A70-14585

L-alpha absorption equivalent width measurements in UV spectra of beta-one, delta and pi Scorpii for interstellar hydrogen densities
04 p0748 A70-14586

Interstellar gas instability, discussing thermal, magnetic and cosmic ray effects
04 p0753 A70-15072

Thermal and dynamical evolution of gas clouds in transparent and opaque stages by comparing rates of cooling, heating, contraction and expansion
05 p0907 A70-16041

Power spectra, modulation indices, frequency distributions and decorrelation frequencies of intensity fluctuations of pulsar radiation consistent with interstellar scintillation theory
05 p0908 A70-16302

NonJeans gravitational instability of stars and interstellar gas in Galaxy due to wave interaction with stars having velocity near wave phase velocity
05 p0917 A70-16906

Density wave theory and Schmidt model applied to Milky Way spiral structure, considering systematic motion of interstellar neutral hydrogen
05 p0918 A70-16928

Pulsars dispersions, setting upper limit to emission measure of dense plasma
05 p0921 A70-16984

Maser-like stimulated OH emission regions observed in interstellar rarefied gas
06 p1148 A70-18391

Dynamic effect of radiation from massive protostar showing formation of transparent zone free of dust about star and gas density decrease until pressure equalization
06 p1148 A70-18400

H I gas and H II regions kinematics, comparing radial velocities near galactic center
06 p1149 A70-18459

Double radiosource W 49 hydrogen line absorption measurements revealing two H I clouds with different radial velocities
06 p1149 A70-18461

Interstellar gas ionization and heating by background X radiation, studying neutral hydrogen density distribution between spiral arms and at galactic peripheries
07 p1383 A70-19401

Interstellar gas clouds collapse using finite difference numerical methods in solving hydrodynamic equations involving gravitation
07 p1390 A70-20288

Interstellar cloud models to investigate heating, cooling and density distribution effects on collapse and to suggest theory of stellar evolution
07 p1390 A70-20292

Stellar formation and explosions in compact gas clouds to explain quasar phenomenon, discussing temporary star concept
08 p1578 A70-21548

Ionized matter complex at galactic periphery deduced from neutral hydrogen line and continuous spectrum observations
08 p1580 A70-21655

Static gravitation field of spherical mass immersed in cosmological gas, using combined model of Einstein and de Sitter static universes and Schwarzschild solutions
09 p1763 A70-23312

Interstellar gas electron number density fluctuations effect on pulsar signals in terms of frequency dependent dispersion, noting long wavelength disturbances
09 p1764 A70-23609

Equivalent widths for rotational lines to detect interstellar hydrogen gas, discussing absorption line
10 p1937 A70-23947

Gas cloud expulsion from galactic nucleus indicated in 21 cm survey of neutral hydrogen
10 p1937 A70-23948

Ionization front interactions in interstellar gas, investigating expanding planar H II region and contact discontinuity in H I region
10 p1937 A70-23975

Interstellar atomic and molecular hydrogen abundance and physical state using rocket observations of Lyman alpha absorption line and ground based observations
10 p1941 A70-24551

H II region properties from non-LTE analysis of alpha, beta, gamma, delta and epsilon radio recombination line data, determining electron temperature and concentrations
10 p1945 A70-24959

Potential flow pertaining to motion of gas surrounding close binary systems generated by orbital motion of stars and matter outflow from stars
10 p1946 A70-24968

Transitions in interstellar OH observed at National Radio Astronomy Observatory
10 p1948 A70-25000

Diffuse galactic radiation and absorbing clouds luminance illuminated by integral stellar radiation in Milky Way
12 p2307 A70-27866

Gas with large radial velocity in radio galaxy NGC 1275, suggesting constitution of separate galaxy
12 p2308 A70-27870

Microwave lines due to hydroxyl radical in interstellar medium, discussing emission from excited OH states
13 p2484 A70-28371

Interstellar hydrogen density around solar system from calibrated Lyman-alpha intensity measurements of Vela 7
13 p2489 A70-28894

Interstellar electron gas distribution and temperature, suggesting cosmic ray heating as main ionization source

13 p2495 A70-29796

Gas injection model in galactic nuclei from evolving stars, producing high temperature, low density, thermally unstable medium

14 p2639 A70-30730

Rotational transition of interstellar formaldehyde in absorption in direction of galactic and extragalactic objects

14 p2641 A70-30878

Stellar associations formation theory including effects of radiation, Rayleigh-Taylor instability and interstellar gas cold regions

15 p2801 A70-32478

Compact ionized hydrogen components inside galactic H II regions of lower electron density, explaining existence and evolution by various models

16 p2980 A70-34308

Disturbances rotational alignment in variable galaxies nuclei, using interstellar gas motions model

17 p3153 A70-34527

Galactic gamma rays from OSO-3 observations attributed to decay of neutral pions produced by cosmic rays interaction with interstellar gas nucleons

17 p3150 A70-34567

Lyman alpha absorption by interstellar neutral hydrogen observed in O and B stars UV spectra

17 p3162 A70-34898

Interstellar Lyman alpha observations with OAO, providing upper limit to neutral hydrogen column density

17 p3162 A70-34899

Nonhydrogen spectral lines in interstellar gas, discussing Ca/Na abundance anomaly

17 p3162 A70-34900

High velocity neutral hydrogen cloud observations, presenting tabulated characteristics and maps

17 p3170 A70-35439

UV absorption lines in H I regions heated by cosmic rays, discussing possible detection by rocket or satellite spectroscopic observations

17 p3152 A70-35748

Interstellar cloud collisions, examining gas and dust particles separation by size

18 p3313 A70-36323

Cosmic X rays interstellar absorption, giving atomic He total photoionization cross section

18 p3308 A70-36899

Interstellar gas thermal instability under cosmic ray heating, investigating perturbations causing transition to dense cool phase in pressure equilibrium with intercloud phase

18 p3309 A70-37003

Interstellar hot low density intercloud medium in H I region, estimating diffuse emission in forbidden lines O I at 6300 Å and N I at 5200 Å

18 p3310 A70-37020

Atomic H electron transition induced by H atom collisional-excitation rates at various thermal energies, explaining anomalous recombination lines in H I regions

18 p3253 A70-37021

Neutral H spiral structure in Milky Way galaxy, discussing map derivation, pattern interpretation, arm characteristics and kinematics

18 p3327 A70-37161

H 2 region and neutral gas spiral structure and radial distribution, using optical observations and radio continuum surveys

18 p3327 A70-37162

Galactic 21 cm line emission motion picture film, discussing contour maps on neutral hydrogen distribution

18 p3327 A70-37163

Milky Way galaxy spiral structure analysis, using neutral H Hat Creek survey with southern observations

18 p3327 A70-37164

Neutral H concentrations far from galactic plane associated with spiral arms

18 p3327 A70-37166

Milky way galactic plane corrugation, discussing maximum hydrogen brightness temperature oscillating in sinusoidal pattern

18 p3328 A70-37167

H I local spiral arm drift curves from radio telescope operation

18 p3328 A70-37171

O type stellar clusters hydrogen line observation revealing associated gas clouds

18 p3328 A70-37172

Interstellar H I gas physical conditions, discussing ionization ratio average values and temperature conditions

18 p3328 A70-37175

H 2 region galactic clusters and exciting stars, reevaluating distances by color magnitude diagrams

18 p3329 A70-37178

Local spiral arm H 2 regions distribution in Cygnus direction, discussing symmetry due to magnetic field

18 p3329 A70-37180

Carina spiral feature progress report covering O and B star distribution, optical and radio H 2 and H I sources and cosmic dust

18 p3330 A70-37185

Neutral hydrogen observations in Sagittarius and Scutum spiral arms, examining circular galactic rotation by density wave theory kinematic models

18 p3331 A70-37197

Galactic spiral arm helical magnetic fields related to interstellar gas flow, using magnetohydrodynamic models

18 p3331 A70-37200

Water vapor and OH spectra overlap, investigating association of galactic OH masers and water emission sources with IR stars

19 p3444 A70-37571

Radio wave emission from dust in H II region by dielectric grain photoelectric charging, rotation through stellar photons and rotating dipoles

19 p3518 A70-38024

H II region radial velocity comparison to galactic spiral structure, using optical and radio investigations

19 p3524 A70-38698

Interstellar molecular H Lyman resonance-absorption bands in far UV spectrum using rocket observation

20 p3701 A70-39002

Thioformaldehyde isotopic species reversible transition in interstellar clouds

20 p3703 A70-39164

Relativistic gas spheres and collisionless star cluster models with large red shifts, showing radial perturbation stability

20 p3703 A70-39175

Double resonator ruby maser for observing transitions of interstellar hydroxyl, noting incorporation in modulation radiometer of astronomical telescope

21 p3835 A70-40641

Soft X ray flux emanation from galactic disk, discussing latitude dependence, interstellar H, maps and discrete sources nature and properties

21 p3878 A70-40707

Cold neutral atomic hydrogen in Taurus dust clouds from 21 cm line dips in radiotelescope observations

21 p3887 A70-41108

Laboratory measurement and low noise search in W3 /OH/ for microwave emission lines in excited rotational level of interstellar OH

21 p3922 A70-41977

Galactic soft X ray and subcosmic ray heating and ionizing of interstellar H I regions

22 p4094 A70-42985

H II regions density-size relationship, using emission measurements and radio data

22 p4109 A70-43746

Interstellar molecules from stellar and galactic evolution viewpoint, emphasizing OH emission spectrum characteristics

23 p4238 A70-43801

Lyman alpha radiation scattering intensity during solar radiation period, discussing dependence of interstellar hydrogen density in interplanetary space on solar EUV

23 p4237 A70-44753

H II region dust grains thermal emission, examining effect on diffuse nebulae

24 p4413 A70-46158

Galactic neutral hydrogen velocity distributions from 21 cm line profiles analysis

24 p4414 A70-46382

INTERSTELLAR MAGNETIC FIELDS

Small amplitude perturbations in interstellar medium, discussing order of magnitude estimates of properties of cosmic rays, thermal gas, dust and magnetic field

03 p0575 A70-14016

Radio emission distribution from supernova remnants and galactic magnetic field

06 p1139 A70-17323

Hydromagnetic self gravitating galactic slab embedded in halo, deriving stability criteria using models of magnetic field

07 p1390 A70-20293

Stellar and nebular magnetic fields formation, considering role of high temperature plasma random charge and current fluctuations

12 p2307 A70-27864

Book on interstellar medium covering gas dynamics, dust, magnetic fields and nonthermal radio emission, cosmic ray diffusion in galaxy, gravitational instability theory, etc

13 p2490 A70-28996

Galactic, stellar and solar magnet fields origin, considering fluid motions role

14 p2641 A70-30876

Physical processes in galactic and extragalactic sources of nonthermal radio emission, assuming pulsars as principal magnetic field and cosmic rays sources

18 p3321 A70-37126

Galactic spiral arm helical magnetic fields related to interstellar gas flow, using magnetohydrodynamic models

18 p3331 A70-37200

Galactic evolution and secular variations of cosmic rays, magnetic fields and turbulence, assuming stellar birth rate dependence on gas density and temperature

21 p3919 A70-41700

Large scale magnetic field and spiral shock pattern of Galaxy, using density-wave theory

22 p4103 A70-42981

Primeval cosmic magnetic fields origin, discussing galactic fields and limits on present intergalactic field

24 p4403 A70-45396

Relativistic gas bulk motion nonrelativistic equations, demonstrating spatially random fluctuations damp suprathermal hydromagnetic perpendicular propagation mode to interstellar magnetic field

24 p4397 A70-45761

INTERSTELLAR MATTER

Solid hydrogen condensation on interstellar grain surfaces at extremely low temperatures related to H atoms density

01 p0183 A70-10896

Interstellar neutral hydrogen flux effects on atmospheric hydrogen density, considering annual and semiannual density variations

01 p0186 A70-11207

PreHayashi phase of stellar evolution, discussing protostellar disks /stellisks/ formation from flattened fragments of collapsed interstellar cloud under turbulent viscosity

01 p0190 A70-11346

Interstellar media under action of supernova or nova, solving Navier-Stokes equations of hydrogen plasma for motion during shock wave formation

03 p0564 A70-13221

Evidence disproving interstellar extinction by diamond crystals

03 p0572 A70-13818

Small amplitude perturbations in interstellar medium, discussing order of magnitude estimates of properties of cosmic rays, thermal gas, dust and magnetic field

03 p0575 A70-14016

Low energy cosmic rays effect on electron density in interstellar medium

04 p0738 A70-14509

Interstellar formaldehyde absorption from radio observations with parametric amplifier

04 p0747 A70-14515

Interstellar propagation effect on spectra and charge ratios due to ionization energy loss and nuclear spallation during traversal of matter

05 p0897 A70-15762

Cepheus light attenuation curve explained by applying polymodal particle size distribution, obtaining interstellar dust density

05 p0918 A70-16915

Color difference method for interstellar extinction laws applied to O stars study

06 p1140 A70-17641

Milky way and interstellar clouds brightness fluctuations statistical analysis by surface photometry, studying dust distribution, cloud absorption and dimensions, star distribution, etc

06 p1149 A70-18463

Faraday rotation in pulsars and in interstellar medium, discussing position angle drift, polarization changes and pulse fine structure

08 p1564 A70-20553

Microwave absorption by rotational transition of interstellar formaldehyde in direction of Sgr B2, Sgr A and W51

08 p1570 A70-20896

Pulsed radio signals time delay due to molecular microwave resonance in earth atmosphere and interstellar medium

08 p1461 A70-20915

Magnetothermal instability and radiative effects on incipient fragmentation of rotating gravitating interstellar fluid forming condensations

08 p1578 A70-21545

Interstellar media under action of supernova or nova, solving Navier-Stokes equations of hydrogen plasma for motion during shock wave formation

08 p1580 A70-21654

Conditions for life in universe, analyzing evolutionary stages of matter to determine steps producing complex organic compounds

09 p1762 A70-23121

Interstellar dust, discussing effective particle size, composition, formation and effects on astronomical observations

09 p1763 A70-23374

X ray scattering from pulsar NP 0532 by interstellar grains

09 p1748 A70-23791

Magnetic funneling model proposed for accretion of matter onto neutron star to study X ray production during motion through interstellar cloud

10 p1931 A70-23902

Line profiles and equivalent widths from Si II, Mg II, Ni II and Fe II spectra of shell star zeta Tauri

10 p1936 A70-23941

Ar-arc-produced dust of iron, carbon, silicon carbide and silica, investigating shapes, sizes, grouping and optical absorption to simulate interstellar grains

10 p1944 A70-24957

- Wisps near Crab Nebula since September 1969 pulsar spin-up, suggesting dynamical changes in neutron star 10 p1947 A70-24994
- Alpha recombination line emission from galactic center detected, discussing possible origins in continuum source or interstellar medium 10 p1947 A70-24995
- X ray scattering by interstellar grains in direction of Crab pulsar and Sco XR-1 10 p1933 A70-25044
- Excess color method for photometric and spectral studies of interstellar absorption in cluster NGC 6913 11 p2116 A70-26585
- Excess color method for studying interstellar absorption around cluster NGC 6823 11 p2116 A70-26586
- Densities and extents of absorbing clouds in open cluster NGC 7086 determined from photometry and spectral classifications of stars 11 p2116 A70-26587
- Diffuse matter distribution in northern region of Milky Way, examining relation with O-BO stars distribution 11 p2116 A70-26588
- IR radiation intensity distribution in solar neighborhood from grain models of dirty ice, graphite and graphite core-dirty ice mantle 11 p2106 A70-26710
- Grains impurities effect on interstellar extinction curve from graphite grain model, discussing dirty ice coatings 13 p2489 A70-28915
- Book on interstellar medium covering gas dynamics, dust, magnetic fields and nonthermal radio emission, cosmic ray diffusion in galaxy, gravitational instability theory, etc 13 p2490 A70-28996
- Stellar light pressure and gravitational force ratios for spherical water, quartz and graphite particles in interstellar space, considering refractive dependence on wavelength 13 p2493 A70-29396
- Light elements detection in interstellar grains by observing halo around X ray source arising from small angle scattering 14 p2631 A70-30539
- Ca atom-graphite grain model for interstellar absorption at 4430 Å, calculating resonant line shift and width as functions of atom-surface distance 14 p2639 A70-30729
- Interstellar grains potential model, discussing plane electromagnetic waves scattering by infinite concentric homogeneous circular cylinders at oblique incidence 14 p2639 A70-30732
- Galactic cosmic ray actions on interstellar medium for origin of Li, Be and boron in stellar atmospheres and solar system 14 p2640 A70-30786
- H II region stellar color anomaly attributed to interstellar extinction 14 p2641 A70-30879
- Faraday rotation in pulsars and in interstellar medium, discussing position angle drift, polarization changes and pulse fine structure 15 p2805 A70-32708
- Angular scattering of interstellar medium resulting in multipath dispersion of pulsar pulses, discussing NP0532 in Crab Nebula 16 p2972 A70-32988
- Cosmic microwaves anomalous absorption by interstellar IR-pumped formaldehyde in dust clouds shock heated layer 17 p3154 A70-34535
- Periodic comet nature, origin and anomalous behavior with space mission planning implications, assuming solar plasma source and solar-interstellar interaction [AAS PAPER 70-029] 17 p3155 A70-34795
- Interstellar silicate absorption in IR spectra, discussing existing observations 17 p3157 A70-34840
- UV interstellar extinction from comparison of epsilon and zeta Persei, noting graphite features 17 p3159 A70-34877
- UV interstellar extinction, examining reddened and unreddened early stars with OAO satellite spectrophotometric scans 17 p3159 A70-34878
- Dielectric models of interstellar grains from calculations for smooth particles of homogeneous materials 17 p3159 A70-34879
- Galactic UV emission attributed to solar radiation scattered by hydrogen atoms, using Mariner 5 measurements 17 p3163 A70-34902
- Lyman alpha radiation from gaseous hydrogen nebula model, taking into account absorption by dust and interstellar neutral hydrogen 17 p3163 A70-34904
- Interstellar dust spatial distribution, indicating galactic spiral structure 18 p3329 A70-37183
- Traversed matter thickness and charge composition for high energy galactic cosmic rays with various propagation modes 19 p3506 A70-38123
- Cosmic rays deuterons abundance calculation from H and He nuclei collisions with interstellar matter 19 p3506 A70-38125
- Interstellar molecular radio frequency lines significance to galactic physics, noting abundance relation to constituent atoms indicating dust catalytic formation 19 p3521 A70-38496
- Cosmic soft X rays scattering by interstellar dust grains, observing source angular size dependence on distance, wavelength and grain properties 20 p3695 A70-39233
- Interstellar silicate absorption bands four color photometric observations in galactic direction, using metal mirror telescope 20 p3713 A70-40431
- Cas A and SN 1572 supernova remnant radio sources X ray spectra, investigating absorption by interstellar medium 21 p3873 A70-40666
- X ray source population type optical observations, discussing interstellar matter and H II regions 21 p3882 A70-41117
- Interstellar spherical dust particles from meteoritic silicates and dirty ice, calculating optical properties and scattering functions 21 p3889 A70-41147
- Circumstellar matter observations between binary star components, considering emission and absorption spectra, velocity and light curve distortion and orbital period changes 21 p3889 A70-41151
- Cosmic X ray extinction and halo by interstellar grains, applying to light elements identification 21 p3883 A70-42200
- Interstellar and intergalactic medium physics, examining H I and H II regions thermal and dynamic states 22 p4098 A70-42578
- Neutral interplanetary particle impact ionization of atmosphere, discussing density of neutral interstellar media near solar system 22 p4106 A70-43291
- Interstellar matter in Scorpius constellation, discussing star counting, gas identification, etc 23 p4254 A70-44901
- Polarized maser emission from interstellar hydroxyl and water related to nonlinear weak magnetoplasma 24 p4381 A70-45258
- Carbon ionization equilibrium in dense interstellar clouds, discussing grains and neutral atoms attenuation effects 24 p4402 A70-45387
- Neutron star or defunct pulsar accretion of interstellar matter, discussing effects on total luminosity and radiation spectrum 24 p4403 A70-45397
- Interstellar dust clouds, discussing graphite, iron and silicate mixture, solid carbon material, starlight extinction and astrophysical processes 24 p4403 A70-45408
- Spallation limits on low energy cosmic and nuclear gamma rays interstellar fluxes, evaluating fast particle effects on interstellar medium 24 p4397 A70-45758
- Hydrogen I region anomalous alpha lines recombination in Orion B spectrum, identifying carbon emitter by measured frequency separation 24 p4410 A70-45773
- INTERSTELLAR MICROWAVE SPECTRA**
- U INTERSTELLAR RADIATION**
- U MICROWAVE SPECTRA**
- INTERSTELLAR RADIATION**
- Diffuse soft X ray photoionization and heating of H I regions compared to cosmic ray heating 02 p0364 A70-11784
- MK stellar spectral types in Monoceros, analyzing spatial distribution and interstellar absorption using slit spectograms 02 p0369 A70-12063
- Galactic interstellar absorption lower limit in selected Area 19 determined from Stellar spectra densities, using Schmidt camera 02 p0370 A70-12073
- Interstellar polarization by graphite-silicate grain mixtures, observing variability in wavelength dependence of polarization for various models 03 p0577 A70-14218
- Power spectra, modulation indices, frequency distributions and decorrelation frequencies of intensity fluctuations of pulsar radiation consistent with interstellar scintillation theory 05 p0908 A70-16302
- Phase variations in polarization parameters of eclipsing binary Z Vul during polarimetric studies for interstellar polarization component 09 p1751 A70-22156
- Elongated neutral-hydrogen emission feature in Sco-Oph region, comparing with interstellar sodium lines for distance from sun 10 p1945 A70-24966
- Interstellar cosmic ray spectra from nonthermal radio background, obtaining electrons and protons modulation by diffusion-convection energy loss theory 14 p2631 A70-30673
- Energy spectrum of primary cosmic ray electrons /negatron and positron/ in interstellar region observed near 1965 solar minimum 19 p3503 A70-38101
- Interstellar electron and positron intensity, observing pion production spectrum from nuclear collisions at machine energies 19 p3504 A70-38111
- INTERSTELLAR SPACE**
- Spacecraft motion parameters and physical characteristics of space determined from statistical analysis of measurement data 01 p0094 A70-11484
- Electron and positron flux steady state in interstellar space relationship to differential energy spectrum exponent in cosmic rays, discussing galactic halo and age 03 p0561 A70-14151
- Thermal stability of graphite core-solid hydrogen mantle grains determined from temperature and evaporation rates calculated for interstellar space 04 p0743 A70-14398
- Gravitational-repulsion forces of interstellar vacuum, investigating relations between magnitudes and red shift of galactic objects and quasars 05 p0920 A70-16968
- Cosmic ray electrons during propagation in interstellar space analyzed for energy spectrum modulation 10 p1816 A70-24633
- Interstellar flights, discussing human limitations, star systems with habitable planets and possible galactic communities 10 p1943 A70-24759
- Solar system and interstellar space exploration phases, manned and unmanned missions, meta and microprobes, propulsion systems, etc 11 p2112 A70-26063
- Spacecraft propulsion systems selection for particular exploration missions including planets, comets and interstellar space 11 p2112 A70-26066
- Cosmic electron detection and measurement techniques, considering presence in solar system, interstellar space and metagalaxy and galactic continuum radio emission 12 p2293 A70-27572
- Cosmic rays intensity frequency spectrum near earth, indicating relativistic electron energy spectra similarity in interstellar space and galactic particles existence 13 p2478 A70-29388
- Molonglo pulsars H line absorption and dispersion in interstellar medium 13 p2495 A70-29788
- Local system interstellar medium thermal electron distribution, synchrotron radiation emissivity, cosmic ray electron flux and spectrum 17 p3152 A70-35583
- Pulsar distance calculation, assuming immersion in uniform average electron density medium 18 p3328 A70-37174
- Galactic low energy cosmic ray positrons and gamma rays, considering production mechanism in interstellar space 19 p3503 A70-38099
- Interstellar cosmic ray electron spectrum flattening below 3 Gev from OGO-5 observations 19 p3504 A70-38106
- Primary cosmic rays energy spectra in interstellar space in relation to sunspot group number 19 p3506 A70-38121
- Cosmic ray nuclei transformation and propagation in interstellar space, considering diffusion equation, cross sections, solar modulation, etc 19 p3509 A70-38145
- Energetic cosmic ray particles transfer through interstellar space based on galactic disk model 19 p3511 A70-38158
- Microwave transitions for molecules in comets and interstellar space 21 p3887 A70-41110
- INTERSTELLAR TRAVEL**
- Interstellar space flight ramjet physical model, describing magnetic field funnel, radiation effects, relativistic effects, etc 02 p0379 A70-12782
- Photon propulsion with constant power in exhaust beam and intragalactic travel in force free space from solving relativistic rocket equations [AIAA PAPER 70-215] 06 p1132 A70-18105
- Soviet book on physics of cosmic propulsion energy covering space vehicle propulsion systems, vehicle-medium interaction, etc 08 p1558 A70-20754
- Minimum time interstellar trajectories for thrust limited rockets by applying Pontryagin maximum principle to relativistic rocket equations of motion 09 p1760 A70-22933

Interstellar transport vehicles design around thermonuclear propulsion plants, discussing weight, mission velocity, acceleration time and fuel costs

11 p2123 A70-26054

Interstellar exploration mission profiles, considering technical constraints, propulsion modes, environmental hazards, spacecraft communications and control, etc

11 p2112 A70-26065

Transstellar space navigation, discussing system concepts, measured observables during flight, instrumentation, etc

15 p2773 A70-32060

Interstellar drag resulting from relativistic rocket elastic collisions with interstellar matter, discussing effects on minimum time acceleration limited relativistic trajectories

17 p3155 A70-34752

Space vehicle for interstellar flight, discussing propulsion concepts, mission implications and international cooperation

23 p4254 A70-45011

INTERSTITIALS

Interstitial atoms ordering effects on low and high temperature phase transformations in alloys with bcc lattice

03 p0505 A70-13102

Nb-Mo alloy interstitial oxygen concentration determined by measuring internal friction / Snoek/ peak

03 p0512 A70-13763

Structure and interstitial impurities effects on Nb modulus of elasticity at normal and high temperatures, noting rolling

05 p0866 A70-17040

Thermal isolation characteristics of interstitial materials in vacuum environment, inserting materials between contacting metal surfaces at various pressures and temperatures

06 p1181 A70-18143

Dislocations and interstitial atoms interactions in Ta, investigating internal friction and deformation resistance and rate dependence on temperature

07 p1309 A70-19637

Interstitial atoms effect on dislocation relaxation and aging of Mo and Nb single crystals

07 p1309 A70-19638

Solid solution softening in bcc Ta-Re alloy system attributed to substitutional-interstitial interaction

07 p1310 A70-19736

Interstitial solutes effect on athermal component of flow stress in alpha titanium

08 p1521 A70-21577

Transition metal alloys electronic effect on solubility of interstitials

08 p1521 A70-21695

Interstitial sinks effect on structure and creep behavior of dispersion-strengthened Cb base alloy

08 p1521 A70-21703

Tensile strain rate and oxygen concentration effects on peaks of niobium hardening zones involving interstitial atoms

12 p2252 A70-27001

Interstitial solid solutions stability in cast molybdenum subjected to heat treatment

12 p2257 A70-28225

Interstitial atoms arrangement in binary alloys with body centered lattice, describing pressure effects by statistical theory

13 p2435 A70-29321

Interstitial Cl molecule formation in NaCl lattice, computing strain field and energetics by energy minimization technique based on point ion lattice model

14 p2544 A70-30352

Stress relaxation of Mo under plastic deformation controlled by diffusion of interstitial atoms and dislocations, determining activation energy

15 p2758 A70-32124

Kinetic simulation of atom rearrangements in order-disorder transformation for point defect movement in Ti alloys, considering vacancies and interstitials properties

17 p3115 A70-34381

Binary titanium-oxygen and titanium-carbon alloys, investigating interstitial pair mechanism for internal friction peak formation

17 p3115 A70-34383

Interstitial impurities effect on mechanical properties of Ti alloys, discussing interaction between solutes and dislocations

17 p3116 A70-34390

Unalloyed alpha titanium mechanical properties, emphasizing grain size and interstitial content effects on strain hardening and deformation dynamics

17 p3116 A70-34391

Yield stress in electron beam-refined Nb-N solid solution at room temperature and specific strain rate range

19 p3454 A70-38813

Ta single crystal inherent lattice and interstitial solution hardening, discussing impurity doping effect on flow stress thermal component

21 p3839 A70-40902

Alpha phase Ti strengthening, investigating interaction between dislocations and interstitial solute atoms

24 p4360 A70-45516

INTERVALS

Microinterval analysis of phased development of human visual color perception in presence of short stimuli

08 p1443 A70-20733

Critical discreteness interval of visual analyzer, investigating dependence on stimulus location, flare brightness and adaptation

08 p1443 A70-20734

Interval of values with stability and convergence for correctors for differential equations

09 p1641 A70-22286

Real cipher places in real function, describing interval analysis method with upper and lower bound indications

18 p3282 A70-36357

Threshold distribution of time intervals between atmospheric contradicting Poisson law

23 p4190 A70-44082

INTERVERTEBRAL DISKS

Radial and tangential stress distribution through annulus fibrosus dependence on material inhomogeneity for human intervertebral disk

15 p2692 A70-32328

INTESTINES

NT RECTUM

Slow waves and spikes in intestinal muscle of cat noting dependence on intracellular iontophoresis of Na

03 p0416 A70-13014

Temporary mitotic activity depression with decrease in aberrant mitoses observed in mice intestinal epithelium cells after exposure to 50 Mev proton doses

03 p0423 A70-13708

Unicellular algae protein diet effects on animal and human enteric microflora composition

09 p1615 A70-22087

Transmural stimulation elicited phasic and tonic contractile responses in circular and longitudinal axes of small intestine under nerve-blocking drugs

09 p1622 A70-23547

Temporary mitotic activity depression with decrease in aberrant mitoses in mice intestinal epithelium cells after exposure to 50 Mev proton doses

11 p1985 A70-25508

Unicellular algae protein diet effects on animal and human enteric microflora composition

15 p2685 A70-32683

Mice intestinal epithelium, investigating high energy protons irradiation effect on cells

23 p4149 A70-45028

INTOXICATION

Altitude effects on Borkenstein Breathalyzer accuracy determined from alveolar ethanol analysis

06 p1000 A70-17303

Alcoholic beverages effect on positional nystagmus and Coriolis acceleration

11 p1993 A70-26520

Gravity effect on positional alcohol nystagmus in man and rabbits, observing threshold value in weightless state

13 p3259 A70-29442

Altitude and alcohol intake effects on blood alcohol concentrations

24 p4306 A70-45329

Alcohol effects on human short term memory, discussing pathological intoxication from flying safety viewpoint

24 p4307 A70-45345

INTRACRANIAL PRESSURE

Respiratory waves formation of intracranial pressure in anesthetized cats and dogs, studying various contributing factors

07 p1213 A70-19792

Intracranial pressure pulse waves formation mechanism mathematical model, estimating role of biomechanical factors

13 p2353 A70-29520

INTRAMOLECULAR STRUCTURES

Intramolecular formation of azo-linkage accompanying N elimination from bis-azide

05 p0810 A70-16052

INTRAOCULAR PRESSURE

Bleached eye pressure blinding at bleaching light termination during wavelength settings, discussing effect on interocular hue shifts

03 p0427 A70-13951

Dogs breathing air or oxygen during slow and rapid decompression, measuring intraocular and cardiovascular pressure changes and retinal responses

09 p1621 A70-23460

Intraocular tension due to muscular fatigue in overheated albino rats, determining Na and K content in eye tissue

14 p2535 A70-30159

INTRAVASCULAR SYSTEM

Dynamic intravascular pressures measured in small vessels of frog lung using micropressure transducer inserted into vessel lumen

19 p3364 A70-38368

INVARIANCE

Radiative transfer in plane parallel atmospheres computed by discrete space techniques based on invariance concept for application to planetary atmospheres

02 p0338 A70-11825

Nonlinear modification of Maxwell equations, discussing conformal invariance and nonsingular solutions to neutral and charged states with zero mass

02 p0339 A70-12067

Lorentz invariance test using bar magnet on torsion fiber, analyzing preferred reference frame in space assuming earth velocity coupled to electron spin through specific term

02 p0341 A70-12849

Poincare invariance compatibility with general relativity, discussing Brandt groupoid, decomposition and local groups

06 p1106 A70-17540

Autonomy and invariance conditions for control systems composed of multivariable components having same number of inputs and outputs

07 p1244 A70-18768

Invariant set existence inside submanifold convex to flow established from vector field properties on submanifold boundary

07 p1324 A70-19198

Invariance and stability of subsets in metric state-time dynamical polysystems

07 p1324 A70-19200

Compton-Getting effect for cosmic ray particles and photons and Lorentz-invariance of distribution functions, discussing thermal background radiation, proton spectra, etc

07 p1369 A70-20071

Linear integral equations solutions using invariant functions

09 p1711 A70-22208

Riemann invariants, discussing method of characteristics in physical and hodograph space applications and multidimensional hyperbolic systems

10 p1865 A70-24103

Invariance conditions and state transition matrix of linear systems

11 p2074 A70-26400

Field equations in conformal theory of gravitation, noting invariance

11 p2084 A70-26552

Turbulent chemical reactions invariance preservation for zero diffusivity

14 p2546 A70-31044

Algebraic aspects of generalized Riemann invariants method of integration of quasi-linear partial differential equations

16 p2944 A70-34329

Lagrangian invariants of inviscid compressible fluid dynamics applied to hydrodynamic equations

17 p3070 A70-35333

First boundary value problem solution for parabolic equation by differential invariant method

17 p3131 A70-35340

Adiabatic invariant of nonlinear periodic wave described by partial differential equations in weakly inhomogeneous medium

18 p3291 A70-36642

Classical invariant characteristic of quantification conditions for flow quantifiers

20 p3671 A70-39122

Invariant automatic control systems - Conference, Kiev, May-June 1966, Volume 2

20 p3601 A70-39826

Invariance conditions for control systems with time varying parameters

20 p3602 A70-39827

Automatic control system components parameter variation effects on invariance conditions

20 p3602 A70-39830

Small parameter effects on absolutely invariant systems under transient perturbation, analyzing gyro stabilizer performance

20 p3603 A70-39831

Automatic control systems with signal recovery, determining invariance conditions, main operators and reproduction errors

20 p3603 A70-39833

Multidimensional automatic control systems polyinvariance, describing compensating cross couplings realization

20 p3603 A70-39834

Complex automatic systems effectiveness synthesis based on invariance principles

20 p3603 A70-39835

Multidimensional control systems synthesized in accord with polyinvariance and coordinating couplings principles

20 p3604 A70-39837

Self adjusting autopilot system based on invariance principle for stabilization against wind gusts

20 p3670 A70-39840

Two dynamic systems synthesis achieving limited influence on each other by coordinates invariance criteria method involving determinant

20 p3604 A70-39841

Invariant systems structural synthesis for automatic control of plant motion, deriving control laws for thrust and angle of attack

20 p3670 A70-39844

Invariance conditions for inertial gyroscopizer with powered stabilization system in presence of dynamic imbalance, noting improvement via compensating loop

20 p3670 A70-39846

Multidimensional control for turbofanjet engine, relating system characteristics to invariance conditions during startup and ascent

20 p3689 A70-39847

Pneumatic actuator control system improvement, using invariance theory to compensate load variability and dynamic response of medium

20 p3564 A70-39848

Invariance conditions in two parameter frequency control unit for electric power generator driven by variable speed motor

20 p3565 A70-39850

Invariance principle in mechanics of deformable continua connecting three dimensional and relativistic space-time formulation

21 p3940 A70-42097

Chronometrically invariant formulation of Petrov gravitational fields algebraic classification at space-time fixed point in general relativity

21 p3851 A70-42239

Deformations with constant strain invariants for elastic bodies under surface traction

22 p4113 A70-42543

Conservation laws in theory of field with group invariance properties, examining infinitesimal transformations method

22 p4075 A70-43400

INVARIANT IMBEDDINGS

Boundary value problems of thin beams theory transformed into initial value problems, using dynamic programming and invariant imbedding

05 p0926 A70-15977

Optimal control problem converted Cauchy problem for obtaining numerical solutions through invariant imbedding

06 p1027 A70-18508

Mixed boundary value potential theory problem numerical solution by integral equation invariant imbedding

06 p1171 A70-18511

Classical eigenvalue problem transformation by invariant imbedding into initial value problem suited for numerical integration, noting applications to columns elastic buckling

12 p2261 A70-27424

Inverse boundary value problems involving elliptic equations solved by Newton method and discrete invariant imbedding

13 p2440 A70-28650

Nonlinear integrodifferential equations of radiative transfer solved by invariant imbedding approach, discussing Rayleigh phase matrix

13 p2451 A70-29130

Invariant imbedding application to solution of partial differential equations by continuous-space discrete-time /CSDT/ method, discussing time dependent heat diffusion

16 p2942 A70-33735

Optimal control problem solution methods, comparing Euler-Lagrange equations, Pontryagin principle, dynamic programming and invariant imbedding

17 p3057 A70-35589

Thermotropic quasi-geostrophic atmospheric model, deriving linear and quadratic integral invariants

19 p3463 A70-38754

INVENTORIES

NT **TIMBER INVENTORY**

VTOL aircraft power plants optimization for future helicopter missions without restrictions of limited off-shelf inventory

17 p3147 A70-34708

INVENTORY CONTROLS

Optimal spare parts inventory determined for stochastically failing components using mathematical model

08 p1501 A70-20603

Equivalent linear programming in integer variables to solve production scheduling for N identical machines, minimizing changeover and inventory costs

10 p1895 A70-24662

Computerized control of aircraft spare parts inventories, using optimization method maximizing aircraft availability and minimizing handling costs

13 p2524 A70-28836

Comparative demand forecasting for military helicopter spare parts, stressing exponential smoothing model

20 p3740 A70-39643

INVERSIONS

NT **CENTRIFUGING STRESS**

NT **POPULATION INVERSION**

NT **TEMPERATURE INVERSIONS**

Trench algorithm for Toeplitz matrix inversion, presenting proof for nonHermitian matrices case

01 p0131 A70-10456

Algebraic method for role of part inversion in fluid structure problems with mixed variables

11 p2135 A70-25979

Multidata and collocation methods compared for numerical Laplace transform inversion

11 p2074 A70-26639

Rational polynomial matrices inversion by automatic computational procedures, considering Gaussian elimination and Faddeev algorithm

22 p4062 A70-42926

INVERTEBRATES

NT **AMOEBAS**

NT **BETTERLES**

NT **CEPHALAPODS**

NT **DROSOPHILA**

NT **INSECTS**

NT **MOLLUSKS**

NT **MOTHS**

NT **PROTOZOA**

NT **SPORES**

Biological tests of fish and invertebrates exposed to Apollo 11 lunar surface material, noting absence of pathological effects

19 p3513 A70-37409

Earth-moon system age and origin from tidal evolution equations, considering growth line counts on living and fossil marine invertebrates

21 p3921 A70-41971

INVERTERS

NT **STATIC INVERTERS**

Discrete diode phase inverter for meter wavelengths providing north-south antenna control of radio telescope by diffraction method

08 p1473 A70-21064

Free-running parallel inverters limitations by critical characteristics of networks, transformers and switching elements

11 p1983 A70-26628

Apollo Command Module inverter experience for post-Apollo spacecraft applications, discussing phase loads and control logic circuits

12 p2165 A70-27693

Reactive filter synthesis for step-voltage output inverter smoothing, using network theory

14 p2559 A70-30373

DC-to-sinusoidal inverter employing PWM waveform, analyzing circuit parameters effect on harmonic content

19 p3358 A70-37854

High power short rise time square wave inverter using power transistors

22 p3965 A70-43336

INVESTIGATION

NT **ACCIDENT INVESTIGATION**

NT **AIRCRAFT ACCIDENT INVESTIGATION**

INVESTMENT CASTING

Monolithic precision castings using photoetched plastic and lost-wax investment techniques

22 p4043 A70-42419

INVESTMENTS

Edwards Report consideration of economic and investment opportunities in civil aviation, discussing denationalizing airways corporations

11 p2153 A70-25859

Investment risks and technical impact on aircraft development, world aviation growth and airline costs

17 p3200 A70-34915

INVISCID FLOW

NT **STAGNATION FLOW**

Inviscid surface pressures calculated on slender wedges and cones at low frequencies and large oscillation amplitudes in hypersonic flow

01 p0003 A70-10854

Boundary layer and singular inviscid stagnation point reacting flow matching, corrections structure and decay and ranking comparison with second order effects in fluid mechanics

01 p0065 A70-11096

Time dependent behavior of separated and unseparated unsteady flow of incompressible viscous and inviscid fluids without heat transfer

01 p0067 A70-11162

Lower bounds of Stekloff and free membrane eigenvalues for sloshing of incompressible inviscid fluid, subject to gravity in rigid tank with free surface

02 p0278 A70-11999

Axisymmetric radiating flow behind paraboloidal shock in ideal inviscid gas hypersonic stream, using differential approximation method for blunt body solution

04 p0669 A70-14937

Inviscid flow problems solution by partial differential equations, considering propagation processes, stratified media, potential, subsonic and three dimensional flows

04 p0672 A70-15170

Fluid mechanical problems with pressure distribution determined by interaction between external supersonic inviscid flow and inner laminar viscous layer

04 p0674 A70-15529

Inviscid Burger turbulence spectral equations for cumulant approximation, obtaining energy spectrum and transfer as initial value problems

05 p0832 A70-16147

Inviscid gas injection through flat plate in supersonic flow, obtaining self similar solution by integrating differential equation for stream function

05 p0791 A70-16963

Lift and vortex drag due to flaps on thin sweptback tapered wings in inviscid incompressible flow, obtaining spanwise loadings

06 p0967 A70-17256

Inviscid hypersonic blunt body flow of hydrogen-oxygen mixtures in shock layer stagnation region

06 p0968 A70-17555

Inviscid flow through staggered airfoil cascades in oscillatory and distorted flow simulating axial flow compressor

[ALAA PAPER 70-131] 06 p0969 A70-18049

Closed form solution of modified inviscid transonic equation embodying character of viscous-transonic equation applied to shockless transonic airfoils

[ALAA PAPER 70-187] 06 p0970 A70-18096

Steady supercritical planar inviscid transonic flows over lifting airfoils, generating unsteady flow by impulsively imposing airfoil boundary condition

[ALAA PAPER 70-47] 06 p0972 A70-18130

Time dependent inviscid gas flow on infinite domain computed by finite difference method

[ALAA PAPER 70-45] 06 p1042 A70-18188

Intensity measurements of molecular beams skimmed from nearly inviscid nitrogen and Ar free jets, interpreting beam attenuation in terms of collisional models

06 p1043 A70-18254

Inviscid hypersonic flow analysis for chemically relaxing air about wedges and pointed circular cones using Dorodnitsyn integral method

[DGLR-69-037] 07 p1188 A70-18986

Asymptotic behavior of inviscid radiating gas flow near stagnation point of blunt body

07 p1188 A70-19315

Circulating flow around elliptical cylinder in inviscid liquid vortex

09 p1659 A70-22435

Shock layer thickness in supersonic inviscid gas flow past blunt bodies, calculating boundary layer near stagnation point

09 p1603 A70-22442

Two dimensional radial flow of inviscid infinitely conducting compressible fluid under influence of magnetic field

09 p1735 A70-22757

Hall effect on MGD flow past axisymmetric body by studying incompressible inviscid flow past body of revolution at zero incidence

09 p1661 A70-23074

Massive blowing from porous cone with embedded shock wave in supersonic flow, assuming inviscid and conical injected flow field

09 p1662 A70-23216

Incompressible inviscid fluid flow behind impeller blades, determining velocity profiles, flow-off angle and stable operation limits

11 p1977 A70-26349

Inviscid incompressible conducting fluid flow past body in aligned magnetic field at low magnetic Reynolds number, discussing small perturbations evolution

11 p2041 A70-26623

Numerical solution for steady supersonic inviscid flow around smooth conical bodies by solving elliptic partial differential equations for conical flow

12 p2155 A70-27202

Inviscid flow theory for ACV high speed peripheral jets, considering component inefficiencies, pressure losses, nozzle geometry, etc

12 p2156 A70-27211

Flow stability of electrically conducting inviscid fluid in coaxial cylindrical annular space under influence of axial magnetic field

12 p2210 A70-27799

Solid particle motions in dusty gas in inviscid hypersonic shock layers of slender wedges and cones and stagnation regions of cylinders and spheres

12 p2156 A70-27827

Viscous and inviscid incompressible fluids motion boundary value problems solutions with aid of kinetic stress functions

13 p2388 A70-29319

Inviscid, incompressible superposed fluids stability in presence of inhomogeneous porous media, noting motion with decaying amplitude

14 p2577 A70-30993

High temperature inviscid flow of ideal radiating gas, analyzing effects of radiation pressure and energy on flow field

14 p2666 A70-30999

Steady state one dimensional nozzle flow of reacting inviscid gas mixtures, giving numerical solution procedure for hydrogen-oxygen reactions

15 p2694 A70-32269

Inviscid film flow by fluid injection through bounding surface, considering porous plate inclination and power law injection rates

16 p2895 A70-34241

- Time dependent solution for inviscid hypersonic flow of chemically reacting gas mixture about blunt bodies
[ALAA PAPER 70-771] 17 p3009 A70-34502
- Hypersonic flow past slender bodies, discussing inviscid flows, outer edge singularity of boundary layer and three dimensional interaction on needle-like bodies
17 p3010 A70-35035
- Lagrangian invariants of inviscid compressible fluid dynamics applied to hydrodynamic equations
17 p3070 A70-35333
- Micropolar fluids turbulent flow, investigating microstress couples, stability, inviscid flow, etc
17 p3071 A70-35435
- Three dimensional inviscid small perturbation compressible flow past lifting axial compressor rotor at subsonic and transonic speeds
18 p3208 A70-36691
- Two dimensional steady inviscid incompressible flow past profiles in parallel flow with nonuniform velocity distribution
19 p3354 A70-38676
- Nonequilibrium processes and body geometry as stagnation point conditions in blunt body inviscid flow
20 p3557 A70-39355
- Energy spectrum function for Gaussian initial velocity field of inviscid turbulence Burger model, using Cameron-Martin-Wiener exact expansion
20 p3609 A70-39653
- Boundary value problems in uniform incompressible inviscid flows past complex profile bodies by R functions method and variational technique
20 p3610 A70-39772
- Nonuniform free stream supersonic flow past aerodynamic decelerators, calculating inviscid flow fields by method of characteristics
[ALAA PAPER 70-1176] 21 p3746 A70-41837
- Acoustic wave propagation in continuum of inviscid compressible heat conducting fluid, determining stability criteria
22 p4073 A70-42571
- Lift determination of slender curved periodically recurring airfoils array in plane potential flow of inviscid incompressible fluid
23 p4133 A70-44158
- Radiative transfer upstream absorption effect on inviscid stagnation region shock layer radiation
23 p4133 A70-44551
- Inviscid rotational supersonic flow near three dimensional stagnation point, examining solutions for compatibility with vortical shock layer boundary conditions
23 p4183 A70-44692
- Time dependent inviscid transonic flow past two dimensional and axisymmetric bodies, presenting numerical procedures including imbedded shock waves as discontinuities
[ALAA PAPER 70-1322] 24 p4288 A70-45943
- Inviscid conducting incompressible fluid steady motion past thin airfoils, presenting crossed and aligned fields and Alfvén motion with Hall effect
24 p4289 A70-46033
- Inviscid hypersonic flow fields past lower compression surface of delta wing calculated by one strip approximation of integral relations method
24 p4289 A70-46245
- INVISIBILITY**
U VISIBILITY
- IODATES**
Ruby laser second harmonics generation in low loss lithium iodide crystal with high conversion efficiency
24 p4355 A70-46085
- IODIDES**
NT SILVER IODIDES
NT SODIUM IODIDES
LiI thermodynamic properties in dimethyl sulfoxide determined by emf method, discussing ionic solution energies
10 p1831 A70-25041
- Iodine concentration effects on epitaxial GaAs p-n junctions growth characteristics
14 p2625 A70-30171
- Optical charge transfer transitions in N-alkyl iodide salts, examining transient absorptions due to flash photolysis
18 p3226 A70-36765
- IODINE**
NT IODINE ISOTOPES
NT IODINE 131
Thyrotropin [TSH] effects on thyroidal iodine metabolism during hypoxia in rats
02 p0231 A70-11703
- Rotational lines in iodine B-X system vibrational bands, calculating Doppler, natural and collisional widths
03 p0527 A70-13298
- Voltage-step method to measure diffusivity of structured region in polar liquid electrolyte solutions, considering iodine near Pt microelectrodes in aliphatic alcohols
03 p0441 A70-14044
- Corrosion shapes from iodine action on metals in methylic medium, discussing morphology dependence on purity, surface state and reaction products diffusion velocity
08 p1518 A70-21241
- Thyroid gland function following radiation injury by measuring plasma protein bound iodine in irradiated rat blood
09 p1621 A70-23150
- Laser action in 5d-6p electron transitions of neutral atomic iodine, measuring electron temperature and density
09 p1699 A70-23517
- Molecular I ground state dissociation energy value, proposing spectroscopic reassignment
12 p2180 A70-26861
- Vibrational energies, rotational constants and internuclear potential of ground state molecular iodine, using reanalyzed spectroscopic data
16 p2954 A70-33056
- Iodine concentrations, temperature gradients and transport ampules etching effects on mass transport rate and crystal growth of MnS-MnSe-iodine system
16 p2960 A70-33088
- Meteorite I-Xe 129, demonstrating cold assembly of unequilibrated chondrite
19 p3519 A70-38036
- Barrier heights for hydrogen-iodine reaction from semiempirical four-electron valence bond calculation
21 p3780 A70-41709
- Rotational quantum numbers from iodine molecule resonance fluorescence measurements during laser excitation using Fabry-Perot interferometer
23 p4202 A70-44938
- IODINE COMPOUNDS**
NT IODATES
NT IODIDES
NT SILVER IODIDES
NT SODIUM IODIDES
Crossed molecular beam study of reactive asymmetry of oriented methyl iodide molecules reacting with Rb, accounting for observations with hard sphere model
07 p1225 A70-20051
- UV absorption cross sections of CO, HCl and ICN, analyzing reactions causing various spectral features
08 p1455 A70-21340
- IODINE ISOTOPES**
NT IODINE 131
I-Xe dating of Abee enstatite chondrite by combined neutron activation and mass spectrometric analysis
05 p0915 A70-16829
- Radioactive dating of meteorites based on high temperature release of iodine-correlated Xe129 and Xe128
10 p1949 A70-25328
- IODINE 131**
Transport ratio for I-131 air to milk concentrations, determining mean value and statistical variation from Project Rover data
19 p3361 A70-38012
- ION ACCELERATORS**
Accumulated plasma density and lifetime measurement of trapped ions between accelerator and periodic magnetic mirror, showing limitation by collisions and charge exchange
03 p0532 A70-13683
- Ion acceleration in spherical and cylindrical plasma layers formed by spherical plasmoid expansion in plasma cylinders
07 p1384 A70-19414
- Plasma ion cyclotron resonance acceleration in nonuniform magnetic field by RF field
07 p1353 A70-20229
- Ion accelerator for doping semiconductors, discussing electronic bombardment of low pressure vapors, electrostatic extraction, focusing and mass spectrometer
09 p1649 A70-23325
- Ions acceleration and motion in corona and solar wind, discussing equation derivation, He abundance, nonMaxwellian distribution functions, minimum flux estimation, etc
17 p3152 A70-35870
- Nonlinear collective ionic acceleration by relativistic electron beam, assuming blob dimensions of plasma wavelength
22 p4077 A70-43471
- ION ATOM INTERACTIONS**
He excitation by low energy He ions giving support for Rosenthal-Foley postcollision-interaction model, testing model predictions
05 p0885 A70-16556
- Energy dependence and threshold behavior of ion Ar lines excited in low-energy He ion-Ar collisions
11 p2087 A70-26402
- Li ion elastic scattering by He, calculating ground state interaction potential
16 p2956 A70-34310
- Atomic hydrogen 2s and 2p excitations by proton and He ion impact, considering ion-multipole interactions effect
21 p3852 A70-40598
- Thermodynamics and statistical physics of dense plasma with particle interaction energy exceeding kinetic energy, discussing three-component model phase equilibrium
23 p4229 A70-45073
- ION BEAMS**
Coaxial ion beams moving in opposite directions in LF magnetic field noting sliding instability development
03 p0530 A70-13061
- Charge exchange and electron loss measurements in steam target exposed to high energy hydrogen ions beam, using equilibrium fractions method
07 p1345 A70-20142
- Plasma beam welding of light metal and heat resistant alloys, discussing weld characteristics, beam I-V characteristics, etc
09 p1690 A70-22077
- Excitation of plasma ion-cyclotron oscillations by ion beam passing through neutral gas along magnetic field, noting radial stabilization
10 p1926 A70-25118
- Helium ion bombardment activated tungsten crystal surface migration using field emission microscopy
11 p2097 A70-25378
- Inhomogeneous ion beam plasma LF instability, showing oscillations amplitude maxima in radial density gradient regions
15 p2780 A70-32193
- Ion beam scattering at turbulent plasma oscillations in glass chamber containing low pressure air
16 p2958 A70-33253
- Low energy ion beam system for studying electron ejection from controlled metal surfaces, describing vacuum, ion source, lens and mass spectrometer components
18 p3261 A70-37086
- SERT 2 measurements for spacecraft and ion beam potential as function of thruster and orbital parameters, using hot wire emissive probes
[ALAA PAPER 70-1127] 20 p3691 A70-40218
- Excitation of plasma ion-cyclotron oscillations by ion beam passing through neutral gas along magnetic field, noting radial stabilization
20 p3685 A70-40511
- Ion beam scattering at turbulent plasma oscillations in glass chamber containing low pressure air
23 p4226 A70-44282
- Cs ion beam space charge and current neutralization by electron capture for partially ionized plasma formation, investigating longitudinal electrostatic wave excitation
24 p4385 A70-45465
- ION CHAMBERS**
U IONIZATION CHAMBERS
- ION CHARGE**
Metallic state basic parameters determined by electron transfer technique, discussing ion charges, electron and hole concentrations current scattering cross sections, etc
13 p2433 A70-28886
- ION CONCENTRATION**
Local contractures in K depolarized amphibian skeletal muscle fibers by intracellular injection or by microperfusion, discussing intracellular Ca ion concentration
02 p0234 A70-11728
- Vertical ion concentration profile in troposphere and stratosphere from ozone distribution satellite measurements using aeronomical reactions
02 p0291 A70-12389
- Release-recovery and dynamic stiffness phenomenon in frog heart muscle at various Ca ion concentrations and temperatures
02 p0241 A70-12771
- Plasmopause observations by ion spectrometer aboard OGO-5 vehicle for early orbits, obtaining O, He and H ion concentration profiles for geomagnetic parameter
06 p1059 A70-18546
- Expansion and deceleration of rocket-released artificial ion cloud in terms of snowplow expansion model and drag deceleration
07 p1271 A70-20159
- Nighttime concentration profiles of O, NO and molecular oxygen ions in ionosphere calculated from daytime values
10 p1874 A70-24428
- Diurnal variations of concentrations of ions and neutral components of NO, O and N in E region from analysis of chemical and photochemical processes
10 p1881 A70-24809
- Mesosphere payload to measure neutral gas density, positive and negative ions concentration and mobility in D region
13 p2393 A70-28682
- Shock wave multiple ionization in hydrogen with impurities, discussing intensity and duration effects on electron temperature profile and ion concentrations
13 p2388 A70-29369
- Electron temperatures and electron and negative ion concentrations in low pressure hydrocarbon flames
14 p2666 A70-31098
- Ion concentrations in premixed propane-air two dimensional laminar nozzle burner flames with seeding, discussing dependence on temperature and equivalence ratio
21 p3772 A70-40880

E region ion composition nighttime variations, examining nitrogen monoxide and O ion nonequilibrium concentrations by ionic-molecular reactions

23 p4189 A70-44074

F 1 region positive nitric oxide and oxygen ions concentrations ratio and conversion rates from rocket data and theoretical formulas

23 p4189 A70-44075

ION CURRENTS

NT ION BEAMS

Collisionless ions trajectories in plasma flowing about cylindrical probe calculated to determine probe ion current, ion density distribution in field and potential distribution

06 p1122 A70-18294

Collisions effects on ion saturation and electron currents in electron retarding region of cylindrical and spherical electrostatic probes, noting applicability over wide range

06 p1123 A70-18303

Current collected by cylindrical Langmuir probe immersed in rarefied collisionless plasma streaming with high velocity

06 p1124 A70-18307

Satellite-borne spectrometer for low energy ion measurement

10 p1874 A70-24314

Electron bombardment ion engine thrust variations, considering effects of electrode misalignment and ion current changes

12 p2291 A70-27808

Surface type airborne electrostatic probes in ambipolar diffusion flux measuring ion saturation current, discussing electrode contamination and temperature and ablation tests

13 p2412 A70-29967

Continuity equation plasma oscillation, discussing ion current waveform flowing from discharge and implications for periodic astrophysical phenomena

14 p2638 A70-30618

Gas kinetic pressure profile and mass density of propagating current sheet in argon pinch discharge, using piezoelectric transducer

14 p2624 A70-31041

Langmuir probe position-dependent ion flow effects on plasma density measurement in low pressure mercury discharge

17 p3083 A70-34995

Spacecraft sheath structure, potential and velocity effects on ion current measurements by traps and mass spectrometers

21 p3816 A70-41087

ION CYCLOTRON RADIATION

Ion-cyclotron oscillations in plasmas, considering plasma waves and oscillation characteristics

03 p0530 A70-13065

Fields and power transfer for electromagnetic waves in hot plasma calculated using Fourier integral and Fourier series methods

05 p0888 A70-16165

Pulsed grid modulation for ion cyclotron resonance spectrometer

07 p1286 A70-19974

Plasma ion cyclotron resonance acceleration in nonuniform magnetic field by RF field

07 p1353 A70-20229

Ion cyclotron whistler in Injun 5 satellite VHF radio noise data

09 p1638 A70-23499

Ion cyclotron resonance spectroscopy technique for determining electrons photodetachment energy from negative ions in gas phase

11 p1995 A70-26001

Collision effect on phenomena associated with ion cyclotron whistler formation, considering ionospheric day time model

13 p2468 A70-29933

Ion-molecule reactions produced in phosphine by ion cyclotron resonance

16 p2855 A70-33061

Ion cyclotron resonance spectroscopy for detecting trapped gaseous ions in analyzer cell, observing ion-molecule reactions

23 p4196 A70-44390

ION DENSITY [CONCENTRATION]

NT IONOSPHERIC ION DENSITY

NT MAGNETOSPHERIC ION DENSITY

NT MAGNETOSPHERIC PROTON DENSITY

NT PROTON DENSITY [CONCENTRATION]

Electron pressure and negative H ion population in late type dwarfs atmospheres by Ca I resonance line observation, noting non-LTE mechanism

01 p0191 A70-11351

Flame positive ion concentration measurements with Langmuir probes with mean free path smaller than probe diameter

02 p0397 A70-12019

Time and altitude induced variations in daytime NO and molecular and atomic oxygen ions

05 p0841 A70-16736

Kinetics of solar wind interaction with moon and planetary bodies using perturbation scheme to obtain ion density distribution on antisolal side

06 p1136 A70-18192

Collisionless ions trajectories in plasma flowing about cylindrical probe calculated to determine probe ion current, ion density distribution in field and potential distribution

06 p1122 A70-18294

Ion resonance instability in nonneutral plasmas, considering ions addition to low density electron cloud with low kinetic energy

07 p1352 A70-19991

Time dependent electrostatic probe theory relating measurements to internal properties of plasma, calculating free stream ion density from collected electric charge

07 p1289 A70-20466

OH, NH and amine radicals concentrations in flame gases from flat ammonia-oxygen-nitrogen flames measured as function of distance from burner surface

09 p1788 A70-22343

Ion density profile across shock in partially ionized gas measured in plasma jet wind tunnel for comparison with Rankine-Hugoniot relation

09 p1662 A70-23235

Spectroscopic technique measuring OH concentrations behind shock waves by measuring absorption of OH lines, using water cooled RF powered lamp

09 p1683 A70-23512

Hydrogen ion flux detected along earth magnetic force lines in Northern Hemisphere midlatitudes, determining flux magnitude

10 p1874 A70-24321

Auroral ion composition and chemistry from rocket-borne mass spectrometer measurements, investigating oxygen density and green line excitation

10 p1874 A70-24431

Flowing afterglow system below 300 K for rate constants of certain gases association with helium third body, investigating oxygen cluster ions formation and reactions

10 p1920 A70-25144

Coupled differential rate equations governing growth and decay of positive and negative ion and electron concentrations in afterglow with ambipolar diffusion and electron attachment

11 p2088 A70-25703

Mass spectrometric analysis of lunar material from soil vaporization products ion component by electron beam

11 p2119 A70-26800

Plasmasphere ion concentration measurements on-board Elektron 2 and 4 satellites, observing dependence on geomagnetic activity

12 p2295 A70-28260

Emissive probes for measuring plasma potentials over different ion density ranges on SERT spacecraft, detailing calibration and mechanical and electronic configurations

13 p2404 A70-28519

Thermal diffusion effects on F 2 region ion densities, deriving diffusion coefficients for partially ionized atomic oxygen plasma

13 p2398 A70-29232

Molecular oxygen positive ion density in upper ionosphere as function of photoionization, ambipolar diffusion velocity and altitude effect

13 p2399 A70-29233

Plasmapause position and density profile from ion concentration measurements by OGO-5, determining reaction to magnetic variations

13 p2482 A70-30074

Concentrations model of metallic atoms and ions in upper atmosphere with deposition from meteors, using diffusion equation

14 p2580 A70-31262

Positive ion composition in Cs plasma as function of normalized pressure

15 p2779 A70-31978

Weak ion concentration in stratosphere and mesosphere measured using accumulated capacity amplifier

18 p3257 A70-36179

Comet Morehouse CO ions lifetime and density from photometric analysis

18 p3313 A70-36324

Ion density and electron temperature variations as function of maximum electric field density in independently excited plasma column striations

19 p3475 A70-37552

Ozone effect on stratospheric electricity based on numerical calculations of ion densities

19 p3413 A70-38005

Anomalous electromagnetic wave absorption in collisionless plasma attributed to instability excitation causing ion density fluctuations

21 p3855 A70-40754

Hydrogen cluster beam discharges, determining transient plasma ion density from Stark broadening measurements of H beta line

23 p4228 A70-44939

ION DISTRIBUTION

Ionospheric molecular ion concentration vertical profile analysis for verifying neutral gas temperature maxima in connection with two ion production maxima

01 p0083 A70-11550

Quasi-linear ion oscillation theory for Maxwellian plasma, considering electron and ion distribution perturbations and energy transfer

02 p0346 A70-12105

Ionized gas height scale changes in polar ionosphere obtained assuming Chapman type ionization distribution

05 p0841 A70-16738

Anisotropic plasma instability in nonlinear stage, studying turbulent relaxation of ion distribution by quasi-linear theory

06 p1119 A70-17501

Electrostatic probe measurements of radial distributions of mean ion density in N and air wakes behind hypervelocity spheres compared with electron microwave measurements

06 p0975 A70-18197

Collisionless ions trajectories in plasma flowing about cylindrical probe calculated to determine probe ion current, ion density distribution in field and potential distribution

06 p1122 A70-18294

Anisotropic angular distribution of electrons and ions emitted from W targets irradiated by ruby laser pulses

08 p1512 A70-21211

Low energy ion spectrum and spatial distribution measurements in auroral zones by Cosmos-261 satellite spectrometer

08 p1492 A70-21798

Plasmapause irregular structure and position indicated by measured distributions of hydrogen and helium thermal positive ions in duskside magnetosphere

13 p2397 A70-29185

Ion effects on VLF propagation in earth-ionosphere waveguide during polar cap absorption events

16 p2859 A70-32933

Langmuir probe position-dependent ion flow effects on plasma density measurement in low pressure mercury discharge

17 p3083 A70-34995

Dynamo role in magnetospheric disturbances and ionospheric inhomogeneities, allowing for charged particle concentration height dependence

23 p4237 A70-44059

Al substituted YIG crystal chemistry by cation distribution determination as function of Al concentration using Mossbauer spectroscopy

24 p4392 A70-46364

ION EMISSION

Foil decarbonization process monitored by mass spectrometry of secondary carbon ion emission

12 p2254 A70-27311

Laser induced ion emission triggering of spark gaps, distinguishing channels due to electrons and ions by high speed shadowgraph technique

13 p2426 A70-28797

Ba II emission lines in solar chromosphere, examining excitation and ionization equilibrium and resonance line intensities by eclipse observations

18 p3317 A70-37010

Thermal release profiles and retention coefficients of injected argon ions for silicates and iron simulating meteoritic materials

19 p3474 A70-38601

Solar equatorial limb brightening of far UV resonance lines of lithium-like N V, O VI, Ne VIII, Mg X and Si XIII ions, interpreting oso-4 data with coronal model

21 p3924 A70-42185

Solar far UV limb brightening of C III, N III, N IV, O III, O IV and Si IV lines in chromospheric-corona transition region, correcting coronal model for spicule effects

21 p3925 A70-42186

Secondary emission detector using linear signal to measure nonrepetitive microsecond ion bursts

23 p4197 A70-44475

Ion source emitter plasma column generated by electron beam injection through gas filled chamber, compensating ion space charge with fast discharge electrons

24 p4385 A70-45451

ION ENGINES

NT CESIUM ENGINES

Chemical engineering problems of resistojets, pulsed plasma, ion bombardment and colloid thrusters

01 p0166 A70-10974

Ion thruster with hollow cathode electron source, discussing operation principles, experimental characteristics, etc

03 p0552 A70-14150

Optimal control for thermionic nuclear reactor space power plant utilizing state variable feedback with limited input simplifying computation

03 p0461 A70-14342

Hot cathode reflex discharges investigated to improve ion generation efficiency in space ion thrusters

03 p0536 A70-14368

Electrostatic charged particle acceleration and ion thruster function in geostationary satellite station-keeping and attitude control, orbital transfer and drag compensation

[ONERA-TP-764]

04 p0735 A70-14934

Optimal outlet velocities of charged particles for spacecraft electrostatic thrusters
[DFVLR-SONDDR-28] 04 p0735 A70-15173

Pulsed plasma and ion microthrusters providing satellite attitude and position control
05 p0896 A70-16119

Cathode emission from hollow cathode controlled by variable magnetic field to ensure proper I-V characteristics for efficient ion generation in thrusters
[AIAA PAPER 70-175] 06 p1131 A70-18032

Experimental data to define idealized thruster discharge model power efficiency limits, computing probabilities for excitation, ionization, propellant escape and wall interception of ions
[AIAA PAPER 70-177] 06 p1131 A70-18034

Optical spectra of discharge chambers of electron bombardment mercury ion thrusters with hollow and oxide cathodes
[AIAA PAPER 70-176] 06 p1132 A70-18157

30 cm diameter mercury bombardment low impulse thruster development for potential space applications, discussing performance and control
[AIAA PAPER 69-238] 07 p1365 A70-19704

Optimal outlet velocities of charged particles for spacecraft electrostatic thrusters
09 p1744 A70-23428

Kaufman thruster with predominant radial field, noting electron mobility across ion extraction screen and advantages of uniform plasma distribution
[AIAA PAPER 69-259] 11 p2102 A70-26120

Space charge sheath electric thruster principles, construction and performance using laboratory test model
[AIAA PAPER 69-282] 11 p2102 A70-26121

Mercury bombardment ion thruster life test in space environment onboard space electric rocket test /SERT/ satellite, describing passive satellite thermal control system design
11 p2127 A70-26606

Electron bombardment ion engine thrust variations, considering effects of electrode misalignment and ion current changes
12 p2291 A70-27808

Causes and magnitudes of thrust misalignment of Kaufman type electron bombardment ion thruster
[AIAA PAPER 69-303] 13 p2473 A70-28506

Ion thrusters and sources in space propulsion, discussing power supply level, efficiency and service lifetime
[ONERA-TP-739] 15 p2787 A70-31808

Discharge chamber plasma processes in electron bombardment ion thrusters, considering factors affecting thruster performance
[AIAA PAPER 69-494] 15 p2791 A70-32501

Submillipound mercury electron bombardment ion thruster efficiency, noting cathode pole piece, baffle position and geometry influence on ion chamber performance
[AIAA PAPER 70-616] 16 p2969 A70-33612

Power conditioning and control system prototype for Mercury spacecraft ion thruster, describing supply subsystems, circuit design, component selection and reliability
[AIAA PAPER 70-649] 16 p2970 A70-33615

Digital computer simulation and analysis of control loops for ion thruster control
[AIAA PAPER 69-239] 17 p3149 A70-35654

High voltage solar arrays for ion engines, discussing spacecraft propulsion, electric generation, insulation integrity, cell degradation and current leakage
[AIAA PAPER 70-1138] 20 p3567 A70-40211

Power conditioning system for Hg ion thruster on SERT 2 spacecraft, considering performance, design, control circuits and arcing
[AIAA PAPER 70-1129] 20 p3568 A70-40216

SERT 2 spacecraft surface contamination by Hg ion thruster effluents, using solar cell sensors
[AIAA PAPER 70-1128] 20 p3690 A70-40217

SERT 2 measurements for spacecraft and ion beam potential as function of thruster and orbital parameters, using hot wire emissive probes
[AIAA PAPER 70-1127] 20 p3691 A70-40218

In-flight thrust measurement methods on SERT 2 ion thrusters, using accelerometer, electrical parameters and orbit change
[AIAA PAPER 70-1126] 20 p3691 A70-40219

SERT 2 spacecraft ion thruster ground tests and flight operation, tabulating performance data
[AIAA PAPER 70-1125] 20 p3691 A70-40220

SERT 2 for testing ion thruster reliability and operational characteristics, discussing design and mission objectives
[AIAA PAPER 70-1124] 20 p3716 A70-40221

Thermionic reactor program for electric propulsion, considering internally fueled flashlight concept
[AIAA PAPER 70-1108] 20 p3568 A70-40235

RF ion source for electrostatic spacecraft propulsion, discussing RIT-10 performance optimization and development
[AIAA PAPER 70-1102] 20 p3692 A70-40236

Kaufman ion thruster providing electric propulsion for satellite spiraling from parking to synchronous orbit
[AIAA PAPER 70-1101] 20 p3692 A70-40237

Electron bombardment Hg thruster with divergent magnetic fields, investigating performance dependence on configuration and propellant utilizations
[AIAA PAPER 70-1092] 20 p3692 A70-40243

Parameters influence on mercury hollow cathode neutralizers for Kaufman ion thruster
[AIAA PAPER 70-1090] 20 p3693 A70-40245

Mercury electron bombardment thruster, measuring effect of geometry and magnetic field inside pole piece region on discharge losses and propulsion efficiency
[AIAA PAPER 70-1088] 20 p3693 A70-40247

Small-orifice hollow cathode discharge properties in electron bombardment ion thrusters, using vaporized mercury propellant
[AIAA PAPER 70-1087] 20 p3693 A70-40248

Thermionic reactor electric propulsion for unmanned outer planets exploration, discussing spacecraft design, launch vehicle, weight factors, etc
[AIAA PAPER 70-1122] 20 p3717 A70-40524

Optimal control of composite spacecraft propulsion system incorporating high thrust-weight ratio chemical engine and low thrust ion engine
21 p3865 A70-40831

Low specific impulse hollow cathode mercury thruster for deep space electric propulsion, using SERT 2 configuration
[AIAA PAPER 70-1099] 21 p3866 A70-40893

Stress tolerant thyristor and transistor switching electronic converter for ion propulsion engine
[AIAA PAPER 70-1157] 21 p3866 A70-40901

Space compatible flight prototype ion engine power conditioning system design for Hg thruster using oxide cathode
21 p3867 A70-41006

Power conditioning requirements and specifications for spacecraft electric propulsion ion thruster
21 p3758 A70-41209

Integrated circuit requirements for space power conditioning equipment for ion thrusters
21 p3797 A70-41211

Solid state switches for operating ion thrusters directly from high voltage solar cells, noting satellite weight saving
21 p3798 A70-41215

Integrated circuits for control and telemetry functions in oxide cathode ion thruster power conditioning system operating from solar panel
21 p3798 A70-41216

Nuclear fusion reactor spacecraft propulsion system using ion rocket with charged deuterium nuclei fuel, emphasizing nuclear plasma confinement problem
21 p3867 A70-41498

Mars and Venus orbiter spacecraft electric propulsion system, discussing Hg electron bombardment ion engine
[AIAA PAPER 70-1154] 21 p3868 A70-41786

Liquid metal /mercury/ cathode thruster system for operation at reduced beam voltages, discussing design and performance
[AIAA PAPER 70-1103] 21 p3868 A70-41788

Thrust vector measuring device using floating suspension system for ion engines, detecting vertical tilt and horizontal drifts of floating platform
[AIAA PAPER 70-1104] 21 p3805 A70-41789

Thermionic reactors for spacecraft auxiliary power and electric propulsion, discussing in-core conversion system and diodes
22 p4071 A70-43191

Jantar 1 automatic ionospheric laboratory flight tests results, investigating Ar ion engine performance
23 p4264 A70-45009

Thermonuclear spacecraft propulsion, comparing X ray pumped gas laser and ion drive systems
24 p4377 A70-46211

ION EXCHANGE MEMBRANE ELECTROLYTES
Polyelectrolyte complexes formed from combined water soluble and negatively charged polyelectrolytes
06 p1005 A70-17513

ION EXCHANGE RESINS
Activated carbons and ion exchange resins bactericidal action as function of silver coating techniques
04 p0641 A70-14574

Peptides removal from Merrifield solid phase by transesterification with anion exchange resin
06 p1003 A70-17154

Carbon dioxide absorption from gas streams by weak base ion exchange resins
18 p3226 A70-36767

ION EXCHANGING
Ion exchange entropy and enthalpy functions calculated from experimental constants and temperature dependence data
06 p1177 A70-17837

Cellulose ion exchanger palladium catalysts preparation and applications in asymmetric hydrogenation reactions
17 p3042 A70-35125

Chloride ion shift of respiration occurring between plasma and erythrocytes as function of carbon dioxide, using rapid filtration method
19 p3364 A70-38366

ION EXTRACTION

Kaufman thruster performance dependence on transmission of ion extraction optics and magnetic field shape
[AIAA PAPER 69-257] 07 p1365 A70-19705

Discharge effects on LF oscillations and ion extraction in hot cathode Penning plasma
13 p2463 A70-29370

Electric field intensity and extension of space charge sheath for ion extraction from nitrogen plasma
14 p2622 A70-30661

Positive ions energy dispersion effused from RF plasma, presenting ion extraction model for plasma sheath system and equivalent circuit
20 p3678 A70-39608

SERT 2 Hg thrust ion extraction, loss, production and energy balance within ionization chamber
[AIAA PAPER 70-1091] 20 p3693 A70-40244

Stationary hydrogen RF plasma, using quadrupole mass analyzer for ion composition and extraction study
22 p4078 A70-42363

Electrostatic potential distribution and ion trajectories in extraction gage design by computer
23 p4198 A70-44873

ION GAGES
U IONIZATION GAGES
ION IMPACT
Secondary electron emission coefficients and energy distributions to investigate interaction between positive ions and Cu/Be dynodes of electron multiplier
07 p1344 A70-20127

Impact ionization effects in electric field domain on stability of current-voltage characteristics of Gunn diodes
11 p2020 A70-26813

Uranium ion impact ejection and electronic excitation of thin foil particles, observing optical spectra of Be, carbon and Al atoms and ions
20 p3674 A70-39135

Atomic hydrogen 2s and 2p excitations by proton and He ion impact, considering ion-multipole interactions effect
21 p3852 A70-40598

Impact ionization effects in electric field domain on stability of current-voltage characteristics of Gunn diodes
24 p4317 A70-45185

Energy loss spectra and collision cross sections for positive ion impact on molecular nitrogen, noting Lyman-Birge-Hopfield system excitation
24 p4381 A70-45599

ION INJECTION
Hydrodynamic stability of high purity insulating incompressible fluid subjected to unipolar ion injection
01 p0151 A70-10669

Critical conditions for hydrodynamic stability of incompressible nonconducting fluids subjected to unipolar injection, establishing variational principle leading to characteristic relation
01 p0152 A70-10672

Plasma injection occurrence as function of temperature in n-InSb subjected to low electric field strengths and fitted with Ohmic contacts
01 p0159 A70-11176

Ion implantation for reducing space charge buildup in thermal oxides on silicon exposed to ionizing radiation
04 p0731 A70-14743

N-type layer formation with ion implanted nitrogen or Sb in p-type alpha-SiC, evaluating electrical characteristics, discussing junction devices formed
04 p0732 A70-15685

Electron clouds injection and containment by magnetic field in toroidal vacuum chamber, studying causes of cloud instability
07 p1353 A70-19994

Semiconductor diamond films electrical conductivity obtained by injecting various ions during isochronal stepwise annealing, studying activation energy values
12 p2286 A70-27479

Hall constant and carrier mobility in semiconductor diamond films doped by boron ion injection, observing temperature dependence of mobility
12 p2287 A70-27480

Ion implantation doping for MOS devices, discussing improved HF performance, integrated circuitry and threshold voltage selection
16 p2872 A70-33054

Plasma injection and confinement in closed quadrupole magnetic trap
22 p4083 A70-43388

ION IRRADIATION
Low energy ions incidence angle effects on secondary electron emission from molybdenum cylinders in low pressure plasma, noting role of Langmuir sheath around target
07 p1355 A70-20356

Laboratory irradiation of rock samples for solar wind flux effects on IR reflectivity of lunar rocks
08 p1579 A70-21565

D-pattern changes of helium ions irradiated polycrystalline Mo and Ni specimens, observing line splitting
09 p1707 A70-23197

Ion-implanted GaAs junction diodes anneal behavior and defect nature 11 p2098 A70-26391

Low resistivity films synthesized on seminsulating GaAs by xenon, krypton, selenium and zinc ions bombardment 12 p2286 A70-27364

Radiation defects in Ge single crystals surface layers caused by low energy bombardment with He ions 12 p2287 A70-27486

B and P ions bombardment techniques for Si doping of multilayered transistor structures 19 p3385 A70-37268

Hybrid ion implanted diffused emitter n-p-n transistor two dimensional doping profiles, considering emitter oxide window edge shape effect 22 p3997 A70-42924

ION MICROSCOPES

He and Ne adsorption and desorption on field ion microscope tip, determining minimum required field strengths of gas films at different temperatures 05 p0891 A70-15975

Optical transformation of field ion micrographs providing orthographic, gnomonic projections and perspective images of hemispheric metal surface 14 p2584 A70-30506

Field-ion microscope image formation, determining periodic surface potential variation effects on high field tunneling 21 p3862 A70-40974

Various Frank loops in quenched and annealed Pt, examining dislocations with field ion microscopy and computer simulated approximations 23 p4230 A70-44758

ION MOTION

F region ion velocity measurements by Thompson scatter probe, deducing neutral winds diurnal and seasonal variations in thermosphere 01 p0078 A70-11214

Rarefied ionospheric plasma flow around rockets and satellites, studying electric field effect on ion motion by kinetic equation and similarity law 04 p0680 A70-15188

Kinetic equation describing dynamics of inhomogeneous cloud of fast electrons and ions trapped in earth magnetic field 07 p1276 A70-20429

Drift dissipative instability of weakly ionized plasma, considering ion motion along magnetic lines in dispersion equation 10 p1923 A70-24407

Ion mobility estimates for air constituents, considering ion-neutral elastic and resonant charge exchange collisions 10 p1919 A70-24427

F 2 field-aligned ion velocity measurement compared with theoretical results, discussing difference at sunspot minimum and daytime ion velocity-plasma loss relation 10 p1881 A70-24815

Radiation emission and transfer in unsteady outer space plasmas, discussing turbulence mechanisms involving electron and ion motion, relativistic and non-relativistic electron beams, etc 12 p2305 A70-27854

Active and passive ion transport mechanisms in excitable animal cell maintaining constant membrane polarization 13 p2352 A70-29351

Plasma sheath boundary as closed Mach surface, demonstrating Bohm criterion application to ion velocity component normal to sheath edge 13 p2464 A70-29465

Spherical ionized cloud movement in ionosphere uniform anisotropic plasma as function of electric field applied to rocket released ion clouds 15 p2726 A70-31867

Ion motion neglecting conditions for radio waves in plasma based on Ohms law uncoupling from momentum transfer 16 p2957 A70-32980

Ions acceleration and motion in corona and solar wind, discussing equation derivation, He abundance, non-Maxwellian distribution functions, minimum flux estimation, etc 17 p3152 A70-35870

Maxwell-Wagner migrational polarization resulting from free ions or electrons drift in dielectrics and semiconductors, considering relaxation time 18 p3298 A70-36595

Supersonic flow of rarefied plasma around plane bodies, allowing for electric field effect on ion motion 19 p3351 A70-37302

Artificial ion clouds motion in magnetosphere, using MHD model 19 p3414 A70-38378

Coupling constant and binary collision expansions for ion motion in plasma line broadening 21 p3855 A70-40722

Satellite-borne sensor for ionospheric ions velocity measurement, describing design and principles of operation 21 p3813 A70-40834

Ionospheric ions drift velocity horizontal and vertical components distribution, using satellite-borne sensor 21 p3813 A70-40835

Rarefied ionospheric plasma flow around rockets and satellites, studying electric field effect on ion motion by kinetic equation and similarity law 21 p3819 A70-41169

Turtle bladders isolated mucosal and serosal fractions histological and physiological properties, discussing ion transport and oxygen consumption 21 p3762 A70-41224

Electron and ion transport in cesium plasma for thermionic and MHD energy converters 21 p3859 A70-41912

Ion and electron ambipolar velocity distribution near plasma sheath boundary in collisional positive column 22 p4080 A70-42542

ION OSCILLATION

U PLASMA OSCILLATIONS

ION PROBES

Response variation and detection efficiency of funnelled channel electron multipliers for low energy protons and Ar ions 06 p1021 A70-17623

Multiple electrode probe characteristics in rarefied plasma flow created by ion source, noting electrode potential role 06 p1064 A70-17886

Molecular ion concentrations, using flat probe collector trap on Cosmos 5 satellite at 200-300 km 07 p1276 A70-20421

Current-voltage relation for ion collection spherical DC probe at high ambient gas pressure 16 p2899 A70-32929

Plasma space potential measurement with heavy ion beam probe using cesium gun and electrostatic energy analyzer 16 p2960 A70-34339

Ion orientation technique based on counterflow sensing in earth upper atmosphere, discussing accuracy 21 p3927 A70-40844

Electrostatic potential distribution and ion trajectories in extraction gage design by computer 23 p4198 A70-44873

ION PRODUCTION RATES

Disturbances effect in Langmuir layer at cathode on ionization rate in arc discharge, estimating ion density and width of nonequilibrium ionization region 01 p0150 A70-10171

Ionospheric molecular ion concentration vertical profile analysis for verifying neutral gas temperature maxima in connection with two ion production maxima 01 p0083 A70-11550

Triggered spark source for multiply charged carbon ions applied to collision cross section measurements 02 p0303 A70-12747

Hot cathode reflex discharges investigated to improve ion generation efficiency in space ion thrusters 03 p0536 A70-14368

Reactor gamma in-pile effects on thermionic diodes simulated in electron accelerator, noting ion production insufficient to support saturation currents 04 p0717 A70-14948

Nitrogen ionization rate increase by admixing neutral molecules of electronically excited nitrogen, noting nitrogen decay controlled by spontaneous radiation and wall collisions 05 p0884 A70-15918

Magnetic disturbance associated with E layer east-west electric current calculated in terms of ionization production and loss 05 p0838 A70-16282

Heavy particle impact ionization in hot gases analyzed for ionization rates relationships 06 p1113 A70-18278

Ion production cross sections determined for alkali atoms and bromine molecules collisions, noting charge transfer 07 p1345 A70-20138

Production rate constants for hydrated positive ions in photoionized nitric oxide-water afterglows 07 p1346 A70-20245

Auroral electron energy distribution and ionization rates characteristics based on satellite and rocket measurements 08 p1487 A70-20642

Molecular cesium ion production by arc discharge in inhomogeneous cesium plasma, describing probable reaction mechanism 08 p1551 A70-20849

Thermal and nonthermal plasmas for ion production, discussing gas pressure, voltage and discharge current effects on electron temperature 09 p1734 A70-22037

Disturbances effect in Langmuir layer at cathode on ionization rate in arc discharge, estimating ion density and width of nonequilibrium ionization region 10 p1925 A70-25017

N and O ions electron impact ionization rates calculated from approximate cross sections 12 p2275 A70-27173

Penumbra and geomagnetic threshold effects on ionospheric electron production by primary cosmic rays 12 p2296 A70-28366

Ionization equilibria and ionization and recombination rates for Fe and Ni ions, discussing dielectronic recombination 14 p2631 A70-30727

F 1 layer formation and ion production rates related to F layer stratification, atomic oxygen, zenith angle and solar activity periods 15 p2730 A70-32086

Energetic ion production by giant pulse lasers measured on Al and Au foil targets 15 p2777 A70-32333

Equatorial F 2 region response during solar eclipse of 7 March 1970, emphasizing ionization production and loss, transport processes and electron temperature 16 p2897 A70-33826

Ionic collision processes in water vapor by high pressure single source mass spectrometry, examining reaction rates as function of primary ion translational energy 16 p2857 A70-34004

Nighttime E region molecular ion production rate estimation, taking into account windshear effect 18 p3245 A70-36022

Ionization rate experimental profiles during maximum solar activity compared with calculations, showing additional source of ionization in E region 19 p3409 A70-37322

Helium plasma ionization rate in positive column with DC discharge, considering gas pressure, electron density, electric field strength and plasma radius 19 p3476 A70-37559

Positive ion and electron production in H atom collisions with atomic and molecular gases, deriving ionization cross sections 20 p3675 A70-39605

Upper atmosphere ammonia release experiments testing hypothetical mechanisms of radicals and ions formation in comets 20 p3708 A70-39962

SERT 2 Hg thrust ion extraction, loss, production and energy balance within ionization chamber [AIAA PAPER 70-1091] 20 p3693 A70-40244

Low voltage arc nonequilibrium ionization rate, taking into account atom-electron collisions 20 p3684 A70-40389

Altitude spectrum of ion formation in interaction of proton flux with atmosphere, using Bragg dissipation function 21 p3878 A70-40846

Plasma sheath boundary in anisotropic plasma taking into account ionization rate, momentum transferring collisions and finite ion temperature 22 p4077 A70-42291

Ionospheric bremsstrahlung X ray flux and ionization rate, considering electron-atom and electron-ion collisions as function of altitude 22 p4095 A70-43293

Ionization rate and electron density height profiles for typical auroral proton energy spectrum, noting radio noise absorption, sporadic E and radio aurora 22 p4024 A70-43307

Ionization rates in auroras detected by atomic oxygen and nitrogen lines 22 p4024 A70-43308

Bremsstrahlung X rays caused by energetic electrons precipitating into upper atmosphere, calculating photoionization rate as function of altitude 22 p4096 A70-43310

E region additional ionization source during solar activity maximum, analyzing ion production function and electron concentration 23 p4190 A70-44077

Autoionization theory application to partial solar photoionization cross sections for production rates of vibrationally excited positive molecular oxygen ions 23 p4222 A70-44785

ION PROPULSION

Solar photoelectric power ion propelled probe of asteroid region, describing design and mission planning [AIAA PAPER 69-1105] 02 p0382 A70-12529

Ion thruster with hollow cathode electron source, discussing operation principles, experimental characteristics, etc 03 p0552 A70-14150

TV data transmitted by Iantars series automatic ionospheric laboratories released by geophysical rockets at 100-400 km, discussing plasma-ion propulsion system performance 04 p0735 A70-14936

Suboptimal stabilization of axially symmetric satellite angular velocity, using ionic propulsion system as control torque 06 p1155 A70-17554

Quasi-steady coaxial MPD arcs characteristics, studying Ar ion velocities, electrostatic ion acceleration mechanism and arc voltage gradient [AIAA PAPER 70-165] 06 p1132 A70-18208

Thrust vectoring of multipaperture Cc electron bombardment ion engines, determining thrust deflection limit by accelerator current rise 11 p2102 A70-26124

- Suboptimal satellite attitude control using ionic microthrusters operating by large modulated amplitude impulses caused by electrostatic deflection of beam 13 p2501 A70-28426
- Switch controlled resonant current pulse modulation for power converters, noting integration with spacecraft ion propulsion engine 14 p2535 A70-31324
- Ion electric propulsion system coupled with small booster for geostationary orbit realization 15 p2790 A70-32276
- Hollow cathode ion thruster and lightweight power conditioner of solar-electric propulsion system for unmanned deep space probes [ALAA PAPER 70-648] 16 p2966 A70-33546
- Optimum low thrust ion propelled interplanetary trajectory design using two step Chebyshev method 17 p3167 A70-35232
- Communication satellites low thrust transfer to synchronous orbit by two-stage operation using hydrogen resistojets and Hg ion motors [ALAA PAPER 70-1116] 20 p3691 A70-40227
- RF ion source for electrostatic spacecraft propulsion, discussing RIT-10 performance optimization and development [ALAA PAPER 70-1102] 20 p3692 A70-40236
- Ion thrust vectoring systems for satellite attitude control and stationkeeping, discussing deflection techniques [ALAA PAPER 70-1150] 21 p3868 A70-41783
- Three axis attitude ion thrust vector control mechanism for solar electric propulsion spacecraft, discussing gimbal and translation actuators, array and cabling [ALAA PAPER 70-1156] 21 p3759 A70-41784
- Low thrust trajectory transfer from low to synchronous orbit, examining hydrogen resistance jet and mercury bombardment ion thruster 22 p4089 A70-42487
- Solar-electric ion propulsion mission analysis and spacecraft designs, discussing thruster, power conditioning, propellant storage and feed, etc 23 p4234 A70-44631
- Ion micropropulsion for geostationary satellites time optimal attitude control 23 p4261 A70-44669
- ION PUMPS**
- Superhigh vacuum pump with orbitron ionizer, describing construction and ionization 16 p2843 A70-33214
- Aerospace coldness and vacuum simulation, discussing uses of cryogenic, titanium sublimation, ion and molecular pumps 19 p3396 A70-37462
- Residual atmosphere analysis and application to ion pumping on Al alloy high pressure chamber of differential vacuum system 19 p3434 A70-37464
- Monovalent cations active transport model in mitochondria, noting membrane potential as driving force and ion pump omission 24 p4304 A70-46230
- ION RECOMBINATION**
- Stimulated emission of RF recombination lines from ionized atoms in H I regions 02 p0372 A70-12251
- Positive ion concentration profiles in lower nighttime midlatitude ionosphere calculated from corpuscular radiation measurements and ion recombination constants 04 p0738 A70-14436
- Neutral gas ionization and ion recombination effect on electrodynamic plasma acceleration in coaxial and flat electrode accelerators 04 p0728 A70-15222
- Dissociative recombination coefficient ratio between O ion and nitrogen oxide ion in ionosphere using rocket data 04 p0683 A70-15743
- Excitation, ionization and recombination rates for charged ions during collisions with electrons in solar corona assuming Maxwellian electron distribution 07 p1384 A70-19409
- Variational model of collisional-radiative recombination of atomic ions in hydrogen and alkali plasmas 09 p1735 A70-22828
- H II region properties from non-LTE analysis of alpha, beta, gamma, delta and epsilon radio recombination line data, determining electron temperature and concentrations 10 p1945 A70-24959
- E and F layer ion chemistry dependence on ion-neutral reactions and dissociative recombination 12 p2223 A70-27220
- Positive ion concentration profiles in lower nighttime midlatitude ionosphere calculated from corpuscular radiation measurements and ion recombination constants 13 p2475 A70-28461
- Laser emission generation on sodium lines, studying pulsed discharge mechanism involving ion recombination in sodium vapor and hydrogen mixture 13 p2425 A70-28600

- Ionization equilibria and ionization and recombination rates for Fe and Ni ions, discussing dielectronic recombination 14 p2631 A70-30727
- Dissociative recombination coefficient ratio between O ion and nitrogen oxide ion in ionosphere using rocket data 14 p2576 A70-30827
- UV oxygen nightglow observation by OGO-4, examining ion-ion neutralization and radiative recombination production mechanisms 20 p3621 A70-39344

ION SCATTERING

- Differential elastic scattering cross section of Ar nozzle beam in nitrogen considered with rainbow effect in determining intermolecular potential well depth 02 p0344 A70-12722
- Magnetic disturbance associated with E layer east-west electric current calculated in terms of ionization production and loss 05 p0838 A70-16282
- Energy distribution of positive Ar ions scattered from thermal diatomic D noting inelastic collisions 07 p1339 A70-20056
- Free-free opacity of stellar interiors by ion correlations applied to red giant degenerate cores 09 p1755 A70-22510
- Cross sections for electron impact excitation of positive helium and hydrogen ions, using non-relativistic Coulomb-Born-Oppenheimer reactance matrices 13 p2455 A70-28988
- Ionized impurity scattering in polar semiconductors by strong electric fields, using energy and momentum conservation equations in electron temperature approximation 13 p2472 A70-30017
- Ion line Stark broadening, considering electron-ion quadrupole excitation and electron resonant scattering 14 p2620 A70-31376
- Ion beam scattering at turbulent plasma oscillations in glass chamber containing low pressure air 16 p2958 A70-33253
- Li ion elastic scattering by He, calculating ground state interaction potential 16 p2956 A70-34310
- Ion beam scattering at turbulent plasma oscillations in glass chamber containing low pressure air 23 p4226 A70-44282

ION SHEATHS

- Extraterrestrial electron density precision measurement using HF impedance probe with guard ring to remove ion sheath effects 10 p1892 A70-25255
- Space charge sheath electric thruster principles, construction and performance using laboratory test model [ALAA PAPER 69-282] 11 p2102 A70-26121
- Cylindrical antenna admittance during immersion in ionospheric plasma, noting influence of ion sheath and plasma anisotropy 13 p2371 A70-29922
- Electron emission effects on ion sheath and probe characteristics in continuum argon plasma 17 p3083 A70-34994
- Slow wave propagation on conducting surface separated from plasma by ion sheath, observing resonances on cylindrical antenna 22 p4082 A70-43238

ION SOURCES

- NT PLASMATRONS**
- Ar X and Ar XIV identification in solar corona and unidentified coronal lines origin, discussing Fe and Ni transitions from metastable levels 03 p0571 A70-13598
- Ionic collision processes in nitrogen and oxygen mixtures in mass spectrometer ion source 04 p0646 A70-14700
- Electrohydrodynamic /EHD/ technique for generating ions from liquid metals by using electrostatic forces to overcome surface tension forces for field emission of ions 06 p1125 A70-18610
- Venusian ionosphere thermal protons and/or deuterons source observed by radio occultation method, suggesting dominance at high altitudes 10 p1938 A70-24068
- Ion thrusters and sources in space propulsion, discussing power supply level, efficiency and service lifetime [ONERA-TP-739] 15 p2787 A70-31808
- Ionspheric spacecraft flight conditions simulation in vacuum chamber, discussing low energy ion sources 15 p2717 A70-31814
- Negative hydrogen ion balance in high intensity plasma source, measuring flux as function of discharge current 15 p2780 A70-32195
- Ionization rate experimental profiles during maximum solar activity compared with calculations, showing additional source of ionization in E region 19 p3409 A70-37322
- Energy distribution of ions transversal to magnetic field in argon plasma source with oscillating electrons,

showing dependence on induction and discharge current 19 p3482 A70-38956

Lower ionosphere electron concentration space-time variations relation to ionization source intensity fluctuations based on rocket observations and ground sounding data 23 p4190 A70-44079

Ion source emitter plasma column generated by electron beam injection through gas filled chamber, compensating ion space charge with fast discharge electrons 24 p4385 A70-45451

ION TEMPERATURE

- Ionspheric measurements of electron density, electron and ion temperature profiles from strength of incoherent radio wave scattering 01 p0082 A70-11530
- Sputtering yield of amorphous and polycrystalline targets bombarded by energetic ions or recoil atoms calculated by integrodifferential equations derived from Boltzmann transport equation 02 p0343 A70-11885
- Ionization and electron temperature dependence on shock wave structure in partially ionized hydrogen plasma allowing for luminescent energy losses 03 p0465 A70-13060
- Radar Thomson backscatter observations of ion temperature and ion-neutral collision frequency used to investigate reversible heating in E region 03 p0477 A70-13988
- Quasi-linear mode coupling in confined hot-ion Penning discharge plasma, discussing externally imposed excitation and internally generated oscillations 05 p0888 A70-16166
- Temperature measurements in magnetic beach of steady state deuterium plasma, confirming ion-cyclotron waves thermalization 05 p0884 A70-16167
- HF drift instabilities of plasma with nonuniform magnetic field, studying anomalous ion heating and resistance in Zeta installations 06 p1119 A70-17502
- Solar wind temperature, using distribution function for solar wind ions in anisotropic Maxwell distribution form 06 p1135 A70-17895
- Waves and differential equations for electromagnetic field in nonuniform magnetized plasma described for all orders in electron and ion temperature 07 p1350 A70-19823
- Aerodynamic coefficients for axisymmetric bodies moving in rarefied plasma, calculating corrections for thermal ion velocities 08 p1432 A70-21089
- Plasma temperatures in magnetosphere, investigating ion energy balance, electron heating and agreement with rocket measurements 08 p1489 A70-21381
- Electron-to-ion temperature ratio determined from ion and plasma line components of radar Thomson scatter signal from ionosphere 08 p1489 A70-21389
- Turbulent diffusion and ion heating in plasmas in presence of current instability 08 p1554 A70-21813
- Stationary collisionless shock waves in hot initial plasma produced by theta pinch discharge, discussing magnetic field, density and electron temperature profiles 10 p1924 A70-24697
- Interplanetary medium kinetic equations to limit ion temperature anisotropies in solar wind, discussing Coulomb collisions and ion-cyclotron instability effects 11 p2105 A70-26561
- Ion temperature gradient along magnetic field lines in outer plasmasphere by thermal diffusion equations compared with electron temperature observations 11 p2047 A70-26568
- Ionspheric electron and ion temperatures information extraction from Doppler broadening of radar returns based on correlation measurement 12 p2183 A70-27163
- Ionspheric electron density, electron and ion temperature profiles measurements, comparing relative merits of radio-rocket ground-based radar and satellite methods 12 p2223 A70-27277
- Drift instability and ion heating by high amplitude magnetosonic wave in plasma waveguide in constant magnetic field 13 p2463 A70-29381
- Ionic temperature difference from Arecibo data indicated in Injun 3 and Alouette 1 sonograms of proton whistlers propagation time, noting Doppler shift role 13 p2372 A70-29928
- Electron and positive ion velocity distributions measurements near earth bow shock by electrostatic analyzer on Vela 4B satellite 13 p2481 A70-30068
- Radial ion temperature distribution in hydrogen arc within axial magnetic field measured spectroscopically by thermal Doppler effect 14 p2621 A70-30657

Ion temperature sensitive end effect in long cylindrical Langmuir probe response in high speed collisionless plasma flow at ionospheric satellite conditions

14 p2577 A70-31038

Electron and ion temperature and electron density relationship in F region during sunspot maximum, using incoherent scatter experiment

14 p2581 A70-31271

Time resolved measurements of ion and electron temperature in pulsed Ar ion laser discharge, observing heating

17 p3108 A70-35907

Hydrogen, He and oxygen ion density, and ion and electron temperatures in upper ionosphere fromOGO 4 observations

18 p3244 A70-36016

Upper atmospheric ions kinetic temperatures based on chromatic broadening of mass spectral lines

18 p3252 A70-36985

Energy levels and spectral broadening of neodymium ions in laser glass from fluorescence and absorption spectra

19 p3445 A70-37760

Ion temperatures and incident intensities in plasmas produced by solid target irradiation with Q switched laser beam

19 p3479 A70-37765

Ion heating during plasma instability due to interaction with electron beam in mirror magnetic trap

20 p3678 A70-39598

Nonlinear resonant heating in magneto-plasma, calculating energy absorption by ions and plasma wave amplitude

20 p3685 A70-40467

Temporal and spatial origin of hot ions in turbulent plasma heating, using particle analysis

21 p3855 A70-40824

F region synoptic electron densities and electron and ion temperatures from Thomson scatter radar data

21 p3816 A70-41065

Midlatitude F region electron and ion temperatures during magnetic storms, examining Thomson scattering, density and time dependence

21 p3817 A70-41094

Ruby giant pulse laser produced plasmas from aluminum and copper surfaces, measuring electron and ion energies by time of flight and retarding potential techniques

21 p3860 A70-41925

Plasma sheath boundary in anisotropic plasma taking into account ionization rate, momentum transferring collisions and finite ion temperature

22 p4077 A70-42291

Constricted arc characteristics in air and nitrogen at various pressures, considering spectral lines radiation transfer and electron, atom and ion temperature difference effects

22 p4079 A70-42369

Ionospheric ion temperature measurements by retarding potential analyzer onOGO-6 satellite

23 p4185 A70-43840

LF plasma waves amplification by beam-plasma interaction, considering electron and ion temperatures effects

24 p4387 A70-45797

Translational temperature measurement of atoms and ions in plasma based on wavelength reduction by X ray spectroscopy

24 p4388 A70-46208

ION TRAPS [INSTRUMENTATION]

Low energy ion spectrum and spatial distribution measurements in auroral zones by Cosmos-261 satellite spectrometer

08 p1492 A70-21798

Elongation characteristics of modulation type charged particle traps and analyzers, discussing ions and electrons trapping

18 p3307 A70-36171

Spacecraft sheath structure, potential and velocity effects on ion current measurements by traps and mass spectrometers

21 p3816 A70-41087

ION-GAS INTERACTIONS

U GAS-ION INTERACTIONS

IONIC COLLISIONS

Ionization instability in low temperature magnetized plasma, analyzing electron concentration perturbation caused by Joule heating during electron-ion collisions

01 p0153 A70-11598

Cross sections determined for formation of secondary positive molecular and atomic hydrogen ions during 1.4-46 kev positive molecular hydrogen passing through hydrogen

02 p0344 A70-12704

Ionization studies in collision dominated high pressure flame plasma using electrostatic probes

03 p0534 A70-14212

Ion collision processes in nitrogen and oxygen mixtures in mass spectrometer ion source

04 p0646 A70-14700

Vibration effects on ion-molecule collision lifetimes and multiple reflections

04 p0723 A70-15638

Lift and drag forces measured on metal surfaces inclined to Ar ion stream above and below earth-satellite speeds in free molecular flow

06 p1111 A70-18269

Collisions effects on ion saturation and electron currents in electron retarding region of cylindrical and spherical electrostatic probes, noting applicability over wide range

06 p1123 A70-18303

Excitation, ionization and recombination rates for charged ions during collisions with electrons in solar corona assuming Maxwellian electron distribution

07 p1384 A70-19409

Electrical conductivity and conductive opacity for relativistic electron gas in presence of ions taking into account ion-ion interaction

09 p1727 A70-22509

Charge exchange cross section of hydrogen position ion-negative ion collisions

09 p1733 A70-23269

Charge exchange probability in proton-hydrogen atom collisions computed with two state atomic orbital expansion

09 p1733 A70-23270

Associative and collisional detachment in H atom and negative ion collisions based on complex adiabatic potential

09 p1733 A70-23431

Ionospheric F and E layers collision frequency estimates, comparing pulse absorption and cosmic radio noise measurements

10 p1880 A70-24804

Ar ions excitations by low energy electron collisions, noting excitation functions and cross sections of lines and levels by optical methods

12 p2278 A70-27501

Diffusion coefficients measurements in velocity space from ion-ion collisions and ion wave microturbulence, supporting theoretical calculations and diffusion equations in plasma

12 p2279 A70-27777

Electron impact excitation cross section of /0,0/ first negative band of nitrogen ion from threshold to 3 keV, using photon counting techniques

12 p2276 A70-27880

Collisional theory of longitudinal wave propagation in partly ionized multitemperature gases

13 p2460 A70-28637

Collision effect on phenomena associated with ion cyclotron whistler formation, considering ionospheric day time model

13 p2468 A70-29933

Charge, hydrogen atom and ion transfer in collisions involving deuterium-labeled methanol- acetaldehyde system and molecular ions

14 p2543 A70-30110

Ion collision processes in water vapor by high pressure single source mass spectrometry, examining reaction rates as function of primary ion translational energy

16 p2857 A70-34004

NO and oxygen ions vibrational excitation due to inelastic scattering from He, calculating scattering angle variation

16 p2955 A70-34010

Inelastic energy losses in oxygen ion beams collisions with neutral molecules, determining vibrational transition probabilities

16 p2955 A70-34011

Collisions effects on ion collection by Langmuir probes, determining plasma density

17 p3139 A70-34494

Total cross sections for production of free electrons in collisions of low energy negative atomic oxygen ions with molecular nitrogen

18 p3292 A70-36188

Ion-polar molecule collision time history plots and computer movies, calculating capture cross sections for mass spectrometry

18 p3292 A70-36561

Ion collision effect in quadrupole mass spectrometer, describing ion energy, total pressure in system and other parameters

19 p3421 A70-37411

Ion-molecule pair relative motion in capture collisions, using computer-made movies

19 p3474 A70-38796

ELF and VLF propagation for perturbed ionosphere models, discussing effects of ion collision frequencies and molecular weights

20 p3585 A70-39454

He/plus/-H/minus/ collisional charge exchange cross sections, using modulated inclined ion beams technique

21 p3852 A70-40599

Collision induced dissociation of nitric oxide and molecular oxygen ions at low kinetic energies, noting internal ionic excitation effects

21 p3773 A70-41398

Mass spectroscopy analysis of neutral and ionic population of plasma in carbon dioxide laser gas mixture, discussing collision processes

21 p3838 A70-42006

Electron impact induced transitions in ions with configurations 3p/q responsible for forbidden lines in gaseous nebulae

22 p4105 A70-43234

LF resonances and potential in plane nonisothermal plasma layer, considering electromagnetic field interaction and ionic collisions

24 p4383 A70-45116

Ion-ion potential for sodium vapor for second virial coefficient as function of temperature at 1200-1700 K

24 p4381 A70-45649

Low energy proton-hydrogen collisions, computing differential cross sections for direct elastic scattering, resonant charge exchange and direct and exchange excitation

24 p4382 A70-46226

IONIC CONDUCTIVITY

U ION CURRENTS

IONIC CRYSTALS

Magnetoresistance effects in impurity conduction mode of n-type GaAs crystals below 6 K, giving electron concentration

07 p1356 A70-19796

Plastic properties of materials to elastic limit of pure metal and ionic solid crystals

12 p2283 A70-27055

Inorganic laser materials containing ionic crystalline structures, including fluorides, oxides, rubies, garnets and oxygen containing complex compounds

16 p2927 A70-33223

Ion magnetic moments in crystallographically nonequivalent lattice regions in ferrites

19 p3484 A70-37622

Sulfur trichloride-Al tetrachloride complex ionic structure from Raman spectra and nuclear quadrupole resonance data

21 p3772 A70-40912

IONIC DIFFUSION

Oxide spinel formation kinetics and reaction mechanisms with emphasis on Ni and Co chromites, discussing cation diffusion

09 p1739 A70-22307

Meteor ionized trails initial expansion and diffusion resulting in dissociation and ionization of air molecules through collision, using electromagnetic wave scattering

09 p1762 A70-23177

Helium ions diffusion perpendicular to magnetic field in He gas, measuring coefficients as function of field strength and for various gas pressures

10 p1925 A70-25108

CaO reaction rate with ZrC in effusion cells as function of reactant ion diffusion through product layer

13 p2362 A70-29496

Slow ions mobility, diffusion and reactions in gases by drift tubes, developing mathematical analysis of drifting ion swarm space-time behavior

20 p3676 A70-40152

Minor ion diffusion coefficients in F 2 region, noting Coulomb collisions role in ion density sensitivity to ionospheric fluxes

22 p4019 A70-43109

Monovalent cations active transport model in mitochondria, noting membrane potential as driving force and ion pump omission

24 p4304 A70-46230

Anions and cations diffusion during oxidation of Ni-V-Ti alloys, using chemical and electron microprobe analyses

24 p4364 A70-46335

IONIC MOBILITY

Cs atomic and molecular ions mobilities and drift velocities in Cs vapor at different pressures in low electric fields

04 p0722 A70-14715

Nitrogen oxide ions mobility in air calculated at high plasma temperatures

12 p2276 A70-27845

Mesosphere payload to measure neutral gas density, positive and negative ions concentration and mobility in D region

13 p2393 A70-28682

Slow ions mobility, diffusion and reactions in gases by drift tubes, developing mathematical analysis of drifting ion swarm space-time behavior

20 p3676 A70-40152

Monovalent cations active transport model in mitochondria, noting membrane potential as driving force and ion pump omission

24 p4304 A70-46230

IONIC PROPELLANTS

U ION ENGINES

IONIC REACTIONS

Negative ion reactions relevant to D region measured in ESSA flowing afterglow system as function of temperature

01 p0070 A70-10406

Ionospheric ion and neutral constituents composition from D region to magnetopause, noting ion-chemical reaction rates

01 p0074 A70-10588

Molecular hydrogen destruction by reaction with carbon dioxide ion in Martian ionosphere, discussing conversion into atomic hydrogen

03 p0575 A70-13997

Ion-neutral reactions in carbon dioxide subjected to electron impact using mass spectrometry

04 p0646 A70-14698

Mass spectrometric determination of proton affinities of simple molecules determined from proton transfer and ion-molecule reactions

05 p0885 A70-17081

Low pressure ionic reactions in gaseous cyclobutane

06 p1004 A70-17328

Kinetic analysis of ion-molecule reactions in Ar-N mixtures with H₂, deuterium and HD using ion ejection mode of ion-cyclotron-resonance spectroscopy

06 p1108 A70-17332

Dissociative charge-transfer reactions of positive He ions with molecular N and O measured in drift tube-mass spectrometer

06 p1109 A70-17490

Reactions determining ion composition in E region, discussing neutral composition variations from day to night and during solar activity cycles

07 p1276 A70-20431

Probability coefficients computation for transitions between energy levels of ion A XIV in solar corona

09 p1761 A70-23060

F region ion-molecule reaction rate constants laboratory measurements, observing reactions energy dependence

10 p1872 A70-23825

Charge transfer reactions of negative ions with oxygen investigated for energy dependence, yielding evidence on oxygen electron affinity

10 p1919 A70-24402

High energy oxygen positive-ion reaction with molecular nitrogen, presenting semiempirical model with assumed crossing of potential energy surfaces

10 p1920 A70-25146

Ionospheric reaction rate coefficients based on electron concentration curves, discussing maximum number and accuracy obtainable

11 p2043 A70-25538

Ion cyclotron resonance spectroscopy technique for determining electrons photodetachment energy from negative ions in gas phase

11 p1995 A70-26001

Reagent translational energy effect on dynamics of ionic and atomic reactions, using nuclear recoil and chemical accelerator methods

11 p1995 A70-26005

Methyl fluoride calculated for ion-molecule reaction rate constants from ion cyclotron resonance spectra

12 p2180 A70-26862

Methanol proton transfer reaction rate energy dependence

12 p2180 A70-26863

Ammonium ions elimination from atmospheric moisture condensates by treatment with metal-exchange resins, discussing volume sorption capacity

13 p2362 A70-29339

Rare gas diatomic ions reactions with molecules and rare gas atoms, measuring rate coefficients and product channels by flowing afterglow technique

15 p2776 A70-31726

Rare gas diatomic and hydride ions reactions with hydrogen, determining rate coefficients and product channels by flowing afterglow technique

15 p2776 A70-31727

Free energy and enthalpy of single ion solvation in water and propylene carbonate, using electrostatic model

15 p2695 A70-32829

Ion-molecule reactions produced in phosphine by ion cyclotron resonance

16 p2855 A70-33061

Ethyl nitrate positive and negative ion-molecule chemistry investigated by ion cyclotron single/double resonance techniques

16 p2855 A70-33090

Thermal energy negative ion-molecule reactions in photoionized NO-water vapor mixtures, determining rate constants by stationary afterglow system

16 p2954 A70-33280

Thermal product distributions and energy dependencies of ion-molecule reactions in allene and propyne, using ion cyclotron resonance

16 p2856 A70-33651

Hydrogen ion-molecule reactions analysis by flowing afterglow technique, noting application to proton affinity measurement

16 p2857 A70-34005

Ethylene and ethylene-acetylene mixtures ion-molecule reaction product distributions calculation using quasi-equilibrium theory of unimolecular reactions

16 p2858 A70-34012

Ion-molecule reactions investigation by resonance principle, discussing ion paths in crossed fields

17 p3081 A70-34574

Tropical UV nightglow, considering oxygen ion-ion neutralization reaction as primary source

18 p3244 A70-36015

Atmospheric ions interaction with rocket exhaust gas water molecules, using sounding rocket mass spectrometric data

18 p3293 A70-36982

Ionospheric Si and SiO ions equilibrium interconversion during Leonid meteor shower

20 p3621 A70-39351

Hydrogen negative ion thermal energy reactions with oxygen, nitric oxide, carbon monoxide and nitrous oxide, determining rate constants

20 p3583 A70-39616

Slow ions mobility, diffusion and reactions in gases by drift tubes, developing mathematical analysis of drifting ion swarm space-time behavior

20 p3676 A70-40152

Ion-molecule reactions in mixtures of hydrogen sulfide with ethylene and acetylene from deuterium labeling studies via ion cyclotron resonance spectroscopy

21 p3773 A70-41200

Ionospheric reaction rate coefficients based on electron concentration curves, discussing maximum number and accuracy obtainable

21 p3819 A70-41288

Moist air expansion through supersonic nozzle, investigating small ions role in water condensation

22 p4011 A70-42774

D region ion chemistry, discussing three body reactions, water cluster ion production, reaction rates and binary collisions

22 p4023 A70-43304

Ionization and loss processes for meteoric elements in lower ionosphere, suggesting hydrates formation role in alkali metal ions depletion

22 p4106 A70-43305

Effective collision cross section for reaction resulting in Cs ions neutralization in thermal Cs plasma calculated from measured ion currents

22 p4082 A70-43374

Ion cyclotron resonance spectroscopy for detecting trapped gaseous ions in analyzer cell, observing ion-molecule reactions

23 p4196 A70-44390

IONIC WAVES

Electron trapping effect on ion-wave instability in plasma, deriving expression for saturation energy spectrum

01 p0152 A70-11361

Auroral radio reflections using two coherent bistatic radio systems, discussing ionoacoustic waves in auroral plasma

05 p0837 A70-16072

Electron plasma wave damping by ion sound wave scattering using Vlasov equation

06 p1125 A70-18638

LF ion-acoustic waves in ionosphere, considering electric and magnetic field variations, instability, etc

07 p1347 A70-19187

Ionic noise during plasma turbulent heating in toroidal facility, discussing oscillation spectrum

07 p1349 A70-19552

Dispersion of ion-acoustic waves in quiescent rare gas discharge plasmas, discussing model simulating ion waves generated by finite sine wave bursts

07 p1352 A70-19990

Ion-acoustic wave oscillations of weak collision plasma in strong electromagnetic field, discussing instability

09 p1736 A70-23198

Ion acoustic wave propagation near sheath at plasma-wall boundary in low pressure argon plasma measured by electron beam probe

10 p1921 A70-23965

Ion-burst excited by pulsed mesh grid in plasma in connection with sheath structure

10 p1922 A70-23989

Type I comet tails orientations dispersion attributed to nonradial plasma waves and discontinuities in interplanetary gas, calculating solar angular momentum loss rate

10 p1947 A70-24987

Diffusion coefficients measurements in velocity space from ion-ion collisions and ion wave microturbulence, supporting theoretical calculations and diffusion equations in plasma

12 p2279 A70-27777

Radiation characteristics of ion acoustic waves from monopole and dipole antennas, observing patterns of longitudinal wave in isotropic plasma

12 p2279 A70-27778

Spherical electroacoustic waves in drifting thermal plasma, describing ion acoustic perturbations

12 p2279 A70-27779

Ionic noise during plasma turbulent heating in toroidal facility, discussing oscillation spectrum

15 p2777 A70-31459

Electron-acoustic, ion-acoustic and electromagnetic plane waves coupling at shock front in two fluid ionized viscous plasma

16 p2958 A70-33282

Collisional effects on second order spatial ion wave echo, evaluating velocity integral

19 p3475 A70-37539

Electrostatic ion waves in uniform magnetic field, calculating phase and group velocities as function of propagation angle for comparison with dispersion measurements

20 p3678 A70-39659

Radio aurora model based on two stream, ion acoustic wave instability, investigating radar backscatter

20 p3623 A70-40465

Current driven ion wave plasma turbulence in collisionless shock, measuring frequency and wave number spectra by shock front light scattering

20 p3685 A70-40497

Phase rate of plasma potential variations in fast ionization waves without electron distribution assumptions

21 p3856 A70-40949

Collisionless shock wave geometry, determining dispersion relation for ion acoustic waves propagating in plasma

21 p3856 A70-41082

Ion sound system one dimensional hydrodynamic equations, examining formation and interaction of nonlinear ion acoustic shock waves

21 p3856 A70-41384

Continuous pseudoacoustic and ion waves excitation and damping in plasma sheath around grid, taking into account transit time effect on ion acceleration

21 p3858 A70-41710

Electron-ion wave interaction due to scattering by electrons, using kinetic wave equation to describe wave-particle interaction

21 p3858 A70-41712

Collisionless nitrogen plasma drift velocity measurement by ion acoustic wave method

21 p3859 A70-41760

Slow and fast ionization waves in inert gas or molecular gas plasma columns, describing striation formation in neon discharge by hydrodynamic equations

22 p4079 A70-42371

Ionization waves excitation and damping in MHD channels, investigating effects on electric conductivity, Hall parameter and electron temperature

22 p4081 A70-42823

Turbulent plasma without external magnetic field, observing low phase velocity ion wave mode

23 p4227 A70-44893

Bunched ion bursts amplitude modulation effects on nonlinear ion acoustic waves in grid plasma system

23 p4229 A70-44989

Ion acoustic wave propagation in collisionless gravity-supported plasma in static magnetic field calculated from linearized Vlasov equation

24 p4382 A70-45109

Electron plasma oscillations excitation by ion-acoustic waves

24 p4386 A70-45607

LF electrostatic ion cyclotron wave energy resonant power absorption in plasma in axially nonuniform magnetic field

24 p4386 A70-45608

NT AUTOIONIZATION

NT FLAME IONIZATION

NT GAS IONIZATION

NT ION PRODUCTION RATES

NT NONEQUILIBRIUM IONIZATION

NT PHOTOIONIZATION

NT SURFACE IONIZATION

Radar and photographic studies of meteors from Leonid and Perseid showers, presenting velocities, luminance and ionization

01 p0193 A70-11602

Excited terminal states emission in bound exciton-donor materials to determine donor ionization energies, electron effective masses and electron G values

02 p0350 A70-11847

Ionization losses effect on energy spectra of cosmic ray heavy nuclei with Fermi acceleration, using transfer equation

04 p0742 A70-15201

Multichannel ionization calorimeter data readout into electronic computer using short circuit coil magnetic storage

05 p0816 A70-15947

Electromagnetic wave phase characteristics after free space passage through statistical medium with wave disturbance producing density and ionization

05 p0815 A70-16735

Fast electron ionization losses due to multiple scattering with atoms during passage through thin layer, calculating spatial energy distribution function

08 p1547 A70-20989

Ionization front interactions in interstellar gas, investigating expanding planar H II region and contact discontinuity in H I region

10 p1937 A70-23975

Cs atoms excitation and ionization in Cs diode interelectrode space under Knudsen conditions, considering luminescence and electron energy distribution

10 p1926 A70-25116

Field ionization from hydrogen layers adsorbed at 4.2 K on W emitters in sealed-off tubes

12 p2274 A70-26858

Electron-atom collisions, treating elastic and Mott scatterings, Born approximation and ionization

12 p2274 A70-27062

Ionization instability of finite bounded plasma, investigating electrothermal waves in large disturbance domain by numerical simulation

12 p2163 A70-27065

Impurity centers thermal and autoionization and effective capture cross section dependent on free carrier concentration in GaAs under electric field, allowing for plasma shielding

12 p2285 A70-27361

Feedback stabilization and mode coupling of ionization waves in positive column discharges, noting dynamic stabilization of unstable bounded plasma systems

12 p2280 A70-27787

Partially ionized plasma stability with allowance for ionization and recombination processes, discussing ion-acoustic oscillations

15 p2781 A70-32823

Photoresonant cesium plasma ionization, discussing pumping spectra, electron gas, molecular-atomic ion ratio and dynamics

19 p3474 A70-37440

Ionization stability in low temperature magnetized plasma, using physical plasma model and numerical solution

20 p3679 A70-39983

Charged particle collisions, discussing electron impact ionization of positive ions, detachment from negative ions, ion collisions, etc

20 p3676 A70-40154

Welding electron beams metal penetration dependence on ionization phenomena, discussing model based on self focusing

22 p4043 A70-42379

Ionization waves excitation and damping in MHD channels, investigating effects on electric conductivity, Hall parameter and electron temperature

22 p4081 A70-42823

P-n junction conductance at superhigh frequencies in breakdown region with simultaneous tunneling and impact ionization

23 p4232 A70-45064

IONIZATION CHAMBERS

NT BUBBLE CHAMBERS

NT CLOUD CHAMBERS

NT GEIGER COUNTERS

NT PROPORTIONAL COUNTERS

NT SPARK CHAMBERS

Multichannel spectrometer electronic circuitry for ionization colorimeter providing data on low energy particle interactions, emphasizing reliability and accuracy

05 p0846 A70-15948

Wall effect on differential spectral distortions in cylindrical ionization chamber and proportional counter type detectors

05 p0900 A70-15971

Solar proton flare dose rates, discussing tissue-equivalent-ionization-chamber (TEIC) data usefulness in analyzing possible dose received by man behind shielding

06 p1134 A70-17265

Cosmic ray knee interpretation using polar orbiting ionization chambers data from OGO-2/4

15 p2793 A70-31903

Absolute cosmic ray ionization in lower atmosphere, using air-filled ionization chamber

18 p3305 A70-36001

IONIZATION COEFFICIENTS

Ionization spatial growth similarity with Paschen law in air and nitrogen for specific electric field/gas number density values, discussing ionization coefficients

03 p0528 A70-14087

Ionospheric reaction coefficients estimate to correlate equatorial electron density profile and Jaccchia model of neutral atmosphere

04 p0683 A70-15744

Venus-earth carbon dioxide atomic parameters used to determine ionization and optical emission rates in Venus upper atmosphere resulting from solar cosmic rays

05 p0901 A70-16276

Ionization coefficient calculation for preionizers through electron distribution function solution to Boltzmann equation

13 p2468 A70-29962

Ionospheric reaction coefficients estimate to correlate equatorial electron density profile and Jaccchia model of neutral atmosphere

14 p2576 A70-30828

Electron mobility, diffusion, drift velocity and attachment in oxygen, determining Townsend primary ionization coefficient

15 p2776 A70-31969

Dichlorodifluoromethane ionization and attachment coefficients for wide pressure range

22 p4076 A70-42373

IONIZATION COUNTERS

U IONIZATION CHAMBERS

U RADIATION COUNTERS

IONIZATION CROSS SECTIONS

Total cross section for electron impact excitation and ionization in He, CO, nitrogen, oxygen, carbon

dioxide, ethylene and benzene, emphasizing threshold values

01 p0147 A70-10489

Photoelectron energy spectra and partial photoionization cross sections for carbon dioxide determined with spectrometer at monochromatic incident radiation wavelengths

02 p0343 A70-11903

Cross sections determined for formation of secondary positive molecular and atomic hydrogen ions during 1.4-46 kev positive molecular hydrogen passing through hydrogen

02 p0344 A70-12704

Carbon dioxide electron impact cross sections, analyzing discrete excitation, autoionization, direct and dissociative ionization and use to aeronomy

04 p0722 A70-15121

Nitrogen molecule photoabsorption and photoionization cross sections determination, discussing ionization probability variations and radiationless transitions

07 p1347 A70-20358

Note on Bell-Kingston paper on Born total and differential cross sections for proton impact ionization of He

08 p1548 A70-21501

Ionization of rare gases /H and N/ by nitrogen ions, determining cross sections of formation of slow ions and electrons

08 p1549 A70-21801

Elementary processes cross sections in charged states changes during proton-hydrogen molecule interactions

08 p1549 A70-21817

Vacuum UV photons production during ground state neutral argon atomic collisions, measuring relative cross sections energy dependence

09 p1731 A70-22333

Inner-shell ionizations by proton impact calculated for cross section using impulse approximation model, comparing results with Born approximations

09 p1732 A70-22781

Charged particle interaction influence on photoionization cross section of negative hydrogen ion, considering initial state polarization leading to free s wave electron

09 p1732 A70-22826

Lunar daily and monthly tidal variations in horizontal magnetic field and F 2 region maximum electron density and peak ionization height at Puerto Rico

10 p1872 A70-23823

Threshold photoionization cross sections for homonuclear diatomic N molecules calculated from Slater orbitals and Coulomb waves

11 p2086 A70-25833

Radial wave functions and photoionization cross sections for neutral atoms from central potential model based on Slater and Klein-Brueckner approximations

13 p2455 A70-29133

Interlayer ionization valley depth influence on F region heights, calculating N/h/ profiles from ionograms

14 p2571 A70-30229

Electron impact excitation cross sections of oxygen ion first negative bands, considering relationship to oxygen ionization cross section

14 p2620 A70-31363

Primary cosmic ray flux and p-carbon cross sections measurements by satellites showing heavy particle production at high energies

15 p2792 A70-31733

Quiettime cosmic ray ionization altitude dependence over polar regions from measurements by integrating ionization chamber on OGO-2

15 p2793 A70-31902

Effective cross sections for molecular hydrogen and hydrogen positive ion formation in collisions between He, Ne and Ar ions or atoms

16 p2954 A70-33193

Ce atom collision with excited Hg atom, measuring ionization cross section

18 p3292 A70-36154

Cosmic X rays interstellar absorption, giving atomic He total photoionization cross section

18 p3308 A70-36899

Positive ion and electron production in H atom collisions with atomic and molecular gases, deriving ionization cross sections

20 p3675 A70-39605

Electron impact excitation and ionization cross sections, describing various approximation methods

20 p3675 A70-39937

Nitrogen, hydrogen, oxygen and He total ionization cross sections due to electron impact

21 p3852 A70-40597

Ionization cross sections for excited H atom-ground state H atom collisions, using Born approximation

21 p3852 A70-40719

Photoionization cross sections for atoms and ions of carbon, nitrogen, oxygen and neon as function of wavelength for H II regions and planetary nebulae

22 p4104 A70-42997

Autoionization theory application to partial solar photoionization cross sections for production rates of vibrationally excited positive molecular oxygen ions

23 p4222 A70-44785

Energy loss spectra and collision cross sections for positive ion impact on molecular nitrogen, noting Lyman-Birge-Hopfield system excitation

24 p4381 A70-45599

Interlayer ionization valley depth influence on F region heights, calculating N/h/ profiles from ionograms

24 p4331 A70-46304

IONIZATION FREQUENCIES

Statistical electron density distributions and Thomas-Fermi-Dirac screening functions for positive ions with various ionization degrees

04 p0721 A70-14666

Triply ionized oxygen atom spectrum between 500-8000 A, determining energy levels and ionization limit

15 p2777 A70-32428

IONIZATION GAGES

Ionization gage with screened collector, showing limit current in high vacuum equal to X ray radiation component

05 p0847 A70-15997

Ionization gage with reverse biased silicon carbide p-n junction hot electron emitter as source

12 p2231 A70-27263

Orbitron ion gauge experimental designs for low pressure applications

12 p2231 A70-27264

Ionization measurements by OV-3-6 satellite cold cathode ionization gage of Redhead inverted magnetron type in near circular polar orbit

15 p2723 A70-31660

Hot cathode magnetron ionization gauge design, discussing performance and sensitivity

19 p3421 A70-37467

IONIZATION POTENTIALS

Critical impurity concentrations of He-Ne laser quenching determined with mass spectrometer, giving impurities molecular weight and ionization potential for input powers

01 p0110 A70-10491

Interstellar propagation effect on spectra and charge ratios due to ionization energy loss and nuclear spallation during traversal of matter

05 p0897 A70-15762

Plasma behind pressure front of shock wave investigated for ionization mechanism by microwave reflection and transmission, noting electron temperature distribution

05 p0887 A70-16110

Ionization energies and oscillator strengths for Fe XVI, Co XVII and Ni XVIII by frozen core approximation, noting applications to solar corona

06 p1150 A70-18465

Microwave-induced ionization oscillations in resonant plasma column excited by low pressure mercury DC discharge

10 p1922 A70-23988

Plane, cylindrical and spherical blast waves structure with ionization at local thermodynamic equilibrium analyzed using successive approximation to non-similar solution

10 p1967 A70-23991

Satellite-borne spectrometer for low energy ion measurement

10 p1874 A70-24314

Ionization equilibrium of atoms and hydrogen-like ions in nonthermal plasma, transforming into Saha formula for high electron densities

11 p2086 A70-25836

Statistical mechanics of partially ionized hydrogen plasma, deriving Saha equation to calculate ionization degree and potential for various electron densities and temperature

12 p2281 A70-27882

Gas discharge gap preionization by thin preheated tungsten wire ignition without explosion, resulting in plasma turbulence prevention and radiation density increase

13 p2462 A70-28986

Plasma ionization enhancement by laser line radiation matched to specific atomic transitions

13 p2468 A70-29958

Ionization potentials of elemental abundances in lunar rocks compared with earth crust and class I carbonaceous chondrites, showing lunar materials differentiation

15 p2801 A70-32463

Rocket exhaust micro and mm waves attenuation attributed to low ionization potential metal particles in propellants

17 p3196 A70-35215

Ionization losses effect on spectrum of cosmic rays accelerated in solar chromosphere, interstellar space, supernovae, radiogalaxies, etc

18 p3308 A70-36425

Mass spectrometer modified for use with X-Y recorder for accurate and reproducible ionization efficiency curves

18 p3262 A70-37099

Effective dissociation potential measurement for alkali compound seed in MHD generator working fluid

20 p3682 A70-40159

Phase rate of plasma potential variations in fast ionization waves without electron distribution assumptions

21 p3856 A70-40949

Photocurrent multiplication in single crystal n-type epitaxial GaAs due to impact ionization of shallow donors

22 p4087 A70-43218

Limit analysis for ionization potential reduction effect on ionized gas atomic composition, considering temperature and electron density

23 p4220 A70-44435

Surface potential and electron work function of single crystal plane W/110 under zero-field and strong-field conditions

23 p4230 A70-44797

IONIZED GASES

NT STELLAR WINDS

Heat and mass transfer in Couette flow of partially ionized symmetric diatomic gas for chemical equilibrium and chemically frozen flow cases

01 p0060 A70-10290

Particle diffusion distribution function of two component ionized degenerate gas from Boltzmann transport equation, giving tables for various spin and mass ratios

01 p0151 A70-10318

Mach numbers, electron density and temperature in partially ionized frozen equilibrium flows of Ar in hypersonic nozzle

01 p0063 A70-10994

Statistical mechanical method deriving ionization equilibrium and equations of state for low mass stars, considering Coulombic interactions, nonideal effects, etc

01 p0188 A70-11336

Ionized Ar laboratory laser development using Fabry-Perot etalon cavity and amplifying plasma obtained by electric current passage under pressure

02 p0311 A70-11869

Ionized Ne, Ar and Kr first excited p states lifetime and transition probabilities, tabulating energy levels and mixing coefficients

02 p0343 A70-11887

Evolution and entropy of partially ionized collision dominated plasmas interacting with radiation based on statistical analogs of irreversible thermodynamics

02 p0346 A70-11902

Ionized matter complex at galactic periphery deduced from neutral hydrogen line and continuous spectrum observations

03 p0564 A70-13222

Electron density and temperature in ionized gas created by thermal collisions between neutral particles, analyzing chemical ionization and inelastic collisions influence

03 p0532 A70-13631

Phenomena in ionized gases - Conference, Bucharest, September 1969

03 p0534 A70-14359

Ionization study of gas discharge parameters behind shock wave front produced by moving plasma pulse interaction with immovable gas discharge plasma

03 p0535 A70-14361

Maximum plasma decay rate in heterogeneous medium determined from deionization process in rarefied gases

03 p0536 A70-14369

Dissociative recombination coefficients temperature dependence in molecular neon and argon ions measured under equal gas, ion and electron temperature

04 p0722 A70-14668

Stark broadening of ionized helium lines by collective electric fields in theta pinch

04 p0722 A70-14684

Heat transfer in partially ionized argon plasma flowing in water cooled circular tube as function of temperature, Reynolds number and tube entrance diameters

[ASME PAPER 69-WA/HT-54] 04 p0780 A70-14795

Pulsed Ar ion lasers at high currents, measuring plasma parameters, electrical conductivity, electron temperature and density for inversion mechanism

04 p0703 A70-15617

Time and altitude induced variations in daytime NO and molecular and atomic oxygen ions

05 p0841 A70-16736

Ionized gas height scale changes in polar ionosphere obtained assuming Chapman type ionization distribution

05 p0841 A70-16738

Flat plate boundary layer flow of partially ionized gas, measuring charged particle density, electron temperature and plasma potential distributions with Langmuir probe

[AIAA PAPER 70-86] 06 p1041 A70-18174

Operational characteristics, spectroscopy and inversion mechanisms of noble gas ion lasers in light of plasma theories and atomic data

[AIAA PAPER 70-82] 06 p1083 A70-18236

Ionized formations motion direction and velocity in F region from triangular ionospheric sounding

07 p1267 A70-19451

Heat transfer measurement in ionized high temperature gas flows with discharge shock tube and thermal sensors

07 p1283 A70-19663

Shock ionized Ar flow properties estimation using alignment charts

08 p1551 A70-21324

Ionized matter complex at galactic periphery deduced from neutral hydrogen line and continuous spectrum observations

08 p1580 A70-21655

Line strength and radiative lifetimes for Ne II determined from spontaneous emission data obtained from CW neon laser discharge

09 p1730 A70-22070

Ion density profile across shock in partially ionized gas measured in plasma jet wind tunnel for comparison with Rankine-Hugoniot relation

09 p1662 A70-23235

Ar ion laser performance improvement by using beryllia for sealed-off discharge tube

09 p1699 A70-23443

Coupled Boltzmann and rate equations for free electron distribution function and level populations in monatomic partially ionized gas including nonelastic collisions

10 p1918 A70-23958

High electron density plasma generation by ionized gaseous filament explosion, noting plasma frequency effect on spectral brightness

10 p1915 A70-23961

Noncircular ionized gas motions in NGC 253 central region observed in velocity field analysis, indicating outflow from center

10 p1946 A70-24979

Electric field structure at shock wave front propagating in weakly ionized gas under Ramsauer effect

10 p1871 A70-25121

Boltzmann equations for distribution functions of gas, analyzing neutral or ionized components by linearization method

11 p2090 A70-25946

Turbulent ionized wakes Doppler radar scattering spectrum parameters in terms of wake characteristics using double convolution integral

11 p2010 A70-26271

Electrical conductivity of impact-ionized nitrogen across magnetic field, deriving electron collision frequency

11 p2091 A70-26461

Acoustic perturbations in stationary weakly ionized pulsed neon plasma

11 p2096 A70-26842

Laminar boundary layer and heat flux at forward stagnation point of indestructible body in partially ionized air flow calculated as function of enthalpy

12 p2156 A70-27287

Shock ionized xenon electrical conductivity measurement at high temperatures as function of Mach number, noting equilibrium effects

12 p2281 A70-27807

Alternating electric field effect on weakly ionized gases, analyzing electronic temperature and harmonics generation

13 p2458 A70-28560

Finite amplitude stability of plasma column in weakly ionized gases and in semiconductor plasmas in longitudinal magnetic field

13 p2458 A70-28566

Collisional theory of longitudinal wave propagation in partly ionized multitemperature gases

13 p2460 A70-28637

Plasmopause irregular structure and position indicated by measured distributions of hydrogen and helium thermal positive ions in duskside magnetosphere

13 p2397 A70-29185

Time autocorrelation and power spectrum of radar returns from underdense turbulent ionized gas as function of electron density decay

14 p2551 A70-31035

Transport properties of partially ionized argon based on electron velocity distribution function, comparing to Chapman-Enskog calculations

15 p2774 A70-31799

Magnetic field effect on critical flutter speed and frequency of elastic plate in ionized gas flow, deriving dispersion equation

15 p2818 A70-32173

Spherical electrostatic probe in uniform quiescent continuum slightly ionized gas for range of bias potential and radius-Debye length ratio

16 p2912 A70-33863

Turbulence spectrum functions time variations, examining electron density fluctuations in ionized gas

16 p2894 A70-33886

Argon II line transition probabilities, observing UV spectral region, upper energy levels and temperature differences

16 p2956 A70-34251

Continuum theory of spherical electrostatic probes as measuring devices in high density weakly ionized gases

17 p3140 A70-34931

Electrical conductivity of partially ionized gas in magnetic field by Frost mixture rules extension

17 p3141 A70-34985

Single frequency Ar ion laser, discussing power and frequency stability

17 p3105 A70-35095

Heat exchange in dissociating partly ionized gas flow over critical point on permeable surface with injection into laminar boundary layer

17 p3011 A70-35347

Ionized formations motion direction and velocity in F region from triangular ionospheric sounding

18 p3249 A70-36925

Chemical reactions neutralizing electron-ion gas in F region

18 p3255 A70-37044

Ar ion laser gas discharge tube construction, using anodically oxidized directly cooled aluminum segments

19 p3444 A70-37567

Nonuniform one dimensional flow of slightly ionized gas in infinitely segmented MHD generator with imperfect walls

19 p3478 A70-37588

Ionized argon supersonic flow velocity and local electron density by optical methods

19 p3480 A70-38173

Pi sub u states of positive ionized diatomic oxygen by photoelectron spectrometry

19 p3474 A70-38488

Ionic and molecular gas lasers, discussing pumping, transitions, emission, discharge tube dimensions, cooling, pressures, optical elements and applications

19 p3449 A70-38751

Weakly ionized gas subjected to pulsed DC electric field, analyzing transient relaxation of electrons velocity distribution

19 p3482 A70-38899

Intercomponent momentum and energy exchange in weakly ionized gases, examining kinetic theory of subsonic and supersonic transport processes

19 p3482 A70-38945

Particulate matter interaction with ionized gas in external magnetic field and nonequilibrium state, examining free electron density

20 p3677 A70-39324

Electrothermal mode wave propagation in nonequilibrium partially ionized gas, using model with finite ionization

20 p3680 A70-39984

Nonisothermal condensation in ionized vapor as function of energy additions to droplets

20 p3680 A70-39989

Local variables in boundary layer of high temperature ionized gas flowing in magnetic field, using X ray absorption

20 p3613 A70-40344

Electric field structure at shock wave front propagating in weakly ionized gas under Ramsauer effect

20 p3685 A70-40514

Magnetoelectric electromotive force in media of ions and neutral molecules, using Boltzmann transport equation

21 p3855 A70-40909

Limit analysis for ionization potential reduction effect on ionized gas atomic composition, considering temperature and electron density

23 p4220 A70-44435

Partially ionized gas electron-ion recombination rate coefficients calculation methods compared with Ar plasma data

23 p4226 A70-44436

Partially ionized Ar transport properties, computing electron velocity distribution function as perturbation for Lorentzian mixture

23 p4220 A70-44437

Shock wave electrical precursor measurements in weakly ionized gas, describing approximate electrostatic probe theory and high sensitivity gases

23 p4184 A70-44995

Hydrogen I region anomalous alpha lines recombination in Orion B spectrum, identifying carbon emitter by measured frequency separation

24 p4410 A70-45773

Quasi-homogeneous approximation validity for electron velocity distribution function disturbance in gas plasma column ionization waves discharge involving high currents

24 p4386 A70-45794

Echoes with ion sonar waves in ionized gases, considering ion density disturbances under local excitation

24 p4387 A70-45795

Ionized Ar laser developments, considering power output and radiation spectrum

24 p4356 A70-46324

IONIZED PLASMAS

U PLASMAS [PHYSICS]

IONIZERS

Ionizer design for hydrogen atom beam ensuring storage of polarized protons, using electron beam for ionization

09 p1732 A70-22846

Ionization coefficient calculation for preionizers through electron distribution function solution to Boltzmann equation 13 p2468 A70-29962

IONIZING RADIATION

NT ALPHA PARTICLES
NT BETA PARTICLES
NT COSMIC RAY SHOWERS
NT COSMIC RAYS
NT FAR ULTRAVIOLET RADIATION
NT GAMMA RAY BEAMS
NT GAMMA RAYS
NT LYMAN ALPHA RADIATION
NT NEAR ULTRAVIOLET RADIATION
NT PRIMARY COSMIC RAYS
NT SECONDARY COSMIC RAYS
NT SOLAR COSMIC RAYS
NT SOLAR X-RAYS
NT ULTRAVIOLET RADIATION
NT X RAYS

Radiation detectors for ionizing radiation onboard artificial satellites, considering weight and power supply constraints for ionization chamber, GM, proportional and scintillation counters, etc

Probabilities for cell survival after exposure to ionizing radiation obtained by two compartment model 01 p0093 A70-11254

Corpuscular radiation contributions to D layer ionization determined from intensity measurements 01 p0028 A70-11370

Book on photographic action of ionizing radiations in dosimetry and medical, industrial, neutron, auto- and microradiography, emphasizing photographic materials reaction to photons and particles 01 p0172 A70-11490

Free radical antioxidant reactions in lipids from blood, liver, spleen, brain and intestines of rats exposed to ionizing radiation 02 p0337 A70-11696

Dithiols protective effect against ionizing radiation in mice, noting oxygen pressure drop role 03 p0419 A70-13309

Myocardial changes in rabbits after general chronic ionizing irradiation attributed to lower cardiac activity, hypotrophy and dystrophy 03 p0420 A70-13311

Computer modeling of operational amplifier integrated circuit in ionizing radiation environment, using RLC network and voltage transfer curve 03 p0425 A70-13888

Ionizing radiation response of integrated microcircuits with different circuit functions and manufactured by different methods 04 p0658 A70-14740

Ion implantation for reducing space charge buildup in thermal oxides on silicon exposed to ionizing radiation 04 p0658 A70-14741

Chromium doping effect on ionizing radiation damage in MOS field effect transistors 04 p0731 A70-14743

Physical model to study coaxial or triaxial cable systems interaction with ionizing radiation fields, emphasizing effects governing induced signals 04 p0658 A70-14744

Polar cap absorption midday recovery phenomenon analysis in northern and southern polar auroral regions showing increase in ionizing flux rigidity 04 p0658 A70-14746

Soviet monograph on radiobiological effects of ionizing radiation covering physicochemical and functional cellular changes, recovery mechanisms, etc 04 p0682 A70-15729

Ionizing radiation effect on isolated frog retina using ERG recordings noting reduction of b wave 06 p0992 A70-17350

DNA enzymatic breakdown in *Escherichia coli* as function of ionizing radiation and temperature 08 p1444 A70-20739

May 1966 solar eclipse effects on sporadic E layer, including ionizing radiation decrease relation to boundary and blanketing frequencies decrease 08 p1445 A70-20775

Hydrogen peroxide infusion effect on skin remission following exposure to ionizing radiation on rabbit legs 08 p1490 A70-21432

Ionizing radiation effects on tissues of developing cerebellar cortex of rats 09 p1619 A70-22791

Air and solar activity electrical parameters relationship, observing ionizing radiation increase in upper atmosphere during solar activity 09 p1619 A70-22815

Energy deposition in cells by charged particles during ionizing radiation exposure, discussing RBE /relative biological effectiveness/ and dose-effect relation for neutrons 10 p1885 A70-25268

MOS structures and transistors emission-current degradation mechanism at heterojunction under ionizing radiation 11 p1989 A70-26597

12 p2194 A70-27165

Hypothermia and ionizing radiation effects on hamsters influenza immune response 13 p2349 A70-28834

Hereditary UV luminescence of transplanted cancerous and lymphosarcomatous cells in mice and rats after ionizing radiation exposure 13 p2358 A70-29341

Geoactive ionizing radiation emitted by solar flares having metallic spectral lines of various brightness intensities 14 p2630 A70-30219

Polar cap absorption midday recovery phenomenon analysis in northern and southern polar auroral regions showing increase in ionizing flux rigidity 14 p2575 A70-30813

Monograph on ionizing radiation effects on molecular biology of *Escherichia coli*, discussing cellular damage, DNA degradation and synthesis, incorporating radioactivity, mutations, etc 16 p2848 A70-33098

Combined ultrasonic and ionizing radiation effects on electrophoretic mobility of tumor cells from albino mice 17 p3034 A70-35762

MOS structure, measuring ionizing radiation effects on interface barrier energies by internal photoemission techniques 17 p3144 A70-35901

Ionizing radiation effects on endocrine system, studying ACTH metabolism in rats under X ray irradiation 19 p3372 A70-38723

Solar UV radiation contributing to ionization in higher ionospheric layer over Dushanbe during partial solar eclipse of 20 May 1966 19 p3417 A70-38786

Solar spectral intensity distribution and ionizing radiation spatial emission patterns during eclipse, discussing effects on ionosphere 19 p3418 A70-38908

Radicals induced in thymine monohydrate single crystals by ionizing radiation 20 p3583 A70-40455

Industrial radiography, discussing photographic emulsion layers granular structure formation due to ionizing radiation 24 p4337 A70-45714

Gas ionization with Q switched carbon dioxide laser radiation, determining breakdown threshold or minimum power density requirement 24 p4355 A70-46261

Geoactive ionizing radiation emitted by solar flares having metallic spectral lines of various brightness intensities 24 p4398 A70-46294

IONOGRAMS

Ionogram conjugate echoes observed at Singapore longitudes by Alouette 2 topside sounder, attributing sequential occurrence to field-aligned irregularities in magnetosphere 03 p0477 A70-13986

F region ionograms processing with correction for ionization effects between E and F layers 04 p0684 A70-15748

Ionograms for nonmonotonic vertical distribution of electron concentration in ionosphere from rocket and ground sounding 05 p0842 A70-16757

Spread F echoes due to total reflection from large tilted ionized surfaces, using ionograms and airglow observations to study surface geometry 07 p1271 A70-20158

Vertical incidence /V/ F layer ionograms, magnetograms and signal amplitude data obtained during annual eclipse of 23 November 1965 09 p1671 A70-23494

Ionospheric fine structure from signal broadening measurements on ionograms, including scattering region algorithm 11 p2044 A70-25553

Topside ionosphere structure deduced from resonance spikes on ionograms obtained by Alouette 2 satellite and electron density distributions 13 p2395 A70-29091

F 2 critical frequencies from Alouette 2 satellite ionogram data compared with ground-based sounding results 13 p2396 A70-29094

Floating resonance spike on Alouette 2 ionograms after sounder pulse transmission at half upper hybrid frequency, noting harmonic excitation role 13 p2370 A70-29905

Electron density profile calculation method using ionograms on analog-digital computer 14 p2569 A70-30209

F region ionograms processing with correction for ionization effects between E and F layers 14 p2576 A70-30832

Ionospheric electron density profiles between two locations calculated from oblique incidence ionograms, plotting radio path for ground range 15 p2726 A70-31861

Iterative solution for electron density profiles from topside ionograms 16 p2900 A70-32931

Magnetospheric component of entire N/z profile on incomplete ionospheric traces, including invisible part of ionogram 19 p3419 A70-38957

Diffuse plasma resonance sequence observed on Alouette 2 ionograms, showing pattern similar to spread echo 20 p3620 A70-39335

Ionospheric fine structure from signal broadening measurements on ionograms, including scattering region algorithm 21 p3819 A70-41303

Electron density profile calculation method using ionograms on analog-digital computer 24 p4330 A70-46284

IONOSPHERIC

Ionospheric fine structure from signal broadening measurements on ionograms, including scattering region algorithm 21 p3819 A70-41303

Electron density profile calculation method using ionograms on analog-digital computer 24 p4330 A70-46284

Ionospheric probing using pulsed radio waves at oblique incidence, discussing auroral radar, meteor radar, ground backscatter and variable frequency ionospheric techniques 12 p2224 A70-27728

IONOSPHERE

NT D REGION
NT E REGION
NT E-2 LAYER
NT F REGION
NT F 1 REGION
NT F 2 REGION
NT LOWER IONOSPHERE
NT SPORADIC E LAYER

Ionospheric auroral oval, proton aurora and midlatitude trough relationship to magnetospheric structure, trapping outer boundary, storm time belt and plasmopause 01 p0073 A70-10586

Ionosphere atmospheric densities from Explorer 32 drag data including semiannual variations 01 p0077 A70-11206

Cerenkov radiation from electrons in magnetosphere and ionosphere, analyzing radiated power relationship with frequencies and latitudes 01 p0080 A70-11226

Reflection coefficient of electromagnetic wave reflected from thin ionization layer, using frequency dependence of amplitude to estimate ionospheric layer thickness 01 p0083 A70-11532

Electron flux parameters determination from ionograms and reflected signal amplitudes between 120-130 km, considering electron collision frequencies 01 p0084 A70-11551

Ionospheric phenomenon, discussing experimental techniques, physical properties and chemical composition, regular and irregular variations, sporadic E ionization, etc 02 p0289 A70-12071

Hydromagnetic forces effects on tidal period hydrodynamic waves, explaining ionospheric tidal motion behavior 03 p0478 A70-13995

Electron temperature anisotropy in ionospheric plasma for case of ionizing sunlight propagating along geomagnetic field 03 p0479 A70-14376

Intermediate ionospheric layer at high latitudes, discussing relationship to geomagnetic and auroral activity and F region continuity 04 p0678 A70-14974

Steady, ambipolar, low and high speed plasma transport equations developed for terrestrial ionosphere, discussing boundary conditions for supersonic and subsonic flows 04 p0679 A70-15112

Rarefied ionospheric plasma flow around rockets and satellites, studying electric field effect on ion motion by kinetic equation and similarity law 04 p0680 A70-15188

Hydromagnetodynamic equations of two dimensional unsteady geostrophic wind field in turbulent ionosphere 04 p0680 A70-15254

Ionospheric air density profiles revision based on satellite orbits analysis 05 p0839 A70-16287

Correlation function of auroral reflection radio signals with allowance for polar ionospheric scattering and pulse signal transmission and reception 05 p0841 A70-16741

Electron flux-atmosphere interaction solved by numerical integration on computer, discussing auroral ionosphere 05 p0842 A70-16755

Spherical probe impedance in infinite collisional isotropic plasma investigated for ionospheric applications, selecting electron density 06 p1117 A70-17369

RF probe admittance in ionosphere investigated for cold anisotropic and warm isotropic plasma diagnostics 06 p1117 A70-17370

Transequatorial multisite VLF records establishing solar zenith angle for midpoint of sunrise ionospheric 06 p1117 A70-17370

16 p2900 A70-32931

height discontinuity, recomputing magnetic latitude dependent parameters

06 p1054 A70-17590

Laboratory simulation of interactions between ionospheric plasma and diverse spacecraft systems

06 p1029 A70-18067

Satellite wake in ionosphere simulated in cold ion plasma without magnetic field, observing complex far wake structure and peculiar electrostatic probes response

06 p1147 A70-18297

Book on ionospheric physics covering neutral atmosphere, ionospheric measurements, photochemical processes, morphology, phenomena, geomagnetism, storms, etc

07 p1262 A70-18856

Outer ionosphere magnetoionic and MHD waves, combining electromagnetic and plasma kinetic theory with reference to satellite observations

07 p1264 A70-19188

Ionospheric data representation in tabular form for computer storage and processing, noting memory cells reduction

07 p1268 A70-19460

Radio wave sphericity influence on scattering at moving body wake in ionosphere, determining scattering cross section principal maximum

07 p1237 A70-20424

Cold plasma approximation of whistler excitation of lower hybrid resonance at wake of body moving through ionosphere, comparing results with Alouette satellite observations

07 p1276 A70-20425

Earth ionosphere and magnetosphere electrodynamic state as function of neutral gas small scale motions, considering magnetic disturbances and ionospheric discontinuities

07 p1276 A70-20426

Space research in terms of earth environment in space, discussing near-earth spacecraft role in solar, magnetospheric and ionospheric studies

08 p1488 A70-21344

Ionosphere effect on toroidal magnetodynamic waves in idealized representation, analyzing oscillations correlation between adjacent magnetospheric shells

10 p1875 A70-24444

Monograph on ionosphere-satellite interactions, discussing ionosphere layers, plasma sheaths and wakes, electromagnetic wave propagation, spacecraft antennas, etc

10 p1944 A70-24900

Ionospheric fine structure from ionograms, discussing probe and half automatic digital evaluation method

10 p1884 A70-25257

Extraterrestrial electrical and magnetic fields effect on meteorological observations, noting relationship between atmospheric pressure distribution and ionospheric developments

10 p1913 A70-25269

Monograph on ambipolar diffusion and motion instability of satellite produced artificial barium ion clouds in ionosphere and magnetosphere

11 p2048 A70-26825

Very low frequency radio noise in ionosphere, magnetosphere and solar wind, using multiple receivers to measure mathematical relations between direction magnitude and polarization characteristics

12 p2184 A70-27574

Cylindrical electric dipole antenna in magnetoactive ionospheric plasma, noting ion sheath effect on input impedance and active length

13 p2399 A70-29402

Collision effect on phenomena associated with ion cyclotron whistler formation, considering ionospheric day time model

13 p2468 A70-29933

Radiation belt and auroral primary ions, comparing origin possibilities of ionosphere and solar wind

13 p2481 A70-30063

Ionospheric density profiles measurement by accelerometers on SPADES and Cannon Ball 1 satellites, comparing results with prediction from atmospheric model

15 p2724 A70-31866

Report to COSPAR on space research in Bulgaria, considering ionospheric physics, cosmic rays, satellite observations, meteorology and space communications

15 p2829 A70-31704

Ionospheric spacecraft flight conditions simulation in vacuum chamber, discussing low energy ion sources

15 p2717 A70-31814

Spherical ionized cloud movement in ionosphere uniform anisotropic plasma as function of electric field applied to rocket released ion clouds

15 p2726 A70-31867

Soviet collection of papers on ionospheric studies covering F region variations, vertical ground sounding, magnetospheric disturbances, whistlers, satellite experiments, etc

15 p2729 A70-32076

Steady state plasma wind tunnel for flow around ionospheric satellites, studying wakes of cylinders and spheres

16 p2837 A70-33866

Electrostatic near wake model for ionospheric satellites, using low speed fluid dynamic blunt body similarities

[ALAA PAPER 69-674]

16 p2837 A70-33867

Soviet papers on morphology of quiet and perturbed ionosphere covering electromagnetic phenomena, measurements, etc

18 p3245 A70-36084

Book on ionospheric chemistry, covering chemical and photochemical reactions above 60 km and ionization processes

18 p3247 A70-36212

Ionospheric data representation in tabular form for computer storage and processing, noting memory cells reduction

18 p3250 A70-36934

Soviet collection of papers on ionosphere, investigating charged particle diffusion in F region, etc

18 p3253 A70-37026

Striation formation in artificial ion clouds aligned with local geomagnetic fields, considering visual indication of ionospheric electric field transfer along magnetic field

19 p3415 A70-38387

Numerical ionospheric world mapping of plasma frequency, considering height, latitude, longitude and local mean time variations

19 p3380 A70-38403

Plane VLF wave propagation in waveguide formed by earth and inhomogeneous anisotropic ionosphere, determining excitation coefficients and attenuation functions

19 p3381 A70-38568

Solar eclipses and ionosphere - NATO Conference, Lagonissi, Greece, May-June 1969

19 p3417 A70-38901

Laboratory simulation of interactions between ionospheric plasma and diverse spacecraft systems [ALAA PAPER 70-169]

20 p3606 A70-39695

Auroral arcs formation model based on dynamic magnetosphere-ionosphere interaction

21 p3817 A70-41089

Nitrogen photoelectron excitation in dayglow, examining 3371 Å band intensity, energy spectrum and flux in ionosphere

21 p3882 A70-41093

Rarefied ionospheric plasma flow around rockets and satellites, studying electric field effect on ion motion by kinetic equation and similarity law

21 p3819 A70-41169

Large scale electric fields in ionosphere, magnetosphere and interplanetary space, considering further needs for theoretical and observational investigations

22 p4099 A70-42782

Ionospheric electric field origin theory in terms of charge separation due to neutral wind drag

22 p4016 A70-42785

Neutral interplanetary particle impact ionization of atmosphere, discussing density of neutral interstellar media near solar system

22 p4106 A70-43291

Solar flare effects in ionosphere observed at Lindau, collating with heavy geomagnetic storm

23 p4237 A70-44876

European Space Research and Technology Center space science department, examining cosmic ray, ionospheric and surface physics divisions

24 p4323 A70-46356

IONOSPHERE EXPLORER A

U EXPLORER 20 SATELLITE

IONOSPHERIC ABSORPTION

U ELECTROMAGNETIC ABSORPTION

U IONOSPHERIC PROPAGATION

IONOSPHERIC BLACKOUT

U BLACKOUT [PROPAGATION]

IONOSPHERIC COMPOSITION

Ionospheric ion and neutral constituents composition from D region to magnetopause, noting ionospheric chemical reaction rates

01 p0074 A70-10588

Horizontal gradients below satellite orbit effect on reduced and minimum difference in Doppler frequency shifts of coherent radio waves from satellite in inhomogeneous ionosphere

01 p0046 A70-11517

ESRO 4 satellite as ESRO 2 design modification, describing experiments involving topside ionosphere ions, mass spectrometry, auroral particles distribution, solar and trapped particle fluxes

02 p0381 A70-12503

Dynamic model for Martian ionosphere modification by solar wind, assuming negligible Mars magnetic moment and neutral atmosphere

04 p0753 A70-15103

Mass spectrometer design and calibration for ionic composition measurements on ionosphere sounding satellite, noting effects of satellite velocity and attitude

06 p1065 A70-17908

Whistlers role in ionospheric temperature, magnetospheric electron density and ionospheric composition determination

07 p1347 A70-19189

Mariner 4 and 5 and Venera 4 data used for comparing terrestrial planets ionospheres

07 p1386 A70-19488

Simultaneous ionospheric ion and electron measurements by various radiophysical methods, relating results to period of flight of vertical space probe

07 p1237 A70-20428

Reactions determining ion composition in E region, discussing neutral composition variations from day to night and during solar activity cycles

07 p1276 A70-20431

Dye laser tuned to sodium D line used for measuring ionospheric atomic sodium

08 p1492 A70-21757

Ionospheric electron content and distribution determination from Explorer 22 satellite signal amplitude recordings, considering wave propagation and polarization and Faraday effect

09 p1633 A70-22530

Sporadic meteoroid particles in ionospheric spatial density determined from kinetic energy measurements

10 p1940 A70-24322

Nighttime concentration profiles of O, NO and molecular oxygen ions in ionosphere calculated from daytime values

10 p1874 A70-24428

Mapping electric field components perpendicular to magnetic field line in ionosphere at equatorial plane, discussing discrepancy with convection patterns

10 p1875 A70-24437

Diurnal variations of concentrations of ions and neutral components of NO, O and N in E region from analysis of chemical and photochemical processes

10 p1881 A70-24809

Ionospheric fine structure from signal broadening measurements on ionograms, including scattering region algorithm

11 p2044 A70-25553

Upper atmospheric ion and neutral composition from rocketborne mass spectrometry, allowing for rocket velocity and analyzers orientation with respect to velocity vector

14 p2568 A70-30140

E region ion composition from rocket-borne mass spectrometer data

15 p2725 A70-31689

Ionospheric structure characteristics in D, intermediate D-E and E-F 2 regions using deflecting and nondeflecting radiation absorption measurements

15 p2730 A70-32085

Soviet papers on ionospheric studies covering radio, rocket and satellite observations

15 p2730 A70-32088

Mariner 4 and 5 and Venera 4 data used for comparing terrestrial planets ionospheres

15 p2805 A70-32733

Hydrogen, He and oxygen ion density, and ion and electron temperatures in upper ionosphere fromOGO 4 observations

18 p3244 A70-36016

Ion composition and charged particle vertical distribution in F region and protonosphere from satellite and ground based observations

18 p3254 A70-37028

Solar UV radiation contributing to ionization in higher ionospheric layer over Dushanbe during partial solar eclipse of 20 May 1966

19 p3417 A70-38786

Annular solar eclipse of 20 May 1966 effects on ionosphere, discussing regions virtual heights, critical frequency variations, ion production rates, etc

19 p3419 A70-38917

Ionospheric Si and SiO ions equilibrium interconversion during Leonid meteor shower

20 p3621 A70-39351

Soviet book on ionospheric interlayer formations covering electron concentration distribution, E-2 layer occurrence frequency, recombination coefficient, etc

20 p3622 A70-39823

Lower ionospheric structure and electromagnetic resonance phenomena, describing radio equipment for solar activity effects studies

21 p3812 A70-40620

Turbulent mixing effect on vertical distribution of ionosphere atomic and molecular oxygen, using equations of motion and continuity

21 p3813 A70-40907

Ionospheric fine structure from signal broadening measurements on ionograms, including scattering region algorithm

21 p3819 A70-41303

Atmospheric positive ion composition measurements in D region by rocket-borne mass spectrometers, considering water cluster ions formation

22 p4017 A70-42796

Upper atmosphere ionization balance, examining metastable species in E and F regions

22 p4106 A70-43306

Dynamo role in magnetospheric disturbances and ionospheric inhomogeneities, allowing for charged particle concentration height dependence 23 p4237 A70-44059

E region ion composition nighttime variations, examining nitrogen monoxide and O ion nonequilibrium concentrations by ionic-molecular reactions 23 p4189 A70-44074

F 1 region positive nitric oxide and oxygen ions concentrations ratio and conversion rates from rocket data and theoretical formulas 23 p4189 A70-44075

Polar ionosphere ion composition measurement by meteorological rocket-borne RF mass spectrometer 23 p4190 A70-44081

IONOSPHERIC CONDUCTIVITY

Potential created by DC point source in ionosphere at high and medium geomagnetic latitudes, taking into account electrical conductivity anisotropy and altitude variation 01 p0080 A70-11225

Conductivity and permittivity for ion and electron resonance region of ionospheric plasma model calculated in quasi-hydrodynamic approximation 01 p0082 A70-11528

Geomagnetic field directed hydromagnetic waves propagation in lower ionosphere noting inhomogeneous conductivity, Hall effect and lines of forces role 01 p0083 A70-11546

VLF radio monitoring of celestial X ray fluxes from ground for long periods, discussing ionospheric D region conductivity 04 p0739 A70-14521

Computerized numerical integration of nonlinear partial differential equations describing blast wave in ionosphere with finite electric conductivity under uniform magnetic field 12 p2227 A70-28212

Cylindrical antenna admittance during immersion in ionospheric plasma, noting influence of ion sheath and plasma anisotropy 13 p2371 A70-29922

Ionospheric conductivity effects on plasma convective flow in determining magnetospheric electric fields distribution 21 p3816 A70-41084

Satellite-borne loop antenna resistive and reactive impedance measurements in topside ionosphere 22 p4019 A70-43112

IONOSPHERIC CROSS MODULATION

LF waves and irregularities in auroral ionosphere determined by radar measurements, suggesting role of plasma waves cross modulation 07 p1264 A70-19193

Ionospheric D region radio wave probing by cross modulation technique, obtaining electron densities and collision frequencies 12 p2224 A70-27733

Pulsed radio wave interactions with various lower ionosphere models, estimating cross modulation by computer calculation for comparison with measurements 23 p4162 A70-44080

IONOSPHERIC CURRENTS

NT AURORAL ELECTROJETS

NT ELECTROJETS

NT EQUATORIAL ELECTROJET

Rocket and satellite studies of geomagnetic field during IQSY, confirming ionospheric currents responsible for magnetic diurnal variations 01 p0075 A70-10596

Sq data acquisition and analysis, noting automatic standard observatories using nuclear magnetometers and ionospheric current information from instrumented rockets 01 p0075 A70-10597

Polar magnetic disturbances during IQSY characterized by SP field superposed on Sq field generated by ionospheric dynamo 01 p0075 A70-10599

Potential created by DC point source in ionosphere at high and medium geomagnetic latitudes, taking into account electrical conductivity anisotropy and altitude variation 01 p0080 A70-11225

Electrical phenomena in upper atmosphere and solar wind may control geomagnetic disturbances and aurorae 01 p0082 A70-11523

Rocket sounding data on ionospheric currents at mid and low latitudes noting absence in D and above E region 01 p0082 A70-11529

Earth daily rotation effects on magnetosphere electric currents, discussing Pederson currents in dynamo region and E region ionization 02 p0293 A70-12775

F 2 layer electron density changes during geomagnetic storms linked to DS current and electromagnetic disturbances 05 p0838 A70-16280

Magnetic disturbance associated with E layer east-west electric current calculated in terms of ionization production and loss 05 p0838 A70-16282

Tangential solar wind discontinuity observed by Vela 2A satellite, producing ground magnetic disturbances conjunctively with magnetospheric, ground and ionospheric currents 05 p0903 A70-16727

Surface impedance of spherical earth isolated by nonconducting atmosphere from ionospheric currents producing alternating electromagnetic field 05 p0843 A70-16768

Three dimensional model current system with magnetospheric and ionospheric sections connected by currents flowing along geomagnetic field lines proposed for polar magnetic substorms 06 p1059 A70-18535

F 2 small scale inhomogeneities drift relation to current systems of dynamo region, discussing solar activity effects on ionospheric conductivity 07 p1267 A70-19452

Lower ionosphere electric fields and currents vertical profiles above geomagnetic equator under quiet geomagnetic conditions from rocket data 07 p1277 A70-20453

Auroral zone electrojet return current spatial distribution using idealized models for stationary state 08 p1491 A70-21718

Ionospheric current flow past circular inhomogeneous spot with Pedersen and Hall conductivities, calculating earth surface magnetic field by Lipshits-Hankel integral 10 p1873 A70-24309

Ionospheric wind velocity fields calculated from atmospheric dynamo effects taking into account electric field, current density and conductivity tensor 10 p1881 A70-24819

Polar ionospheric current and interplanetary magnetic field directions related from mean diurnal values of solar wind velocity 11 p2044 A70-25551

Vector magnetic field and energetic particle flux profiles, indicating geomagnetically aligned currents associated with visible auroral arc 13 p2397 A70-29197

Horizontal geomagnetic force variations, considering ionospheric wind effects on ions in transition layer 13 p2402 A70-30057

Ba ion cloud motions agreeing with electric field data from balloon measurement in ionosphere and magnetosphere 13 p2402 A70-30079

Ionospheric DC electric fields long period oscillations at high latitudes observed by polar orbiting Injun 5 satellite 13 p2403 A70-30081

Daily variations of geomagnetic field horizontal component at dip equator associated with ionospheric current 14 p2575 A70-30792

Electrostatic discharge at magnetopause by idealized circuit analog, discussing transmission lines and terminal impedances 14 p2579 A70-31247

Ionospheric currents time-space distribution noting rocket data, induction mechanism and geophysical effects 15 p2730 A70-32087

Electric fields in lower ionosphere during solar activity minimum above magnetic equator, using vertical profiles of ionospheric current magnetic fields and electron concentration 18 p3246 A70-36098

F 2 small scale inhomogeneities drift relation to current systems of dynamo region, discussing solar activity effects on ionospheric conductivity 18 p3249 A70-36926

Polarization electric field in drifting ionospheric inhomogeneities, examining role of longitudinal currents 18 p3252 A70-36987

Ionospheric electric current distribution response to horizontal wind induced emf, using lunar tidal wind models 19 p3415 A70-38386

Electron collision frequency profile for energy loss rate in ionospheric G factor for air, considering rotational excitations of molecular oxygen and nitrogen 21 p3812 A70-40618

Polar ionospheric current and interplanetary magnetic field directions related from mean diurnal values of solar wind velocity 21 p3819 A70-41301

Ionospheric current theoretical model and balloon measurement of ionospheric electric field 22 p4017 A70-42795

IONOSPHERIC DISTURBANCES

NT IONOSPHERIC STORMS

NT SUDDEN IONOSPHERIC DISTURBANCES

Internal gravity waves theory to interpret large amplitude oscillations in electron density and temperature and ion temperature and velocity observed in thermosphere 01 p0079 A70-11215

Atmospheric gravity waves in F region, discussing neutral gas-ionization interaction and detection by electron density profile measurements 01 p0079 A70-11216

Ionization variations and correlation coefficients of F 2 critical frequency variations, using airborne ionospheric sounder over Sogra and Kerguelen Island conjugate areas 01 p0080 A70-11224

Ionospheric discontinuities drift velocities from diversity reception data indicating no dependence on solar activity 01 p0083 A70-11531

Hourly N/h/ profiles of F region calculated from monograms by normal integral method during magnetic disturbance, measuring region temperature 01 p0083 A70-11548

Diurnal variations in sporadic E layer and wind in ionosphere during equinox and solstice periods, noting wind shear mechanisms and ambient electron density 01 p0084 A70-11552

Midlatitude ionospheric disturbances accompanied by auroral type radio absorption observed by radio astronomy and probes during 26 May 1967 storm 01 p0084 A70-11555

Data collection for ionospheric disturbances, geomagnetic field, radio wave intensity, cosmic rays and solar activity 02 p0290 A70-12125

F 2 region acoustic waves over Kansas and Nebraska attributed to local storms in troposphere 02 p0290 A70-12158

F region irregularity drift, morphology and generation in magnetosphere, discussing ionospheric structure at different latitudes and solar activity association 02 p0293 A70-12572

VLF radio wave propagation variations occurring in earth-ionosphere waveguide contributing to errors in OMEGA position lines used to obtain worldwide navigational fixes 03 p0523 A70-13614

Traveling ionospheric disturbances from signatures left in columnar electron content records obtained by measuring signal Faraday rotation angle from geostationary satellite 03 p0477 A70-13991

Ionosphere beacon satellites BeB and BeC transits for field alignment of small ionospheric regularities 04 p0678 A70-14975

Ionospheric integral radio absorption measured by radio astronomical A2 method, including anomalous absorption during disturbances 04 p0650 A70-15283

Small scale disturbances and radio wave scattering effects on signal transmission and radiophysical observations in ionosphere 04 p0653 A70-15723

Cosmic ray intensity decreases in relation to geomagnetic and F 2 region disturbances characterized by Forbush decreases from vertical sounding data 05 p0898 A70-15940

IQSY 27-day recurrence sequence for 1964 solar and terrestrial activity, considering geomagnetic, auroral and ionospheric disturbances correlation with plate 05 p0841 A70-16646

Large scale ionospheric inhomogeneities anisotropy, dimensions and drift velocities from simultaneously measured irregular refraction 05 p0841 A70-16739

Radio astronomical observations of shape and drift velocity of focusing ionospheric discontinuities 05 p0841 A70-16740

Radio waves propagation along polar auroras region, obtaining ionospheric parameters for magnetic disturbances based on penetration probability 05 p0842 A70-16744

Oscillations intervals with diminishing period during magnetic storms, noting relationship to midlatitude disturbances in F region 05 p0842 A70-16746

Nighttime F 2 region temperature distribution under geomagnetically calm and disturbed conditions calculated from Alouette 1 satellite data 06 p1057 A70-17887

Temporal and spatial variations and patch velocity of sporadic E layer obtained at Japan ionospheric stations 06 p1057 A70-17906

Backscatter observations of F region field-aligned irregularities during IQSY, discussing diurnal variations of echoes 06 p1059 A70-18539

LF waves and irregularities in ionosphere - Conference, Frascati, Italy, September 1968 07 p1263 A70-19186

Satellite signal scintillation phenomenon morphological study and relationship to ionospheric irregularities 07 p1234 A70-19194

Ionospheric inhomogeneities measured by Explorer 22 radio signals emphasizing satellite scintillation 07 p1265 A70-19195

Charged particle replacement by external plasma particles in ionized inhomogeneities moving in ionosphere, considering magnetic field role 07 p1266 A70-19435

Harmonic analysis of ionospheric electron density oscillation spectra, noting density fluctuations classes due to internal gravity wave propagation and N/h profiles calculation errors

07 p1266 A70-19449

Midlatitude F 2 perturbations from vertical sounding stations data during solar activity minimum, discussing F 2 region critical frequency variation

07 p1266 A70-19450

Ionized formations motion direction and velocity in F region from triangular ionospheric sounding

07 p1267 A70-19451

Electron concentration profiles calculated during vertically moving perturbations to evaluate ionospheric state

07 p1267 A70-19458

Vertically moving disturbance discovered in ionospheric soundings close to magnetic equator, noting correlation with electrodynamic lift

07 p1269 A70-19631

Earth ionosphere and magnetosphere electrodynamic state as function of neutral gas small scale motions, considering magnetic disturbances and ionospheric discontinuities

07 p1276 A70-20426

Perturbed ionospheric regions acting as radio wave focusing lens, discussing frequency, power and pattern selection

07 p1237 A70-20448

Positive and negative correlations in F 2 layer perturbations by network of paired conjugate ionospheric stations at low latitude

07 p1277 A70-20450

Diurnal vertical shifts of constant electron concentration levels in D region, considering effects of chromosphere, nuclear explosions, solar eclipses, etc

08 p1490 A70-21430

Horizontal ionospheric drift rates and traveling wave disturbances, showing differences between winter and summer

09 p1667 A70-22493

Ionospheric irregularities investigated by rocket- and satellite-borne transmitters, obtaining ionization profiles from amplitude, phase and polarization of radio waves

09 p1669 A70-23273

Nighttime D region ionization irregularities deduced from vertically incident VLF radio wave

09 p1671 A70-23663

Ionospheric current flow past circular inhomogeneous spot with Pedersen and Hall conductivities, calculating earth surface magnetic field by Lipshits-Hankel integral

10 p1873 A70-24309

Ionospheric waves positive phases and disturbances related to solar activity variations and cosmic ray modulations

10 p1885 A70-25270

VHF satellite transponders for ranging and position fixing, studying ionospheric and multipath effects [AIAA PAPER 70-489]

11 p1999 A70-25433

F region magnetic disturbances due to low energy solar plasma penetration during proton bursts

11 p2104 A70-25535

Ionospheric magnetic activity effects on cosmic radio noise absorption diurnal and seasonal variations in auroral zone, noting K index and lowest reflection frequency roles

11 p2043 A70-25536

Wind shear caused ionospheric E region irregularities investigated by horizontal plasma density gradients determination

11 p2045 A70-25652

Fluctuations of polarization induced fading periods in short wave transmissions of Soviet earth satellites, showing relation to ionospheric inhomogeneities

11 p2047 A70-26788

Thermonuclear explosion Operation Starfish effect on ionospheric state from recording in central Kazakhstan, studying frequency characteristics

11 p2047 A70-26790

Ionospheric lowest regions and magnetosphere probing based on atmospheric observations, detecting disturbed conditions

12 p2224 A70-27734

Mode-scattering coefficients from ionospheric perturbations for sunrise and sunset propagation paths, comparing results with VLF radio measurements

12 p2189 A70-28053

Hydromagnetic coupling between neutral and ionized atmosphere perturbations, noting role of gravity waves

13 p2397 A70-29191

Auroral currents as source of atmospheric gravity waves and associated traveling ionospheric disturbances

13 p2399 A70-29234

Equatorial electrojet Lorentz coupling to neutral atmosphere as source of long period traveling ionospheric disturbances

13 p2399 A70-29235

One dimensional Alfvén fluctuation spectrum of magnetosphere in toroidal, crimping and twisting modes, using numerical integration

14 p2569 A70-30203

Quasi-periodic influence of traveling disturbances on ionospheric F 2 layer small scale drift discontinuities

14 p2570 A70-30226

Lower ionosphere nonuniformities drift velocity and direction using space diversity reception

14 p2571 A70-30233

Small scale disturbances and radio wave scattering effects on signal transmission and radiophysical observations in ionosphere

14 p2550 A70-30807

Ionospheric and ground level pressure fluctuations correlation from atmospheric models, suggesting ionospheric disturbance measurement from microbarographs on land surface

15 p2769 A70-31446

Lunar tidal diurnal and semidiurnal variations in equatorial sporadic E layer related to H geomagnetic field and sunspot period

15 p2726 A70-31862

Planetary distribution of F region disturbances and related vertical electron concentration using satellite and ground data

15 p2729 A70-32079

Terrestrial magnetosphere dynamics in magnetoionospheric disturbances, analyzing solar wind-geomagnetic field interaction and storm development

15 p2729 A70-32080

Refractive index gradients effect on scattering of radio waves perturbing ionosphere or passing through perturbed region

16 p2863 A70-33259

Ionospheric irregularities properties from San Marco 2 and BE-B satellites recordings, deriving height variation of irregularity size and occurrence

17 p3076 A70-34942

Bounded ionospheric layers gradient instability, discussing perturbation growth and lifetime

17 p3076 A70-34944

Ionospheric plasma disturbances due to moving space vehicle, investigating by electron density measurements in rarefied wake regions using gyro-plasma probe

17 p3142 A70-35763

F2 region disturbance development during magnetic storm, discussing layer height increases

17 p3080 A70-35772

Soviet papers on morphology of quiet and perturbed ionosphere covering electromagnetic phenomena, measurements, etc

18 p3245 A70-36084

Proton flares showing enhancement of ionospheric absorption and complex magnetic disturbances

18 p3306 A70-36087

Charged particle replacement by external plasma particles in ionized inhomogeneities moving in ionosphere, considering magnetic field role

18 p3249 A70-36909

Harmonic analysis of ionospheric electron density oscillation spectra, noting density fluctuations classes due to internal gravity wave propagation and N/h profiles calculation errors

18 p3249 A70-36923

Midlatitude F 2 perturbations from vertical sounding stations data during solar activity minimum, discussing F 2 region critical frequency variation

18 p3249 A70-36924

Ionized formations motion direction and velocity in F region from triangular ionospheric sounding

18 p3249 A70-36925

Electron concentration profiles calculated during vertically moving perturbations for evaluation of ionospheric state

18 p3250 A70-36932

Ionospheric inhomogeneities electrodynamic decay rate, using ellipsoidal model with sharp boundary for irregularity

18 p3252 A70-36986

Electric field strength in earth ionosphere and magnetosphere during irregular motion of fast ions and electrons

19 p3407 A70-37303

Electron concentration disturbances in outer ionosphere and F 2 maximum on daylight side during magnetic storm

19 p3408 A70-37307

F layer absence and nonuniform horizontal electron concentration of nighttime ionosphere at high latitudes, using Alouette 1 sounding

19 p3408 A70-37308

Vertical electron density profile variations during ionospheric perturbations in years of solar activity maximum and minimum

19 p3409 A70-37328

Traveling horizontal ionospheric waves relationship to magnetic storm onset, showing ionization displacement occurrence

19 p3413 A70-38029

Faraday rotation of radio beacon satellite signals during traveling ionospheric disturbances simulated for spaced ground stations

20 p3590 A70-40481

Equatorial F layer irregularity extent from propagation path observations to synchronous satellites

20 p3624 A70-40485

Low latitude F region irregularities from scintillations of beacon satellite signals

20 p3624 A70-40486

Correlation distance of VHF fading from irregularities in equatorial ionosphere, using NASA STADAN in Chile

20 p3590 A70-40487

High scintillation indices associated with vertical spreading of sporadic E layer from minute-by-minute ionograms and signal amplitude recordings from Explorer 22 satellite

20 p3624 A70-40489

High latitude F region irregularity structure during magnetic storm from multistation scintillation observations of ATS 3 transmission

20 p3624 A70-40490

Ionospheric electron density disturbance heights measured via radio signal scintillation from earth satellite, using spaced receiver method

20 p3590 A70-40491

Ionospheric disturbances heights at subauroral latitude from Explorer 22 satellite beacon signals recorded at spaced receivers

20 p3624 A70-40492

Microwave scintillations at sunrise indicating solar point sources at sunspot cycle peak and terrain configuration influence on ionospheric disturbances

20 p3591 A70-40493

Quasi-periodic ionospheric oscillations associated with nuclear explosions, thunderstorms and quiet conditions

21 p3814 A70-40938

Multistation observations of long range field aligned backscatter irregularities in F layer, using ray path calculations

21 p3814 A70-40940

Ionospheric D region irregularities with partially reflected radio wave pulses, using phase path and drift measurements

21 p3814 A70-40941

Low latitude observations of spread F echoes and stationary satellite scintillations, correlating with ionospheric disturbances and geomagnetic activity

21 p3818 A70-41097

F region magnetic disturbances due to low energy solar plasma penetration during proton bursts

21 p3882 A70-41285

Ionospheric magnetic activity effects on cosmic radio noise absorption diurnal and seasonal variations in auroral zone, noting K index and lowest reflection frequency roles

21 p3819 A70-41286

Two echo complex signature in group path vs time records by ionospheric traveling disturbances

21 p3820 A70-42243

Doppler frequency shift of reflected radio waves for ionospheric disturbances, discussing solar flares, geomagnetic variations, etc

21 p3820 A70-42256

F region ionospheric disturbances class and shape from radio amplitude and phase scintillations in satellite transmission to ground stations

23 p4187 A70-43879

Ionosphere seasonal changes from three-point system for observing traveling ionospheric disturbances

23 p4192 A70-44868

Auroral electrojet return current spatial extent from model ionospheric current distribution and geomagnetic variations

23 p4192 A70-44922

Equatorial E region electrojet plasma irregularities, discussing electron density, drift velocity, profile structure, etc

24 p4384 A70-45150

One dimensional Alfvén fluctuation spectrum of magnetosphere in toroidal crimping and twisting modes, using numerical integration

24 p4330 A70-46278

Quasi-periodic influence of traveling disturbances on ionospheric F 2 layer small scale drift discontinuities

24 p4331 A70-46301

Lower ionosphere nonuniformities drift velocity and direction using space diversity reception

24 p4331 A70-46308

IONOSPHERIC DRIFT

Needle-shaped filament artificial ion cloud drift and diffusion in F 1 region plasma in presence of neutral wind and uniform electric field

01 p0070 A70-10401

Synoptic ionospheric observations during IQSY, discussing electron density profiles, absorption, drifts, etc

01 p0073 A70-10584

Seasonal phase changes of semidiurnal tidal wind components in lower ionosphere demonstrated from ionospheric drift measurements

01 p0078 A70-11212

Ionospheric discontinuities drift velocities from diversity reception data indicating no dependence on solar activity

01 p0083 A70-11531

F region irregularity drift, morphology and generation in magnetosphere, discussing ionospheric structure at different latitudes and solar activity association
02 p0293 A70-12572

Electrostatic drift-dissipative plasma instability and nocturnal equatorial spread F irregularities, discussing amplification in collision dominated medium
03 p0477 A70-13990

Electromagnetic drifts and neutral air winds effects on F 2 region derived from electron continuity equation, using Jacchia model atmosphere
04 p0677 A70-14966

Horizontal ionospheric small scale inhomogeneity drift measurements at two closely spaced points, noting agreement with global network stations
04 p0684 A70-15747

Magnetic activity effect on ionospheric drift speeds variation with latitude, observing correlation with electron density
05 p0837 A70-15922

Large scale ionospheric inhomogeneities anisotropy, dimensions and drift velocities from simultaneously measured irregular refraction
05 p0841 A70-16739

Radio astronomical observations of shape and drift velocity of focusing ionospheric discontinuities
05 p0841 A70-16740

VLF propagation between earth and moving dispersive ionosphere, considering medium motion effects in Maxwell-Minkowski equations solutions
06 p1007 A70-17462

Ionization irregularities and drift in sporadic E layer determined using Mitra method for ground based radio reflection
06 p1012 A70-18543

Ionospheric motions and irregularities effects on HF radio propagation using computer simulation involving ray tracing and ionosphere modeling
07 p1264 A70-19192

Horizontal ionospheric drift over Northern Hemisphere during low solar activity, studying spatiotemporal distribution patterns of drift parameters
07 p1266 A70-19438

F 2 small scale inhomogeneities drift relation to current systems of dynamo region, discussing solar activity effects on ionospheric conductivity
07 p1267 A70-19452

Ionospheric irregularities-diffraction patterns relative drifts, verifying point source effect for radio waves reflected from E and sporadic E layers
07 p1236 A70-20162

Horizontal ionospheric drift rates and traveling wave disturbances, showing differences between winter and summer
09 p1667 A70-22493

F region vertical electron drift velocity determined from Thomson scatter observations
09 p1671 A70-23665

Ionospheric irregularities showing dispersive motions from systematic skewness in cross correlation functions for satellite scintillations at spaced receivers
10 p1881 A70-24810

Asymmetric cross correlation functions in D and lower E region drift measurements interpreted in terms of moving screens
10 p1881 A70-24811

Field-aligned plasma velocity dependence on plasma diffusion and wind velocity illustrated with model of night F 2 layer
10 p1881 A70-24814

Scintillation sudden inception in Faraday rotation in Sodankylä and Oulu, noting diurnal north-south frontier movements in polar ionosphere
10 p1884 A70-25262

Ion component drift displacing components from E and F layers ascribed to vertical electric field presence in hydrogen arc
11 p2104 A70-25541

Ionospheric plasma drift vertical and meridional velocity components latitudinal distributions in F 2 region, considering wind effects in upper atmosphere
11 p2045 A70-25931

Three-point simultaneous observations for ionospheric drift characteristics in E and F regions
13 p2396 A70-29097

Finite Larmor radius interchange and LF drift oscillations due to magnetospheric temperature and density gradient stresses in trapped plasma
13 p2401 A70-29936

High altitude meteor winds, investigating atmospheric tides and short term wind oscillations, wind shears and drift nature
14 p2601 A70-30122

Quasi-periodic influence of traveling disturbances on ionospheric F 2 layer small scale drift discontinuities
14 p2570 A70-30226

Lower ionosphere nonuniformities drift velocity and direction using space diversity reception
14 p2571 A70-30233

Neutral winds effect on F region vertical ion drifts derived from continuity equation, noting diurnal and seasonal variations
14 p2574 A70-30738

Correlation apparatus for ionospheric drift measurement by spaced receivers using closed loop of magnetic tape
14 p2550 A70-30741

Lower ionospheric drift motions observed from VHF radio signal, relating to three paths near auroral zone during dark hours
14 p2574 A70-30749

F region horizontal drift velocity height and diurnal variations, using ionograms
14 p2574 A70-30751

Horizontal ionospheric small scale inhomogeneity drift measurements at two closely spaced points, noting agreement with global network stations
14 p2576 A70-30831

Correlated daily variations of ionospheric drift and anisotropy parameters in E and F regions at Thumba, India
15 p2725 A70-31858

Ionospheric drift measurement by 89 antennas array, testing validity of methods using three antennas
17 p3076 A70-34939

Ionospheric vertical base selection for recording discontinuities motion of F region
18 p3246 A70-36085

Ionospheric small scale ionization discontinuities vertical drift effect on diurnal variations of F 2 layer critical frequency
18 p3246 A70-36086

Vertical drift contribution to daytime N/h electron profiles in F 2 region, taking into account ionization-recombination processes and ambipolar diffusion
18 p3247 A70-36292

Horizontal ionospheric drift over Northern Hemisphere during low solar activity, studying spatiotemporal distribution patterns of drift parameters
18 p3249 A70-36912

F 2 small scale inhomogeneities drift relation to current systems of dynamo region, discussing solar activity effects on ionospheric conductivity
18 p3249 A70-36926

Polarization electric field in drifting ionospheric inhomogeneities, examining role of longitudinal currents
18 p3252 A70-36987

Ionospheric drift velocity fluctuations by similar fading method, discussing applicability and errors
19 p3408 A70-37312

Ionospheric movements measurement methods and data interpretation
19 p3415 A70-38415

Satellite-borne sensor for ionospheric ions velocity measurement, describing design and principles of operation
21 p3813 A70-40834

Ionospheric ions drift velocity horizontal and vertical components distribution, using satellite-borne sensor
21 p3813 A70-40835

Anomalous nighttime ionospheric total electron content increases seasonal and solar cycle dependences attributed to ionization sources due to electrodynamic drifts
21 p3815 A70-41061

Ion component drift displacing components from E and F layers ascribed to vertical electric field presence in hydrogen arc
21 p3882 A70-41291

Day and nighttime E and sporadic E layer drifts over low latitude station recorded by spaced receiver technique
22 p4020 A70-43166

Vertical velocity effects on ionospheric horizontal wind magnitude and direction, solving integral equations system by successive approximations
23 p4188 A70-44057

Quasi-periodic influence of traveling disturbances on ionospheric F 2 layer small scale drift discontinuities
24 p4331 A70-46301

Lower ionosphere nonuniformities drift velocity and direction using space diversity reception
24 p4331 A70-46308

IONOSPHERIC ELECTRON DENSITY

Oxygen collisional quenching rate in F region determined by comparing nightglow intensities with intensities calculated from electron density profiles
01 p0070 A70-10403

Synoptic ionospheric observations during IQSY, discussing electron density profiles, absorption, drifts, etc
01 p0073 A70-10584

Lower ionosphere radio wave partial reflection strength relationship to electron density profiles measured by rocket probes
01 p0045 A70-11089

Internal gravity waves theory to interpret large amplitude oscillations in electron density and temperature and ion temperature and velocity observed in thermosphere
01 p0079 A70-11215

Atmospheric gravity waves in F region, discussing neutral gas-ionization interaction and detection by electron density profile measurements
01 p0079 A70-11216

IONOSPHERIC ELECTRON DENSITY

F 1 layer nonlinear ionospheric continuity equation to investigate role of diurnal variations of loss and production processes in electron density midday biteout effect
01 p0079 A70-11221

Ionosphere total electron content diurnal and seasonal variations at midlatitudes, based on data analysis from Explorer 22 in polar orbit
01 p0080 A70-11223

Ionospheric measurements of electron density, electron and ion temperature profiles from strength of incoherent radio wave scattering
01 p0082 A70-11530

Ionospheric slopes and range frequency characteristics obtained from oblique incidence sounding of horizontally nonuniform ionosphere
01 p0083 A70-11534

Hourly N/h profiles of F region calculated from ionograms by normal integral method during magnetic disturbance, measuring region temperature
01 p0083 A70-11548

Molecular reaction rates and ion/electron vertical profile and concentrations in equatorial ionosphere, applying computer simulation to numerical solution of continuity equations
01 p0083 A70-11549

Diurnal variations in sporadic E layer and wind in ionosphere during equinox and solstice periods, noting wind shear mechanisms and ambient electron density
01 p0084 A70-11552

Solar eclipse effects in equatorial F region electron density, noting data analysis method for reexamining existing measurements
02 p0290 A70-12157

Solar activity effect on ionospheric total electron content via Explorer 22 observations, discussing relationship to solar elevation angle
02 p0292 A70-12561

Ionospheric electron concentration irregularities via satellite signal scintillation analysis, using radio wave diffraction theory
02 p0258 A70-12562

Total electron content / fEC , time delay and polarization errors on one way path through ionosphere, discussing measurements and predictions
02 p0293 A70-12568

Ionospheric electron density vertical distribution calculation starting from satellite measurements of total electron content
02 p0293 A70-12575

Geomagnetic activity effect on ionospheric electron content from statistical analysis of data obtained during three year period
02 p0293 A70-12576

Equatorial ionosphere ionization and electron density measurements by San Marco 2 satellite
03 p0475 A70-13830

Electron temperature and density data obtained during Alouette satellite passage over middle latitude red arc, noting influence of intersecting magnetic field lines
03 p0476 A70-13911

Traveling ionospheric disturbances from signatures left in columnar electron content records obtained by measuring signal Faraday rotation angle from geostationary satellite
03 p0477 A70-13991

Winter diurnal behavior of northern high latitude ionospheric electron density using temperature data from Langmuir probes
03 p0478 A70-13993

Uniform stratified layers in equatorial E region determined from Centaur rocket capacitance probe electron density observations, suggesting internal atmospheric gravity waves mechanism
03 p0478 A70-14222

Rocket-borne differential capacity probe measuring electron densities in upper atmosphere, reducing errors caused by temperature and composition variations
04 p0686 A70-14649

[AAS PAPER 69-567] Ion and electron concentrations far field disturbances caused by satellite motion in ionosphere and lower exosphere, deriving plasma drag
04 p0762 A70-14935

Mars and Venus ionospheres from Mariner profiles, discussing radiative equilibrium thermal calculations and F 1 layer hypothesis
04 p0753 A70-15069

Daytime midlatitude ionosphere composition and electron concentration profile measured by synchronized satellites and rocket, investigating discrepancy
04 p0741 A70-15110

Alouette 2 Langmuir probe measurements analyzed for size and amplitude of electron concentration fine structure irregularities in topside ionosphere, discussing F spread
04 p0679 A70-15111

Plasma transport models of polar ionosphere, discussing physical processes involved and effects on electron concentration, ion composition and speeds
04 p0679 A70-15113

Magnetoionic mode coupling in satellite transmissions through ionosphere near transverse region, using electron concentration profiles for night and daytime estimates
04 p0650 A70-15131

Magnetic activity effect on ionospheric drift speeds variation with latitude, observing correlation with electron density
05 p0837 A70-15922

F 2 layer electron density changes during geomagnetic storms linked to DS current and electromagnetic disturbances
05 p0838 A70-16280

Ionospheric electron content, virtual height and profile measured by Faraday effect of satellite radio emissions compared with radar soundings
05 p0839 A70-16288

Upper ionospheric electron density variations at low magnetic activity times observed with Alouette 2 satellite
05 p0901 A70-16307

Plane magnetopause models assuming ionospheric electrons ability to short circuit electric fields, constructing distribution functions by Vlasov theory
05 p0840 A70-16568

Ionospheric horizontal discontinuities of electron density distribution parameters effect on penetration frequency, skip distances and arrival angles
05 p0842 A70-16743

Ionograms for nonmonotonic vertical distribution of electron concentration in ionosphere from rocket and ground sounding
05 p0842 A70-16757

Radio wave absorption coefficient in lower ionosphere related to total radiation absorption and electron concentration profile
05 p0843 A70-16761

D region electron density distribution during night and presunrise period, using full wave integration method for propagation parameters for waves reflected from electron density model
06 p1054 A70-17587

Electron density distributions relation to D region diurnal and seasonal variations in radiowave absorption in terms of transport processes near mesopause
06 p1054 A70-17589

Seasonal variations of maximum electron concentration in stratified E-F region, including E 2 layer recombination coefficient and F layer characteristics probability
06 p1057 A70-17842

Ionospheric vertical electron concentration computer calculations compared to direct measurements data by satellite and rockets over Sofia
06 p1057 A70-17843

Ion and electron density, electron temperature and space potential measured in ion wake formed by Gemini spacecraft using sensors on Agena Target Vehicle
06 p1066 A70-18285

Rocket measurement techniques for electron density profiles in D region, giving results from auroral zone disturbed and midlatitude quiet D region
07 p1263 A70-19152

Reflection coefficient for radio wave pulse reflected from ionosphere with large scale fluctuations in electron density, compared to empirical data for reflecting surface irregularities
07 p1231 A70-19170

Nighttime recombination model of O ion plasma in upper ionosphere, showing temporal behavior and variation of electron concentration
07 p1265 A70-19432

Height scale of loss coefficient in F 2 region under geomagnetic perturbation at midnight based on electron number profiles, estimating thermosphere temperature
07 p1265 A70-19433

Numerical modeling of electron and molecular ion continuity equations describing conditions in lower F region near magnetic equator using analog computer
07 p1265 A70-19434

Harmonic analysis of ionospheric electron density oscillation spectra, noting density fluctuations classes due to internal gravity wave propagation and N/h profiles calculation errors
07 p1266 A70-19449

Sporadic E layer formation by vortical winds, discussing effect on ionospheric electron concentration distribution
07 p1267 A70-19454

Electron concentration profiles calculated during vertically moving perturbations to evaluate ionospheric state
07 p1267 A70-19458

Electron production rate enhancement by solar cosmic rays in lower ionosphere, considering particle distribution and polar cap absorption
07 p1369 A70-20153

Barium ion artificial clouds motions and striations due to cloud-ionosphere coupling, studying electron density variations below cloud in E layer
07 p1271 A70-20155

Closely spaced frequencies method of determining ionospheric electron content from Faraday rotation measurements
07 p1271 A70-20156

Integral methods of obtaining electron density profile of planetary ionospheres and interplanetary gases
07 p1388 A70-20160

Solar corpuscular fluxes directional distribution time dependent changes effect on lower ionospheric electron production rates
07 p1373 A70-20344

Electron production in lower ionosphere by solar cosmic rays, calculating rates by computer as function of nuclear charge number, energy spectrum and height
07 p1373 A70-20348

Ionospheric data of local and integral electron concentration obtained by measuring phase shift of satellite emitted coherent radio waves
07 p1276 A70-20422

Ionospheric electron content and concentration variations analysis based on data of radio waves propagating from satellite, considering Doppler shift and Faraday effect
07 p1237 A70-20427

Simultaneous ionospheric ion and electron measurements by various radiophysical methods, relating results to period of flight of vertical space probe
07 p1237 A70-20428

F region electron and ion concentration vertical distribution, discussing various ionization reactions
07 p1276 A70-20430

Ionospheric electron content estimated from measurements of Faraday rotation of VHF signals from geostationary satellite
08 p1489 A70-21388

Electron, oxygen and NO molecular ions concentrations for E region from computer calculations of diurnal model compared to observations
08 p1490 A70-21391

Diurnal vertical shifts of constant electron concentration levels in D region, considering effects of chromosphere, nuclear explosions, solar eclipses, etc
08 p1490 A70-21430

Venus ionosphere, discussing day and night electron density profiles, carbon dioxide presence, plasma interaction model, etc
09 p1750 A70-22058

Ionospheric electron content and distribution determination from Explorer 22 satellite signal amplitude recordings, considering wave propagation and polarization and Faraday effect
09 p1633 A70-22530

Lunar daily and monthly tidal variations in horizontal magnetic field and F 2 region maximum electron density and peak ionization height at Puerto Rico
10 p1872 A70-23823

Ionospheric electron content diurnal, latitudinal variations and equivalent slab thickness determined from observing satellite signals Faraday fading
10 p1874 A70-24426

Extraterrestrial electron density precision measurement using HF impedance probe with guard ring to remove ion sheath effects
10 p1892 A70-25255

Ionospheric electron content from Doppler data and from Faraday observations of satellite S-66
10 p1884 A70-25256

Ionospheric changes from field intensity and phase data of long distance propagation of long waves, determining electron concentration
10 p1884 A70-25258

Nocturnal E layer electron density profile dependence on solar activity
10 p1885 A70-25265

Polar ionosphere inhomogeneous electron concentration by analyzing satellite signal amplitude fluctuations received by spaced interferometers
11 p2042 A70-25528

Ionospheric reaction rate coefficients based on electron concentration curves, discussing maximum number and accuracy obtainable
11 p2043 A70-25538

Diurnal variation of equatorial ionospheric electron concentration from Schooner observations
11 p2043 A70-25548

Latitudinal ionospheric electron density and temperature variations at 1000 km within and near auroral zone
12 p2222 A70-27186

Ionospheric electron density, electron and ion temperature profiles measurements, comparing relative merits of radio-rocket ground-based radar and satellite methods
12 p2223 A70-27727

Ionospheric D region radio wave probing by cross modulation technique, obtaining electron densities and collision frequencies
12 p2224 A70-27733

Rocket measurement of ionospheric electron density based on radio propagation effects involving Doppler frequency shift, Faraday rotation, wave absorption, etc
12 p2224 A70-27736

E region plasma parameters measurement by in situ probes, considering electron density and temperature
12 p2225 A70-27737

Ionospheric electron content calculations based on satellite measurements of Faraday rotation and phase path length variations
12 p2294 A70-27739

Ionospheric electron content at temperate latitudes during solar cycle increasing phase by radio beacon satellite, discussing diurnal, seasonal and latitudinal variations
12 p2225 A70-27892

Topside ionosphere structural analysis, considering electron density profiles deduced from Alouette 2 satellite data
12 p2226 A70-28062

Ionospheric electron density profiles at various altitudes, using HF impedance probe method
12 p2227 A70-28261

Penumbra and geomagnetic threshold effects on ionospheric electron production by primary cosmic rays
12 p2296 A70-28366

Probe diagnostic techniques for ionospheric electron density and temperature measurement, describing results from P53H firing
13 p2404 A70-28691

Precipitated energetic electrons attenuation and impact ionization in ionosphere, determining vertical energy distribution profile
13 p2476 A70-28722

Ionospheric electrons velocity distribution function in steady state with oscillating electric field imposed in arbitrary direction with respect to magnetic field
13 p2395 A70-28941

Topside ionosphere structure deduced from resonance spikes on ionograms obtained by Alouette 2 satellite and electron density distributions
13 p2395 A70-29091

Low latitude scintillations from satellite transmission scintillations correlation with solar activity spread F, electron content and ionospheric irregularities
13 p2397 A70-29189

Electron density profiles interpretation for quiet daytime D region, noting role of electron-positive ion recombination coefficient
13 p2397 A70-29192

Noise rejection for optimal reception of incoherent binary signals in one beam Rayleigh dispersion radio channel under ionospheric electron density fluctuations
13 p2369 A70-29738

Delayed ionospheric resonance echoes radiated from topside plasma after pulse sequence stimulation by Alouette 2 satellite
13 p2370 A70-29904

Ionospheric electron density measurements with high altitude rocket swept frequency RF impedance probe
13 p2400 A70-29906

Vertical ionospheric electron concentration profiles, horizontal gradients and integral component from Doppler and Faraday signal recording on geophysical rockets, using diversity reception
14 p2569 A70-30205

Subpolar ionosphere electron concentration measurements for both hemispheres during solar activity by Faraday effect signal recordings from satellites
14 p2570 A70-30223

Lower ionosphere electron densities seasonal variations relationship to atmospheric circulation
14 p2574 A70-30742

Ionospheric total electron content measurements by Faraday method and bottom and topside soundings
14 p2580 A70-31258

Hydrogen UV geocorona photoionizing effect on nighttime E region electron density in low and midlatitudes, comparing with ionosonde data
14 p2581 A70-31270

Electron and ion temperature and electron density relationship in F region during sunspot maximum, using incoherent scatter experiment
14 p2581 A70-31271

Ionospheric electron concentration and temperature measurements by cylindrical Langmuir probe on rockets and satellites, emphasizing error sources
15 p2723 A70-31657

D region rocket sounding at geomagnetic equator, measuring electron density, collision frequency, current, temperature, etc
15 p2724 A70-31668

Polar ionospheric electron/ion density measurements by ESRO 1 satellite, observing dependence on Kp index
15 p2724 A70-31669

D region electron concentration and collision frequency in slowly varying plasma, using rocket-borne probe for ground emitted wave detection
15 p2778 A70-31673

Ionospheric electron density profiles between two locations calculated from oblique incidence ionograms, plotting radio path for ground range
15 p2726 A70-31861

Daytime seasonal anomaly in electron density of topside F 2 region near sunspot minimum, using Alouette 1 data

15 p2726 A70-31863

F region electron and ion densities, temperatures and plasma velocities computed for eclipse at Wallops Island on 7 March 1970

15 p2726 A70-31866

Polar peak F layer electron density around magnetic noon related to dayside aurora flux, comparing with soft particle precipitation

15 p2727 A70-31872

Neutral particle and electron density measurements by Explorer 32 proving thermospheric gravity waves association with wave-like structure in F region electron density

15 p2727 A70-31907

Diurnal, seasonal and latitudinal variations of maximum electron concentration in F 2 region, using global network observations

15 p2729 A70-32077

Planetary distribution of F region disturbances and related vertical electron concentration using satellite and ground data

15 p2729 A70-32079

Dynamic spectral characteristics of LF whistler signals for outer ionosphere electron profile determination, using satellite observation

15 p2729 A70-32081

F region electron density profiles interpretation by electron balance equation facilitating comparison of aeronomic and ionospheric data

15 p2731 A70-32091

Prolonged upper ionospheric observations from Sputnik 3, Transit 4A and Explorer 22 signals Faraday fading and phase shifts, showing electron content dependence on solar activity

15 p2731 A70-32093

D region electron density rocket measurements implying recombination coefficient

16 p2896 A70-32939

F region electron content and recombination times during solar eclipse of 7 March 1970, using Faraday rotation technique

16 p2897 A70-33829

Ionospheric electron content measurement during solar eclipse of 7 March 1970, using VHF radio waves from geostationary satellites

16 p2897 A70-33830

Ionospheric electron density during solar eclipse of 7 March 1970, using Faraday rotation measurements of geostationary satellites VHF transmissions

16 p2898 A70-33831

D region electron density variations during solar eclipse of 7 March 1970, using wave interaction technique

16 p2898 A70-33832

F region integrated electron density response during solar eclipse of 7 March 1970, using Faraday rotation of linearly polarized signals from ATS 3

16 p2898 A70-33835

S band occultation experiment for Mariner Mars 1971 orbiters, measuring atmospheric density and ionospheric electron density profiles

16 p2978 A70-34032

Electron density measurements in lower ionosphere by narrow band VLF receiver flown in Tomahawk rocket during quiet daytime

17 p3076 A70-34938

Nighttime E region structure variations observed by Wallops Island rocket flights, obtaining electron density profiles by Langmuir probe during ascent

17 p3076 A70-34941

Ionospheric E layer formation, investigating role of solar X ray control by electron production rate and density calculations

17 p3151 A70-34943

Lower ionosphere electron density and winter anomaly in HF absorption

17 p3077 A70-34948

Time span in total electron content (TEC)/measurements on BE-B and BE-C ionospheric satellites by differential Doppler method, applying chi sub O super 2 test

17 p3077 A70-34986

Winter ionosphere electron density profile from rocket-borne gyro-plasma probe observations

17 p3078 A70-35308

Ionospheric sounding with gyro-plasma probe on Kappa 8-15 rocket, discussing electron density profiles and plasma resonance

17 p3079 A70-35638

Ionospheric VLF radio waves observations via wideband receiver on K-9M-26 rocket, determining electron density profiles

17 p3047 A70-35639

Ionospheric plasma disturbances due to moving space vehicle, investigating by electron density measurements in rarefied wake regions using gyro-plasma probe

17 p3142 A70-35763

Complex impedance measurements for monopole antenna for electron densities in/out of OGO satellite wake in upper ionosphere

17 p3080 A70-35771

Rocket measurements showing removal of electrons above mesopause in summer at high latitude

17 p3081 A70-35775

Electric fields in lower ionosphere during solar activity minimum above magnetic equator, using vertical profiles of ionospheric current magnetic fields and electron concentration

18 p3246 A70-36098

Vertical drift contribution to daytime N/h/ electron profiles in F 2 region, taking into account ionization-recombination processes and ambipolar diffusion

18 p3247 A70-36292

Nighttime recombination model of O ion plasma in upper ionosphere, showing temporal behavior and variation of electron concentration

18 p3249 A70-36906

Height scale of loss coefficient in F 2 region under geomagnetic perturbation at midnight based on electron number profiles, estimating thermosphere temperature

18 p3249 A70-36907

Numerical modeling of electron and molecular ion continuity equations describing conditions in lower F region near magnetic equator using analog computer

18 p3249 A70-36908

Harmonic analysis of ionospheric electron density oscillation spectra, noting density fluctuations classes due to internal gravity wave propagation and N/h/ profiles calculation errors

18 p3249 A70-36923

Sporadic E layer formation by vortical winds, discussing effect on ionospheric electron concentration distribution

18 p3249 A70-36928

Electron concentration profiles calculated during vertically moving perturbations for evaluation of ionospheric state

18 p3250 A70-36932

Ionospheric electric field formation from polarization of electron density inhomogeneities under anisotropic conditions

18 p3252 A70-36988

Electrons and ions diffusion effect on vertical distribution in F region, discussing diurnal variations at various heights

18 p3254 A70-37027

Ionization-recombination parameters based on diurnal variations of electron concentration in F 2 layer maximum, discussing latitudinal variations

18 p3254 A70-37033

Ionization-recombination parameters variation as function of season and solar activity, using diurnal changes of F 2 layer maximum electron concentration

18 p3254 A70-37034

Magnetosphere dynamics relationship with inhomogeneous electron density formation in F region, discussing scattering diurnal variations and intensity in magnetically conjugate points

18 p3255 A70-37035

F layer scattering and earth electromagnetic field short period oscillations, relating electron density with pearl micropulsations amplitude and occurrence

18 p3255 A70-37036

Lower E region electron concentration variations relationship with geomagnetic field disturbances

18 p3255 A70-37037

F 2 layer maximum electron concentration diurnal variations dependence on ionization intensity and dissociative recombination and ion-molecular reactions rate coefficients

18 p3255 A70-37039

Electron concentration disturbances in outer ionosphere and F 2 maximum on daylight side during magnetic storm

19 p3408 A70-37307

F layer absence and nonuniform horizontal electron concentration of nighttime ionosphere at high latitudes, using Alouette 1 sounding

19 p3408 A70-37308

E layer electron concentrations, effective recombination coefficient and ionization sources during solar eclipse, noting soft X radiation intensity

19 p3408 A70-37310

Vertical electron density profile variations during ionospheric perturbations in years of solar activity maximum and minimum

19 p3409 A70-37328

Electron concentration vertical profile in ionosphere as function of altitude of radio wave reflection and group refraction and velocity characteristics

19 p3409 A70-37329

Sporadic ionization occurrences nighttime observation in auroral E region, describing vertical electron concentration profile

19 p3410 A70-37331

Electron density measurements by rocket observation during PCA after solar flare of 25 February 1969, deriving effective loss rates in terms of recombination model

19 p3496 A70-37511

Ionospheric electron density and temperature variation measurements after solar proton event of 25 February 1969, using ESRO 1 satellite

19 p3411 A70-37514

IONOSPHERIC ELECTRON DENSITY

Ionospheric effects in solar eclipse compared with full sun conditions at same elevation angle, emphasizing E, F and D regions ion and electron composition

19 p3418 A70-38902

Ionospheric rocket measurements during solar eclipse of 12 November 1966, observing electron and ion density decrease

19 p3418 A70-38907

D region electron density profiles during solar eclipse from X ray rocket and satellite observations

19 p3419 A70-38913

D region electron densities during 20 May 1966 solar eclipse, using partial reflection and rockets

19 p3419 A70-38914

Ionospheric electron content measurements during 20 May 1966 solar eclipse by Beacon S-66 satellite

19 p3419 A70-38915

E and F region electron density response to incident radiation intensity on upper atmosphere during solar eclipses

19 p3419 A70-38916

Vertical electron concentrations in upper F region during solar eclipses in South Atlantic from satellite observation

19 p3419 A70-38920

Lunar perturbations in horizontal geomagnetic field, F 2 layer thickness and electron density, discussing tidal variations

20 p3617 A70-39141

Stable midlatitude red arc observation by Alouette 2 satellite for electron temperature and density structure measurement, calculating intensity and extent

20 p3620 A70-39333

Seasonally biased electron density enhancements in nighttime response of topside ionosphere to magnetic storms

20 p3621 A70-39342

Solar eclipse effects on equatorial F 2 layer by transient solutions of time dependent continuity equation, calculating electron concentrations

20 p3622 A70-39453

Soviet book on ionospheric interlayer formations covering electron concentration distribution, E-2 layer occurrence frequency, recombination coefficient, etc

20 p3622 A70-39823

Diurnal variations and spatial distribution of total electron content in equatorial ionosphere

20 p3623 A70-40477

Ionospheric electron density response to geomagnetic storms at midlatitudes, noting diurnal variations detected by ATS 3 VHF signals

20 p3623 A70-40479

Total ionospheric electron content nocturnal and latitudinal variations in winter at midlatitudes

20 p3624 A70-40480

Solar activity effects on ionospheric total electron content seasonal variations over Tortosa, using BE-B satellite data

20 p3624 A70-40482

Ionosphere and magnetosphere total electron content from beacon method of measuring difference-differential-doppler (DDD) and Faraday effects via synchronous satellite signal frequencies

20 p3590 A70-40484

Ionospheric electron density disturbance heights measured via radio signal scintillation from earth satellite, using spaced receiver method

20 p3590 A70-40491

D region electron density profiles from high power wave interaction measurements during solar flare, indicating non-X-ray production rate

21 p3879 A70-40942

Geostationary beacon satellite recording of gravity wave influence on ionospheric electron content

21 p3815 A70-40943

Anomalous nighttime ionospheric total electron content increases seasonal and solar cycle dependences attributed to ionization sources due to electrodynamic drifts

21 p3815 A70-41061

Midlatitude F 2 layer electron density structure using theoretical model, accounting for atmospheric physical and chemical processes

21 p3815 A70-41062

F region synoptic electron densities and electron and ion temperatures from Thomson scatter radar data

21 p3816 A70-41065

Ionospheric D region electron production by cosmic X rays, noting Lyman radiation effects

21 p3882 A70-41099

D region electron density profiles, using magnetoionic differential-phase partial-reflection technique

21 p3818 A70-41100

Polar ionosphere inhomogeneous electron concentration by analyzing satellite signal amplitude fluctuations received by spaced interferometers

21 p3819 A70-41278

Ionospheric reaction rate coefficients based on electron concentration curves, discussing maximum number and accuracy obtainable

21 p3819 A70-41288

Diurnal variation of equatorial ionospheric electron concentration from schooner observations

21 p3819 A70-41298

- Nighttime equatorial E region small scale irregularities detected by rocket-borne Langmuir and plasma noise probes, discussing generation mechanism
22 p4018 A70-43108
- F region electron density measurement during magnetic storm by incoherent scatter technique
22 p4019 A70-43157
- Recombination model of diurnal variation of electron density in midlatitude D region, assuming NO ionization by solar Lyman-alpha radiation
22 p4020 A70-43158
- Ionospheric electron content measurement during solar activity cycle, noting temporal and spatial variations
22 p4020 A70-43159
- F region electron content day-to-day changes observation by Early Bird satellite, determining cross correlation with magnetic indices
22 p4020 A70-43161
- Total electron content and equivalent slab thickness statistical data during magnetic disturbances from AT-3 satellite VHF transmission observations
22 p4020 A70-43162
- Lower E region recombination coefficients from electron density and flux measurements in glow aurora by Nike-Apache rocket
22 p4020 A70-43163
- Electron density profiles calculation from model atmosphere, deriving F 2 layer ionization vertical distribution
22 p4023 A70-43303
- Ionospheric electron trough and magnetospheric plasmapause movements from satellite observations, showing statistical correlation with geomagnetic field
23 p4186 A70-43854
- F 2 layer critical frequency and maximum electron concentration statistical characteristics for predicting SW propagation conditions
23 p4188 A70-44056
- E region additional ionization source during solar activity maximum, analyzing ion production function and electron concentration
23 p4190 A70-44077
- E region electron concentration profiles, using ground sounding equipment allowing accurate signal reflection altitude measurements
23 p4190 A70-44078
- Lower ionosphere electron concentration space-time variations related to ionization source intensity fluctuations based on rocket observations and ground sounding data
23 p4190 A70-44079
- Ionospheric electron content measurement from Faraday effect of troposphere on beacon satellite Explorer 22 radio signals
23 p4163 A70-44231
- Electron density measurements in ionosphere along rocket trajectory, using sweep frequency RF impedance probe with guard ring
23 p4192 A70-44877
- Electron density and collision frequency distributions in lower ionosphere, deriving error limits from VLF and LF sounder data
24 p4314 A70-46127
- Vertical ionospheric electron concentration profiles, horizontal gradients and integral component from Doppler and Faraday signal recording on geophysical rockets, using diversity reception
24 p4330 A70-46280
- Subpolar ionosphere electron concentration measurements for both hemispheres during solar activity by Faraday effect signal recordings from satellites
24 p4331 A70-46298
- IONOSPHERIC F-SCATTER PROPAGATION**
Radio wave scattering cross section in wake of body moving in ionosphere, using simplified procedure with asymptotic expressions
11 p2012 A70-26787
- Terrestrial ELF waves F layer nighttime reflections, discussing effects of electron density, geomagnetic field radial component and absorption by ions
13 p2365 A70-29190
- F 2 layer effects on ionospheric short wave scattering lines for operating frequencies above MUF
14 p2547 A70-30231
- Short wave propagation above F2 maximum usable frequency, observing field intensity and SNR seasonal and diurnal variations
18 p3226 A70-36092
- Short wave ionospheric scatter propagation, observing interference and crowding in 16-23 MHz and relationship to F 2 layer maximum usable frequency
18 p3227 A70-36093
- F 2 layer effects on ionospheric short wave scattering lines for operating frequencies above MUF
24 p4316 A70-46306
- IONOSPHERIC HEATING**
Daytime ionospheric electron temperature as function of electron-neutral particle collision reaction and nonlocal heating effect
01 p0170 A70-10407
- Radar Thomson backscatter observations of ion temperature and ion-neutral collision frequency used to investigate reversible heating in E region
03 p0477 A70-13988
- Protonospheric heating by photoelectrons from conjugate ionosphere using Explorer 31 data
08 p1489 A70-21387
- Ionosphere dynamo region thermal input by Joule heating and solar radiation and coupling to various thermostatic modes, observing semidiurnal and semianual effects
11 p2047 A70-26569
- F 2 layer heating by photoelectrons reconsidered in terms of electron inelastic collisions effect on temperature
15 p2727 A70-31870
- F region heating by magnetic storms, discussing electron temperature, ring current conduction and red arcs
21 p3817 A70-41095
- IONOSPHERIC ION DENSITY**
Ionospheric ion and neutral constituents composition from D region to magnetopause, noting ion-chemical reaction rates
01 p0074 A70-10588
- Ionization variations and correlation coefficients of F 2 critical frequency variations, using airborne ionospheric sounder over Sogra and Kerguelen Island conjugate areas
01 p0080 A70-11224
- Hourly N/h/ profiles of F region calculated from nomograms by normal integral method during magnetic disturbance, measuring region temperature
01 p0083 A70-11548
- Molecular reaction rates and ion/electron vertical profile and concentrations in equatorial ionosphere, applying computer simulation to numerical solution of continuity equations
01 p0083 A70-11549
- Ionospheric molecular ion concentration vertical profile analysis for verifying neutral gas temperature maxima in connection with two ion production maxima
01 p0083 A70-11550
- Equatorial ionosphere ionization and electron density measurements by San Marco 2 satellite
03 p0475 A70-13830
- Water vapor ion cluster concentrations in D region, noting discrepancies above mesopause for model atmosphere predictions
03 p0478 A70-13992
- Positive ion concentration profiles in lower nighttime midlatitude ionosphere calculated from corpuscular radiation measurements and ion recombination constants
04 p0738 A70-14436
- Ion and electron concentrations far field disturbances caused by satellite motion in ionosphere and lower exosphere, deriving plasma drag
04 p0762 A70-14935
- Daytime midlatitude ionosphere composition and electron concentration profile measured by synchronized satellites and rocket, investigating discrepancy
04 p0741 A70-15110
- Plasma transport models of polar ionosphere, discussing physical processes involved and effects on electron concentration, ion composition and speeds
04 p0679 A70-15113
- Anomalous ionization variations of F 2 layer at northern geomagnetic pole during winter coincident with decrease in solar plasma density
04 p0682 A70-15726
- Positive correlation between normal ionizations at magnetically conjugate regions in ionospheric F 2 layer from aircraft vertical soundings
04 p0683 A70-15741
- F region ionograms processing with correction for ionization effects between E and F layers
04 p0684 A70-15748
- Ionized gas height scale changes in polar ionosphere obtained assuming Chapman type ionization distribution
05 p0841 A70-16738
- Horizontal electric fields relations to charged particle fluxes in polar auroral ionosphere
05 p0842 A70-16756
- Vertical motion of ionized formations in ionospheric F region related to sporadic E layer
05 p0842 A70-16760
- Ion and electron density, electron temperature and space potential measured in ion wake formed by Gemini spacecraft using sensors on Agena Target Vehicle
06 p1066 A70-18285
- D region positive ion composition measurements by rocket-borne quadrupole mass spectrometer, discussing downleg and upleg data
06 p1137 A70-18537
- Seasonal variation of F 1 region ion composition measured by rocket-borne mass spectrometer, noting altitude dependence of electron and ion temperatures
06 p1059 A70-18540
- Ionization irregularities and drift in sporadic E layer determined using Mitra method for ground based radio reflection
06 p1012 A70-18543
- Diurnal variations of lower F region ion composition and recombination coefficient based on numerical modeling of continuity equations for electrons and molecular species
07 p1265 A70-19431
- 27-day variations in ionization layer created by galactic cosmic rays, discussing association with 27-day cosmic ray and geomagnetic field variations
07 p1373 A70-20345
- Molecular ion concentrations, using flat probe collector trap on Cosmos 5 satellite at 200-300 km
07 p1276 A70-20421
- Simultaneous ionospheric ion and electron measurements by various radiophysical methods, relating results to period of flight of vertical space probe
07 p1237 A70-20428
- F region electron and ion concentration vertical distribution, discussing various ionization reactions
07 p1276 A70-20430
- Electron, oxygen and NO molecular ions concentrations for E region from computer calculations of diurnal model compared to observations
08 p1490 A70-21391
- Venusian ionosphere thermal protons and/or deuterons source observed by radio occultation method, suggesting dominance at high altitudes
10 p1938 A70-24068
- Nighttime concentration profiles of O, NO and molecular oxygen ions in ionosphere calculated from daytime values
10 p1874 A70-24428
- F 2 layer midday ionization level annual variation gradient, noting gradient latitudinal distribution dependence on solar activity level
11 p2042 A70-25532
- F 2 layer midday ionization equatorial anomaly during summer and winter solstices, using calculated mean critical frequencies
11 p2042 A70-25533
- Critical review of Meisel paper on solar X ray source identification using D layer ionization behavior during eclipse
11 p2109 A70-25750
- Temperature and ion effect on refractive index of VLF radio waves in quiet and disturbed ionospheric conditions
11 p2004 A70-25842
- Solar L alpha and X ray emission contribution to lower ionosphere ion production, discussing altitudinal, latitudinal and temporal variations
11 p2106 A70-26789
- Delayed ionization effects in midlatitude nighttime ionosphere after geomagnetic storms, noting time lag vertical distribution
12 p2227 A70-28365
- Positive ion concentration profiles in lower nighttime midlatitude ionosphere calculated from corpuscular radiation measurements and ion recombination constants
13 p2475 A70-28461
- Soviet book on solar short wave radiation effects on ionosphere, covering solar atmosphere and spectra, ionospheric ion concentration vertical distribution, etc
13 p2487 A70-28649
- Upper atmospheric ion and neutral composition from rocketborne mass spectrometry, allowing for rocket velocity and analyzers orientation with respect to velocity vector
14 p2568 A70-30140
- F 1 region ion structure diurnal variations, calculating photoionization rates
14 p2571 A70-30227
- Interlayer ionization valley depth influence on F region heights, calculating N/h/ profiles from ionograms
14 p2571 A70-30229
- Anomalous ionization variations of F 2 layer at northern geomagnetic pole during winter coincident with decrease in solar plasma density
14 p2575 A70-30810
- Positive correlation between normal ionizations at magnetically conjugate regions in ionospheric F 2 layer from aircraft vertical soundings
14 p2575 A70-30825
- F region ionograms processing with correction for ionization effects between E and F layers
14 p2576 A70-30832
- Ionospheric investigation techniques, considering ionization balance, winds and turbulence
14 p2580 A70-31259
- Polar ionospheric electron/ion density measurements by ESRO 1 satellite, observing dependence on Kp index
15 p2724 A70-31669
- E region ion composition from rocket-borne mass spectrometer data
15 p2725 A70-31689
- Terrestrial planetary ionospheres, discussing charged particle density distribution of Mars daytime ionosphere and Venus day and dark sides
15 p2799 A70-31748
- F region electron and ion densities, temperatures and plasma velocities computed for eclipse at Wallops Island on 7 March 1970
15 p2726 A70-31866

F 2 layer afternoon and evening ionization maxima dependence on season, zenith angle and solar activity
15 p2730 A70-32084

Hydrogen, He and oxygen ion density, and ion and electron temperatures in upper ionosphere from OGO 4 observations
18 p3244 A70-36016

Cosmic ray variations during PCA absorption, relating Forbush decreases to lower ionosphere ionization intensity increase
18 p3306 A70-36096

Upper atmospheric ion composition during Orionid meteor shower activity by rocket-borne RF mass spectrometer
18 p3247 A70-36183

Diurnal variations of lower F region ion composition and recombination coefficient based on numerical modeling of continuity equations for electrons and molecular species
18 p3249 A70-36905

Electrons and ions diffusion effect on vertical distribution in F region, discussing diurnal variations at various heights
18 p3254 A70-37027

Ion composition and charged particle vertical distribution in F region and protonosphere from satellite and ground based observations
18 p3254 A70-37028

Indeterminacy interval reduction for ionospheric reaction rate constants by imposing supplementary condition on NO/oxygen molecular ion concentrations ratio
19 p3408 A70-37309

Ionization rate experimental profiles during maximum solar activity compared with calculations, showing additional source of ionization in E region
19 p3409 A70-37322

Nitrogen dioxide and molecular oxygen ions densities in lower ionosphere as function of solar corpuscular radiation
19 p3409 A70-37325

D region positive ion density during solar proton event by Arcas rocket-borne cylindrical electrostatic probe
19 p3411 A70-37512

Simultaneous hydrogen ion composition measurements by upper ionospheric polar orbiting OGO 3 at eccentric orbiting magnetospheric OGO 3 at midlatitude
19 p3520 A70-38377

Ionospheric effects in solar eclipse compared with full sun conditions at same elevation angle, emphasizing E, F and D regions ion and electron composition
19 p3418 A70-38902

Ionospheric rocket measurements during solar eclipse of 12 November 1966, observing electron and ion density decrease
19 p3418 A70-38907

Magnetoionic component of entire N/z profile on incomplete ionospheric traces, including invisible part of ionogram
19 p3419 A70-38957

Positive ionospheric ion species concentration measurements using magnetic deflection mass spectrometer on Explorer 31 satellite
21 p3815 A70-40999

F 2 layer midday ionization level annual variation gradient, noting gradient latitudinal distribution dependence on solar activity level
21 p3819 A70-41282

F 2 layer midday ionization equatorial anomaly during summer and winter solstices, using calculated mean critical frequencies
21 p3819 A70-41283

Minor ion diffusion coefficients in F 2 region, noting Coulomb collisions role in ion density sensitivity to ionospheric fluxes
22 p4019 A70-43109

Ionospheric bremsstrahlung X ray flux and ionization rate, considering electron-atom and electron-ion collisions as function of altitude
22 p4095 A70-43293

Polar cap ionization processes in F region, discussing effects of particle precipitation, solar radiation, electromagnetic field drifts, atmospheric winds and magnetospheric tail distortion
22 p4024 A70-43309

Wind induced modification of E region ionization density profiles, using coupled continuity equations for ion species
23 p4214 A70-44040

Polar ionosphere ion composition measurement by meteorological rocket-borne RF mass spectrometer
23 p4190 A70-44081

F 1 region ion structure diurnal variations, calculating photoionization rates
24 p4331 A70-46302

Interlayer ionization valley depth influence on F region heights, calculating N/h profiles from ionograms
24 p4331 A70-46304

IONOSPHERIC NOISE

NT WHISTLERS
Tabulated values of F 2 mean solar noise indexes predicted by fifteenth degree polynomials
05 p0813 A70-16275

Coulomb collisions effect on electrostatic lower hybrid resonance waves propagation in ionosphere, noting noise bands cut-off shift
10 p1874 A70-24429

Sounding rocket instrumentation for ionospheric VLF radio noise measurement and recording
17 p3090 A70-35398

Ionospheric radio noise measurements with VLF wideband receivers onboard rocket
17 p3046 A70-35399

IONOSPHERIC PROPAGATION

NT IONOSPHERIC F-SCATTER PROPAGATION
VLF wave propagation across sunrise line analysis based on idealized model for earth-ionosphere waveguide
01 p0042 A70-10048

Stratospheric temperature changes connection with winter D region absorption changes
01 p0073 A70-10583

Synoptic ionospheric observations during IQSY, discussing electron density profiles, absorption, drifts, etc
01 p0073 A70-10584

Ionospheric F layer in equatorial, mid and high latitude regions for various major phenomena including anomalies, neutral air winds, photoelectrons, etc
01 p0073 A70-10585

Dual frequency ranging within narrow bandwidth of VHF communications satellite repeater for transmitted signals correction of ionospheric refraction error
01 p0043 A70-10781

Ionospheric reflection coefficients calculations by two full wave theory, using related monoenergetic and collisional frequency profiles and 10-100 kHz frequencies
01 p0076 A70-10870

Lower ionosphere radio wave partial reflection strength relationship to electron density profiles measured by rocket probes
01 p0045 A70-11089

F 1 layer nonlinear ionospheric continuity equation to investigate role of diurnal variations of loss and production processes in electron density midday biteout effect
01 p0079 A70-11221

Book on ionospheric scattering effects on long distance radio communication, considering Arctic ionosphere, scatter propagation, modulation, sporadic E, etc
01 p0046 A70-11305

Radio waves scattering in ionosphere, analyzing dependence on latitude, altitude, azimuth and polarization angle, considering anisotropy due to geomagnetic field
01 p0046 A70-11452

Phase fluctuations measurements of obliquely incident signal reflected from ionosphere performed over distance of 1300 km, showing amplitude dependence
01 p0046 A70-11533

Geomagnetic field directed hydromagnetic waves propagation in lower ionosphere noting inhomogeneous conductivity, Hall effect and lines of forces role
01 p0083 A70-11546

Vertical probe observations of short radio waves propagation through sporadic E at various frequencies and path lengths
01 p0084 A70-11553

Correlation between sunspot number index and solar radio noise index relative to ionospheric propagation, noting computer analysis program and hysteresis effect
02 p0289 A70-12107

Ionospheric absorption associated with sudden stratospheric warmings following geomagnetic disturbances in 1958 and 1963
02 p0290 A70-12159

Electromagnetic pulse duration formed by spectral content in HF bandwidth received after ionospheric reflection
02 p0258 A70-12419

Magnetoionic mode coupling in satellite transmissions through ionosphere near transverse region, showing diurnal variations and error of electron content
02 p0259 A70-12563

Total electron content (TEC), time delay and polarization errors on one way path through ionosphere, discussing measurements and predictions
02 p0293 A70-12568

Dispersive Doppler shift and Faraday rotation second order theory for curved earth-ionosphere geometry, calculating phase path differences
02 p0260 A70-12574

VLF energy propagation using ceramic dielectric model of earth-ionosphere waveguide
02 p0269 A70-12592

Airplane navigation based on VHF ranging between aircraft and geostationary satellite, examining errors by unknown propagation characteristics of signal in ionosphere
02 p0262 A70-12594

Phase distortion and Faraday rotation of wideband radio waves propagating through ionosphere
03 p0449 A70-13584

Solar X-ray bursts observations correlation with sudden phase anomalies measured at long VHF propagation paths in lower ionosphere
03 p0558 A70-13601

VLF radio wave propagation variations occurring in earth-ionosphere waveguide contributing to errors in OMEGA position lines used to obtain worldwide navigational fixes
03 p0523 A70-13614

VLF wave propagation in earth-ionosphere waveguide, comparing ray and waveguide-mode theories
03 p0449 A70-13616

Poynting flux direction for proton whistlers determined from Injun 5 observations, obtaining data on source region and propagation in ionosphere
03 p0477 A70-13987

Traveling ionospheric disturbances from signatures left in columnar electron content records obtained by measuring signal Faraday rotation angle from geostationary satellite
03 p0477 A70-13991

Error correction for previous derivation of radio propagation of wave-hop series for anisotropic ionosphere resulting in improved nighttime field strength accuracy
04 p0649 A70-14967

Nonducted VLF walking trace whistlers and Doppler shifts in fixed frequency transmissions identified on OGO midlatitude spectrographic records
04 p0649 A70-15116

Topside ray trajectories near upper hybrid resonance
04 p0650 A70-15119

Magnetoionic mode coupling in satellite transmissions through ionosphere near transverse region, using electron concentration profiles for night and daytime estimates
04 p0650 A70-15131

Ionospheric propagation experiments to measure radio echo height changes, observing correlation between LF signal reflection and MF transmitter power
04 p0650 A70-15132

Ionospheric integral radio absorption measured by radio astronomical A2 method, including anomalous absorption during disturbances
04 p0650 A70-15283

Signal amplitude and Doppler shift statistical characteristics calculated from sounding data on scattering at lower ionospheric discontinuities
04 p0650 A70-15284

Lower ionospheric cosmic layer state during Forbush decreases from radio absorption observations interpreted on basis of electron production rate analysis
04 p0743 A70-15720

Ionospheric inhomogeneities motion and vertical profile of atomic oxygen concentration associated with solar particle absorption in upper layer
04 p0681 A70-15724

Radio wave scattering increase in moving body wake near caustic in vertically inhomogeneous ionosphere
04 p0653 A70-15725

Radio wave-ionosphere interaction effects on accuracy of radio astronomical observations from earth satellites
04 p0683 A70-15740

Transmission and reflection coefficients of propagating whistler modes for model ionosphere
05 p0837 A70-15880

HF oblique ionospheric soundings over long temperate latitude path, discussing measured angles of elevation and multipath time dispersion
05 p0847 A70-15998

Ionospheric horizontal discontinuities of electron density distribution parameters effect on penetration frequency, skip distances and arrival angles
05 p0842 A70-16743

Radio waves propagation along polar auroras region, obtaining ionospheric parameters for magnetic disturbances based on penetration probability
05 p0842 A70-16744

Seasonal variation in ionospheric radiation absorption related to time variation between sunrise and constant angle attainment of sun
05 p0842 A70-16758

Radio wave absorption coefficient in lower ionosphere related to total radiation absorption and electron concentration profile
05 p0843 A70-16761

Satellite observations of VLF and ELF resonances related to ionospheric plasma singularities
06 p1118 A70-17375

VLF propagation between earth and moving dispersive ionosphere, considering medium motion effects in Maxwell-Minkowski equations solutions
06 p1007 A70-17462

Rate of change of radio ray path length for transionospheric satellite VHF signals determined from Doppler and Faraday effect analyses
06 p1008 A70-17578

Variational ray path calculation method for HF electromagnetic wave in anisotropic inhomogeneous lossless ionospheric plasma

06 p1055 A70-17592

Phase path variation of stable continuous wave transmission reflected from E region during daytime, discussing night time results

06 p1055 A70-17593

Nighttime radio wave absorption in ionosphere during moderate solar activity based on echo observations

06 p1056 A70-17840

Ionospheric absorption at oblique incidence during IQSY, studying seasonal and diurnal variations as solar zenith angle function

06 p1009 A70-17905

Apparent resonance frequencies of earth-ionosphere cavity excited by single dipole source, noting dependence on source-observer separation

06 p1058 A70-18414

VLF noise phenomena observed with satellite electric dipole antennas compared with lower hybrid resonance frequency of ionospheric medium in vicinity

06 p1011 A70-18534

HF signals propagation through auroral curtain investigated for scattering or blanketing effects, discussing ground scatter echo cut-off caused by sporadic E layer

06 p1011 A70-18538

Oblique ionospheric radio wave propagation at frequencies near lowest usable HF - NATO/AGARD Conference, Leicester, England, July 1966

07 p1227 A70-19151

D and lower E region absorption of short waves, studying absorption distribution with height

07 p1263 A70-19153

Ionospheric absorption diurnal and seasonal variations determined from field strength recordings

07 p1263 A70-19154

Pulse amplitudes and delays measured for oblique absorption values during IGY over 1000 km transmission path for correlation with lower ionosphere model

07 p1228 A70-19155

LUF for F layer propagation modes, discussing mode cut-off significance using computer ray tracing program

07 p1229 A70-19159

Polarization and absorption of radio waves in ionosphere using Appleton-Hartree equations, calculating LUF as function of sunspot number

07 p1229 A70-19160

Field strength predictions for expected returns from backscatter ionospheric soundings, predicting ionospheric propagation modes and losses during sunspot minimum

07 p1229 A70-19161

Three dimensional ray tracing computer program in Fortran for determining radio paths in ionosphere

07 p1230 A70-19163

Ionospheric radio transmission field strength calculation for given electron density and collision frequency profiles, considering electron variations along transmission path

07 p1230 A70-19165

Ray tracing in ionospheric HF communications, describing computational method for ray paths and ionospheric absorption

07 p1230 A70-19166

Doppler technique for HF ionospheric radio signal fading, observing frequency spreading during flutter fading conditions in low geomagnetic latitudes

07 p1231 A70-19169

Reflection coefficient for radio wave pulse reflected from ionosphere with large scale fluctuations in electron density, compared to empirical data for reflecting surface irregularities

07 p1231 A70-19170

Ray theory for determining short term and averaged characteristics of nonreciprocal HF ionospheric propagation paths for single magnetoionic waves transmitted between antennas

07 p1231 A70-19171

Oblique measurements in HF on Kiruna-Stockholm path with two fixed frequency pulsed transmitters, comparing results to ionosonde measurements

07 p1232 A70-19175

Ionospheric reflection coefficients from vertical and oblique incidence pulse amplitude data, discussing night conditions effect on Ottawa pulse transmissions

07 p1232 A70-19176

Lowest useful frequency (LUF) prediction on long distance quasi-antipodal circuit, considering E layer blanketing

07 p1232 A70-19178

Effective LUF fade-out and fade-in times seasonal and diurnal variations for oblique ionospheric propagation paths, noting sunspot number effects

07 p1233 A70-19180

Lowest usable frequency (LUF) measurement and prediction through synchronized oblique ionospheric sounding

07 p1233 A70-19181

Oblique incidence HF pulse ionospheric sounding, discussing propagation modes, seasonal and diurnal effects, frequency spectra, etc

07 p1233 A70-19182

Ionospheric HF radio wave propagation, describing oblique backscatter sounding during IQSY

07 p1233 A70-19183

LF waves and irregularities in ionosphere - Conference, Frascati, Italy, September 1968

07 p1263 A70-19186

LF ion-acoustic waves in ionosphere, considering electric and magnetic field variations, instability, etc

07 p1347 A70-19187

Ionospheric motions and irregularities effects on HF radio propagation using computer simulation involving ray tracing and ionosphere modeling

07 p1264 A70-19192

LF waves and irregularities in auroral ionosphere determined by radar measurements, suggesting role of plasma waves cross modulation

07 p1264 A70-19193

Satellite signal scintillation phenomenon morphological study and relationship to ionospheric irregularities

07 p1234 A70-19194

Sunrise effects in lower ionosphere at midlatitude, discussing long wave absorption measurements, summer electron concentration profile and consistency of aeronomic model

07 p1235 A70-19436

Graphic method of calculating radio wave absorption in ionosphere and field strength at reception point with aid of vertical sounding data

07 p1235 A70-19437

Ionospheric radio wave absorption and geomagnetic perturbations correlated with solar activity variations

07 p1267 A70-19457

Ionospheric distortion of linearly FM radio signals used for sounding, considering signal characteristics in distortion equations

07 p1268 A70-19459

Radio wave absorption in Venusian ionosphere, estimating effective collision number

07 p1235 A70-19491

Ionospheric radio wave (auroral) absorption during substorm investigated for longitudinal and latitudinal variations by multistation riometer measurements, inferring electron precipitation characteristics

07 p1269 A70-20030

Ionospheric absorption of hydromagnetic waves propagated normal to magnetic field, comparing daytime to nighttime absorption

[AFCL-70-0133] 07 p1270 A70-20031

Daylight ionospheric scatter propagation and absorption during energetic electron precipitation event in auroral zone using bremsstrahlung observations at balloon altitude

07 p1271 A70-20154

Ionospheric irregularities-diffraction patterns relative drifts, verifying point source effect for radio waves reflected from E and sporadic E layers

07 p1236 A70-20162

Stratosphere-ionosphere coupling, dynamo theory on geomagnetic Sq variation and ionosphere radio wave absorption and reflection

07 p1274 A70-20271

Winter anomaly ionization in lower ionosphere at medium latitudes from radio propagation observations, comparing wave absorption and phase height measurements

07 p1274 A70-20273

Scattering cross sections of radio waves at wake of vertically moving body near reflecting ionospheric layer, noting wave sphericity influence

07 p1237 A70-20423

Electromagnetic field of horizontal LF electric dipole formed by thin ionosphere layer between anisotropic planes

07 p1277 A70-20447

Perturbed ionospheric regions acting as radio wave focusing lens, discussing frequency, power and pattern selection

07 p1237 A70-20448

Recording technique for measuring short period variations of radio signal reflections altitudes from ionosphere applicable to fast ionospheric processes

07 p1277 A70-20454

Scattered field from rough ionospheric irregularities or earth surface for arbitrary polarization of incident wave

08 p1456 A70-20574

Communication channel average binary error and stationary Markov chain state probabilities relationship, using mathematical model and HF ionospheric FSK error sequence measurement

08 p1458 A70-20793

Field strength and interferential structure at different cross sections of inhomogeneous ionospheric channel calculated during bounce mode propagation of radio waves

08 p1461 A70-20969

Electron-to-ion temperature ratio determined from ion and plasma line components of radar Thomson scatter signal from ionosphere

08 p1489 A70-21389

Deviating and nondeviating absorption of radiowaves in ionosphere, deriving vertical distribution of particle collisions in E layer

08 p1490 A70-21431

Earth-ionosphere waveguide propagation variations effects on Omega navigation system position errors

08 p1541 A70-21564

Stationary phase for beam of radio waves propagating in absorbent ionosphere as function of mean directions of real and imaginary parts of wave vector

09 p1665 A70-22049

Ionospheric irregularities investigated by rocket- and satellite-borne transmitters, obtaining ionization profiles from amplitude, phase and polarization of radio waves

09 p1669 A70-23273

Distortion of electromagnetic pulse undergoing total internal reflection in inhomogeneous isotropic plasmas in lower ionosphere

09 p1639 A70-23672

Loran C radio wave field intensity diurnal variations measurements, investigating ionospheric waves characteristics

10 p1832 A70-23921

Coulomb collisions effect on electrostatic lower hybrid resonance waves propagation in ionosphere, noting noise bands cut-off shift

10 p1874 A70-24429

Group velocity and propagation of hydromagnetic waves in ionospheric duct, comparing calculations and measured values

10 p1875 A70-24442

Ionospheric scintillations of lunar radar echo components isolation by CW Doppler shift or coherent pulse time delay techniques

10 p1841 A70-24802

Geometrical light depolarization in randomly inhomogeneous medium, discussing light propagation in turbulent atmosphere and ionospheric radio propagation

10 p1844 A70-25162

Ionospheric changes from field intensity and phase data of long distance propagation of long waves, determining electron concentration

10 p1884 A70-25258

Ionospheric waves positive phases and disturbances related to solar activity variations and cosmic ray modulations

10 p1885 A70-25270

Electromagnetic wave propagation through weakly inhomogeneous plasma layer with frequent electron-molecule collisions, noting applicability to ionosphere

11 p2003 A70-25530

Pulsed radio waves interactions during vertical propagation through perturbed ionosphere using cross modulation theory concepts, considering perturbation waves effects

11 p2003 A70-25531

Radio wave reflection from ionosphere, discussing suppression of magnetoionic component with fluctuating elliptical polarization

11 p2003 A70-25534

Auroral radio wave absorption in ionosphere at longitudinally opposite stations compared for appearance probability and variational properties

11 p2043 A70-25537

Equivalent angles of slope calculations based on rotary oblique probing data for spherical models of earth and ionosphere, deriving minimum equivalent beam path

11 p2043 A70-25539

Polarization regularities of Pc 1 oscillations interpreted from propagation along ionospheric waveguide centered at F 2 layer

11 p2043 A70-25543

Electromagnetic wave propagation in spatially inhomogeneous isotropic ionosphere, determining phase, amplitude, polarization, absorption, arrival angle, etc

11 p2003 A70-25547

Sporadic E formation correlation to geomagnetic activity from ionospheric radio absorption observed at midlatitude and polar zone stations

11 p2044 A70-25554

Temperature and ion effect on refractive index of VLF radio waves in quiet and disturbed ionospheric conditions

11 p2004 A70-25842

Refractive index profiles method for vertically polarized electromagnetic waves in horizontally stratified magneto-plasma extended to anisotropic media, noting relevance to ionospheric propagation

11 p2011 A70-26555

VLF and ELF EM wave propagation in earth-ionosphere cavity during solar flares

12 p2183 A70-27189

D region synoptic ionization changes investigated by radio waves partial reflection from lower ionosphere, relating wave amplitudes to height

12 p2224 A70-27732

Ionospheric absorption measurements by HF and VHF techniques, discussing electron density profiles, collision frequencies, anomalies and aeronomic and ionospheric implications

12 p2224 A70-27735

Rocket measurement of ionospheric electron density based on radio propagation effects involving Dop-

- pler frequency shift, Faraday rotation, wave absorption, etc 12 p2224 A70-27736
- Electromagnetic pulse distortion with Gaussian envelope in longitudinally inhomogeneous anisotropic ionized media to investigate radio wave communication with ionospheric propagation 12 p2189 A70-27962
- Mode-scattering coefficients from ionospheric perturbations for sunrise and sunset propagation paths, comparing results with VLF radio measurements 12 p2189 A70-28053
- Long term ionospheric absorption measurements in Japan from IGY through IQSY using A1 method, discussing annual and diurnal variations correlation with solar activity 12 p2226 A70-28059
- Long term ionospheric absorption measurements in Northern Hemisphere from IGY through IQSY, discussing annual and diurnal variations correlation with solar activity 12 p2226 A70-28060
- Electromagnetic fields features in VLF spectral range for propagation in earth-ionosphere waveguide, discussing effects of ionospheric irregularities 12 p2190 A70-28169
- Seasonal measurements of ionospheric absorption during sunrise in D region at medium sunspot numbers, noting disagreement with rocket observation 13 p2392 A70-28574
- Simultaneous magnetic, photometric and backscatter radio measurement of auroral and ionospheric echoes during geomagnetic storm, confirming electrojet theory 13 p2392 A70-28575
- Wave dispersion in lower exospheric multicompound plasma, investigating mode group velocity frequency dependence at various altitudes 13 p2395 A70-28940
- Wideband FM signals transionospheric propagation, calculating output spectrum, signal to distortion ratios and signal to noise ratios 13 p2367 A70-29588
- Magnetic field measurement of VLF wave propagating in whistler mode in magnetosphere by satellite FR-1 13 p2401 A70-30054
- Lower ionosphere influence on radio reflection from sporadic E layer, determining diurnal variations of D region absorption for various frequencies 14 p2547 A70-30235
- Comparative passband of optimal and fixed frequency systems in ionospheric scatter communications during nighttime 14 p2547 A70-30239
- Scorpio X-1 and Taurus X-1 /Crab/ X ray flux effects on nighttime ionospheric radio transmission, discussing ion production and resulting electron density 14 p2631 A70-30541
- Wave polarization effects on ionospheric HF radio wave transmission and reception in communication and broadcasting networks 14 p2550 A70-30650
- Reflection and conversion coefficients of model ionospheres for VLF and LF radio waves 14 p2573 A70-30735
- VHF wave interference from heavy ion layers in lower ionosphere 14 p2574 A70-30737
- Ionospherically reflected HF radio signal frequency spread measurement involving phase difference crossings counting between antennas 14 p2550 A70-30743
- Earth-ionosphere waveguide electric field strength calculation based on nighttime ionospheric models, comparing results to measurements 14 p2574 A70-30748
- Lower ionospheric cosmic layer state during Forbush decreases from radio absorption observations interpreted on basis of electron production rate analysis 14 p2632 A70-30804
- Ionospheric inhomogeneities motion and vertical profile of atomic oxygen concentration associated with solar particle absorption in upper layer 14 p2575 A70-30808
- Radio wave scattering increase in moving body wake near caustic in vertically inhomogeneous ionosphere 14 p2550 A70-30809
- Radio wave-ionosphere interaction effects on accuracy of radio astronomical observations from earth satellites 14 p2575 A70-30824
- Measurable VLF electromagnetic fluxes from Cerenkov effect in ionosphere produced by artificial electron beams 14 p2579 A70-31249
- WKB method applied to ionospheric equations with strong wave coupling 15 p2725 A70-31857
- Transient excitation of Schumann earth-ionosphere cavity resonances by large ELF atmospherics, using propagation model 15 p2726 A70-31865
- Ionospheric radio wave propagation from rocket and satellite signal transmission using Faraday and Doppler effects, phase delay and refraction measurements 15 p2698 A70-32095
- Ionospheric measurements from observations of incoherently scattered radio waves, describing radar installations specifications 15 p2731 A70-32096
- Radio wave absorption in Venusian ionosphere, estimating effective collision number 15 p2705 A70-32736
- Multimode and dispersive distortion of short quasi-monochromatic pulses in earth-ionosphere VLF channel 16 p2858 A70-32930
- Ion effects on VLF propagation in earth-ionosphere waveguide during polar cap absorption events 16 p2859 A70-32933
- Refractive index gradients effect on scattering of radio waves perturbing ionosphere or passing through perturbed region 16 p2863 A70-33259
- Gravity wave generation during solar eclipse confirmed by satellite observation on Faraday rotation angle of ionospheric VHF transmissions 16 p2898 A70-33836
- Semiautomatic ionospheric absorption recorder, describing components circuitry and operation 16 p2915 A70-34223
- Refractive index equation for Whistler propagation in weakly drifting magnetoplasma 16 p2959 A70-34224
- Transceiving system for recording D region radio signal absorption and reflection, describing component circuitry and operation 16 p2880 A70-34225
- Ionospheric acoustic wave propagation from seismic waves of Kurile Islands earthquake on 11 August 1969 17 p3075 A70-34569
- Winter anomaly of radio wave absorption in midlatitude lower ionosphere in terms of meteorological influences and particle influx enhancements 17 p3076 A70-34936
- Zonal wind component in lower ionosphere observed for gravity waves partial reflections by temperature discontinuities, using least mean square method for reflection coefficient 17 p3077 A70-34946
- VLF and ELF radio wave propagation with mode coupling in inhomogeneous stratified ionosphere 17 p3047 A70-35402
- Electric field component of waves in auroral ionosphere measured by double Langmuir probe field detectors, discussing wave-particle interactions and turbulence 17 p3096 A70-35767
- Ionospheric scatter channel amplitude frequency characteristics recording equipment, discussing design 18 p3256 A70-36090
- Ionospheric scatter communications channel phase frequency characteristics measuring method, considering probability density function 18 p3256 A70-36091
- Receiving antenna for ionospheric scatter lines, calculating input power versus height and energy flux density spreading for position optimization 18 p3230 A70-36094
- Ionospheric radio wave absorption measurements, noting winter anomaly during maximum solar activity year 18 p3227 A70-36101
- Effective reflection height measurement accuracy for pulsed vertical ionospheric sounding, using interference method 18 p3227 A70-36106
- Sunrise effects in lower ionosphere at midlatitude, discussing long wave absorption measurements, summer electron concentration profile and consistency of aeronomic model 18 p3249 A70-36910
- Graphic method of calculating radio wave absorption in ionosphere and field strength at reception point with aid of vertical sounding data 18 p3229 A70-36911
- Ionospheric radio wave absorption and geomagnetic perturbations correlated with solar activity variations 18 p3250 A70-36931
- Ionospheric distortion of linear FM radio signals used for sounding, considering signal characteristics in distortion equations 18 p3250 A70-36933
- Ionospheric refraction during radio wave propagation using space diversity recordings of Faraday and Doppler effects for coherent signals from geophysical rockets 19 p3407 A70-37306
- Group delay times criterion of multibeam propagation of ionospheric radio echoes for communications systems 19 p3375 A70-37332
- Low elevation angle focusing of oblique radio waves after reflection from E and F layers 19 p3379 A70-37965
- Ionospheric absorption of cosmic noise recorded by riometer and corner reflector antenna directed at pole star, noting seasonal variation 19 p3412 A70-37997
- Multiple reflection processes in D and E regions at LF and VLF, using Pitteway full wave method 19 p3413 A70-38001
- Coupling processes in daytime D and E regions at LF and VLF, using thin film optics method for reflection and transmission coefficient matrices 19 p3413 A70-38002
- Intermode coupling processes in nighttime D and E regions, using thin film optical method for propagation phenomena at LF and VLF 19 p3413 A70-38003
- Radio beam trajectory in Fresnel zones of isotropic laminarily inhomogeneous ionosphere, discussing point source field and wave propagation 19 p3381 A70-38569
- Geomagnetic pulsations propagation through horizontally inhomogeneous ionosphere, solving EM wave diffraction problem 19 p3416 A70-38589
- Solar X ray emission during flares from ionospheric absorption measurements, discussing continuous ionograms method 19 p3512 A70-38912
- Lower hybrid resonance frequency propagation ducts in multilayer upper ionosphere, showing association with VLF hiss bands 20 p3584 A70-39331
- Radar for ionospherically propagated ground backscatter sounding, discussing two-aerial aperture synthesis technique and optical spectrum data recording and processing 20 p3585 A70-39393
- ELF and VLF propagation for perturbed ionosphere models, discussing effects of ion collision frequencies and molecular weights 20 p3585 A70-39454
- Ionospheric VLF diurnal transmission loss differences on two long paths, analyzing values for first and second modes 20 p3585 A70-39455
- Whistler mode wave propagation amplitude, polarization and dispersion in lower ionosphere, discussing electric field experiment with Nike-Tomahawk sounding rocket 20 p3622 A70-39456
- Radio waves propagation two dimensional model in earth-ionosphere waveguide across land/sea boundary, solving dual integral equations by Wiener Hopf procedure 20 p3585 A70-39457
- Equatorial F layer irregularity extent from propagation path observations to synchronous satellites 20 p3624 A70-40485
- Long range low loss earth-detached propagation paths in lower ionosphere indicated via OV4-1 satellite experiment on guided ionospheric propagation 20 p3591 A70-40494
- Ionospheric ducting of satellite beacon signals observed on Orbis Cal satellite experiment 20 p3591 A70-40495
- X ray star effects on ionospheric LF radio wave field strength, examining absorption and ionization in D region 21 p3873 A70-40668
- Earth magnetic field effects on midlatitude F 2 layer deviative absorption 21 p3812 A70-40727
- Cosmos 142 satellite measurements VLF radio signals transmitted through ionosphere by ground based stations 21 p3786 A70-40836
- D region water vapor chemistry effects on measurements of radio propagation, ionospheric temperature and seasonal changes 21 p3814 A70-40936
- Low latitude boundary of ionospheric absorption during winter anomaly showing enhancement dependence on solar zenith angle 21 p3815 A70-40944
- Electromagnetic wave propagation through weakly inhomogeneous plasma layer with frequent electron-molecule collisions, noting applicability to ionosphere 21 p3786 A70-41280
- Pulsed radio waves interactions during vertical propagation through perturbed ionosphere using cross modulation theory concepts, considering perturbation waves effects 21 p3786 A70-41281
- Radio wave reflection from ionosphere, discussing suppression of magnetoionic component with fluctuating elliptical polarization 21 p3786 A70-41284
- Auroral radio wave absorption in ionosphere at longitudinally opposite stations compared for appearance probability and variational properties 21 p3819 A70-41287
- Equivalent angles of slope calculations based on rotary oblique probing data for spherical models of earth and ionosphere, deriving minimum equivalent beam path 21 p3819 A70-41289

Polarization regularities of Pc1 oscillations interpreted from propagation along ionospheric waveguide centered at F2 layer

21 p3819 A70-41293

Electromagnetic wave propagation in spatially inhomogeneous isotropic ionosphere, determining phase, amplitude, polarization, absorption, arrival angle, etc

21 p3786 A70-41297

Sporadic E formation correlation to geomagnetic activity from ionospheric radio absorption observed at midlatitude and polar zone stations

21 p3819 A70-41304

Wave polarization effects on ionospheric radio wave transmission and reception

21 p3790 A70-41361

Doppler frequency shift of reflected radio waves for ionospheric disturbances, discussing solar flares, geomagnetic variations, etc

21 p3820 A70-42256

Russian monograph on propagation of LF electromagnetic waves in waveguide formed between earth and ionosphere

22 p3989 A70-42674

ELF and VLF waves in waveguide propagation mode, calculating lower ionosphere effect on attenuation and phase velocity

22 p3989 A70-42960

Radio wave reflection properties in 16-3000 kHz range calculated from D and E region models for comparison with measurement

22 p3989 A70-43164

Daytime ionospheric effect of X ray flare from SCO XR-1, discussing LF radio wave intensity decrease

22 p4095 A70-43165

Magnetosphere radio propagation from ground based measurements for HF, ULF and VLF

22 p4021 A70-43280

Micropulsation Pc-1 phase and polarization comparisons concerning L to R wave coupling in ionosphere

22 p4024 A70-43313

VHF geostationary satellite ranging and range correction systems, calculating second-order ionospheric delay effects on position error

22 p4068 A70-43590

Solar high energy particles penetration into ionospheric heights at equator, analyzing optical flare and solar proton data from ATS-1 and Explorer 34

23 p4235 A70-43816

Ionospheric parametric amplification and frequency mixing due to polarized TEM waves nonlinear interaction with longitudinal electrostatic waves

23 p4185 A70-43838

F2 region anisotropic response to individual internal gravity waves as function of propagation azimuth

23 p4185 A70-43844

D region LF and VLF sky waves opposite phase perturbation behavior

23 p4162 A70-44006

F2 layer critical frequency and maximum electron concentration statistical characteristics for predicting SW propagation conditions

23 p4188 A70-44056

Ionospheric radio wave absorption above polar aurorae during solar activity minimum, discussing diurnal and annual behavior

23 p4162 A70-44058

Lower ionosphere electromagnetic induction effect on geomagnetic field guided MHD wave propagation, considering Hall effect

23 p4189 A70-44072

Geometry and ionosphere effects on radio beacon operation for distress signal monitoring at sea, comparing night performance to daytime

23 p4163 A70-44229

Zi and Ze smallness effect on complex refractive index of ionosphere for VLF propagation

23 p4164 A70-44373

Anomalous multiple reflections from ionosphere showing concave surface focusing

23 p4164 A70-44374

Radar astronomical polarization measurements for lunar echoes by exploiting ionospheric Faraday rotation with linearly polarized antenna

23 p4165 A70-44964

Monthly and annual root-mean-square deviations of ionosphere radio wave absorption

24 p4312 A70-45485

Ionospheric HF Doppler frequency dispersion at low latitudes under various geomagnetic disturbance conditions

24 p4314 A70-46129

Earth-ionosphere cavity ELF electromagnetic pulse propagation from atmospheric source, considering transient field as frequency and time functions

24 p4314 A70-46130

Elevated horizontal and vertical electric dipole VLF fields, discussing ionospheric TE and TM mode coupling, nighttime variations and amplitude fluctuation

24 p4314 A70-46131

Ionospheric wave propagation, using medium model, perturbation theory for vertical variation and computer eigenvalues of matrix system

24 p4314 A70-46132

Lower ionosphere influence on radio reflection from sporadic E layer, determining diurnal variations of D region absorption for various frequencies

24 p4316 A70-46310

Comparative passband of optimal and fixed frequency systems in ionospheric scatter communications during nighttime

24 p4316 A70-46314

IONOSPHERIC REFLECTION U IONOSPHERIC PROPAGATION IONOSPHERIC SOUNDING

Ionospheric slopes and range frequency characteristics obtained from oblique incidence sounding of horizontally nonuniform ionosphere

01 p0083 A70-11534

Wideband HF amplifier development for ionospheric radio sounding, describing various stages

02 p0255 A70-11895

Ionospheric critical frequency recorder development for continuous recording of frequency variations with time

02 p0303 A70-12736

Ionospheric aerodynamics concerning plasma flow and stability, ion motion, radio wave scattering, etc

03 p0479 A70-14386

Rocket-borne differential capacity probe measuring electron densities in upper atmosphere, reducing errors caused by temperature and composition variations

04 p0686 A70-14649

TV data transmitted by Iantars series automatic ionospheric laboratories released by geophysical rockets at 100-400 km, discussing plasma-ion propulsion system performance

04 p0735 A70-14936

Polar lower ionosphere, using radar VLF step frequency sounding to determine reflection phase height at given propagation path

04 p0680 A70-15115

Diurnal fluctuations of quiet F2 region intensity at midlatitude based on vertical probe observations during solar activity minimum

04 p0684 A70-15745

Ionospheric probe for simultaneous measurement of radio signal reflection coefficient and amplitude-frequency characteristics

04 p0684 A70-15746

HF oblique ionospheric soundings over long temperate latitude path, discussing measured angles of elevation and multipath time dispersion

05 p0847 A70-15998

Ionograms for nonmonotonic vertical distribution of electron concentration in ionosphere from rocket and ground sounding

05 p0842 A70-16757

Ionospheric observations of resonance oscillations using satellite-borne radio sounding instruments

06 p1115 A70-17361

Ionospheric resonances observed by swept frequency Alouette topside sounders, discussing plasma nonlinearity

06 p1115 A70-17362

Quadrupole probe for ionospheric plasma resonances involving measurement of mutual impedance between pairs of electrodes

06 p1117 A70-17373

Satellite observations of VLF and ELF resonances related to ionospheric plasma singularities

06 p1118 A70-17375

Ionospheric vertical electron concentration computer calculations compared to direct measurements data by satellite and rockets over Sofia

06 p1057 A70-17843

Mass spectrometer design and calibration for ionic composition measurements on ionosphere sounding satellite, noting effects of satellite velocity and attitude

06 p1065 A70-17908

AEROS satellite A2 launching to investigate aeronomic processes in outer atmospheric layers, discussing scientific research program, mission data, satellite and ground station equipment

07 p1393 A70-19149

Field strength predictions for expected returns from backscatter ionospheric soundings, predicting ionospheric propagation modes and losses during sunspot minimum

07 p1229 A70-19161

Lowest usable frequency (LUF) measurement and prediction through synchronized oblique ionospheric sounding

07 p1233 A70-19181

Oblique incidence HF pulse ionospheric sounding, discussing propagation modes, seasonal and diurnal effects, frequency spectra, etc

07 p1233 A70-19182

Oblique ionospheric pulse sounding records improvement by use of linear FM chirp transmission, discussing time delay resolution, transmitter power and RF interference rejection

07 p1233 A70-19184

Oblique ionospheric sounder automatic data analysis by computer programs, analog to digital conversion, magnetic tape data recording, signal detection, pattern recognition, etc

07 p1234 A70-19185

Ionospheric distortion of linearly FM radio signals used for sounding, considering signal characteristics in distortion equations

07 p1268 A70-19459

Vertically moving disturbance discovered in ionospheric soundings close to magnetic equator, noting correlation with electrodynamic lift

07 p1269 A70-19631

Molecular ion concentrations, using flat probe collector trap on Cosmos 5 satellite at 200-300 km

07 p1276 A70-20421

Ionosphere absolute phase height measurement methods independent of virtual height, using fixed frequency CW emission and pulsed sounding

07 p1276 A70-20432

Positive and negative correlations in F2 layer perturbations by network of paired conjugate ionospheric stations at low latitude

07 p1277 A70-20450

Atmospheric pressure waves generated by high energy disturbance in South Pacific, using ionospheric Doppler signals correlated with ground-level pressure signals

08 p1490 A70-21646

Dye laser tuned to sodium D line used for measuring ionospheric atomic sodium

08 p1492 A70-21757

Ionospheric plasma lower hybrid resonance measurement and excitation via rocket-borne probe

09 p1670 A70-23319

Ionosphere sounding satellite attitude variation dependence on transverse moments of inertia

10 p1949 A70-23918

F region electrons collision frequency from short radio waves amplitude and group path relationship

10 p1876 A70-24535

Ionospheric F and E layers collision frequency estimates, comparing pulse absorption and cosmic radio noise measurements

10 p1880 A70-24804

Ionospheric loss rates from rocket observation during auroral absorption interpreted by two ion model of recombination

10 p1881 A70-24813

Midlatitude sporadic E layer critical frequencies dependence on solar activity using vertical ionospheric sounding data, observing ionization correlation

10 p1882 A70-25197

Equivalent angles of slope calculations based on rotary oblique probing data for spherical models of earth and ionosphere, deriving minimum equivalent beam path

11 p2043 A70-25539

Sporadic E formation correlation to geomagnetic activity from ionospheric radio absorption observed at midlatitude and polar zone stations

11 p2044 A70-25554

Ionospheric electron and ion temperatures information extraction from Doppler broadening of radar returns based on correlation measurement

12 p2183 A70-27163

Intercoms 2 equipment for measurement of positive ion concentration, electron temperature and energy distribution, electron concentration between satellite and ground reception points, etc

12 p2207 A70-27500

Ionospheric electron density, electron and ion temperature profiles measurements, comparing relative merits of radio-rocket ground-based radar and satellite methods

12 p2223 A70-27727

Ionospheric probing using pulsed radio waves at oblique incidence, discussing auroral radar, meteor radar, ground backscatter and variable frequency ionosondes techniques

12 p2224 A70-27728

Ionospheric probing by ground based and satellite-borne vertical incidence sounders

12 p2224 A70-27729

Ionospheric probing using continuous radio waves at oblique incidence, discussing HF Doppler, VHF forward scatter and radio aurorae techniques

12 p2224 A70-27730

Ionospheric probing with LF/VLF/ELF radio waves, discussing measurement techniques and temporal and spatial resolutions

12 p2224 A70-27731

Ionospheric D region radio wave probing by cross modulation technique, obtaining electron densities and collision frequencies

12 p2224 A70-27733

Ionospheric lowest regions and magnetosphere probing based on atmospheric observations, detecting disturbed conditions

12 p2224 A70-27734

Rocket measurement of ionospheric electron density based on radio propagation effects involving Doppler frequency shift, Faraday rotation, wave absorption, etc

12 p2224 A70-27736

E region plasma parameters measurement by in situ probes, considering electron density and temperature

12 p2225 A70-27737

Ionospheric parameters measurements by incoherent RF scattering, discussing current status of theory and observations

12 p2225 A70-27738

Topside ionosphere structural analysis, considering electron density profiles deduced from Alouette 2 satellite data

12 p2226 A70-28062

Topside ionosphere nighttime structure over Japan deduced from Alouette 2 satellite plasma frequency measurements

12 p2226 A70-28063

F 2 region critical frequency from Alouette 2 satellite data compared with ground based measurement

12 p2226 A70-28066

INTA-255 ionospheric sounding rocket, describing vehicle and launcher design, test firings, ground facilities, etc

13 p2504 A70-28686

Topside ionosphere structure deduced from electron density profiles observed by Alouette 2 satellite

13 p2395 A70-29090

Topside ionosphere structure deduced from resonance spikes on ionograms obtained by Alouette 2 satellite and electron density distributions

13 p2395 A70-29091

Proton cyclotron echoes in topside ionograms from Alouette 2 satellite

13 p2396 A70-29092

F 2 critical frequencies from Alouette 2 satellite ionogram data compared with ground-based sounding results

13 p2396 A70-29094

Three-point simultaneous observations for ionospheric drift characteristics in E and F regions

13 p2396 A70-29097

Topside sounder profiles interpretation, discussing ionosphere-protonosphere dynamic coupling

13 p2398 A70-29199

Floating resonance spike on Alouette 2 ionograms after sounder pulse transmission at half upper hybrid frequency, noting harmonic excitation role

13 p2370 A70-29905

Dispersion and group velocity characteristics of topside resonance oblique echoes near plasma frequencies observed by satellite

13 p2467 A70-29909

Collision and motion effect on rocket-borne quadrupole probe transfer impedance near lower hybrid resonance in ionosphere

13 p2371 A70-29919

Polar ionosphere auroral oval position detection by satellite observations of naturally occurring VLF and man-made HF plasma waves

13 p2371 A70-29924

Javelin rocket measurements of ionospheric AC electromagnetic fields, determining amplitude/frequency spectra and dipole antenna performance

13 p2401 A70-29926

Auroral and polar cap ionospheric electric fields and tensor conductivity elements using ion clouds data of Ba release experiment

13 p2402 A70-30080

Ionospheric electric fields variations in ELF-VLF, confirming OV-1 satellite measurements with OGO 6 data

13 p2403 A70-30082

Inclined backscatter sounding of ionosphere in individual channels of multichannel radio link, analyzing data during minimum solar activity

14 p2547 A70-30149

True height of reflection determination for oblique sounding data interpretation, considering method error

14 p2547 A70-30230

Sporadic E layer space diversity reception data from stations 20 km apart, noting horizontal ionization gradient effect

14 p2571 A70-30234

Lower ionosphere radio reflection during solar eclipse of 22 September 1968

14 p2571 A70-30237

Ionospheric electron distribution by true height analysis of oblique incidence HF radio wave sounding data, applying to forward and ground backscatter

14 p2550 A70-30745

Lower ionospheric drift motions observed from VHF radio signal, relating to three paths near auroral zone during dark hours

14 p2574 A70-30749

Solar eclipse of March 1970 observation by sounding rockets, discussing ionospheric and meteorological measurements

14 p2586 A70-30800

Diurnal fluctuations of quiet F 2 region intensity at midlatitude based on vertical probe observations during solar activity minimum

14 p2576 A70-30829

Ionospheric probe for simultaneous measurement of radio signal reflection coefficient and amplitude-frequency characteristics

14 p2576 A70-30830

Ionospheric total electron content measurements by Faraday method and bottom and topside soundings

14 p2580 A70-31258

Ionospheric investigation techniques, considering ionization balance, winds and turbulence

14 p2580 A70-31259

Report to COSPAR on Japanese space research including satellite, rocket and balloon observations of ionosphere, magnetosphere, interplanetary space, moon, planets, cosmic rays, etc

15 p2830 A70-31720

Ground sounding of ionization variations and vertical distribution using model, integral and normal laminar methods

15 p2729 A70-32078

Electric field measurements in ionosphere using satellite and rocket experiments

15 p2729 A70-32082

Soviet papers on ionospheric studies covering radio, rocket and satellite observations

15 p2730 A70-32088

Ionospheric probe designs and measurement errors due to perturbations by satellite carriers

15 p2731 A70-32094

Ionospheric measurements from observations of incoherently scattered radio waves, describing radar installations specifications

15 p2731 A70-32096

Meteorological rocket probing, noting 100 and 170 km range probes in U.S.S.R., thermobaric maps and aerological stations for high altitude aviation

15 p2771 A70-32108

D region electron density rocket measurements implying recombination coefficient

16 p2896 A70-32939

Single pulse ionospheric sounding system for detecting and identifying E region echoes

16 p2859 A70-32940

Time span in total electron content (TEC) measurements on BE-B and BE-C ionospheric satellites by differential Doppler method, applying chi square 2 test

17 p3077 A70-34986

Alouette and ISIS experiments programs and design

17 p3180 A70-35305

Plasma resonance phenomena related to ionospheric plasma parameters using gyroplasma probe on Kappa 8-15 sounding rocket

17 p3077 A70-35307

Ionospheric sounding with gyro-plasma probe on Kappa 8-15 rocket, discussing electron density profiles and plasma resonance

17 p3079 A70-35638

Ionospheric VLF radio waves observations via wideband receiver on K-9M-26 rocket, determining electron density profiles

17 p3047 A70-35639

Rocket measurements showing removal of electrons above mesopause in summer at high latitude

17 p3081 A70-35775

Venus daytime upper ionosphere observations by mariner 5 in terms of ionization sources and sinks, ambipolar diffusion and model atmospheres

18 p3311 A70-36002

Equatorial electrojet measurements by Nike-Apache rockets

18 p3244 A70-36018

Ionospheric vertical base selection for recording discontinuities motion of F region

18 p3246 A70-36085

Ionospheric small scale ionization discontinuities vertical drift effect on diurnal variations of F 2 layer critical frequency

18 p3246 A70-36086

Proton flares showing enhancement of ionospheric absorption and complex magnetic disturbances

18 p3306 A70-36087

F region small scale ionization discontinuities parameters observational data concerning anisotropy, dimensions, velocity and lifetime

18 p3246 A70-36088

Effective reflection height measurement accuracy for pulsed vertical ionospheric sounding, using interference method

18 p3227 A70-36106

Space charge sign distribution sounding in atmosphere by electrode potential difference measurement

18 p3246 A70-36180

Synchronous measurements of reflection coefficient and frequency characteristics of sporadic E layer by ionospheric sounding

18 p3247 A70-36293

Ionospheric distortion of linear FM radio signals used for sounding, considering signal characteristics in distortion equations

18 p3250 A70-36933

Radio wave absorption dependence on ionospheric sounding frequency at vertical incidence, using pulse method

18 p3255 A70-37038

Panoramic vertical sounding method of ionosphere, noting drawbacks

18 p3255 A70-37040

Magnetic tape recorder for panoramic vertical ionospheric sounding data acquisition in digital form

18 p3261 A70-37041

Noise rejection characteristics of ionospheric radiosondes via phase-code modulated signals, noting nonoptimal filter role in power loss

18 p3229 A70-37042

Magnetospheric thermal plasma electron density measurement during solar flare by OGO-5 satellite

19 p3411 A70-37513

Ionospheric observations of solar eclipse of 20 May 1960, using panoramic probe

19 p3419 A70-38918

Ionospheric ionization minimum delay and F region alpha variation during solar eclipse

19 p3419 A70-38919

Satellite wideband transmission of ionosphere data, monitoring amplitude and phase of phase-coherent CW signals from geostationary satellite

20 p3590 A70-40483

Ion orientation technique based on counterflow sensing in earth upper atmosphere, discussing accuracy

21 p3927 A70-40844

Ionospheric transition and ozone correction from D region sunrise auroral rocket flight

21 p3814 A70-40935

Equivalent angles of slope calculations based on rotary oblique probing data for spherical models of earth and ionosphere, deriving minimum equivalent beam path

21 p3819 A70-41289

Sporadic E formation correlation to geomagnetic activity from ionospheric radio absorption observed at midlatitude and polar zone stations

21 p3819 A70-41304

Auroral zone electric field measurements from rocket-borne instruments

22 p4017 A70-42794

Ionospheric current theoretical model and balloon measurement of ionospheric electric field

22 p4017 A70-42795

Nighttime equatorial E region small scale irregularities detected by rocket-borne Langmuir and plasma noise probes, discussing generation mechanism

22 p4018 A70-43108

F region electron density measurement during magnetic storm by incoherent scatter technique

22 p4019 A70-43157

Ionospheric electron content measurement during solar activity cycle, noting temporal and spatial variations

22 p4020 A70-43159

Total electron content and equivalent slab thickness statistical data during magnetic disturbances from AT-3 satellite VHF transmission observations

22 p4020 A70-43162

Day and nighttime E and sporadic E layer drifts over low latitude station recorded by spaced receiver technique

22 p4020 A70-43166

Geostationary satellites for magnetosphere and ionosphere sounding, discussing specific observational capabilities

22 p4024 A70-43397

Ionospheric ion temperature measurements by retarding potential analyzer on OGO-6 satellite

23 p4185 A70-43840

ELF acoustic gravity wave arrival from Apollo launches recorded by Doppler shift ionospheric sounder channelled near mesopause and lower thermosphere

23 p4187 A70-43859

Upper atmosphere optical properties sounding by twilight observation and successive brightness approximation

23 p4187 A70-44047

Ionospheric layers critical frequencies recording, using automatic interplanetary station type probe

23 p4194 A70-44088

Ionospheric electron content measurement from Faraday effect of troposphere on beacon satellite Explorer 22 radio signals

23 p4163 A70-44231

Ionosphere seasonal changes from three-point system for observing traveling ionospheric disturbances

23 p4192 A70-44868

Iantar 1 automatic ionospheric laboratory flight tests results, investigating Ar ion engine performance

23 p4264 A70-45009

Sporadic E layer characteristics from spaced ionogram analysis, discussing layers formation and dissipation and ionization irregularities motions

24 p4328 A70-45352

True height of reflection determination for oblique sounding data interpretation, considering method error

24 p4316 A70-46305

Sporadic E layer space diversity reception data from stations 20 km apart, noting horizontal ionization gradient effect

24 p4331 A70-46309

IONOSPHERIC STORMS

NT SUDDEN IONOSPHERIC DISTURBANCES
Ionospheric storms north-south asymmetry, discussing effects of horizontal and vertical move-

ments of ionization controlled by asymmetric geomagnetic field

06 p1055 A70-17594

Asian zone solar daily and storm time ionospheric disturbance variations synoptic study during IGY-IGC period

10 p1872 A70-23822

Magnetospheric substorms model modification for growth phase inclusion prior to explosive expansion phase

23 p4186 A70-43853

IONOSPHERIC TEMPERATURE

Polar thermosphere temperature measurements from artificial clouds indicating geophysical-associated variations, nocturnal decrease and annual variations

01 p0077 A70-11201

Internal gravity waves theory to interpret large amplitude oscillations in electron density and temperature and ion temperature and velocity observed in thermosphere

01 p0079 A70-11215

Electron gas heating at E region altitudes as function of ionization of atmospheric gases, noting rocket experiments during solar eclipse

01 p0082 A70-11492

Ionospheric molecular ion concentration vertical profile analysis for verifying neutral gas temperature maxima in connection with two ion production maxima

01 p0083 A70-11550

Thermal model for Venus ionosphere, considering photoionization and solar wind influx for possible heat sources

03 p0575 A70-13981

Winter diurnal behavior of northern high latitude ionospheric electron density using temperature data from Langmuir probes

03 p0478 A70-13993

Nighttime F 2 region temperature distribution under geomagnetically calm and disturbed conditions calculated from Alouette 1 satellite data

06 p1057 A70-17887

Whistlers role in ionospheric temperature, magnetospheric electron density and ionospheric composition determination

07 p1347 A70-19189

Nocturnal F layer electron density profile and temperature dependence on solar activity

10 p1885 A70-25266

Temperature, pressure and density extremes between 30 and 80 km, extrapolating estimates to all latitudes

14 p2608 A70-30591

Langmuir probe comparison to electron temperature probe measurements of ionospheric electron temperature during rocket flights

15 p2734 A70-31674

F region electron and ion densities, temperatures and plasma velocities computed for eclipse at Wallops Island on 7 March 1970

15 p2726 A70-31866

F region photoionization rate vs height twin peak profile in presence of temperature maximum, taking into account ionization of atmospheric gases by quasi-monochromatic radiation

18 p3254 A70-37031

Relaxation time for nitrogen molecule vibration temperature in ionosphere due to thermal electron collisions

19 p3409 A70-37324

D region water vapor chemistry effects on measurements of radio propagation, ionospheric temperature and seasonal changes

21 p3814 A70-40936

F region radar and optical temperature measurements, discussing Doppler and backscatter ion temperature

21 p3818 A70-41103

IONOSPHERICS

NT DAWN CHORUS

NT HISS

Ionospheric effects and transmitter characteristics observed on HF standard and time stations, discussing spurious emissions arising from frequency overcrowding

10 p1842 A70-25050

IONS

NT ANIONS

NT CATIONS

NT CESIUM ION

NT DEUTERONS

NT HEAVY IONS

NT HYDROGEN IONS

NT HYDRONIUM IONS

NT MANGANESE IONS

NT METAL IONS

NT MOLECULAR IONS

NT NITROGEN IONS

NT TRITONS

NT TRIVALENT IONS

Ion-neutral coupling in plasma acceleration revealed by velocity disparities determined spectroscopically [AIAA PAPER 70-166]

06 p1133 A70-18219

Light ions acceleration to high energy by pulsed high intensity electron beams

08 p1553 A70-21694

Solar limb brightening of XUV lines of carbon, nitrogen, oxygen and silicon ions in chromospheric-coronal transition region

11 p2108 A70-25740

Electrical conductivity hypothesis based on concept of transition temperature being inversely proportional to ionic mass square root

12 p2282 A70-26880

Ions energy spectra in plasma heated by shock wave, using passive corpuscular diagnostic technique

15 p2781 A70-32821

IP [IMPACT PREDICTION]

U COMPUTERIZED SIMULATION

IQSY [INTERNATIONAL YEAR]

U INTERNATIONAL QUIET SUN YEAR

IRAN

Gravity measurements and adjustments of First Order Gravity Network /FOGN/ in Iran

24 p4332 A70-46409

IRASERS

U INFRARED LASERS

IRIDIUM

Ni alloys with Ir and Rh using X ray diffraction and microscopy, exhibiting continuous solid solutions

09 p1708 A70-23423

Gold and iridium distribution in stony meteorites, discussing metal silicate fractionation process during chondrite formation

13 p2497 A70-29862

Hydrostatic and anisotropic piezoresistance in organometallic crystals, noting iridium and platinum complexes with maximum metal-metal interaction

22 p4086 A70-43021

Fe meteorites with high Ge content, tabulating concentrations of Ni, Ga, Ge and Ir

23 p4241 A70-44259

IRISES [MECHANICAL APERTURES]

Automatic exposure control system for airborne cameras, providing iris and shutter control through taking lens for sudden light changes

05 p0844 A70-15771

Iris coupled YIG tuned filters for 12-4 GHz region, including high field magnets from vanadium permendur

12 p2202 A70-28165

Circular and nearly rectangular irises for resonant cavities in transmission line for microwave band stop filters, discussing design based on merit factor

21 p3792 A70-41992

IRON

NT IRON ISOTOPES

NT IRON 57

Iron group nuclei abundance relative to oxygen determined for solar cosmic ray event of 2 September 1966

01 p0167 A70-10042

Iron behavior in GaAs during crystallization, studying Fe distribution ratio, impurity migration and diffusion coefficient

01 p0156 A70-10219

Photospheric Fe I abundance variation with excitation potential

01 p0175 A70-10239

Cr diffusion coating influence on fatigue life of Fe and steel, discussing residual stress measurement technique

02 p0320 A70-12848

Solar photospheric Fe abundance determined from IR supermultiplet line spectra, considering LTE effects

04 p0749 A70-14597

Fe I line enhancement in flare of 7 August 1958 interpreted as selective excitation effect, discussing similarity to late type dwarf stars observations

04 p0739 A70-14598

Forbidden Fe II lines and AIO band intensities in long period variable stars confirming stratified models of emitting layers

05 p0907 A70-16031

Excitation of ground configuration of Fe XIII for density and temperature range in solar corona, using proton collisions, electron collision strengths, etc

05 p0902 A70-16434

Fe diffusion coefficients measured at various temperatures above 1150 C to calculate homogenization times of Thailand tektite source

05 p0917 A70-16841

Empirical astrophysical damping constants derived for neutral Fe lines using solar spectra, applying constants to abundances and surface gravity determination

05 p0919 A70-16939

Solar core opacity influence on revised photospheric iron abundances, discussing neutrino flux prediction doubling in solar models

05 p0905 A70-16985

Ionization energies and oscillator strengths for Fe XVI, Co XVII and Ni XVIII by frozen core approximation, noting applications to solar corona

06 p1150 A70-18465

Contact resistance measurements used in contaminant removal and metallic adhesion on iron surfaces

07 p1293 A70-18940

Iron ions EPR lines widening in corundum crystals due to lattice defects, estimating mosaic blocks disorientation parameter and point defects density

08 p1556 A70-21122

Oscillator strengths of Fe II lines and solar iron abundance measured by arc burning in Ar with iron chloride admixture

08 p1576 A70-21398

Iron peak nuclei synthesis by charged particles under supernova mechanism conditions predicted by hydrodynamic conditions

09 p1749 A70-21994

Fe abundance in solar photosphere, evaluating various determination methods

09 p1753 A70-22382

Energy levels predicted for various electron orbital configurations in Fe V by Slater parameters

10 p1944 A70-24953

Iron impurity energy level behavior in seminsulating GaAs from determining temperature dependences of Hall coefficient, resistivity, optical absorption and steady spectral photoconductivity

12 p2286 A70-27370

Solar iron-to-hydrogen ratio and oscillator strengths for Fe I lines compared with laboratory measurements of line broadening by neutral atoms

13 p2486 A70-28628

Star eta Arietis spectra analyzed for Fe and V abundance

13 p2487 A70-28715

Ionization equilibria and ionization and recombination rates for Fe and Ni ions, discussing dielectronic recombination

14 p2631 A70-30727

Ionized iron lines observations under coronal conditions, giving halfwidths and kinetic temperatures for forbidden lines Fe X-Fe XV

14 p2651 A70-31377

Antifriction and wear properties of iron fluoride materials and white cast iron under sliding friction in air and vacuum

15 p2743 A70-31637

Pure iron and low carbon steel macroscopic stress measurements, determining correlation between residual stress, fatigue damage and fatigue life

15 p2759 A70-32322

H alpha and Fe I lines, calculating velocity effects on profiles for differentially moving atmosphere

15 p2804 A70-32616

Heat transfer in tungsten-tungsten and Armo Iron-Armo Iron specimens, confirming Bowden-Tabor model of elastoplastic events during cyclic engagement of surfaces

16 p3000 A70-33920

Ti equipment anodizing methods, observing corrosion resistance reduction and embrittlement hydriding due to Fe contamination

17 p3098 A70-34363

Resonance and satellite lines of highly ionized iron in solar spectra, discussing spectrum features during chromospheric flares

17 p3154 A70-34541

Pure Fe and Ta hot hardness using ultrahigh temperature hardness tester

17 p3124 A70-34659

Iron line emission at 1.9 A during solar flares observed by OSO-4 proportional counter spectrometer

17 p3150 A70-34836

Steel and cast iron early stage fatigue failure, using photoelastic coatings

17 p3192 A70-35741

Fe II line behavior in plages near solar limb

17 p3174 A70-35866

Lunar anorthosites Ni-Fe grains from Mare Tranquillitatis, discussing contamination by meteoritic metal, magnetic fractionation and fractional crystallization

19 p3519 A70-38032

Thermal release profiles and retention coefficients of injected argon ions for silicates and iron simulating meteoritic materials

19 p3474 A70-38601

Solar chromospheric Fe abundance, considering f-value effects

19 p3524 A70-38697

Strain component determination for grain boundary sliding influence in creep of alpha iron

20 p3735 A70-40446

Sco X-1 X ray emission data from rocket-borne measurement, indicating Fe K-emission from high ionization states

21 p3873 A70-40667

Clean iron /011/ surfaces, determining sulfur, oxygen and hydrogen sulfide films effects on adhesion behavior

21 p3831 A70-40748

Sodium behavior in young and old late type stars, examining relation to iron abundance in F, G and K dwarf and giant stars

21 p3887 A70-41114

- Solar iron abundance from forbidden Fe II magnetic dipole transition probabilities 21 p3888 A70-41118
- Elemental composition and structure of metallic iron particles in lunar fines compared to meteorites, using neutron activation technique 21 p3774 A70-41556
- Apollo 11 lunar dust hysteresis curves and thermomagnetic curves, discussing metallic Fe abundance, susceptibility, alpha-gamma transition, etc 21 p3918 A70-41676
- Pure Fe and Ta hot hardness tests by ultrahigh temperature tester involving use of electron microscope 21 p3840 A70-41900
- Solar chromosphere elements abundances methods, suggesting Fe differences origin in Fe I and Fe II inconsistencies 21 p3925 A70-42194
- Solar coronal and photospheric iron abundances from absorption forbidden lines, discussing discrepancy with permitted lines 21 p3925 A70-42195
- Forbidden iron emission lines excitation in Seyfert galaxies, discussing various mechanisms 22 p4102 A70-42977
- Electron capture involving iron nuclei in contracting iron stars treated as endothermic nuclear reaction 22 p4104 A70-42992
- Mossbauer effect analysis of Fe impurity atoms in n- and p-type semiconductor compounds with wide and narrow forbidden gaps 24 p4388 A70-45204
- Multiply ionized Fe valence and inner shell transitions from spectrum analysis, noting similarities to solar flares 24 p4401 A70-45315

21 p3915 A70-41657
- IRON 57**
Fe 57 contaminant in Ni, studying Mossbauer effect as function of temperature
15 p2784 A70-32023

Fe 57 nuclear hyperfine splittings in clinopyroxenes from lunar igneous rocks, determining temperature dependent cation distribution
21 p3915 A70-41659

IROQUOIS HELICOPTER

U UH-1 HELICOPTER

IRRADIANCE

NT ILLUMINANCE

NT SOLAR CONSTANT

Extraterrestrial solar spectral irradiance at earth mean solar distance within 300 to 2500 nm wavelength region, from NASA CV-990 aircraft research flights
04 p0690 A70-15019

Irradiance factor between perpendicular and arbitrarily positioned plane rectangles calculated by contour and numerical integration
09 p1791 A70-23619

Black body cavity type radiometers for high accuracy measurement of irradiance
15 p2737 A70-32036

Solar spectral irradiance measurements at different altitudes, using multichannel radiometers
22 p4013 A70-42599

IRRADIATION

NT AURORAL IRRADIATION

NT ELECTRON IRRADIATION

NT ION IRRADIATION

NT NEUTRON IRRADIATION

NT PROTON IRRADIATION

NT X RAY IRRADIATION

Radiative heat transfer from longitudinal rectangular conducting fins on plane wall involving mutual irradiation, using iterative method
[ASME PAPER 69-WA/HT-22] 04 p0782 A70-14812

Mice irradiation reactions determination from various metabolism indices including blood sugar level, leucocytes number, proteolytic processes rates, etc
07 p1198 A70-18714

Therapeutic effects of hemopoietic tissue transplantations of bone marrow on irradiated rats, using diffusion chamber for resettlement prevention
13 p2354 A70-29753

Human vision inertia and irradiation algorithm, satisfying Talbot law
18 p3217 A70-36082

Apollo 11 lunar soil irradiation history from solar wind rare gas abundances and cosmic ray spallation products
21 p3908 A70-41590

Terrestrial and chondrites vanadium isotopic ratios indicating irradiation histories difference
24 p4402 A70-45381

IRREGULARITIES

F region irregularity model to include field-aligned columns and sheets and frontal irregularity shapes effect on radio star and satellite scintillations
10 p1841 A70-24805

Nighttime equatorial E region small scale irregularities detected by rocket-borne Langmuir and plasma noise probes, discussing generation mechanism
22 p4018 A70-43108

IRREVERSIBLE PROCESSES

Asymmetric thermoelasticity derived for constitutive equations based on thermodynamics of irreversible processes, formulating variational and reciprocity theorems
01 p0209 A70-11384

Electrical properties thermally induced irreversible changes in CdSb single crystals measured as function of current intensity and flow
03 p0542 A70-13751

MHD equations including energy dissipation terms applied to irreversible processes occurring in fast hydromagnetic shock waves in solar chromosphere
06 p1143 A70-17999

Vlasov equations and irreversibility in plasma physics and stellar dynamics, calculating statistical entropy and relaxation time
08 p1550 A70-20556

Irreversible processes thermodynamics during thermoelastic deformation of solid bodies, deriving thermodynamic potentials, state and coupled heat equations
09 p1777 A70-23077

Irreversible viscosity decrease and thermal stability in polymer-containing lubricating oils under shearing forces effect
09 p1693 A70-23408

Thermodynamics and statistical mechanics taking into account irreversibility, arrow of time and astrophysical schemes
11 p2146 A70-25695

Irreversible yield stress component of aluminum, Armco iron and tantalum with fcc lattice, showing temperature dependence
13 p2436 A70-29500

Vlasov equations and irreversibility in plasma physics and stellar dynamics, calculating statistical entropy and relaxation time
15 p2781 A70-32711

Statistical theory of irreversible transport processes in fluids, considering deviation from equilibrium as stochastic process
17 p3131 A70-35532

Onsager reciprocal relations experimental validity in irreversible processes application to metals, electrokinetics, isothermal diffusion, heat conduction, chemical reactions, etc
17 p3197 A70-35538

Thermodynamic application to strained solids, considering paradoxes, irreversible processes and continuum mechanics
18 p3340 A70-36555

Kinetic equations derivation for correlation functions and time dependent distribution functions of irreversible processes, using projection operators
20 p3672 A70-39588

IRRIGATION

Wheat culture continuous subirrigation for life support system applications in spacecraft, discussing harvest yields
17 p3026 A70-35321

IRRITATION

NT TOXICITY AND SAFETY HAZARD

IRROTATIONAL FLOW

U POTENTIAL FLOW

ISCHEMIA

Pathological manifestations of acute myocardial ischemia without acute myocardial necrosis and myocardial infarction, discussing subjects with chronic occlusive coronary atherosclerosis
04 p0634 A70-15456

Myocardial metabolism in ischemic heart disease using arterial and coronary sinus catheterization
04 p0636 A70-15469

Acute coronary occlusion effects on adjacent unoccluded artery resistance, discussing responsible mechanisms in ischemic heart
04 p0637 A70-15473

Computer program for on-line analysis of exercise ECG considered for improved diagnosis of ischemic heart disease
05 p0805 A70-16105

Acute myocardial ischemic injury and infarction in dogs related to changes in man using oxigraph tracings
06 p0997 A70-18405

Biochemical disturbances during early myocardial ischemia, examining coronary sinus lactate and K levels using electrocardiographic correlation
06 p0997 A70-18406

Ischemic heart disease (IHD) prognosis using abnormal electrocardiographic stress test
10 p1820 A70-24940

Hypercapnia effect on oxygen tension in ischemic myocardium in dogs using polarographic method
24 p4300 A70-45843

ISENTROPIC PROCESSES

Expansion isentropes of TNT/hexogen melts explosion products from measured shock wave parameters in Al, organic glass, foam polystyrene, argon and air
01 p0216 A70-11003

Self similar wave solutions of continuity and momentum equations for two dimensional unsteady isentropic motion of polytropic gas
02 p0278 A70-11998

Isentropic model for time behavior of steady spherical source expanding into arbitrary ambient gas [ALAA PAPER 70-232]
06 p1042 A70-18215

Finite plates impact flow field analysis from isentropic one dimensional flow equations solution through hodograph transformation
09 p1776 A70-22721

Expansion isentropes of TNT/hexogen melts explosion products from measured shock wave parameters in Al, organic glass, foam polystyrene, argon and air
10 p1960 A70-25008

Cylindrical shock wave two dimensional propagation in conducting plasma in magnetic field, assuming isentropic flow along streamline
11 p2091 A70-26174

Steady isentropic weakly perturbed supersonic flows past arbitrary slender tapered wings with subsonic leading edges
16 p2838 A70-33971

Rocket chambers combustion products isentropic expansion effects within nozzle on dissociation degree, assuming shifting and frozen equilibria
16 p2963 A70-34341

Midtropospheric frontogenesis, using three hourly rawinsonde data for isentropic trajectories to describe velocity field in space and time
20 p3664 A70-39374

Perfect gas irrotational isentropic nozzle flow by solving partial differential equations set
21 p3744 A70-41240

Hodography of compressible fluids three dimensional irrotational isentropic flow
21 p3808 A70-41439

Isentropic gas two dimensional unsteady flow through channel contraction, using hydraulic analogy
22 p4012 A70-43438

ISING MODEL

U FERROMAGNETISM

U MATHEMATICAL MODELS

ISIS SATELLITES

NT ALOUETTE 2 SATELLITE

NT ISIS-A

Electromagnetic control system for spin rate and axis orientation of ISIS ionospheric research satellites, describing design parameters
13 p2501 A70-28414

Report to COSPAR on space research in Canada, covering Alouette satellites, ISIS I, international cooperation, etc
15 p2829 A70-31708

Alouette and ISIS experiments programs and design
17 p3180 A70-35305

Soft particle spectrometer in Isis-I satellite using electrostatic deflection for differential energy spectra measurements for electrons and protons
23 p4197 A70-44468

ISIS-A
Canister for protecting DC motors in Isis I antenna unit, noting pressure monitoring device and shaft seal
17 p3100 A70-34753

ISLANDS
NT GREAT BRITAIN
NT GREENLAND
NT JAPAN

ISOBARS (PRESSURE)
Atmospheric circulation indices in Northern Hemisphere on isobaric surfaces, comparing mean diurnal, monthly and climatic values
20 p3662 A70-39180

Arctic and antarctic atmospheric circulation differences, discussing circumpolar vortices and isobaric surfaces altitude changes
22 p4065 A70-43168

ISOBUTANE
U BUTANES

ISOCORIC PROCESSES
Air jets from sonic orifice, investigating three zones of isochor families by visualization and density measurement
17 p3070 A70-35046

Single component fluid behavior in liquid-vapor critical point vicinity, using LF acoustic resonant cavity technique for isochoric measurements
23 p4222 A70-44432

ISOCROMATICS
Photoplastic material thickness change from mechanical and holographic measurements, showing correlation with isochromatics during plastic yielding
15 p2821 A70-32314

Holographic registration of isochromatic and isopachous diffraction patterns of photoelastic birefringent objects, showing stress concentrations
19 p3422 A70-37649

Isochromic change in bleaching of rhodospin, showing additional intermediate without detectable color change
23 p4147 A70-44776

Isoclinic parameter determination from intersection points of secondary isochromatics lines in photoelastic analysis, discussing polariscope theory and imperfect quarter wave plates error effect
23 p4198 A70-44910

ISOCYANATES
Dicyanostilbene formation from phenylethynyl azide and isocyanate
05 p0811 A70-16054

Isomerization of isocyanide into azulene by irradiation and formation from biphenyl isothiocyanate, observing ring expansion and electrophilic carbenoid properties
05 p0811 A70-16055

ISOLATION
NT SOCIAL ISOLATION
Radiation hardened ICs development, discussing problem of dielectric isolation
08 p1468 A70-20627

ISOLATORS
Plastic symmetrical trough waveguides with metalized surfaces for hybrid millimeter-wave integrated circuit systems, discussing ferrite resonant isolator
07 p1243 A70-20151

Gas tube isolator circuit for arcing amplifier in phased arrays, using programmed charge of capacitance bank during interpulse
16 p2879 A70-34072

Shock response of passive nonlinear elastic isolators under pulse excitation with viscous damping
22 p4117 A70-43249

ISOMERIZATION
Isomerization of isocyanide into azulene by irradiation and formation from biphenyl isothiocyanate, observing ring expansion and electrophilic carbenoid properties
05 p0811 A70-16055

Acrolein photoisomerization in lower excited states, determining fluorescence and phosphorescence quantum yields
15 p2694 A70-31730

Heats of combustion and free isomerization energies of exo- and endo-isomers of 2- and 1-methylbicyclo heptane
22 p3982 A70-42680

Light effect on cis-trans-isomerization of cinnamoyl-alpha-chymotrypsin, considering molecular modeling of visual reception
24 p4298 A70-45496

ISOMERS
Hydrocarbon fraction examination of Botryococcus braunii growing in natural environment, discussing unsaturated isomeric hydrocarbons
02 p0249 A70-11679

Mossbauer temperature dependent isomer shift, proposing electron density change at resonant nucleus site by lattice phonons
14 p2626 A70-30483

Isomer shift, Mossbauer recoil free fraction and nuclear quadrupole splitting for Fe57 in iron fluoride measured for lattice dynamics, fine and hyperfine structure
14 p2626 A70-30484

Specific heat and thermodynamic functions of endo- and exo-isomers of 2-methylbicyclo heptane in 12-310 K temperature range
22 p3982 A70-42681

Carbonaceous chondrites isomeric alkanes identification by mass spectrometry and gas chromatography
24 p4402 A70-45378

Iron meteorites graphite-troilite nodules isomeric alkane composition, using gas chromatography and mass spectrometry
24 p4402 A70-45379

ISOMORPHISM
Isomorphous mixed ammonium perchlorate and potassium perchlorate crystals structural homogeneity by X ray diffraction and differential thermal and thermogravimetric analyses
21 p3784 A70-42262

ISOPHOTES
Isophote flattening functions of elliptical galaxies including identification of giant and dwarf galaxies
02 p0377 A70-12449

Solar corona photographs for isophotes during solar eclipse of 22 September 1968 revealing chromospheric flare and prominences
03 p0569 A70-13362

Solar flare H alpha brightness measurement from photograph taken through birefringent filter, deriving flare morphological changes from isophotes
06 p1135 A70-18004

Galactic longitude interval region radio telescope observations, obtaining isophotes of brightness distribution of RF spectral line of neutral H and continuous spectrum
08 p1564 A70-20551

Radio galaxy 3C 371 compact companions, studying luminous isophotes and red shift by long exposure plates with 200 inch telescope
10 p1936 A70-23908

Solar corona photographs for isophotes during solar eclipse of 22 September 1968 revealing chromospheric flare and prominences
11 p2118 A70-26727

Galactic longitude interval region radio telescope observations, obtaining isophotes of brightness distribution of RF spectral line of neutral H and continuous spectrum
15 p2805 A70-32706

Planetary nebula NGC 3242 monochromatic photographs and isophotic contours
24 p4411 A70-45788

ISOPLETHS
U NOMOGRAPHS

ISOSTASY
High temperature effects on evolution of Venus upper lithosphere, considering magnetic differentiation, isostatic adjustments, surface relief, mountain building time and distance scales, etc
02 p0371 A70-12207

De Sitter hydrostatic equations solution possible with help of boundary condition from external potential theory with/without assumed equilibrium in earth interior
04 p0678 A70-15051

Mercury shape estimated with isostatic form of equilibrium controlled by situation near perihelion passage at 3-2 resonance spin rate, discussing solidification thermal effects
05 p0908 A70-16332

Earth deviations from isostatic equilibrium, showing irregularities dependence on distance from surface for various tectonic zones
08 p1487 A70-20715

Lunar maria absolute age from lunar craters rim height changes via isostatic settling and small craters quantity
14 p2649 A70-31213

ISOTHERMAL FLOW
Turbulence intensity and fluctuation rates in isothermal swirling free jets, using constant temperature hot wire anemometer method
01 p0059 A70-10031

Axisymmetric turbulent incompressible and isothermal self preserving jet investigation using linearized constant temperature hot-wire anemometers
01 p0065 A70-11099

System of equations describing isothermal two phase-two component fluid flows with negligible dissipation effects, emphasizing slug flow
02 p0288 A70-12856

Laminar isothermal entrance flows in circular cross section ducts with uniform mass injection at wall from boundary layer equations, discussing molecular weight effects
02 p0288 A70-12859

Dissimilar coaxial axisymmetric jets confined laminar mixing obtained from numerical solution of boundary layer equations, considering binary, isothermal and nonreacting system
04 p0621 A70-15579

Vertically propagating waves in viscous isothermal atmosphere taking into account reflection due to nonlinearities and time dependence
05 p0833 A70-16679

Transition from compressible to incompressible fluid assuming isothermal flows and finite stresses for density at or different from initial value
10 p3954 A70-24008

Two dimensional incompressible isothermal laminar separation of Newtonian fluid in steady flow, obtaining velocity profiles
16 p2892 A70-33635

Variational principle for turbulent shear flow between parallel plates, taking into account isothermal flow and Malkus theory
17 p3073 A70-35595

Karman-Polhausen method applied to unsteady thermal boundary layer on isothermal flat plate
21 p3954 A70-42208

Isothermal steady laminar flow through tube with change in wall temperature, examining velocity profile relationship to temperature profile
22 p4008 A70-42421

MHD laminar isothermal flow in closed cylindrical tube in rotating magnetic field, determining azimuthal velocity distribution
23 p4224 A70-44162

ISOTHERMAL LAYERS
Isothermal sections in Ti-Ni-B, Mo-Ni-B and W-Ni-B at 800 C determined by X ray analysis
06 p1090 A70-17846

Isothermal section determination in Mo-Cr-B at 1000 C using X ray, metallographic analyses and microhardness measurements
06 p1090 A70-17847

Radiant heat transfer predictions between isothermal plates based on diffuse plus specular directional property model
11 p2149 A70-26157

ETA oxides compositions in Hf-Ni-O, Ta-Ni-O and W-Ni-O systems determined by studying 1000 C isothermal sections with X ray diffraction
12 p2255 A70-27607

ISOTHERMAL PROCESSES
Viscoelastic behavior of styrene-butadiene rubber under finite uniaxial and equal biaxial deformations for nonisothermal case
05 p0929 A70-16068

Static and dynamic solutions for isothermal deformation of elastic cylindrical and spherical Cosserat surfaces with holohedral isotropy
05 p0932 A70-16140

Ternary Ti-Al-Mo part phase diagrams constructed from Mo corner to plane titanium aluminide, including isothermal phase diagram for 600 C
05 p0864 A70-16548

Real plasma isotherms using three component /atoms, electrons, positive ions/ model in search for supercooled dense plasma
07 p1349 A70-19651

Isothermal reaction rate determination at given temperature from nonisothermal data illustrated at Knudsen cell vaporizations
07 p1424 A70-19901

Turbulent heat transfer in boundary layer at inlet of porous tube under nonisothermal conditions, studying velocity variations
09 p1787 A70-22169

Nonisothermal loading model of polycrystalline material, investigating tangential stresses in slip direction and plastic deformation using linear strengthening law
09 p1779 A70-23102

Transformation kinetics of Ti alloy under isothermal conditions in solution treatment as function of temperature
10 p1903 A70-24025

Quasi-isothermal heat transfer pipe design and operation
12 p2330 A70-27275

Low carbon Ni steels isothermal transformation characteristics, observing equiaxed ferrite and Widmanstatten and bainitic structures at various temperatures
12 p2256 A70-27615

Isothermal quasi-linear theory of viscoelastic isotropic continuum, considering constitutive equations
13 p2516 A70-29534

Intergalactic medium lukewarm models, considering physical state, cosmic photon spectrum and isothermal and adiabatic expansion
14 p2651 A70-31291

Vibration-rotation band absorbance for nonisothermal gaseous radiation in terms of parameters describing isothermal gas

15 p2825 A70-31816

Maraging nickel steel martensitic transformation temperature reduction after interruption by nonisothermal or isothermal tempering below 460 C

16 p2932 A70-33850

Plane waves superposed on solid during steady state isothermal creep deformation subjected to unidirectional constant initial tensile stress

19 p3537 A70-37791

Nonisothermal condensation in ionized vapor as function of energy additions to droplets

20 p3680 A70-39989

Lorentz lines radiative transfer in nonisothermal gases, developing Landenburg-Reiche analysis for isolated unshifted lines growth curves

21 p3852 A70-40590

Cool flame isothermal theory with oscillatory features accounting for damping time evolution and thermic reaction nature

21 p3942 A70-40886

Superconducting Sn bolometer under isothermal and nonisothermal conditions, measuring noise spectra dependence on displacement current and resistance

22 p4026 A70-42397

Isothermal plasticity thermodynamic foundation, deriving constitutive equations for various deformations

24 p4426 A70-45994

Chromium ions isothermal annealing kinetics in X ray irradiated ruby crystals, using EPR method

24 p4382 A70-46253

ISOTHERMS

Steady temperature field of two dimensional periodic contact surface in vacuum, using conjugate harmonic functions for thermal flux lines, isotherms and thermal resistance

07 p1423 A70-19820

Thunderstorm bottom wind profile model, analyzing flow distribution, isotach, isogon and isotherm characteristics

14 p2607 A70-30584

Physiosorption isotherms for nitrogen on stainless steel at various temperatures and very low pressures

18 p3226 A70-36322

ISOTONICITY

Frog sartorius muscle heat production and work effect measured under isotonic and isometric conditions, using gradient layer calorimetry

02 p0232 A70-11715

ISOTOPE EFFECT

Longitudinal modes competition in He-Ne laser, studying effects of active medium isotopic composition and pressure

08 p1511 A70-20518

Hydrazine decomposition in low pressure flame, investigating isotopic substitution effect on flame speed

14 p2628 A70-31094

Carbon and sulfur concentration and isotopic variations in Apollo 11 fines, breccias and fine-grained basalts

21 p3775 A70-41586

ISOTOPE SEPARATION

Deuterium recovery in Jupiter atmosphere, describing equipment and techniques for hydrogen-helium gathering and processing

11 p2112 A70-26064

Oxygen isotope fractionation and formation temperature of minerals from Apollo 11 rocks, including plagioclase-clinopyroxene-magnetite concordancy diagram

21 p3776 A70-41597

Uranium and Th isotopic composition in Apollo 11 samples compared to earth, using mass and alpha spectrometries

21 p3777 A70-41603

ISOTOPE SHIFT

U ISOTOPE EFFECT

Ca-rich basalt achondrites cosmogenic isotopes characteristics, discussing lunar or cosmic origin

01 p0174 A70-10136

Isotopic composition of meteoritic Ti determined in Ivigtut galena, Plainview chondrite, Canyon Diablo troilite and Canyon Diablo metal

03 p0576 A70-14091

Relative rotational lines intensities of carbon dioxide, considering sigma-sigma transitions for abundant isotopes

08 p1549 A70-21575

Preplanetary matter irradiation by solar particles, noting isotopic abundances for evidence of nucleosynthesis induced by proton and alpha bombardment

13 p2486 A70-28619

Thioformaldehyde isotopic species reversible transition in interstellar clouds

20 p3703 A70-39164

Interplanetary medium energetic electrons and isotopes measurement, discussing spectrometer electronics of IMP H and J

21 p3825 A70-41000

Apollo 11 lunar rocks and soil hydrogen, C and Si concentration and isotopic composition

21 p3774 A70-41568

Radiogenic and cosmogenic inert gases and isotopic ratios in Tranquility Base fines indicating solar wind saturation

21 p3775 A70-41581

Apollo 11 lunar fines, breccia and crystalline rocks rare gas data, emphasizing trapped and spallation Ne, Kr and Xe isotopic compositions

21 p3909 A70-41598

Isotopic decay rates, solving time dependent atmospheric turbulent dispersion from steady state measurements

22 p4093 A70-42915

ISOTOPE LABELING

Dibutylryl cyclic adenosine monophosphate stimulation of melatonin and serotonin synthesis from C-14 labeled tryptophan by rat pineals in organ culture

01 p0022 A70-10824

Cr 51 osteotropic properties for osseous system studies, discussing binding to bones, experiments on rats and rabbits, applications for human osseous system diagnosis, etc

01 p0029 A70-11403

Scintiscamera resolving power in radioactivity measurements, discussing mathematical principle of division of radioisotope concentration in biological experiments

01 p0040 A70-11404

Dogs left ventricle areas supplied by coronary arterial branches visualized utilizing scintillation photography and radioactive Xe

03 p0432 A70-12892

Calcium isotopes tracer migration in caged rats in metabolism study

04 p0630 A70-14571

Adhesive joint failure, studying adhesive, cohesive and adherend ruptures by evaporative rate analysis

07 p1292 A70-18931

Electron impact induced fragmentation of androstane using deuterium labeling

08 p1454 A70-20524

Rhesus monkey active bone marrow distribution and volume studied by radioactive tracing techniques

09 p1616 A70-22301

Thymidine tracer distribution in bone marrow chromosomes of rats and mice treated with radioprotectors, noting cell metabolic activity reduction by sulphydryl-type radioprotectors

09 p1619 A70-22818

Cyclohexene oxide mass spectral fragmentation by means of deuterium labeled analogs

09 p1630 A70-23397

German monograph on atmospheric turbulence by Rn 220 as tracer, relating concentration to various meteorological parameters

16 p2946 A70-34080

Acute hypoxia effects on C14-tagged glycine absorption, distribution and discharge in rats organs and tissues

17 p0300 A70-35360

Fe diffusion in equiatomic Ni-Co alloy, using thin radioactive deposit method with tagged element Fe 59

18 p3277 A70-36440

P32 labeled organic phosphate esters in water extracts of soil

20 p3615 A70-38979

Trace elements K, Rb, Sr and Ba distributions and Rb-Sr isotopic relations in Apollo 11 lunar breccia and fine soil samples

21 p3909 A70-41594

ISOTROPIC MEDIA

Transversely isotropic circular cylinder acted upon by transient shearing force at one end, noting forced torsional oscillation using cylindrical coordinates

01 p0200 A70-10550

Thermal stresses in infinite layer of transversely isotropic material due to crack with prescribed normal displacement, deriving temperature distribution

01 p0200 A70-10552

Relativistic formulation of radiation for sources in uniformly moving isotropic dispersionless conducting medium in terms of Green functions

01 p0144 A70-11091

Homogeneous Love-Reissner equations analytical solutions for noncircular pyrolytic graphite cylinders, using asymptotic expansion for transverse materials isotropy

01 p0206 A70-11151

Stressed state of isotropic nonlinear multiply connected media with large deformations, using nonlinear elasticity theory

01 p0212 A70-11446

Curvature and hole spacing effects on stress concentration of isotropic plate weakened by two curvilinear holes, applying small parameter method

01 p0212 A70-11447

Temperature fields and universal motions in homogeneous isotropic thermoelastic body in absence of body forces and external heat supply

02 p3887 A70-12000

Stress-strain state of body of revolution having transversely isotropic elastic properties, using perturbation technique

03 p0591 A70-13441

Finite strain in bending rectangular block into right circular cylindrical shell for transversely isotropic medium along radius vector, using Saint Venant stress-strain relations

03 p0602 A70-14329

Refractive index profile analysis for hypergeometric functions solutions for vertically polarized electromagnetic waves propagating in horizontally stratified isotropic media

04 p0647 A70-14616

Radio wave propagation in linear, isotropic homogeneous medium with irregular boundaries solved by expanding Helmholtz integral

04 p0648 A70-14965

Static deformation fields producible in isotropic homogeneous incompressible elastic body with uniform transverse stretch

05 p0931 A70-16134

Constitutive equations for isotropic elastic and thermoelastic materials with microstructure derived using free energy function, giving uniqueness theorems

05 p0932 A70-16136

Mixed boundary value problems of isotropic elastic half space with ring shaped separation region

05 p0935 A70-16232

Linear isothermal quasi-static theory for homogeneous and isotropic viscoelastic bodies with couple stresses

05 p0938 A70-16425

HF conductivity tensor of isotropic plasma, taking into account particle correlations describing weakly Langmuir turbulent plasma

05 p0889 A70-16532

Bending problem for homogeneous transversely isotropic plate weakened by curvilinear hole

05 p0946 A70-16959

Geometry of limiting surface characterizing strength of isotropic body, discussing material breakdown

05 p0947 A70-16964

Temperature of contact surface between two homogeneous isotropic solid bodies determined by calculating plane heat source of steady three dimensional temperature field

05 p0958 A70-17014

Wave equation for elastic waves in isotropic solid solved in Cartesian and circular cylindrical coordinates for studying microsonic wave guiding structures

06 p1105 A70-17479

Plane light wave diffraction incident upon isotropic dielectric layer traversed by acoustic microwave using guided microwave theory

06 p1105 A70-17484

Limiting stress states analysis in isotropic solids using loading history and replacing nonlinear stress-strain curve by approximating rectilinear polygon

06 p1165 A70-17547

Transient response analysis in isotropic material under thermal galvanomagnetic effects involving interaction electric and thermal conductions in applied magnetic field

[AIAA PAPER 70-17]

06 p1107 A70-18213

Cylindrical antennas immersed in arbitrary homogeneous isotropic media, solving integral equation for current

06 p1074 A70-18607

Frequency equation for harmonic waves propagating in fluid filled circular cylindrical cavity in infinite isotropic solid medium

07 p1253 A70-18846

Isotropic elastic body occupying half plane assuming elasticity coefficients of certain class

07 p1407 A70-19376

Boundary value problems solution for infinite elastic isotropic plane weakened by arbitrarily distributed circular holes based on using series in Taylor functions

07 p1408 A70-19549

Computer procedures for solving temperature stresses in thin infinite isotropic viscoelastic plate with heat transfer

07 p1411 A70-19817

Spectrum of waves emitted from waveguide of two plane dielectric or isotropic plasma layers, solving dispersion equations numerically by computer

08 p1472 A70-20973

Constitutive inequalities for isotropic elastic solids under finite strain generated by introducing concept of conjugate pairs of stress

08 p1590 A70-21351

Split ring load test method for determining shear modulus of isotropic and composite materials

08 p1530 A70-21888

Transversely isotropic body of revolution under combined surface loads and stationary axisymmetric temperature field, obtaining displacement vector and stress tensor in analytic functions

09 p1778 A70-23086

Elastoplastic stressed state of thin walled shells of revolution under repeated loads, assuming isotropic incompressible material

09 p1779 A70-23092

Thermal conductivity of arbitrarily inhomogeneous bodies, considering vectorial field isotropy and temperature gradients dispersion

09 p1789 A70-23103

Point source intensity fluctuations dependence on penetration depth of wave propagating in statistically homogeneous and isotropic media

09 p1636 A70-23133

Reissner-Sagoci transient mixed boundary value problem concerning displacement of infinite half space of isotropic elastic material, deriving surface displacement and reactive torque

09 p1784 A70-23571

Cylindrically isotropic elastic medium statics, deriving general solutions to Lamé equations

09 p1784 A70-23593

Equilibrium equations integration for body in isotropic linear viscoelastic medium with contact-type boundary conditions

10 p1957 A70-24267

Molecular-statistical theory of second-harmonic light generation by isotropic bodies immersed in external AC or DC electric field

10 p1916 A70-24379

Time dependent radiative transfer equation for plane-parallel isotropic scattering medium in first Gaussian approximation

10 p1933 A70-24986

Electromagnetic wave propagation in spatially inhomogeneous isotropic ionosphere, determining phase, amplitude, polarization, absorption, arrival angle, etc

11 p2003 A70-25547

Stress concentration near ellipsoidal cavity in transversely isotropic body using solutions for transversely isotropic ellipsoid of revolution

11 p2129 A70-25564

Equilibrium displacement equations for linear infinitesimal isotropic Cosserat elasticity solved in terms of stress functions

11 p2142 A70-26630

Kane-Mindlin equations and frequency spectra determined for free elastic vibrations in isotropic elastic plate strips

11 p2146 A70-26703

Book on three dimensional problems of linear elasticity of homogeneous and isotropic solids, discussing prismatic bodies, bodies of revolution, notch effect, etc

12 p2326 A70-27669

Radiation characteristics of ion acoustic waves from monopole and dipole antennas, observing patterns of longitudinal wave in isotropic plasma

12 p2279 A70-27778

Simulated isotropic lossless plasma radiating apertures located on nonplanar models, relating results to antenna radiation patterns

12 p2282 A70-27969

Electromagnetic waves emission and propagation in chaotically inhomogeneous media, analyzing mean field and permittivity tensor for isotropic and anisotropic media

12 p2190 A70-28170

Saint Venant principle in linear isotropic viscoelasticity of Toupin estimates for body of arbitrary shape to allow integration by parts

13 p2513 A70-28990

Isotropic elastic three dimensional body steady stressed state under large subcritical triaxial strains described by solving linearized equations

13 p2515 A70-29316

Isothermal quasi-linear theory of viscoelastic isotropic continuum, considering constitutive equations

13 p2516 A70-29534

Diffusely transmitted and reflected radiation fields for planetary isotropically scattering atmosphere bounded by Lambert law reflector

14 p2617 A70-31305

Distant radiation from magnetic line source in moving isotropic plasma, discussing dependence on velocity

15 p2778 A70-31835

Plane electromagnetic waves propagation in isotropic medium in electromagnetic nonequilibrium conditions

15 p2790 A70-32275

Isotropic slab with implanted elastic circular disk, analyzing stress-strain state due to torsional and bending moments

15 p2824 A70-32895

Isotropic composite materials with anisotropic components, determining microconstants for heat conduction, elasticity and thermoelasticity problems

15 p2766 A70-32896

Transversely isotropic elastic plates vibrations without initial specification of field variables spatial dependence on thickness coordinate by two dimensional asymptotic theory

16 p2994 A70-34232

Rigid inclusion effect on stress distribution in isotropic infinite solid with Griffith crack under plane strain

16 p2994 A70-34250

Thermomagnetoelasticity wave equations of heat conduction for thermal and coupled perturbations propagating in isotropic medium at finite velocities

16 p2953 A70-34326

Thermal and thermoelastic constants of macroscopically isotropic composite materials based on self consistent calculations

17 p3194 A70-34555

Transversely isotropic Timoshenko beam statics and dynamics under initial stress and transverse loading

17 p3182 A70-34561

Elastic waves on isotropic and anisotropic surfaces, discussing excitation methods, surface probing, propagation characteristics, etc

17 p3136 A70-34650

Isotropic body screw dislocations, using finite elasticity approach

17 p3190 A70-35453

Parallel edge dislocations in elastically isotropic crystals, discussing climb and glide forces

17 p3126 A70-35454

Isotropic fluid systems in nonequilibrium, investigating thermodynamic characteristics of transport phenomena

17 p3072 A70-35529

Isotropic scattering of radiation from asymmetric spherical source in finite atmosphere

17 p3136 A70-35598

Integral equation for three dimensional Fourier transform applied to isotropic scattering of radiation from point source in finite spheroidal atmosphere

17 p3137 A70-35599

Stationarity of complementary energy in nonlinear elasticity theory, using Piola stress tensor representation for isotropic elastic media

17 p3192 A70-35692

Structural members of isotropic and anisotropic polymers, investigating creep behavior under simple stressed state

17 p3192 A70-35740

Heat transfer across boundary between two stationary fluids, applying elastic wave theory in isotropic media

18 p3345 A70-36118

Linear bending theory of thin homogeneous isotropic plates

18 p3339 A70-36482

Nonuniqueness of collapse load for isotropic frictional material with or without cohesion

19 p3433 A70-37385

Relaxation theory of Rayleigh scattering of light by isotropic continuous medium, deriving spectral densities via fluctuation dissipation theorem

19 p3470 A70-37446

Acceleration wave propagation in materially uniform inhomogeneous isotropic elastic bodies, using tensor analysis

19 p3536 A70-37563

Gyrotropic waveguides parameters computer calculation based on inhomogeneous isotropic region, taking into account discontinuities

19 p3378 A70-37736

Edge dislocation and uniform and radial fissures in elastic isotropic nonhomogeneous bodies under two dimensional deformation

19 p3540 A70-37956

Yield condition and Bauschinger effect in transition conditions for isotropic and orthotropic bodies

19 p3542 A70-38061

Equilibrium equations integration for body in isotropic linear viscoelastic medium with contact-type boundary conditions

19 p3547 A70-38395

Plane wave reflection from stratified isotropic medium using ray tracing in complex space, noting agreement with phase integral method

19 p3380 A70-38404

Antennas impedances in warm isotropic plasma, using hydrodynamic and kinetic /Vlasov/ equations

19 p3380 A70-38406

Skin effect for unsteady radio waves emitted into homogeneous nonmagnetic isotropic half space, calculating electric field

19 p3381 A70-38571

Isotropic finite strain expressions for compressional and shear velocities, noting no discrepancy with ultrasonic and seismic data

20 p3619 A70-39218

Linear relations between stress state and Euler strain rate in isotropic elastic bodies during superposition of small deformation on finite strain

20 p3728 A70-39893

Torsion of composite rectangular cross section beam consisting of isotropic media, using Green function and Fourier expansion

20 p3732 A70-40334

Electromagnetic wave propagation in spatially inhomogeneous isotropic ionosphere, determining phase, amplitude, polarization, absorption, arrival angle, etc

21 p3786 A70-41297

Sommerfeld type radiation conditions for linear homogeneous isotropic elastic materials with microstructure, discussing field equations, displacement and rotation vector and scalar conditions

21 p3936 A70-41417

Elastic wave propagation in isotropic homogeneous bodies, considering free vibrations and propagation velocity

21 p3940 A70-42099

Constitutive equation for homogeneous and isotropic elastic solids

21 p3940 A70-42101

Linear coupled thermoelasticity theory for homogeneous isotropic solid with two temperatures

22 p4123 A70-42540

Plane electromagnetic wave propagation at normal incidence in isotropic lossless plane-stratified inhomogeneous gyration medium, calculating varying profiles from constitutive equations

22 p4073 A70-42640

Isotropic homogeneous elastic cylindrical rods, investigating nonlinear longitudinal dispersive waves corresponding to water wave theory analogs

22 p4115 A70-42952

Spatial problem of elastic spherical transversal isotropic medium solved by reducing Lamé equations

22 p4118 A70-43481

Sound velocity in isotropic nonlinearly elastic continuum with microstructure, showing dispersion coincident with Cosserat constant

22 p4120 A70-43713

Two incompressible isotropic nonlinear elastic solids mixture, investigating entropy production inequality effects

24 p4425 A70-45991

ISOTROPIC TURBULENCE

Isotropic incompressible three dimensional turbulence representation by wave vector scalar functions, discussing maximum functions number determination

02 p0277 A70-11878

Spatial resolution analyses of vorticity meter and hot wire arrays for measuring velocity derivatives in isotropic turbulence

03 p0492 A70-13760

Spectral energy transfer measurements in isotropic grid turbulence to determine validity of dynamical equation

03 p0468 A70-13785

Decaying isotropic turbulence spectrum evolution model, verifying numerical integration of differential equations

04 p0673 A70-15249

Shear-dependent nearly isotropic turbulence energy spectrum theory, considering effects of viscous loss,

shear production and inertial and velocity gradient transfer

04 p0674 A70-15520

Constitutive equations for Reynolds fluxes in large scale transversely isotropic turbulent mixing using gradients of mean quantities

05 p0836 A70-17103

Viscosity superposition principle applied to isotropic turbulence analysis, approximating self similar solution by time factor averaging

07 p1258 A70-19698

Lagrangian tensor formalism for hydrodynamic stretching of material line and surface elements under statistically isotropic incompressible turbulence

07 p1260 A70-19979

Damped isotropic turbulence kinetic and temperature fluctuation energy spectra, neglecting viscosity and molecular heat conduction

08 p1483 A70-20961

Fluid material line growth in grid-generated isotropic turbulent flow measured by tagging lines with hydrogen bubbles

11 p2035 A70-25843

Energy spectrum of homogeneous isotropic incompressible turbulence, discussing eddy relaxation and direct interaction approximation

11 p2040 A70-26541

Incompressible homogeneous isotropic turbulence velocity expanded in Hermite functionals of Gaussian white noise random function advected by fluid

11 p2040 A70-26543

Viscosity coefficient for isotropic turbulence using quasi-self-similar solution

13 p2391 A70-29777

Homogeneous isotropic turbulence velocity field space-time variable correlation functions in fluid flow

15 p2719 A70-31487

Energy dissipation and viscosity effects on isotropic turbulence in extreme short wave region at large Reynolds numbers

18 p3239 A70-36263

Damped isotropic turbulence kinetic and temperature fluctuation energy spectra, neglecting viscosity and molecular heat conduction

20 p3608 A70-39383

High Reynolds number isotropic homogeneous turbulence fine scale structure heuristic model, relating spatial intermittency to vorticity generation

20 p3609 A70-39665

Aerodynamic theory of pressure field induced on lifting surface by isotropic atmospheric turbulence, considering transfer function of Concorde aircraft [ICAS PAPER 70-30]

23 p4138 A70-44104

ISOTROPISM

Isotropic transformation of tensor space, proving theorem for reducing hemitropic function to N invariants of rotations and single vector

24 p4378 A70-45271

ISOTROPY

NT ISOTROPIC MEDIA

Natural vibrational frequencies of trapezoidal, triangular, circular and elliptical isotropic flat plates with different edge conditions tabulated

05 p0936 A70-16319

Two port isotropic antenna excited by independent noise sources for uniform power radiation in all directions and polarizations

06 p1021 A70-17574

Isotropic plate stress-strain state weakened by doubly periodic curvilinear holes using nonlinear theory

07 p1408 A70-19544

Two dimensional continuum of objectivity and isotropy principles applied to study of elastic tridimensional vault

09 p1777 A70-22899

Stress-strain state analysis of transversely isotropic plates with inclusions under bending loads

09 p1782 A70-23298

Transversely isotropic shells stability with respect to subcritical deformation under axial compression using three dimensional linearized equations, determining critical loads

12 p2324 A70-27529

Transversely isotropic hollow spherical shell with elastic filler, analyzing stability

12 p2328 A70-28281

Concentrated force action inside transversely isotropic half space analyzed by mirror image method

13 p2512 A70-28865

Stress distribution in isotropic plates weakened by elliptical holes under bending based on elastic shallow shell theory and small parameter technique

13 p2514 A70-29291

Isotropic plates weakened by circular holes, investigating bending by Ambartsumian plate theory

13 p2515 A70-29509

Pseudoisotropic surfaces in Minkowski space-time with proof of existence, formulating congruencies of normal fiber

13 p2452 A70-29634

Third isotropic point in rectangular beam under bending stresses by Hertzian load, using Stokes-Wilson method and photoelastic comparison

21 p3941 A70-42265

Heat conduction of doubly connected square and triangular isotropic plates with hole, applying small parameter method

23 p4276 A70-44217

ISRAEL

Cretaceous rock paleomagnetism from Israel lava fields, determining original magnetization directions

19 p3413 A70-38034

ITALY

Italian fog distribution charts compiled by Italian Air Force and Istituto Centrale di Statistica compared and criticized

02 p0328 A70-12397

NASA network and Thor Delta type booster to launch Italian satellite to geostationary orbit, evaluating feasibility

03 p0451 A70-13841

Italian space satellite booster programs for launching satellite payloads into low orbit

03 p0609 A70-13846

Italian aviation and space industry development for local and sectional character and participation in European production

10 p1971 A70-24663

Italian Sirio project, describing SHF propagation and communication, cosmic ray and confined plasma experiments

11 p2011 A70-26604

Report to COSPAR on Italian space programs, discussing cosmic ray physics, EM propagation, international research efforts, etc

15 p2830 A70-31717

Italian automated ATC system (ATCAS), discussing subsystem functions, display devices, data acquisition, information distribution, etc

21 p3847 A70-40911

ITERATION

NT ITERATIVE SOLUTION

Boltzmann equation direct numerical integration using successive iterations algorithm

06 p1036 A70-17755

Biharmonic equation numerical solution by finite differences, discussing outer and inner iteration schemes

14 p2599 A70-30647

Computer program for nonlinear differential equations related to nonlinear boundary value problems based on Newtonian iteration process difference analog of linearization method

23 p4212 A70-44338

ITERATIVE SOLUTION

Airfoil cascade blade design by iteration method equating normal velocity distribution about contour with imposed tangential velocity

01 p0001 A70-10263

Successive approximations method for incorrectly posed problems in synthesis of radiating systems, discussing radiation patterns of linear emitter

01 p0044 A70-11036

Integral equation for emissivity inside uniform gray isothermal Lambertian cavity solved using successive approximations

02 p0323 A70-11889

Lubrication problem for centrally pivoted tilting-pad sector thrust bearings with temperature and elasticity effects, noting iterative solution for coupled equations

[ASME PAPER 68-LUB-4]

02 p0307 A70-12166

Thin shells stressed state calculations by iteration, considering suitability for computer adaptation

03 p0592 A70-13442

Iterative computational procedure for generalized quadratic programming problem, formulating convergence theorem

03 p0460 A70-14165

Radiative heat transfer from longitudinal rectangular conducting fins on plane wall involving mutual irradiation, using iterative method

[ASME PAPER 69-WA/HT-22]

04 p0782 A70-14812

Iterative solution to transmission lines termination problems

[ASME PAPER 69-APM-M]

04 p0627 A70-14861

Upper and lower bounds for eigenvalues of lumped parameter straight line torsional system determined by receptance synthesis based on Holzer method

04 p0773 A70-15083

Least squares iterative method for solving simultaneous linear equations having singular coefficient matrix

04 p0714 A70-15450

Three dimensional analysis of nonhomogeneous elastic solids based on finite element method and equilibrium equations, discussing iterative solution

05 p0926 A70-15915

Weinstein approximation and iteration by digital computer for calculating disturbed Fabry-Perot laser resonator modes

06 p1081 A70-17546

Iteration for Boltzmann equation solution for relaxation of gas having solid molecules with time variable and velocity dependent distribution function

06 p1109 A70-17757

Boundary conditions and iterative procedures for plasma sheath problems, using matrix equation to represent differenced Poisson equation

06 p1123 A70-18295

Hybrid patched conic technique as iterative procedure for generating transunar and transearth trajectories emphasizing computing time saving

06 p1152 A70-18495

Iterative solution of nonlinear optimal control delineated for sufficient conditions for convergence

06 p1027 A70-18507

Gyroscopes orientation cross coupling effect on dynamic drift of three axis gyrostabilizer solved by method of successive approximation

07 p1278 A70-18736

Scalar radiative transport equation solved iteratively for microwaves backscattering from turbulent plasma, deriving model for direct and cross polarized cross section

07 p1353 A70-19993

Parameters identification in nonlinear boundary value problems by successive approximations technique, using Lagrange multipliers and Newton-Raphson method

07 p1327 A70-20025

Boundary value problem for self conjugate elliptical fourth order differential equation with variable coefficients, proving convergence of iterative process

07 p1328 A70-20143

Nonlinear difference approximating scheme and iterative method for Stefan problem with several unknown fronts

08 p1534 A70-20851

Radiant heat exchange for rectangular groove represented by integral equations using rapid iteration method

08 p1600 A70-21835

Repetitive electronic differential analyzer with transistorized operational amplifiers for iterated solutions of differential equations

08 p1478 A70-21836

IR absorption spectral curve interpretation using computer program for iterative solution

09 p1726 A70-22138

Eigenvalues and eigenvectors evaluation for real symmetric matrices by iterating simultaneously with trial vectors

09 p1641 A70-22283

Iterative technique for determining zero of differentiable function

09 p1641 A70-22287

Elastoplastic problems incremental solution by iterative method, demonstrating convergence

09 p1771 A70-22394

Boundary problem for displacement equilibrium equations of elastic body using iterative methods, demonstrating convergence of difference equation solution

09 p1771 A70-22467

Artifices to allow computing time reduction in recursive data elaboration for high order differential system

09 p1720 A70-22647

Nonlinear periodic oscillations problem solved by solving nonlinear operator equations, discussing iterative methods based on equations linearization

09 p1728 A70-22668

Space mechanics problem of passing from perigee to radial distance in given time determined by fitting conic to radii, using iteration method

09 p1760 A70-22927

Hybrid patched conic iterative technique for accurate moon-earth (transearth) trajectory generation

09 p1760 A70-22929

Numerical solution of three dimensional equation of elastic body equilibrium in displacements, giving convergence rate of iteration processes

09 p1783 A70-23384

Three stage variable shift iteration algorithm for calculating zeros of polynomial with complex coefficients

09 p1712 A70-23419

Multipoint methods for two point boundary value problems with Banach space self mapped, proving convergence theorems for iterative solutions

09 p1712 A70-23420

Nonlinear operational equation iteration solution error estimation, discussing Banach space nonlinear operator equation

10 p1909 A70-24508

Analytical aerial triangulation iterative solution mathematical convergence parameters tests, considering photogrammetric relations for standard conditions in variable size block

10 p1878 A70-24729

Successive approximations method for incorrectly posed problems in synthesis of radiating systems, discussing radiation patterns of linear emitter

10 p1842 A70-25006

Iterative numerical method for determining optimal mass distribution in complex frameworks, maintaining dynamic response level

10 p1960 A70-25053

Iterative algorithms for numerical solution for time optimal control problems

10 p1856 A70-25232

Nonlinear partial differential operators eigenvalue solution using modified Newton iteration method, noting advantages over perturbation method

11 p2074 A70-26423

Deformation theory for small elastic-plastic strains in orthotropic material and discretization and iterative solution techniques

11 p2144 A70-26684

Nonlinear equations systems iterative solution convergence by extending classical algorithm with optimization process

11 p2074 A70-26850

Book on successive approximation methods in control and oscillation theory covering two point boundary value problems iterative solutions, orbital transfer, etc

12 p2260 A70-26852

Differential equations in two point boundary value problems solved by combining Newton-Raphson iterative method with parameter variation extrapolation

12 p2260 A70-27003

Iteration procedures for boundary value problem of orthotropic rectangular plate under bending loads, discussing convergence of procedures

12 p2325 A70-27552

Iteration solution for three dimensional equations of equilibrium of elastic body in boundary displacements, discussing convergence rate and computer applications

12 p2272 A70-27553

Iterative algorithm for synthesis of discrete minimum time and amplitude controls for linear systems, noting guaranteed convergence

12 p2204 A70-27667

Wide range wind compensated launcher settings for unguided rockets using wind-weighting model and iterative procedure requiring real time computation

13 p2503 A70-28528

Variable mesh multistep predictor-corrector method for iterative solution of ordinary differential equations, considering numerical stability and algorithm efficiency

13 p2440 A70-29087

Computer techniques for rounding error analysis, stability in linear algebra, matrices factorization, Jacobi rotation method and iteration procedures

13 p2443 A70-29768

Algorithm for improving approximate quadratic factor of polynomial with real coefficients using iterative method

14 p2600 A70-31227

Radial Schrodinger equation bound state eigenvalues and properties by iterative method, calculating Coulomb potentials

14 p2600 A70-31360

Iterative solution for electron density profiles from topside ionograms

16 p2900 A70-32931

Generalized iterative inverse algorithm for linear inequalities set involved in pattern recognition and threshold logic requiring decision functions determination

16 p2870 A70-33739

Antenna reflectors of evolution and double curvature optimization by iteration method

16 p2866 A70-34267

Parameter variation effects on iterative identification of linear system by learning method

17 p3130 A70-35299

Multiplying factors role in iterative solution of shock wave structures with large radiation-convection ratios

17 p3075 A70-35888

One dimensional steady gas flow, deriving algorithm for iterative solution of Boltzmann kinetic equation by statistical approach

18 p3241 A70-36285

Boundary value problem for Navier-Stokes equations of viscous incompressible fluid flow, discussing convergence of iterative solution

18 p3241 A70-36290

Iterative determination of time optimal controls, considering dynamic system transition from initial to quiescent state with constraints on control vector

18 p3282 A70-36355

Potential calculation from given source distribution, including direct and iterative methods, error analysis, convergence, computer programs and applications in plasma physics

18 p3284 A70-36790

Iterative Hansen method of general perturbations programmed for digital computer, evaluating major and minor planetary theory

18 p3320 A70-37060

Stochastic approximation iterative algorithms for multivariable plants mathematical models, including steepest descent method

20 p3593 A70-39910

Iterative solutions for systems of nonlinear equations and discretization of elliptic differential equations

21 p3845 A70-40736

Atmospheric temperature and water vapor profiles from iterative solution of radiative transfer equation for comparison with spectral radiance observation from Nimbus satellites

21 p3846 A70-40803

Unsteady flow in rectangular cavity with moving wall, using iterative solution of Navier-Stokes equations

21 p3807 A70-41317

Analytical iteration method extended to critical load of clamped beam with symmetrically variable cross section

21 p3939 A70-41965

Iteration method for calculating self consistent fields in semiconductor surface inversion layers

22 p4085 A70-42745

Nesbet algorithm modified for iterative evaluation of eigenvalues and corresponding eigenvectors for large matrices

22 p4062 A70-42749

Digital differential analyzers one step integration method with iteration procedure truncation to single step

22 p3996 A70-42921

Rayleigh wave scalar electric potential analysis on piezoelectric medium, using iterative techniques for Poisson equation

22 p4074 A70-42967

Iterative linear prediction method for stochastic process with zero mean value and known covariance function

23 p4211 A70-44026

Iterative method based on slender body approximation applied to axisymmetric sonic flow fields, splitting differential equation into coupled parabolic equations

23 p4132 A70-44124

Iterative method for boundary value problems in mathematical physics, showing convergence by heat conduction equation solutions

23 p4276 A70-44218

Torsion in rods with rectangular and trapezoidal cross sections, using functional-analytic iterative method

23 p4268 A70-44241

Linear systems with phase coordinates bounded by given time functions, obtaining optimal control by iterative solution involving Lagrange multipliers

23 p4177 A70-44302

Linear programming problems in optimal control numerical analysis, discussing iterative solution

23 p4177 A70-44303

Time optimal problems involving parabolic equations in heating of rod with piecewise continuous thermophysical characteristics and temperature distribution constraints, deriving iterative solution

23 p4277 A70-44306

Iterative Rayleigh-Ritz method for eigenvalue determination in natural vibration problems

23 p4270 A70-44580

Gradient iterative solution of large algebraic systems arising from finite element discretization, using computer methods

24 p4419 A70-45153

Successive iterative solution for large matrix equations of second kind

24 p4369 A70-45164

Virtual work equations steady state subharmonic solutions by Newton-Raphson method, developing generalized iterative procedure for nonlinear differential equations

24 p4423 A70-45577

ITOS 1

ITOS-1 second generation meteorological satellite launched with Delta N booster, providing direct APT global readout and AVCS TV data recording for playback

23 p4259 A70-44615

IZSAK ELLIPSOID

U ELLIPSOIDS

U GEODESY

J

J-2 ENGINE

Pressure oscillations in LOX pump inducer of J-2 machine, using semianalytical first order model with retarded time mechanism

09 p1693 A70-23257

Saturn 5 S-2 stage propellant feedlines and J-2 engines simulating structural longitudinal oscillation by analog computer

16 p2968 A70-33591

JACKING EQUIPMENT

U JACKS (LIFTS)

JACKS (ELECTRICAL)

U ELECTRIC CONNECTORS

JACKS (LIFTS)

Hydraulic jacks for Boeing 747 support during assembly, discussing operation, console, pressure system and safety features

05 p0798 A70-16422

Hydraulic servomechanism stability and step response, considering unequal oil volume on either side of jack

24 p4292 A70-45159

JACOBI INTEGRAL

Conjugate points for simple integral problems in calculus of variations extended to multiple integral problems, using Jacobi equation

04 p0713 A70-14674

Singularities arising during collisions in restricted n-body problem elimination, discussing Jacobi integral and finite-mass body configuration

04 p0714 A70-15354

JACOBI POLYNOMIALS

U HYPERGEOMETRIC FUNCTIONS

JAGUAR AIRCRAFT

Jaguar flight test instrumentation methods, discussing Anglo-French participation

19 p3356 A70-38534

Airborne magnetic recording flight test instrumentation of Anglo-French Jaguar aircraft

19 p3431 A70-38535

Jaguar flight test data processing system, discussing airborne digital computer

19 p3384 A70-38536

Digital computer magnetic tape recording system for flight tests of Jaguar aircraft, discussing data treatment

19 p3384 A70-38537

JAMMERS

Traveling wave tubes used in electronic countermeasure chain or repeater for deception jammer, discussing design and performance

04 p0653 A70-15658

JAMMING

Pulse position modulation focused TWT for airborne electronic countermeasure broadband jamming, considering output power and thermal design

04 p0653 A70-15656

Automatic meteor station jamming protection using ferrite diode logical elements

19 p3422 A70-37652

JAPAN

Temporal and spatial variations and patch velocity of sporadic E layer obtained at Japan ionospheric stations

06 p1057 A70-17906

Monograph on research by Japanese Institute of Plasma Physics covering theta pinch, plasma heating, flow, diagnostics, etc

07 p1350 A70-19843

Small dispersion whistlers characteristics and propagation at midlatitudes based on observation at Tohokai, Japan

08 p1491 A70-21713

Flying safety and human factors from job dissatisfaction in Japan Air Self Defense Force

08 p1453 A70-21794

Report to COSPAR on Japanese space research including satellite, rocket and balloon observations of ionosphere, magnetosphere, interplanetary space, moon, planets, cosmic rays, etc

15 p2830 A70-31720

JARRING

U MECHANICAL SHOCK

JAVELIN ROCKET VEHICLE

Javelin research rocket payload suspension ensuring limited vibrational accelerations, using viscoelastic materials for damping

04 p0774 A70-15147

Javelin rocket measurements of ionospheric AC electromagnetic fields, determining amplitude/frequency spectra and dipole antenna performance

13 p2401 A70-29926

JEANS THEORY

Dynamic stability of Jeans spheroid and Roches ellipsoid using small perturbations method

09 p1759 A70-22749

Jeans escape rate error for atmospheric H and He attributed to perturbed velocity distribution function, using realistic atom-atom elastic scattering cross sections

13 p2398 A70-29226

NT XV-4 AIRCRAFT
NT XV-5 AIRCRAFT
- Jet aircraft long range flight planning using computer for wind and temperature forecasts, path altitude profile computation and optimization
02 p0403 A70-12841
- Deviation angle optimization for cruising hypersonic jet aircraft, noting effect of rotation losses on design
03 p0406 A70-13019
- Turbojet performance magnitude data represented by components nondimensional characteristic curves
03 p0551 A70-13021
- Flexible pavements for commercial jet planes representative of current and future aircraft
03 p0462 A70-13173
- Rigid and flexible pavements response to jumbo jets load using elastic theory
03 p0462 A70-13175
- Superjets demands on airport fuel handling facilities [SAE PAPER 690559]
03 p0463 A70-13263
- Icing, bird collisions and static charge problems for jet aircraft, discussing protective devices
03 p0413 A70-13792
- Collection of papers on jet transport design covering subsonic zero lift drag rise properties, performance characteristics, supersonic aircraft design, etc.
03 p0414 A70-14018
- Pseudosound field wall pressure correlation obtained to predict response characteristics of aircraft panel mounted along jet wake
05 p0835 A70-16785
- Unstable spiral precursor to jet upset (Mach tucks) in executive jet transports
06 p0987 A70-18248
- Hansa 330 fan jet design for executive and commuter market, discussing forward-swept wing concept and standardized structures and systems
07 p1194 A70-19619
- Lead-acid and vented nickel cadmium batteries compared in redesign of military aircraft battery for cells reduction, low current density, etc.
08 p1440 A70-20712
- Soviet handbook on practical aerodynamics of aircraft with turboreactive engines covering flight stability, aircraft controllability, etc.
08 p1435 A70-20760
- Jet pilot trainee qualification requirements, training process methods and equipment, considering German-French joint trainer aircraft program
08 p1452 A70-21348
- C-5 Galaxy airlifter design, delivery capacity, aerodynamics and flight test program
09 p1609 A70-22020
- Aircraft certification of supersonic and jumbo jet transports assuring acceptable safety level
09 p1610 A70-22948
- Flight simulator for advanced aircraft /FSAA/ featuring six degrees of freedom and 100 ft lateral travel
10 p1858 A70-24205
- Japanese jet aircraft pilots instrument reading and checking procedures during landing operation under contact flight rules
11 p2078 A70-25667
- Small scale and full scale wind tunnel and flight test data correlated for Lear jet aircraft
11 p1981 A70-25906
- Computational methods for multiinput linear control systems applied to designing lateral and longitudinal autopilots for jet transports subject to gust loads
12 p2203 A70-27417
- Jet transport wakes resulting from high engine thrusts considered hazardous to following aircraft, discussing multiple-instrumented runways for measuring visibility
12 p2162 A70-27995
- Gust response calculations compared with flight measurements for two fighter aircraft and jet transport to determine accuracy
12 p2162 A70-28077
- German-French jet aircraft trainers, discussing Alpha Jet TA 501, E 650 Eurotrainer and VF T 291 flight characteristics
13 p2347 A70-29052
- Aircraft turbulence penetration performance numerical rating, applying concept to large subsonic jet transports
13 p2347 A70-29074
- Jet thrust reversers mechanical design limits, objectives and materials
14 p2628 A70-30500
- Passenger survival and evacuation of civil jet transport aircraft after ditching at sea
15 p2676 A70-32223
- Twin jet light transport Corvette airframe, discussing flight characteristics and economical aspects
15 p2676 A70-32793
- Connectors for superjet airliners, discussing butyl rubber grommet, power distribution collector, modular terminal blocks and passenger service connector
16 p2878 A70-33956
- Nonlinear balance mass solutions for tab-aileron flutter free operation of jet trainer for arbitrary store configuration
17 p3185 A70-34923
- High speed civil and commercial transport aircraft, discussing jet-orbital flight
18 p3333 A70-36664
- Air total temperature measurement for jet powered aircraft, discussing subsonic and supersonic wind tunnel data for sensor thermal recovery characteristics
19 p3425 A70-37882
- Military Airlift Command jet aircraft computerized area navigation system operational procedures
19 p3465 A70-38232
- Yak-40 business jet design and flight characteristics
21 p3755 A70-42174
- SN 600 Corvette business jet design and performance
21 p3755 A70-42175
- Short haul jet transport aircraft design, discussing Computer Aid Design, Airline System Simulator and Traffic Demand Predictor computer programs [ICAS PAPER 70-28]
23 p4284 A70-44105
- Superjet airliners wiring connectors for power distribution, signal circuitry and self ejecting push buttons for passenger seats
23 p4174 A70-44545
- Weather modification by jet aircraft contrails, discussing cloud seeding observations in Alaska
24 p4371 A70-45421
- Highlift and blown wing types slow speed STOL aircraft, comparing pilot training requirements with jet airline flying [AIAA PAPER 70-1282]
24 p4292 A70-45971
- JET AIRCRAFT NOISE**
- Jet aircraft flyovers annoyance relationship to physical parameters of sound evaluated, using psychophysical method of constant stimulus differences
01 p0006 A70-11199
- Aerodynamic sound generation by subsonic jet engines noting jet thrust relation to emitted acoustic power
03 p0552 A70-13926
- Aircraft power plant development, discussing thrust, specific weight, speed, jet engine and noise suppression efforts
05 p0896 A70-16346
- Aircraft noise suppression, discussing community aspects of jet and fan noise and physical mechanisms of jet noise
05 p0795 A70-16777
- Engineering methods developed for controlling boundary layer, jet and compressor noise, discussing theoretical formulations usefulness
05 p0896 A70-16778
- Subsonic circular jet noise radiation intensity and directional distribution, based on effects of refraction and Lighthill quadrupole model for aerodynamic noise
05 p0834 A70-16780
- Sound pressure field from stationary and moving jets determined from jet and aircraft trajectory parameters
05 p0834 A70-16781
- Nozzle exit turbulence and excess fuel combustion as low and high speed jet noise source using Lighthill theory
05 p0834 A70-16782
- Aircraft engine fan and compressor noise theory as basis for improved noise prediction
05 p0896 A70-16790
- Jet noise theory application in noise prediction and reduction at source for subsonic and supersonic jets
06 p1038 A70-18066
- Acoustic power output from supersonic jets, considering aerodynamic and acoustic characteristics for supersonic exhaust velocities [AIAA PAPER 70-237]
06 p1132 A70-18115
- Aircraft power plant development, discussing thrust, specific weight speed, jet engine and noise suppression efforts
08 p1558 A70-21029
- Shallow water waves simulation method for studying aerodynamic noise of free jet emitted from nozzle with variable wall roughness
08 p1485 A70-21608
- Jet aircraft engine noise control, discussing noise sources and built-in acoustic absorbers
09 p1743 A70-22759
- Acoustic and gas dynamic characteristics of jet noise muffler using adapters at outlet section of exhaust nozzle
12 p2160 A70-27295
- Jet engines for civil and military aircraft, discussing turbine designs and noise reduction
13 p2474 A70-28546
- In-flight shock cell noise generation by static jets, discussing frequency prediction formula
13 p2474 A70-29078
- Meteorological effects on air and noise pollution at U.S. airports
14 p2530 A70-30610
- Commercial jet aircraft engine noise evaluation, discussing noise reduction and effects on airport neighbors
14 p2630 A70-31335
- Aircraft fan and turbine noise reduction, discussing blade wake interaction, jet mixing and duct acoustic linings
16 p2963 A70-32946
- Sonic boom variation with aircraft geometry, volume, weight, weather and environment conditions, noting effects on structures and people
16 p2840 A70-32947
- Jet engine noise technology evaluation, noting effects on airport neighbor
16 p2971 A70-34262
- Airport operations effects on total environment, considering jet aircraft noise pollution [AIAA PAPER 70-887]
19 p3395 A70-37391
- Jet engine compressor noise analysis, noting inlet swirl role
22 p4090 A70-42725
- Aircraft noise sources, examining compressors with dynamic pressure devices and jets with turbulence investigations [ICAS PAPER 70-22]
23 p4232 A70-44111
- Jet aircraft noise reduction devices directed at turbulence fluctuation noise sources, noting effects on flight characteristics [ICAS PAPER 70-21]
23 p4233 A70-44112
- High bypass model jet noise study, describing test setup and noise measurement results as function of secondary/primary flow velocity ratio
23 p4233 A70-44394
- Intense white pulsed jet engine noise effects on cochlea biocurrents in cats
23 p4157 A70-45076
- Ear protection for persons exposed to various jet aircraft noise environments
24 p4306 A70-45121
- Noise suppression for high-bypass ratio CF6 turbofan engine in DC-10 airplane, considering effect on engine design [SAE PAPER 700804]
24 p4393 A70-45878
- Quiet V/STOL transport aircraft from DC-9-10 modification, discussing flying qualities, propulsion and control system interfaces, configurations, etc [AIAA PAPER 70-1409]
24 p4291 A70-45916
- SST sonic boom noise level reduction by thermal simulation of long body aircraft, considering thermal spike or keel [AIAA PAPER 70-1323]
24 p4291 A70-45942
- JET AIRSTREAMS**
- U JET STREAMS (METEOROLOGY)**
- JET AMPLIFIERS**
- Gas jets collision flowing from parallel wall channels, applying solution to calculating geometrical characteristics or fluid jet amplifiers
01 p0011 A70-11569
- Soviet book on fluidic theory covering jet elements, pneumatic throttles, chambers, communication channels, etc
19 p3357 A70-37469
- Jet-deflection proportional amplifier design and performance, discussing pressure and momentum control, static and dynamic characteristics aspect ratio, geometry effects, etc [ASME PAPER 70-FLCS-17]
22 p3963 A70-42410
- Impact configuration fluidic amplifier, investigating modulation of power jet formed by impacting plane wall jets in bounded region [ASME PAPER 70-FLCS-14]
22 p3963 A70-42413
- JET AUGMENTED WING FLAPS**
- U JET FLAPS**
- U WING FLAPS**
- JET BOUNDARIES**
- Turbulent submerged plasma jet boundaries calculated theoretically and compared with experimental results from dynamic head profiles
03 p0532 A70-13515
- Species concentration, jet structure and diatomic nitrogen rotational temperature measured for diffusive separation of nitrogen-helium mixture free jets, using electron beam
06 p1043 A70-18253
- Multilayered and multiple supersonic jets, deriving dispersion equations for boundaries stability
19 p3354 A70-38663
- Two dimensional peripheral turbulent jet curtain structure, determining curved and impinging jet flow field by pressure and velocity measurements
22 p3957 A70-42277

Aerodynamic forces and torque on airfoil in potential jet from boundary asymptotes position, determining flow characteristics by electrical analogy

24 p4288 A70-45438

Two dimensional incompressible laminar free jet, analyzing higher order viscous interactions with surrounding fluid by matched asymptotic expansions method

[AIAA PAPER 70-1321] 24 p4326 A70-45944

JET CONTROL

Bistable fluidic thrusters and circular sonic control jets interaction with airstream surrounding tactical missile configuration, investigating effect on amplification factors

[AIAA PAPER 70-583] 13 p2391 A70-29887

Reaction jets for control force generation in supersonic environment, analyzing downstream pressure distributions for two dimensional jet interactions

16 p2838 A70-33890

Extratmospheric transport trajectory control by jet assistance

18 p3333 A70-36670

Frequency dependent effects of applied acoustic fields on attached jet flows for Reynolds numbers over curved surfaces

[ASME PAPER 70-FLCS-1] 22 p4008 A70-42430

Aerodynamic characteristics of elliptical airfoils with jet circulation control for VTOL rotors including dual jets and cyclic results

[AIAA PAPER 69-741] 22 p3959 A70-42705

JET DAMPING

U DAMPING

U SPIN REDUCTION

JET DRAGON AIRCRAFT

U HH 125 AIRCRAFT

JET DRIVE

U JET PROPULSION

JET ENGINE FUELS

Turbojet engine controls and control devices design, considering fuel properties and fuel consumption

03 p0552 A70-13806

Fuel requirements for supersonic aircraft, discussing operational conditions and fuel quality problems

03 p0544 A70-14032

Emulsified jet fuels cold flow, combustion and corrosion characteristics in gas turbine combustor compared with JP-4 fuel

[ASME PAPER 69-WA/GT-3] 04 p0732 A70-14892

Emulsified jet fuels combustion characteristics evaluation by laboratory technique, presenting data on emulsifiers and corrosion inhibitors effect

[ASME PAPER 69-WA/GT-2] 04 p0785 A70-14893

Laboratory tests on jet fuels indicating lubricity improvement by corrosion inhibitor addition

[SAE PAPER 690667] 05 p0894 A70-15836

Surface tension plotted against density and temperature of hydrocarbon jet fuels, determining critical temperature

07 p1357 A70-18653

Flame spread rate across surface of liquid fuels, discussing effects of ignition mode, fuel purity and temperature, fuel container dimensions and material

10 p1929 A70-24090

Gelled and emulsified fuels for jet transport aircraft, testing rheological and physical properties regarding fire hazard reduction in crashes

[SAE PAPER 700251] 12 p2160 A70-27430

Resinous compounds content determination in jet fuels using ice cold acetic acid for desorbent to improve accuracy

16 p2961 A70-33203

Field test for microbiological contamination of jet fuel, discussing phosphates detection

18 p3299 A70-36344

Turbojet aircraft engine fuels quality control, considering chemical composition, physical properties and handling problems

18 p3299 A70-36550

Water separation index modified /WSIM/ test for jet fuel surface active materials in relation to filter/separater performance

[SAE PAPER 700279] 18 p3300 A70-36815

Jet fuel system deposits measurement, noting reliability of oxygen combustion and beta ray backscattering techniques

[SAE PAPER 700257] 18 p3214 A70-36824

Jet A kerosene deposit accumulation problem and proposed SST fuel tank design

[SAE PAPER 700256] 18 p3214 A70-36825

Jet fuels ground handling at airfields, describing flow monitors, filters, fueling techniques, etc

22 p4006 A70-43093

Jet engine air pollution in U.S., discussing fuel types, additives and burner design for smoke emission reduction

23 p4233 A70-44200

JET ENGINES

NT SUPERSONIC COMBUSTION RAMJET ENGINES

NT T-56 ENGINE

NT TURBOFAN ENGINES

NT TURBOJET ENGINES

NT TURBOPROP ENGINES

NT TURBORAMJET ENGINES

Hybrid boost bearing applied to jet engines thrust bearing life extension and to land turbine equipment for providing high overload capacity

01 p0101 A70-10389

Multifan cross wind jet engine test facility to produce variable wind velocity in various directions

01 p0056 A70-10698

Corrosion induced fatigue damage suppression in jet engine compressor steel components, describing various surface treatment effects

01 p0165 A70-10699

Jet engine noise sources and design of noise suppressors used during airport runway engine tests

02 p0275 A70-12222

Combustion chamber design for engines, considering atomization by rotating disk vs nozzle atomization

03 p0552 A70-14031

Mounted-above-wing jet engine effect on wing pressure distribution and elevator unit, using fluid mechanical model

[DGLR-69-34] 04 p0735 A70-15146

Engine development for 3 and 4 engine large capacity jet aircraft, discussing fan cowl size and weight, installation drag effects, etc

05 p0895 A70-15928

Jet engine risetime effect on spacecraft orientation control system performance, assuming monotonic or extremal thrust mode

06 p1103 A70-17883

Combustion stability in air-liquid fuel zone of jet engine burner with burning rate controlled by droplet vaporization rate controlled mechanism

[WSCI PAPER 69-44] 06 p1178 A70-17980

Chemical composition of scale formation in jet engine injectors for various fuel types tabulated, noting buildup levels in transport aircraft and subsonic jets

07 p1362 A70-18651

Engine performance monitoring system /EPMS/ for aircraft jet onboard operation analysis and failure detection

08 p1558 A70-20668

Jet aircraft engine noise control, discussing noise sources and built-in acoustic absorbers

09 p1743 A70-22759

Airplane dependability on basis of improvements in jet engine, avionics, pilot seat cushions and flight control systems

09 p1611 A70-23453

Soviet book on jet engine construction and operation, discussing turboprop, turbojet, direct flow, gas turbine and bypass engines, thermodynamic cycles, etc

09 p1744 A70-23474

Abradable and abrasive types thermal spray coatings application to jet engine parts

10 p1893 A70-23856

Electrochemical machining for drilling deep holes in alloys and refractory metals used in jet engine hardware

10 p1893 A70-23857

Thrust follower force stability in pod mounted jet engine and nacelle whirl using multiple degrees of freedom model

10 p1930 A70-25070

Low cycle fatigue problems, environmental influence of operational differences on component life, life limits and controls for safe operation of jet engines

[SAE PAPER 700207] 11 p2102 A70-25879

Operating characteristics and performance of business aircraft jet engines compared with piston engine handling

[SAE PAPER 700209] 11 p2102 A70-25880

Tip clearance contactless measurement in jet engine turbine based on radioactive isotopes properties

11 p2055 A70-26446

Fluid mechanics of jet engine turbomachinery, considering supersonic compressor and blade rows flows and airframe propulsion system compatibility

11 p1977 A70-26574

Martensitic stainless steels corrosion damage in jet engine compressors noting effects of temperature, surface condition, time and chloride presence

12 p2252 A70-26963

Jet powered Ultra STOL aircraft engine selection, considering effects of engine size, wing loading, thrust loading, etc

[SAE PAPER 700266] 12 p2161 A70-27435

Maintenance trends for transport aircraft jet engine, considering engine and component pooling, inspection accessibility, monitoring, etc

[SAE PAPER 700316] 12 p2290 A70-27455

Aerojet engine minimum weight design, suggesting use of welding and brazing instead of nut-and-bolt joints in component fabrication

[SAE PAPER 700319] 12 p2243 A70-27457

Protective diffusion coatings for jet engine gas path parts, discussing repair procedures

[SAE PAPER 700332] 12 p2254 A70-27463

Jet engine pollution reduction for airport areas, discussing chemical equilibrium failure in exhaust gases and combustor design

12 p2291 A70-27993

Jet engines for civil and military aircraft, discussing turbine designs and noise reduction

13 p2474 A70-28546

French jet engines, outlining various models built by SNECMA and Turbomeca

13 p2474 A70-29144

Jet engine technology, discussing thrust/weight ratio, compressors, fans, combustors, turbines, materials, manufacturing, maintainability and noise

15 p2787 A70-31698

Non-French jet aircraft engines

15 p2788 A70-32250

Propulsive efficiency definition deficiencies for bypass jet engines

15 p2791 A70-32769

IR optical radiometer for jet engine turbine blade temperature measurement, comparing with junction wire thermocouple

16 p2905 A70-33168

Secondary effect signatures for potential failure detection in jet aircraft engine compressor blades

[ASME PAPER 70-DE-58] 16 p2918 A70-33517

Jet engine combustion chamber design, discussing performance range and geometry

16 p2970 A70-33682

Jet engine noise technology evaluation, noting effects on airport neighbor

16 p2971 A70-34262

Ti alloys use in jet engines design, considering weight, structural stability, useful temperature range, cost, etc

17 p3146 A70-34448

Close-spaced nozzles twin jet configuration, achieving low nozzle and total afterbody drag

[AIAA PAPER 70-934] 17 p3149 A70-35844

High speed and long life bearings and dampers for future jet engines, considering design factors

[SAE PAPER 700318] 18 p3263 A70-36800

Electrochemical machining /ECM/ effects on components surface integrity, discussing jet engine materials

[ASME PAPER 70-GT-111] 18 p3264 A70-36849

Cascade tunnel testing role in designing supersonic compressor rotor blading for lower jet engine weight and fuel consumption

[ASME PAPER 70-GT-79] 18 p3305 A70-36885

Liquid fuel jet engine thrust aftereffect momentum, investigating switching off transient process

19 p3490 A70-37249

Jet engine combustor design and efficiency, discussing heat transfer, cooling and engine materials

20 p3688 A70-39648

Electromagnetic interference in aircraft communication due to jet engine charging, considering various prevention measures

20 p3561 A70-39724

Subsonic jet engine intake duct radar cross section calculation using waveguide model

22 p3992 A70-43584

Aircraft propulsion system test facilities, discussing altitude simulation, large subsonic and supersonic engines and component development

[ICAS PAPER 70-45] 23 p4178 A70-44143

Jet engine air pollution in U.S., discussing fuel types, additives and burner design for smoke emission reduction

23 p4233 A70-44200

German monograph on dynamic control behavior of jet engines covering computation for normal external actions and perturbation effects

23 p4233 A70-44396

Two shaft bypass jet engine analog simulation, determining angular acceleration dependence on angular velocity and fuel consumption

24 p4393 A70-45442

Jet engine combustion chamber pressure loss, flow velocity through flare tube holes and air supply calculation, noting adaptation for computer use

24 p4393 A70-45446

Concorde thrust control by employment of variable area nozzle and reheat system, discussing crew workload

[SAE PAPER 700817] 24 p4394 A70-45900

Jet engine noise propagation near porous surface, predicting anomalous LF dip from direct and reflected waves interference with phase delay

24 p4395 A70-46068

Thrustmeter for direct output reading from jet engines based on stream and total port pressures

24 p4340 A70-46328

Reduced smoke combustion chambers for jet aircraft engines tested in full scale JT8D engine

24 p4396 A70-46387

JET EXHAUST

Wind tunnel tests for engine jet plume effect on boattail pressure drag

[AIAA PAPER 70-132] 06 p1038 A70-18050

Mach disk in underexpanded exhaust plume predicted by dividing flow field into subregions

[AIAA PAPER 70-231] 06 p0974 A70-18176

Particle density of jet plumes exhausting in vacuum calculated for He, Ar and N

06 p1052 A70-18388

- Stable flow distribution of sonic jet exhausting counter to low density supersonic airstream
07 p1189 A70-19982
- Plane rectangular plate in acoustic field of jet engine exhaust, calculating surface stresses
15 p2819 A70-32186
- Fog dissipation on aircraft runways, using aircraft jet engine exhaust heat and mixing properties
17 p1313 A70-35929
- Probability theory of stresses during random vibrations of flat panel in acoustic field of jet engine exhaust
18 p3301 A70-36301

JET FLAMES

U FLAMES
U JET FLOW

JET FLAPS

- Incompressible flow past airfoils with oscillating jet flaps used as rapid lift and momentum generators in aircraft gust load alleviation and mode stabilization
[AIAA PAPER 70-79] 06 p0975 A70-18196
- Airfoil cascade flow deflection angle using linearized jet flap theory
08 p1433 A70-21323
- Numerical solutions of thick cambered jet flap in ground effect for flat plate and diamond shaped airfoil
[AIAA PAPER 69-738] 12 p2155 A70-27199
- Heaving airfoil wakes visualization with jet flap augmented lift, measuring vortex street parameters
13 p2338 A70-28821
- Forward inclined two dimensional circular arc slot nozzle jet flaps at hypersonic speeds, considering amplification and interaction processes
[AIAA PAPER 70-553] 13 p2340 A70-29018
- Increased lift via hinge suction jet flaps on augmentor wings, using thin airfoil model and small disturbance theory
22 p3960 A70-43432
- Free jet stream effect on thin jet-flapped airfoil with fully developed wake, using linear theory
22 p3960 A70-43737
- Jet-ambient air mixing effect on flow characteristics around thin airfoil with jet flap
24 p4288 A70-45439

JET FLIGHT

U JET AIRCRAFT

JET FLOW

- NT AIR JETS
NT PERIPHERAL JET FLOW
NT SUPERSONIC JET FLOW
- Unmixed gases diffusion burning calculations, discussing turbulent flame burning aerodynamics in jet flows
01 p0217 A70-11007
- Axisymmetric turbulent incompressible and isothermal self preserving jet investigation using linearized constant temperature hot-wire anemometers
01 p0065 A70-11099
- Density distributions of electrically charged trace components in axisymmetric jets, considering space charge effect and ambipolar diffusion
01 p0066 A70-11135
- Turbulent and wall jets with wide varieties of geometries and boundary conditions, predicting jet inflow effects on entrainment rate, lift, drag, etc
02 p0288 A70-12840
- Walljet in crossflow, discussing characteristics and pressure field on plate, using flow visualization methods
03 p0465 A70-13004
- Incompressible gas turbulent jet flow characteristics in subsonic wind tunnel, stressing pressure distribution in recirculation region for interpreting heat transfer in separated flows
03 p0593 A70-13495
- Flow parameters of two interacting submerged turbulent jets from rectangular nozzles, determining total pressure profiles of coincident flow
03 p0466 A70-13504
- Laminar capillary jet of viscoelastic fluid, discussing breakup, nonNewtonian jet stability and elastic properties
03 p0468 A70-13782
- Microstructure of turbulent jet in concurrent flow, analyzing wake parameter and measuring profiles of pulsation velocity components and Reynolds shear stresses
03 p0409 A70-13871
- Magnetic field self induction in static fluid-submerged intersecting jet system, calculating required magnetic Reynolds numbers
04 p0726 A70-14541
- Compressible flows with circular sector hodographs, discussing Chaplygin equation for simple wedge flow and theorem on sonic jets
04 p0613 A70-14612
- Boundary layer equations closed form similarity solutions for laminar jet of compressible pseudoplastic fluid, discussing velocity transverse behavior
04 p0671 A70-15053
- Vorticity entrainment effects in zonal jet flows, considering Long asymptotic series, shear enhancement, etc
04 p0715 A70-15519

Acoustic characteristics of high subsonic model cold jet using imaging technique and measurements of energy flux of flow, calculating energy flux from flow-field measurements
[AIAA PAPER 70-234] 06 p1040 A70-18125

Main stream interaction with flame stabilizing jets in combustion chambers and afterburners using gas dynamic models
07 p1419 A70-18754

Second order correction to Glauret wall jet flow around arbitrarily curved surface, discussing initial profiles
07 p1257 A70-19344

Ignition and extinction in opposed jet diffusion flame for flow of compressible fluid with competitive/chain reactions
07 p1422 A70-19578

Solid surface roughness influence on reflection of thermal energy molecular jets, showing shock determined by incidence angle
07 p1343 A70-20121

Local heat transfer coefficients for unsteady conditions in tube determined by gradient method, noting use in reacting flow and jet nozzle protection
08 p1598 A70-21189

Static pressure gradient influence on turbulent shear stresses and energy production in asymmetric wall jet flow
08 p1484 A70-21314

Plane jet velocity profiles determination applied to calculating gain of proportional fluid amplifier
08 p1485 A70-21670

Flow characteristics behind sphere suspended in vertical axisymmetric jet dependent on ratio of specific parameter
09 p1658 A70-22118

Axisymmetric helium jet transition to turbulent flow in air shipstream, measuring temperature and velocity profiles
09 p1660 A70-22439

Vorticity distribution influence on inviscid laminar jet boundary layer instability investigated for large Reynolds numbers, using shear flow and linearized theory
[DFVLR-SONDDR-14] 10 p1868 A70-24163

Flow structure around incurved lateral jet issuing from narrow orifices, determining interaction zone geometry with main current by hot wire technique
10 p1868 A70-24165

Navier-Stokes-Maxwell equations solutions for conducting fluid flow in azimuthal magnetic field, noting jet acceleration near symmetry axis
10 p1924 A70-24574

Monograph on stability of laminar boundary layer separation at free jets and turbulent free jet flames, considering effects of velocity gradients and temperature
11 p2146 A70-25499

Flat plate flowfield for freestream/jet interaction wrap-around on bodies of revolution, using separation shock model and blast wave analogy
11 p1976 A70-26135

Stick-slip problem for motion of free jet at low Reynolds numbers by Wiener-Hopf technique, considering two dimensional Newtonian jet without gravity
11 p2041 A70-26554

Sound radiation from rigid flow spoilers correlated with fluctuating forces, measuring jet-pipe drag and lift components with transducers
11 p2085 A70-26699

Proportional fluid amplifiers noise and instability sources related to geometry and power jet flow, considering noise reduction methods
12 p2164 A70-27071

Coaxially flowing jets axisymmetric turbulent mixing between inner and outer streams
12 p2211 A70-27837

Ideal weightless fluid jet flow past supercavitating plate at incidence using Tulin scheme
12 p2214 A70-28241

Multiple jet flow exhausting into arbitrary crossflow in ground effect, solving continuity and momentum equations for jet path and induced velocity field
13 p2387 A70-29011

Forward inclined two dimensional circular arc slot nozzle jet flaps at hypersonic speeds, considering amplification and interaction processes
[AIAA PAPER 70-553] 13 p2340 A70-29018

Residence times distribution in confined round swirling jet, considering mass conservation of hypothetical tracer substance in combustion efficiency prediction
[WSCI PAPER 70-7] 13 p2522 A70-29609

Jet flow past arc curve approximation using successive conformal mapping on circle and wedge
13 p2391 A70-29746

Jet collisions solutions for impact of pin at obstacle, solid body impact at surface, cylindrical shells longitudinal impact and jets interactions
13 p2453 A70-29771

Discrete sonic jets as boundary layer trips producing turbulent hypersonic flows with negligible intrinsic drag and downstream distortions
13 p2523 A70-29973

Two dimensional jet velocity profile evolution under symmetrical and antisymmetrical perturbations
14 p2567 A70-31200

Jet flow through rectangular orifices in cylindrical wall using conformal mapping for potential, velocity, volume flow rate, viscosity, etc
14 p2567 A70-31359

One flow influence on another at two plane jets interaction zone, applying to proportional fluid amplifier inlet impedance calculation
15 p2720 A70-32020

Vortex streets characteristics determination for plane jet having uniform initial velocity profile
16 p2890 A70-33108

Shear flow perturbations in inviscid incompressible stratified fluid of given density, comparing stability characteristics with jet flow
16 p2895 A70-34243

Interior ideal liquid flow of vertical jet under gravity, using differential equation to relate flow plane to unit half disk
17 p3069 A70-34979

Performance cost functions of on-off limit cycle controllers for reaction jet controlled system
17 p3056 A70-35552

Incompressible laminar boundary layer, vortex and axisymmetric wake/jet flow parabolic equations solution by weighted residuals method, describing use of exponentials
17 p3074 A70-35883

Steam-water jet discharge heat transfer features, examining critical region parameters from nozzle into submerged space with large counterpressure
18 p3345 A70-36117

Axisymmetric ideal incompressible fluid jet outflow from cylindrical vessel with conical bottom, using small parameter technique and conformal mapping
18 p3240 A70-36272

Conducting gas channel and jet flow in electric and magnetic fields, using linearizing equations of motion under assumption of small magnetic Reynolds number
19 p3479 A70-37598

Round laminar jet with swirl, reducing Navier-Stokes equations to ordinary differential equations by similarity transformations
19 p3405 A70-38349

Noise spectra of two dimensional jet flowing from nozzle ejector, using dispersion equation
19 p3354 A70-38662

Freckles origin in unidirectionally solidified castings, noting convective jets role
20 p3646 A70-39102

Direction cosine attitude control logic for spin stabilized axisymmetric spacecraft, using control torques generated by reaction jet system
20 p3669 A70-39679

Radiation field multidimensionality effect on radiating gas jet flow, taking into account radiative energy transfer by differential approximation
20 p3611 A70-39808

Turbulent shear stress correlation with turbulent kinetic energy for wake and circular jet flow conditions
20 p3613 A70-40277

Sound generation by fluctuating subsonic jet flow, considering field directional characteristics and sound pressure variations with Mach number
21 p3850 A70-41422

Jet curtain flow recirculation model based on air-bubble flow visualization technique, determining minimum power for air cushion vehicle
22 p3957 A70-42278

Static and dynamic spring constants of peripheral jet air cushion vehicle in heaving motion, obtaining sinusoidal input response characteristics
22 p3960 A70-42279

Jet flow reattachment to walls of various shapes, measuring undeveloped velocity profiles at nozzle exit
[ASME PAPER 70-FLCS-2] 22 p4008 A70-42429

Large fluid-amplifier-type jets, measuring upstream flow disturbances effects on spreading velocity profiles
[ASME PAPER 70-FLCS-A] 22 p3964 A70-42431

Buoyant hot two dimensional laminar vertical jet in quiescent colder fluid, calculating temperature and velocity distributions by integral method
22 p4010 A70-42639

Irrational incompressible free falling jet, using asymptotic expansion solution for mixed boundary value potential problems
22 p4012 A70-42938

Free jet stream effect on thin jet-flapped airfoil with fully developed wake, using linear theory
22 p3960 A70-43737

Free jet flow axial gradient effects on drag coefficient measurement of slender blunted cones at zero attack angle
23 p4135 A70-44584

Incompressible laminar swirling jet flow, obtaining similarity solution for Navier-Stokes equations
23 p4184 A70-44982

Molecular jet velocity distribution, investigating adiabatic focalization conditions
24 p4351 A70-45370

Two dimensional aperture flow with downstream asymmetric pressure distribution due to jet reattachment to boundary, simulating flows in hydraulic spool valves and fluidic devices

24 p4325 A70-45582

Single stage warm gas directed jet valve for missile attitude control, noting servovalve and auxiliary power unit control applications
[SAE PAPER 700778]

24 p4295 A70-45864

Vortices growth in vortex sheets bounding jets flowing from two dimensional slit and circular orifice observed by computer experiments

24 p4327 A70-46244

Pulsation and turbulence damping in pulsed jet from energy spectra of longitudinal velocity fluctuations

24 p4327 A70-46267

JET FUELS

U JET ENGINE FUELS

JET IMPINGEMENT

Impingement pressure analysis associated with two phase cryogenic propellant venting to space environment

[AIAA PAPER 69-571]

01 p0196 A70-10845

High altitude scale model experiment to evaluate rocket plume impingement effects on Manned Orbital Workshop pressures, heating rates, forces and moments

03 p0579 A70-13646

Propagation of turbulent jet impinging on flat surface at certain incidence angle analyzed for application to V/STOL aircraft, ventilation equipment, etc

03 p0468 A70-13878

Critical load and instability of smooth and mesh surface mechanical systems subjected to impinging fluid jet, noting static buckling and flutter effects
[ASME PAPER 69-WA/APM-10]

04 p0772 A70-14917

Frozen wax measurement of droplet sizes and sprays from impinging injector elements, concerning like and unlike doublets and quintuplets

04 p0786 A70-15416

Rocket nozzle originated oblique shock waves effect on near-field plume impingement flows, heat transfer and pressure distribution

04 p0737 A70-15421

Vorticity effects on drag friction and heat transfer near stagnation point of supersonic jet impinging on obstacle

05 p0833 A70-16290

Acoustic radiation from underexpanded supersonic main jet flow from nozzle impinged upon by annular jet

05 p0835 A70-16784

Heat transfer from impinging gas jets on enclosed concave surface, noting self recirculation currents within cavity

07 p1425 A70-20413

Metal erosion under liquid drop impingement attack, investigating damage from microplastic deformation to surface material removal using wheel and jet apparatus

08 p1519 A70-21354

Axisymmetric swirling jet ejection from semiinfinite tube into free space filled by fluid, solving flow equation by Wiener-Hopf method

09 p1658 A70-22153

Turbulent jet injection from circular opening into unbounded transverse shear flow, determining velocity distribution along axis

09 p1659 A70-22427

Turbulent flow generation by interacting principal stream with transverse jets, obtaining flow domains in test chamber of two dimensional wind tunnel

10 p1870 A70-24785

Flat plate normal to two dimensional impinging air jet, investigating heat /mass/ transfer structure using naphthalene method

11 p1977 A70-26411

Central shock and target displacement of underexpanded supersonic jets with obstacle at nozzle exit, using Toepfer schlieren photographs

12 p2156 A70-27293

Heat transfer increase near stagnation point for turbulent jet impinging on paraffin coated plates used for flow visualization

13 p2521 A70-28866

Three dimensional oblique incidence liquid jet impinging on solid surface, evaluating flow force by applying mass and momentum conservation

13 p2389 A70-29540

Surface heat transfer coefficients under perforated plate of multiple square array round impinging air jets
[ASME PAPER 69-GT-4]

14 p2666 A70-31025

Laminar boundary conditions for heat transfer in gradient flow region for plane turbulent jet impingement on plate normal to flow

15 p2721 A70-32134

Reactive stream separation high speed color photography for impinging streams of nitrogen tetroxide and hydrazine

[AIAA PAPER 70-608]

16 p2998 A70-33605

Plane turbulent impinging jet by iterative finite difference technique, assuming eddy viscosity depen-

dence on energy fluctuations and turbulence length scale

[ASME PAPER 70-FE-27]

16 p2835 A70-33634

Orifice length-to-diameter ratio effect on spray mixture uniformity from unlike impinging jets

17 p3073 A70-35671

Viscosity effect on turbulent supersonic underexpanded jet flow into submerged region

18 p3206 A70-36262

Two dimensional peripheral turbulent jet curtain structure, determining curved and impinging jet flow field by pressure and velocity measurements

22 p3957 A70-42277

Heat transfer from turbulent axisymmetric jet to normal flat wall at critical point with small Reynolds numbers

23 p4181 A70-44321

Two phase plume at various incidence angles on flat plate, determining impinging particle mass flux, forces and damage

23 p4134 A70-44566

JET LIFT

Sound radiation from airfoil in turbulent jet flow, discussing direct correlation of fluctuating lift

01 p0004 A70-11192

Deviation angle optimization for cruising hypersonic jet aircraft, noting effect of rotation losses on design

03 p0406 A70-13019

Exit geometry effects on peripheral jet device lift, considering operating height, curtain thickness, base extension, etc

04 p0619 A70-15388

Jet lift passenger aircraft considered better suited for medium stage routes than rotor/ propeller designs for VTOL transport

08 p1436 A70-21347

Ground simulations data of jet lift V/STOL compared with visual flight results, noting hover, lateral quick start and stop maneuver

18 p3236 A70-35954

Propulsion system impact on military/commercial STOL transport aircraft commonality, taking into account augmented jet flap and externally blown flap powered lift wing concepts

[SAE PAPER 700269]

18 p3214 A70-36819

Lightweight lift jet engine design, testing and performance for V/STOL aircraft

[ASME PAPER 70-GT-32]

18 p3302 A70-36833

Thrust deflector for VTOL aircraft fuselage mounted lift engines designed as isentropic plug nozzle, considering mass flow, pressure forces and Coanda effect

[SAWE PAPER 841]

20 p3563 A70-40379

Wind tunnel wall interference effects for V/STOL aircraft with lift jets, using modified theoretical model for complex jet arrangements

[ICAS PAPER 70-54]

23 p4139 A70-44150

JET MIXING FLOW

Premixed methane-oxygen-nitrogen combustion in conical reactor fed by choked sonic flow jet, analyzing reaction products chromatographically

02 p0397 A70-12030

Fuel injection and mixing and piloted ignition in supersonic flow design principles for scramjet engine, evaluating eddy viscosity model for parallel injection

02 p0354 A70-12047

Time of establishment of steady state mixing in plane and axisymmetrical jets determined, using self similar motions in unsteady state boundary layer and free turbulence

03 p0409 A70-13875

Flow field of jet spoilers downstream from nozzle, accounting for main stream and secondary jet mixing and fuel injection problems during supersonic combustion

03 p0608 A70-14098

Linear spatial stability of two dimensional laminar wake- and jet-like similarity solution of Falkner-Skan equation

04 p0613 A70-14455

Optimum injector design for propellant spray mixing using nonreactive simulants and combustion efficiency model

04 p0737 A70-15419

Dissimilar coaxial axisymmetric jets confined laminar mixing obtained from numerical solution of boundary layer equations, considering binary, isothermal and nonreacting system

04 p0621 A70-15579

Acoustic intensity determined from time, length and velocity scales in mixing region of jet from nozzle with turbulent boundary layers

05 p0834 A70-16779

Water droplets and air supersonic mixing, determining droplets size and optical properties
[AIAA PAPER 70-90]

06 p0975 A70-18199

Unified model for transverse gaseous jet penetration into supersonic stream agreeing with measured flow field properties

[AIAA PAPER 70-93]

06 p0976 A70-18201

Sharp hypersonic flat plates inclined at various angles, obtaining flow field and merged region details

06 p0980 A70-18353

Energy losses due to mixing of primary and secondary flows of jet streams in gas propulsion engine chambers determined by continuum mechanics application

07 p1363 A70-19086

Mixing region and potential cone of two dimensional jet, measuring velocity fluctuations

08 p1485 A70-21587

Velocity and concentration profiles for mixing of two dimensional foreign gas jet injected into parallel air mainstream, emphasizing film cooling applications

10 p1801 A70-24155

Suction force increase resulting from turbulent jet interaction with transverse flow

10 p1868 A70-24166

Turbulent flow downstream from abrupt widening of circular jet, using flow and momentum equations

10 p1870 A70-24782

Injectant stagnation temperature and molecular weight effects in jet interaction flowfield

11 p2036 A70-25989

Cavity pressure and velocities distributions of interfering two dimensional dual jets from parallel slot nozzles

11 p2037 A70-26419

Gaseous injection into supersonic flow, investigating secondary Mach number and injection angle effects on flowfield in supersonic wind tunnel

[AIAA PAPER 70-552]

13 p2339 A70-29017

Bistable fluidic thrusters and circular sonic control jets interaction with airstream surrounding tactical missile configuration, investigating effect on amplification factors

[AIAA PAPER 70-583]

13 p2391 A70-29887

Reynolds momentum and mass transport at velocity half radius of coaxial jet compared to eddy viscosity models

14 p2564 A70-30260

Two phase axisymmetric jet, studying dispersion of pulverized impurity consisting of particles of various sizes

15 p2721 A70-32135

Schlieren optical method for measuring He jet penetration into supersonic flow

15 p2741 A70-32520

Integral model for combustion of metal particle laden jet mixing with subsonic secondary stream in duct, considering air breathing engine design

[AIAA PAPER 70-736]

16 p2964 A70-33490

High velocity gas jet injection into subsonic and supersonic air streams from wall injectors

[AIAA PAPER 70-714]

16 p2834 A70-33538

Two dimensional sonic secondary fluid jet interaction with uniform primary supersonic stream in wind tunnel

[ASME PAPER 70-FE-33]

16 p2835 A70-33638

Combustion effects on mixing of axisymmetric supersonic and turbulent free jets to obtain species concentrations, pitot pressures and temperatures

16 p2998 A70-33860

Retrorocket jet size and structure for scientific instruments soft Mars landing, estimating off- optimum supersonic jet interaction with quiescent atmosphere

17 p3011 A70-35660

Orifice length-to-diameter ratio effect on spray mixture uniformity from unlike impinging jets

17 p3073 A70-35671

Shear stress and velocity profiles in three dimensional mixing layer between grazing perpendicular streams

20 p3608 A70-39356

Asymptotic turbulent boundary layer semiempirical Taylor formula, investigating average motion formed in mixing jet region and surrounding liquid

20 p3611 A70-39809

Potential fluctuations in intersecting plasma jet streams attributed to ion-electron instability, using external probe

20 p3682 A70-40136

Supersonic air flow interaction with transverse gas jet from plate orifice

21 p3749 A70-42222

Computerized integral treatment of turbulent constant pressure mixing of two dimensional gas jet with atmosphere having different temperature and composition

22 p4011 A70-42755

Jet-ambient air mixing effect on flow characteristics around thin airfoil with jet flap

24 p4288 A70-45439

Two dimensional incompressible laminar free jet, analyzing higher order viscous interactions with surrounding fluid by matched asymptotic expansions method

[AIAA PAPER 70-1321]

24 p4326 A70-45944

JET NOISE

U JET AIRCRAFT NOISE

JET NOZZLES

Flow field of jet spoilers downstream from nozzle, accounting for main stream and secondary jet mixing and fuel injection problems during supersonic combustion

03 p0608 A70-14098

- Mean flow and turbulent velocity over noise-producing regions of subsonic jet nozzle with and without delta wings
09 p1610 A70-22239
- External supersonic potential flow effects on turbojet engine ring and needle nozzle performance, considering gas overexpansion operation
10 p1930 A70-24286
- High secondary/primary mass ratio multinozzle jet pump/ejector/operation feasibility
[AIAA PAPER 70-579] 13 p2342 A70-29890
- Cavitation characteristics of jet nozzles, formulating relationship between pressure differential and fluid flow rate
22 p3965 A70-43369
- Turbojet engines noise-suppressing nozzles flow rate and thrust characteristics calculation
22 p4092 A70-43371
- JET PILOTS**
U AIRCRAFT PILOTS
JET PLUMES
U PLUMES
JET PROPULSION
Material flow acceleration in jet propulsion systems, discussing acceleration by gravitational field, thermodynamic nozzle expansion, electrostatic forces and Lorentz force
04 p0671 A70-15090
- Energy losses due to mixing of primary and secondary flows of jet streams in gas propulsion engine chambers determined by continuum mechanics application
07 p1363 A70-19086
- Mass variation laws in light of Tsolkovskii hypothesis, considering particle separation rates and thermal energy losses for actual jet engines
07 p1363 A70-19088
- Ilyushin 62 aircraft geometry, propulsion, structure, onboard equipment and performance
08 p1436 A70-21365
- VTOL aircraft multiple and nonuniform jets aerodynamics, considering induced field and secondary flows
14 p2528 A70-30851
- Hypersonic aircraft technology, discussing long range transport, reusable launch vehicles and propulsion systems
15 p2673 A70-31851
- Optimum adaptation of propulsion gas generators to power jet driven rotors with blown flap control, considering jet engine, fanjet and engine driven compressor
17 p3024 A70-35661
- JET PUMPS**
Jet pump cavitation prediction and elimination using limiting-flow equation based on selected index
[ASME PAPER 69-WA/FE-29] 04 p0666 A70-14773
- High secondary/primary mass ratio multinozzle jet pump/ejector/operation feasibility
[AIAA PAPER 70-579] 13 p2342 A70-29890
- JET STREAMS [METEOROLOGY]**
Equatorial jet stream excitation of longitudinal waves, analyzing plasma beam instability and spectrum of short wave inhomogeneities by quasi-hydrodynamic equations
05 p0842 A70-16759
- Maximum wind velocity regions in tropospheric jet streams under synoptic conditions concerning troughs, ridge sections and cyclonic-anticyclonic curvatures
11 p2075 A70-25919
- Mesoscale waves in jet stream flow within Coriolis force over rotating earth by amplitude functions and phase velocities asymptotic series representation
12 p2265 A70-28334
- Vertical and intensity distributions of wind velocity focuses in tropospheric jet streams
13 p2444 A70-28590
- CAT shear spectra above ground frictional layer in jet stream flight conditions, using aircraft measurements
16 p2946 A70-33825
- Statistical properties of subtropical jet stream maxima over U.S. from Nimbus II IR radiometry
17 p3133 A70-35931
- Scintillation index correlation with mean wind velocity of jet streams
22 p4020 A70-43262
- JET THRUST**
Tangential force applied to column end by jet reaction from nozzle clamped to column end, obtaining critical load and oscillation frequency
02 p0389 A70-12644
- Jet engine risetime effect on spacecraft orientation control system performance, assuming monotonic or extremal thrust mode
06 p1103 A70-17883
- Turbojet engines departure from equilibrium performance during thermal soak transient attributed to heat absorption in turbine and compressor metals, observing thrust loss
09 p1744 A70-23739

- Thrust follower force stability in pod mounted jet engine and nacelle whirl using multiple degrees of freedom model
10 p1930 A70-25070
- Jet assisted orbital spacecraft trajectories equations derivation, considering Kepler trajectories and orbital velocities
15 p2800 A70-32260
- Performance cost functions of on-off limit cycle controllers for reaction jet controlled system
17 p3056 A70-35552
- Direction cosine attitude control logic for spin stabilized axisymmetric spacecraft, using control torques generated by reaction jet system
20 p3669 A70-39679
- Nonlinear adaptive reaction jet attitude control for long life space vehicles, providing optimal performance over bias acceleration disturbances
20 p3716 A70-39680
- Turbojet engines noise-suppressing nozzles flow rate and thrust characteristics calculation
22 p4092 A70-43371
- JET VANES**
Dip brazing aluminum fan vanes used in high bypass turbofan jet engines
10 p1893 A70-23858
- Kuznetsov NK 8-4 bypass turbojet air entry vanes, pressure compressors, gear case, combustion chamber and turbine drives
17 p3147 A70-34629
- JETAVATORS**
U GUIDE VANES
JETTISON SYSTEMS
Compression spring mechanisms for separation of spacecraft and shrouds, summarizing design characteristics
16 p2921 A70-34116
- Reliable collet release mechanism design for separation and ejection of reentry vehicle payload from booster
16 p2922 A70-34118
- Ball-lock-bolt separation mechanism for spacecraft applications requiring low shock, controlled release, nonfragmenting fastener
16 p2922 A70-34119
- JETTISONING**
Apollo service module retrograde motion due to propellants reorientation after reentry jettison predicted by digital simulation
[AIAA PAPER 70-1047] 19 p3534 A70-38862
- JITTER**
U VIBRATION
JOBS
U TASKS
JOINTS [ANATOMY]
NT KNEE [ANATOMY]
Step tracking in normal human subjects, studying muscle system around ankle joint
10 p1824 A70-23898
- Human femur junctions load actions and stresses during walking calculated from measurements
15 p2692 A70-32327
- Human joints boosted lubrication, discussing hyaluronic acid concentration and synovial fluid viscosity during squeeze-film action
24 p4296 A70-45160
- JOINTS [JUNCTIONS]**
NT BUTT JOINTS
NT LAP JOINTS
NT METAL JOINTS
NT SEAMS [JOINTS]
NT SOLDERED JOINTS
NT SPOT WELDS
NT WELDED JOINTS
- Bolted joints inspection using mechanical impedance algorithm method involving bolt head mechanical shock pulse response in adjacent structure
01 p0098 A70-10017
- Bolted and bonded joints design in composite materials loaded in tension, presenting methods for strength prediction, testing and analysis
02 p0306 A70-11952
- Elastic couplings applied as sliding contact-free continuous junction between permanently rotating and fixed parts in rotating coil magnetometer
02 p0298 A70-12214
- Resilience coefficient of intermediate elements of threaded connection related to transverse and axial nut dimensions by least squares method
05 p0856 A70-17012
- Apollo suit features applicable to operational or research program requiring pressure suits, discussing low torque constant volume joints
06 p1002 A70-17704
- Elastic behavior of joint formed by normally intersecting circular cylindrical shells under external bending moment, noting applicability to pipelines and pressure vessels
[ASME PAPER 68-WA/PVP-1] 07 p1400 A70-18710
- Adhesive joint failure, studying adhesive, cohesive and adhering ruptures by evaporative rate analysis
07 p1292 A70-18931

- Green matrices construction for joint shells by method of arbitrary constants variation, considering strained state symmetrical with joint linings
07 p1413 A70-20144
- Fiber composites-Ti alloy adhesive, rivet and combined joints for aircraft applications, noting fiber orientation role in joint tensile strength
08 p1509 A70-21905
- Standing wave ratio frequency dependence in miniature stripline power dividers and ring structure hybrid junction
09 p1652 A70-23653
- Hydraulic loss and secondary circulation of fluid flow in three dimensional bend commercial conduits, discussing relationship to velocity distribution
10 p1871 A70-25094
- Variable sweep wing pivot joint design utilizing double shear tilted spherical journal bearings with Teflon fabric liners
12 p2318 A70-27135
- Axisymmetric postyielded tongue and groove cylindrical joint stress analysis using finite element method
14 p2659 A70-31131
- Wire wrapped, soldered, welded and crimped joints and plug/socket connections in electronic packaging for spacecraft
16 p2879 A70-33958
- Overbraced frame loaded at joints, limiting elastic buckling examinations to geometrically perfect structures
20 p3717 A70-38973
- High temperature endurance strength of temper finished bolt connections under cyclic loads, using programmed fatigue testing machines
20 p3718 A70-39223
- Joint designs, attachment methods and load introduction in composite structures, suggesting adhesive bonding
20 p3730 A70-40041
- Point mass impact on flexibly interconnected rigid bodies with tree structure and spherical joints without dry friction, discussing resulting velocity changes
21 p3849 A70-40552
- Joint strength of three layer fiberglass reinforced plastic panels with bilateral adhesive patches under linear axial force
22 p4115 A70-42812
- Microwave waveguide rotary joint using symmetrical excitation for mode conversion to obviate filters
24 p4318 A70-45221
- Lockseal/flexible joint/ for solid propellant rocket motor thrust vector control, considering construction, operating characteristics and tradeoffs
[SAE PAPER 700777] 24 p4393 A70-45865
- JORDAN FORM**
Controllability and observability of discrete composite systems in tandem with Jordan canonical form representation noting similarity to continuous systems
10 p1856 A70-24873
- Gravitational variable constant in celestial mechanics, considering theories based on vacuum Jordan Lagrangian
18 p3320 A70-37066
- Differential equation systems with Jordan form block-triangular matrix, discussing homeomorphic mapping
23 p4211 A70-44093
- JOSEPHSON JUNCTIONS**
Josephson effect in superconductors emphasizing Josephson junction electrical properties and applications to devices and measuring techniques
03 p0542 A70-14190
- Thermal fluctuations effect on Josephson tunnel contact binding energy and external magnetic field dependence
24 p4388 A70-45203
- JOUKOWSKI TRANSFORMATION**
Pressure distribution in two dimensional incompressible potential flow on Joukowski airfoils with normal upper surface spoilers, emphasizing potential flow theory
[AIAA PAPER 67-737] 12 p2155 A70-27193
- JOULE HEATING**
U OHMIC DISSIPATION
U RESISTANCE HEATING
JOULE-THOMPSON EFFECT
Fluid intermolecular potential and virial calculation, noting relationships to Boyle and Joule-Thompson inversion temperatures
20 p3671 A70-38988
- JOURNAL BEARINGS**
Externally pressurized air journal bearings load capacity, film stiffness, attitude-eccentricity locus and mass flow, studying supply pressure and shaft rotation effects
[ASME PAPER 69-LUB-29] 01 p0100 A70-10380
- Helical journal bearings analysis operated in turbulent regime with incompressible lubricant, determining optimum groove parameters for maximum radial stiffness
01 p0100 A70-10381
- Externally pressurized gas lubricated journal bearings zero load rotating stability, using digital computer
[ASME PAPER 69-LUB-27] 01 p0100 A70-10382

- Externally pressurized journal bearing load tests, comparing load capacity data with analytical values
01 p0103 A70-10559
 - Rigid body dynamics of turborotors in fluid film journal bearings, investigating initial transients effect on motion stability by Runge-Kutta technique
[ASME PAPER 68-LUB-7] 02 p0307 A70-12165
 - Rayleigh step journal bearings, considering pressure distribution, load capacity and attitude angle and optimal film thickness ratio for incompressible fluid lubrication
02 p0307 A70-12167
 - Spiral grooved turbulent screw seal/viscoseal/analysis, combining results of spiral grooved journal bearing study with turbulent fluid film theory
[ASLE FICFS PREPRINT 32] 02 p0308 A70-12169
 - Hydrodynamic journal-thrust bearing system for satellite attitude control flywheel, discussing bearing stability, grease lubricant seal, power consumption, etc
[ASLE PREPRINT 69-LC-22] 02 p0309 A70-12532
 - Augmented small parameter gas film equation for squeeze film journal bearing solved in terms of radial displacement
[ASME PAPER 69-WA/LUB-9] 04 p0697 A70-14766
 - Time transient and step-jump dynamic analyses of gas lubricated bearing, illustrating hybrid journal and Rayleigh-Step thrust bearings
[ASME PAPER 69-WA/LUB-5] 04 p0697 A70-14768
 - Stability characteristics of two degree of freedom gyroscope having hydrodynamic grooved journal rotor bearings, discussing frequency of self excited oscillation
[ASME PAPER 69-LUB-H] 04 p0689 A70-14872
 - Hydrodynamic theory of elastic-viscous liquid lubrication for journal bearings, assuming stress-strain relationship with unequal cross stresses
05 p0855 A70-16509
 - Hydrostatic journal bearing calculation for case of shaft misalignment, deriving linear inhomogeneous equations with symmetrical matrix for pressure
07 p1293 A70-19119
 - Hydrostatic journal bearing dynamic rigidity for compressible and incompressible fluids, describing fluid film elasticity and damping characteristics
07 p1293 A70-19121
 - Load parameters of externally pressurized gas journal bearing with multiple supply holes
09 p1693 A70-22977
 - Hydrostatic oil journal bearings performance with several supply holes and incompressible lubricant, analyzing Reynolds pressure equation by numerical method
10 p1895 A70-24851
 - Externally pressurized porous journal gas bearings with solid sleeve parts for reducing porous media waviness and roughness effects
10 p1896 A70-25097
 - Pressure field equation derivation for hydrodynamic journal bearing in superlaminar regime, using turbulent Couette and screw flow friction correlations
13 p2418 A70-28742
 - Externally pressurized air journal bearing performance prediction, obtaining pressure distribution by numerical solution of Reynolds equation
13 p2418 A70-28743
 - Dynamic instability of multirecess hydrostatic journal bearings at critical shaft rotation velocity
13 p2418 A70-28745
 - Stiffness of multipad externally pressurized journal bearings with incompressible fluid feeding, comparing hydrodynamic and rolling bearings
15 p2745 A70-32445
 - Continuous elastic turboshaft flexible journal bearings, analyzing radial misalignment effects on operation
[ASME PAPER 70-DE-71] 16 p2918 A70-33521
 - Hydrodynamic journal-thrust bearing system for satellite attitude control flywheel, discussing bearing stability, grease lubricant seal, power consumption, etc
17 p3099 A70-34630
 - Pressure distribution in moderately loaded self acting journal bearings with incompressible turbulent film, considering end leakage
17 p3101 A70-35147
 - Load carrying capacity of self acting hydrodynamic journal bearings, considering turbulence and whirling motion in closed form solution
17 p3101 A70-35148
 - Pneumatic instability, capacity and rigidity of thrust and journal gas bearings with external air injection
18 p3264 A70-37072
 - Friction and temperature fields in lubricant film of journal bearings, discussing friction torque and heat dissipation
[ASME PAPER 69-LUB-24] 19 p3434 A70-37601
 - Augmented small parameter gas film equation for squeeze film journal bearing solved in terms of radial displacement
[ASME PAPER 69-WA/LUB-9] 19 p3435 A70-37609
 - Optimum one dimensional journal bearing for maximum load with minimum film thickness, using Pontryagin principle
[ASME PAPER 69-LUB-9] 19 p3435 A70-37614
 - Time transient and step-jump dynamic analyses of gas lubricated bearing, illustrating hybrid journal and Rayleigh-Step thrust bearings
[ASME PAPER 69-WA/LUB-5] 19 p3436 A70-37619
 - Aerostatic journal bearings with double plane admission feeder holes, determining maximum load and stiffness by numerical method
19 p3443 A70-38898
 - Externally pressurized air lubricated journal bearing with multiple supply holes, predicting load carrying capacity, flow requirement and stiffness
20 p3639 A70-40505
 - Rotating shaft system consisting of variable cross sections, disks and journal bearings, calculating unbalance vibration by numerical method
21 p3832 A70-40898
 - Heat generation effects in air hydrostatic journal bearing, including shaft and housing thermal deformation and lubricant viscosity changes
[ASME PAPER 70-LUBS-19] 22 p4044 A70-42442
 - Full and half journal bearings in axial magnetic field, discussing hydromagnetic noncyclic squeeze fluid films
24 p4349 A70-45995
- JOURNALS (SHAFTS)**
U SHAFTS [MACHINE ELEMENTS]
JUDGMENTS
Interindividual differences in judging stimulus similarities, explaining unsatisfactory results obtained by average scalings
19 p3366 A70-38506- Expert judgments validity of human task performance time against empirical measures for use in analytical modeling
24 p4308 A70-45515
- JUNCTION DIODES**
Negative resistance light emitting lateral GaAs diode, analyzing oscillation frequency, I-V characteristics, temperature and magnetic effects
01 p0050 A70-10565- Mo-Si epitaxial planar Schottky barrier diodes, describing reverse I-V characteristics improvement by edge leakage effects elimination
01 p0052 A70-11174
- Cavity resonator linear excitation by Gunn diode, considering external circuit effects on oscillation conditions and GaAs single crystal parameters
03 p0457 A70-13965
- Burst noise in forward biased silicon diodes and transistors, discussing measurements on gate controlled devices
03 p0458 A70-14029
- GaAs microwave diode Gunn oscillator subharmonically injection phase locked at low frequency ratios
03 p0459 A70-14041
- P-n heterojunction diode strain sensor fabricated by vacuum evaporation onto substrate, investigating mechanical input and output impedance characteristics
03 p0495 A70-14192
- N-type layer formation with ion implanted nitrogen or Sb in p-type alpha-SiC, evaluating electrical characteristics, discussing junction devices formed
04 p0732 A70-15685
- Phenomenology theory on conduction and switching behavior of amorphous semiconductor diodes
05 p0891 A70-16021
- Broadband two way switch obtained by p-i-n diodes deposited on alumina substrate
05 p0821 A70-16526
- Self excited microwave mixer and transmitting oscillator using Gunn diode applied to short distance Doppler radar
05 p0822 A70-16678
- Soviet book on microwave devices employing semiconductor diodes design and synthesis covering electric field effects, optimality criteria, tabular data, etc
06 p1019 A70-17536
- GaAs diode amplifiers and switching devices behavior, describing optical coupling between two GaAs lasers
07 p1241 A70-19399
- Seminsulating GaAs doped with Cr, discussing negative resistance segment in current-voltage curves of S diodes
07 p1242 A70-19798
- Gunn diode parallel combinations fabricated for X band with n-type GaAs crystals, discussing output power at CW operation
08 p1477 A70-21296
- Al n-type Si Schottky barrier diode characteristics, discussing I-V, barrier height, temperature dependence, photoemission, LF noise, etc
09 p1644 A70-22210
- X band Gunn oscillators amplitude modulation by pulse signals from another Gunn diode
09 p1646 A70-22707
- Volt-ampere characteristics of metal-semiconductor contacts for Schottky barrier diodes, investigating suppression of minority carriers and frequency response
09 p1741 A70-23352
- Low power semiconductor diode rectifying test apparatus for analysis of fusing and shaping effects on dynamic current-volt and frequency characteristics
09 p1649 A70-23355
- Ion-implanted GaAs junction diodes anneal behavior and defect nature
11 p2098 A70-26391
- Dispersion relation derived for space-charge waves propagating in thick Gunn diode, showing validity limit of one dimensional approach
12 p2194 A70-27164
- Read-diode microwave oscillators performance degradation due to space charge and series resistance, discussing RF power optimization
12 p2194 A70-27167
- Gunn diodes I-V characteristics with as function of carrier concentration/mobility and diode length, noting role of impact ionization in strong electric field
13 p2378 A70-29408
- Nonlinear resistance and reactance type harmonic generator diodes performance with output in millimeter wave decade
14 p2548 A70-30436
- High resistivity Si electron drift velocity measurement by exciting surface barrier diode with subnanosecond superradiant laser pulses
14 p2594 A70-30924
- Gamma radiation effects on GaAs Gunn diodes, measuring Hall effect, low field resistance, output power and FM noise in X band cavity
14 p2558 A70-31322
- High pulse repetition rate digital systems signal processing using Gunn effect diodes
15 p2710 A70-32583
- Lasers and GaAs diode emitters near IR radiation intensity distributions, using IR films and IR display phosphors
15 p2753 A70-32607
- Electron bombardment effect on volt-ampere, voltage-capacitance and pulse characteristics of GaAs point contact pulse diodes
17 p3055 A70-35675
- IV characteristics of high resistivity Ti-doped GaAs single crystals and S-diodes, using Hall constant and conductivity measurements
17 p3144 A70-35709
- GaAs diodes electroluminescence dependence on temperature and injection current
18 p3297 A70-36234
- Negative resistance and conductivity segments in I-V curves of diode structures, taking into account injection junction imperfections
18 p3231 A70-36413
- Close-confinement LPE AlGaAs junction laser properties, examining range of alloy direct bandgap transition
18 p3268 A70-36727
- Pulsed diodes subnanosecond rise time estimation, considering charge carrier lifetime, junction barrier capacitance, signal frequency, etc
20 p3595 A70-38968
- Degenerate p-n diode junction capacitance calculation, taking into account quantum and temperature effects
20 p3596 A70-39117
- Frequency dependence of impedance of p-n diode with short base in presence of large forward current densities
20 p3598 A70-40021
- Motion equation of electron in cylindrical diode subjected to varied voltages
21 p3796 A70-40640
- High energy electron irradiation generated defect centers in GaAs p-n electroluminescent diodes, using capacitance and thermally stimulated current measurements
21 p3863 A70-41914
- Picosecond large amplitude pulse generating GaAs diode with nu-n structure
21 p3800 A70-42116
- Semiconductor junction diode spontaneous emission sources, considering frequency-energy characteristics relationship
22 p4085 A70-42504
- GaAs laser and noncoherent IR emitting diodes fabrication and design, discussing card readers, encoders, alarms, range finders, bomb fuses and night vision systems
22 p4050 A70-43248
- Low noise GaAs Schottky barrier beam lead mixer and chip style diodes, discussing fabrication and performance
22 p3998 A70-43333
- Frequency multipliers with charge controlled junction diode model, predicting operational behavior
22 p3998 A70-43421
- Optimum junction area for maximum microwave output power of silicon IMPATT diodes for X band operation
23 p4167 A70-43775
- Microwave p-i-n diode RLC equivalent circuit parameters experimental determination
23 p4171 A70-43956

Current twisting in double injection ohmic contact long p-n diodes with S-shaped current-voltage curve, showing unstable density at negative resistance segment

23 p4176 A70-45061

Packaged microwave junction diodes in reduced-height waveguide, discussing parasitics and equivalent circuit parameters measurement technique

24 p4318 A70-45220

Variable microwave attenuator using p-n diodes and three-port hybrids built in stripline technique

24 p4318 A70-45222

High efficiency gallium arsenide IR illuminators, comparing dome diodes fabricated from diffused or Si doped solution grown materials

24 p4319 A70-45784

Carrier injection-limited Gunn diode wideband performance, deriving expression for admittance

24 p4319 A70-46081

Pb-Sn-Te junction diodes prepared by Sb diffusion, investigating spontaneous and laserlike emission

24 p4355 A70-46086

JUNCTION TRANSISTORS

Junction gate and MOS field effect transistors thermal noise calculations, using circuit analysis based on equivalent circuits

02 p0258 A70-12424

Field effect transistors with controlled p-n junction and metal-dielectric-semiconductor transistors investigated for radiation effects on physical and electrical properties

04 p0730 A70-14500

Competition mechanism for free carriers in junction isolated transistor collector suggested by current dependence of photocurrent

04 p0657 A70-14732

Transistor circuit design with junction compensation techniques to reduce transient gamma radiation effects

05 p0821 A70-16418

Bipolar n-p-n transistors fabrication to increase driving capabilities of complementary MOS transistors while retaining low power dissipation

05 p0821 A70-16419

Two dimensional numerical analysis of current saturation mechanism for junction field effect transistors with small and large length-to-width ratio values

09 p1740 A70-23110

Germanium p-n-p-m transistor frequency oscillation dependence on emitter current, noting forced air cooling effect

09 p1741 A70-23354

Steady state large signal computer model for junction-gate field effect transistors below pinch-off

11 p2019 A70-26711

MOS structures and transistors emission-current degradation mechanism at heterojunction under ionizing radiation

12 p2194 A70-27165

Neutron irradiation effect on n-channel GaAs junction FET performance, considering transconductance, drain current, pinch-off voltage and cut-off frequency

13 p2376 A70-28932

GaAs-Ge heterojunction transistors with microwave planar geometry, calculating performance for comparison with Ge homojunction transistor

14 p2556 A70-30925

UHF Si p-n-p transistors with low noise and high gain for small signal applications

14 p2557 A70-31161

Junction FET potential field and carrier distribution in channel investigated for current saturation mechanism

15 p2708 A70-31841

Junction and MOSFET transistors thermal noise characteristics at cryogenic temperatures

15 p2710 A70-32585

Large signal junction FET model involving piecewise linear approximation for ECAP circuit analysis program

15 p2711 A70-32596

Alloy junction transistors with emitter larger than collector, analyzing minority carrier distribution in base region and effect on current amplification

15 p2714 A70-32703

Neutron irradiation effect on unijunction transistors and SCRs, developing damage prediction technique

19 p3388 A70-37848

Visual binary state transistor tester for positive and negative logic circuits, illuminating lamp for specific logic states

21 p3801 A70-42244

Hybrid ion implanted diffused emitter n-p-n transistor two dimensional doping profiles, considering emitter oxide window edge shape effect

22 p3997 A70-42924

P- and n-channel MOS transistor instability during superbreakdown voltage application to drain electrode

24 p4319 A70-45811

JUNCTIONS

Cylindrical conical shell junction asymmetric bending, using numerical method and exact solution

15 p2822 A70-32360

Plasma-air junction problem in parallel plate waveguide, obtaining discontinuity admittance expression

22 p3994 A70-42350

JUPITER (PLANET)

Local thermal emission from Jupiter at 5 microns, discussing North Equatorial Belt and atmospheric transparency

01 p0173 A70-10043

Rotation period of Jupiter based on decametric component of radio emission, suggesting anticorrelation with sunspot number for drift observed

01 p0173 A70-10044

Internal powers and effective temperatures of Jupiter and Saturn measured by aircraft mounted telescope, noting restraints on planetary structure and atmosphere models

01 p0173 A70-10045

Atlas of near IR spectra of Venus, Mars, Jupiter and Saturn obtained by Fourier spectroscopy, discussing observational procedures, data recording and processing

01 p0173 A70-10078

Far UV spectroscopy of Jupiter by rocket-borne spectrograph

01 p0179 A70-10528

Giant planets structure, calculating Jupiter and Saturn densities using Russell solar mixture and internal heat from central core radioactivity

01 p0181 A70-10663

Io and Europa mass and density anomalies, indicating asteroid capture by Jupiter as comet origin theory

01 p0182 A70-10671

Jovian decameter radiation polarization during 1966-1967 apparition compared with cyclotron model predictions

02 p0364 A70-11793

Polarization observations of Saturn in UV and visible regions compared with Jupiter data, noting multiple scattering

02 p0368 A70-11818

Jupiter mass determined from observations of Jupiter fourth satellite right ascension and declination differences

02 p0370 A70-12087

Communications of lunar and planetary laboratory, Volume 6, covering Venus atmosphere and photography, Jupiter IR spectrum and Mars multicolor photometry

02 p0377 A70-12553

Jupiter radio telescope observations at cm wavelengths, describing radiation belt emission characteristics and planetary brightness temperature spectrum

03 p0565 A70-13233

Undiscovered satellites of solar system major planets, predicting Jupiter satellites

03 p0569 A70-13360

Jupiter observations /1966-1967/, discussing variations in size and position of polar caps and tropical belts

03 p0574 A70-13887

Circularly polarized synchrotron radiation from distribution of electrically charged particle in magnetic dipole calculated for estimating Jupiter magnetic field

04 p0746 A70-14511

Particle flux and dose rates in Jupiter Van Allen belts based on assumed synchrotron radiation from trapped electrons in dipole magnetic field

04 p0742 A70-15543

Jupiter capture of comets with parabolic orbits taking into account solar gravitational influence

05 p0905 A70-15757

Telescopic circular polarization observations of Jupiter at 9.26 cm related to Jovicentric declination of earth

05 p0906 A70-15896

Photographic photometry of Jupiter belts and zones at reflector Newtonian focus, presenting diagram showing intensity time variation

05 p0914 A70-16650

Circular polarization measurements of Jovian decimeter radiation by 210-ft radio telescope at Goldstone, California

05 p0921 A70-16986

Jovian decametric radiation periodicities analysis refuting evidence of Bigg for new Jovian satellites

06 p1138 A70-17280

Resonance in restricted three body problem applied to asteroidal motion in asteroid-Jupiter-system

06 p1152 A70-18492

Eccentric and inclined motions of satellite of spherical planet in planet centered coordinate system, applying formulas to Jupiter motion

07 p1374 A70-18693

Jupiter conductive molten metallic hydrogen core of moderate temperature suggested from solids melting point temperature dependence on pressure

07 p1390 A70-20238

Figure of gravitating inhomogeneous rotating liquid, applying results to Jupiter and Saturn model construction

08 p1564 A70-20558

Jupiter and Saturn IR reflection spectra observed with Michelson interferometer-spectrometer, eliminating effects of terrestrial atmospheric absorption, solar spectral lines, etc

08 p1570 A70-20895

Orbit analysis of hypothetical comets formed by Jupiter surface eruptions using Lagrange origin hypothesis

08 p1573 A70-21012

Modulation lanes in fine structure of dynamic spectra of Jovian L bursts possibly due to ionosphere or magnetosphere

08 p1576 A70-21394

Fine structure morphology in dynamic spectra of Jupiter decametric radiation determined from spectral recordings

08 p1562 A70-21514

Photometric profiles of Jupiter shadows cast by large natural satellites used as upper atmosphere probes

08 p1579 A70-21571

Jupiter decametric noise storm commencement time defining constant planetary rotation period

08 p1580 A70-21572

Jupiter radio telescope observations at cm wavelengths, describing radiation belt emission characteristics and planetary brightness temperature spectrum

08 p1580 A70-21666

Baseline measurements of Jupiter decametric radiation providing upper size limit to coherent and incoherent sources

09 p1755 A70-22512

Nongravitational effects, systematic residuals and close Jupiter approach problems in motions of comets

09 p1759 A70-22913

Bode law development from dynamical relaxation suggested from comparison of Jupiter, Saturn and Uranus inner satellite systems with planetary system

09 p1765 A70-23796

Jupiter decametric emission modulation by planetary rotation and Io position, suggesting role of magnetic tail diurnal swings

10 p1940 A70-24434

Short period hypothetical orbits distribution formed by flaring on Jovian satellites

11 p2109 A70-25925

Undiscovered satellites of solar system major planets, predicting Jupiter satellites

11 p2118 A70-26725

Jupiter decametric radio bursts observed by tape recording fringe interferometer

13 p2486 A70-28626

Replicating molecules on primordial earth, suggesting chemical evolution on Jupiter via demonstrable alpha-amionitriles synthesis

14 p2536 A70-30364

Fuel savings by Jupiter moon gravity assisted transfer trajectories from earth, considering initial energy, mass ratio, approach angle, timing and aiming errors

14 p2640 A70-30761

Jupiter luminosity as indication of internal energy magnitude, comparing limb darkening with predicted brightness distribution

14 p2643 A70-30984

Twelve year periodicities of Jupiter decametric radiation, noting correlation with Jupiter magnetic field rotation period

14 p2648 A70-31085

Lunar occultation observation of Jupiter by radio telescope, determining one dimensional strip brightness distribution

14 p2648 A70-31086

Jupiter decimeter radiation long term variations from flux density measurements, suggesting correlation with solar activity

14 p2648 A70-31087

Jupiter microwave spectrum from polarimetric observations and previous data

14 p2648 A70-31088

Synchrotron model involving electron trapping in dipolar magnetic field for Jupiter decimeter radiation

14 p2649 A70-31089

Figure of gravitating inhomogeneous rotating liquid, applying results to Jupiter and Saturn model construction

15 p2805 A70-32713

Jovian decimeter radiation, discussing electron drift velocity in dipole field, characteristic time for energy loss and radiation belt dimensions

16 p2980 A70-34192

Trojan asteroids in sun-Jupiter system, determining density near preceding Lagrangian point

17 p3171 A70-35445

Perturbative effects of Jupiter moons on spacecraft flyby and postencounter heliocentric trajectories, noting precision targeting

18 p3316 A70-36680

Jupiter decametric radio emission modulation by Io simulated by DC circuit model

18 p3321 A70-37120

Jovian continuum radiation observation by RAE-1 during lunar occultations

19 p3512 A70-38608

Pioneer-F Jupiter flyby mission planning, considering use of optimum broken plane trajectories to increase launch opportunity and/or payload capability [AIAA PAPER 70-1050] 19 p3528 A70-38865

Jupiter swingbys and multiplanet Jupiter swingby trajectory modes for outer planet missions, comparing in terms of passage conditions [AIAA PAPER 70-1071] 19 p3530 A70-38884

Jupiter RF spectrum in 80 to 10,000 MHz range for dipolar model, noting independent synchrotron component 21 p3891 A70-41185

Jupiter varied color surface area observations /1926-1964/ 22 p4107 A70-43594

Jupiter model thermal profiles, examining metallic core and molecular envelope in convective equilibrium 23 p4241 A70-44251

Jupiter perturbations on short period comets during close approaches, discussing orbital distribution 23 p4241 A70-44252

International photographic planetary patrol network, discussing filmstrips of Mars and Jupiter using blue, green and red filters 23 p4242 A70-44262

Jupiter flux density changes at 2695 MHz correlated with 10.7 cm solar activity, suggesting magnetic anomaly explanation 23 p4246 A70-44751

Jupiter surface drawings and photographs concerning quasi-periodic oscillations of red spot 24 p4411 A70-45800

Albedo and thermal emission of Jovian satellites I-IV at 3 to 12 micron wavelengths 24 p4413 A70-46171

JUPITER ATMOSPHERE

Jupiter and Saturn near IR spectra for relative abundances of atmospheric constituents and distribution with altitude, noting rough solar composition 01 p0179 A70-10526

Structure and composition of clouds of ammonia and water bearing condensates, investigating compositional models of Jupiter atmosphere, considering ammonium hydrosulfide cloud layer 01 p0179 A70-10527

Organic synthesis by electrical discharge in simulated Jovian atmosphere, noting appearance of orange-red cyanogen-ammonia polymer nonvolatile fraction 01 p0179 A70-10529

Spectroscopically active compounds observability in Jupiter atmosphere using solar composition adiabatic equilibrium model 01 p0180 A70-10530

Jovian polar zones enhanced optical transparency causes, discussing thin clouds and difference in molecular optical depth between north and south poles 01 p0180 A70-10531

Blunt and conical body optimum heat shield shapes for Jupiter atmospheric entry, noting shallow flight path [AIAA PAPER 68-1150] 01 p0195 A70-10827

Jupiter chemical composition and atmosphere, considering space probe experiments 01 p0185 A70-11047

Homogeneous scattering model for line formation applied to composition of Jupiter atmosphere 02 p0365 A70-11802

Model construction for structure of planetary atmospheres, particularly Jupiter, discussing gas pressure, density and temperature relationships 02 p0366 A70-11803

Aeronomy of Jovian upper atmosphere at pressures below 25 mb, discussing stratospheric heat sources, thermal emissivity, photochemistry of methane, ammonia, etc 02 p0366 A70-11804

Methane and ammonia absorption bands and possible structure of Jupiter and Saturn cloud layers by spectrophotometric observations 02 p0366 A70-11807

Pressure and line width estimate from high resolution image tube spectra of Jupiter at 11,000 Å 02 p0366 A70-11808

Rotational temperatures and methane abundances in Jovian atmosphere calculated for various Lorentz half widths 02 p0366 A70-11809

Variable distribution of ammonia absorption on Jupiter deduced from IR spectra, indicating scattering in cloud layer 02 p0366 A70-11810

Structure and composition of Jovian atmosphere, discussing hydrogen helium ratio, cloud colors, etc 02 p0367 A70-11811

Venus and Jupiter Aerobee rocket photoelectric UV spectra, determining geometric albedos using reflecting layer and cloud models 02 p0367 A70-11812

Two layer model of Jovian clouds including clear space, showing computed and measured equivalent widths of H quadrupole lines 02 p0367 A70-11813

Jupiter atmosphere temperature and density profiles determined from thermal models based on thermal structure above dense cloud level 02 p0367 A70-11814

Methane photochemistry in Jupiter atmosphere, investigating acetylene, ethylene and ethane photolysis 02 p0367 A70-11815

Absorption of EUV sunlight by Jupiter upper atmosphere, discussing photoelectron energy loss, thermal equilibrium and heating efficiencies 02 p0367 A70-11816

Phase diagrams for binary mixtures at high pressures suggesting layered structures existence in Jupiter and Saturn atmospheres resulting from phase separations in hydrogen-helium mixture 02 p0368 A70-11819

Ammonia spectral lines positions, intensities and half widths under Jovian conditions calculated, including ground state rotation and rotation inversion bands 02 p0368 A70-11820

Ammonia red and green bands measured line positions, strengths and half widths applied to Jupiter atmospheric pressure determination 02 p0368 A70-11821

Collision-narrowed growth curves for interpreting hydrogen quadrupole lines applied to photoelectric observations of Jupiter vibration-rotation bands 02 p0368 A70-11824

Decay times for thermal disturbances near cloud tops in Jupiter atmosphere, discussing hydrogen absorption 02 p0368 A70-11827

Jupiter upper atmosphere cloud bands zonal motion velocities, examining barotropic stability criterion and geostrophic balance hypothesis 02 p0368 A70-11828

Rotation periods of Jovian atmospheric currents showing zonal wind velocity variations with latitude 02 p0369 A70-11829

Ammonia absorption band at 6450 Å in Jovian atmosphere, clarifying controversial absorption time variations 02 p0375 A70-12428

Jovian surface elements spectral and color contrasts from spectrograms obtained between 3200- 4900 Å wavelengths 02 p0375 A70-12429

Jovian atmosphere photometric activity determination, showing time variation and difference in strength between Northern and Southern Hemisphere 02 p0375 A70-12430

Jovian cloud layer light and dark matter albedo determination, applying photographic equidensitometry 02 p0375 A70-12431

Jovian atmosphere convective energy magnitude determination for various atmospheric thicknesses and temperature gradients 02 p0375 A70-12432

IR spectrum of Jupiter with calibrations from laboratory studies of methane and ammonia bands 02 p0378 A70-12559

Cloud layer multiple scattering in Jovian atmosphere, discussing influence on Lorentzian contour of planetary absorption lines 03 p0574 A70-13882

Jupiter observations /1966-1967/, discussing variations in size and position of polar caps and tropical belts 03 p0574 A70-13887

Soviet book on Jupiter atmosphere covering structure, chemical composition, cloud cover, temperature conditions, etc 05 p0910 A70-16412

Methane abundance in Jovian atmosphere deduced from line equivalent widths, obtaining line intensity for J manifolds 05 p0919 A70-16940

Data on Jupiter chemical composition, internal structure and energy sources, discussing Jovian planets origin and role played by gas 07 p1386 A70-19487

Jupiter atmospheric properties on basis of spectrograms analysis 08 p1569 A70-20833

Jupiter geostrophy indicated by circulation, vorticity and Rossby number determined from Great Red Spot observations 08 p1580 A70-21573

Jupiter brightness temperature values and standard deviations from EHF radio telescopic observations 09 p1765 A70-23809

Absorption strengths of j-manifolds in R branch of Jupiter atmosphere methane band, discussing fine structure blending 10 p1919 A70-24473

Predicted Jupiter visual auroras investigated with high sensitivity spectrograph 10 p1947 A70-24993

Jupiter atmospheric composition, gas and dust cloud formation as clues to origin and evolution of solar system 11 p2108 A70-25654

Deuterium recovery in Jupiter atmosphere, describing equipment and techniques for hydrogen-helium gathering and processing 11 p2112 A70-26064

Spectrographic measurements of Jovian Red Spot and Southern Tropical Zone molecular absorption bands related to cloud cover density and depth 12 p2311 A70-28305

Hydrogen abundance in Jupiter atmosphere quadrupole line used in comparing jupiter and solar atmosphere C/H ratios 14 p2650 A70-31221

Data on Jupiter chemical composition, internal structure and energy sources, discussing Jovian planets origin and role played by gas 15 p2805 A70-32732

Jupiter atmosphere ammonia abundance from laboratory curves of growth analysis for ammonia bands 18 p3310 A70-35937

Spectrophotometry of methane and ammonia absorption bands indicating decrease toward Jupiter disk edge 18 p3323 A70-37140

Photolytic model of Jupiter belt excess temperatures and coloration compared to solid ammonia clouds, using IR and visual observations 19 p3513 A70-37410

Steady symmetric flow model for Jupiter cloud banded structure, representing variable concentration of condensing constituents with latitude 19 p3519 A70-38254

Environmental heat shielding for various sized Jupiter atmospheric entry probes [AIAA PAPER 70-1324] 24 p4429 A70-45941

JUPITER PROBES

Ground-based and onboard guidance and navigation systems for outer planet flyby missions concerning direct, Jupiter swingby and Grand Tour trajectories [AIAA PAPER 70-71] 06 p1104 A70-18194

Galilean satellites touring by Jupiter spacecraft, discussing orbit calculation and encounter geometry [AIAA PAPER 70-1070] 19 p3530 A70-38883

Jupiter swingby trajectory analysis for comet flyby and rendezvous missions, discussing approach velocity and payloads [AIAA PAPER 70-1074] 19 p3530 A70-38886

Jupiter Orbiting Vehicle for Exploration system for gathering Jupiter atmosphere, magnetic, radiation, gravitation, temperature, topography and interplanetary data 23 p4264 A70-45010

JUPITER RED SPOT

Jupiter Red Spot observed photographically in 1967-1968, correlating activity in southern component of South Equatorial Belt to spot size 01 p0180 A70-10532

Jupiter Red Spot continuous spectrum intensity distribution and methane/ammonia absorption between 3300-6500 Å 02 p0374 A70-12427

Spectrographic measurements of Jovian Red Spot and Southern Tropical Zone molecular absorption bands related to cloud cover density and depth 12 p2311 A70-28305

Jupiter Red Spot, explaining motion rate in terms of cellular convection in liquid hydrogen-helium layer 15 p2799 A70-31895

Jupiter Red Spot 1968-1969 photographic observations, discussing area darkness, longitude oscillation and acceleration 20 p3708 A70-39963

Jupiter red spot darkness parameter and solar activity as clue to Jupiter-solar relationship 24 p4402 A70-45391

Jupiter surface drawings and photographs concerning quasi-periodic oscillations of red spot 24 p4411 A70-45800

K

K BAND U EXTREMELY HIGH FREQUENCIES K LINES

X ray spectrometer for space science and laboratory research, presenting CrK spectrum and fine structure 01 p0092 A70-11172

K line profiles of Ca II for two component chromosphere, obtaining line source function and optical depth from steady state and radiative transfer equations 05 p0911 A70-16430

Red giants age and mass estimation based on K-line luminosities, noting role of metal abundance 06 p1139 A70-17416

Sunspots narrow and double K lines probable emission by quiescent type prominences 08 p1575 A70-21372

Violet K2 emission in H and K line cores of solar calcium ions using atmospheric model in state of motion 12 p2303 A70-27701

Calcium H and K lines core residual intensities in stars with quiet and active chromosphere, suggesting activity due to thermal gradient 12 p2303 A70-27702

X ray K spectra of Ti-Cr alloy for electron structure in titanium chromide phase region, discussing spectral intensities

13 p2435 A70-29375

Solar Ca II H and K lines formation, discussing double reversal, limb darkening, plage and spot lines and anomalous line ratios

13 p2494 A70-29481

Nitrogen K-L Auger spectrum high energy lines measurement by high resolution electron spectrometer

14 p2620 A70-31301

Fine structure in Ca II K line core, determining reduced high dispersion spectra at solar disk center

15 p2804 A70-32618

Hyades stars between F4 and K5, measuring chromospheric H and K emission lines dependence on bolometric luminosity

17 p3157 A70-34832

Solar chromosphere resonance lines, observing H and K line profiles of Mg ions

17 p3161 A70-34893

Sco X-1 X ray emission data from rocket-borne measurement, indicating Fe K-emission from high ionization states

21 p3873 A70-40667

Spinning cylindrical spicule model with radial and axial gradients in electron number and temperature forming Ca II K line

21 p3879 A70-40955

IR observation of chromospheric Ca II K-line during total eclipse of 7 March 1970

24 p4401 A70-45314

K-MESONS

K-mesons role in high energy cosmic ray muons angular distribution and nuclear interaction

09 p1748 A70-23731

Inertial and gravitational mass equivalence related to observation of anomalous K-meson decay

12 p2272 A70-27391

KA BAND

U EXTREMELY HIGH FREQUENCIES

KALMAN-SCHMIDT FILTERING

Apollo program navigation processing using Kalman optimal linear computer, emphasizing position vector and error matrix and command and lunar landing extrapolation module navigation

03 p0522 A70-13604

Optimum estimation equations as simple averaging extension, considering application to Kalman filtering in integrated space navigation system

03 p0522 A70-13608

Wiener-Hopf equation development and Kalman filter derivation using Leibnitz equation for differentiating integral

04 p0660 A70-15338

Kalman filtering techniques to identify aircraft lateral motion data

08 p1478 A70-20782

Pilot model based on Kalman filtering and optimal control, investigating evaluation for time stationary conditions and sine-wave tracking

10 p1823 A70-23894

Self optimizing Kalman filter for hybrid inertial air navigation systems, noting implementation on airborne digital computer

11 p2078 A70-25682

Kalman filtering applied to moving balloon position and velocity estimates related to upper atmosphere wind measurements by balloon-satellite experiment

11 p2025 A70-26206

Suboptimal nonlinear state estimation from noise corrupted measurements in ballistic trajectory, using simplified extended Kalman filter

11 p2028 A70-26303

Kalman filter modifications for spinning satellite attitude determination in elliptical orbit prior to apogee maneuver, using sun and IR earth sensors

11 p2028 A70-26304

Kalman filtering and differential correction techniques applied to T-33 flight test data for aircraft system parameters identification

11 p1982 A70-26323

Inertial hybrid navigation system optimization, discussing performance curves and numerical filters synthesis and error elimination

13 p2448 A70-28747

Free floating balloon position and velocity determination by satellite, using Kalman filter linear estimation theory

14 p2530 A70-30571

X-22 VTOL aircraft initial parameter, state and covariance matrix estimates by Kalman filter and smoothing algorithms

16 p2885 A70-33329

Recurrence scheme for parameter estimation by quasi-linear equations of motion method and Kalman filtering for nonlinear dynamical systems

16 p2887 A70-33349

Linear sequential Kalman filter for time correlated noise without state augmenting and measurement differencing demanding less computer sizing

16 p2887 A70-33350

Optimal Kalman tracking filter performance estimation for manned maneuvering targets

16 p2949 A70-34057

Recursive estimation and Kalman filtering for space vehicle trajectory tracking, using Doppler shift measurements

16 p2866 A70-34071

Kalman filter set for state vector and observation error variance estimation in discrete-time linear system, using empirical Bayes techniques [ALAA PAPER 70-1058]

19 p3395 A70-38873

Apollo program navigation processing using Kalman optimal linear computer, emphasizing position vector and error matrix and command and lunar landing extrapolation module navigation

21 p3848 A70-41127

Quasi-linearization relationship with Kalman filtering for nonlinear systems parameter estimation in process noise absence

21 p3845 A70-41749

KAMACITE

X-ray line broadening analysis for lattice damage in kamacite phase of Fe meteorites, evaluating particle size and elastic strain

05 p0915 A70-16828

Cliftonite occurrence, internal structure, orientation within kamacite and implications on origin of diamonds in meteorites

05 p0921 A70-17095

KAMAN MILITARY HELICOPTERS

U MILITARY HELICOPTERS

KANSAS

X ray diffraction analysis for composition and structure of meteorites found in Kansas, classifying as hypersthene and bronzite chondrites

05 p0912 A70-16466

KAOLINITE

Photointerpretation applications to kaolin deposit detection, railway tunnel collapse analysis and highway drainage

10 p1873 A70-24075

KAPOETA ACHONDRITE

Kapoeta howardite Xe abundance and isotopic composition for indications of extinct Pu 244 and I 129 decay

24 p4402 A70-45380

KARMAN VORTEX STREET

Karman theory extension to interference between parallel vortex streets, examining geometry of vortex configurations

03 p0406 A70-13274

Karman trail vortices tangential velocity decay measurement by hot film anemometer experiments

09 p1661 A70-22961

Karman vortex shedding phenomenon for flow rate measurement in channel or pipe

14 p2588 A70-31333

Drag estimation for circular cylinders at subcritical Reynolds numbers and subsonic speeds, using Karman vortex street theory for wake

23 p4131 A70-43894

Aeroelastic stability for circular cylindrical structures under periodic Karman vortex excitation

23 p4274 A70-44764

KC-135 AIRCRAFT

U C-135 AIRCRAFT

KELVIN TEMPERATURE SCALE

U TEMPERATURE SCALES

KEPLER LAWS

Optimum orbital transfer of material point subjected to reactive force with minimum mass loss, discussing Kepler motion kinematics

01 p0192 A70-11514

Generalized Keplerian orbits for large cylindrical satellites noting orbit stability

03 p0578 A70-14252

Binary star formation using singular solution of Kepler problem in general theory of relativity

04 p0755 A70-15355

Energy derivation for mechanics and thermodynamics with generalization to systems of more than two dynamic variables, considering transformations and Newton and Kepler laws

12 p2164 A70-27070

Keplerian integrals analogy to integrals of adjoint equations suggested by optimum space navigation trajectories considerations

12 p2261 A70-27834

Computer program for two body problem literal series expansions using Kepler functions with Bessel and Poisson series operation

14 p2638 A70-30702

Satellite path geometry along Keplerian elliptical orbit, taking earth flattening into consideration

18 p3312 A70-36167

Large planets mass determination based on Kepler law and gravitational effects

18 p3318 A70-37045

Resonant satellites geodesy, determining orbit perturbations and gravity constant via mean Kepler elements high speed analysis

24 p4408 A70-45540

KERATINS

Keratinocyte development on epidermal surface of female patient exposed to cosmetic UV irradiation with quartz lamp

01 p0029 A70-11406

KERNEL FUNCTIONS

Time independent kernel integral equations in dynamic contact problems of elasticity and mathematical physics

01 p0146 A70-11571

Quasi-linear stress-strain deviators relations in viscoelastic theory, indicating kernels and functions determinable from creep relaxation loading and deformation tests

02 p0390 A70-12804

Shallow shell theory, discussing equation kernels, reduction of boundary value problems to integral equations, potential theory application and transformation into Fourier series

03 p0589 A70-13338

Monograph on generalized transforms properties and asymptotic behavior, discussing kernel functions, Bessel functions, Laplace transforms, Hankel transforms, etc

03 p0519 A70-13650

Time-varying loads effect on linear elastically hereditary media described by generalized fractional-order exponential functions and Rzhantyn type viscoelastic kernels

05 p0946 A70-16954

Interference kernel discontinuities in integral equations relating amplitude of angle of attack and pressure distribution on T tail harmonically oscillating in subsonic flow

07 p1416 A70-20210

Paired integral equations of elasticity with kernels containing Legendre spherical harmonics, admitting exact solution in quadratures

08 p1544 A70-20960

Orthogonal polynomials in three dimensional contact problems without friction, discussing construction of kernels over finite and seminfinite intervals

08 p1594 A70-21634

Thermoelasticity problem for plane with rectilinear cut with constant temperature at initial moment of time, using approximating kernel of integral equation

10 p1965 A70-25296

Subsonic kernel function applicability limited to surfaces with small inclinations to freestream, considering wing with deflected control surface

12 p2212 A70-28089

Burger turbulence model late decay statistical analysis using kernels of Cameron-Martin-Wiener expansion of random velocity field

13 p2386 A70-28820

Shallow shell theory, discussing equation kernels, reduction of boundary value problems to integral equations, potential theory application and transformation into Fourier series

14 p2657 A70-30716

Linear compressibility assumption incorporated into third order multiple integral representation of nonlinear creep of polyurethane, reducing time independent kernel functions

17 p3186 A70-34972

Paired integral equations of elasticity with kernels containing Legendre spherical harmonics, admitting exact solution in quadratures

20 p3672 A70-39382

Exponential kernel approximation effect on radiative energy transfer in high temperature hydrogen plasma

20 p3684 A70-40278

Radiation shield design and transport calculations, reviewing kernel methods development and relevant computer programs

23 p4217 A70-43811

KEROSENE

Excess air ratio and heat release efficiency in combustion of kerosene mixture determined by volumetric gas analysis

10 p1968 A70-24283

Oxygen-kerosene combustion product composition and characteristics in engine thermodynamic design allowing for intermolecular interaction forces

10 p1968 A70-24284

Jet A kerosene deposit accumulation problem and proposed SST fuel tank design [SAE PAPER 700256]

18 p3214 A70-36825

Oxygen-kerosene fuel combustion products thermodynamic properties, tabulating computed values

21 p3865 A70-41771

KERR CELLS

Picosecond on-off light gate based on Kerr cell design, using optical pulses to induce birefringence in liquids

01 p0111 A70-10571

Electro-optical shutter for optical pumping experiments using Kerr cell controlled by high voltage modulator

07 p1286 A70-19972

Kerr cell-shuttered high speed stigmatic spectrograph for shock tube electron density distribution measurement

09 p1682 A70-23503

KERR EFFECTS

Kerr physical optics formula usefulness for calculation of radar reflectivity of metallic bodies of revolution in terms of electric and magnetic dipoles

02 p0262 A70-12598

Einstein equations solved for steady axisymmetric physical schemes by varying Kerr metric constants, considering electromagnetic field case

22 p4073 A70-42717

KERR ELECTROOPTICAL EFFECT

Pulse propagation inside laser cavity containing amplifying medium and material displaying optical Kerr effect, predicting ultrashort pulses

01 p0113 A70-11177

Collapsing beam transition into self focusing light channel numerically analyzed allowing for Kerr effect saturation, multiphoton absorption and stimulated Raman scattering

04 p0650 A70-15285

Intense light beams self focusing in nonlinear media with quadratic Kerr effect, assuming spherical initial phase front after passing through condensing lens

07 p1296 A70-18720

Photographic still and high speed cameras, using Kerr effect electro-optical shutters with transmission line structure

14 p2589 A70-31404

KERR MAGNETOOPTICAL EFFECT

Magnetic holography, considering Faraday and polar Kerr effect reconstructions and potential as computer storage

22 p3994 A70-43608

KETENES

Bonding scheme of C-O in ketene described by localized orbital technique

08 p1455 A70-20682

Ketene and diazomethane flash photolytic measurement of reaction rates of singlet-triplet methylene deactivation

15 p2694 A70-31729

KETONES

NT ACETONE

Synthesis of 1-oxacyclopent-1-enyl cations from cyclopropyl ketones on heating in strong acids noting rearrangement rates

04 p0646 A70-15088

Computer program to decide structure for aliphatic ketone from low resolution mass spectrum using DENDRAL algorithm

05 p0810 A70-16048

Dialkyl ketone ion in double McLafferty rearrangement, applying ion cyclotron resonance to structural study

08 p1454 A70-20525

Evidence against electron impact induced alkyl shifts in mass spectra of alpha-hydroxy-ketones, showing thermal rearrangements

13 p2363 A70-29803

Electron impact promoted phenyl migration of trans phenylacetalone, considering mass spectrometry and stereochemistry

14 p2544 A70-30189

Oxadiazolone pyrolytic and photolytic fragmentation, noting intramolecular cyclizations and intermediate azomethine nitrene production

17 p3041 A70-34771

KIDNEYS

Acid mucopolysaccharides in distal segments of medullary substance of kidneys of rodents under high ambient temperature, showing stable morphological characteristics

07 p1204 A70-19141

Erythropoiesis inhibitor in blood from rabbit kidney vein during hyperoxia in nitrogen-oxygen atmosphere

14 p2535 A70-30155

Prolonged transverse acceleration effects on rats kidney and posterior hypophysis neurosecretions

20 p3575 A70-40188

Oxidative enzymes histochemistry in nervous system, liver and kidney of rats in immediate and remote periods after 24-hr artificial hypobiosis

21 p3764 A70-41478

Adrenocorticotrophic hormone effect on oxygen tension in rabbit kidney

24 p4301 A70-45845

Structure and function of juxtaglomerular apparatus of kidneys controlling synthesis and secretion of renin

24 p4305 A70-46392

KIMBERLITE

U BIOTITE

KINEMATIC EQUATIONS

Geometrical interpretation of motion of body about fixed point in Hess case based on Kharlamov kinematic equations, using special coordinates system

01 p0144 A70-11428

Laminar boundary layer in incompressible liquid, noting effect of variation of kinematic viscosity and density on stability

03 p0468 A70-13870

Spacecraft orientation control system optimization by plotting controlled motion kinematic models

13 p2501 A70-28417

Poisson kinematic equations solution of symmetric gyrost at in viscous medium for free rotor and constant angular speed, using perturbation technique

23 p4220 A70-44560

KINEMATICS

NT BODY KINEMATICS

Statistical analysis of position angles of Berenice cluster galaxies, estimating mass, expansion, rotation period and age

02 p0376 A70-12448

Noctilucous clouds morphological and kinematic characteristics based on photographs

03 p0476 A70-13885

Nonlinear thin shell theory kinematics generalized in terms of physical strain and surface deformation and geometry

04 p0766 A70-14450

Kinematic characteristics of annular-blank elements extruded by pulsed magnetic fields, noting proportionality to energy stored in capacitor bank

05 p0857 A70-17018

H I gas and H II regions kinematics, comparing radial velocities near galactic center

06 p1149 A70-18459

Cloud base updraft field, three dimensional reflectivity pattern and rain and hailfall pattern for thunderstorms in Alberta, discussing shear

06 p1099 A70-18569

Automatic system of kinematic analysis [ASKA], based on matrix displacement finite element method, applied to structural strains calculations

07 p1417 A70-20362

Proportional navigation law three dimensional vectorial equation analyzed in kinematic conditions, discussing perturbation effects on linearized trajectory

09 p1720 A70-22420

Telemetric systems for moving machine elements tests, discussing seven channel PFM and FM/FM systems

11 p2056 A70-26451

Complex vector parametrization of Lorentz group in relativistic kinematics, discussing Wigner rotation, Lorentz transformation and particles classification during scattering

13 p2453 A70-29722

Viscometric Poiseuille or Couette flow kinematics, considering nonuniform shear rate

14 p2567 A70-31282

Terminal kinematic variables prediction for missile homing, discussing line of sight angle, rate and acceleration

15 p2773 A70-32525

Book on continuum mechanics covering tensor kinematics, energy balance, virtual work, constitutive equations, etc

16 p2987 A70-32914

Kinematics of M 33, M 51 and large Magellanic cloud/LMC/

18 p3326 A70-37157

B stars kinematic parameters determination from radial and tangential velocities

19 p3525 A70-38775

Gravity effects on impact damper performance, investigating dynamic stability and kinematic viability of various steady state motion solutions

20 p3717 A70-38974

Noctilucous cloud kinematics, examining wave structure and lengths, velocities and general motion

20 p3622 A70-39403

Kinematically unsteady aerodynamic coefficients consistent with stiffness and inertia properties of lifting surface in supersonic flow by finite element method

24 p4287 A70-45154

Beltrami flows on spherical surfaces, using scalar equations from kinematic conditions

24 p4326 A70-45990

KINESTHESIA

Head movement effect on accuracy of visual and kinesthetic localization for free and fixed head conditions

05 p0803 A70-16669

KINESTHESIS

U PROPRICEPTION

KINETIC ENERGY

Euler-Poisson equations application to motion of heavy solid body about fixed point to determine kinetic momentum vector relative to fixed reference system

01 p0145 A70-11434

Turbulent mixing and supersonic combustion theories applied to internal flow, comparing various mixers and relating mixing intensity to kinetic energy of turbulence

02 p0399 A70-12045

E layer kinetic energy viscous dissipation and transfer to potential energy by turbulence and irregular winds shear

02 p0327 A70-12292

Dissipation spectrum /viscous dissipation of turbulent kinetic energy as function of wave number magnitude/ data compared and plotted

02 p0327 A70-12294

Kinetic energy of atomic motions for vitreous and crystalline high polymers measured by differential scanning calorimetry and thermal analysis

02 p0253 A70-12522

Momentum-energy complex obtained for nonlocalized fields in variational mechanics, deriving in-

tegral differential identities for Euler equations quadratures

05 p0881 A70-16078

Kinetic, potential and dissipative energies computed in systems of randomly excited coupled oscillators, using Liapunov stability method

05 p0821 A70-16407

Conservation equation for thermal energy in turbulent shear flow, including turbulence kinetic energy equation terms

[WSCIPAPER 69-43]

06 p1179 A70-17983

Solid state laser kinetic regime as function of diffusive and directional motions of active medium excitations

07 p1299 A70-19860

Damped isotropic turbulence kinetic and temperature fluctuation energy spectra, neglecting viscosity and molecular heat conduction

08 p1483 A70-20961

Troposphere-stratosphere kinetic energy transfer during 1967-1968 midwinter warming, comparing calculation by pressure interaction term with direct calculation of vertical velocity fields

08 p1540 A70-21969

General relativistic expressions for angular momentum and rotational kinetic energy of slowly rotating stars

09 p1764 A70-23608

Reagent translational energy effect on dynamics of ionic and atomic reactions, using nuclear recoil and chemical accelerator methods

11 p1995 A70-26005

Scanning Fabry-Perot interferometer for plasma diagnostics, determining kinetic temperatures

12 p2231 A70-27215

General relativistic hydrodynamics near equilibrium, discussing velocity and kinetic energy increase spherically symmetric large masses as function of radius change

12 p2300 A70-27392

Steady state EPR signal I kinetic behavior in wild type Chlamydomonas reinhardtii and in mutant strain AC-206 lacking cytochrome 53

12 p2168 A70-27468

Energy and canonical momentum relationship in relativistic mechanics, discussing particle production and annihilation

13 p2453 A70-29721

Troposphere-stratosphere kinetic energy transfer /1964-1968/, annual variations and vertical flux correlation to circulation pattern

15 p2722 A70-31441

Transverse kinetic energy of electrons at outlet of magnetron-injection gun as function of cathode inclination and magnetic induction

15 p2707 A70-31504

Kinetic energy turbulence spectrum in free atmosphere from rawinsonde and aircraft data

15 p0000 A70-32369

Solar wind observations by Pioneer 6, considering particle density, flux and kinetic energy

16 p2972 A70-32949

Kinetic energy and pressure distribution of three dimensional compressible fluid flow, using invariant transformation of Euler motion equation

16 p2890 A70-33073

Kinetic energy correction factor for nonuniform flow at Vena Contracta, using experimental data and modified Bernoulli equation

16 p2892 A70-33639

Turbulent shear flow velocity and kinetic energy distributions in tunnel

18 p3241 A70-36383

Coordinates for diagonalizing kinetic energy of particle system relative motion, discussing potential energy surface

19 p3373 A70-37841

Atmospheric zonal kinetic energy balance for Northern Hemisphere, assuming frictional destruction due to stresses across horizontal surfaces

20 p3661 A70-39145

Damped isotropic turbulence kinetic and temperature fluctuation energy spectra, neglecting viscosity and molecular heat conduction

20 p3608 A70-39383

Base function selection for energy calculation optimal convergence conditions of frequencies and stresses in turbomachine blades vibrations

20 p3722 A70-39784

Turbulent shear stress correlation with turbulent kinetic energy for wake and circular jet flow conditions

20 p3613 A70-40277

KINETIC EQUATIONS

NT HELMHOLTZ VORTICITY EQUATION

NT HYDRODYNAMIC EQUATIONS

NT KINEMATIC EQUATIONS

Oscillations and decomposition of diatomic gas molecules at high temperatures during atom-molecule collisions, deriving kinetic equations for energy level changes

01 p0148 A70-11630

Electron distribution function for steady homogeneous plasma of arbitrary ionization degree under strong

electric fields, discussing kinetic equations for elastic and nonelectric encounters

02 p0346 A70-12231

Kinetic equation describing variation of distribution function of stellar residual velocities under action of gravitational field, discussing stellar diffusion in velocity field

03 p0564 A70-13227

Boltzmann-type kinetic equation for homogeneous electron plasma in uniform magnetic field, describing relaxation to thermal equilibrium by convergent collision integral

05 p0888 A70-16329

Stratified cloud transport and evolution, solving kinetic equations by numerical method

06 p1053 A70-17210

Numerical methods for solving Boltzmann gas kinetics equation, assessing various methods effectiveness

06 p1036 A70-17752

Spatially homogeneous distribution function describing uniform gas motion derived to permit computer calculations in obtaining numerical solutions to kinetic equation

06 p1036 A70-17753

Kinetic Boltzmann equations for spatially uniform two component gas mixture solved with allowance for relaxation processes, assuming differing temperatures

06 p1109 A70-17754

Interplanetary plasma flow past earth and planets simulation using kinetic equations

06 p1147 A70-18292

Shock wave structure in He-Ar mixture velocity and temperature profiles based on kinetic model equations

06 p1051 A70-18346

Gravitating particles systems equilibrium states, solving kinetic equations for sphere and cylinder in isotropic and anisotropic cases

07 p1389 A70-20207

Kinetic theory equations for completely ionized plasma taking into account Diener method

08 p1550 A70-20615

Kinetic equation describing variation of distribution function of stellar residual velocities under action of gravitational field, discussing stellar diffusion in velocity field

08 p1580 A70-21660

Correlation functions of fluctuations in electrical characteristics of nonequilibrium electron gas during scattering, determining spectral densities and populations by kinetic equation Green function

08 p1554 A70-21806

Kinetic equation for nonlinear interaction of waves, including unstable or damped, using Bogoliubov method

09 p1659 A70-22214

Plasma, Coulomb fields and radiation correlations obtained by relativistic kinetic equations, noting bremsstrahlung, synchrotron, cyclotron radiation, radiative and particle diffusion, etc

09 p1736 A70-23182

Interplanetary medium kinetic equations to limit ion temperature anisotropies in solar wind, discussing Coulomb collisions and ion-cyclotron instability effects

11 p2105 A70-26561

Coupled lasers kinetic operating characteristics, discussing emission power damping

12 p2246 A70-27315

Kinetic equation for electron plasma based on BBGKY hierarchy reducible to set of equations with structure similar to Pines-Schrieffer equations

13 p2458 A70-28561

Vibration spectra, kinetic and dispersion equations of solid spherical particles moving in incompressible weakly viscous liquid

13 p2388 A70-29368

Plasma kinetic equation, expressing interaction term as sum of binary collisions between close and collective interactions among remote particles

14 p2625 A70-31297

Turbulent kinetic energy equation for determining turbulent flow fields applied to free mixing problem of constant density streams

16 p2894 A70-33856

Kinetic equation for rarefied polyatomic gases derived from Liouville equation

17 p3138 A70-35728

Kinetic effects of Barnett equations and slip conditions for continuous dense gas flows at small Knudsen numbers

18 p3239 A70-36256

Luminescence decreases in laser active medium operating in free emission mode, using kinetic equations for integral and spectral level populations

18 p3267 A70-36615

Kinetic equation in strong electric fields, describing current carrier behavior in semiconductors

19 p3483 A70-37293

Kinetic equations derivation for correlation functions and time dependent distribution functions of irreversible processes, using projection operators

20 p3672 A70-39588

Alfven magnetoacoustic waves interaction, deriving kinetic equation for distribution function and relaxation time

20 p3678 A70-39597

Annealing properties of radiation damage in lithium-diffused silicon, formulating kinetic equation to describe processes associated with recovery and instability

20 p3687 A70-40165

Transverse and longitudinal current correlations in fluids from modeled kinetic equations, noting inelastic neutron scattering from liquids

24 p4378 A70-45261

KINETIC FRICTION

NT SLIDING FRICTION

Kinetic friction and friction induced vibration measurements by pin-on-disk tribometer [ASME PAPER 70-LUBS-15]

22 p4044 A70-42446

KINETIC HEATING

NT AERODYNAMIC HEATING

NT SHOCK HEATING

Simulated Concorde kinetic heating system for ground studies of thermal stresses

07 p1250 A70-19744

Radiative heating rates and gas environments effects on ablative material performance from tests at arc image facility

07 p1319 A70-19888

Kinetic temperature estimate for solar corona based on time profile of type 3 bursts

08 p1565 A70-20565

Kinetic temperature estimate for solar corona based on time profile of type 3 bursts

15 p2805 A70-32720

Kinetic heating of spacecraft surfaces, emphasizing materials and fluid circulation cooling devices

18 p3333 A70-36654

KINETIC THEORY

NT CHAPMAN-ENSKOG THEORY

NT MIXING LENGTH FLOW THEORY

NT TRANSPORT THEORY

Enskog method for Boltzmann equation, analyzing asymptotic nature of integral kinetic equation for molecular mean free paths and Laplace probabilities

01 p0068 A70-11568

Molecular rotations and kinetics from spectral features of molecular Raman spectra, using light scattering spectroscopy

02 p0343 A70-12077

Dynamic electric field in solar coronal exosphere on basis of kinetic and hydrodynamic theories, giving estimate of solar wind

02 p0359 A70-12609

Kinetic theory of cracks network formation on LiF crystal surface exposed to plasma jet using high speed camera

04 p0730 A70-14458

Kinetic theory of thermal conduction in collisionless Knudsen gas in arbitrary closed systems with various geometries, establishing similarity law [ASME PAPER 69-WA/HT-20]

04 p0783 A70-14814

Kinetic theory for calculating electron distribution function of weakly ionized plasmas in arbitrarily time dependent electromagnetic fields

05 p0886 A70-15800

Kinetic analysis of ion-molecule reactions in Ar-N mixtures with H, deuterium and HD using ion ejection mode of ion-cyclotron-resonance spectroscopy

06 p1108 A70-17332

Kinetic theory of longitudinal ionic oscillations pertaining to LF plasma oscillations monitored in Ariel 1 satellite wake due to ions trapped in potential trough

06 p1120 A70-17591

Kinetic theory of plasma waves in magnetic field, covering small amplitude waves in infinite homogeneous plasma, limiting cases, etc

06 p1121 A70-17902

Kinetic flow regime in hypersonic flow past flat plate leading edge, using Boltzmann equation [AIAA PAPER 70-181]

06 p0970 A70-18094

Kinetics of solar wind interaction with moon and planetary bodies using perturbation scheme to obtain ion density distribution on antisolar side [AIAA PAPER 70-61]

06 p1136 A70-18192

Kinetic theory applied to free flow in spherical geometry to study collisionless thermal escape of particles from planetary atmospheres

06 p1147 A70-18293

Statistical models in kinetic theory for describing gases ranging from gas with no internal degrees of freedom to multicomponent reacting mixtures

06 p1047 A70-18312

Spatial and temporal relaxation problems approximate solution in kinetic theory, making calculations for Maxwellian molecules and hard spheres

06 p1047 A70-18318

Unsteady nonlinear molecular flow problems concerning plane Couette flow, heat transfer between parallel plates and density discontinuity propagation solved by Monte Carlo method

06 p1113 A70-18321

Kinetic theory treatment of linearized Rayleigh problem using wall boundary condition models

06 p1049 A70-18329

Kinetic theory study of shock wave structure in rotationally relaxing diatomic gases

06 p1050 A70-18339

Kinetic model equation for shock structures in rotationally relaxing gas with internal degrees of freedom

06 p1050 A70-18340

Normal shock wave structure in binary gas mixtures of chemically inert monatomic molecules, using kinetic theory moment method

06 p1051 A70-18343

Kinetic theory of rarefied supersonic flow over finite plate, calculating molecular velocity distribution functions for flowfield

06 p0981 A70-18356

Thermal molecular flow kinetic theory, discussing anisotropic distribution function, thermal transpiration, thermal conduction, entropy production, etc

06 p1113 A70-18369

Superposition of dressed particles in plasma kinetic theory proved by using generalized stochastic equation for conditional probability density for one particle

06 p1124 A70-18500

Kinetic theory of laser emission on direct band-band semiconductor transitions

07 p1299 A70-19853

Kinetic theory equations for completely ionized plasma taking into account Diener method

08 p1550 A70-20615

Diener kinetic theory for charged particles in EM field with Coulomb interactions taking into account transverse plasma waves

08 p1550 A70-20616

Kramer problem in kinetic gas theory and gas dynamics applied to Boltzmann equation, discussing uniqueness theorem [ONERA-TP-776]

08 p1486 A70-21845

Soviet monograph on growth rate of coagulating and condensing aerosol particles, considering kinetic theory

09 p1713 A70-22205

Neutrinos kinetic theory for anisotropic cosmological models

09 p1753 A70-22453

Kinetic model for acid catalyzed Delrin decomposition, testing for Delrin-citric acid system and predicting thermograms with nonlinear regression analysis

09 p1630 A70-22896

Kinetic theory applied to model of interaction between two gas flows colliding at sharp leading edge at different hypersonic speeds

10 p1800 A70-24139

Transition regime of rarefied gas dynamics using kinetic theory of gases, discussing Couette and Poiseuille flow, heat transfer and time dependent problems

10 p1919 A70-24141

Dissipative parameters determination for relativistic gas within kinetic theory framework based on particle interaction model, assuming constant differential effective interaction cross section

10 p1867 A70-24148

Pulsed solid state laser power output stability in terms of kinetic theory noting laser action threshold role

10 p1899 A70-24254

Book on plasma dynamics covering charged particle orbit theory, macroscopic equations, hydromagnetics, hot and cold plasma waves, kinetic theory and plasma radiation

11 p2087 A70-25500

Kinetic theory for fatigue crack propagation using cyclic stress-strain relation in connection with strain hardening characteristics

12 p2322 A70-27208

Kinetic theory of gas composed of identical particles with discrete velocity distribution, using Chapman-Enskog method

12 p2213 A70-28211

Sheath structure of plasma diode using kinetic theory model of plasma-sheath transition

13 p2376 A70-28642

Kinetic theory of cracks network formation on LiF crystal surface exposed to plasma jet using high speed camera

13 p2510 A70-28655

Bipolar moment integral in celestial mechanics formed by product of particle kinetic moments for n body problem order reduction

13 p2494 A70-29399

Many body correlation and conditional probability functions of plasma shield clouds surrounding test particles

14 p2623 A70-31034

Kinetic gas theory mathematical models, analyzing system of N particles in cube

14 p2601 A70-31422

Soviet monograph on gas laws in aviation medicine for reduced oxygen pressure pathology, discussing kinetic theory, temperature effects, solubility, diffusion, etc

15 p2682 A70-31925

Kinetic theory of fatigue crack propagation, discussing stochastic nucleation process and power exponent relation

16 p2992 A70-33968

Generalized Lagrange kinetic potentials, discussing force systems with ideal holonomic constraints
16 p2944 A70-34292

Soviet book on rarefied gas dynamics involving methods and approaches for kinetic description of gas behavior, emphasizing Boltzmann equation
17 p3067 A70-34604

Rarefied gas dynamics at different Knudsen numbers, discussing elements of kinetic theory and analyzing free molecular and slip flows
17 p3070 A70-35037

Dilute gases kinetic theory, discussing microscopic explanation of macroscopic properties under intermolecular forces
17 p3072 A70-35533

Kinetic theory of moderately dense gases, obtaining generalized Boltzmann equation
17 p3072 A70-35534

Thermal diffusion of isotropic, nonisotropic and multicomponent mixtures with monatomic and polyatomic molecules, considering kinetic theory and experimental results
17 p3197 A70-35537

Tonks-Dattner resonances in warm inhomogeneous plasma column, examining kinetic theory for waveform shapes and resonance location
19 p3475 A70-37534

Relativistic kinetic theory of gases, considering phase space quantum statistics, Liouville equation, Boltzmann equation, conservation laws, kinematics, equilibrium distributions, etc
19 p3404 A70-37594

Intercomponent momentum and energy exchange in weakly ionized gases, examining kinetic theory of subsonic and supersonic transport processes
19 p3482 A70-38945

Soviet book on diffusion kinetics in stationary media covering membranes, combustion, flame propagation, hydrodynamics, exothermal reactions, thermodynamics, heat transfer, thermal explosion, insulation, etc
20 p3673 A70-39800

Nitrogen viscosity coefficient at high pressure, describing viscosimeter operation and kinetic theory calculations
20 p3738 A70-40140

Electromagnetic wave propagation in colloidal plasmas analyzed by kinetic approach, obtaining expressions for current density, DC and microwave conductivities, etc
20 p3685 A70-40502

Shock and expansion waves formation by moving piston based on kinetic theory of gases, solving Bhatnagar-Gross-Krook equation by numerical method
21 p3808 A70-41377

Book on electrical probes for plasma diagnostics covering kinetic theory, carrier distribution, current characteristics, plasma resonance, etc
21 p3829 A70-41790

Stochastic kinetic theory for plasma turbulent heating by random fields, predicting acceleration effects
21 p3859 A70-41899

Minimum entropy production in kinetic theory of rarefied gases described by Boltzmann equation
21 p3850 A70-41957

Wind temperature measurement, taking Bernoulli effect and kinetic theory into account
22 p4009 A70-42525

Convolution equation for kinetic theory of EM field excitation in plasma waveguides
23 p4223 A70-43772

Plasma kinetic theory, applying Boltzmann equation, Lorentz gas model and relaxation method
23 p4224 A70-44177

Plasmas kinetic theory, considering crossing from instability to stability, waves decay by collisional damping and emission by bremsstrahlung
23 p4224 A70-44178

Kinetic transport theory for mixed dilute gases consisting of linear rotating diamagnetic molecules in external homogeneous magnetic field
23 p4223 A70-44927

Diabatic steady gas flow vorticity, examining various kinematic and kinetic properties
24 p4328 A70-46365

NT NEWTON THEORY
NT REACTION KINETICS
NT VARIABLE MASS SYSTEMS

Kinetic processes in plasma subjected to randomly fluctuating electric field, obtaining chain of single particle distribution functions
07 p1349 A70-19553

Linear kinetic theory for condensation and evaporation at small Knudsen numbers, considering extrapolated temperature jump determination
07 p1422 A70-19656

Kinetic theory of laser emission on band impurity transitions, noting spatial homogeneity effect on laser mode
07 p1299 A70-19852

Mechanical system undergoing internal mass redistribution, showing energy dissipation during motion
08 p1545 A70-21203

Perturbed gyroscopic system consisting of disk hinged by rigid weightless rod, investigating stability condition at axial and equatorial inertia moments
08 p1496 A70-21210

Metallic materials homogeneous and nonhomogeneous corrosion kinetics based on superposition principle of independent partial electrode reactions
09 p1707 A70-23422

Excited gas kinetic state determination from observed spectral profiles during interaction with radiation
10 p1919 A70-24147

Kinetics for two free radical conversion processes in electron irradiated D, L-valine, measuring activation energies by electron spin spectroscopy
14 p2544 A70-30111

Growth kinetics of strengthening phase during aging of Ni-Cr-W-Mo-Al-Ti alloys, considering gamma prime particles at different Al/Ti ratios
14 p1594 A70-30169

Molecular Markov processes application to vibrational relaxation and dissociation, small system kinetics, nucleation and droplet growth, thermalization kinetics and diffusion processes
14 p2619 A70-30615

Kinetic processes in plasma subjected to randomly fluctuating electric field, obtaining chain of single particle distribution functions
15 p2777 A70-31460

Linear kinetic theory for condensation and evaporation at small Knudsen numbers, considering extrapolated temperature jump determination
15 p2828 A70-32693

Soviet papers on kinetics and aerodynamics of fuel combustion processes covering supersonic flow, flame stabilization, fluid atomization, nonequilibrium recombination, etc
20 p3736 A70-39265

Carbon monoxide-nitrogen system vibrational distribution of populations and kinetics in fundamental and harmonic regions, investigating vibroluminescence
21 p3837 A70-41718

KIRCHHOFF LAW
Kirchhoff kinematic analogy applied to solution of gyrostat motion, noting elastic rod deformation under torsion, using Kharlamov equations
01 p0094 A70-11441

KIRCHHOFF LAW OF RADIATION
Optically dense high temperature flame pyrometric diagnostics based on modified Kirchhoff formula
10 p1967 A70-24251

Kirchhoff law validity for freely radiating metallic surfaces, using emissometer to measure hemispherical emittance
16 p2999 A70-33903

KIRCHHOFF-HELMHOLTZ FLOW
U PIPE FLOW

KIRCHHOFF-HUYGENS PRINCIPLE
U DIFFRACTION
U WAVE PROPAGATION

KIRKENDALL EFFECT
Kirkendall effect in Fe-Ni and Fe-Co systems using measurement of radiotracer and intrinsic diffusion coefficients
07 p1314 A70-20015

KITE BALLOONS
U TETHERED BALLOONS

KITS
Civilian survival in emergency situations, discussing basic requirements, environments, vehicles and equipment for survival kits
23 p4153 A70-44495

KLYSTRONS
Frequency shift and FM noise of uncontrolled Gunn effect diode and reflex klystron oscillators
05 p0818 A70-15774

Wobulator measurement of Q factor of microwave resonator cavities using double modulated klystron signal
05 p0822 A70-16528

Optimal electron bunching in two cavity klystron by varying parameters and nonlinear one dimensional approximation
05 p0823 A70-16888

Convection currents calculation in multicavity klystron allowing for space charge forces influence
05 p0823 A70-16889

Klystron amplifier output circuit large signal frequency response, showing dependence on distance between cavities
06 p1021 A70-17672

Klystrons operation at millimeter band, using efficiently bunching drift fields for steady power output at critical wavelength
09 p1651 A70-23636

Millimeter band direct-transit klystrons oscillation and amplification at improved output power obtained by electron bunching in nonuniform drift fields
09 p1651 A70-23637

Electrode curvature effect in radial reflex klystron on processes in electron bunching region
09 p1651 A70-23640

Microwave tubes for high power transmission from space to ground and in deep space communications, discussing klystrons, TWT and crossed field amplifiers
11 p2016 A70-25456

Coupled microwave oscillators interaction, discussing klystron operation regenerative and non-monotonic frequency pulling modes
12 p2196 A70-27847

Radar spectrum control based on two pulse shaping techniques using klystron transmitter
12 p2188 A70-27941

Sum and difference frequency signals generated and propagated by mixing carbon dioxide laser and millimeter wave klystron outputs in GaAs loaded waveguide
12 p2250 A70-28098

Electrostatically focused klystron design, discussing gain, bandwidth, efficiency, noise and reliability
13 p2379 A70-29666

CW traveling wave tubes and klystrons LF output signal fluctuations
14 p2555 A70-30303

Millimeter and submillimeter waves applications, discussing klystron oscillators for spectral purity and coherence
14 p2548 A70-30427

Reflex klystrons operation, efficiency and electronic tuning range, discussing resonators, tuners, voltage and retarding field oscillators, etc
14 p2548 A70-30428

Coulomb force effect on electron beam spatial charge for optimal three resonator transit type klystron, regarding buncher length
15 p2707 A70-31507

Single gap klystron output resonator optimization, showing maximum electronic efficiency during bunched beam excitation
17 p3055 A70-35681

External SHF signal effects on multifrequency spectrum of reflex klystron coupled with long waveguide
17 p3055 A70-35682

Multifrequency oscillator system with reflex klystron loaded by waveguide line, confirming spectrum conversion under action of SHF signal
20 p3598 A70-40299

Polar microwave interferometer using single null path bridge and klystron repeller voltage modulation
22 p4048 A70-42323

Multifrequency autooscillatory systems, comparing reflex klystron with He-Ne laser
22 p3995 A70-42404

Automatic frequency control device for power klystron with two cavities, obtaining stabilization at natural frequency of crystal-containing cavity
22 p3998 A70-43236

Klystron microwave signal generator power stabilization using compact low consumption integrated circuits
23 p4170 A70-43797

Superheterodyne EPR spectrometer microwave bridge using single X band klystron
23 p4170 A70-43798

KNEE [ANATOMY]
Sinusoidal test for measuring knee moment increase required to flex and extend for various conditions of knee angle, angular velocity and steady knee moment
02 p0238 A70-12546

Knee joint walking mechanics, calculating forces transmitted by joint tissue
07 p1205 A70-19246

Muscle function mechanics across knee joint in walking, relating tension to length, velocity and energy absorption
19 p3368 A70-37810

KNOOP HARDNESS
Macroscopic internal stresses in plastics surfaces, discussing stress effect on plastic moulding service life, Knoop hardness test and charts
11 p2132 A70-25597

KNOWLEDGE
NT PARADOXES
NT PHILOSOPHY

KNUDSEN CELLS
U KNUDSEN GAGES

KNUDSEN FLOW
Volumetric flow rate of rare gases, hydrogen and deuterium between parallel plates at various pressures and Knudsen numbers
04 p0665 A70-14414

Kinetic theory of thermal conduction in collisionless Knudsen gas in arbitrary closed systems with various geometries, establishing similarity law
04 p0783 A70-14814

Boltzmann equation at arbitrary Knudsen numbers and kinetics of polyatomic molecule gases
06 p1047 A70-18310

Nonlinear Knudsen layer gas flow using BGK model for Boltzmann equation
06 p1048 A70-18322

Rarefied gas shear flow over infinite plane wall, using Boltzmann-Krook-Welander equation to determine compressibility effect on Knudsen layer
06 p1048 A70-18327

Linear kinetic theory for condensation and evaporation at small Knudsen numbers, considering extrapolated temperature jump determination
07 p1422 A70-19656

Macroscopic properties of thermal molecular flow between coaxial cylinders and concentric spheres, using transpiration theory in Knudsen gas
09 p1788 A70-22906

Near-free molecular flow through orifice measured for velocity distribution dependence on Knudsen number and angular position using time-of-flight technique
10 p1918 A70-23969

Boltzmann equation for Knudsen layer and outer region of weakly rarefied gas flow
15 p2777 A70-32131

Linear kinetic theory for condensation and evaporation at small Knudsen numbers, considering extrapolated temperature jump determination
15 p2828 A70-32693

Rarefied gas dynamics at different Knudsen numbers, discussing elements of kinetic theory and analyzing free molecular and slip flows
17 p3070 A70-35037

Kinetic effects of Barnett equations and slip conditions for continuous dense gas flows at small Knudsen numbers
18 p3239 A70-36256

Knudsen effusion in free molecular flows in supersonic jet during expansion through circular orifice, discussing power and heat transmission
18 p3346 A70-36379

Narrow capillary supermolecular flow density relation to vapor molecule specular reflection, considering Knudsen flow conditions
24 p4381 A70-45491

Plate temperature jump and heat flux in Knudsen layer using Bhatnagar-Gross-Krook model
24 p4429 A70-45997

KNUDSEN GAGES

Knudsen effusion cells high temperature uses, discussing binary alloys phase boundary determination and volume and surface diffusion studies
07 p1424 A70-19900

Isothermal reaction rate determination at given temperature from nonequilibrium data illustrated on Knudsen cell vaporizations
07 p1424 A70-19901

Vapor pressures and dissociation energy of yttrium dicarbide and tetracarbide over extended temperature, measured by Knudsen double focusing spectrometer
16 p2858 A70-34015

KNUDSEN NUMBER

U KNUDSEN FLOW

KOLMOGOROFF THEORY

Kolmogoroff constant determined by Heisenberg turbulence formula and model for transfer of turbulent energy between different wave numbers
06 p1034 A70-17467

Prandtl-Kolmogoroff model of turbulence with inclusion of second order terms for stress and velocity gradient not to vanish coincidentally
08 p1484 A70-21458

Differential Pulse Code Modulation (DPCM)/system with quantizer separating slope overload and granular noise, using Fokker-Planck-Kolmogorov equation
10 p1844 A70-25204

Universal constant measurement methods in Kolmogoroff third hypothesis for high Reynolds number turbulence in wind over open ocean
23 p4184 A70-44980

KRONECKER PRODUCT

U ORTHOGONALITY

KROOK EQUATION

Couette problem for Krook kinetic equation solution, considering shear stress variation at high plate velocities
04 p0672 A70-15228

Plane Couette flow and heat transfer problem numerical solution, using Krook kinetic equation and Maxwell boundary condition
06 p1048 A70-18326

Rarefied gas flow past sphere, using integral iteration method for Krook equation
07 p1187 A70-18675

Rarefied gas flow past sphere, using integral iteration method for Krook equation
15 p2671 A70-31467

Krook gas particle collision model for relaxation from nonequilibrium to equilibrium Boltzmann distribution in spatially uniform gases
17 p3068 A70-34697

Computerized evaluation of Krook kinetic relaxation equation approximating Boltzmann nonlinear integral equation for rarefied gas motion
21 p3851 A70-42201

KRYPTON

NT KRYPTON ISOTOPES

NT KRYPTON 85

Ar-Kr integral collision cross sections based on density measurements of Ar beam passed through liquid nitrogen cooled Kr filled scattering chamber
07 p1344 A70-20135

Specific heat, thermal pressure and molar volume of liquid krypton measured with adiabatic calorimeter, discussing thermal expansion coefficients
14 p2617 A70-31016

KRYPTON ISOTOPES

NT KRYPTON 85

Isotopic composition and contents of xenon and krypton in Pesyanoe meteorite suggesting presence of solar type gas component
04 p0754 A70-15274

Stone meteorites age determination from decay of cosmic ray produced Kr 81 and 78, comparing production rate to He 3 ages
08 p1563 A70-20499

KRYPTON 85

Surface adsorbed and absorbed radioactive Kr 85 gas for displaying surface microdefects in materials
20 p3638 A70-39950

KU BAND

U SUPERHIGH FREQUENCIES

L

L BAND

U ULTRAHIGH FREQUENCIES

L-1011 AIRCRAFT

Design and economic concepts of Lockheed L-1011 wide body trijets, discussing airport and airway congestion alleviation, passenger appeal, etc
04 p0623 A70-15044

Vehicle System Simulator (VSS) test program for L-1011 Tristar encompassing primary and secondary flight controls, avionics, hydraulics and landing gear systems
10 p1861 A70-24917

L-1011 aircraft payload, range, configuration, engine selection, design features, equipment systems, flight characteristics, internal arrangement, maintenance and performance
15 p2673 A70-31947

Boeing 747, L-1011 and DC-10 introduction costs, profits and terminal facilities
19 p3357 A70-38951

L-1011 onboard system for gross weight and center of gravity determination, describing transducers placement, computer design and display panel
20 p3562 A70-40359

L-1011 aircraft optimum minimum noise pod design, describing technology, restraints and system requirements
24 p4393 A70-45877

LABELING (MARKING)

U MARKING

LABORATORIES

NT ENGINE TESTING LABORATORIES

NT ENVIRONMENTAL LABORATORIES

NT LUNAR MOBILE LABORATORIES

NT LUNAR RECEIVING LABORATORY

NT MANNED ORBITAL LABORATORIES

NT MANNED ORBITAL RESEARCH LABORATORIES

NT SPACE LABORATORIES

R and D laboratories quality and performance evaluation techniques, describing Apstein-modified Pelz technique
06 p1185 A70-17603

Laboratory experiments applicability to interplanetary plasma physics, describing simulations of solar wind interactions, magnetosphere, collisionless shock waves, etc
17 p3164 A70-35123

LABORATORY EQUIPMENT

Student development and exercising of electron physics principles by designing, assembling, operating and studying electron and ion devices
01 p0093 A70-11291

Digital systems design laboratory as instructional tool and experimental model for education
02 p0275 A70-12190

Lidar and IR radiometer mobile laboratory for atmospheric optics research, including construction details and support equipment
03 p0463 A70-13677

Vacuum-type thermionic laboratory diode featuring variable electrode spacing, interchangeable electrodes and guard-ring structure
04 p0628 A70-15400

Automatic laboratory or field testing equipment design requirements
13 p2423 A70-29695

Time shared computer system providing real time service to multiple laboratory instrumentation, discussing high speed channel, computer control and data abstracting techniques
13 p2375 A70-29830

Computer merits in test laboratory data acquisition systems
19 p3383 A70-37921

LABYRINTH

NT COCHLEA

NT VESTIBULES

Medicopsychological and labyrinthine exploration of flight crew candidates aeronautical adaptation, using electronystagmographic method of swinging chair
17 p3041 A70-35918

Labyrinthine and sensory information role in driving, discussing car simulator, driver tests with impaired inputs, age factors, etc
22 p3976 A70-43708

LABYRINTHECTOMY

Quantitative characteristics of central compensatory process, investigating nystagmus responses in guinea pigs subjected to bilateral labyrinthectomy
06 p0995 A70-17806

LACTATES

Oxygen uptake increase following sodium L-lactate isomer infusion into anesthetized dogs
02 p0233 A70-11721

Lactate rise diminution in anesthetized paralyzed dogs subjected to hypoxia by gas mixtures before and after beta-adrenergic blockade
02 p0233 A70-11724

Lactate accumulation and anaerobic work threshold in subjects exercised on bicycle ergometer, considering muscle contraction effect on oxygen supply
03 p0431 A70-14293

Blood lactate changes during prolonged exhaustive running at varied intensities and durations
10 p1809 A70-24001

Serum lactate dehydrogenase (LDH) isoenzyme in males before and after muscular exertion, observing change in skeletal muscle and liver fraction
10 p1809 A70-24002

Hypoxia diagnosis based on excess lactate determination as indicator of oxidative metabolism changes
10 p1822 A70-25084

LACTIC ACID

Oxygen consumption, lactic acid production and mechanical performance of anesthetized dog gastrocnemius muscle with increased blood flow
02 p0235 A70-12090

LACTOSE

Chemostat culture method for studying control mechanisms during utilization of glucose/lactose and glucose/L-aspartic acid by populations of Escherichia coli
01 p0021 A70-10787

LAG (DELAY)

U TIME LAG

LAGRANGE COORDINATES

Lagrangian nonenergetic and unconstrained systems introduced in describing Birkhoff classical dynamics, considering space of motions states as connected analytic manifold
10 p1909 A70-24190

Transient flow of viscous incompressible fluids with free surfaces calculated using Lagrangian coordinates
12 p2210 A70-27425

Mechanical-stereomechanical analogy of two index Lagrange equations of second kind
17 p1330 A70-35192

Trojan asteroids in sun-Jupiter system, determining density near preceding Lagrangian point
17 p1371 A70-35445

Gravitational variable constant in celestial mechanics, considering theories based on vacuum Jordan Lagrangian
18 p3320 A70-37066

Plane galactic orbits near spiral field particle resonance, calculating numerically for ring orbits librating near maxima at Lagrangian points
18 p3331 A70-37193

Lagrange time scale of air turbulence from photographic measurements of smoke aerosol particle dispersion in horizontal direction across mean wind
19 p3460 A70-37416

Nonlinear Lagrangians in relativistic cosmology of open oscillating world model
24 p4404 A70-45409

LAGRANGE EQUATIONS OF MOTION

U EULER-LAGRANGE EQUATION

LAGRANGE MULTIPLIERS

Necessary and sufficient conditions for constrained extrema without use of Lagrange multipliers
07 p1325 A70-19335

Indirect methods of trajectory optimization, improving convergence through normalization of state data and Lagrange multipliers
07 p1326 A70-19726

Apportionment optimization of reliability and maintainability by Lagrange multipliers and dynamic programming, discussing maintainability cost model and computerized simulation
09 p1792 A70-22211

Sufficiency conditions and Lagrange multipliers in maxima and minima theory with results restricted to ordinary extremal points, considering constrained optimization
11 p2073 A70-26232

Conforming plate bending solution with third degree polynomial deflection functions in triangular finite elements, using Lagrange multipliers as stress parameters
11 p1243 A70-26642

Coordinate systems generation for optimal trajectories, considering Lagrange multiplier as motion constant 14 p2651 A70-31368

Linear systems with phase coordinates bounded by given time functions, obtaining optimal control by iterative solution involving Lagrange multipliers 23 p4177 A70-44302

LAGRANGE SIMILARITY HYPOTHESIS

Strain rate tensor coincidence in Lagrangian and Eulerian descriptions of turbulence demonstrated for homogeneous flow of incompressible fluid 07 p1252 A70-18672

Semi-Lagrangian formulation of Vlasov equation in two and three dimensional electrostatic problems, investigating tensor determinants and perturbation 08 p1553 A70-21614

Strain rate tensor coincidence in Lagrangian and Eulerian descriptions of turbulence demonstrated for homogeneous flow of incompressible fluid 15 p2718 A70-31464

Generalized Lagrange kinetic potentials, discussing force systems with ideal holonomic constraints 16 p2944 A70-34292

Vibration of combined cylindrical shells via Lagrangian minimization regarding unknown boundary values 21 p3934 A70-40897

Lagrange formulation for deriving energy-conserving numerical approximations for Vlasov plasmas 22 p4080 A70-42750

LAGUERRE FUNCTIONS

Cross coupling relations in Boltzmann equations solution for inhomogeneous plasmas, using spherical harmonics expansion and Laguerre-Sonine polynomials 13 p2464 A70-29539

LAKES

Lake Toba, Sumatra as possible tektite source region based on surrounding welded tuffs composition 21 p3923 A70-41996

LALLEMAND CAMERAS

Shifts method applicability to electronic camera for stellar magnitude photometry, studying instrument limitations and errors 14 p2589 A70-31379

LAMB WAVES

Lamb wave techniques using guided ultrasonic waves for solid cylindrical objects nondestructive testing 01 p0098 A70-10019

Lamb waves behavior applied to defect evaluation in nondestructive tests of solid elongated cylindrical objects 02 p0276 A70-12552

Plane Lamb problem in semiinfinite micropolar elastic body solved by transformation to one-dimensional wave propagation problem in elastic half space 05 p0925 A70-15785

Rayleigh and Lamb waves propagating on solid and hollow elastic cylinders immersed in water, noting correspondence to symmetric and antisymmetric vibrations in shell 05 p0938 A70-16410

LAMBERT LAW

U BOUGUER LAW

LAMBERT SURFACE

Lambert problem solution for moderate timespan arcs by approximation, offering concise formula without iteration 14 p2639 A70-30705

Horizontal Situation Display (HSD) map computer mechanization transforming earth location to X, Y coordinates for Lambert conformal projection [AIAA PAPER 69-987] 22 p4068 A70-42710

LAME FUNCTIONS

Elastic equilibrium of quasi-completely regular rectangular parallelepiped with rigidly clamped lateral faces, obtaining Lamé equations in double Fourier series 04 p0765 A70-14418

Finite difference theory applied to first boundary value problem of elasticity theory for Lamé equation 18 p3280 A70-36158

Spatial problem of elastic spherical transversal isotropic medium solved by reducing Lamé equations 22 p4118 A70-43481

LAME WAVE EQUATIONS

Forced longitudinal oscillations of cylinder with given surface displacements, using Lamé equations 22 p4118 A70-43571

LAMELLA

Lamellae stresses and magnetostriuctive effects on magnetic properties of titanomagnetite and ilmenomagnetite series minerals 15 p2728 A70-31993

Twinned lamella formation in Nb single crystals, examining slip and shear roles in surface tilt formation 15 p2761 A70-32382

Morphology of adult mammalian thoracic and abdominal aortic segments indicating deviation from medial lamellar architecture 24 p4298 A70-45801

LAMINA

U LAYERS

LAMINAR BOUNDARY LAYER

Laminar boundary layer analysis of heat and mass transfer in dispersed two phase flow over heated surface 01 p0214 A70-10293

Flow about blunt wedge with laminar boundary layer at stagnation point and approaching Falkner-Skan flow at infinity, discussing asymptotic behavior 01 p0061 A70-10540

Hypersonic dissociated laminar boundary layers with/without heat transfer calculated by integral method for case of thermodynamic equilibrium 01 p0003 A70-10933

Three dimensional instability of perturbed conducting fluid laminar boundary layer flow on concave walls in transverse magnetic field, analyzing various Hartmann numbers 01 p0152 A70-10934

Thermal conditions and graph-analytic solution of laminar boundary layer combustion of disk rotating in free atmosphere and plate in Couette flow 01 p0218 A70-11017

Diffusion coefficients for laminar multicomponent dissociating boundary layer at surfaces of thermally decomposing protective coatings 01 p0042 A70-11583

Parametric approximation method extended to incompressible laminar boundary layers with surface suction or injection 02 p0277 A70-11857

Laminar and turbulent boundary layer equations with or without wall injection over two dimensional or axisymmetric bodies solved by finite difference techniques 02 p0287 A70-12370

Transient heat transfer in forced convection flow over curved wall with zero Prandtl number, applying to laminar boundary layer with variable free stream velocity 02 p0400 A70-12857

Boundary layer transition from laminar to turbulent in hypersonic wind tunnel, determining Reynolds and Mach number effects [ONERA-TP-737D] 03 p0467 A70-13641

Pressure gradient calculation in three dimensional laminar boundary layer, using method of local similarity 03 p0468 A70-13869

Laminar boundary layer in incompressible liquid, noting effect of variation of kinematic viscosity and density on stability 03 p0468 A70-13870

Asymptotic solutions of paraboloidal boundary layer system for thermally driven convective flows governed by nonlinear Boussinesq equations 03 p0519 A70-14077

Similarity properties of laminar or turbulent boundary layer separation in uniform supersonic flow, discussing wall cooling, pressure evolution, etc 03 p0469 A70-14234

Free convective flows above flat horizontal plate demonstrating laminar boundary layer existence at intermediate Grashof numbers, using semifocusing color schlieren photography 04 p0780 A70-14456

Boundary layer equations for axial laminar and turbulent incompressible flows over slender bodies of revolution solved by finite difference method [ASME PAPER 69-WA/FE-2] 04 p0667 A70-14786

Integral relations and finite difference methods application to problems of boundary layer equations in gas dynamics 04 p0670 A70-14962

Boundary layer along flat plate at zero incidence with homogeneous suction using momentum and kinetic energy integral equations through boundary layer velocity profile 04 p0615 A70-15052

Fluid mechanical problems with pressure distribution determined by interaction between external supersonic inviscid flow and inner laminar viscous layer 04 p0674 A70-15529

Incompressible laminar Falkner-Skan boundary layer suffering sudden acceleration by moving belt, noting boundary layer separation [AIAA PAPER 69-40] 04 p0674 A70-15534

Asymptotic expansion method to analyze laminar boundary layers with zero wall shear, large suction and adverse pressure gradients 04 p0674 A70-15563

Hypersonic laminar separation of slip flow on slender cone with attached compression flares, using surface pressure measurements and Pitot surveys [DFVLR-SONDDR-26] 04 p0620 A70-15577

Heat and mass transfer in reacting laminar boundary layer over porous cylinder with propane injection in wind tunnel experiments 05 p0956 A70-16289

Laminar flow stability along flexible boundary on basis of Orr-Sommerfeld equation 05 p0836 A70-16923

Two dimensional laminar and turbulent boundary layer flow theory covering heat and mass transfer, compressibility, turbulence, roughness, chemical reactions and axial symmetry 06 p1032 A70-17227

Numerical integration of equations of motion of three dimensional laminar compressible boundary layers [DVL-915] 06 p1033 A70-17229

Laminar sublayer resistance to momentum and heat transfer, noting effects of Prandtl number and surface roughness using mathematical model and experiments 06 p1034 A70-17680

Laminar natural convection boundary layer stability over vertical uniform flux surface, measuring disturbance temperature and velocity distributions 06 p1035 A70-17686

Unheated solid starting length effect on skin friction and heat transfer characteristics in incompressible transpired laminar boundary layer on flat plate 06 p1035 A70-17691

Heat and mass transfer across laminar boundary layer around stagnation line of cylinder in crossflow affected by free stream turbulence intensity 06 p1176 A70-17693

Laminar ablation testing under turbulent boundary layer heating conditions, obtaining recession rate and heat of ablation for turbulent ablation of Teflon [AIAA PAPER 70-226] 06 p1179 A70-18071

Integral moment method for interactions between laminar boundary layer and external supersonic flow applied to hypersonic laminar boundary layer near sharp expansion corner [AIAA PAPER 70-186] 06 p1039 A70-18111

Rotation and forward flight effects on separation line of laminar incompressible boundary layer along helicopter blade of airfoil shape [AIAA PAPER 70-49] 06 p0973 A70-18151

Laminar viscous flow on rotating propeller and helicopter rotor blades, studying crossflow and unsteady boundary layer effects, separation, transition, etc [AIAA PAPER 70-50] 06 p0974 A70-18161

Laminar boundary layer on cone at incidence in supersonic flow evaluated by pressure distribution technique, comparing heat transfer, pitot probe measurements, etc [AIAA PAPER 70-48] 06 p0974 A70-18189

Laminar boundary layer in hypersonic flow calculated by integral method, including effects of entropy gradient and induced pressure gradient [ONERA-TP-784] 06 p0984 A70-18468

Laminar boundary layer development on cylindrical body set in motion from state of rest, determining time for boundary layer separation occurrence 07 p1253 A70-18771

Heat transfer on supersonic sweptback wing for case of laminar boundary layer with vortex distribution 07 p1187 A70-18921

Unsteady laminar boundary layers calculation for arbitrary velocity distributions at inner boundary in presence of suction/blowing through porous surface 07 p1254 A70-19080

Nonsimilar laminar boundary layer solutions with negative pressure gradient compared to experimental boundary layer velocity profiles, momentum and displacement thicknesses [AIAA PAPER 69-35] 07 p1256 A70-19312

Laminar boundary layer critical height determination using Rouse stability parameter 07 p1257 A70-19336

Heat exchange in laminar and turbulent boundary layers on plate for arbitrary heat flux distribution allowing for initial unheated plate segment 07 p1423 A70-19657

Integrodifferential equation derived for energy balance in laminar boundary layer of fluid flow, taking into account viscous energy dissipation, radiative energy transfer, etc 07 p1423 A70-19813

Laminar boundary layer equations solution by approximation compared with results from finite difference method 08 p1483 A70-21033

Incompressible laminar boundary layer stability of incompressible fluid for nonparallel oncoming flow, deriving perturbed motion equation 08 p1483 A70-21179

Laminarization parameter magnitude determination for turbulent boundary layer in convergent channel flow 08 p1484 A70-21518

Heat transfer in axially symmetric laminar viscous boundary layer flow due to rotating bodies of revolution, obtaining temperature distribution 08 p1485 A70-21698

Blasius flow stability on deformable surface of membrane using Orr-Sommerfeld equation to calculate amplitude of function for perturbation flow 09 p1658 A70-22182

Heat and mass transfer coefficients in binary laminar boundary layer convection obtained with integral equations and Karman-Pohlhausen method 09 p1787 A70-22264

Thermal conditions and graph-analytic solution of laminar boundary layer combustion of disk rotating in free atmosphere and plate in a Couette flow

09 p1787 A70-22266

Steady laminar gas flow on duct wall boundary layer considering external swirling flow and wall heat transfer

09 p1659 A70-22428

Acoustic pressure sensors positioning on bodies of revolution to determine laminar boundary layer stability loss during ideal liquid flow at nonzero angles of attack

09 p1660 A70-22479

Laminar separation bubble in incompressible flow produced on flat plate by pressure gradients, correlating bursting with Reynolds number and pressure distribution

09 p1660 A70-22770

Laminar boundary layer in adverse pressure gradient calculated for momentum thickness from approximate equation, analyzing error

09 p1660 A70-22832

Stability theory application to laminar boundary layer transition prediction on two dimensional and axisymmetric flows having pressure distributions in incompressible flow

[AIAA PAPER 69-10] 09 p1662 A70-23219

Laminar boundary layer separation noting effect of mass slot suction

09 p1662 A70-23236

Laminar boundary layers behavior in shock tube flows behind primary moving shock wave using perturbation method

09 p1662 A70-23281

Hypersonic laminar boundary layer in strong viscous interaction region on wedge, determining velocity and enthalpy profiles, displacement thickness and induced pressure distributions, etc

09 p1606 A70-23294

Magnetic field effect on free convection in laminar boundary layer formed by laminar flow of viscous conducting fluid along vertical wall

09 p1737 A70-23308

Laminar boundary layer parameters on porous surface in presence of pressure gradient obtained for inner / wall/ and outer regions

09 p1664 A70-23712

Laminar-turbulent boundary layer transition in incompressible fluid under surface roughness action, developing theory by generalizing Taylor hypothesis

09 p1664 A70-23713

Flat plate laminar boundary layer blowoff due to wall injection analyzed by parameter matched asymptotic expansion

10 p1862 A70-23844

Laminar boundary layer with blowing through wedge surface, solving linearized motion equation analytically

10 p1862 A70-23868

Vorticity distribution influence on inviscid laminar jet boundary layer instability investigated for large Reynolds numbers, using shear flow and linearized theory

[DFVLR-SONDDR-14] 10 p1868 A70-24163

Laminar boundary layer flow of incompressible fluid in wake of symmetrical disturbance, deriving higher order approximations and introducing Euler transformation

10 p1802 A70-24420

Unsteady compressible laminar boundary layer flow around flat plate influenced by compressibility as function of Mach number

[ONERA-TP-803] 10 p1869 A70-24543

Laminar boundary layer in symmetry plane of cone of revolution at angle of attack calculated by finite difference method

10 p1802 A70-24706

Laminar boundary layer characteristics in axisymmetric hypersonic nozzle calculated by finite difference method

10 p1804 A70-25187

Nonuniform partitioning of flowfield in three dimensional laminar boundary layer in supersonic conical flow at zero angle of attack, using numerical integration

10 p1804 A70-25192

Monograph on stability of laminar boundary layer separation at free jets and turbulent free jet flames, considering effects of velocity gradients and temperature

11 p2146 A70-25499

Axisymmetric or two dimensional incompressible laminar boundary layer flow field numerical analysis using quasi-linearization and Chebyshev series

11 p2072 A70-25965

Laminar boundary layer behind normal shock wave with vaporization and combustion, obtaining profiles on analog computer

11 p2148 A70-25967

Laminar boundary layer flow with exponential velocity distribution in outer flow described by differential equations, studying slip velocity at wall

11 p2037 A70-26350

Laminar boundary layer equations solved for mass and energy transfer in binary gas mixture, investigating forced and free convection

11 p2151 A70-26558

Simultaneous heat and mass transfer coefficients in laminar free convection boundary layers on horizontal cylinders or vertical axisymmetric bodies

11 p2151 A70-26559

Laminar boundary layer transition to quasi-cellular flow in natural convection above horizontal heated plates and disks

12 p2155 A70-27197

Newtonian fluid laminar boundary layer flow over flat plate with nonNewtonian fluid injection

12 p2209 A70-27212

Laminar boundary layer and heat flux at forward stagnation point of indestructible body in partially ionized air flow calculated as function of enthalpy

12 p2156 A70-27287

Radiation profiles in ablating flat plate air-Teflon laminar boundary layer, discussing visible, UV and IR wavelengths

12 p2211 A70-27803

Interaction of laminar hypersonic boundary layer and supersonic corner expansion wave, discussing upstream influence, transverse pressure gradients and external flow

[AIAA PAPER 69-137] 12 p2211 A70-27826

Similar laminar boundary layer solutions exhibiting separation, pressure gradient and mass transfer

12 p2211 A70-27828

Subsonic, transonic and supersonic laminar boundary layers acceleration and cooling effects, discussing heat transfer and gas enthalpy

12 p2211 A70-27830

Three dimensional laminar boundary layer equations for body of revolution at angle of attack in supersonic gas flow derived for equations

12 p2158 A70-28198

Incompressible two dimensional and axisymmetric oscillating laminar boundary layer flows approximated by momentum integral equation, discussing flow along flat plate

12 p2158 A70-28205

Laminar multicomponent boundary layer for large injection and heat transfer, with particular reference to vehicle entry into planetary atmosphere

12 p2159 A70-28234

Laminar boundary layers in low density supersonic and hypersonic conical and axisymmetric nozzles, treating displacement, transverse curvature, velocity slip and temperature jump

[AIAA PAPER 69-653] 13 p2386 A70-28513

Flow equations for curvilinear boundary layer based on laminar incompressible boundary layer in streamwise corner

13 p2386 A70-28541

Laminar MHD boundary layer equations at nonconducting surface, determining flow core parameters influence on boundary characteristics

13 p2462 A70-28967

Spatial distribution of three dimensional laminar boundary layer transition zone on sharp half angle cone from hypersonic wind tunnel tests

[AIAA PAPER 69-12] 13 p2343 A70-29953

Planview shadowgraph method for observing disturbances generated by spark discharges into laminar boundary layer

13 p2385 A70-29982

Unsteady incompressible laminar boundary layer equations solution after Crocco transformation by implicit finite difference scheme for flow around blunt body

14 p2528 A70-30290

Flow velocity distributions in laminar boundary layer by perturbation methods

14 p2566 A70-30850

Two dimensional incompressible laminar boundary layers asymptotic structure with injection, obtaining velocity profiles

14 p2566 A70-30995

Prandtl number effects on adiabatic wall temperature and pressure gradient at separation point for hypersonic compressible laminar boundary layer

14 p2566 A70-31027

Laminar boundary conditions for heat transfer in gradient flow region for plane turbulent jet impingement on plate normal to flow

15 p2721 A70-32134

Boundary layer equations for laminar flow, drag and heat transfer of gas in circular tube, considering parabolic and uniform entrance velocity profiles

15 p2722 A70-32692

Heat exchange in laminar and turbulent boundary layers on plate for arbitrary heat flux distribution taking into account initial unheated plate segment

15 p2828 A70-32694

Laminar compressible boundary layer similar solutions for axisymmetric blunt body, considering viscosity and density variations

16 p2833 A70-33123

Laminar boundary layer model for viscous losses during transient turbulent liquid flow in tube, assuming slug flow for core

[ASME PAPER 70-FE-8] 16 p2891 A70-33627

Laminar and turbulent boundary layer equations solutions for incompressible/compressible flows about two dimensional and axisymmetric bodies, using finite difference method

[ASME PAPER 70-FE-A] 16 p2892 A70-33641

Laminar compressible flat plate boundary layer dependence on Prandtl number and viscosity-temperature relations

16 p2893 A70-33673

Nonreacting and chemically reacting laminar flows, calculating equilibrium, nonequilibrium and ideal gas laminar boundary and viscous shock layers over hypoboloid

[AIAA PAPER 70-808] 17 p3005 A70-34456

Laminar hypersonic boundary layer interaction with corner expansion wave, presenting numerical solutions to viscous-inviscid equations for small turning angles

[AIAA PAPER 70-807] 17 p3065 A70-34457

Laminar boundary layer transition on sharp cone at zero yaw in supersonic wind tunnels, correlating aerodynamic noise disturbances with transition Reynolds numbers

[AIAA PAPER 70-799] 17 p3006 A70-34462

Fluctuation measurements at wall and across laminar, transitional and turbulent compressible boundary layers on flat plate, using hot film probes

[AIAA PAPER 70-745] 17 p3066 A70-34498

Unsteady laminar boundary layers on infinite porous plate, considering radiative heat transfer and transpiration cooling

17 p3067 A70-34632

Numerical solutions for velocity and concentration profiles to nonsimilar isothermal diffusion laminar boundary layer equations for uniform injection of foreign gas

17 p3069 A70-34824

Incompressible laminar boundary layer, determining thermal conductivity gradient effect on temperature profiles

17 p3070 A70-35045

Incompressible laminar boundary layer along rectangular corner, obtaining similar solutions for velocity distribution

17 p3070 A70-35239

Heat exchange in dissociating partly ionized gas flow over critical point on permeable surface with injection into laminar boundary layer

17 p3011 A70-35347

Laminar free convection boundary layer on vertical heated plate near discontinuity in plate temperature, discussing velocity field

17 p3198 A70-35593

Incompressible laminar boundary layer, vortex and axisymmetric wake/jet flow parabolic equations solution by weighted residuals method, describing use of exponentials

17 p3074 A70-35883

Incompressible laminar boundary layer equations approximate solution by Galerkin-Kantorovich technique

18 p2338 A70-35972

Subsonic and supersonic laminar boundary layers separation near sharp corners, considering curvature and Reynolds number effects

18 p3208 A70-36486

Heat transfer at flat melting surface under forced convection and laminar boundary layer solved by Karman-Pohlhausen method

18 p3347 A70-36502

Heat transfer in plasma flow incident normally on cylinder, examining laminar boundary layers in presence of turbulence

19 p3552 A70-38187

Velocity distribution in boundary layer on thin rotating turbine blade of impeller driven at wind tunnel outlet, solving turbulent and laminar flows momentum equations

19 p3352 A70-38224

Boundary layer oscillatory flow interaction with nonuniformly rotating lamina, calculating velocity distribution and transitional frequencies

19 p3406 A70-38443

Plane symmetrical and axisymmetrical laminar and turbulent free jets, interpreting statistical character of boundary layer profiles

19 p3407 A70-38684

Integrodifferential equation derived for energy balance in laminar boundary layer of fluid flow, taking into account viscous energy dissipation, radiative energy transfer, etc

20 p3736 A70-39261

Divergent channel with porous walls, calculating effect of suction on laminar incompressible boundary layer by Runge-Kutta method

20 p3609 A70-39671

Laminar boundary layer equations on plate with arbitrary catalytic properties in diatomic gas flow undergoing vibrational dissociative relaxation

20 p3611 A70-39802

Laminar boundary layer multidimensional universal equations solution for incompressible liquid using method of characteristics

20 p3611 A70-39804

High velocity gas motion in laminar boundary layer, describing universal motion equations two parameter solution

20 p3611 A70-39805

Compressible viscous fluid steady plane flow in laminar boundary layer on impermeable isothermic surface, describing parametric method of integrating flow equations

20 p3611 A70-39806

Laminar thermal boundary layer at atmospheric pressure adjacent to cooled wall, measuring electron temperature and number density

20 p3737 A70-39990

Laminar viscous effects over blunt cones at hypersonic conditions, taking into account first and second order boundary layer theories

20 p3559 A70-40285

Unsteady incompressible flow in laminar boundary layer with homogeneous suction during longitudinal flow past flat plates, investigating boundary layer stability

20 p3614 A70-40391

Nonstationary compressible laminar boundary layer solutions by parameter-invariant method, obtaining velocity and temperature profiles by partial differential equations numerical integration

21 p3806 A70-40555

Flat plate compressible laminar boundary layer flow with variable fluid properties, using series solution by splitting up flow variables into sets of universal functions

21 p3806 A70-40825

Accelerated self similar compressible laminar boundary layer flows with and without mass transfer, obtaining numerical solutions

21 p3807 A70-41031

Two dimensional compressible laminar MHD boundary layer flow across flat plate with heat transfer, considering continuity, momentum and energy equations

21 p3856 A70-41039

Upstream mass injection effects on downstream heat transfer of supersonic reacting boundary layer

21 p3952 A70-42079

Incompressible laminar boundary layers thermal response behavior in wedge flow, obtaining surface response, temperature fields, heat flux and steady state data

21 p3811 A70-42164

Three dimensional laminar boundary layer equations for film condensation on curved surface in quiescent vapor, investigating flow at stagnation point

21 p3954 A70-42168

Three dimensional laminar and turbulent boundary layers separation criteria

21 p3811 A70-42206

Laminar axisymmetric incompressible boundary layer calculation based on Mangler transformation [ASME PAPER 70-FLCS-13]

22 p4008 A70-42414

Time-mean velocity and skin friction of laminar boundary layer near two dimensional stagnation point with oscillating oncoming flow

22 p4010 A70-42686

Hypersonic viscous interaction between laminar boundary layer growing over flat plate and external flow field extended to curved surfaces

22 p3958 A70-42688

Three dimensional laminar boundary layer equations for body of revolution at angle of attack in supersonic gas flow derived for equations

22 p3960 A70-43323

Laminar to turbulent boundary layer flow transition over flat plate, using space amplified numerical solutions of Orr-Sommerfeld equation

23 p4181 A70-44234

Three dimensional hypersonic laminar boundary layer subdivided into inner and outer regions, obtaining flow description by matching inner and outer solutions

[AIAA PAPER 69-710]

23 p4182 A70-44565

Laminar boundary layer wall shear and velocity profiles by N parameter integral method, using exponentials

23 p4182 A70-44567

Three dimensional laminar boundary layer separation at infinite swept stagnation line with high mass injection rates

23 p4182 A70-44568

Cracked Teflon heat shields ablative behavior for laminar and turbulent boundary layers in supersonic flow, describing heat transfer to substructure

23 p4282 A70-44585

Gas coolant slot injection into hypersonic laminar boundary layer, comparing experimental results to boundary layer equations numerical integration

23 p4282 A70-44694

Laminar boundary layer on uniformly rotating sphere studied by momentum integral method, imposing zero vorticity condition

23 p4184 A70-44981

Three dimensional laminar boundary layer in unsteady incompressible flow, presenting solution by successive approximations method

24 p4325 A70-45594

Unsteady separation criteria for three dimensional laminar boundary layer on finite obstacle

24 p4327 A70-46268

Radiation effect on enthalpy and velocity distributions of laminar compressible planar free jet

01 p0061 A70-10295

Existence theorem used for proof of asymptotic methods in nonlinear stability of laminar flow [ONERA-TP-750]

01 p0061 A70-10298

Inertia forces effect in turbulent and laminar, self acting and infinitely long film bearings, considering compressible and incompressible lubricants

[ASME PAPER 69-LUB-2]

01 p0103 A70-10400

Flow stability criteria in rough pipes, deriving laminar to turbulent flow transition characteristics and drag as function of Reynolds number

01 p0064 A70-10998

Petrov proof of plane Couette and Poiseuille flow stability with respect to infinitesimal disturbances, rejecting validity of proof

01 p0064 A70-11071

Two dimensional plane and axisymmetric free streamline flow problems solved by finite difference methods for supercavitating wedge in potential flows

01 p0065 A70-11127

Unsteady incompressible laminar flow under time dependent body force solved for rectangular and circular conduit and plane and cylindrical Couette flows

01 p0066 A70-11130

Pressure gradient required for self preserving of turbulent jets and wakes with small mean velocity variations compared with free stream velocity

02 p0223 A70-11860

Nonlinear waves in parallel shear flows, discussing laminar flow breakdown due to free stream disturbances

02 p0277 A70-11876

Laminar diffusion flame spread against air stream over solid or liquid fuel bed, noting influence of stoichiometric and thermal properties and data inconsistency

02 p0396 A70-12016

Radiative, conductive and convective combined heat transfer mechanism in nonisothermal atomic hydrogen plasma laminar flow

02 p0400 A70-12660

Laminar isothermal entrance flows in circular cross section ducts with uniform mass injection at wall from boundary layer equations, discussing molecular weight effects

02 p0288 A70-12859

Monograph on laminar flow heat transfer in thermal entrance region of flat and profiled ducts, treating construction and efficiency of plate heat exchangers

03 p0603 A70-12988

Boundary layer approximation for natural convection in flat vertical symmetrically heated channel with stabilized laminar flow for local and mean Nusselt numbers

03 p0605 A70-13395

Laminar-turbulent transition in free axisymmetric viscous incompressible jet from shaped nozzle and long cylindrical tube

03 p0466 A70-13396

Heat transfer under conditions of forced convection from flat plate in laminar flow, considering plate surface temperature arbitrary variation in time

03 p0605 A70-13518

Viscous incompressible laminar two dimensional flows using Navier-Stokes equations, emphasizing near wake and flow around leading edge

[ONERA-TP-757]

03 p0467 A70-13640

Laminar capillary jet of viscoelastic fluid, discussing breakup, nonNewtonian jet stability and elastic properties

03 p0468 A70-13782

Equilibrium model of laminar arc constrictor plasma generator, correlating heat transfer, wall shear stress, friction factor and development length

03 p0533 A70-13952

MHD laminar flow between parallel porous disks for large suction Reynolds number, solving equations of motion with singular perturbation technique

03 p0469 A70-14181

Flow characteristics of compressible fluid in compressor or turbine stage, determining radial distribution of downstream Mach number

03 p0410 A70-14271

Viscous compressible heat conducting laminar perfect gas flow in slender axisymmetric channels with adiabatic walls, using equations of motion

03 p0471 A70-14383

Conducting fluid laminar flow between parallel planes in traveling magnetic field, integrating Maxwell and Navier-Stokes equations

04 p0726 A70-14542

Laminar flow separation, reattachment and transition over downstream step, including visual observations of smoke filaments, velocity fluctuation measurements and velocity profiles

[ASME PAPER 69-WA/FE-5]

04 p0667 A70-14784

Finite difference theory applied to numerical analysis of laminar equilibrium MHD flow in circular tube

[ASME PAPER 69-WA/HT-55]

04 p0727 A70-14794

Instability of viscous laminar plane jet of incompressible fluid, finding minimum critical Reynolds number for various assumptions of parallelism

04 p0670 A70-14990

Laminar and turbulent flows of compressible media in rotating pipes, analyzing velocity distribution, angular velocity and Coriolis effects using Abel equation

04 p0672 A70-15159

Wake behind axisymmetric bluff body in steady laminar flow, noting role of Reynolds number

04 p0619 A70-15392

Supersonic wake flow visualization, obtaining direct photographs of various smoke streamlines [AIAA PAPER 69-346]

04 p0621 A70-15595

Unsteady flow equations for periodic axisymmetric laminar flow of second order fluids in circular cylindrical pipes

05 p0831 A70-15871

Plane Poiseuille flow stability as function of periodic disturbances of finite amplitude in channel axis direction

05 p0832 A70-16018

Periodic perturbations of plane Poiseuille flow, observing neutral curve relationship to disturbance amplitude

05 p0832 A70-16019

Unsteady laminar free convection caused by heating semiinfinite flat vertical plate, obtaining velocity and temperature distributions

05 p0957 A70-16370

Laminar flow in circular pipe with arbitrary axial variation of wall temperature or heat flux, using integral type approximation

05 p0957 A70-16519

Laminar flow stability along flexible boundary on basis of Orr-Sommerfeld equation

05 p0836 A70-16923

Unsteady laminar gas flow near infinite flat plate using Laplace transforms, obtaining closed form solutions for plate velocity and temperature

05 p0836 A70-17106

Steady laminar flow with frictionless central core surrounded by boundary layer in circular curved pipe, discussing friction factor and flowmeter discharge coefficient

05 p0836 A70-17107

Buoyancy effects in laminar forced convection on vertical flat plate, obtaining heat transfer coefficient

06 p1172 A70-17141

Viscoelastic fluid flow through circular tube under time dependent pressure gradient superposed on steady Poiseuille flow

06 p1032 A70-17200

Suddenly started laminar flow in circular tube entrance region, obtaining integral momentum equation for boundary layer thickness, entrance length, velocity profile, etc

06 p1034 A70-17528

Skin friction and heat transfer on flat plate in high velocity laminar motion with mass transfer for any free stream and injected gas combination

06 p1176 A70-17689

Unbranched chain reaction in hydrogen bromide for studying laminar one dimensional flame propagation, determining temperature dependence, velocity and concentrations at fixed time

06 p1177 A70-17797

Laminar steady radial flow of simple fluid of short memory between two parallel disks, demonstrating relation to Newtonian fluid

06 p1037 A70-17915

Laminar flow mixing stability and diffusion flame flow field measurements revealing role of Tollmien-Schlichting waves in enclosed flames vibrations [WSCI PAPER 69-46]

06 p1179 A70-17985

Finite difference solution of time dependent Navier-Stokes equations for two and three dimensional laminar incompressible flow, discussing results for flat plates

[AIAA PAPER 70-46]

06 p1041 A70-18170

Axisymmetric motion of viscous heat conducting gas by constructing indirect analog of Poiseuille gas flow, applying results to slip flow regime

06 p1048 A70-18325

Model for predicting laminar-turbulent transition point in hypersonic wake of two dimensional laminar viscous flow

06 p0985 A70-18499

Plastic lubricants motion in circular pipes, determining drag and cross sectional velocity profile of laminar flows

07 p1290 A70-18652

Nusselt theory of laminar liquid films movement on vertical smooth solid surface, attributing thickness variation to gas movement and surface active agents in liquid

07 p1251 A70-18656

Approximate solution for heat transfer in incompressible fluid laminar flow in circular tube

07 p1253 A70-19060

Laminar flow of compressible gas in axisymmetrical channel in absence of wall insulation using velocity profiles, heat transfer, etc

07 p1253 A70-19062

Heat transfer in Ni wires in laminar air flow from wind tunnel investigation

07 p1420 A70-19064

Viscous fluid flow calculations in fine clearance eccentric annuli allowing for pressure losses in laminar or turbulent flows

07 p1293 A70-19120

Trailing edge region of flat plate in laminar incompressible flow examined for high Reynolds numbers limit using Navier-Stokes reduced equations

07 p1255 A70-19213

Laminar flow forced convection heat transfer in circular pipe entrance region for constant wall temperature and constant wall heat flux

07 p1420 A70-19215

Unsteady boundary layer in compressible fluid laminar flow over accelerating semiinfinite flat plate

07 p1258 A70-19566

Temperature fields and hydrodynamics in laminar flow of vertical liquid layers during free convection

07 p1422 A70-19655

Body surface curvature effect on surrounding laminar flow field, investigating oblate spheroids of various thicknesses

07 p1259 A70-19977

Large axisymmetric disturbances generated in laminar pipe flow by sleeve oscillating at wall, measuring flow with laser-Doppler velocimeter

07 p1286 A70-19995

Turbulent-laminar transition in divergent radial flow between disks, relating velocity fluctuations to Reynolds number

08 p1483 A70-21235

Laminar radial flow between parallel disks, estimating static wall pressure distribution perturbation caused by characteristic time

08 p1484 A70-21237

Suction effect on thin film laminar flow past vertical wall, obtaining approximate solution for small porosity in accelerated region

08 p1484 A70-21309

Very small diameter laminar flow orifice coefficient calculation as function of Reynolds number

08 p1484 A70-21321

Symmetrical laminar distorted velocity profiles between flat parallel plates, analyzing decay using integral method

08 p1433 A70-21325

Thermal boundary layer thickness and Nusselt number approximations for heat transfer in laminar flow along flat plate with power law heat flux distribution

08 p1599 A70-21583

Single fluid theory for plasma laminar flow in field-free region of circular tube, obtaining friction factor and Nusselt number correlations

08 p1552 A70-21585

Unsteady free convection laminar power-law fluid flow past porous vertical wall, studying similarity solution dependence on wall temperature and suction

08 p1486 A70-21765

Laminar-turbulent regions boundary, discussing convective layer form and FM-CW microwave and acoustic radar measurement techniques

09 p1717 A70-22378

Poiseuille and Couette fluid flow with internal rotation in flat channel

09 p1660 A70-22436

Two dimensional Poiseuille flow stability at deformable walls, assuming pressure proportionality to displacement and rate

09 p1660 A70-22533

Sphere motion in laminar flow, postulating absolute velocity as resultant of entrainment and fall velocities and stable position in tube with ascending flow

09 p1663 A70-23309

Plane Poiseuille flow with nonlinear temperature distribution, studying vortex type secondary flow onset due to buoyant forces

[ASME PAPER 69-HT-37]

09 p1790 A70-23555

Boundary layer equations with heat transfer for laminar and turbulent incompressible flows about two dimensional and axisymmetric flows, using finite difference method

[ASME PAPER 69-HT-7]

09 p1663 A70-23560

Laminar viscous flow past semiinfinite flat plate parallel to uniform stream, solving Navier-Stokes equation to determine local skin friction coefficient

09 p1663 A70-23581

Streamwise perturbations in flow downstream of self excited blades cascade calculated by two dimensional theory, discussing periodic circulation shedding

09 p1608 A70-23746

Streamline curvature technique for two dimensional flow equations, deriving optimal damping factor for quasi-orthogonal method to test stability, convergence and accuracy

09 p1609 A70-23749

Nonlinear stability problem posed by Navier-Stokes equations in case of laminar flows stability using semigroups theory

[ONERA-TP-775]

10 p1863 A70-24094

Plane steady flows characteristics of incompressible viscous fluids in rigid walled rectangular channels found asymptotic to Poiseuille and Couette flows

10 p1866 A70-24112

Skin friction near flat plate trailing edge at high Reynolds number by linearizing velocity profile

10 p1801 A70-24159

Steady two dimensional cavity flow past sharp-edged airfoil and blunt nosed obstacle, using linearization hypothesis

10 p1801 A70-24193

Molecular, viscomolecular and laminar gas flows in tubes and porous bodies at low pressures

10 p1869 A70-24287

Navier-Stokes solution to laminar flow past semiinfinite flat plate valid for any Reynolds number, discussing skin friction, displacement thickness, etc

10 p1869 A70-24415

Closed streamline low Mach number compressible fluid flow without temperature restrictions, noting incompressible flow behavior

10 p1869 A70-24547

Laminar flow into channel with symmetrical jets along walls, considering velocity profiles and flow establishment lengths

10 p1870 A70-24790

Viscous compressible fluid steady laminar flow between coaxial cylinders, studying flow characteristics for uniform inner cylinder velocity

10 p1870 A70-24792

Two fluid hydrodynamic model of heat conductivity and viscosity effects on drift laminar flow stability of dense inhomogeneous plasma

10 p1926 A70-25125

Approximate solution for heat transfer in incompressible fluid laminar flow in circular tube

10 p1871 A70-25211

Laminar flow of compressible gas in axisymmetrical channel in absence of wall insulation using velocity profiles, heat transfer, etc

10 p1871 A70-25213

Heat transfer in Ni wires in laminar air flow from wind tunnel investigation

10 p1970 A70-25215

Ultraclean technology to eliminate pollution traces present in laboratories, discussing turbulent flow and horizontal and vertical laminar flow rooms

10 p1828 A70-25240

Numerical techniques and solutions for compressible and incompressible laminar separated flows using time dependent finite difference equations

[AIAA PAPER 68-741]

11 p2035 A70-25972

Newtonian fluid laminar throughflow between coaxial rotating cones, applying solution for flow between disks

11 p2038 A70-26491

Coupled effects of transverse curvature and pseudoplasticity on skin friction characteristics of slender circular cylinder in laminar power law fluids

11 p2038 A70-26493

Turbulent three dimensional Poiseuille channel flow at large Reynolds numbers, investigating eddy shapes and energy balance

11 p2041 A70-26546

Tube relaminarization, predicting turbulent-to-laminar flow transition

12 p2212 A70-28118

Self energized hydrostatic shaft seal operating with incompressible fluid in laminar flow regime, using general lubrication theory

13 p2417 A70-28614

Pressure field equation derivation for hydrodynamic journal bearing in superlaminar regime, using turbulent Couette and screw flow friction correlations

13 p2418 A70-28742

Pressure distributions and heat transfer at wall calculated to investigate supersonic laminar reattachment

13 p2338 A70-28953

Basic flow convergence or divergence effect on steady flow pattern around circular cylinder using fluid motion visualization

13 p2387 A70-29058

Steady diabatic complex lamellar gas flow, obtaining parameters by extending geometric theory of surfaces and curves in fluid flow theory

13 p2387 A70-29122

Laminar near wake flow field of two dimensional adiabatic circular cylinder with surface mass transfer

[AIAA PAPER 69-67]

13 p2343 A70-29951

Viscous shock layer equations of laminar hypersonic flow past blunt body at moderate to high Reynolds numbers

13 p2343 A70-29952

Velocity circulation in laminar motion of fluid in cylindrical tube, assuming equilibrium under dissipative forces

14 p2564 A70-30164

Laminar or turbulent flow in parallel plate channels with combined forced convective and radiative heat transfer, determining gas temperature field and Nusselt numbers

14 p2663 A70-30253

Laminar flow of suspension over flat plate, analyzing particulate velocity and concentration profiles relationships to drag and lift forces

14 p2565 A70-30270

Low Reynolds number laminar flow gas turbine regenerators, investigating manufacturing tolerances effects on heat transfer and flow friction behavior

14 p2629 A70-31022

Viscometric Poiseuille or Couette flow kinematics, considering nonuniform shear rate

14 p2567 A70-31282

Laminar velocity distribution from temperature profiles developed under steady flow through tube, constructing numerical temperature grid

15 p2718 A70-31449

Axial wall conduction effects on steady state laminar flow heat transfer

15 p2825 A70-31815

Laminar natural convective heat transfer along outer surface of vertical cylinder, giving coefficients nondimensionally by approximate formulas

15 p2826 A70-31821

Conducting incompressible fluid laminar flow between rotating disks in transverse magnetic field with source at center

15 p2779 A70-31915

Laminar to turbulent transitions determination in sub/supersonic flows, reviewing methods based on hot-wire anemometer output signal

15 p2720 A70-31918

Laminar to turbulent flow transition observation in laser induced vertical convection, using carbon dioxide-nitrogen laser

15 p2751 A70-31980

Rheological calculation of plate resistance and heat transfer in laminar flow of structurally viscous fluids

15 p2827 A70-32126

Laser velocimeter application to laminar-turbulent flow transition at glass tube centerline

15 p2741 A70-32521

Hydrodynamic internal streamline flow analysis for turboprop inducer blades under cavitating and non-cavitating conditions

[AIAA PAPER 70-629]

16 p2964 A70-33528

Turbulent boundary layer response in flow field downstream of upstanding step change in surface roughness

[ASME PAPER 70-FE-17]

16 p2891 A70-33630

Two dimensional incompressible isothermal laminar separation of Newtonian fluid in steady flow, obtaining velocity profiles

[ASME PAPER 70-FE-29]

16 p2892 A70-33635

Dwell time boundary and mean values for laminar flows through channel and tube reactors, obtaining field representation from streamline network and isochrones

16 p2893 A70-33745

Incompressible ideal fluid plane laminar flows at large Reynolds numbers in region bounded by moving walls with closed concentric streamlines, establishing functional properties

16 p2893 A70-33749

Incompressible free jet characteristics determination from unique differential equation in laminar and turbulent flow regimes by unitary method

16 p2893 A70-33750

Nonreacting and chemically reacting laminar flows, calculating equilibrium, nonequilibrium and ideal gas laminar boundary and viscous shock layers over hyperboloid

[AIAA PAPER 70-808]

17 p3005 A70-34456

Upper pulmonary airways plastic conduit model, measuring laminar and turbulent flow velocity profiles by hot-wire anemometer

17 p3035 A70-34469

Transitional flow separation upstream of compression corner at trailing edge of sharp leading edge flat plate

[AIAA PAPER 70-764]

17 p3007 A70-34487

Laminar incompressible separating and reattaching flows, correlating finite difference solutions with experimentation

[AIAA PAPER 70-763]

17 p3008 A70-34488

Temperature dependent absorption, nonsteady beam propagation and laminar-turbulent transition in laser induced convection column, measuring turbulence onset by fine wire resistance thermometer

[AIAA PAPER 70-800]

17 p3107 A70-35197

Unsteady state Newtonian liquid diffusion in laminar flow in circular tube, using mathematical model

17 p3072 A70-35544

Laminar flow heat transfer in annuli, discussing correlation of local Nusselt numbers

17 p3197 A70-35545

Laminar free convection near two dimensional and axisymmetric nonisothermal bodies, examining surface temperature distribution and heat flux

18 p3345 A70-35999

Airfoil trailing edge stall in laminar flow, investigating circulation around flat plate 18 p3205 A70-36194

Plane stationary supersonic flows with laminar separation zones at large subcritical Reynolds numbers 18 p3206 A70-36257

Laminar gas flow enthalpy determination in stagnation regions based on energy balance equation across separation streamline 18 p3240 A70-36266

Incompressible heavy fluid film stability during flow along inclined plane constituting crystallization front, analyzing linearized equations of perturbed flow 18 p3240 A70-36271

Optical observation of laminar convective flow caused by combined action of concentration and temperature fields 18 p3346 A70-36276

Ablating nose equilibrium shape in laminar hypersonic flow during reentry 18 p3208 A70-36707

Laminar flows with surface injection, calculating thermal boundary layer-porous wall coupling effects [ASME PAPER 70-GT-1] 18 p3243 A70-36860

Laminar incompressible flow in arbitrary cross section entrance region of ducts by numerical technique after transformation to boundary value problem [ASME PAPER 70-GT-91] 18 p3243 A70-36878

Flame propagation velocity of gasoline-air mixture during two stage combustion process in laminar and turbulent flows, discussing combustion products effect 19 p3550 A70-37253

Laminar two dimensional wall jet with small natural disturbances, examining flow stability at various Reynolds numbers 19 p3402 A70-37526

Inertia forces effect in turbulent and laminar, self acting and infinitely long film bearings, considering compressible and incompressible lubricants [ASME PAPER 69-LUB-2] 19 p3435 A70-37613

Lift forces acting on spheres in cylindrical tube laminar flow 19 p3352 A70-37647

Stability of thermal and inertial perturbations superimposed on unstably stratified plane parallel flow with variable vertical shear 19 p3462 A70-37753

Velocity profiles of laminar flow through rectangular duct with moving wall and arbitrary cross section under nonslip boundary condition 19 p3405 A70-38043

Unsteady laminar incompressibles fluid flow in parallel plate channels and circular tubes, solving Navier-Stokes equations for prescribed discharge 19 p3405 A70-38347

Laminar vortex flow interaction with stationary surface, considering flow field, velocity, Reynolds number, etc 19 p3405 A70-38348

Round laminar jet with swirl, reducing Navier-Stokes equations to ordinary differential equations by similarity transformations 19 p3405 A70-38349

Pressure and temperature distribution in constant volume viscous Poiseuille gas flow velocity profile 20 p3608 A70-39121

Laminar incompressible free shear layers by method of weighted residuals for turbulent jets, obtaining velocity profiles for similarity and physical planes 20 p3613 A70-40286

Laminar flow of liquid in duct with zero heat resistance of walls, calculating temperature distribution during radiative convective heating 20 p3613 A70-40297

Laminar fluid flow in pipes of rectangular cross section, determining critical Reynolds numbers and maximum instability locations 20 p3614 A70-40400

Energy dissipation in laminar unsteady incompressible viscous fluid flows, discussing velocity fields, boundaries, tangential motion and entrainment 20 p3614 A70-40402

Laminar convective flow from linear heat source along vertical plate, solving numerically for incompressible fluid by boundary layer approximation 20 p3614 A70-40403

Slightly rarefied and electrically conducting gas, calculating effects of applied magnetic field on steady laminar low speed plane Couette flow 20 p3685 A70-40504

Two fluid hydrodynamic model of heat conductivity and viscosity effects on drift laminar flow stability of dense inhomogeneous plasma 20 p3685 A70-40518

Wall heat transfer for partially ionized argon laminar flow within square channel conducting walls with and without transverse magnetic field 21 p3856 A70-41032

Poiseuille pipe flow instability, considering asymptotic analysis for small wave number disturbances 21 p3807 A70-41241

Unsteady convective heat transfer and hydrodynamics of laminar and turbulent channel flows 21 p3808 A70-41374

Calibration data correlation for constant temperature hot film anemometer for low speed nonisothermal laminar air flow, using modified King law 21 p3828 A70-41475

Eddy currents in Hall generator with conducting side wall, studying velocity and temperature effects for turbulent boundary layer and laminar flows 21 p3859 A70-41733

Viscous laminar parallel flow along cylindrical surfaces, discussing boundaries described by algebraic polynomials 21 p3810 A70-41959

Plane Poiseuille flow in second order Rivlin-Ericksen fluids with small viscoelastic parameters, calculating three dimensional disturbance stability 21 p3810 A70-42030

Constant property unsteady laminar flow thermal entrance problems, using variational formulation in Laplace transformed domain 21 p3954 A70-42169

Two layer gas flows in supersonic axisymmetric nozzles, using method of characteristics 21 p3748 A70-42210

Incompressible Newtonian fluid laminar radial flow between parallel stationary disks, obtaining integral solution for Navier-Stokes equation 22 p4007 A70-42302

Isothermal steady laminar flow through tube with change in wall temperature, examining velocity profile relationship to temperature profile [ASME PAPER 70-HT-C] 22 p4008 A70-42421

Laminar hexane diffusion flame, investigating distribution of final and intermediate combustion products 22 p4123 A70-42522

Buoyant hot two dimensional laminar vertical jet in quiescent colder fluid, calculating temperature and velocity distributions by integral method 22 p4010 A70-42639

Poiseuille-Couette spiral flow stability between concentric rotating cylinders 22 p4010 A70-42691

Laminar geoelectromagnetic field excited by coaxial circular current, determining impedance and magnetic field factors of spherical harmonics 23 p4189 A70-44064

MHD laminar isothermal flow in closed cylindrical tube in rotating magnetic field, determining azimuthal velocity distribution 23 p4224 A70-44162

Heat transfer by laminar forced convection of viscous fluid in noncircular cylindrical channel with internal heat source and varying wall temperature 23 p4276 A70-44236

Incompressible laminar swirling jet flow, obtaining similarity solution for Navier-Stokes equations 23 p4184 A70-44982

Oscillating viscous conducting fluid laminar flow between parallel nonconducting infinite porous flat plates under suction in transverse magnetic field 24 p4383 A70-45146

Incompressible laminar flow in entrance region of rectangular duct allowing direct computation of eigenvalues 24 p4287 A70-45294

Porous tube inlet region, calculating fluid injection effect on laminar flow from integral form boundary layer equations 24 p4326 A70-45782

Local or surface boiling phenomenon under triangular channel laminar flow conditions, investigating heat transfer with and without phase change 24 p4429 A70-46089

Heat flux exchange by natural convection along flat vertical isothermal plate in laminar, transition and turbulent flows, using fluxmeters 24 p4429 A70-46207

LAMINAR FLOW AIRFOILS

Laminar airfoils for Reynolds numbers above 4,000,000, utilizing potential and boundary layer flow theories 01 p0063 A70-10930

LAMINAR FLOW CONTROL

U BOUNDARY LAYER CONTROL

U LAMINAR BOUNDARY LAYER

LAMINAR HEAT TRANSFER

Monograph on laminar flow heat transfer in thermal entrance region of flat and profiled ducts, treating construction and efficiency of plate heat exchangers 03 p0603 A70-12988

Unsteady heat transfer equations for laminar fluid flow in pipe with varying wall temperature 03 p0604 A70-13207

Buoyancy effects in laminar forced convection on vertical flat plate, obtaining heat transfer coefficient 06 p1172 A70-17141

Time dependent pressure fluctuations effect on laminar film pool boiling on vertical flat plate by perturbation method to predict heat transfer 06 p1177 A70-17696

Approximate solution for heat transfer in incompressible fluid laminar flow in circular tube 07 p1253 A70-19060

Laminar flow of compressible gas in axisymmetrical channel in absence of wall insulation using velocity profiles, heat transfer, etc 07 p1253 A70-19062

Heat transfer in Ni wires in laminar air flow from wind tunnel investigation 07 p1420 A70-19064

Solid layer effect on laminar heat transfer and pressure drop in medium surrounding pipe with liquid flows below freezing point, discussing wall temperature effects 08 p1485 A70-21589

Unsteady laminar free convection on heated axially symmetric body under stepwise surface temperature variations and unity Prandtl number 10 p1967 A70-23875

Approximate solution for heat transfer in incompressible fluid laminar flow in circular tube 10 p1871 A70-25211

Laminar flow of compressible gas in axisymmetrical channel in absence of wall insulation using velocity profiles, heat transfer, etc 10 p1871 A70-25213

Heat transfer in Ni wires in laminar air flow from wind tunnel investigation 10 p1970 A70-25215

Turbulent and laminar heat transfer to gases in circular ducts entry region, considering various gas properties 12 p2212 A70-28114

Steady laminar heat transfer in open circuit aligned field MHD flow past flat plate, using parametric differentiation 14 p2664 A70-30272

Low Reynolds number laminar flow gas turbine regenerators, investigating manufacturing tolerances effects on heat transfer and flow friction behavior 14 p2629 A70-31022

Laminar heat transfer to blunted wedge with constant wall temperature, describing energy field in boundary layer by analytic solution 15 p2825 A70-31818

Boundary layer equations for laminar flow, drag and heat transfer of gas in circular tube, considering parabolic and uniform entrance velocity profiles 15 p2722 A70-32692

Laminar flow heat transfer in annuli, discussing correlation of local Nusselt numbers 17 p3197 A70-35545

Laminar heat transfer in circular tube under solar radiation in space 18 p3347 A70-36503

Liquid He 4.2 K in narrow channels with laminar and turbulent flow, measuring boiling heat transfer as function of temperature difference 20 p3735 A70-39155

Laminar heating in hypersonic vehicles interior corners, analyzing helium tunnel heat transfer data for various intersecting wedge corners 20 p3737 A70-39700

Incompressible MHD flow in entrance region of channel with electrically conducting walls, calculating interacted laminar heat transfer by integral method 21 p3856 A70-41038

Heat transfer in laminar channel flow with random velocity variations, using Monte Carlo technique 21 p3949 A70-41312

LAMINAR JETS

U JET FLOW

U LAMINAR FLOW

LAMINAR MIXING

Laminar flow mixing stability and diffusion flame flow field measurements revealing role of Tollmien-Schlichting waves in enclosed flames vibrations [WSCI PAPER 69-46] 06 p1179 A70-17985

Coaxial fluid streams mixing within finite length tube based on dimensional analysis of aerodynamic noise generation, discussing subsonic and supersonic flows within ejector 13 p2474 A70-29080

LAMINAR WAKES

Linear spatial stability of two dimensional laminar wake- and jet-like similarity solution of Falkner-Skan equation 04 p0613 A70-14455

Laminar compressible wake behind thin flat plate at zero angle of attack, solving boundary layer equations in von Mises coordinate plane [ASME PAPER 69-WA/FE-6] 04 p0614 A70-14783

Wake behind axisymmetric bluff body in steady laminar flow, noting role of Reynolds number 04 p0619 A70-15392

Hypersonic near wake, discussing correlations from optical studies, laminar near wake, blunt body and turbulent wake measurements 05 p0790 A70-16120

Laminar hypersonic blunt cone wakes, discussing flow fields and axial static pressure distributions 06 p0968 A70-17553

Finite disturbance effect on laminar incompressible wake behind flat plate determined by interaction between two dimensional fluctuation amplitude and mean flow 08 p1433 A70-21605

Navier-Stokes equations for laminar near wake of blunt based body, obtaining numerical solutions for adiabatic and constant wall temperatures

09 p1605 A70-23176

Series expanding velocity profile in parabolic cylinder functions describing nonlinear evolution of steady laminar incompressible wake from arbitrary initial profile

10 p1802 A70-24418

Laminar near wake of cylinder at free stream Mach 6, using modified Lees-Reeves method

16 p2836 A70-33762

Steady state laminar flow model for near wake of slender body in supersonic flow

17 p3006 A70-34467

Base pressure behind supersonic vehicle, examining Crocco-Lees mixing theory critical point in laminar near wake

21 p3747 A70-42109

Two dimensional laminar near wake of slender body in supersonic flow at high Reynolds number

23 p4135 A70-44693

LAMINATED MATERIALS

U LAMINATES

LAMINATES

Weak interfaces effects in laminates under triaxial tensions at crack tip, analyzing delamination during crack propagation and fracture resistance

01 p0127 A70-10482

Crack propagation mode in laminated steel-Ni composites, analyzing softer layer effect using impact tests and C replica fractographs

01 p0120 A70-10743

Reinforced metals properties and applications including fibers and lamination, notch sensitivity, brittle fracture, failure and heat resistance characteristics

01 p0124 A70-11619

Design allowable curves based on laminate test data for high modulus graphite fiber and resin systems, considering Wagner cantilever beam specimens

02 p0387 A70-11954

Ductile-brittle fracture transition in steel pressure vessels suppressed by utilizing thin laminations

03 p0583 A70-12903

Plane elasticity solution for differential expansion stresses on interface of laminated elastic rectangular strip

03 p0586 A70-13114

Axial and traction loaded boron epoxy laminates tensile and compressive elastic properties and strengths compared from test data including strain gauge measurements

03 p0586 A70-13115

Cylindrical bending in laminated plates displaying bending-extensional coupling approximating behavior of rectangular laminated plates with high length-to-width ratio

03 p0587 A70-13125

Laminate approximation model of randomly oriented fibrous composites estimating stiffness and thermal and expansional strains

03 p0587 A70-13126

Rational design of structurally anisotropic plane multilayer plates with weak binder, suggesting strengthening fibers orientation in internal stresses direction

03 p0516 A70-13379

Thin elastic laminar shells nonlinear physical theory assuming Love-Kirchhoff hypothesis validity, rigidly connected layers and nonlinear mechanical behavior

04 p0765 A70-14419

Matrix analysis of steady state temperature field and heat flux through multilayer, plane, cylindrical or spherical partitions with internal heat sources

04 p0785 A70-14924

Buckling of three layer cylindrical shells under steady creep conditions, deriving axisymmetric deformation

05 p0935 A70-16234

Transient stress waves generated by spatially uniform distribution of transverse forces in laminated medium, using modal analysis

05 p0938 A70-16409

Book on analysis of laminated composite structures covering orthotropic materials stress-strain relations, laminated composite shells, plates, beams and columns

05 p0938 A70-16467

Axial and nonlinear bending performance compared for compression moldings laminated from random glass fiber mat

05 p0870 A70-16577

Bag molding process for molding laminates of reinforced preimpregnated material containing thermosetting resin

05 p0856 A70-16612

Mechanical fastening, adhesive bonding and machining methods for laminated fiberglass reinforced plastic materials

05 p0856 A70-16618

Micro and macromechanics for design and mechanical properties prediction of laminated fibrous composites for airframes and space structures

05 p0941 A70-16619

Guided elastic waves propagation on layered media, considering elastic wave circuitry design for true microminiaturization

06 p1018 A70-17476

Mechanical behavior of cylinders with alternating layers of reinforcing and matrix materials derived from governing equations, including equations of motion

[AIAA PAPER 70-134]

06 p1169 A70-18051

Carbon fabrics and filaments, resin carbonizing and carbon-carbon composites, discussing processing parameters, initial carbonizing resin binder and reinforcement effects on laminate properties

07 p1316 A70-18932

Shallow spherical sandwich shells under concentrated forces, obtaining inhomogeneous equations solution by integral Hankel transforms

07 p1402 A70-19053

Governing equations solution for simply supported laminated anisotropic rectangular plate using Fourier series method

07 p1406 A70-19035

Plane electromagnetic wave reflection from laminar anisotropic medium, analyzing piecewise-constant permittivity tensor as boundary value problem

07 p1235 A70-19448

Air bubble free glass fiber-plastic laminates fabricated by wet-winding method using vacuum, noting void free filament wound pipes

07 p1295 A70-19766

Interlaminar shear strength determination methods taking into account plastics composition, considering polyester and epoxy plastics, glass and graphite fiber reinforcing materials

07 p1410 A70-19767

Transverse stress failure analysis of reinforced extruded plastic laminates taking into account cohesive and adhesive failure

07 p1410 A70-19768

Tensile and compressive stress cycles effect on short term strength of glass fiber plastic laminates

07 p1411 A70-19769

Cycloaliphatic epoxy resins for glass and carbon fiber reinforced plastics and laminates

07 p1318 A70-19773

Fatigue tests to relate boron-epoxy laminate fatigue behavior to thermal preconditioning environments

07 p1320 A70-19960

Isothermal steady state creep extension and flexure of laminated beams with alternating layers, indicating nonlinear stress distribution

07 p1412 A70-19964

Geometrical-mechanical properties in terms of interlaminar shear stress of composite cantilever beams under end load

07 p1412 A70-19965

Three dimensional finite element method for quasi-homogeneous laminate moduli, discussing interlaminar and in-plane shear properties

07 p1321 A70-19966

Thin sheet and laminate bullet hole deformation zone microstructure observation by electron microscopy, considering terminal ballistics approach

07 p1413 A70-20049

Limiting equilibrium of axisymmetric shells consisting of alternating reinforcement layers separated by layers of homogeneous isotropic material

07 p1415 A70-20184

Natural oscillation frequencies of three layer plates with rectangular planar form determined by integrated representations method

08 p1583 A70-20495

Modulus of elasticity of fiber glass reinforced plastic under transverse bending as function of length-to-height ratio in laminates

08 p1526 A70-20532

Test specimen shapes for determining tensile, compressive and edge-wise shear properties of reinforced plastic laminates

08 p1529 A70-21878

Specimen design of laminated angle-ply composite materials for straight-sided axial coupon and long beam flexure tension testing

08 p1530 A70-21885

Test standards for boron epoxy flat laminates, proposing specimen geometries and testing methods

08 p1530 A70-21887

Mechanical testing of metal matrix high modulus B-Al filament composites, using unidirectional and multidirectional reinforcement

08 p1523 A70-21894

Glass fiber reinforced epoxy laminate specimens tests in tension and flexure at various strain rates to determine geometry effect on strength

08 p1532 A70-21898

Fibrous reinforced composites influence in aircraft structural design based on DOD- industry development programs, investigating interlaminar shear

08 p1595 A70-21899

Laminated anisotropic rectangular plates of boron-epoxy composite material, studying shear stability by potential energy and Ritz method

08 p1595 A70-21903

Fiberglass-epoxy laminates mechanical behavior under biaxial loading, describing test equipment and procedures

08 p1532 A70-21904

Stress-strain characteristics of reinforced elastoplastic layer using mathematical model

09 p1769 A70-22183

Fiberglass reinforced plastic laminates shear characteristics determination, giving expressions for shear modulus and tangential stress

09 p1709 A70-22300

Free and forced vibrations of three layer freely suspended plate with allowance for energy dissipation

09 p1772 A70-22468

H guide with laminated dielectric strips separated by air layers, analyzing field distribution and characteristics

09 p1634 A70-22709

Stress concentrations and load transfer around cutouts in fiber reinforced laminates, discussing boron epoxy plates with circular holes

09 p1710 A70-22793

Multilayer orthotropic conical shell cyclic deformation equation obtained in hypergeometric functions

09 p1777 A70-23079

Plastic buckling of eccentrically stiffened circular cylindrical shells with multiple isotropic layers under combined axial and lateral pressure, deriving stability criterion

09 p1780 A70-23213

Radiative heat transfer along adjacent layers of multilayer insulation blanket determined as energy transport mode

09 p1789 A70-23265

Temperature fields and thermal stresses in FN fiberglass reinforced textolite under nonstationary unilateral heating, determining stress as function of time and heating rate

09 p1710 A70-23724

Fiberglass reinforced textolite creep strains as function of stress, temperature and time, noting correlation with theory to 200 C

09 p1710 A70-23725

Energy dissipation in free oscillations of multilayer shells consisting of alternating rigid elastic layers and soft fillers, deriving equations of motion

10 p1956 A70-24249

X ray laminography for nondestructive testing based on synchronous rotation of source, sample and image forming planes

10 p1895 A70-24577

Multilayer plate vibrations calculated with allowance for energy dissipation in material, deriving equations of motion

10 p1965 A70-25297

Temperature and heat flux in plane, cylindrical and spherical multilayer diaphragms with boundary conditions, assuming harmonic temperature variation

10 p1970 A70-25321

Glass epoxy cross ply laminates with brittle or ductile epoxy matrices tensile tested, comparing mechanical performance

11 p2068 A70-25686

Two dimensional photoelastic investigation of crack propagation in fiber-reinforced composites consisting of glass and polyester resin layers

11 p1316 A70-26078

Boundary conditions effect on bending, vibrations and buckling of unsymmetrically laminated rectangular plates

11 p1316 A70-26079

Interlaminar shear stresses analysis for laminated composites under generalized plane stress

11 p1316 A70-26080

Length effect on modulus determination test for thin laminated tube under combined loading using shell theory

11 p2136 A70-26086

Layered electromagnetic absorbers performance analysis by variable metric optimization method, handling functions defined over polyhedral region of real space

11 p2019 A70-26713

Stability analysis of ring-stiffened orthotropic, multilayered shells of revolution under axisymmetric torsionless loads by digital computer

12 p2320 A70-27143

Thermal buckling theory for multilayered stiffened cylindrical shells under various combined loads

12 p2321 A70-27149

Selective optical coatings of alternate Ni and silicon dioxide layers, describing optical and spectral characteristics of black mirror

12 p2272 A70-27307

Stress-strain state of thin revolving shells composed of multiple variable thickness layers, assuming layers deformation free of slipping and separation

12 p2322 A70-27332

Equilibrium equations for thin multilayer shells with variable thickness, assuming simultaneous work without friction under loads

12 p2325 A70-27556

Strain induced in laminated orthotropic fiberglass plastic cylindrical shell by normal concentrated load,

- using equations free from rectilinear normals hypothesis 12 p2328 A70-28279
- Penetration mechanics of multisheet structures based on discrete particle modeling of impact debris [AIAA PAPER 69-371] 13 p2509 A70-28521
- Nonlinear theory describing mechanical behavior of prestressed laminated composites subjected to large deformations 13 p2511 A70-28738
- Laminated glass fiber reinforced cylindrical shell stability resting on hinged supports under axial compression 13 p2514 A70-29285
- Cutting speed, feed parameters and tool tip curvature effects on machined surface roughness of turned fiberglass reinforced epoxy laminates 14 p2590 A70-30873
- Stress wave propagation in solid infinite elastic medium and laminated materials 15 p2823 A70-32784
- Maximum stress distribution in laminar composites, considering loads on boundary of reinforcing layers 15 p2766 A70-32854
- Low cost flame retardant high service temperature glass reinforced electrical grade laminate tested for continuous use 16 p2935 A70-33355
- High service temperature glass reinforced premix compound on Glastic grade electrical laminate, discussing optimum molding and applications 16 p2936 A70-33356
- Epoxy laminating resin evaluation for tooling industry, considering diluent, fillers, thixotropy, hardeners and physical property testing 16 p2936 A70-33360
- Cold forming of thermoset-thermoplastic laminate consisting of reinforced epoxy core sandwiched between thermoplastic face sheets 16 p2916 A70-33362
- Free radical coupling of silyl peroxides in reinforced plastics, laminates and adhesives 16 p2937 A70-33377
- Fluid urethane laminating resin for bonding nylon and glass fabrics, giving physical properties as function of room temperature curing time 16 p2938 A70-33381
- Solvents and chemicals resistant thermosetting resin producing high strength glass reinforced laminates based on polyanhydride crosslinked with monoepoxide 16 p2938 A70-33382
- Polyimide resin as matrix for glass fabric reinforced laminates 16 p2938 A70-33383
- H-guide dielectric losses reduction by use of artificial and laminated dielectric slabs 16 p2875 A70-33401
- Glass reinforced laminates fatigue characteristics, discussing differences from metals due to composites anisotropic structure 16 p2989 A70-33420
- Geometrically nonlinear theory for sandwich type plates symmetrically built of three elastically and thermally anisotropic layers, considering nonuniform temperature field 16 p2990 A70-33744
- Plane strain vibrations of two layered elastic cylinders, analyzing results for lobar mode numbers 2, 3 and 4 16 p2994 A70-34096
- Three dimensional linear small deformation theory of elasticity solution for free vibration of simply supported homogeneous isotropic thick laminated rectangular plates 17 p3181 A70-34522
- Shear coupling effect in cylindrical bending of anisotropic composite laminates 17 p3182 A70-34558
- Anisotropic and laminated cylindrical shells geometric design for reduction of elastic stress gradients to predetermined limit 17 p3182 A70-34559
- Failure prediction for interlaminar shear stress in filament wound rectangular plate 17 p3188 A70-35228
- Plane electromagnetic wave reflection from laminar anisotropic medium, piecewise-constant permittivity tensor as boundary value problem 18 p3229 A70-36922
- Lateral compression of rocks and global shells multilayers, using equations for buckling of single free stratum 18 p3255 A70-37076
- Flexural vibrations of laminated composite plates, maintaining continuity of displacements and surface tractions at intersurfaces between reinforcing layers and composite matrix 19 p3537 A70-37790
- Two-layer slab under aeroheating, solving bondline temperature graphically 20 p3737 A70-39693
- Dynamic theories for wave propagation in laminated and fiber reinforced composites, using dispersion curves for transverse and longitudinal motions 20 p3730 A70-40036
- Prestrained laminated media stability, discussing column buckling, standing waves, natural frequencies, wave propagation, stress-strain relations, motion equations and elastic moduli 20 p3731 A70-40049
- Mechanical behavior of cylinders with alternating layers of reinforcing and matrix materials derived from governing equations, including equations of motion 20 p3732 A70-40267
- Finite deflection discrete element analysis of sandwich plates and cylindrical shells with unbalanced laminated faces 20 p3732 A70-40268
- Numerical solution for multilayer insulation system comprised of infinite parallel metallic films separated by optically thin dielectrics 21 p3947 A70-41054
- Glass plastic composite electrically heated windshields for aircraft, discussing design, fabrication, qualification testing and service experience 21 p3750 A70-41137
- Elastic bending, vibration and buckling of simply supported thick orthotropic rectangular plates and laminates 22 p4116 A70-43205
- Cross ply laminated plates natural frequencies, approximating flexural vibration by classical theory 22 p4119 A70-43679
- Composite laminates under uniform axial strain, determining interlaminar stresses and displacements by finite difference techniques 22 p4060 A70-43684
- Finite element method for bending-extensional coupling in angle-ply laminates deformation behavior 22 p4061 A70-43685
- Temperature distribution and thermal constriction resistance due to steady heat flow in laminated composite 22 p4126 A70-43689
- Stress-strain of thin multilayer isotropic spherical shell under radial load employing shallow shell theory 22 p4120 A70-43716
- Sandwich multilayer structures temperature fields and heat transfer characteristics at high temperature [ICAS PAPER 70-38-BIS] 23 p4276 A70-44136
- Spherical multilayer shell unsteady temperature fields, assuming mixed convective and radiative transfer at inner surface due to hot gas flow 23 p4276 A70-44165
- Thick isotropic rectangular laminates free vibration and buckling, applying three dimensional linear small deformation theory of elasticity 24 p4422 A70-45296
- Holographic nondestructive testing of laminate structures, honeycomb-sandwich panels and rubber-to-metal bonds 24 p4338 A70-45755
- Viscoelastic laminated composite linear anisothermal theory, presenting homogeneous continuum model to describe dynamic characteristics 24 p4368 A70-45992
- X ray and neutron propagation in multilayer film composite, discussing boundary conditions in interferential systems 24 p4380 A70-46095
- Papers on plastics, volume 1 covering materials, design, fabrication, applications, etc 24 p4368 A70-46223
- LAMINATIONS**
- U LAMINATES

- Sector-TACAN /SETAC/ system suitable for mobile approach and landing aid due to high accuracy and small dimensions 09 p1721 A70-22663
- Holographic dynamic head-up display system for aircraft carrier deck landings in low visibility 12 p2232 A70-27371
- American Airlines-McDonnell Douglas intermetropolitan STOL evaluation tests, noting microwave landing guidance system [SAE PAPER 700336] 12 p2161 A70-27464

Microwave scanning beam landing system providing aircraft radio approach guidance

12 p2269 A70-27918

Pilot landing aids for increasing air traffic, discussing Integrated Communication Navigation Identification

13 p2449 A70-29053

All-weather landing aids, discussing Scan Beam and Multilateration systems including ILS, TACAN, etc

13 p2449 A70-29054

Aircraft vertical channel landing condition autopilot using state variable feedback control techniques

15 p2773 A70-32553

Apollo lunar module alightment system, discussing design, performance and reliability

16 p2985 A70-34122

Millimeter wave radar for high resolution aircraft landing aid, describing experiments to obtain backscatter data from airborne platform

17 p3133 A70-34721

Aircraft perspective display as independent landing monitor based on electronic runway lights, discussing simulator development and flight validation

[AIAA PAPER 70-924] 17 p3064 A70-35835

Precision approach and landing guidance system selection by RTCA committee, discussing aircraft antennas, scan rates, international cooperation, etc

[AIAA PAPER 70-937] 17 p3134 A70-35846

Helicopter radar approach aid for serving oil rigs

19 p3466 A70-38621

Airborne three dimensional area navigation equipment for reducing mid-air collision exposure and for raising landing safety in terminal areas

22 p4066 A70-42296

LANDING GEAR

Cessna single engine aircraft tubular and flat steel landing gear springs, describing quality control through nondestructive testing

01 p0098 A70-10018

Commercial transport aircraft landing gear electrical circuitry dispatch reliability improvement, considering components causing flight delays due to maintenance problems

01 p0006 A70-10703

Concorde aircraft main landing gear reliability, discussing design, corrosion, hydraulic contamination, metallurgy, sealing and tests

02 p0226 A70-12366

Load analysis for aircraft landing gear during touchdown and braking operations

03 p0596 A70-14093

Hydrogen embrittlement of landing gear steels, discussing plating bath program additions for optimum safety conditions

07 p1294 A70-19349

Sailplane design standards concerning retractable undercarriage and trailing-edge flaps revised to achieve better performance

09 p1612 A70-23575

Steerable landing gear system consisting of freely castoring corotating wheel nose gear, tilt-able axle and main gear skids for lifting body spacecraft

[AIAA PAPER 69-790] 13 p2344 A70-28514

Honeycomb shock absorbers, noting landing gear applications

13 p2512 A70-28772

C-5A aircraft six wheel main landing gear bogie pitching control, emphasizing braking torque compensating mechanism design

[AIAA PAPER 70-914] 17 p3020 A70-35826

Large wheel and tire imperfection effects on nosegear parametric shimmy instability, using Mathieu equation

18 p3213 A70-36455

Landing gear weight analytical estimation, discussing ground loads, member cross sectional area, parametric variations, etc

[SAE PAPER 829] 20 p3563 A70-40366

Spacecraft landing gear shock attenuation systems using crushable honeycomb, draw-die tubes and retrorocket skirt jet

23 p4262 A70-44695

LANDING INSTRUMENTS

NT APPROACH INDICATORS

Head-up display for horizon, desired and actual approach paths information to assist pilot during approach, landing and overshoot

02 p0330 A70-11842

V/STOL aircraft ground guidance systems using microwave instruments for approach and landing

[SAE PAPER 700322] 12 p2266 A70-27458

Aircraft instrument landing system replacement requirements in terms of airports, aircraft, approach and landing paths, service classes, etc

12 p2269 A70-27917

Airborne vertical glide path guidance computer for aircraft landing, using barometric altitude and DME data

16 p2871 A70-34053

Low visibility aircraft landing problem concerning pilot instrument and visual cue and federal regulations governing operational approval

[AIAA PAPER 70-936] 17 p3134 A70-35845

SATRAM, multiple trajectory landing system for aircraft position indication within large airspace

18 p3289 A70-36948

Airport capacity and terminal area safety increase by scanning beam instrument landing system, discussing automatic guidance trajectory example

19 p3464 A70-37913

Aircraft onboard radar system with landing monitor perspective display of runway operating independently of ground based electronic equipment

[AIAA PAPER 70-1336] 24 p4373 A70-45932

LANDING LOADS

Optimum damping and stiffness in nonlinear single degree of freedom systems, discussing protection from ground and velocity shock during landing impact

11 p2145 A70-26695

Apollo lunar module structural integrity for lunar landing verified by Monte Carlo dynamic analysis

12 p2312 A70-27114

Unmanned spacecraft landing shock absorption by hybrid pneumatic configuration having hard surfaced footpad with dual pneumatic bag attenuator

12 p2312 A70-27115

Preliminary aircraft wing design for gusts or landing impacts inducing vibrations, inertia effects and dynamic overloads

14 p2655 A70-30177

High impact Ag-Zn cell design for space missions instrument package landing, considering heat sterilization and minimum operational capability

21 p3757 A70-41013

LANDING MODULES

NT LUNAR LANDING MODULES

NT LUNAR MODULE

NT MARS EXCURSION MODULE

Digital computer program /LANDIT/ for predicting structural impact response of axisymmetric landing vehicles consisting of rigid payload and crushable impact limiter system

02 p0380 A70-11945

LANDING SIMULATION

High fidelity simulations for environmental stress evaluations, describing carbon dioxide effects on pilots simulated ground target tracking and reentry vehicle landing

06 p0999 A70-17291

Thermal testing of planetary lander vehicle in vacuum chamber, modeling electronics modules and experiments using resistance heaters

[AIAA PAPER 70-222] 06 p1157 A70-18128

Landing performance of BLEU static cockpit simulator compared with flight data for night conditions in clear and limited visibility

10 p1859 A70-24215

Subsystem weight trade-offs for design optimization of out-of-orbit Mars soft lander, using atmosphere and surface environmental Monte Carlo model

11 p2124 A70-26215

Surveyor spacecraft landing shock absorbers design and performance assessment by digital computer simulation

16 p2922 A70-34123

Aircraft perspective display as independent landing monitor based on electronic runway lights, discussing simulator development and flight validation

[AIAA PAPER 70-924] 17 p3064 A70-35835

TV display simulation of instrument and visual aircraft landing approaches, investigating color, collimation and resolution effects on pilot evaluations

20 p3578 A70-39172

Lunar landing training vehicle using Lunar Module free flight simulator for earth practicing of final descent handling

21 p3750 A70-41193

Pilot heart rate during in-flight simulated ILS approaches in general aviation aircraft

24 p4306 A70-45333

LANDING SITES

NT LUNAR LANDING SITES

Surveyor 7 lunar mission landing site, equipment, operations, etc

05 p0915 A70-16830

Statistical orbit and position determination for Mars orbiters and landers based on Viking 1973 mission requirements, discussing tracking problems

[AIAA PAPER 70-160] 06 p1158 A70-18177

Asteroid vs planet for manned landing site, considering Martian moons mission

11 p2108 A70-25660

Statistical orbit and position determination for Mars orbiters and landers based on Viking 1973 mission requirements, discussing tracking problems

[AIAA PAPER 70-160] 21 p3931 A70-41861

LANDING SPEED

Thrust control unit in Lufthansa Boeing 707 aircraft designed to maintain landing approach speed by adjusting throttle setting and landing flap position

05 p0845 A70-15903

LANDING SYSTEMS

U LANDING AIDS

LANDMARKS

Satellite navigation method for locating Mars landmark or target point for exploration by roving vehicle located as center of coordinate system

11 p2080 A70-26213

LANDSCAPE

U TERRAIN

U TOPOGRAPHY

LANGMUIR PROBES

U ELECTROSTATIC PROBES

LANGUAGE PROGRAMMING

ALGOL Dynamic Display System for debugging and optimizing computer source language program, providing real time portrayal of static and dynamic block structure, etc

02 p0264 A70-12128

Analysis method permitting English speech sound recognition by computer for different speakers

08 p1460 A70-20815

Combined discrete event and continuous systems simulation language, discussing mathematical modeling and various applications

10 p1860 A70-24652

Computer aided on-line test generation for prelaunch checkout, describing interpretive test language for rapid man machine information transfer

[AIAA PAPER 70-384] 10 p1846 A70-24921

Cost effectiveness of higher order language /HOL/ for airborne computers

16 p3003 A70-33428

Natural language a priori description and linguistic algorithms construction, using statistical phrase contraction with Hoffman codes

22 p3993 A70-42492

LANTHANIDE SERIES METALS

U RARE EARTH ELEMENTS

LANTHANUM

Sroutium chloride lanthanum ion system with dynamic Jahn-Teller effect, indicating isotropic EPM spectrum resulting from averaging by relaxation

13 p2470 A70-29109

LANTHANUM ALLOYS

Thorium phosphide anti-type microstructure of La-Rh system by X ray diffraction, discussing bcc structure, lattice constants, etc

15 p2695 A70-32549

LANTHANUM COMPOUNDS

NT LANTHANUM OXIDES

Chondrite-normalized lanthanide pattern of silicate inclusion of Woodbine iron meteorite, showing differences from mesosiderite phase and chondrite

01 p0177 A70-10340

Magnetic and structural characteristics of ternary intermetallic systems with lanthanides, considering Ln substitution by other rare earth elements

22 p4085 A70-42481

Perovskite type oxide lanthanum manganese magnetic properties, explaining ferromagnetism by spin Hamiltonian formalism

24 p4389 A70-45601

Magnetic properties of lanthanum calcium manganese, making stoichiometric specimens by controlling oxygen partial pressure

24 p4390 A70-45602

LANTHANUM OXIDES

Partition functions and equilibrium constants for ScO, YO and LaO computed for 1000-8000 K, assuming doublet ground electronic state

10 p1946 A70-24970

LAP JOINTS

Nonuniform stress distribution along side fillet welds and in welded plates of lap joint, discussing tangential stresses and plate width

11 p2058 A70-25598

Solid state butt and lap joint welding of TD-nickel bar, evaluating performance by stress rupture and shear tests

21 p3832 A70-40790

Epoxy and polyurethane adhesives stress-strain behavior in lap joints, examining bond thickness and cryogenic temperature effects

21 p3844 A70-42139

LAPLACE EQUATION

Alternating direction implicit difference schemes for solving Laplace and biharmonic elliptic equations

03 p0518 A70-13026

Green function of region near circle approximation by matrix method, considering Laplace differential equation solution, conjugate harmonic function and conformal transformation

07 p1253 A70-18924

Soviet book on mathematical physics covering equilibrium equations of vibration, thermal conductance and diffusion with emphasis on Laplace equations

08 p1544 A70-20763

Cauchy spatial problem of Laplace equation, obtaining approximate solution based on initial conditions

15 p2767 A70-31584

Numerical solution to Laplace equation in spherical coordinates with axial symmetry, using Dirichlet method to obtain difference equations

15 p2767 A70-31751

Variance reduction technique for hybrid computer generated random walk solutions of partial differential equations, comparing to analytical solution
16 p2942 A70-33731

General potential function in triaxially ellipsoidal coordinates for Laplace equation, examining near earth satellites and Vinti potential
18 p3334 A70-37064

Boundary value problems in potential theory for electrical disk and spherical cap reduced to problems for two dimensional Laplace equation
20 p3657 A70-39446

Doppler effect simplification to classical Laplacian orbit determination, deriving equations in perturbed gravity field for initial point determination
23 p4246 A70-44697

LAPLACE OPERATORS

U LAPLACE TRANSFORMATION

LAPLACE TRANSFORMATION

Summary representations method to determine eigenfrequencies of finite difference Laplace operator for boundary conditions
03 p0518 A70-13079

Laplace transform applied to ordinary differential equations with variable coefficients, obtaining representations of integral and integrodifferential equations
03 p0519 A70-13506

Solar flare cosmic rays confinement to definite solar magnetic field sectors using Laplace transformation
03 p0560 A70-13977

Laplace transform of axial stress resultant in impacting semiinfinite elastic cylindrical membrane as exponential function involving wave propagation speed, applying continued fractions
[ASME PAPER 69-APM-K] 04 p0769 A70-14859

Unsteady temperature field of uniformly thick disk for inhomogeneous boundary conditions and small Fourier numbers solved by Laplace operation
05 p0958 A70-17013

Laplace transform of piecewise continuous function derivative for application to differential equations
06 p1164 A70-17428

Conducting cylindrical shell in constant magnetic field analyzed for magnetoelastic disturbances using Laplace transform
06 p1056 A70-17607

Improper integrals appearing in cross correlation of responses of two single degree of freedom systems to bandwidth limited white noise, deriving Laplace inversion formulas
07 p1236 A70-20067

Temperature distributions in multidimensional transient conduction heat transfer, using variational method and Laplace transformation
09 p1788 A70-22705

Multidata and collocation methods compared for numerical Laplace transform inversion
11 p2074 A70-26639

Variational principles of linear asymmetric elasticity for dynamic problems with initial and boundary conditions, using Laplace transforms
13 p2517 A70-29724

Lossless waveguide propagation analysis as transient problem by means of Laplace transform
14 p2556 A70-30923

Algorithm for inverse Laplace transformation of irrational transfer function via fast Fourier transform
15 p2768 A70-32577

Eigenvalues of transfer matrix and vibrations generation for passive mechanical systems with n degrees of freedom based on Laplace transformation
18 p3337 A70-36225

Inverse Laplace transform of network function with allowance for initial differential equation solution, determining circuit temporal characteristics
19 p3456 A70-37269

Random signal nonlinear transformations using relations between Laplace and Fourier transforms
20 p3583 A70-39123

Laplace and Mellin transforms inversion in one dimensional cascade theory problems, using numerical methods for primary electron and photon spectra
20 p3675 A70-39305

Asymptotic equivalent functions for integral Laplace transformation transition to original in continuous media mechanics
20 p3726 A70-39873

Acoustic propagation from spherical source into surrounding medium, using Laplace transform of function with simple discontinuities
21 p3850 A70-41423

LAPSE RATE

Real gas adiabatic lapse rate applied to Venus atmosphere assumed to consist of pure carbon dioxide
11 p2107 A70-25646

LARGE SCALE INTEGRATION

Digital adaptive-element building blocks in monolithic Si structures for MOS large scale integration, considering serial/parallel multiplier and shift register chips
01 p0047 A70-10458

Large scale integration /LSI/ in electronics, discussing high density microelectronic, memory and logic circuits, fabrication and computer aided design
08 p1468 A70-20468

Polyolithic approach to LSI, studying mechanical, thermal, electric and economic properties of very dense blocks
11 p2021 A70-26829

Computer-aided MOS/LSI four phase logic circuit design, discussing software, design cycles and testing
13 p2380 A70-28375

Integrated logic circuits, considering switching properties and medium and large scale integration
13 p2372 A70-29116

Logic cells for multiple arithmetic functions suitable for LSI
13 p2377 A70-29145

Digital correlator LSI circuits design, layout and mask considerations, diffusion, metallization and dielectric deposition
13 p2378 A70-29551

Reliability assurance of LSI components consisting of complex electronic functions fabricated by semiconductor technology on single chip
15 p2713 A70-32662

Real time variable range digital filter design in suitable form for LSI realization, satisfying reduced dead-band requirement for input interface element
16 p2882 A70-33040

MOS transistor associative memory cell design utilizing LSI technology
16 p2869 A70-33464

LSI circuits in space electronics, discussing packaging, reliability, applications, etc
17 p3053 A70-35274

Multichip hybrid microcircuits design and construction, emphasizing reliability and cost reduction
18 p3232 A70-36759

LSI packaging effects on systems design, discussing physical integration
18 p3232 A70-36761

LSI technology effect on digital circuits and systems designs
19 p3387 A70-37847

Power IC fabrication methods covering monolithic chip, monobrid chips and IC driver with external power transistors
21 p3797 A70-41212

Semiconductor circuits large scale integration for aerospace computers, discussing fabrication and design
21 p3799 A70-41692

LSI 4-bit complementary speed /COS/ MOS parallel processor array
24 p4317 A70-46215

Microminiature solid state LSI imaging system design, construction and performance characteristics
24 p4320 A70-46216

LARMOR PRECESSION

Cyclotron waves absorption study in bounded rarefied plasma having Larmor electron frequency exceeding plasma frequency
10 p1925 A70-25101

Finite Larmor radius interchange and LF drift oscillations due to magnetospheric temperature and density gradient stresses in trapped plasma
13 p2401 A70-29936

LASER ALTIMETERS

Airborne laser profilometer terrain roughness measurement and recording, considering error sources
12 p2244 A70-26938

LASER COMMUNICATION

U OPTICAL COMMUNICATION

LASER HEATING

Electric resistance adjustment of thick and thin film resistors on ceramic substrate, using laser for material evaporation
20 p3640 A70-39416

Microwelding by pulsed ruby laser radiation, discussing characteristics and advantages
20 p3638 A70-40149

Particulate boron levitated electrostatically in air and ignited by pulsed laser to avoid contamination, investigating combustion by high speed photography (SMPT PREPRINT 100)
22 p4032 A70-43034

Plasma generation by pulsed laser heating, investigating ionization effects on temperature
22 p4082 A70-43224

Optical transmission and reflection gratings formed by standing light waves evaporation of thin metallic films in ruby laser cavity
23 p4200 A70-43817

High power pulsed laser fog dispersal, calculating vaporization regimes of droplet interaction with laser radiation
23 p4201 A70-44592

Basalt heating with IR carbon dioxide laser, investigating vapor fractionation for inert atmospheres, very high temperatures and silicon dioxide poor materials
24 p4409 A70-45673

LASER MATERIALS

Absorptivity, transition probability and collision broadening frequency of dimethylether at 3.51 micron

He-Xe laser wavelength, noting pressure dependence, transition lifetime and saturation intensity
21 p3835 A70-40573

Nd-YAIG laser design for sleeve stabilization, discussing flicker problem and rod cladding
21 p3836 A70-40822

Laser characteristics of Nd doped lithium germanate and silicate glasses, discussing spectroscopic properties
21 p3838 A70-42010

Host materials for increasing optically pumped solid state CW laser fundamental mode output power
22 p4048 A70-42333

Inorganic liquid lasers, discussing Nd salts solution preparation and handling methods
23 p4201 A70-44929

LASER MODES

Population inversion induced in middle channel of cascade gas laser, using probability method
01 p10106 A70-10059

Semiconductor laser active element radiation absorbing inhomogeneities effect on l-v characteristics, considering oscillation modes excitation
01 p10106 A70-10095

Ruby ring lasers unidirectional emission obtained by using Faraday rotator with small polarization plane rotation angle
01 p10107 A70-10208

Laser mode selection with slowly opened Q switches, discussing rotating prisms and Faraday rotators types, pulse buildup, far field spatial distribution, etc
01 p10108 A70-10427

Laser mode locking due to saturable absorbers taking into account dispersive property of active material, expanding electric field within cavity
01 p10109 A70-10428

Pulse width and spectrum generated by ring laser mode locked by synchronously modulated absorber as function of modulator waveform curvature and active medium
01 p10109 A70-10430

Frequency sweep /chirp/ and pulse width in externally mode locked laser with host dispersion obtained analytically using circulation pulse method
01 p10111 A70-10572

Unstable laser resonator mode patterns and losses with finite rectangular reflectors of spherical curvature, basing analysis on Cornu spiral
01 p10112 A70-10917

Electrical supply and control of monopulse 6.25 Hz ruby laser for use in optical radar, high speed photography, etc
01 p10114 A70-11270

Soviet book on methods in laser design, Volume 2, covering pumping radiation in active rods, unsteady modes, ruby and Nd glass lasers
02 p0310 A70-11691

Transverse mode controlled hydrogen Stokes laser oscillator optically pumped by pulsed ruby laser
03 p0498 A70-13153

Opposing cavity modes interference effect on passive Q switched ruby laser energy yield
03 p0499 A70-13213

Semiconductor injection laser modes, considering inhomogeneous lasing action levels over p-n junction area
03 p0499 A70-13410

Mode selection in Ar ion laser by plane resonator mirror with hole, plotting output power vs L/R parameters
03 p0500 A70-13458

Frequency spectrum, Q factor and single mode selectivity of two mirror laser resonator with absorbing thin metallic films, showing agreement for Ag and Ni
03 p0500 A70-13459

Electromagnetic field spectrum and spatial distribution in ring laser, considering transverse modes influence
03 p0500 A70-13462

Complex profile aspherical mirrors used in He-Ne gas laser to obtain single mode emission
03 p0500 A70-13465

Low threshold injection lasers in IR and visible spectrum at room temperature employing AlAs-GaAs heterojunctions, noting use for CW mode
03 p0501 A70-13723

Longitudinal and transverse mode locking in laser with passive filter, discussing giant pulse development and duration
03 p0502 A70-13746

He-Ne multimode laser radiation peak as function of pressure in methane-containing absorption cell installed in resonator
03 p0502 A70-13750

Frequency pulling and pulse position modulation of CW GaAs injection lasers by locking signal frequency variation
03 p0502 A70-13815

Power stabilization of single mode monochromatic carbon dioxide laser, using grating in cavity
03 p0503 A70-14076

Laser with nonresonant feedback calculated for single mode and total radiation fields correlation functions from Heisenberg equations

03 p0503 A70-14175

Gain interaction among oscillating modes of gas laser analyzed from rate equations viewpoint

03 p0503 A70-14208

Pico-nanosecond light pulses from mode-locked Nd glass laser with spectral mode selector, noting correspondence between pulse duration and inverse bandwidth

03 p0503 A70-14210

Laser beam broadening in atmospheric propagation from Born approximation and Gaussian model, showing no contribution by second scattered field

04 p0701 A70-14963

Mode patterns and losses for laser resonator with identical tilted spherical rectangular reflectors in stable and unstable configurations

04 p0701 A70-15021

Wavelength selection in Q switched carbon dioxide laser by intracavity gas cell providing selective absorption

04 p0702 A70-15362

He-Ne-Cd II laser operation modes for optimum pressure fill, obtaining red to blue outputs by varying current and/or temperature

04 p0702 A70-15366

Flashlamp pumped coumarin dye laser mode locked by intracavity loss modulation operating in blue region

04 p0703 A70-15622

Photostability of Nd-activated glass elements as function of dopant concentration and laser mode operation

05 p0858 A70-16266

Optical resonator reaction to coupled laser frequency, attributing differences between theory and experiment to errors in mirror reflection efficiency measurement

05 p0859 A70-16354

Frequency reaction of optical resonator to coupled laser in mismatch case, measuring laser and resonator axes displacements

05 p0859 A70-16355

Length shifts measurement with single 2-mode laser by observing beat frequency, obtaining frequency shift proportional to length shifts

05 p0859 A70-16356

Monograph on He-Ne laser beam noise properties and intensity fluctuations during single mode operation

05 p0860 A70-16559

Center dip formation in curve relating output power and frequency of carbon dioxide laser line operating in single mode on single wavelength

05 p0860 A70-16667

Frequency response of 6328 A He-Ne laser interferometer analyzed for multimode oscillations noting plasma diagnostics applications

05 p0861 A70-16989

Continuous passive mode locking of carbon dioxide laser cavity using long optical delay line

06 p1080 A70-17446

Single mode neodymium laser second harmonic radiation self focusing resulting in filamentary fractures in solid dielectrics

06 p1080 A70-17496

Weinstein approximation and iteration by digital computer for calculating disturbed Fabry-Perot laser resonator modes

06 p1081 A70-17546

Photon number per mode for laser with nonresonant feedback for homogeneous and inhomogeneous atomic line broadening

06 p1081 A70-17746

Laser mode interaction characteristics determination using resonator field equation taking into account competition and coupled modes

06 p1081 A70-17765

Ring laser frequency characteristics at two longitudinal modes emphasizing intermodal pulse frequencies

06 p1081 A70-17769

Time characteristics of pulsed calcium fluoride-dysprosium laser in single mode, observing constant emission and peak regime

06 p1082 A70-17808

Optical third harmonic generation in ADP crystals using mode locked and nonmode locked lasers

06 p1082 A70-17943

Two cavity mode locking of He-Ne laser using electro-optic phase modulator

06 p1083 A70-17947

Radiation from nonlinear polarization sideband in Ar lasers, discussing anomalous beat notes and mode locking phenomena

06 p1083 A70-17949

Transverse mode locking for carbon dioxide laser achieved with nonlinear boron chloride absorber, observing emission spatial buildup

06 p1083 A70-18425

Two mode gas laser behavior under external signal action showing mode locking possibility by combination frequencies due to medium nonlinearity

07 p1296 A70-18764

Kinetic theory of laser emission on band impurity transitions, noting spatial homogeneity effect on laser mode

07 p1299 A70-19852

Resonator aberrations and active element imperfections effect on formation of spatial and angular structures of solid state laser modes

07 p1299 A70-19854

Self pulsation in He-Cd laser, noting decreasing number of modes effect on beat frequency stability

07 p1301 A70-20017

Self mode locked pulses with rotating mirror Q switched carbon dioxide laser, attributing pulse shortness to saturation broadening of spectrum

07 p1301 A70-20018

Holograms produced with pulsed argon-ion lasers operating in singly oscillating transverse modes

07 p1287 A70-20088

Coherence improvement of ruby laser emission in free mode using corrective holograms in resonator

07 p1303 A70-20323

Solid state lasers with strongly degenerated modes investigated for induced radiation spectral composition inertial properties

08 p1510 A70-20507

Longitudinal modes competition in He-Ne laser, studying effects of active medium isotopic composition and pressure

08 p1511 A70-20518

Neodymium laser frequency doubling based on nonlinear functional relation between polarization and electric vector in matter

08 p1512 A70-20677

Mode locked laser pulse chopping by interferometrically combined electro-optical frequency shifters

08 p1513 A70-21541

Single mode He-Ne ring laser lock-in threshold and output power relationships to frequency

08 p1514 A70-21692

Spatial and energy characteristics of laser with nonuniform transmittance across resonator mirrors, analyzing transverse modes interaction

08 p1514 A70-21816

He-Ne laser emission in transverse oscillation mode, analyzing spatial and temporal coherence characteristics

09 p1694 A70-22135

Pulse train transition in Nd-YAG and He-Ne lasers mode-locked by intracavity phase modulator

09 p1697 A70-22919

Single mode output power at 6328 A spectral line during He-Ne laser oscillation simultaneously at 6328 A and 3.39 microns

09 p1697 A70-22957

Transverse mode distortions in high gain giant pulse laser oscillators associated with gain saturation effects

09 p1698 A70-23361

Mode coupling and intensity pulsations observed between two 6328 A He-Ne lasers through nonlinear gain characteristics of inverted population

09 p1699 A70-23363

Subnanosecond laser pulses for plasma production obtained via mode selecting uncoated flats inserted in laser cavity

09 p1699 A70-23364

Optical resonators formed by spherical mirrors, deriving mode density-output power relationship by ray analysis

09 p1729 A70-23521

Amplifier properties and oscillator mode structure of multipath carbon dioxide laser

09 p1699 A70-23538

Single-pass multimode carbon dioxide laser amplifier power gain optimization

10 p1897 A70-23815

Ge-Cu IR detector photoconducting characteristics and application to carbon dioxide laser mode pattern measurement

10 p1898 A70-23922

Neodymium glass laser fundamental frequency spatial structure effects on KDP crystal second harmonic generation efficiency, describing optimal system for laser beam shaping

10 p1899 A70-24262

He-Ne laser IR generation in three mirror mismatched resonator, using Fabry-Perot interferometer to study mode and lasing range frequency shift

10 p1900 A70-24265

Circular confocal laser with coupling aperture in mirror for maximum power output in specified mode, calculating field distributions and diffraction losses at reflectors

10 p1900 A70-24941

Axial mode selection and frequency stabilization of Nd-YAG laser by optimally designed crystal quartz etalon

10 p1900 A70-24943

Length shifts measurement with two mode laser, noting frequency shift proportionality to mirror displacement

11 p2062 A70-25632

Divergence measurement of beam emitted by ruby laser in relaxation mode as function of cavity length and excitation voltage

11 p2063 A70-26462

Auto-oscillatory regimes in annular gas laser under coupling due to scattering, considering mode competition

11 p2064 A70-26811

He-Ne lasers mode locking by self beat feedback between cavity modes, achieving nonlinear control by circuit adjustment

12 p2245 A70-27273

Steady state two frequency laser emission threshold and intensity, studying effects of two photon transitions and optical transition probabilities-radiation density relations

12 p2245 A70-27301

Ruby laser with electro-optical Q switching, using polarization element for emission spectrum narrowing to single longitudinal mode

12 p2245 A70-27303

Optical resonator with active medium and lenses, determining caustic surface, radiation characteristics, transverse modes, focusing conditions, etc

12 p2246 A70-27309

Coupled lasers kinetic operating characteristics, discussing emission power damping

12 p2246 A70-27315

Emission spectrum of He-Xe CW laser with nonresonant feedback mode achieved with scattering agent and various mirror schemes

12 p2246 A70-27354

Single mode TW ruby laser with ring resonator, analyzing emission spectral characteristics by Fabry-Perot etalon

12 p2246 A70-27356

Composite resonator for semiconductor laser to increase single mode power generation, determining optimal length of passive part

12 p2247 A70-27484

Brightness distribution in hologram generated image modulated by square of temporal-spatial coherence modulus of laser emitting longitudinal and transverse modes

12 p2233 A70-27503

Local losses distribution effect on intensity and opposing waves generation in ring gas laser analyzed in approximation of noninteracting modes

12 p2248 A70-27510

Interferometric combinations of frequency-shifted mode-locked laser pulses achieved by optical modulation-demodulation methods

12 p2249 A70-27755

Submillimeter range HCN gas laser design and characteristics, noting single mode, linear polarization and output power

12 p2250 A70-28180

Triple passage crystal amplifier of single frequency ruby laser emission, noting radiation structure and coherence

12 p2250 A70-28183

Optical resonator longitudinal modes selection, comparing Michelson interferometer, internal slanted Fabry-Perot interferometer and absorbing film methods

12 p2251 A70-28290

Coherence brightened /superradiance/ laser, discussing conditions for atomic energy single pulse radiation

12 p2251 A70-28369

Three mirror resonator He-Ne laser output spectra, studying frequencies and intensities of generated modes

13 p2424 A70-28595

Two mirror astigmatic resonator mode fields and stability determined by writing Fredholm equation suitable to geometrical optics approximation

13 p2424 A70-28596

Transverse laser modes interaction in traveling and standing wave generators allowing for spatial distribution

13 p2424 A70-28597

Hanle effect in single mode He-Ne laser, observing spontaneous emission on different spectral lines and estimating lifetimes of Ne excited states

13 p2424 A70-28598

Power output dependence on cavity configuration of He-Ne laser in TEM mode operation

13 p2425 A70-28625

CW mode locked lasers picosecond pulse widths and shapes measured, determining harmonics and Fourier expansion

13 p2425 A70-28794

Transparent polymeric materials failure under neodymium-glass laser radiation in free generation mode

13 p2427 A70-29300

Laser cavity modal volume-output power relationship, deriving expression for interaction region

13 p2427 A70-29359

Solid state laser transverse modes maximum dependence on resonator geometrical parameters usable for producing stable kinetic emission mode with narrow spectral line

13 p2428 A70-29410

Giant pulses composed of shorter pulse trains obtained in Q switched carbon dioxide laser with transverse modes

13 p2429 A70-29412

Temporal structure and spectral evolution of Nd laser emission with self locking axial modes, noting gain saturation effects

13 p2430 A70-29776

Continuous operation He-Ne lasers, discussing excitation, structural and optical design, mode selection and performance specifications

14 p2593 A70-30353

Single mode gas laser theory for arbitrary field intensities in terms of ensemble averaged form of density-matrix equations of motion

14 p1594 A70-31361

Opposing mode interaction effect on ring laser unidirectional emission instability, discussing homogeneous and inhomogeneous line broadening

15 p2749 A70-31552

Atomic collision effect on frequency range of opposing traveling wave modes in gas ring laser, using density matrix equation

15 p2749 A70-31553

Luminescent line broadening effect on axial mode selectivity in pulsed neodymium lasers with Fabry-Perot resonator at above-threshold pumping power

15 p2749 A70-31554

Scattering function and image quality in sharp edge holography using single mode laser, analyzing coherent and diffuse light

15 p2733 A70-31556

False signal in scanning interferometer for helium-neon lasers in single and simultaneous TEM modes

15 p2749 A70-31557

CW nonspiking single mode ruby laser operation by end pumping ruby with CW argon ion laser output

15 p2751 A70-31981

Mode controlled Q switched tuneable ruby laser, obtaining frequency scanning by temperature and pressure control

15 p2752 A70-32048

Single mode gas laser with large saturation and dispersion effects, discussing resonator alignment to spectral line frequency

15 p2752 A70-32196

Mirror damage problem with mode locked ruby laser system solved by rough stack mirror fabricated from microscope coverslips

15 p2753 A70-32546

CW argon lasers simultaneous mode selection and phase locking by electro-optic KDDP crystals

15 p2753 A70-32610

Ruby and neodymium glass free running lasers output power modulation relationship to excited modes and active rod position in resonator

15 p2753 A70-32822

Mode locked laser emission intensity correlation measurements by two photon fluorescence (TPF) technique to determine temporal behavior, discussing domain model

16 p2928 A70-33286

Laser mode matching to obscured circular aperture of optical telescope system in terms of antenna gain

16 p2929 A70-33982

Mode locked He-Ne laser nsec pulses propagation along multimode cladged glass fibers

16 p2865 A70-34039

Nd-glass laser operation in giant pulse mode with passive or optomechanical shutter, noting applications

16 p2929 A70-34211

Hydrogen plasma refractive index and absorption constant for laser radiation frequencies as functions of electron temperature and atomic density

16 p2959 A70-34338

High-power Q switched solid state laser radiation intensity measurement methods for multi and single modes

17 p3105 A70-35094

Single frequency Ar ion laser, discussing power and frequency stability

17 p3105 A70-35095

Gas laser phase locking due to loss modulation with double mode spacing

17 p3107 A70-35474

Internally loss modulated multimode ring gas laser, showing pulse peak intensity with detuning for phase locking

17 p3107 A70-35475

He-Cd pulsed laser mode locking at 4416 and 3250 Å using intracavity acoustic loss modulator

18 p3266 A70-36314

Laser mode locking theory, explaining subpicosecond structure and frequency chirp

18 p3266 A70-36315

Nonequidistant structure of axial mode spectrum of ruby laser with plane dielectric mirrors

18 p3266 A70-36418

Luminescence decreases in laser active medium operating in free emission mode, using kinetic equations for integral and spectral level populations

18 p3267 A70-36615

Gain and loss processes in GaAlAs-GaAs heterostructure lasers as functions of current and cavity length

18 p3268 A70-36728

Resonant modes of GaAs junction laser beams with Hermite-Gaussian rectangular symmetry, using stripe geometry with lens-slit combination

18 p3268 A70-36732

Regular relaxation oscillations of ruby laser by moving resonator mirrors

18 p3271 A70-36954

Two mode gas laser behavior under external signal action showing mode locking possibility by combination frequencies due to medium nonlinearity

18 p3271 A70-37108

Monograph on gas laser dynamics, emphasizing single mode intensity measurement as function of cavity loss in He-Ne laser

19 p3446 A70-37978

Gallium aluminum arsenide-GaAs laser diodes properties and applications for CW operation, discussing p-GaAs layer thickness effects

19 p3447 A70-38454

Solid state laser with transverse mode selection to increase brightness, discussing plano-concave resonator

19 p3447 A70-38508

Ultrashort light pulse generation by self mode locking laser, discussing power amplification problems

19 p3448 A70-38509

Single frequency ruby laser with electro-optical Q switching, selecting transverse and longitudinal modes by stepwise voltage application to shutter

19 p3448 A70-38737

Giant pulse neodymium glass laser emission spectrum structure, showing cavity geometry effect on fine structure

20 p3641 A70-39450

Cavity mode mixing effects in internally scanned lasers, considering various geometries and coupling parameters for continuous transverse aperture velocity

21 p3835 A70-40720

Q switched free running mode-locked lasers with cavity mirror consisting of thin glass plates suitable for high power use

21 p3836 A70-40807

YAG-ND laser volume limits condition for high power fundamental mode operation

21 p3836 A70-40808

Mode intensity fluctuations in unlocked multiple mode He-Ne laser related to LF noise

21 p3837 A70-41918

Threshold retinal damage by CW He-Ne lasers due to mode locking

21 p3771 A70-41997

Pulse velocity and mode pulling in inhomogeneously broadened laser with equally spaced modes, noting pulse shape time stability in presence of dispersion

21 p3838 A70-42008

Semiconductor platelet laser stimulated emission visual observation in unwanted reflected modes

21 p3838 A70-42022

Accurate tuning methods for laser mode locking device, using diffracted light measurement and photodiode with LF spectrum analyzer

21 p3838 A70-42047

Host materials for increasing optically pumped solid state CW laser fundamental mode output power

22 p4048 A70-42333

Thin optically pumped pulsed CdSe platelet lasers, detecting mode jumping and tuning effects by time-resolved spectroscopy

22 p4049 A70-42946

He-Ne gas laser, construction, operation and characteristic mode patterns

22 p4049 A70-42959

Frequency modulated gas laser communication system, discussing Raman-Nath effect, Doppler shifting phase grating, monochromatic light, pseudostanding wave, optical heterodyne detector, etc

22 p3989 A70-42966

LF cavity loss modulations of homogeneous four-level CW Nd-YAG laser, including relaxation-oscillation regime

22 p4050 A70-43005

Passive Q switching and mode locking of carbon dioxide laser with saturable absorbers and buffer gases, using electric pulse excitation

22 p4050 A70-43023

Longitudinal, transverse and simultaneous longitudinal-transverse gas laser mode locking

22 p4051 A70-43329

Ruby laser mode excitation, spatial coherence and free emission kinetics investigated by high speed camera scanning

22 p4051 A70-43461

Ruby and Nd glass solid state lasers modes partial self synchronization investigated by spectral time resolution method

22 p4051 A70-43463

Emission spectrum of He-Xe CW laser with non-resonant feedback mode achieved with scattering agent and various mirror schemes

22 p4052 A70-43597

Solid state high energy light detector for pulsed ruby and glass lasers in long pulse mode

22 p4052 A70-43614

Nd-glass mode-locked laser with KDP crystal frequency doubling and pulse selection with Pockels cell

23 p4201 A70-44476

High gain Xe laser effects on longitudinal mode splitting, noting increased frequency of radiation propagation through highly dispersive medium

23 p4201 A70-44918

Reynolds stress measurement, using laser flowmeter with cylindrical lenses and square aperture mask

23 p4202 A70-44945

Axial modes interaction in He-Ne laser with atomic collisions in active medium, computing intensities and emission frequencies

23 p4202 A70-45053

Auto-oscillatory regimes in annular gas laser under coupling due to scattering, considering mode competition

24 p4351 A70-45183

Single mode dye and Nd glass lasers axial mode selection by dye filters, noting radiation spectra and spatial coherence

24 p4352 A70-45462

Laser kinetics based on exothermal chemical reactions for electron transition stimulation, emphasizing single mode operation

24 p4354 A70-45656

Time evolution of instantaneous light intensity mean and variance for Q switched single mode laser near oscillation threshold

24 p4355 A70-46090

Mode locked laser pulses picosecond structure predicted from theoretical model of Gaussian random radiation field with temporal envelope modulation

24 p4355 A70-46263

LASER OUTPUTS

Michelson interferometer with movable mirror using laser beam to measure linear by counting fringes number, discussing design features

01 p0085 A70-10032

Hyperbolic type gas lens design and focusing characteristics for use in laser light beam waveguide

01 p0106 A70-10033

Spectral efficiency of coaxial flash lamp pumping gas laser, noting dependence on geometrical and physical parameters of source and active body

01 p0106 A70-10061

Gas laser beams divergence at various laser power levels vs resonator nonconfocality

01 p0106 A70-10062

Ar ion laser with high discharge current density observed for working level populations by simultaneously measuring power gain and spontaneous emission lines intensity

01 p0106 A70-10063

Output power and gain saturation characteristics for high speed flowing gas molecular lasers, discussing electrically excited fluid mixing carbon dioxide laser

01 p0107 A70-10103

Argon CW lasers stationary thermal self focusing in various absorbing crystals and glasses

01 p0107 A70-10207

Ruby ring lasers unidirectional emission obtained by using Faraday rotator with small polarization plane rotation angle

01 p0107 A70-10208

Optical paths inequality of nonuniform power opposing waves in ring lasers

01 p0107 A70-10209

CW laser perturbation by coupled optical transition at strong pumping with incoherent and coherent perturbing radiation, considering disappearance of laser effect

01 p0108 A70-10231

Difference frequency generation by resonant three photon process during optical mixing in ruby laser medium with simultaneous emission of optical transitions

01 p0108 A70-10350

Optical data display involving laser light deflection by vibrating mirrors actuated by mechanical resonators

01 p0108 A70-10355

Coherent short wave and UV radiation generation using continuous ion gas laser, discussing efficiency, stability and feedback effects

01 p0108 A70-10356

Laser processing applied to optical nondestructive materials tests for surface flaws

01 p0086 A70-10416

Length measuring systems based on Michelson type interferometers, laser sources, fringe counting electronics, ambient air compensation, fringe-inch conversion and digital display

01 p0108 A70-10418

Confocal parameters, spot sizes, waist positions and stability conditions of astigmatic Gaussian beams formed by spherical mirror laser cavity resonators

01 p0108 A70-10426

Gas laser beams short time constant and thermal self defocusing following small spot focusing on thin dye sample

01 p0109 A70-10431

He-Ne gas laser simultaneous oscillation detection based on output power modulation due to variable path length element placed in cavity

01 p0109 A70-10434

Critical impurity concentrations of He-Ne laser quenching determined with mass spectrometer, giving impurities molecular weight and ionization potential for input powers

01 p0110 A70-10491

Superradiant traveling wave laser emission observed with polymethine cyanine dyes pumped by mode locked ruby laser for picosecond duration pulse generation

01 p0110 A70-10564

Frequency locking of flashlamp pumped Rhodamine 6G dye lasers to D lines of Na vapor by Faraday rotation, noting doublet splitting

01 p0110 A70-10568

Threshold laser power density-atom density relation in cesium vapor optical breakdown, suggesting two photon ionization process

01 p0110 A70-10569

Sulfur compound effects on carbon monoxide-nitrogen laser emission stability, obtaining continuous operation independently of tube quality

01 p0111 A70-10660

Raman effect liquid laser power as function of cavity length, using Q switched ruby laser beam focused by cylindrical lens for optical pump

01 p0111 A70-10674

Noise power spectrum characteristics for He-Ne laser as function of discharge characteristics, measuring effect of cold vs hot cathodes

01 p0111 A70-10745

Real time recording and permanent display, using high power energy density focused Ar laser beam for ink transfer

01 p0111 A70-10782

IR CW sum-frequency up-conversion of carbon dioxide laser radiation using phase matched proustite as nonlinear crystal

01 p0111 A70-10786

Laser radiation effects on eye, quantifying light necessary for coagulation for retinal detachment surgery, discussing risks in laser surgery

01 p0037 A70-10859

Gas laser technology, discussing light emission and absorption by gas discharges and basic properties of He-Ne, Ar ion and carbon dioxide lasers

01 p0112 A70-10875

Matrix method applied to achromatic linear phase plates design for polychromatic Ar lasers half wave phase shift

01 p0113 A70-10988

Polarization level dependence of dye lasers emission on angles between direction of forced radiation and pumping laser resonator axis

01 p0113 A70-11037

Laser beam technique applied to thermal shock testing of metal disks, using solid state laser, compared to predicted results

01 p0113 A70-11058

IR radiation absorption from carbon dioxide laser in supersonic gas jet, applying results to nitrogen-carbon dioxide gas dynamic laser action

01 p0148 A70-11123

Optical parametric oscillator pumped by continuously repetitively Q switched Nd:YAG laser output

01 p0113 A70-11171

Pulse propagation inside laser cavity containing amplifying medium and material displaying optical Kerr effect, predicting ultrashort pulses

01 p0113 A70-11177

Atmospheric density profiles based on laser radar return from ruby laser detected by photomultiplier

01 p0079 A70-11220

High output neodymium glass laser with small emission divergence angle using four lamp pumping system

01 p0114 A70-11267

CW laser ranging systems power and signal to power ratio characteristics, finding possible advantages over pulsed systems

01 p0114 A70-11321

He-Ne laser amplifier photon density, bandwidth and gain as functions of inversion and excited Ne atoms density

01 p0114 A70-11357

Ruby laser Q switching by chlorophyll d and derivatives, discussing peak output power

01 p0114 A70-11391

Numerical solutions for laser beams intensity focused by simple lenses with varying primary spherical aberration, demonstrating isophote nonuniformity role in biomedicine

01 p0000 A70-11650

Satellite positions from simultaneous measurement by laser along geocentric arc usable for determining earth mass center position

02 p0253 A70-11752

Thermal resonator effects on YAG-Nd laser rods with dielectric covered ends, using resonant model to study continuous or half wave operation

02 p0311 A70-11850

Ionized Ar laboratory laser development using Fabry-Perot etalon cavity and amplifying plasma obtained by electric current passage under pressure

02 p0311 A70-11869

Semiconductor laser quantum mechanical rate equations derivation to determine temperature and current dependences of light output properties, indicating numerical calculations for GaAs

02 p0311 A70-11884

Focal length-to-aperture ratio for maximizing collection of scattered light at right angles to illuminating laser beam used in Raman spectroscopy

02 p0311 A70-11888

Error probability, signal to noise ratio and average signal level for coherent heterodyne and photon limited laser communication systems, using Poisson distributions

02 p0255 A70-11914

GaAs injection laser operated with external optical resonator for diffraction-limited radiation, considering peak power and quantum efficiency

02 p0311 A70-11920

Kr, Xe and W-iodine lamps efficiencies for pumping Nd-doped YAG compared for use in high continuous power lasers

02 p0311 A70-11922

Spherical detonation waves propagation initiated by laser-induced spark in gaseous explosives, discussing propagation energy regimes

02 p0278 A70-12029

High power pulsed lasers development compared to thermal light sources, discussing applications to nonlinear optics

02 p0312 A70-12070

Local thermodynamic equilibrium conditions in superhigh pressure He plasma produced by laser action, obtaining threshold electric field relationship with gas pressure and temperature

02 p0312 A70-12078

Speckle pattern in image plane of laser illuminated diffuse object, calculating pattern intensity and contrast

02 p0312 A70-12106

Banana self focusing in water of laser beams with nonmonotonic intensity distribution, noting ruby laser experiment

02 p0312 A70-12260

High intensity pulsed laser radiation scattering by free electrons, studying linearly polarized incident radiation

02 p0312 A70-12276

Acoustic transients in mammalian eye induced by normal and Q switched laser pulse absorption

02 p0313 A70-12325

Ruby laser light wavelength temperature dependence measurement using Fabry-Perot etalon

02 p0313 A70-12440

Ruby laser emission wavelength temperature dependence measured spectrographically

02 p0313 A70-12441

Gaussian laser beams diffraction by straight edge bounding opaque plane on basis of Kirchhoff scalar wave theory in Fresnel limit

02 p0313 A70-12456

Partial coherence in spontaneous Raman effect, using He-Ne laser source

02 p0313 A70-12465

Book on ruby laser output power calculation as function of pumping efficiency, considering energy density distribution, absorption, induced emission and excited Cr ions

02 p0314 A70-12692

Photoelectronic measurement of distance from laser beam axis to reference plane, discussing applications to surveying, vibration measurements and atmospheric investigations

02 p0314 A70-12785

Polymethylmethacrylate block breakdown under focused pulsed laser radiation in free emission regime, noting light absorption during crack development

02 p0314 A70-12813

Quasi-classical theory of solid state lasers generation and amplification, describing radiation by Maxwell equations and atoms in external fields by Schroedinger equation

02 p0315 A70-12832

Interferential picture visibility in turbulent atmosphere measured at large path differences with Michelson-Twyman-Green interferometer using He-Ne laser radiation source

03 p0498 A70-12869

Threshold energy value of organic laser emission from coronene in methyl-cyclohexane-isopentane at 100 K

03 p0498 A70-12878

Laser emission action at 4880 Å in plasma discharge from injecting electron beam into Ar at different pressures

03 p0530 A70-13063

Molecular beam laser short term frequency instability found dependent on laser and measuring device noise

03 p0455 A70-13091

Refractive index perturbation from energy absorbed from long pulsed and Q switched Nd doped glass lasers, observing sonic waves generated by Q switched laser

03 p0498 A70-13156

Angular dependence of one dimensional first and second index matching for optical parametric mixing of laser and SRS Stokes beams for tunable laser source

03 p0498 A70-13157

Opposing cavity modes interference effect on passive Q switched ruby laser energy yield

03 p0499 A70-13213

Phonon-photon scattering intensity and line shape used to study laser-excited impurity centers dynamic characteristics in stimulated induction regime

03 p0499 A70-13256

Linearly polarized radiation in Nd-glass laser obtained without energy loss by placing glass plates in resonator at Brewster angle to axis

03 p0499 A70-13257

Vibrational relaxation and optimum population inversion of carbon dioxide molecules under unsteady conditions during pulsed electron excitation, discussing laser output increase

03 p0528 A70-13408

Thermoelastic stresses in diode of pulsed and CW injection lasers, showing energy parameter limitation

03 p0499 A70-13437

Population inversion coefficient as function of optimal impurity concentrations and efficiency of ruby quantum paramagnetic amplifier in 3 cm range

03 p0499 A70-13457

Frequency measurement for HCN laser at 0.357 and 0.311 mm wavelength by mixing signal with backward wave tube harmonics

03 p0500 A70-13464

Complex profile aspherical mirrors used in He-Ne gas laser to obtain single mode emission

03 p0500 A70-13465

Energetic and temporal characteristics of CW and pulse laser radiation measured using instrument with absolute sensor

03 p0500 A70-13480

Ponderomotive meter for laser energy and power measurement, discussing mechanical design and elimination of radiometric and convection disturbances

03 p0500 A70-13481

Population inversion distribution effect on resonator losses of Nd-glass laser, showing threshold limits

03 p0500 A70-13527

Longitudinal magnetic field effect on output power and emission polarization of CW Ar laser employing Brewster windows

03 p0500 A70-13529

Interferogram contrast as spatial frequency function measured for photographic materials used in holography by He-Ne laser

03 p0485 A70-13530

Plastic film precise perforation using carbon dioxide laser and optical tooling permitting double exposure to laser beam

03 p0497 A70-13565

He-Ne laser using K-activated alumina cold cathode and coaxial construction, discussing output, low noise applications, construction and testing

03 p0501 A70-13583

Laser irradiation of RF plasmoid producing electron density increase, discussing resonance sustained RF discharges, mode locking, laser photodetachment, etc [ONERA-TP-751]

03 p0501 A70-13630

Automatic aiming system for laser range finders using directional information carried by light beam transmission [ONERA-TP-761]

03 p0450 A70-13637

Modified Smith-type reflector for long laser cavities using etalon without coatings instead of usual beam splitter, discussing output characteristics

03 p0501 A70-13648

Third harmonic generation detection for strongly absorbing media in reflection with neodymium-glass mode-locked laser, measuring nonlinear susceptibilities of semiconductors and metals

03 p0501 A70-13649

Scattered light photoelastic stress analysis using doubly refracting materials and lasers

03 p0594 A70-13657

Laser transmitter and optical superheterodyne receiver performance tests at 6328 Å, demonstrating aperture size effect and noncoherent operation superiority

03 p0450 A70-13675

Biological hazards of laser radiation, noting eye injuries and cataract from transscleral exposure on rabbits

03 p0434 A70-13679

Laboratory and field laser hazards control, noting beam termination in outdoor environment and optical density marking on protective eyewear

03 p0434 A70-13681

Spectroscopic calibration of laser lines at simultaneous carbon dioxide and nitrous oxide transitions in gas flow, showing abnormal line intensity

03 p0501 A70-13685

Discharge tube rotation effects on ring laser polarization, Q factor and radiation frequency

03 p0501 A70-13744

Power losses in ruby laser with polarized spontaneous luminescence determined as function of laser parameters and light polarization

03 p0502 A70-13747

Bouguer single-scatter theory applicability dependence on angular aperture of receiver and laser beam parameters in water mists

03 p0451 A70-13756

Holographic method for measuring optical instruments transfer function, using laser light source and beams interference

03 p0493 A70-13946

Flash lamp illuminated ruby laser operating with ordinary or extraordinary polarization, measuring gain or absorption

03 p0502 A70-13954

Power stabilization of single mode monochromatic carbon dioxide laser, using grating in cavity

03 p0503 A70-14076

Simple approximations for threshold current, gain and lasing frequency of GaAs injection laser at room temperature

03 p0503 A70-14085

Laser amplifier electromagnetic field in arbitrary quantum mechanical state, deriving complex amplitude distribution function to calculate phase uncertainty

03 p0503 A70-14174

Laser with nonresonant feedback calculated for single mode and total radiation fields correlation functions from Heisenberg equations

03 p0503 A70-14175

Superfluorescence losses in large aperture disk laser systems using Monte Carlo method, determining maximum population inversion from enhanced photon flux density considerations

03 p0503 A70-14209

Pico-nanosecond light pulses from mode-locked Nd glass laser with spectral mode selector, noting correspondence between pulse duration and inverse bandwidth

03 p0503 A70-14210

Laser cavity structure for homogeneous transverse discharge in carbon dioxide-nitrogen-helium mixtures, discussing energy and power increase per unit volume

03 p0503 A70-14357

Light spark and rapid nonlinear effects in focusing powerful light by longitudinal beam

04 p0718 A70-14405

French laser reflectors for lunar telemetry functioning with ruby laser, discussing applications to lunar orbital parameters, continental drift, gravity constant secular variations, etc

04 p0700 A70-14609

Light pulses propagation in nonlinear laser medium, obtaining equations of motion for density matrix

04 p0700 A70-14687

Laser emission intensity fluctuations influence on optical second and higher harmonic production and optical mixing arising from multimode oscillation

04 p0701 A70-14688

UHF self modulation in GaAs laser coupled to external cavity, focusing convergent beam on external mirror

04 p0701 A70-14718

Laser beam broadening in atmospheric propagation from Born approximation and Gaussian model, showing no contribution by second scattered field

04 p0701 A70-14963

Temporal isolation between pulsed orthogonal polarization state laser beams, showing selection dependence on sampling time

04 p0701 A70-15032

Saturable Q switch of cryptocyanine used in ruby laser for pulse sharpening, describing dye sensitivity to solar radiation

04 p0701 A70-15035

Laser communication system for outer space, beam guiding and fiber optical guiding systems

04 p0649 A70-15038

Admixtures effect of chloroform, diethyl ether and acetone vapors on carbon dioxide laser output power

04 p0702 A70-15202

Optical effects in parallel glass fibers irradiated by He-Ne laser beam, studying resonance tunneling and periodic power repumping between fibers

04 p0702 A70-15215

Light signals amplification efficiency, considering double-pass regenerative amplifier

04 p0702 A70-15225

Laser gain investigated for amplifications of short emission pulses in neodymium glass, discussing line broadening nonuniform mechanism

04 p0702 A70-15226

Polarization effects of helium-neon laser emission at 3.39 micron wavelength investigated in longitudinal and transverse magnetic fields

04 p0702 A70-15227

Transient molecular vibrational excitation by picosecond laser pulses found dependent on shape of Stokes pulses in Raman scattering study

04 p0702 A70-15298

He-Ne-Cd II laser operation modes for optimum pressure fill, obtaining red to blue outputs by varying current and/or temperature

04 p0702 A70-15366

Optically trapped filaments in liquid carbon disulfide by side illumination and crossed polarizers using glass laser, noting birefringence and duration time

04 p0703 A70-15619

Saturation induced wave front distortions effect on beam divergence and frequency modulation in laser amplifiers, discussing refractive index changes

04 p0703 A70-15620

Self induced light pulses from GaAs injection lasers in pulse driven diodes at liquid nitrogen temperatures, noting pulse width and frequency

04 p0703 A70-15623

Aminocoumarin derivatives and 2-hydroxyquinoline compounds for flash pumped organic lasers

04 p0703 A70-15624

Laser action observation on IR bands of first positive system of molecular nitrogen using pulsed excitation

04 p0704 A70-15625

Continuous wave chemical laser operation in carbon dioxide pumped by vibrational energy released from DF and HF molecular formation

04 p0704 A70-15686

Power distribution in carbon dioxide laser resonator with external and internal mirror at different power levels

05 p0857 A70-15796

Sonic waves induced by shock of laser produced brass and graphite vapor in air at atmospheric pressure using high speed shadowgraphs

05 p0857 A70-15802

Fusion reactions generation by high power laser beams focused on solid deuterium target

05 p0857 A70-15992

Laser characteristics relevant to microwelding and micromachining, discussing heat conduction based models limitations

05 p0857 A70-15999

Ruby laser giant pulses time stretching and shaping using stimulated Raman scattering in liquid nitrogen cell inserted in laser resonator

05 p0857 A70-16076

Projection display methods using scanned and modulated multicolor laser beams, discussing beam generation, modulation and scanning

05 p0858 A70-16188

High speed photographic study of breakdown, crack formation, thermal explosions and molecular weight of transparent plastic dielectrics under laser beam

05 p0869 A70-16210

Laser pulse registration with pyroelectric detector, noting pyroelectric phenomenon inertia limiting effect on response time

05 p0858 A70-16250

Spectral and lasing characteristics of microwave frequency modulated He-Ne laser operating at 0.63 micron wavelength

05 p0858 A70-16257

Laser beam for measuring particles velocity in two phase air-water jets by heterodyning, describing signal properties

05 p0858 A70-16258

Power output of gas laser pumped by laser contained in single resonator

05 p0858 A70-16259

Gain measurement in He-Ne laser based on small modulation of discharge current

05 p0859 A70-16267

High power giant pulse YAG laser using nonlinear material to achieve complete second harmonic conversion in intracavity experiment

05 p0859 A70-16470

Laser atmospheric backscatter measurements using frequency shifted Raman scatter and Rayleigh components for separating returns due to gaseous and aerosol components

05 p0859 A70-16476

Laser beam modulation by electro-optic devices, investigating modulator characteristics in longitudinal and transverse configurations

05 p0860 A70-16489

Laser radiation coherence origin explainable by mechanism consisting of many photon emission process by many atoms

05 p0883 A70-16500

Transverse Doppler effect of laser beam retroreflected from artificial satellite predicted by special relativity theory, noting transformations

05 p0860 A70-16653

Aperture dissection scheme to reduce transit time of Bragg angle acousto-optical scanning of laser beam

05 p0860 A70-16657

Laser Doppler velocimeter directly measuring detected frequency with passive confocal Fabry-Perot interferometer

05 p0860 A70-16658

Hologram constructed with microwaves with image reconstruction at optical wavelengths using laser

05 p0849 A70-16659

Center dip formation in curve relating output power and frequency of carbon dioxide laser line operating in single mode on single wavelength

05 p0860 A70-16667

Ocean surface roughness time variation effect on incident laser beam, analyzing motion picture data by computer program

05 p0860 A70-16687

Lasers for optical inspection of components and calibration of machine tools

05 p0860 A70-16823

Laser interferometer for earth strain study, measuring Michelson arm length changes by counting fringes in interference pattern

05 p0861 A70-16843

Optical surface degradation during measurements with high power laser, considering atmospheric dust and cleaning solvents

05 p0861 A70-16848

Q spoiled laser bombardment to obtain atomically clean surfaces in vacuum, noting damages

05 p0861 A70-16990

Doppler shift of laser beam reflected from shock wave measuring velocity through optical mixing

05 p0852 A70-16993

Displacement measurement to fractions of micron using laser interferometer

06 p1060 A70-17149

Properties of unstable confocal resonator used with carbon dioxide-nitrogen-helium laser, using geometric models and measurements

06 p1079 A70-17188

Light scattering at 90 deg from laser-induced breakdown plasmas in air, discussing origin

06 p1114 A70-17189

Steady state thermal defocusing of carbon dioxide laser radiation in gases as function of beam power, gas absorption coefficient and pathlength

06 p1079 A70-17190

He-Ne laser emission attenuation coefficient relation to water content of artificial fogs for 0.63, 1.15 and 3.39 microns

06 p1079 A70-17209

Electron transmission diffraction patterns of thin monocrystal films using Ar laser

06 p1080 A70-17444

Chemical laser action in spark excited CS₂-O₂ mixtures, attributing emission to combustion product CO

06 p1080 A70-17445

Carbon dioxide laser beam modulation by molecular Stark effect

06 p1080 A70-17448

Laser produced plasma temperature measurements using method of X rays selective transmissions through different absorbing films

06 p1081 A70-17596

Laser induced alloys erosion under various focusing conditions, determining optimal conditions for spectral studies

06 p1089 A70-17762

Spectral power distribution and ultrashort pulses limiting duration of ruby-neodymium laser with passive shutter

06 p1081 A70-17766

IR laser giant pulses duration and power measured by photomultiplier and lithium metaniobate

06 p1082 A70-17770

Carbon dioxide and monoxide molecules IR emission in laser noting CO contribution to population of higher laser level

06 p1082 A70-17772

Carbon dioxide-nitrogen laser emission absorption in atmospheric surface layer by wings of distant strong lines investigated statistically

06 p1082 A70-17807

Time characteristics of pulsed calcium fluoride-dysprosium laser in single mode, observing constant emission and peak regime

06 p1082 A70-17808

Semiconductor injection laser with large emitting area, discussing light absorption, waveguide channel formation as factors obstructing laser action

06 p1082 A70-17821

Laser harmonic-frequency mixing techniques extended into IR with IR metal-metal point contact diode

06 p1083 A70-17944

Laser induced Raman scattering as diagnostic technique for measuring specie concentrations in gas mixtures

06 p1066 A70-18214

Operational characteristics, spectroscopy and inversion mechanisms of noble gas ion lasers in light of plasma theories and atomic data

06 p1083 A70-18236

Depolarization factor measurements of clear atmospheric air by lidar techniques and laser light scattering

06 p1083 A70-18244

Lasers industrial application to distance and flow rate measurement, automated machining and tunneling, inspection, die hole punching, welding, etc

06 p1078 A70-18431

Earth axis position and displacements measured by earth-moon laser telemetry

06 p1058 A70-18452

Laser radiation increased absorption in opaque solid body attributed to vaporization, analyzing factors determining thermodynamic equilibrium between condensed and gaseous phases

06 p1083 A70-18563

Laser alignment sensors for measurement and control of five degrees of freedom with increased sensitivity, faster recording and remote meter readout

06 p1083 A70-18591

He-Cd laser output improved by transverse magnetic field application

06 p1084 A70-18619

Steels microstructural plastic deformation under pulsed laser irradiation

07 p1303 A70-18712

Laser radiation attenuation coefficient in artificial fog related to water droplet concentration, suggesting single scattering for given optical thickness

07 p1296 A70-18725

Optical system with orthogonal standing waves in liquid used for two dimensional scanning of laser beam in ultrasonic field

07 p1296 A70-18765

Nd glass laser emission spectral width reproducibility as function of flash intervals and pump energy

07 p1297 A70-18869

Hydrogen concentration effect on self sustained detonation wave propagation in hydrogen-carbon monoxide-oxygen mixtures, using Q switched pulsed laser schlieren photography

07 p1420 A70-18918

Laser eye and skin hazard evaluation from view-points of threshold effect levels and worst case assumptions

07 p1219 A70-19224

GaAs laser and laser array applications, discussing pulse generators, laser cooling, laser optics, detectors, etc

07 p1298 A70-19400

Exciton spectrum in semiconductor laser emission, investigating location in Brillouin zone and temperature dependence

07 p1298 A70-19478

Kinetic theory of laser emission on band impurity transitions, noting spatial homogeneity effect on laser mode

07 p1299 A70-19852

Kinetic theory of laser emission on direct band-band semiconductor transitions

07 p1299 A70-19853

Laser pulse power effect on edge absorption of glass filter used for Q switching applications

07 p1299 A70-19855

Transparent semiconductor crystals breakdown under intense ruby laser radiation, noting threshold power correlation with forbidden region and pulse duration

07 p1357 A70-19856

Laser emission photons scattering by semiconductor conduction electrons allowing for electron-phonon interaction

07 p1357 A70-19857

Solid state laser kinetic regime as function of diffusive and directional motions of active medium excitations

07 p1299 A70-19860

Doped semiconductor unsteady stimulated emission, solving kinetic reactions in multimodal approximation

07 p1357 A70-19862

Laser-forced medium anisotropy effects on nonlinear optical frequency mixing and combined forced scattering

07 p1335 A70-19863

Laser beam trajectory equation in scanning ultrasonic cell for nonzero incidence angle, relating input and output beam divergence

07 p1300 A70-19865

Laser emission from organic molecules under neodymium laser harmonics excitation, describing absorption and photochemical inversions effects and emission spectra characteristics

07 p1300 A70-19866

Signal to noise ratios and fluctuation spectrum of photomultiplier illuminated by laser passing through laser amplifier, noting population level effect

07 p1300 A70-19869

Laser amplifier effect on autocorrelation function of laser radiation intensity fluctuations, determining emission coherence time

07 p1300 A70-19870

Emission kinetics variations of ruby laser due to aging attributed to inhomogeneity of active medium developing simultaneously with color centers

07 p1300 A70-19872

End reflectors effects on ruby lasers emission spectra and kinetics

07 p1300 A70-19873

Dynamic pearlite-austenite transformation and melt temperatures measured in laser-irradiated steel, discussing thermal response as function of heating rate

07 p1301 A70-19897

Dye laser stimulation by pumping with pulsed nitrogen laser line to obtain entire visible spectrum

07 p1301 A70-20016

Semiconductor laser signals coupling into thin optical platelet waveguides

07 p1301 A70-20019

Carbon dioxide gas dynamic layer in shock tube facility, measuring shape, time, output energy, beam diameter, etc

07 p1301 A70-20021

Front lit holograms of transient events and live subjects obtained with reflected light pulsed laser system

07 p1287 A70-20087

Detector for focus assessment of laser on target, scanning image by fiber optics

07 p1302 A70-20089

Neodymium-doped glass bars laser amplification efficiency increased by using conical bar and divergent beam

07 p1302 A70-20096

Stress wave propagation in particulate loaded carbonaceous materials induced by homogeneous laser beam

07 p1302 A70-20097

Extrema behavior in nonlinear absorption of organic compounds under high power laser radiation interpreted by triple absorption molecular energy level models

07 p1302 A70-20100

Two photon photoconductivity of CdS crystals stimulated by ruby laser, showing emission self focusing during pumping

07 p1302 A70-20322

Raman effect in liquid nitrogen resonator with light from Q modulated Nd laser pumped into resonator at small angle to axis

07 p1303 A70-20366

Metal cutting by gas jet lasers, discussing single and multimode lasers, carbon dioxide lasers, power and power density requirements, etc

08 p1501 A70-20470

Stokes components generation in presence of stimulated combination radiation in optical cavity, considering interaction between components and effect of material dispersion on interaction

08 p1510 A70-20511

Polarization anisotropy effect of laser cavity on neodymium glass laser output power

08 p1510 A70-20513

Uncontrolled and controlled neodymium glass laser outputs, using ultrasonic traveling wave diffraction modulator

08 p1510 A70-20514

Laser radiation angular distribution determination by self calibrating method based on dividing light beam into spatially similar beams of various intensities

08 p1510 A70-20515

He-Ne single frequency laser output characteristics at various active medium pressures noting emission polarization

08 p1511 A70-20517

He-Ne laser plasma vibrations and radiation power during active medium discharge excitation by DC current, noting characteristic energy hysteresis

08 p1511 A70-20519

Stokes components simultaneous generation in presence of stimulated combination radiation in optical cavity, noting effects of incident monochromatic beam intensity

08 p1511 A70-20520

Optical pumping energy effects on lasing pulse duration during pulse excitation of alcohol solutions of rhodamine 6G

08 p1511 A70-20522

Neodymium-yttrium fluoride crystal laser free and Q switched operating characteristics

08 p1511 A70-20523

Retunable lasers with organic dye dispersive resonators, studying space-angular, spectral and energy emission characteristics

08 p1511 A70-20538

Carbon dioxide laser emission spectrum, considering working mixture emission power and rotational relaxation characteristics

08 p1511 A70-20539

Argon ion laser output powers dependence on discharge tube design and mirror reflection coefficient in emission line

08 p1511 A70-20541

Mechanical shock accelerometer calibration by light frequency Doppler shift measurement using laser interferometer and single sideband carrier insertion circuit

08 p1493 A70-20602

Medical laser systems applications, design criteria, general functions, etc

08 p1450 A70-20819

Laser systems application to automatic or semiautomatic materials processing in metal working and microelectronics, including hole drilling, silicon wafers scribing, etc

08 p1502 A70-20820

Dispersive resonator for near IR frequency control of neodymium-silicate glass laser

08 p1512 A70-20850

Transparent polymethylene methacrylate and polystyrene stressed state effect on failure characteristics under laser beam irradiation

08 p1526 A70-20936

Biological effects of laser radiation on human eye, discussing damage caused by long term exposure to visible, IR and UV wavelengths

08 p1451 A70-21043

Retinal damage thresholds by exposing rhesus monkey and human eyes to laser radiation, testing rabbit eyes for corneal thresholds

08 p1451 A70-21044

USAF permissible human exposure levels for laser irradiation established from monkey retina experiments

08 p1451 A70-21045

Laser radiation protective goggle design, investigating retinal energy density levels and attenuation

08 p1451 A70-21046

Neodymium-glass laser under action of electron beam investigated for population inversion

08 p1512 A70-21204

Gamma radiation effects on emission time, excitation threshold and efficiency of four level Nd glass laser under multimode operation

08 p1512 A70-21209

Neodymium glass laser stimulated by pinch discharge radiation in He and Kr, increasing power, energy and pulse repetition frequency by improved pumping energy coupling

08 p1512 A70-21213

Laser induced vaporization of Bi compounds with group VIa elements, analyzing vapor species, condensed phase and molecular configurations by mass spectroscopy

08 p1455 A70-21338

Vapor composition and condensed phase structure of As and Sb compounds with group VIa elements analyzed by laser mass spectrometer

08 p1455 A70-21339

Holographic technique of coherent light field transformation with desirable phase distribution from laser light beams of arbitrary wavefront characteristics

08 p1497 A70-21410

Electron-positron pair formation in electromagnetic field created by coherent laser light focused into vacuum with ideal lens

08 p1513 A70-21411

Chemical high pressure laser action produced by stimulated phototransition of electrons at contact moment between pair of reacting nonexcited gas molecules

08 p1513 A70-21412

Laser-induced electron emission from metals and insulators in form of evaporated films and single crystals, discussing many-photon photoelectric effects and thermionic emission

08 p1556 A70-21509

Pulsed nitrogen gas laser to obtain continuously tunable dye laser action to 3550 Å with output at 3771 Å in UV

08 p1513 A70-21553

CW GaAs junction laser bistable operation due to saturable absorbing centers in active medium

08 p1513 A70-21598

Laser display systems, discussing mechanical, diffractive and refractive beam deflection techniques, electro-optical polarization devices, holographic displays, etc

08 p1499 A70-21687

Single mode He-Ne ring laser lock-in threshold and output power relationships to frequency

08 p1514 A70-21692

Laser interferometric technique involving use of unstable external resonator to facilitate electron density measurements in presence of transverse plasma density gradients

08 p1499 A70-21693

Power output of sealed carbon dioxide-nitrogen-helium laser as function of gas composition and pressure

08 p1514 A70-21751

Laser radiation absorption in xenon plasma, noting dependence on intensity due to atoms ionization

08 p1554 A70-21803

Statistical characteristics of Q switched He-Ne laser emission gain during transient process from subthreshold to superthreshold value

08 p1514 A70-21814

Unsaturable frequency discriminator influence in semiconductor laser feedback loop on laser emission spectrum

08 p1514 A70-21821

Second harmonic generation and frequency conversion efficiencies for laser beam shaping in nonlinear medium

08 p1514 A70-21984

He-Ne laser investigated for He and Ne population inversion as function of discharge parameters

09 p1694 A70-22006

Line strength and radiative lifetimes for Ne II determined from spontaneous emission data obtained from CW neon laser discharge

09 p1730 A70-22070

Hydrodynamic processes during focusing of monopulse ruby laser emission into water, determining photohydrodynamic coefficient

09 p1694 A70-22111

Organic dyes investigated for amplification characteristics of Raman emission stimulated by Q switched ruby laser

09 p1694 A70-22134

He-Ne laser emission in transverse oscillation mode, analyzing spatial and temporal coherence characteristics

09 p1694 A70-22135

Ruby laser energy threshold dependence on partial shielding of rod by stainless steel tubing

09 p1694 A70-22136

Plasma discharge absorption coefficients measurement using Q switched ruby laser

09 p1694 A70-22139

Single-pulse laser radiation losses dependence on operation time length due to angular dispersion

09 p1694 A70-22140

Plasma discharge studies by holographic interferometry using ruby laser pulse for light source

09 p1674 A70-22171

Laser heating of plasma, motion pattern and shock wave parameters during absorption burst in solid body vapor, using numerical analysis

09 p1695 A70-22181

Nonlinear parameter of two intersecting laser beams in interaction with free electrons plane wave external field coupling

09 p1695 A70-22213

Plasma generation and heating by controlled thermonuclear fusion reactions using pulsed lasers

09 p1734 A70-22249

Collision effects on saturation of He line transition in He-Ne laser, determining power output dependence on cavity tuning and gas pressure

09 p1695 A70-22322

He-Ne and argon lasers for measuring radar scattering cross sections of plane and three dimensional targets

09 p1632 A70-22405

He-Ne laser emission modulation by varying discharge current, studying gas pressure effect and role of ballast resistor

09 p1695 A70-22411

Active element inhomogeneity effects on semiconductor injection lasers emission spectra and radiation intensity distribution

09 p1695 A70-22481

Output energies of Stokes components of stimulated combination scattering excited by pulsed laser

09 p1696 A70-22482

Inert gas glow discharge current change under laser radiation, investigating dependence on discharge region, gas and electrode material and configuration

09 p1696 A70-22484

Microwave in-cavity modulation of helium-neon laser, obtaining frequency dependence of modulation depth

09 p1696 A70-22628

Laser radiation diffuse reflection from rough surfaces, considering surface specularly and reflected waves polarization and spatial structure

09 p1696 A70-22630

Solid state and gas lasers industrial applications in machining and nonmachining areas, discussing limiting factors

09 p1692 A70-22706

Laser beam deflection techniques for directional control of laser beams, noting applications to optical computer memories and active imaging and display devices

09 p1696 A70-22783

Stellar optical spectral power measurement by electronic spectroscopic technique using lasers

09 p1696 A70-22785

Holographic recording of three dimensional rapid events, using Q switched laser pulses with sufficient coherence length for illumination

09 p1676 A70-22786

Laser irradiation effects on mice skin and internal organs, observing inflammatory symptoms, hair follicles destruction and epithelial atrophy

09 p1624 A70-22816

Laser radiation cumulative effects compared to single dose in mice, using hair growth stoppage as test objective

09 p1624 A70-22817

Vitreous transparent solids emission after irradiation by Q switched laser, ascribing luminescence to multiphonic and excitonic phenomenon

09 p1710 A70-22836

Time delay between pulses of discharge current and ionized argon laser power as function of current and discharge pressure

09 p1697 A70-22847

GaAs-Ge platelet laser output, observing absorption edge dynamic Burstein shift

09 p1697 A70-22920

Self stabilization and narrowing of optical pulses from GaAs junction lasers by regenerative feedback of oscillations in injection current

09 p1697 A70-22921

CW water vapor laser line frequency measurements by beating with radiations from HCN laser in metal-on-metal point contact diode

09 p1697 A70-22925

Laser frequency measurement and active and passive stabilization techniques, emphasizing HCN laser phase locking to frequency standard output

09 p1697 A70-22951

Single mode output power at 6328 A spectral line during He-Ne laser oscillation simultaneously at 6328 A and 3.39 microns

09 p1697 A70-22957

Laser measurements of permittivity fluctuations spectrum of turbulent atmosphere, noting proportionality to temperature spectra at optical frequencies

09 p1635 A70-22962

Refractory oxide submillimeter spherical particle preparation by focused emission from carbon dioxide laser

09 p1697 A70-22984

LEPR spectrometer with sample cavity as part of HCN laser for experiments with gases, noting improved sensitivity

09 p1698 A70-22991

He-Ne laser light source for oil damped spiral gauge used as vacuum system pressure nulling device

09 p1698 A70-23000

Pulsed laser beams intensity fluctuations correlation functions dependence on propagation distance in turbulent atmosphere

09 p1636 A70-23135

Axial mode gas laser radiation intensity fluctuations for plane and spherical light waves in turbulent atmosphere

09 p1636 A70-23137

Laser beam intensity fluctuations during propagation through turbulent atmosphere

09 p1637 A70-23142

CRT laser with gallium arsenide crystal excited by electron gun, describing output characteristics

09 p1698 A70-23161

Monopulse ruby lasers for moving object illumination during shadow photography, noting applications to ballistic studies

09 p1698 A70-23173

Laser-produced Al plasmas linear and nonlinear behavior, using framing camera and energy absorption measurements to study outermost ion energy increase and luminous front expansion

09 p1736 A70-23187

He-Ne CW and pulsed lasers operation, design and technology, describing measurement methods for output, beam divergence and radiation spectrum distribution

09 p1698 A70-23303

Injection lasers for multichannel optical communication using composite cavities to improve spectral output

09 p1698 A70-23359

Transverse mode distortions in high gain giant pulse laser oscillators associated with gain saturation effects

09 p1698 A70-23361

Two photon fluorescence and second harmonic generation methods for studying picosecond structure of laser output signals

09 p1699 A70-23362

Electrical narrowband noise model for laser speckle pattern, obtaining image intensity statistical properties

09 p1638 A70-23370

Laser beam with small divergence angle kept in horizontal position by leveling instrument with automatic compensating device, discussing distortion effects on localization

09 p1699 A70-23442

Ar ion laser performance improvement by using beryllia for sealed-off discharge tube

09 p1699 A70-23443

Laser action in 5d-6p electron transitions of neutral atomic iodine, measuring electron temperature and density

09 p1699 A70-23517

Scanning spherical mirror interferometer for carbon dioxide lasers radiation spectrum analysis, discussing instrument errors in mode and wavenumber studies

09 p1683 A70-23519

Fourier spectrum of chopped bivariate normal intensity distribution with coefficients calculated numerically by computer, verifying by chopped laser beam signal analysis

09 p1729 A70-23520

Optical resonators formed by spherical mirrors, deriving mode density-output power relationship by ray analysis

09 p1729 A70-23521

Atmospheric phase jitter for He-Ne locked laser measured by retroreflector for half mile round trip

09 p1699 A70-23539

Population inversion generation through gaseous oxides mixing with nitrogen flow thermally excited

09 p1700 A70-23569

Laser pulse energy ponderomotive meter using mechanical action exerted by light on movable sapphire plate in air at atmospheric pressure

09 p1700 A70-23657

Constant temperature /phase transition/ calorimeter errors in measuring laser energy using ice as working medium

09 p1700 A70-23659

High power CW carbon dioxide laser design and operation for use as heat source in metal fusing, welding and cutting

09 p1897 A70-23816

Upper atmosphere aerosols and cosmic dust properties investigation by laser beam scattering measurements using photoelectron counters for weak signal detection

09 p1898 A70-23818

Apollo 11 lunar laser reflector for earth-moon distance measurement

09 p1898 A70-23847

Relativistic nonlinear coupled longitudinal-transverse propagation of intense laser beams in cold overdense plasma

09 p1921 A70-23968

Ruby monopulse laser emission spectrum wavelength stabilization by frequency tuning of generated radiation using Fabry-Perot interferometer

09 p1898 A70-23970

Thermal lens effect produced by photocurrent in CdS, using focused laser beam to generate photocurrent causing local heating changes of refractivity

09 p1898 A70-23980

Laser beam interaction with metals on basis of energy balance measurements, obtaining time dependent radiation reflectance

09 p1898 A70-23982

Laser radiation conversion into kilovolt X rays using planar heated plasma, discussing electron temperature role

09 p1921 A70-23987

Laser pumped optical parametric oscillators (OPO), considering phase matching, threshold power, transient response, etc

09 p1898 A70-23999

Health hazards of laser operations, considering laser and laser area physical characteristics, operating procedures and controls

09 p1824 A70-24062

Intense laser radiation effect on light absorption, gas breakdown and formation of spark at focus

09 p1899 A70-24154

Strontium fluoride crystals containing trivalent neodymium cations investigated for laser action and radiation characteristics by spectroscopy

09 p1899 A70-24253

Pulsed solid state laser power output stability in terms of kinetic theory noting laser action threshold role

09 p1899 A70-24254

He-Ne laser emission electro-optical modulation by three mirror optical cavity, considering structural and thermal stability and coupled resonators geometry effects

09 p1899 A70-24260

Neodymium/YAG laser emission characteristics, studying spectral selection at various excitation energy levels and output-pumping power relationship

09 p1899 A70-24261

Ruby monopulse laser with narrow emission line, describing two generator system

09 p1899 A70-24264

Portable optical communcator for voice transmission combining pulse position modulation and low power gallium arsenide diode

09 p1840 A70-24530

Laser Doppler velocimeter optics, noting minimal heterodyne alignment needs and stress and vibration stability

09 p1889 A70-24556

Coherent photon responses production in liquids and glasses by superposing trains of giant laser pulses, achieving spatial separation of responses by combining pulse trains

09 p1900 A70-24564

Laser beam ionization of gases, using proportional ionization counter

09 p1890 A70-24588

Turbulent water flow velocity distribution measurement using laser light intensity fluctuation spectroscopy

09 p1869 A70-24600

Circular confocal laser with coupling aperture in mirror for maximum power output in specified mode, calculating field distributions and diffraction losses at reflectors

09 p1900 A70-24941

Carbon dioxide-neon-helium flowing lasers gain characteristics determined by transverse-discharge configuration

09 p1901 A70-24944

He-Ne laser amplifier in axial magnetic field, measuring Faraday rotation and gain for various input signal intensity values

09 p1901 A70-24945

Bouguer single-scatter theory applicability dependence on angular aperture of receiver and laser beam parameters in water mists

09 p1842 A70-25005

Dielectric coatings resistance to laser radiation, measuring rupture threshold of vacuum coatings consisting of zinc sulfide layers

10 p1901 A70-25111

Doppler beat spectrum and modulation depth of He-Ne laser emission with backward beam reflected from moving mirror into resonator

10 p1901 A70-25123

Continuous wave chemical laser operation at 10.6 micron in carbon dioxide pumped by vibrational energy from hydrogen atoms and bromine molecules reaction

10 p1901 A70-25149

Focal plane intensity of focused laser beam passed through turbulent atmospheric layer

10 p1901 A70-25160

Q switched ruby laser light effect on absorption spectra of NaCl crystals

10 p1902 A70-25221

Laser methods for industrial length measurements

11 p2061 A70-25355

Tunable nitrous oxide laser cavity losses and absorption by carbon dioxide determined spectroscopically

11 p2061 A70-25361

Stimulated Mandelstam-Brillouin scattering and fracture of molten quartz and silicate glasses produced by laser giant pulse

11 p2061 A70-25380

Mirror adjustment effect on transverse structure, time dependence and spatial coherence of pulsed UV molecular nitrogen laser emission

11 p2062 A70-25394

Ultrasonic LF modulation of solid state traveling medium lasers radiation intensity attributed to elastic vibrations of rods

11 p2062 A70-25398

Plastic strains at sharp notch roots in Perspex plates using interference patterns formed by gas laser monochromatic light beam for fracture initiation

11 p2131 A70-25594

Corneal thermal response model for carbon dioxide laser radiation, computing temperature rise from power distribution and conducting air-cornea interface

11 p2062 A70-25635

Spatial and amplitude modulators for laser-photographic display system producing real time TV pictures or images

11 p2062 A70-25734

Cyanide gas lasers design for submillimetric region of electromagnetic spectra

11 p2062 A70-25735

He-Ne optical laser CW operation under DC excitation, considering output power, discharge current, total pressure, mixture ratio, etc

11 p2062 A70-25827

Laser-light spatial-domain scanning function for deconvolution of blurred photographs using point-spread and holographic Fourier transform division filter

11 p2050 A70-25832

Temperature instability of electro-optical laser modulators using ADP, KDP and DKDP crystals taking into account phase shift between coherent light beams

11 p2063 A70-25848

Signal amplitude and intensity fluctuations after laser amplification, considering P representation for density operator

11 p2063 A70-25867

CW chemical laser performance using molecular hydrogen diffused into supersonic fluorine atoms streams

11 p2063 A70-26067

Modified laser Michelson interferometer for probing highly transient plasmas occurring behind incident shock waves in shock tubes

11 p2052 A70-26369

Saturation of self induced thermal lens resulting from thermal distortion of carbon dioxide laser radiation in wind

11 p2063 A70-26401

Electro-optical Q switches for generating laser radiation pulses

11 p2064 A70-26809

Statistical properties of random intensity field during coherent laser radiation scattering by moving diffuse surface

11 p2064 A70-26812

Laser field transient properties in switching-on processes, discussing Q switching, detuning switch-off and pump power switch-on

11 p2064 A70-26843

Spatial domain deconvolution by laser scanning of blurred photographs, using holographic Fourier transform division filter and photoelectric integration

12 p2230 A70-26979

Semiquantitative study showing variations in degree of laser beam coherence due to turbulence

12 p2245 A70-26980

Gas heating and ionization by Q switched laser beam, discussing electron collisions, density, etc

12 p2277 A70-27007

Laser light investigations of atoms, molecules and plasmas, considering Raman molecular spectroscopy, acoustic phonons interactions and plasma diagnostics by light scattering

12 p2245 A70-27063

Laser applications of metal machining and micromachining, discussing drilling, cutting, milling, welding, dynamic balancing, automation, etc

[SME PAPER MR-70-715] 12 p2241 A70-27082

Nonlinear optical effects in solids, gases and liquids with light from laser sources, discussing self focusing and absorption of light, transcluciation, harmonics, etc

12 p2245 A70-27277

Ultrasonic effects on synchronization of ruby laser radiation, investigating emission pulse structure and peak sequence

12 p2245 A70-27297

Steady state two frequency laser emission threshold and intensity, studying effects of two photon transitions and optical transition probabilities-radiation density relations

12 p2245 A70-27301

KDP crystal single cut for laser beam frequency conversion and tuning

12 p2245 A70-27302

Optical resonator with active medium and lenses, determining caustic surface, radiation characteristics, transverse modes, focusing conditions, etc

12 p2246 A70-27309

Green light laser using sodium fluorescein pumped by xenon pulse tubes, describing output power spectral characteristics

12 p2246 A70-27316

Electron concentration measurement range expansion in plasma by laser interferometer with optical signal phase modulation

12 p2278 A70-27328

Intense laser radiation effect on electrons interactions with acoustic and optical phonons and ionized impurities in semiconductors

12 p2246 A70-27360

Waveguide optical properties effect on injection GaAs laser threshold lasing and field distribution in near/far zones for various parameters of active region

12 p2246 A70-27365

Ruby laser illuminated Ge recombination radiation intensity measured at room temperature

12 p2286 A70-27369

Gallium arsenide laser with external mirror excited by electron beam, measuring radiation patterns

12 p2247 A70-27482

Composite resonator for semiconductor laser to increase single mode power generation, determining optimal length of passive part

12 p2247 A70-27484

Temperature effects on injection semiconductor lasers optical gain and threshold current using energy spectrum model

12 p2247 A70-27485

Solid state laser with traveling wave during steady state emission, determining pulse shape, duration and amplitude

12 p2247 A70-27497

Holograms formation without reference beam by illuminating transparency with coherent laser light

12 p2233 A70-27505

Transient process statistical characteristics in He-Ne laser operating near excitation threshold with pronounced rise time oscillations of light wave field

12 p2247 A70-27507

Saturation homogeneity ascribed to resonant photon capture in emission of neon laser

12 p2247 A70-27508

Molecular beam carbon dioxide laser Q switching by ethylene as saturating filter, reducing pulse duration by varying ethylene pressure and active mixture composition

12 p2248 A70-27509

Self focusing of ruby laser radiation in CdS single crystal, considering effect on crystal photoconductivity

12 p2248 A70-27540

Ruby crystal surface destruction by laser radiation, studying surface structural and optical properties effect and threshold power dependence on light pulses duration

12 p2248 A70-27541

Intensity and photocounts statistical distribution of harmonic generated in nonlinear crystal by laser and thermal radiation

12 p2248 A70-27547

Amplitude and phase fluctuations in laser with nonlinear absorption due to spontaneous emission, studying lasing instability near hysteresis threshold

12 p2248 A70-27548

Stimulated Mandelstam-Brillouin and entropy backscattering of light pulses, determining intensity and spectral distribution allowing for fluctuations in medium

12 p2248 A70-27550

Carbon monoxide, carbon dioxide and oxygen impurities effects on threshold current and output power of HCN laser

12 p2249 A70-27648

Carbon dioxide laser gain saturation measurements by intracavity Fresnel loss-plate technique, observing dependence on discharge current

12 p2249 A70-27715

Optical processing for measuring frequency spectrum of PM wave induced by turbulent medium in laser beam

12 p2249 A70-27756

Tuned laser radiation to diagnose and enhance local conditions in alkali metal plasma

12 p2281 A70-27793

Phase modulated laser light beam statistical analysis, using Michelson interferometer with piezoelectric crystal driven mirror connected to Gaussian random noise generator

12 p2249 A70-27877

Ruby laser beam used to trigger high voltage spark discharge in vacuum, studying auxiliary photoionization during firing delay or failure

12 p2249 A70-27999

Laser beam intensity distribution determination from measuring Fresnel diffraction pattern at straight edge using photographic plate

12 p2249 A70-28032

Sum and difference frequency signals generated and propagated by mixing carbon dioxide laser and millimeter wave klystron outputs in GaAs loaded waveguide

12 p2250 A70-28098

Laser output energy decreased by microscopic fractures masking effect in neodymium glass laser rod during monopulse operation

12 p2250 A70-28152

Population inversion effect on angular divergence of neodymium glass laser radiation, observing energy independence for refractive index of medium surrounding active rod

12 p2250 A70-28154

Automatic frequency control of single frequency He-Ne laser, tuning cavity length to extremum output power with Lamb dip

12 p2250 A70-28181

Maximum mode selection tuning of scanning interferometer with spherical mirrors applied to He-Ne laser spectrum analysis

12 p2250 A70-28182

Metals purity, gas content and porosity effects on nature and size of material zone affected by laser beam treatment

12 p2250 A70-28219

Upper atmospheric composition by nitrogen molecules radiative transition analysis, using laser resonance backscattering effect

12 p2227 A70-28267

Two-photon transitions effect on two-frequency generation threshold in media with line broadening, considering laser radiation effect on amplification in second channel

12 p2251 A70-28289

Pulsed chemical laser output, considering increase in radiation energy

12 p2251 A70-28292

He-Ne laser optimal mixture component ratio for generating IR radiation at two wavelengths

12 p2251 A70-28293

Ruby and He-Ne laser radiation attenuation found due to scattering by gas molecules and aerosols from atmospheric spectral transparency fine structure studies

12 p2191 A70-28294

Holographic achromatic reconstruction of laser holograms in transmitted white light using zonal plate

12 p2238 A70-28297

Resonant absorption in ruby crystal under combined acoustic and laser pulses, noting use for laser intensity measurements

12 p2251 A70-28331

Plasma properties investigation by laser beam probes, considering direct observation of oscillation mode

13 p2458 A70-28564

Gas laser radiation focusing with spherical mirrors, calculating field distribution and beam path

13 p2424 A70-28592

Anisotropic two phase plates gas laser resonator spectrum, analyzing zero or 90 degree angles between plates

13 p2424 A70-28594

Three mirror resonator He-Ne laser output spectra, studying frequencies and intensities of generated modes

13 p2424 A70-28595

Spontaneous emission modulation, interference beat and level crossings observable in gas laser operating at two output frequencies

13 p2425 A70-28599

Laser emission generation on sodium lines, studying pulsed discharge mechanism involving ion-ion recombination in sodium vapor and hydrogen mixture

13 p2425 A70-28600

Microdefects as centers of disk shaped destructive cracks in polymer dielectrics under laser irradiation

13 p2437 A70-28621

Power output dependence on cavity configuration of He-Ne laser in TEM mode operation

13 p2425 A70-28625

- Macroscopic plasma response to absorption of high intensity laser radiation in one dimensional geometry 13 p2459 A70-28636
- Laser radiation interaction with hot nonuniform plasma, determining thermal and electromagnetic forces for various temperatures and densities 13 p2460 A70-28643
- Far UV emission spectrum of plasma produced by laser beam impact on Al target observed as function of time, determining electron temperature 13 p2460 A70-28729
- Carbon dioxide laser saturated gain constant calculated for low and high electron densities based on thermodynamic approach 13 p2425 A70-28793
- Optical second harmonic generation internal to laser cavity, discussing nonlinearly magnitude for optimum coupling for all power levels 13 p2425 A70-28795
- Laser induced ion emission triggering of spark gaps, distinguishing channels due to electrons and ions by high speed shadowgraph technique 13 p2426 A70-28797
- HCN laser 890 GHz line phase locked to multiplied standard frequency with wide bandwidth loop, narrowing line widths 13 p2426 A70-28798
- High power CO lasers, discussing UV and visible sidelight, gas mixtures, spectral output, gas pressure, etc 13 p2426 A70-28807
- Ar ion lasers investigated for effect of added He on pulse output intensity 13 p2426 A70-28809
- Multiwavelength laser beam propagation with point source transmitters, determining turbulence levels independently 13 p2426 A70-28837
- Laser field structure effect on spectrum of Q switched laser nonmonochromatic emission after amplitude modulation 13 p2426 A70-28872
- Laser beam photography utilization in engineering for optical pointers, interferometers and holographic visualization of surface strain and vibration 13 p2406 A70-28914
- Ruby laser output calculated as function of pumping power, taking into account pumping energy density spatial distribution and laser level depopulation 13 p2427 A70-28985
- Laser with telescopic resonator, examining characteristics at different Fresnel zones and emission losses with geometric optics approximation 13 p2427 A70-29280
- Gas laser active medium nonlinear polarizability calculations with allowance for resonance emission capture effect on atomic velocity and population distributions 13 p2427 A70-29284
- Transparent polymeric materials failure under neodymium-glass laser radiation in free generation mode 13 p2427 A70-29300
- Laser cavity modal volume-output power relationship, deriving expression for interaction region 13 p2427 A70-29359
- Quantum noises in laser systems, deriving kinetic equation for traveling wave generation field density matrix 13 p2428 A70-29360
- Kinetic changes in spectral lines and bands intensity of individual molecular gases and mixtures for carbon dioxide lasers 13 p2428 A70-29361
- Pulsed Ne laser superradiation spectrum fine structure, using Fabry-Perot interferometer 13 p2428 A70-29362
- Homogeneous absorption line and peak power widths relationship in high resolution gas laser with internal absorbing cell 13 p2428 A70-29365
- Focusing lens edge diffraction effect on angular distribution of laser radiation, considering zero mode field distribution 13 p2428 A70-29367
- Steady state laser emission of resonator with two crystals with different optical orientation 13 p2428 A70-29371
- Threshold light flux densities for thin Al film breakdown by laser radiation 13 p2428 A70-29383
- Solid state laser transverse modes maximum dependence on resonator geometrical parameters usable for producing stable kinetic emission mode with narrow spectral line 13 p2428 A70-29410
- Giant pulses composed of shorter pulse trains obtained in Q switched carbon dioxide laser with transverse modes 13 p2429 A70-29412
- Q switched ruby laser pulses nonlinear absorption by partially ionized plasma behind reflected shock wavefront, observing absorptivity dependence on light intensity 13 p2429 A70-29420
- Stimulated emission cut-off characteristics of laser based on crystals with Nd ions under UV irradiation 13 p2429 A70-29505
- He-Ne laser focused beam effect on negative Si diodes base I-V characteristics 13 p2378 A70-29517
- Amplitude and phase modulation of laser beams by tetragonal crystal cuts 13 p2429 A70-29533
- P-type GaAs laser diodes spontaneous emission power temperature dependence, considering radiative recombination mechanism 13 p2378 A70-29545
- IR reflection spectrum of corundum compared for heating by reflecting furnace and laser radiation, discussing phonons statistical distribution 13 p2429 A70-29639
- Crossed field nitrogen laser operation in second positive band to obtain high UV pulse output 13 p2429 A70-29669
- Ruby laser Q switching by chlorophyll thin film, discussing characteristics and mechanics 13 p2429 A70-29670
- Laser acoustooptic quartz modulators inserted inside He-Ne and argon cavities for internal power extraction 13 p2430 A70-29705
- Non Q switched Nd laser light intensity correlation function measurement, using optical gate for producing second harmonic light 13 p2430 A70-29706
- Optical absorption due to imperfections in CdS by sensitive differential technique using laser excitation 13 p2430 A70-29708
- He-Ne laser radiation absorption in dense Li plasma, calculating absorptivity for bremsstrahlung and photoionization 13 p2465 A70-29710
- Strong short coherent light pulses with diffractive divergence generated by ruby lasers in series, showing pulse, emission and far field interferograms 13 p2430 A70-29762
- Repetitively Q switched Nd-YAG laser operated with intercavity second harmonic generator to produce one watt average power 13 p2430 A70-29831
- Electron beam-pumped ZnO laser emission wavelength at various temperatures 13 p2430 A70-29833
- Thermally self induced laser beam phase modulation resulting in far field aberrational rings, describing structure and profile 13 p2431 A70-29834
- Lasing characteristics of Nd glass, measuring efficiency, pump threshold energy and absorption under test conditions instability 13 p2431 A70-29873
- Plasma ionization enhancement by laser line radiation matched to specific atomic transitions [AIAA PAPER 69-47] 13 p2468 A70-29958
- Accident prevention in laser operation emphasizing eye protection 13 p2361 A70-30018
- Laser beams intensity fluctuations dispersions and correlation functions at various distances 14 p2593 A70-30172
- HF and DF continuous chemical lasers output power, obtaining population inversion by deuterium molecules diffusion into F atoms supersonic free jet 14 p2593 A70-30273
- HF and DF continuous chemical lasers vibrational and rotational spectra, comparing lines and relative intensities 14 p2593 A70-30274
- GaAs junction lasers output oscillations, analyzing time dependent equations for low temperatures 14 p2593 A70-30335
- Ultrafast laser-Raman spectroscopy, comparing Scan and No-Scan techniques 14 p2593 A70-30361
- Pulsed molecular and atomic gas laser sources design for submillimeter region 14 p2593 A70-30433
- Millimeter and submillimeter waves generation as difference frequencies of mixed laser beams 14 p2593 A70-30434
- Ultrashort pulse generation by solid state Q switched lasers, discussing spontaneous emission effects, atomic polarization and populations variation 14 p2594 A70-30477
- Nd laser drilling and welding tool for microminature electronic device fabrication 14 p2594 A70-30639
- Plasma production by irradiating solid hydrogen foils with intense pulse ruby laser 14 p2622 A70-30659
- Displacement sensor based on interference fringes counting by laser interferometry 14 p2594 A70-30683
- Image coherence of object by laser illumination through moving diffuser related to diffuser autocorrelation 14 p2588 A70-31208
- Single mode gas laser theory for arbitrary field intensities in terms of ensemble averaged form of density-matrix equations of motion 14 p1594 A70-31361
- CW oscillation in carbon monoxide chemical laser 15 p2748 A70-31432
- Injection semiconductor lasers emission characteristics, discussing gallium arsenide diodes, nonlinear losses in pulsed mode, laser interactions, etc 15 p2749 A70-31453
- Giant pulse generation in ruby laser requiring no introduction of additional modulating elements into resonator 15 p2749 A70-31524
- Semiconductor laser emission at band-band transitions with free carriers participation under quantizing magnetic field, using kinetic equations 15 p2749 A70-31627
- CW injection laser frequency stability, noting injection current influence on lasing frequency 15 p2750 A70-31629
- Short term influences on sealed carbon dioxide laser action and lifetime, using mass spectrometry 15 p2750 A70-31752
- Carbon dioxide-nitrogen and nitrous oxide-nitrogen laser systems, substituting diatomic N 15 for N 14 to investigate radiation intensity 15 p2750 A70-31761
- Vibration modes real time observation of complex surfaces with matt finish using changes in laser speckle 15 p2750 A70-31762
- Gas pressure effects on visible and UV laser action in small argon Z-pinch plasma discharge, using streak photographs 15 p2750 A70-31968
- CW HCN laser driven phase matched traveling wave lithium niobate electro-optic light modulator performance 15 p2750 A70-31976
- Linear power scaling-mass flow relationship in multi-Joule pulsed carbon dioxide-nitrogen-helium laser, noting thermal effects role 15 p2751 A70-31977
- High power CW CO laser operation at room temperature by introducing mercury vapor into discharge 15 p2751 A70-31979
- Laminar to turbulent flow transition observation in laser induced vertical convection, using carbon dioxide-nitrogen laser 15 p2751 A70-31980
- CW nonspiking single mode ruby laser operation by end pumping ruby with CW argon ion laser output 15 p2751 A70-31981
- Optically pumped cadmium phosphide laser, obtaining IR coherent oscillation from Q switched Nd doped YAG laser excitation 15 p2751 A70-31985
- Laser Doppler heterodyning system for velocity measurements without directional ambiguity, employing incident beams of different frequencies through rotating diffraction grating or Bragg cell application 15 p2751 A70-31986
- CW Cd vapor laser oscillation achieved with slotted hollow cathode discharge containing He carrier gas at pressures of several Torr 15 p2751 A70-31988
- Gas flow velocity measurement by coherent detection of scattered laser radiation from small particles suspended in fluid, using Doppler effect 15 p2751 A70-32030
- Laser color TV display acousto-optic deflectors equalization using prisms 15 p2751 A70-32043
- White light laser construction using Ar-Kr laser with suitable mixture and pressure of gases to provide equal output intensities of red, yellow, green and blue 15 p2752 A70-32046
- Laser beam shaping for streak interferometry, obtaining thin beam uniform over filling length 15 p2752 A70-32049
- Temperature dependence of laser emission line self broadened half widths in spectral band of carbon dioxide at constant pressure 15 p2752 A70-32056
- Laser beam scattering by free electrons in terms of classical electrodynamics, discussing radiation damping effects 15 p2752 A70-32451
- Laser beam scattering by free electrons in semiclassical radiation theory, discussing intensity dependent frequency shift 15 p2753 A70-32452
- Glass disk calorimeter for measuring free running and Q switched laser pulses 15 p2742 A70-32545
- Solid state traveling medium laser pulsed emission characteristics and nonlinear intensity distribution 15 p2753 A70-32699
- Ruby and neodymium glass free running lasers output power modulation relationship to excited modes and active rod position in resonator 15 p2753 A70-32822

Bleachable dye filters selection for periodic undamped output power oscillations in laser
15 p2753 A70-32859

Annular lasers energy, polarization, radiation loss and frequency characteristics dependence on phase shift due to anisotropic plate introduction
15 p2753 A70-32860

Backscattered radiation depolarization during illumination of aqueous medium by linearly polarized laser beam
15 p2753 A70-32861

Pulsed carbon dioxide laser production with electron beam pumping, ascertaining beam effect on discharge parameters and output power
15 p2754 A70-32864

Transverse magnetic field effect on CW argon laser operation with linearly polarized radiation
15 p2754 A70-32866

Power density fluctuations in emission peaks of ruby laser determined by splitting beam into two components and using photosensitive element and photomultiplier recording
15 p2754 A70-32874

Peak emission currents from tungsten under ruby laser focused radiation, describing integral emission by heat conduction theory and Richardson equation
15 p2754 A70-32875

Weld brittleness during laser beam welding of Ni-Cu, Ni-Ti and Cu-Ti due to diffusion processes
16 p2916 A70-33052

Spatial vectors determination by two laser measurements and one optical observation of artificial satellite
16 p2926 A70-33118

Laser Doppler velocimeter for measuring turbulence in gas and fluid flows
16 p2926 A70-33140

Laser anemometer for fluid flow measurements, noting sample size restraint, frequency response and velocity range
16 p2926 A70-33141

Laser velocity measuring system (LVMS) for high speed rocket sleds, tracking supersonic sleds through shock front
16 p2926 A70-33142

Laser Doppler-shift velocimeter with self aligning optics, discussing performance parameters
16 p2926 A70-33143

Q switched subnanosecond laser system with increased intensity, using pulse selection technique
16 p2927 A70-33163

Electro-optical sensor night time capabilities with laser illuminator, determining current per unit area from photocathode
16 p2907 A70-33183

Free generation regime of ruby laser studied by electro-optical method of smoothing spatial inversion inhomogeneities
16 p2927 A70-33192

Natural fluctuations sources intensity in annular lasers taking into account field strength dependence
16 p2927 A70-33197

Laser beam anticorrelation after attenuation by two photon amplifier, deriving density matrix in time dependent perturbation theory
16 p2928 A70-33283

Gas laser amplitude, competition, self locking, beat frequency and modes time development, using Kutta-Merson integration method
16 p2928 A70-33284

Mode locked laser emission intensity correlation measurements by two photon fluorescence (TPF) technique to determine temporal behavior, discussing domain model
16 p2928 A70-33286

Laser design for production tool applications, noting use of Nd-YAG and carbon dioxide laser [ASME PAPER 70-DE-1]
16 p2917 A70-33418

Carbon dioxide laser action at 10.6 micrometers at pressures up to atmospheric by transverse electrical discharges
16 p2928 A70-33643

Coaxial gas laser generating high intensity pulses at constant pulse repetition rate, using singly ionized Ar and molecular nitrogen as active media
16 p2928 A70-33698

Raman spectrochemical system design based on laser radiation as parent source, discussing relay optics and photon counting detector system
16 p2913 A70-33979

Holocamera holographic system for wide angle panoramic view, discussing dual laser beam illumination, side and top view diagrams, etc
16 p2913 A70-33984

Laser beam photography by multiple reflections from partially reflecting mirrors
16 p2913 A70-33985

Lasing action and reduced output without beam distortion from misaligned carbon dioxide lasers by DC-Tesla coil pumping
16 p2929 A70-33986

Ruby laser second harmonic radiation generation efficiency, using cylindrical lens beam forming optical system
16 p2929 A70-34212

Giant pulse periodic operation ruby laser with 50 MW power and 10 Hz frequency
16 p2929 A70-34217

Solid state giant pulse laser with small divergence angle, using polymethyl dye solution in nitrobenzene as Q switch
16 p2929 A70-34221

Plasma production by long wavelength lasers applied to controlled thermonuclear reactions [ALAA PAPER 70-779]
17 p3103 A70-34476

Thermal-chemical damage to carbon particles in egg albumin under ruby laser irradiation, using chemical rate equations for protein denaturation
17 p3035 A70-34577

Laser Raman spectroscopy, discussing scattering from vibrational modes in solid and from phonons above optical gap
17 p3081 A70-34599

Hypersonic velocity and turbulence measurements in wind tunnels, using spectral analysis of Doppler shifted laser light
17 p3103 A70-34849

Magnetized plasma electron density measurement by laser self heterodyne
17 p3141 A70-34996

Optical correlator for displacement measurements using laser produced speckle patterns of scattered coherent light
17 p3088 A70-35026

Laser measurements - Conference, Warsaw, September 1968
17 p3103 A70-35080

Optical frequency standards research covering lasers application with superstable emission frequency
17 p3104 A70-35081

Laser energy and power measurement with thermal gradient radiometer
17 p3104 A70-35082

Frequency and stability measurements of IF signals generated between laser far IR radiations and conventional oscillators
17 p3104 A70-35084

Primary wavelength standard established via line produced with wavelength-stabilized laser
17 p3104 A70-35086

Spectral densities of intensity and frequency fluctuations of single frequency He-Ne laser radiation
17 p3105 A70-35092

Atomic spectroscopy of IR laser transitions in gases excited by HF pulsed discharges
17 p3105 A70-35093

Standards for measuring pulsed laser energy, CW laser power and HCN laser frequency
17 p3105 A70-35097

Optical rectification/polarization/ and measurement of Q switched laser energy and time parameters, using crystals and parallel plate capacitor
17 p3105 A70-35098

Laser energy parameters measurement by calorimetric methods based on radiant heating effect
17 p3106 A70-35099

Oscillation frequency retuning and stabilization and loss factor determination in solid state lasers by dispersive resonators
17 p3106 A70-35100

Fluorescence method of determining solid state laser parameters using spontaneous and stimulated emission observations
17 p3106 A70-35101

Solid state laser polarization mechanism, considering isotropic and anisotropic cavities
17 p3106 A70-35103

Crystal and glass lasers activated by Nd ions, examining stimulated emission temperature dependence by high temperature spectroscopy
17 p3106 A70-35105

Meteorological laser radar, discussing basis and techniques determining atmospheric radiation attenuation constant
17 p3045 A70-35106

He-Ne CW laser emission line width measurement, describing apparatus and technique
17 p3106 A70-35108

Submillimeter lasers radiation measurement with n-InSb detectors at liquid He temperature
17 p3107 A70-35109

Ar plasma generation by focused Q switched ruby laser beam, measuring density and temperature by electro-optical spectroscopy
17 p3107 A70-35111

Laser interferometry for accelerometer and dynamic pressure transducer calibration and vibration measurement
17 p3089 A70-35124

Temperature dependent absorption, nonsteady beam propagation and laminar-turbulent transition in laser induced convection column, measuring turbulence onset by fine wire resistance thermometer [ALAA PAPER 70-800]
17 p3107 A70-35197

German monograph on spectral emission behavior of pulsed ruby laser with regard to output intensity
17 p3107 A70-35369

Picosecond pulses in Q switched neodymium glass and ruby lasers, describing pulse measurement with fluorescence
17 p3108 A70-35623

Intensity logarithm fluctuations of focused laser beam propagating in summer daytime atmosphere at 250 and 650 meter path lengths
17 p3048 A70-35685

He-Cd laser discharge, determining population densities and lifetimes for levels of Cd ion excited by He metastables
17 p3108 A70-35903

Channeling and guidance of electrical breakdown streamer via laser induced gas ionization trail
17 p3108 A70-35905

Time resolved measurements of ion and electron temperature in pulsed Ar ion laser discharge, observing heating
17 p3108 A70-35907

Spontaneous megawatt pulsing in ruby laser with output beam reflected back into cavity
17 p3108 A70-35909

Laser oscillation in atomic fluorine from electrically pulsed discharge of fluoride compounds-helium mixtures, identifying as 3p-2P and 3s-2P transitions in fluorine I
17 p3108 A70-35910

Gas laser frequency stabilization using nonlinear effects of magnetic Lamb dip
17 p3109 A70-35911

First luminous lunar echoes obtained by laser telemetry of Pic Du Midi observatory
18 p3310 A70-35948

Laser applications in thermonuclear fusion, analyzing plasma acceleration under laser pulse action
18 p3265 A70-36110

Energy distribution of laser spark spectrum in air, He and Ar, determining transmission coefficients of spark plasmas by self absorption method
18 p3265 A70-36151

Spatial-temporal distribution of laser spark plasma electron density and temperature based on holographic interferometry
18 p3265 A70-36152

MOS devices, investigating laser radiation effects on electrical behavior
18 p3266 A70-36237

Transverse flow CO chemical laser using atomic oxygen reaction with carbon disulfide, comparing output with longitudinal flow devices
18 p3266 A70-36313

Spatial-angular characteristics of Nd doped phosphorus oxychloride liquid lasers, discussing beam divergence effects
18 p3266 A70-36416

Thermal self focusing filaments observation in form of tracks in KDP and ADP crystals damaged by radiation from free emission mode laser
18 p3266 A70-36612

Spectral emission kinetics from neodymium glass laser with rod in translational motion during laser action
18 p3267 A70-36613

Argon and helium breakdown induced by ruby laser 50-picosec pulse at various pressures
18 p3267 A70-36616

Laser emission intensity oscillations during resonator Q sinusoidal variations
18 p3267 A70-36617

Amplitude and phase fluctuations of opposing waves in ring laser with allowance for waves coupling due to backscattering
18 p3267 A70-36618

Gravitational field effect on natural frequencies of rotating ring laser, using general relativity and electromagnetic fields theories in continuous media
18 p3267 A70-36622

Electronmicroscopical structure of laser irradiated Garding-Passy melanoma cell organelles, noting mitochondria damage
18 p3224 A70-36636

CW GaAs junction lasers bistable operation above delay transition temperature based on double acceptor trap theory
18 p3268 A70-36729

Reflectivity effect on external quantum efficiency of Fabry-Perot type GaAs injection lasers
18 p3268 A70-36731

Self induced sustained light pulsations from GaAs injection lasers with tandem double section stripe geometry based on repetitively Q switched model
18 p3269 A70-36735

Semiconductor laser frequency modulation by ultrasonic waves, noting pressure variation effect on sideband resolution
18 p3269 A70-36736

Pulsed GaAs injection lasers second harmonic generation with nonlinear crystal alpha iodic acid phase matched by angular tuning
18 p3269 A70-36737

GaAs lasers with light propagation along curved junctions, discussing threshold current density variation with radius of curvature
18 p3269 A70-36738

- Electron energy effect on output power and beam divergence of electron beam pumped GaAs lasers
18 p3269 A70-36740
- CW multifilament GaAs laser diodes measurement, showing cross correlation between light and current noises
18 p3270 A70-36742
- Q switched laser turn-on nonlinear dynamics, deriving field intensity distribution function
18 p3270 A70-36743
- Nd-YAG Q switched laser using feedback loss control to increase switching speed for digital scanning
18 p3270 A70-36744
- Laser pulse shaping using inducible absorption with Q switched time behavior controlled by nonlinearities within optical resonator
18 p3270 A70-36745
- Carbon dioxide laser producing nearly 100 percent amplitude modulation of output by intracavity polarization modulation technique
18 p3270 A70-36747
- Modulation of carbon dioxide laser with Stark cell internal to cavity, using methyl chloride electrooptical gas
18 p3270 A70-36748
- Variable ratio beam splitter design and operation for lasers, using birefringent optics
18 p3270 A70-36755
- Giant pulses in passively Q switched laser oscillator, calculating time constant of light flux exponential increase
18 p3270 A70-36953
- Laser triggered spark gap /LTSG/ with subnanosecond rise time, describing construction and operating characteristics
18 p3271 A70-37092
- Optical system with orthogonal standing waves in liquid used for two dimensional scanning of laser beam in ultrasonic field
18 p3271 A70-37109
- Coupled fiber lasers maximum energy transfer between passive conductors, determining minimum pulse duration
19 p3443 A70-37286
- Nd glass laser ultrashort light impulse optical rectification, presenting lower harmonics angular dependence
19 p3443 A70-37287
- Coherent light communication system quasi-optical lens line output field examination, using laser assembly to study parasitic, radiative and overall power losses
19 p3443 A70-37288
- CdS crystals luminescence spectrum excitation by UV light of ruby laser, noting excitons and phonons recombination
19 p3444 A70-37368
- Traveling medium solid state lasers radiation intensity modulation by active element motion
19 p3444 A70-37442
- Gas laser radiation depolarization coefficient as function of radiation energy, cavity anisotropy and operating transition type
19 p3444 A70-37445
- Turbulent mixing in supersonic cone near wake, using laser planogram technique for flow visualization
19 p3351 A70-37529
- Laser-produced plasmas production and containment, studying expansion in uniform magnetic field and charge quantity as power density function
19 p3444 A70-37535
- Holographic interferometry of rapid phase objects by two wavelengths from ruby laser and KDP crystal filter, noting application to dense plasmas
19 p3422 A70-37650
- Subnanosecond jitter spark gap obtained with YAG-Nd pulsed laser triggered switching at moderate repetition rates
19 p3444 A70-37666
- Low jitter multiple high voltage spark gaps switching at 50 pps by Q spoiled YAG laser triggering
19 p3444 A70-37667
- Gas lasers intensity expression derived by theory of double resonance spectroscopy, comparing results with He-Ne laser experimental data
19 p3445 A70-37672
- Folded path transversely excited atmospheric pressure carbon dioxide laser using shower or brush discharges, measuring output pulse characteristics
19 p3445 A70-37674
- Organic dye lasers output bandwidth and tunability extension by acidification of solution
19 p3445 A70-37675
- Laser beam alignment system for monitoring dielectric film evaporation
19 p3445 A70-37686
- Plasma lasers, investigating striation oscillations and excess noise phenomena and generation mechanisms
19 p3446 A70-37858
- Dual scatter laser Doppler velocimeter /LDV/ technique, considering system design, performance and experimental verifications
19 p3424 A70-37876
- Optimum laser beam deflection for instrument design, considering tandem, rotary mirror and analog methods
19 p3446 A70-37879
- Pulsed ruby laser holography with coherent light, discussing applications
19 p3425 A70-37886
- Monograph on gas laser dynamics, emphasizing single mode intensity measurement as function of cavity loss in He-Ne laser
19 p3446 A70-37978
- High accuracy length measurement by fringe counting using laser interferometer
19 p3447 A70-38050
- High power neodymium laser with aspherical lenses to focus photon beam for nuclear fusion experiments
19 p3447 A70-38165
- Laser radiation and solid target interaction, calculating temperature and plasma density as function of intensity
19 p3447 A70-38166
- Nuclear fusion realization by focusing from intense beam neodymium glass laser
19 p3447 A70-38167
- Laser beam and matter interaction models for positive energy balance in nuclear fusion, obtaining Lawson criterion
19 p3447 A70-38168
- He-Ne laser beam hazard to human retina
19 p3371 A70-38309
- Strong short coherent light pulses with diffractive divergence generated by ruby lasers in series, showing pulse, emission and far field interferograms
19 p3447 A70-38394
- Laser and electron beam removal of material in manufacturing technology
19 p3447 A70-38451
- Solid state laser with transverse mode selection to increase brightness, discussing plano-concave resonator
19 p3447 A70-38508
- Ultrashort light pulse generation by self mode locking laser, discussing power amplification problems
19 p3448 A70-38509
- Low noise He-Ne laser with capillary elements, measuring current threshold of noise free operation as function of design parameters
19 p3448 A70-38512
- Materials jet-like ejection from metal surfaces under high density laser radiation action, investigating erosion and plasma spectrum
19 p3448 A70-38734
- Transverse magnetic field effect on emission spectrum of He-Ne laser, using scanning interferometer
19 p3448 A70-38735
- Optical emission conversion from solid state lasers into far IR region by nonlinear polarization with difference frequency generation
19 p3448 A70-38741
- Ionic and molecular gas lasers, discussing pumping, transitions, emission, discharge tube dimensions, cooling, pressures, optical elements and applications
19 p3449 A70-38751
- Formaldehyde rotational transition hyperfine components measured by molecular beam maser
20 p3702 A70-39008
- Prototype cloud physics laser nephelometer design and performance, determining droplet concentration and size from scattered light pulse count and amplitudes
20 p3626 A70-39081
- Gratings as laser wavelength-selective end reflectors, noting application to carbon dioxide and dye lasers
20 p3639 A70-39083
- Pulsed argon ion laser output properties from electron temperatures and densities produced by He-Ar gas mixture
20 p3640 A70-39137
- CW second harmonic He-Ne laser light second order intensity correlation function measurements
20 p3640 A70-39153
- He-Xe laser with pure Xe-136 gain cell inside cavity, observing enhanced Lamb dip in power output vs frequency curve
20 p3640 A70-39154
- Laser holography for nondestructive testing of C composite structures, reducing fringe patterns to radial deformation and surface strain for cylinders and cones
20 p3718 A70-39212
- Transparent polymers stress-strain state induced by elastic waves, using model with space and time dependence of laser beam
20 p3654 A70-39248
- Spatial gain variations transverse to discharge in axially flowing carbon dioxide laser amplifier, noting relationship to flow velocity
20 p3640 A70-39391
- He-Ne laser profile-tracing system for contour measurement, suggesting steps for error reduction
20 p3640 A70-39417
- Ring lasers design and performance, measuring angular velocity by interferometry
20 p3641 A70-39418
- Protein solutions and cell cultures changes by ruby and Nd lasers radiation, noting threshold energy
20 p3579 A70-39419
- Laser interferometry with unstable external resonator, determining radial electron density distributions during implosion phase of linear z-pinch discharge in argon
20 p3630 A70-39420
- Laser beam for military weapons applications, investigating energy levels and beam guidance
20 p3641 A70-39421
- Submillimeter gas lasers with low noise and CW operation for far IR spectroscopy, noting emission lines multiplicity
20 p3641 A70-39423
- Transversely excited atmospheric pressure /TEA/ carbon dioxide laser, noting power output and cost
20 p3641 A70-39424
- Ruby laser radiation injury relationship to position and number of energy absorbing pigment particles in iris
20 p3579 A70-39425
- Object visibility limits when illuminated by laser beam with spatial selection method, discussing atmospheric conditions and light source radiation power
20 p3641 A70-39448
- Light He isotope effect on He-Ne laser power output
20 p3641 A70-39737
- Self oscillatory operation of laser with bleachable light filters, solving power balance equations by computer algorithm
20 p3641 A70-39738
- Pulsed composite laser performance with He-Ne active section and neodymium-glass power gain section
20 p3641 A70-39740
- Mirror deformation effect on laser emission angular distribution, estimating output parameters by geometric optics
20 p3642 A70-39741
- Laser beam method sensitivity for spectral emission analysis of nonconducting materials
20 p3642 A70-39743
- Radiation divergence from gas laser resonator with coupling aperture
20 p3642 A70-39752
- Organic laser spectral and energy characteristics, discussing practical operation principles, low generation threshold and harmonic energy
20 p3642 A70-39754
- High radiation intensity neodymium glass laser, describing installation for heating plasmas to high temperatures
20 p3643 A70-39758
- Multidimensional control systems synthesized in accord with polynvariance and coordinating couplings principles
20 p3604 A70-39837
- Ultrasonic LF modulation of solid state traveling medium lasers radiation intensity attributed to elastic vibrations of rods
20 p3643 A70-40092
- Metals purity, gas content and porosity effects on nature and size of material zone affected by laser beam treatment
20 p3643 A70-40094
- Planar thin film optical waveguides for integrated circuits, utilizing information carrying potential of laser light in optical communication
20 p3598 A70-40129
- Plasma nonequilibrium state formation and light absorptivity variation under high power laser pulsed radiation
20 p3684 A70-40387
- Vacuum UV laser action in molecular hydrogen Lyman bands, examining stimulated emission in P branch lines and light pulse duration
20 p3643 A70-40496
- Doppler beat spectrum and modulation depth of He-Ne laser emission with backward beam reflected from moving mirror into resonator
20 p3643 A70-40516
- Thermally induced stress birefringence effect on linearly polarized CW YAG-Nd laser
21 p3834 A70-40566
- Q switching of nitrous oxide laser with Freon 12 and sulfurhexafluoride absorbers, comparing wavelengths with carbon dioxide laser outputs
21 p3834 A70-40567
- Carbon monoxide laser efficiency increase through addition of Xe, noting change in laser output spectral intensity distribution
21 p3835 A70-40572
- Absorptivity, transition probability and collision broadening frequency of dimethylether at 3.51 micron He-Xe laser wavelength, noting pressure dependence, transition lifetime and saturation intensity
21 p3835 A70-40573
- Self focusing schlieren observation in gas breakdown, discussing cubic polarizability of excited atoms in electron cascade due to laser pulses
21 p3835 A70-40594

Carbon dioxide laser pulse shape, duration and power dependence on repetition rate during continuous pumping

21 p3835 A70-40634

Polyethyl methacrylate rupture during omnidirectional compression under laser radiation, showing pressure effect on microdefects and cracks

21 p3841 A70-40644

Electrons optical scale time averaged motion dependence in focused laser beam on light intensity gradient, calculating bremsstrahlung spectrum

21 p3836 A70-40723

Safety factor estimation by nomographic techniques for eye protection against direct viewing of laser beam

21 p3768 A70-40761

Cathode spaces electron concentration, time dependence and axial distribution by laser beams interferometric method, noting accuracy and resolution

21 p3836 A70-40796

Q switched free running mode-locked lasers with cavity mirror consisting of thin glass plates suitable for high power use

21 p3836 A70-40807

YAG-ND laser volume limits condition for high power fundamental mode operation

21 p3836 A70-40808

Laser interferometer system unwanted reflections elimination and intensities control in each arm by linear polarization method

21 p3823 A70-40820

Holography application to marine ecological studies, using laser beam reduction techniques for image recording and reconstruction of large areas and volumes

21 p3823 A70-40821

Optimum tube diameter for maximum radiation output of single and multimode He-Ne lasers

21 p3836 A70-40916

Thermal and birefringent effects on output of continuous Nd-YAG laser rod, using 6328 A probe

21 p3837 A70-41906

Helium and nitrogen role in carbon dioxide laser excitation, discussing optimum gas mixture

21 p3837 A70-41919

Threshold retinal damage by CW He-Ne lasers due to mode locking

21 p3771 A70-41997

Acoustic waves in carbon dioxide at 2-25 torr initial pressures induced by heat from incident carbon dioxide laser pulses

21 p3837 A70-42003

Laser oscillator and amplifier characteristics based on ionic Nd dissolved in aprotic solvents, discussing solution loss

21 p3838 A70-42009

Recombination lifetime /laser/ states in Si doped GaAs light emitting diodes on p-type thin platelets

21 p3838 A70-42016

Isoperibol calorimetry for laser power and energy measurements, discussing boundary value problem for heat flow

21 p3838 A70-42021

Semiconductor platelet laser stimulated emission visual observation in unwanted reflected modes

21 p3838 A70-42022

Single picosecond mode-locked laser pulse selection and multiple pass amplification device, obtaining high energy and signal to noise ratio

21 p3838 A70-42023

Quantum theory of inhomogeneously broadened laser, considering atomic motion-electromagnetic field interactions and detuning effects

22 p4048 A70-42293

High output CW carbon dioxide laser design, using gas pressure variation and fast axial flow

22 p4048 A70-42322

Water cooled carbon monoxide-He-nitrogen-oxygen laser CW output at room temperature

22 p4048 A70-42327

Excited state complexes laser action in coumarin dyes indicated from stimulated fluorescence time dependence

22 p4048 A70-42328

Host materials for increasing optically pumped solid state CW laser fundamental mode output power

22 p4048 A70-42333

Thermal blooming of 10.6 micron laser beam in carbon dioxide absorption cell

22 p4049 A70-42335

Breakdown mechanism in Q switched ruby laser triggered spark gap, noting pulse duration and power peak

22 p4049 A70-42352

Spontaneous emission intensification at 6911 A in potassium to evaluate plasma local conditions, using low pressure arc and Q switched ruby laser

22 p4049 A70-42359

Cadmium sulfide pulsed laser spectrum analysis, discussing laser output stabilization by mode selection and electron beam scanning

22 p4049 A70-42405

Laser heterodyne system for nonsinusoidal vibration measurements, describing calibration and use

22 p4049 A70-42526

Optimal heterodyne receiver for laser signals element-by-element wavefront detection

22 p3987 A70-42558

Laser application to nondestructive testing via holography and hologram interferometry

22 p4028 A70-42587

Thin optically pumped pulsed CdSe platelet lasers, detecting mode jumping and tuning effects by time-resolved spectroscopy

22 p4049 A70-42946

Prism film device coupling laser beam into thin film dielectric light guides, discussing operational theory

22 p4030 A70-42947

Prism film device for high efficiency laser beam coupling into light guiding thin film, deriving operation theory by plane wave analysis

22 p4030 A70-42948

Approximate lasing condition from coupled rate and radiative transfer equations, determining population, energy density and power output

22 p4050 A70-43006

Stereo laser framing camera for miniature surface cracks and perturbations produced in materials by explosively induced shock waves

[SMPT PREPRINT 21]

22 p4035 A70-43052

Acoustic Bragg diffraction for laser light deflection, solving high speed photography and holography motion problems

[SMPT PREPRINT 5]

22 p4035 A70-43055

High speed holographic recording of transient events by single shot ruby and Nd-doped pulsed lasers, applying to shock tubes and wind tunnels

[SMPT PREPRINT 3]

22 p4035 A70-43056

Laser radiation effects on lens lipid content in adult Rana temporaria frogs during cataract development

22 p3978 A70-43139

Wavelength selective carbon dioxide laser using stationary grating to correlate pulses for high J values and line number

22 p4050 A70-43153

Intense laser light pulse longitudinal compression resulting from nonlinear intensity-dependent refractive index

22 p4050 A70-43221

Laser radiation hyper Raman scattering intensity enhancement via resonance processes, using density matrix method

22 p4075 A70-43233

Cuprous chloride /CuCl/ as low-loss electro-optic material modulating 10.6 micron laser radiation

22 p4051 A70-43334

Diffusion effect on carbon dioxide Gaussian laser beam amplification, measuring gain saturation via pinhole method

22 p4051 A70-43335

Compression of laser pulses reflected from periodic and zone plate gratings

22 p3990 A70-43337

High power gas lasers constructed in Poland, describing structural design and operational specifications

22 p4051 A70-43441

Ruby laser mode excitation, spatial coherence and free emission kinetics investigated by high speed camera scanning

22 p4051 A70-43461

Ruby and Nd glass solid state lasers modes partial self synchronization investigated by spectral time resolution method

22 p4051 A70-43463

Threshold parameters of liquid and gaseous helium breakdown caused by ruby laser beam, noting Mandelstam-Brillouin scattering in liquid phase

22 p4051 A70-43465

Two-component optical system for laser radiation collimation, calculating tolerances for fabrication and assembly

22 p4051 A70-43560

Argon laser for long pulse low duty cycle operation, discussing construction and performance

22 p4052 A70-43602

Thermoelectrically cooled GaAlAs injection laser illuminator, discussing optical-electronic interface problems and design and performance characteristics

22 p4052 A70-43603

Material transfer image recording using focused laser beam, discussing experimental setup and test results

22 p4040 A70-43605

Flowing medium turbulent velocity measurement using laser Doppler device

22 p4040 A70-43615

Laser light pulse interaction with solid targets, observing second harmonic generation in induced plasma from time resolved spectra

22 p4084 A70-43673

Thermal energy conversion into coherent laser light, examining various thermodynamic limitations

22 p4076 A70-43674

Ultrasonic light modulation using single crystal lithium niobate transducers in laser communication and information processing systems

22 p3992 A70-43734

Monograph on optimum focusing of laser light with nonideal lenses having spherical aberration

22 p4052 A70-43739

Single frequency gas laser synchronization by small harmonic signal from second laser, deriving frequency shift dependence on power

23 p4200 A70-43929

Optical FM system with laser interferometer and sideband carrier circuit for measuring mechanical shock by Doppler shift

23 p4193 A70-43964

Vibrational relaxation measurements of specific carbon dioxide vibrational-rotational states from tunable carbon dioxide laser beam absorption

23 p4221 A70-44011

Laser induced gas breakdown, considering plasma generation and properties

23 p4225 A70-44185

Laser light scattering in plasma for charged particle correlation function

23 p4225 A70-44187

Laser light polarization and depolarization during backscattering from aqueous suspensions

23 p4215 A70-44271

Live skin tissue electrical parameters changes due to laser radiation, showing coagulative necrosis by histomorphological studies

23 p4150 A70-44313

Laser application to deformation and vibration analysis, discussing optical alignment, contactless measurement and holographic interferometry

23 p4201 A70-44335

Automatic shutter for recording holograms with laser light, controlling exposure time by photoconductor cell

23 p4197 A70-44472

High power pulsed laser fog dispersal, calculating vaporization regimes of droplet interaction with laser radiation

23 p4201 A70-44592

Low threshold laser action of Nd-containing chelate in host media consisting of polymethyl methacrylate and organic liquid

23 p4201 A70-44869

Axial modes interaction in He-Ne laser with atomic collisions in active medium, computing intensities and emission frequencies

23 p4202 A70-45053

Spectroscopic features of mercury laser associated with electron energy levels and spontaneous emission line structure, giving excitation and disruption mechanisms

23 p4202 A70-45054

Quantum noise in narrow-band ring laser, noting mode amplification of weak monochromatic signals

23 p4202 A70-45056

Irradiation influence on emission power of GaAs laser excited by high energy electron beam

23 p4203 A70-45060

Threshold characteristics of injection and electron excitation semiconductor lasers having photoluminescence properties of n-type GaAs single crystals

23 p4203 A70-45065

Spectral and threshold emission from optically pumped semiconductor lasers as function of carrier type and concentration in GaAs single crystals

23 p4203 A70-45069

He-Ne laser with absorbing cell in magnetic field, investigating nonlinear effect in frequency dependence of output power

23 p4203 A70-45070

German monograph on quantum statistics for light propagation in laser-active fluctuating media

24 p4350 A70-45090

Expansion of laser produced plasma into uniform magnetic field, calculating electromagnetic radiation

24 p4382 A70-45108

Electro-optical Q switches for generating laser radiation pulses

24 p4351 A70-45181

Statistical properties of random intensity field during coherent laser radiation scattering by moving diffuse surface

24 p4351 A70-45184

Optical damage center structural defects in transparent dielectrics under high energy ruby laser radiation, noting nontransparent inclusions and dislocation centers

24 p4351 A70-45209

CW laser beam power density distribution monitoring by self calibrating photographic dosimetry technique

24 p4307 A70-45343

Laser sensors as alignment instrument for control and measurement of five degrees of freedom

24 p4351 A70-45383

Beam laser operational efficiency relation to molecule /atom/ interaction in focusing system, explaining lasing power drop at large flow rates

24 p4351 A70-45457

Pulsed ruby laser radiation energy characteristics relation to crystal temperature distribution, thermal deformation and compensating lens focal length

24 p4352 A70-45460

Light scatterers use behind phase object in double exposure holography, determining laser radiation wave front dynamics effect on image quality
24 p4334 A70-45461

Plasma formation from transition metal target under monopulse laser radiation, noting absorbed surface density energy role in onset
24 p4385 A70-45463

CW GaAs semiconductor laser fabrication by liquid epitaxy, noting Ag plating role in output power
24 p4352 A70-45468

Laser operation instability with nonlinear filter, deriving electrons differential velocity distribution functions on inhomogeneous emitter
24 p4352 A70-45469

Optical laser radar for upper atmospheric density and aerosol concentration measurements
24 p4353 A70-45561

Laser light effects on electron beams, considering absence or presence of crystalline optically transparent solid
24 p4353 A70-45564

Laser light scattering by moist air flows with condensed droplets of water vapor
24 p4353 A70-45565

Magnetic field measurement by laser light scattering intensity fine structure determination in plasma
24 p4353 A70-45567

Formation and radiative recombination of free excitonic molecules in CuCl single crystals via Q switched ruby laser excitation
24 p4353 A70-45604

Nd glass laser with smooth emission frequency scanning, giving block diagrams and radiation spectra
24 p4353 A70-45646

Nd laser single picosecond pulse energy, duration and frequency width
24 p4354 A70-45664

SNR of moving diffuser illuminated by laser light, considering image plane and Fresnel field observations
24 p4354 A70-45670

HF chemical laser emission in fluorine-containing organic compounds via arc discharges, noting molecular hydrogen effect on p sub 10 and p sub 21 transitions
24 p4355 A70-46046

Transverse flow deuterium fluoride-carbon dioxide chemical laser for CW output without external energy source
24 p4355 A70-46084

Ruby laser second harmonics generation in low loss lithium iodate crystal with high conversion efficiency
24 p4355 A70-46085

High pressure pulsed Xe laser obtained with transversely excited He-Xe discharge
24 p4355 A70-46087

Nitrogen laser pumped exciplex 4-Methylumbelliferone and rhodamine 6G dye laser amplifier, measuring single pass power gain vs wavelength
24 p4355 A70-46088

Gas ionization with Q switched carbon dioxide laser radiation, determining breakdown threshold or minimum power density requirement
24 p4355 A70-46261

Spectral anomalies due to inhomogeneous optical pumping in masked ruby laser, using mathematical model
24 p4355 A70-46264

Phosphorus and selenium oxychloride based liquid laser transmission loss measurement
24 p4355 A70-46265

Laser gain coefficient increased via organic compounds addition to rhodamine 6G aqueous solution
24 p4356 A70-46273

Ionized Ar laser developments, considering power output and radiation spectrum
24 p4356 A70-46324

Laser Doppler shift theory and applications to vibration and flow velocity field measurements
24 p4340 A70-46351

LASER RADAR
U OPTICAL RADAR
LASER RANGE FINDERS
Laser ranging systems used with retroreflecting satellites in geodetic and geophysical applications
05 p0815 A70-16691

Optimal control of elevation and azimuth of automatic tracking device carrying pulse laser and receiving telescope
06 p1011 A70-18469

Apollo 11 laser ranging retro reflector measurements from McDonald Observatory confirming thermal design analysis performance prediction
06 p1011 A70-18482

Night vision systems with integrated pulse gated viewing and laser ranging, analyzing transmitter and viewer
12 p2236 A70-27902

Apollo lunar laser ranging experiment /LURE/ for range measurements from earth to lunar surface
15 p2750 A70-31675

Laser range finding to satellite equipped with retroreflectors, noting accuracy dependence on signal strength
16 p2925 A70-33021

Reflected ruby, laser pulses from Apollo 11 laser ranging retro-reflector /LRRR/ with telescope, measuring round trip travel time of light
21 p3912 A70-41638

Earth-moon laser distance measurements, examining relationship between Newtonian and relativistic field coordinates
24 p4413 A70-46160

LASER RANGER/TRACKER
Laser ranging and tracking system consisting of mirror tracking pedestal, instrumentation bay and control van featuring manual/automatic tracking capability
16 p2862 A70-33164

Laser ranging and tracking for high velocity targets, discussing SNR considerations, ambiguity resolution, error analysis, measurement centroid and target acquisition
16 p2862 A70-33165

Mathematical-physical parametric model of satellite geodetic laser range accuracy, false alarm and count probabilities, correlating with retroreflector signal strength
16 p2863 A70-33166

Gallium arsenide laser ranging system for helicopters obstacle warning
17 p3103 A70-34720

Mechanical design and mounting technique of Apollo 11 fused silica laser ranging retroreflector array at Tranquility Base
17 p3082 A70-34763

LASERS
NT ARGON LASERS
NT CARBON DIOXIDE LASERS
NT CHEMICAL LASERS
NT GALLIUM ARSENIDE LASERS
NT GAS LASERS
NT INFRARED LASERS
NT INJECTION LASERS
NT LIQUID LASERS
NT ORGANIC LASERS
NT PULSED LASERS
NT Q SWITCHED LASERS
NT RING LASERS
NT RUBY LASERS
NT SEMICONDUCTOR LASERS
NT SOLID STATE LASERS
Book on quantum electronics covering energy levels of materials, matter-radiation interactions and laser theory and applications
01 p0112 A70-10876

Atomic variables elimination technique applied to Markovian laser master equation, resulting in integrodifferential equations for field statistical operator
01 p0112 A70-10884

Laser optoelectronic and spectroscopic methods using fixed gap spherical mirror confocal Fabry-Perot interferometer and multiple beam image tube framing camera
01 p0112 A70-10901

Metal film graded filter fabrication for schlieren photographic system with laser light source and framing camera, using vacuum evaporation
01 p0113 A70-10921

Laser position finding of satellites fitted with corner reflectors, discussing atmospheric attenuation and applications to global triangulation and gravitational field measurements
02 p0256 A70-12083

Laser range finding by mobile missile station compared with geodesic satellite telemetry by ground station
02 p0312 A70-12212

Laser applications for diagnostic and interaction studies, discussing fog removal, droplet shattering, clear air turbulence, reaction rates, spectroscopy, etc.
02 p0314 A70-12780

Steady state inversion coefficient for active substance in quantum paramagnetic amplifier with push-pull pumping determined by nonstationary methods
03 p0455 A70-13088

CW laser light sources for Mach-Zehnder interferometer, obtaining results for carbon dioxide injected through porous bottom wall into air flow
03 p0484 A70-13397

Annotated bibliography of laser eye hazards
03 p0434 A70-13680

Axial geometry deformations of laser resonator due to fabrication errors and misalignment during operation
03 p0502 A70-13748

Tradeoff methodology establishing evaluation criteria for comparing radar and laser systems to meet geodetic satellite altimeter performance requirements
04 p0686 A70-14648

Laser gyro status for major obstacles impeding exploitation, comparing biasing methods
04 p0704 A70-15659

Faraday modulator for polarized laser radiation, eliminating analyzer by oblique magneto-optical active element, converting angular modulation into amplitude modulation
05 p0858 A70-16251

Cylindrical confocal laser resonator with circular coupling aperture in center of mirror calculated for diffraction losses by numerical iteration
06 p1079 A70-17187

Divided photoelectric cell position sensitive detectors in laser alignment systems, obtaining independent signals for displacements in orthogonal directions
06 p1081 A70-17624

Polarization interference filter as laser resonator frequency selector, showing Q factor measurable within spontaneous emission line
06 p1082 A70-17771

Collection of papers on essentials of lasers including submillimeter wave amplifiers, IR masers, interferometer resonant modes, fluorescent solids and coherent light
07 p1297 A70-19025

Book on lasers and holography covering coherence, wave diffraction, zone plates, etc.
07 p1282 A70-19598

Pumping light distribution in rectangular laser rods showing corner maxima and overall nonhomogeneity
07 p1300 A70-19871

Laser characteristics and applications in high temperature research including metal heating, welding, machining, surface particle emission and plasma production
07 p1301 A70-19881

Polarization of laser medium consisting of colliding two level molecules with velocity dependent mean free time
08 p1512 A70-20992

Laser safety programs in biomedical applications, discussing installations, techniques, hazards and protection
08 p1451 A70-21048

Small-scale local flow velocity measurements with laser using differential Doppler method
09 p1694 A70-22125

Laser technology, discussing activation types, applications and commercial development for data processing, voice communication, medical equipment, etc.
09 p1695 A70-22338

Compact unequal-path radial shearing laser interferometer designed for small angular aperture wave front testing
09 p1696 A70-22719

Book on lasers, light amplifiers and oscillators covering optical resonators, optical pumping, pulsed lasers, etc.
09 p1700 A70-23541

Real time wide angle multicolor scanned laser display for visual flight simulators, utilizing flying-spot camera and rotating optical polygons
10 p1857 A70-24203

Stationary regime stability of one dimensional model of optical quantum traveling wave amplifier, determining trapping band of traveling wave laser
10 p1901 A70-25158

Resonant oscillations of passive Fabry-Perot resonator in optically anisotropic medium, using parabolic equations for wave vector amplitudes polarized components
11 p2063 A70-25869

Laser systems for deep space communications, considering high data rates, laser types, systems operation, earth atmosphere effects, hardware reliability, etc.
11 p2005 A70-26036

Resonant nonmonochromatic radiation effects on quantum system, deriving expressions for active medium nonlinear polarization, susceptibility and gain
12 p2245 A70-27304

Laser microplasma formation in focus of two laser beams impinging on crystalline lithium hydride targets
12 p2246 A70-27355

Laser profilometer for airborne ocean wave profile measurement
12 p2249 A70-28003

Book on light and matter covering mathematical laser theory
13 p2429 A70-29574

Composite cylindrical laser rods end region stress and optical pathlength change with thermal expansion or contraction between core and cladding
13 p2429 A70-29703

Operation characteristics of flash, arc, incandescent and explosion type laser pump lamps
13 p2431 A70-29874

DOD laser research and development contracts management
14 p2667 A70-30367

Optically pumped Rb laser theory, taking into account superfine and Zeeman structure of atoms
15 p2749 A70-31521

Optical quantum amplifier frequency characteristics dependence on broad spectral composition amplified signal intensity and resonator parameters
15 p2754 A70-32862

Laser applications in geosciences - Conference, Huntington Beach, California, June-July 1969
16 p2925 A70-33013

Laser Raman scatter process applied to atmospheric probing
16 p2925 A70-33017

Servocontrolled laser strainmeter based on Michelson-Morley interferometer, determining dynamic

characteristics dependence on feedback loop filter type

16 p2925 A70-33022

Laser interferometry strain gage for measuring earth strain, taking into account wavelength stabilization

16 p2925 A70-33023

Laser devices design, emission characteristics, coherent light, etc

16 p2926 A70-33071

Optical system and light source imperfection effects interference image contrast lowering in laser interferometer for length measurements

16 p2928 A70-33292

Laser cavity design with total internal reflection quartz prisms, calculating prism angles tolerances

16 p2915 A70-34219

Glass laser materials characteristics, discussing refractive index thermal coefficient, stress optical coefficients, spontaneous emission, etc

17 p3105 A70-35091

Atomic physics of lasers and active materials, noting multiplet spectra of atoms, molecular spectroscopy, energy level population distribution and amplification

[AIAA PAPER 69-63] 18 p3316 A70-36700

Time dependence of laser rod focal length, measuring thermal lensing effects

18 p3270 A70-36756

Inlet optics modification in Raman laser spectrometer, discussing high pressure gas storage and support plate enlargement

19 p3443 A70-37361

Monochromatic radiation from laser modulated electron beams

19 p3444 A70-37572

Optically bistable crystal applications, discussing photochromaticity, catochromatic tubes, oscilloscopes, computer storage devices and laser systems

19 p3446 A70-37860

Laser aided frequency and amplitude analysis of vacuum test chamber vibration during alignment of orbiting UV spectroheliograph

19 p3396 A70-37877

Ronchi test interferometer for optical quality checking of laser crystals

20 p3627 A70-39094

Laser rod faces parallelism measurement by interferometric method for Brewster or square ended rods

20 p3640 A70-39095

Light focusing glass fiber with variable refractive index using ion exchange process, discussing applications to laser communications and data processing

20 p3671 A70-39129

Power diffraction losses at mirrors of asymmetric confocal laser interferometers with output coupling apertures

20 p3628 A70-39130

Constant false alarm rate bias technique to control avalanche photodiode laser receiver over varying operating conditions of temperature, ambient illumination, etc

20 p3641 A70-39483

Dynamic compensation of thermal pumping, induced deformation of laser active elements via thermal bending of resonator mirrors achieved by coatings

20 p3642 A70-39744

Electron concentration measurement range expansion in plasma by laser interferometer with optical signal phase modulation

21 p3860 A70-42069

Shot, thermal, induced gate and flicker noise in various solid state devices and lasers

21 p3792 A70-42112

Laser and flash X ray shadowgraph techniques in hypervelocity ablation/erosion investigations in hyperballistics range

[SMPTE PREPRINT 28] 22 p4034 A70-43047

Gas velocity measurement by high speed schlieren observation of laser induced breakdown phenomena

[SMPTE PREPRINT 27] 22 p4034 A70-43048

Laser applications in length measurement and holography, describing principles and techniques, modulated laser beams and pulse transit time

23 p4201 A70-43998

Oscillatory flow measurements by directionally sensitive laser velocimeter, discussing concept, design and construction

23 p4197 A70-44473

Rotational quantum numbers from iodine molecule resonance fluorescence measurements during laser excitation using Fabry-Perot interferometer

23 p4202 A70-44938

Industrial laser technology applications, considering high accuracy distance, flow and stress measurements, die hole punching, integrated circuit component welding, etc

24 p4351 A70-45382

Laser measurements in semidynamic space geodesy on DI-D satellite using Mediterranean stations

24 p4352 A70-45541

Lasers biomedical applications based on thermal and ionization effects on biological targets, considering eye surgery, tumor treatment, etc

24 p4308 A70-45568

Lasers for surgical applications, cancerous tissue treatment, ophthalmology and comparison with RF diathermy

24 p4308 A70-45569

Level relaxation constants measurements by three-level laser spectroscopy, using line shape of stimulated shifted resonance scattering in gas

24 p4354 A70-45821

LASV

U F-111 AIRCRAFT

LATCHES

Three dimensional latching dynamics and loads induced during Apollo spacecraft docking, using linear stiffness or flexibility matrices for structural elasticity

[AIAA PAPER 70-21] 06 p1158 A70-18181

Reliable latch diaphragm release mechanism for separation of payload from spacecraft, discussing design, operation and tests

16 p2921 A70-34117

LATENCY

U REACTION TIME

LATERAL CONTROL

Roll control method using recirculating base flow reaction against oriented blades or fins attached to reentry vehicle base to produce rolling moments

01 p0003 A70-10847

Lateral separations using navigation error analysis, showing values for aircraft with or without Dioscours and inertial control under North Atlantic conditions

02 p0336 A70-12607

Lateralization and detection of signals under antiphasic noise masking measured at various SNR levels

06 p1106 A70-17597

Flight maneuver for roll modulated lifting reentry vehicle to reduce deployment dynamic pressure

07 p1394 A70-19724

Kalman filtering techniques to identify aircraft lateral motion data

08 p1478 A70-20782

Root loci construction for differential equations with quadratic free parameters applied to aircraft motion with roll control

11 p2071 A70-25393

Spin-stabilized rockets stage separation dynamics, considering guide shoe-guide rail lateral motion constraint system

13 p2503 A70-28508

Missile roll rate from yawing motion frequencies determined by epicyclic theory

[AIAA PAPER 70-536] 13 p2506 A70-29075

Aircraft optimal roll stabilization control system design using performance index with weighting matrix

14 p2532 A70-31395

Reentry vehicles fluidically controlled hydrazine rocket engine modules for roll rate control

[AIAA PAPER 70-650] 16 p2970 A70-33617

Mariner spacecraft roll control star sensors and trackers design and flight performance

20 p3665 A70-39239

Turbulence effects on lateral directional flying qualities, examining pilot task performance, control workload and compensatory behavior

[AIAA PAPER 70-998] 20 p3560 A70-39533

Rocket course correction by lateral air expulsion /ram air control/, deriving model for performance prediction

[AIAA PAPER 70-90] 20 p3715 A70-39559

Automatic aircraft lateral motion stabilization during flight in perturbed atmosphere by HF invariant systems

20 p3670 A70-39839

UpSTAGE interceptor missile flight control system, discussing command logic to capitalize on lifting body advantages to enhance roll maneuver

21 p3927 A70-40782

Rocket roll control by secondary compressed air injection via slender fins inserted into nozzle convergent

21 p3931 A70-41953

Aircraft rolling motion /eigenmotion/ in flight at small angle of attack following initial disturbance, discussing response to control action

22 p3961 A70-42515

Wheel force and roll moment nonlinearities effect on light STOL aircraft handling qualities during approach

[ICAS PAPER 70-55] 23 p4139 A70-44151

Magnetically stabilized satellites passive roll control, discussing resonance solutions by variational approach

23 p4262 A70-44690

LATERAL OSCILLATION

Lateral vibrations of rigid rotating shaft in viscous fluid using inner and outer expansions method, considering small amplitude vibration and fast rotation

04 p0769 A70-14865

Longitudinal structural vibration and lateral bending response mass and spring coupling in Saturn AS-502 during boost with longitudinal excitation by pogo effect

09 p1766 A70-23239

Spin requirement to limit projectile yawing oscillations in hyperballistic range

12 p2157 A70-27835

Lateral motions of vertical uniform tubular cantilever conveying fluid, considering oscillatory instability at high flow velocities

13 p2511 A70-28741

Numerical method for roots of algebraic equations, computing continuous beam lateral vibrations natural frequencies

14 p2600 A70-31330

Inverted torsion pendulum performance improvement, describing dashpot to dampen lateral vibrations

23 p4202 A70-44950

LATERAL STABILITY

Wing-fuselage interference influence in aircraft dihedral effect, discussing role of velocity direction on wing

03 p0406 A70-13020

Motion equations and dynamic lateral stability of towed glider in steady horizontal flight treated by small perturbations method, including design and handling influence

09 p1611 A70-23063

Poppet valve lateral stability improved by effective seat ratio increase and use of high viscosity fluid

11 p1983 A70-26421

Optimal and suboptimal aircraft lateral directional stability augmentation applying optimal control and model-following techniques

12 p2162 A70-27812

Aircraft lateral and longitudinal motion stability in steady rolling, deriving inertia cross coupled stability criterion

13 p2347 A70-29445

Supersonic aircraft lateral stability and controllability design, discussing directional and weathercock stabilities

15 p2673 A70-31625

Structure of flexural members, analyzing torsional and lateral stability by finite element method and matrix formulation

18 p3339 A70-36494

Lifting reentry flight test vehicle aerodynamic configuration development, emphasizing lateral stability and maneuverability

[ICAS PAPER 70-02] 23 p4257 A70-44118

LATERALITY

U LATERAL STABILITY

LATERALIZATION

U LATERAL CONTROL

LATITUDE

NT GEOMAGNETIC LATITUDE

Icarus radar and optical observations indicating surface smoothness differences between central and higher latitudes, radius size and radar reflectivity

01 p0180 A70-10534

Rotation periods of Jovian atmospheric currents showing zonal wind velocity variations with latitude

02 p0369 A70-11829

Latitude-period relation existence in geomagnetic micropulsations, discussing coupling between components of geomagnetic field fluctuations

05 p0838 A70-16278

Geopotential fields expansion on 500 mb surface for hemisphere in terms of Chebyshev polynomials along meridian and trigonometric polynomials along latitude

07 p1329 A70-19648

Odessa observatory meridian circle pivots wear determined during observations of eclipsing variables

08 p1574 A70-21160

Lunar latitude evaluation investigated for origin of discrepancy between two methods

08 p1577 A70-21494

Longitude and latitude dependence of pc geomagnetic micropulsations related to local time, using analog spectral analysis

09 p1666 A70-22064

Diurnal, seasonal and latitudinal variations of maximum electron concentration in F 2 region, using global network observations

15 p2729 A70-32077

Power spectrum analysis of division errors of graduated circles associated with meridian astronomy

19 p3523 A70-38686

Equations for converting satellite geodetic latitude and altitude into geocentric Cartesian system

20 p3669 A70-39691

Diurnal atmospheric density variations latitude dependence from satellite data

23 p4185 A70-43842

LATITUDE MEASUREMENT

Cosmic ray latitude survey in North America in summer using neutron and muon monitors operating near sea level and on mountains

01 p0167 A70-10226

Cosmic ray latitude survey in Canada using airport sites, noting ground snow effect on neutron monitor counting rate

01 p0167 A70-10227

Earth poles motion influence on latitude, longitude, azimuth and geocentric rectangular coordinates of points determinations on earth surface

03 p0473 A70-13187

Instantaneous latitudes observations during stellar transit at Poltava, describing error correction procedure

08 p1488 A70-21153

Earth free diurnal nutation parameters determination from latitude observations, establishing amplitude and phase time-independent variations

08 p1488 A70-21154

Photoelectric exposure meter for meridian circle readings photographic recording

08 p1496 A70-21159

Latitude observations at Pulkovo, considering star declinations and proper motions

08 p1574 A70-21162

Statistical heliographic latitude dependence of dominant polarity of interplanetary magnetic field, using photospheric synoptic chart

13 p2492 A70-29195

Astronomical navigation on lunar surface with equations for selenographic latitude and longitude

13 p2449 A70-29272

Latitude determination from observations of pairs of bright stars at equal altitudes, using computer ephemeris calculations

14 p2633 A70-30142

LATTICE IMPERFECTIONS

U CRYSTAL DEFECTS

LATTICE PARAMETERS

Shear moduli and lattice parameters effect on screw dislocation equilibrium in bimetallic medium of soft and hard phases

03 p0587 A70-13117

Maraging steels mechanical properties, studying changes in lattice constant and electric resistance to determine Al strengthening effect nature

05 p0865 A70-16872

Neutron irradiation and annealing effects on lattice constants of titanium and chromium carbides analyzed for X ray diffractions

07 p1303 A70-18702

PbTe-based Sn, Se and Ge alloys lattice constant, thermal EMF and resistance, fusibility and microstructure

08 p1555 A70-21117

Gamma-gamma prime mismatch effects on stress rupture of Ni and Fe-Ni based alloys with Al and Ti hardeners

08 p1521 A70-21701

Ferritic and martensitic Fe-Ni alloys lattice parameter determined by standard X-ray techniques

12 p2256 A70-27613

Rhenium alloying effect on room temperature ductility of Cr, Mo and W, measuring lattice parameters by Debye-Scherrer method

12 p2256 A70-27616

Lattice defect influence on EPR spectral and luminescent characteristics of annealed Fe doped gallium arsenide crystals

12 p2288 A70-28330

Phase lattice constants determination by computer method of debyegram line indexing

12 p2258 A70-28350

Atomic planes around crack, noting configuration dependence on law of interplane interaction

13 p2515 A70-29418

Undoped GaAs lattice constants and electrical properties before and after heat treatment

13 p2471 A70-29504

Localized one electron states in perfect crystals of widely separated atoms, using thermal single determinant/Hartree-Fock/ approximation

14 p2626 A70-30488

Lattice planes and interplanar spacings of small vapor deposited gold crystals, using transmission electron microscopy

16 p2961 A70-33644

Ti, Nb and Mo solubility during surface doping in Al melts containing various metals, discussing melt lattice structure effects

18 p3276 A70-36208

Lattice parameter and thermal expansion of AlAs as function of temperature, indicating lattice match at 900 C with GaAs

22 p4086 A70-43004

Addition effects on lattice and electrophysical properties of trititanate prepared by Ba, Pb, Ca and Ti precipitation

22 p4087 A70-43134

Cubic titanium oxycarbide structural characteristics, noting lattice constant dependence on component proportions and mutual solubility during formation

24 p4359 A70-45477

Phase regions and lattice parameters of isothermal section of Mo-Zr-Cr system at 1100 C from microstructural and X ray analyses

24 p4361 A70-45832

Simplex lattice mathematical models of solidus volume for quaternary Nb-W-Ti-Zr system

24 p4361 A70-45833

LATTICE VIBRATIONS

Diamond-like glassy semiconductor compound of cadmium germanium arsenide, determining optical lattice vibrations from IR reflection spectra

01 p0160 A70-11599

Methylamine crystals lattice vibrations IR spectra recordings, making spectral band assignments according to translational and librational motions

07 p1356 A70-18958

Two parameter model for lattice vibrations applicable to diamond structured crystals, calculating phonon dispersion curves from dielectric screening theory

07 p1357 A70-19920

Linear high polymers heat capacity measurements theory emphasizing simple mechanical systems and contribution of lattice vibrations

13 p2438 A70-28997

Chromium lattice vibrational properties based on fourth-nearest-neighbor tensor force model, obtaining agreement with inelastic neutron diffraction data and elastic constants

14 p2626 A70-30480

Methyl-nitroazobenzene-sulphenyl cyanide unit cell dimensions and space group by single crystal oscillation, rotation and Weissenberg X ray diffraction photographs

14 p2581 A70-31300

Phonons and band structure role in metal-insulator phase transition, developing model of electron interactions with lattice vibrations

20 p3686 A70-39149

Solid para hydrogen IR and Raman spectra frequency analysis, examining lattice vibration effects

21 p3853 A70-41721

Boron impurities introduction into InP crystals grown by liquid encapsulation, detecting IR absorption bands due to localized lattice vibration

23 p4231 A70-44891

Al and W specific heat and Al heat of fusion by quasi-adiabatic calorimetry, estimating anharmonic lattice vibrations role via atomic thermodynamic analysis

23 p4208 A70-44931

Monatomic crystal vibrational spectrum, noting quasi-local vibrations near high impurity concentrations

24 p4388 A70-45202

Perovskite crystals phase transitions based on group theory, considering lattice vibration modes as instability source

24 p4389 A70-45206

LATTICES [MATHEMATICS]

NT BOOLEAN FUNCTIONS

Vortex- and Doublet-Lattice methods for calculating aerodynamic lift distributions on surfaces in steady and oscillatory motion at subsonic speeds

13 p2339 A70-29006

LAUE METHOD

Backreflection X ray microbeam camera with arrangement for positioning preselected area to study grain boundary during creep by Laue method

03 p0492 A70-13759

LAUNCH COMPLEXES

U LAUNCHING BASES

LAUNCH TIME

U LAUNCH WINDOWS

LAUNCH VEHICLE CONFIGURATIONS

Launch vehicle selection, utilization and mission planning and analysis in Comsat programs, discussing INTELSAT I-IV

11 p2002 A70-25489

Two stage rocket booster-ram rocket launcher combination compared to single and two stage rockets

11 p2126 A70-26287

Europa 3 satellite carrier system configurations, discussing rocket design, propellant composition, etc

13 p2502 A70-28445

Europa 3D carrier rocket design and operational data, discussing communication satellites

13 p2502 A70-28446

Cost optimal carrier rocket system for European satellite TV, communication, navigation and earth survey networks

13 p2502 A70-28448

European launcher for geostationary orbit/ELGO/ program, describing Europa 3 payload, propulsion unit, propellant transfer, etc

13 p2502 A70-28449

Cost optimal booster stage for European satellite launchers, comparing liquid and solid propellant rockets

13 p2502 A70-28450

Small satellites for scientific technological and operational missions, discussing piggyback launching, command, battery storage, telemetry and attitude control systems

15 p2810 A70-31781

Space shuttle booster configurations, including wing and tail sizes, vehicle balance and engine location

16 p2982 A70-33706

ELDO launch vehicle design, describing high energy upper stages

18 p3333 A70-36300

Europa 2 launcher fourth/perigee/ stage, describing trajectories, propulsion system design and performance, separation systems, etc

19 p3532 A70-37871

ELDO Europa 1 and 2 launchers configurations tendencies, discussing use of liquid propellant boosters, chemical, electrostatic or thermonuclear propulsion system, etc

23 p4263 A70-45002

NT TITAN 3 LAUNCH VEHICLE

Space station flexibility design based on INT-21 payload capability emphasizing volume and weight factors

[AIAA PAPER 69-1064] 01 p0195 A70-10635

Reusable airbreathing launcher for manned space station ferry operations, considering nozzles, intakes, thrust, acceleration, flight plan, weight analysis, etc

02 p0381 A70-12502

Air force booster growth inventory, noting combination with space-configured upper stages and strap-on solid motors

[SAE PAPER 690713] 05 p0922 A70-15831

Launch vehicles design, propulsion, maneuverability and navigation

05 p0923 A70-16565

Satellite launch vehicle attitude control stability study including fuel sloshing and body bending effects

06 p1155 A70-17320

Launch vehicle control system synthesis based on mode control theory state variable formulations

06 p1156 A70-17958

Launch vehicle minimum cost design emphasizing flight vehicle evolution stages via effect on costs

[AIAA PAPER 70-240] 07 p1396 A70-20378

Air breathing launch vehicle for earth-orbit shuttle assessed in light of hypersonic propulsion and configuration development

[AIAA PAPER 70-269] 07 p1365 A70-20380

Strap-on ferry package for reusable spacecraft and launch vehicles subsonic lift/drag increase

[AIAA PAPER 70-259] 07 p1397 A70-20390

Reusable passenger and cargo shuttle system based on integral launch and reentry vehicle (ILRV), considering propulsion systems, aerodynamic and structural configurations, aerothermal characteristics, etc

08 p1582 A70-20689

Marshall Space Flight Center optical research programs technology base for launch vehicle development support, discussing Apollo Telescope Mount

09 p1657 A70-23518

Launch vehicle automatic checkout methods emphasizing guidance and control equipment performance in real time operations

[AIAA PAPER 70-393] 10 p1952 A70-24912

Launch vehicle first stage cost reduction, considering weight factors, mass production, recoverability, etc

11 p2126 A70-26285

Low cost launch and reentry vehicles, surveying technology and economics of spacecraft

11 p2126 A70-26286

Booster control system reducing maximal wind-induced bending torques, examining booster response to aerodynamic forces

13 p2500 A70-28413

Stochastic processes optimal control theory application to launcher attitude control under wind disturbance

13 p2501 A70-28428

Collection of papers on wind effects on launch vehicles covering aerodynamics, airframes, guidance and control, wind-vehicle interactions, atmospheric turbulence, etc

[AGARDOGRAPH-115] 13 p2504 A70-28751

Wind load aerodynamics effects on launch vehicle flight control systems design

[AGARDOGRAPH-115] 13 p2504 A70-28753

Wind effects on rigid launch vehicle guidance and control system design, using model incorporating structural bending and fuel sloshing

[AGARDOGRAPH-115] 13 p2448 A70-28755

Wind-launch vehicle interaction in flight, using equations of motion for aerodynamic loads

[AGARDOGRAPH-115] 13 p2504 A70-28756

ELGO launcher system with apogee booster for placing payload in geostationary orbit

13 p2505 A70-28768

Single stage reusable launch vehicle/project BETA/ feasibility, considering orbit, payload, reentry, cost, etc

13 p2505 A70-28902

Launch vehicle design, considering tradeoffs between wind effects and analysis time

14 p2653 A70-30589

Hypersonic aircraft technology, discussing long range transport, reusable launch vehicles and propulsion systems

15 p2673 A70-31851

Europa 3 configurations for launching payloads into geostationary orbit using various rocket stage combinations

15 p2789 A70-32254

Scramjets for recoverable booster transporting payloads into earth orbits

15 p2811 A70-32258

Ion electric propulsion system coupled with small booster for geostationary orbit realization

15 p2790 A70-32276

Light weight integrated spin-up launch mechanism for rocket propelled payload

16 p2845 A70-34113

Analytic theory of unsteady separated flow effects on dynamics of heat sink type reentry bodies and elastic launch vehicles

[AIAA PAPER 70-762] M-4 SS launch vehicle capabilities and development schedule for low energy interplanetary missions

17 p3008 A70-34489

Black Arrow launch vehicle for inexpensive and reliable payload injection into low polar orbits

17 p3168 A70-35253

Computerized automatic ground equipment /CAGE/ as intelligence system for checkout and control of launch vehicles and spacecraft

17 p3178 A70-35255

Launch and reentry vehicles pressure transducers, measuring propellant quantity, water systems, fuel, oxidizer, battery compartment and ascent engines, etc

19 p3397 A70-37915

Future spacecraft mission for short period comets rendezvous, considering trajectory requirements and launch vehicle payload capabilities

[AIAA PAPER 70-1072] Launch vehicle injection error sensitivity minimization by trajectory shaping using excess booster capability

19 p3530 A70-38885

Technological and economic problems of reusable aeroballistic and ballistic launch vehicles

19 p3534 A70-38889

Aerodynamic forces on flexible launch vehicles and missiles in supersonic flight based on first order method, solving boundary value problem for surface velocities

20 p3562 A70-40150

Strap-on ferry package for reusable spacecraft and launch vehicles subsonic lift/drag increase

20 p3746 A70-41853

Lunar launch vehicles quality control and reliability, describing management procedures for test facilities, preproduction and purchased materials quality

21 p3931 A70-41867

Launch optimization of artificial satellites for minimizing thermal radiative heat input during low altitude orbit

22 p4126 A70-42384

Launch optimization of artificial satellites for minimizing thermal radiative heat input during low altitude orbit

23 p4264 A70-45047

Launch optimization of artificial satellites for minimizing thermal radiative heat input during low altitude orbit

23 p4264 A70-45047

Launch optimization of artificial satellites for minimizing thermal radiative heat input during low altitude orbit

23 p4264 A70-45047

Launch optimization of artificial satellites for minimizing thermal radiative heat input during low altitude orbit

23 p4264 A70-45047

Launch optimization of artificial satellites for minimizing thermal radiative heat input during low altitude orbit

23 p4264 A70-45047

Launch optimization of artificial satellites for minimizing thermal radiative heat input during low altitude orbit

23 p4264 A70-45047

Launch optimization of artificial satellites for minimizing thermal radiative heat input during low altitude orbit

23 p4264 A70-45047

Launch optimization of artificial satellites for minimizing thermal radiative heat input during low altitude orbit

23 p4264 A70-45047

Launch optimization of artificial satellites for minimizing thermal radiative heat input during low altitude orbit

23 p4264 A70-45047

Launch optimization of artificial satellites for minimizing thermal radiative heat input during low altitude orbit

23 p4264 A70-45047

Launch optimization of artificial satellites for minimizing thermal radiative heat input during low altitude orbit

23 p4264 A70-45047

Kamchatka regions volcanic deposits structural and mechanical characteristics compared with lunar soil characteristics

04 p0744 A70-14440

Lunar dimple /drainage/ craters formation mechanisms, considering analogous earth drainage craters associated with lava tubes

09 p1666 A70-22311

Lunar sinuous rilles formation by fluid flow mechanisms, discussing evidence for lava and rille formation by lava tube collapse

09 p1759 A70-22799

Synthetic silicate liquid viscosity with lunar rock composition compared with volcanic rock on earth

10 p1938 A70-24074

Kamchatka regions volcanic deposits structural and mechanical characteristics compared with lunar soil characteristics

13 p2485 A70-28465

Lunar basalt lava bed formations, examining vacuum and gravity effects during cooling

19 p3517 A70-37988

Cretaceous rock paleomagnetism from Israel lava fields, determining original magnetization directions

19 p3413 A70-38034

Apollo 11 lunar rock lavas and breccias, examining opaque minerals and olivine by reflection microscopy, electron probe and optical absorption measurements

21 p3899 A70-41530

Lava thickness measurement in lunar maria from projecting rim width of partially buried craters

23 p4242 A70-44292

Tycho crater northeast rim scale relief model including lava lakes in outer walls

23 p4253 A70-44881

New Mexico Bandera lava tube systems, noting similarities with lunar surface sinuous rilles

23 p4254 A70-44884

LAVAL NUMBER Gas dynamic functions using critical velocity and Laval number

06 p1033 A70-17237

LAW [JURISPRUDENCE] NT INTERNATIONAL LAW NT LEGAL LIABILITY NT PENALTIES NT SPACE LAW

Victim examination, human factors and forensic problems in flight accident investigations

05 p0807 A70-16497

Aircraft piracy definition by 1958 U.S. Federal Aviation Act, discussing smuggling, escape of prisoners and clandestine airports

05 p0960 A70-16536

U.S. Civil Aeronautics Board policy in cooperative agreements involving foreign airlines, highlighting significant cases

08 p1600 A70-20578

Age discrimination in employment policies of air carriers, discussing legislative measures, hiring practices and retirement rules concerning stewardesses and FAA pilots

12 p2336 A70-27772

Hovercraft operational advantages and legal status

22 p4127 A70-43499

Air passenger legal rights and obligations, discussing contracting states, formalities, hygiene, inoculation and de-insectization

22 p4127 A70-43500

Legal guidance criteria for expert witnesses presentation of technical evidence before jury in products liability litigation

23 p4137 A70-43869

Air hijacking as aviation safety problem, discussing history, prevention and detection methods and equipment, law enforcement, etc

23 p4285 A70-44496

Obstructive lung diseases clinical, radiological and functional diagnosis in legal medicine

24 p4296 A70-45122

LAWS NT CONSERVATION LAWS NT FOURIER LAW NT HOOKES LAW NT KEPLER LAWS NT KIRCHHOFF LAW OF RADIATION NT NEWTON SECOND LAW NT NEWTON-BUSEMANN LAW NT OHMS LAW NT SCALING LAWS NT SIMILITUDE LAW NT STEFAN-BOLTZMANN LAW

LAYERS Stress measurement in discontinuous layered medium subjected to perpendicular load under sliding friction, using photoelastic interferometric models

11 p1231 A70-25587

Boundary value problems of elasticity for layer and strip with arbitrary inhomogeneity along thickness

22 p4120 A70-43712

Stress-strain of thin multilayer isotropic spherical shell under radial load employing shallow shell theory

22 p4120 A70-43716

LC CIRCUITS

Plasma density measurement by LC tank circuit with plasma contained in induction coil, deriving expressions for circuit resistance and resonant frequency

08 p1550 A70-20846

Directional broadband couplers with lumped elements obtained by insertion of LC networks between sum and difference ports of equal hybrids

10 p1848 A70-24221

Air spark gap to switch stored charge in LC circuit, using auxiliary triggering circuit to clamp magnetic flux

23 p4177 A70-44471

LEACHING

Sodiumalumoborosilicate fiber formation and extraction by leaching, obtaining high aluminate content temperature resistant porous fiber and insulation material

24 p4367 A70-45480

LEAD [METAL]

Cosmic ray nuclear interactions under paraffin and lead, using counter controlled multiple cloud chamber

03 p0553 A70-12877

Plastic deformation effects on superconductivity of wire specimens of high purity Pb, In and Tl cold worked at liquid He and annealed

06 p1127 A70-18614

Lead ion effects on single crystal zinc dissolution and electrodeposition in alkaline solutions investigated microscopically

13 p2361 A70-28928

Superconducting lead shell shielding properties in small ambient magnetic fields

13 p2454 A70-30030

Absolute quantum efficiency of phosphor calcium tungstate-lead under monochromatic far UV illumination

15 p2729 A70-32017

Thermal radiation spectrum power of small spherical tin and lead particles

20 p3737 A70-39745

Gas tight lead storage battery with negative plates for oxygen absorption

24 p4295 A70-46352

LEAD [METALS]

NT LEAD ISOTOPES LEAD ALLOYS Metallic superplasticity and superplastic alloys in simple tension, forming tubes and sheets of superplastic Sn-Pb eutectic alloy by pressure forming techniques

16 p2916 A70-32916

Lead alloys as shielding materials in nuclear systems, discussing physical, chemical and metallurgical properties, fabrication and applications

19 p3469 A70-37833

LEAD COMPOUNDS

NT LEAD MOLYBDATES NT LEAD SELENIDES NT LEAD TELLURIDES NT LEAD TITANATES

Literature on IV-VI semiconducting Pb compounds PbTe, PbSe, PbS and PbO, discussing PbTe-SnTe and PbSe-SnSe solid solutions

08 p1555 A70-20584

Lead azide detonation hazards and resulting pressure waves, evaluating protective glove material by dynamic pressure measurements

12 p2289 A70-27665

Lead azide detonation hazards and resulting pressure waves, evaluating protective glove material by dynamic pressure measurements

12 p2289 A70-27665

Lead isotope data from young mantle derived volcanics suggesting mantle evolution and lunar capture

04 p0743 A70-14396

Iron troilite meteorites lead isotopic, Pb and U concentrations, considering fractionation and terrestrial contamination effects

07 p1388 A70-20035

Atmospheric dust natural radioactivity effect on tropospheric Pb 210 mean residence time determination for Pb210 and Ra226 fallout in rain near Moscow

14 p2630 A70-30131

Lead and thallium isotopic compositions of Apollo 11 fines compared with meteorites and earth for lunar surface age determination

21 p3775 A70-41588

Apollo 11 lunar rocks, breccia and fines U, Th and Pb isotopes systematics, considering implications for lunar history

21 p3909 A70-41605

Lead molybdates Acoustooptics materials selection guidelines, estimating lead molybdate figure of merit on basis of chemical composition and density

13 p2469 A70-28796

Lead selenides Epitaxial PbSe films formation mechanism-defect structure relation using moire rotation method, discussing elastic strains, dislocations, boundary formation, etc

01 p0155 A70-10182

PbSe and GeTe cast and pressed samples thermoelectric properties before and after high energy

01 p0155 A70-10182

gamma ray irradiation, using scintillation counter with photomultiplier
01 p0159 A70-10756

LEAD TELLURIDES
Radioisotope thermoelectric generator with lead telluride converter, discussing intact reentry and impact capability, refractory construction and reliability
22 p4072 A70-43196

LEAD TITANATES
Raman spectra of lead titanate, sodium tantalate /potassium tantalate and potassium tantalate/ potassium niobate solid solutions at various temperatures
03 p0542 A70-13824

LEADERSHIP
Pilot leadership qualities as criteria for selection, examining command training
11 p1993 A70-26607

LEADING EDGE SWEEP
Critical flutter behavior of variable geometry aircraft with wing of 70 degree leading edge sweep, noting wing-tail interference
18 p3338 A70-36445

LEADING EDGES
NT SHARP LEADING EDGES
Aerodynamics of conventional aircraft high lift devices, considering effect of leading edge geometry on lift coefficient at stall of plain and flapped airfoils
01 p0001 A70-10046
Wing design optimization for steady and unsteady supersonic flow through computerized simulation and study of leading and trailing edge shape
02 p0223 A70-12208
Supersonic flow separation at antisymmetrical delta wing edges, noting eddy layer and vertical velocity fields effects on aerodynamic characteristics
02 p0224 A70-12625
Viscous incompressible laminar two dimensional flows using Navier-Stokes equations, emphasizing near wake and flow around leading edge
[ONERA TP-757] 03 p0467 A70-13640
Supersonic unsteady gas flow around bodies at low Strouhal numbers, noting angle of attack amplitude and leading edge shock wave
03 p0409 A70-13865
Unsteady state lift and moment action on lattice of profiles moving in incompressible fluid, determining suction originating at leading edges of profiles
03 p0409 A70-13868
Slender wing with blunted leading edge to reduce thermal stresses at supersonic speed studied for aerodynamic characteristics in hypersonic flow
05 p0791 A70-17001
Leading edge phase shift of output pulse from threshold-type pulse shaping circuit determined as function of triggering threshold
06 p1009 A70-17675
Kinetic flow regime in hypersonic flow past flat plate leading edge, using Boltzmann equation
[AIAA PAPER 70-181] 06 p0970 A70-18094
Unsteady airfoil stall in incompressible flow, including pitch rate induced accelerated flow effect on leading edge and trailing edge stall
[AIAA PAPER 70-77] 06 p0976 A70-18237
Hyperthermal leading edge analyzed by examining adjacent relevant mean free paths for collisions, establishing basis for formal expansion of Boltzmann equation
06 p0979 A70-18347
Wall pressure distribution, drag and lift measured on flat plates and wedges at Mach 8 rarefied gas flow for various leading edges
06 p0980 A70-18350
Density field around leading edge of blunted flat plate, using electron beam measurements in low density hypersonic wind tunnel
06 p0980 A70-18351
Hypersonic leading edge problem solved, using merged layer theory to provide link between noncontinuum flow upstream of transition and boundary layer flow downstream
06 p0980 A70-18354
Thunderstorm cold air outflow leading edge structure recorded by NASA meteorological tower at Kennedy Space Center
06 p1100 A70-18575
Supersonic leading edge problem solved by ellipsoidal model using discrete ordinate method compared with BGK model solution
10 p1797 A70-23957
Triangular conical wing with supersonic leading edges analyzed for aerodynamic forces in supersonic flow
10 p1798 A70-24121
Uncooled leading edge effect on cooled-wall hypersonic flat plate boundary layer transition, discussing leading edge bluntness effects
11 p1976 A70-25984
Off-centerline heating on lee surface of supersonic delta wing with separation and vortex initiation at leading edge
11 p1976 A70-25996
Singularities of boundary layer conditions on parabolic cylinder in homogeneous incompressible

viscous flow with leading edge, using Weyl integral equation
12 p2210 A70-27559
Slender wings leading edge vortex flow effect on roll damping at subsonic speeds
[AIAA PAPER 70-540] 13 p2339 A70-29007
Deformable and rigid wings aerodynamic characteristics with subsonic leading and trailing edges, calculating action of gust
15 p2671 A70-31486
Heat transfer and pressure drag of axisymmetric body in hypersonic flow, obtaining minimum energy nose and leading edge shapes by Pontryagin principle
[AIAA PAPER 70-825] 16 p3001 A70-33940
Steady isentropic weakly perturbed supersonic flows past arbitrary slender tapered wings with subsonic leading edges
16 p2838 A70-33971
Yawed two dimensional wedges in hypersonic stream, including leading edge bluntness, viscous interaction and angle of attack effects
[AIAA PAPER 70-783] 17 p3009 A70-34503
Hypersonic flow around delta wings of finite thickness with supersonic leading edges
18 p3206 A70-36260
Flow field about leading edges of tapered wings set at incident angle of attack, using gas dynamic and Monge equations
18 p3207 A70-36376
High angle of attack aerodynamic characteristics of swept wing navy aircraft designs improved via leading edge modifications
[AIAA PAPER 70-904] 19 p3355 A70-37392
Supersonic turbine blade rows design, discussing boundary layer interaction around leading edges and flow around trailing edges
19 p3490 A70-38223
Hypersonic flow pattern past windward side of triangular wing with supersonic leading edges, joining potential and vortex regions behind shock wave
21 p3743 A70-40609
Wall recombination heat transfer in rarefied flow with velocity slip near leading edge
21 p3952 A70-42083
Quasi-conical supersonic wings with curved subsonic leading edges, discussing perturbation potential, boundary conditions, homogeneous flow and gothic and ogee planforms
21 p3747 A70-42108

LEAKAGE
Plastic deformation of wedge shaped model asperities influencing gas leakage between contacting surfaces, discussing critical contact pressure
01 p0060 A70-10267
Mo-Si epitaxial planar Schottky barrier diodes, describing reverse I-V characteristics improvement by edge leakage effects elimination
01 p0052 A70-11174
Leakage in mechanical face seals with hydrodynamic films, noting misaligned seal theories for pumping with cavities and two fluids
[ASLE FICFS PREPRINT 19] 02 p0308 A70-12170
Misalignment and eccentricity effect on face seal, discussing leakage dependence on phase angle
[ASLE FICFS PREPRINT 15A] 02 p0308 A70-12171
Sealing mechanism theory with face seal applications, taking into account load carrying capacity and no leakage pressure gradient
[ASLE FICFS PREPRINT 18] 02 p0308 A70-12172
Lubrication and leakage control mechanics of face seals, considering liquid to vapor boundary within interface
[ASLE FICFS PREPRINT 22] 02 p0308 A70-12173
Load support and leakage from microasperity lubricated face seals, developing hydrodynamic lubricant films
[ASLE FICFS PREPRINT 21] 02 p0308 A70-12174
Noncontacting minimum leakage dynamic seals requiring liquid-vapor interface with leakage tolerance
[ASLE FICFS PREPRINT 40] 02 p0308 A70-12175
Eccentric face seal with tangentially varying film thickness, analyzing leakage flow proportional to eccentricity and surface waviness
[ASLE FICFS PREPRINT 15B] 02 p0308 A70-12176
Long term storage effects on noise, leakage current and thickness of Li drifted Si surface barrier detectors
03 p0482 A70-13023
Allowable leakage guidelines for in-service aircraft hydraulic components, discussing causes and measurements, tabulating rates for static and dynamic seals
05 p0797 A70-15776
Air leakage between contacting surfaces assuming surface irregularities as microscopic truncated cones with ideally plastic or elastic mechanical properties
06 p1031 A70-17133
Surveyor spacecraft vernier propulsion system survival in lunar environment, suggesting temperature resistant seal and valve seat material for fluid loss prevention
06 p1129 A70-17170

Ring seal elements structural parameters influence on fluid leakage at various shaft speeds and fluid pressures
07 p1294 A70-19123
Leak detection methods, analyzing Tesla spark coil, particle counting, vacuum gages and ion pumps, pressure decay, thermal conductivity, etc
08 p1497 A70-21538
Orifice leak test for electronic components hermeticity
13 p2405 A70-28840
Leak detection techniques, describing back pressuring and calibrating methods
15 p2743 A70-32781
Friction and wear effects on leakage path in sliding seal interface
16 p2916 A70-33078
High speed homopolar inductor alternators with minimum leakage reactance, using geometric programming for objective function optimization
16 p2879 A70-34059
Real gas effects in blowdown analysis of leakage through choked nozzle in air flask
17 p3073 A70-35670
Ca ion reversible effects of hydrochloric acid and ammonia water on betacyanin leakage from beetroot sections
19 p3365 A70-38375

LEARNING
NT ASYMPTOTIC METHODS
NT CONDITIONING [LEARNING]
NT ITERATIVE SOLUTION
NT MAZE LEARNING
NT PROBLEM SOLVING
NT THEOREM PROVING
NT TRANSFER OF TRAINING
Retrospective and proactive inhibition in verbal discrimination learning, using paradigms characteristic of paired-associate retention studies
03 p0435 A70-13768
Cats trained for visual form discrimination tested for retention and reversal performance, studying oxygen deprivation influence
04 p0633 A70-15443
Postrest upswing or muscles warm-up in motor skill learning
05 p0803 A70-16671
Steering behavior during learning as function of self generated stimuli by movement compared with stimulus tracking
20 p3580 A70-39674
Bilateral cortical cerebellar hemispheric ablations effect on feline light-dark discrimination learning
21 p3762 A70-41142
Selective stimulus encoding and overlearning in paired associate learning
22 p3971 A70-43401
Neurophysiology of membrane and synaptic mechanisms of prolonged trace changes in neuron activity concerning memory and cellular learning analogs
24 p4305 A70-46393

LEARNING MACHINES
Mathematical models for perception and skilled action in man or machine, noting sensorimotor theory
01 p0034 A70-10498
Human controller in psychology and control engineering, discussing linear and nonlinear modeling of human behavior
05 p0807 A70-16487
Heuristic principles for self organization algorithm of cognitive automation system with active learning strategy
08 p1466 A70-20874
Pattern recognition involving machine extraction of characteristic features and classification based on associated values, discussing design and decision rules for optimal recognition
13 p2373 A70-29577
Learning self learning relationship in image recognition, analyzing resolving function with minimum probability for erroneous recognition
14 p2553 A70-30420
Learning control systems design, deriving general learning algorithms
15 p2705 A70-32448
Control system teaching based on preferred response data, discussing operator determination from purpose control function
15 p2716 A70-32449
Algorithm for implementing learning controller based on subgoal concept applicable to linear stationary system
16 p2868 A70-33312
Learning scheme with probabilistic teacher for unclassified samples, establishing convergence, comparing with linear estimator
17 p3128 A70-34851
Brain-like computer with learning rather than programmable capability, discussing pattern recognition and task performance
18 p3230 A70-36775
Linear reinforcement learning technique for accelerating convergence of successive approximation algorithms
22 p3994 A70-43491

LEARNING THEORY

Collection of papers on theory and applications of learning and pattern recognition systems covering statistics and algorithms, adaptive optimization, stochastic processes, etc

13 p2373 A70-29576
Stochastic reinforcement learning model synthesizing control and pattern recognition systems with learning attributes

13 p2374 A70-29584
Stochastic analog approximation method minimizing criterion functions and for recovering functions from noisy measurements of values in learning systems

13 p2442 A70-29585
Stochastic automata as learning system models in random environments with penalty-nonpenalty expectations, demonstrating convergence

13 p2374 A70-29587
Feedback analysis of learning and performance in hand-yoked, steering and stimulus tracking control of breath-produced visual target

16 p2852 A70-33660
Simultaneous optimal detection and parameter estimation of signals in noise, considering multiple solution, learning and image recognition

18 p3228 A70-36597
Psychological tests for ability to learn association between event and occurrence probability

19 p3363 A70-38319
Statistical pattern recognition and threshold learning in signal detection of noisy binary pulses

21 p3794 A70-41332

LEAST SQUARES METHOD

Least squares method adjusting observation functions in satellite triangulation with correlated observations

01 p0082 A70-11455
Least squares adjustment of observation equations for hybrid systems solved by regarding constraints as observations with zero variances

02 p0289 A70-11798
Aerodynamic derivatives in equations of motion governing aircraft longitudinal short period motion estimated using least squares methods

02 p0224 A70-11866
Earth satellite orbit parameters determination from angle measurements using computer program and least squares estimation technique

03 p0573 A70-13843
Least squares iterative method for solving simultaneous linear equations having singular coefficient matrix

04 p0714 A70-15450
Mathematical and numerical least squares solution of linear equations, using Householder algorithm [JPL-TR-32-1431]

05 p0876 A70-16311
Optimal timing of measurements to minimize dispersion of navigational observation parameters by least squares method applied to Keplerian orbit elements

06 p1103 A70-17878
Least squares method to determine shock thickness at arbitrary Mach number from Boltzmann equation for rigid sphere rarefied gas

06 p1051 A70-18345
Maximum principle least squares (MPLS) nonlinear filter scheme simplified, using digital simulation for stability and tracking performance

11 p2028 A70-26315
Guidance boundary value problem estimation by continuous least mean square (CLMS) method, describing application to generation of velocity required coefficients

11 p2081 A70-26322
Arithmetic mean, least squares method and standard deviation concepts in random error analysis of measurement data

11 p2117 A70-26674
Computerized aircraft navigation utilizing Doppler dead reckoning system and Tacan integration with least square adjustment method

13 p2447 A70-28550
Nonspin stabilized satellite attitude reconstitution using least squares estimate

14 p2654 A70-30775
Linear integral equations for radiative transfer between parallel plates, using least squares method

15 p2826 A70-31822
Iterative weighted nonlinear least squares parameter estimation for human respiratory control system by transfer function modeling, comparing results with visual curve fitting

16 p2851 A70-33322
Nonlinear least squares method reducing Burnett data to compressibility factors and virial coefficients

17 p3136 A70-35594
Mariners 6 and 7 orbits determination by weighted least squares estimation based on common surface features in overlapping TV pictures [AIAA PAPER 70-1066]

19 p3529 A70-38879
Brittle fracture stress statistics for Weibull distribution function parameter determination, comparing linearizing, least squares curve fitting and maximum likelihood techniques

22 p4117 A70-43414

Fitting equations to mixture data by linear least squares method with restraints on compositions, using Scheffe polynomials

22 p4064 A70-43728

Cylindrical heaters in corresponding-states fluids, estimating film boiling heat transfer coefficients by correlation procedure using least squares expression

23 p4279 A70-44361

Suboptimum filter for trajectory estimation from parameters, using modified covariance with least squares formulation in Kalman setting

23 p4177 A70-44601

LEAVES

Diffuse isotropic light interaction with compact corn leaf, using transparent plate model with rough plane-parallel surfaces

02 p0338 A70-11893

Cotton leaf light reflectance and transmittance changes with maturity

12 p2218 A70-26919

Plant leaves discrimination by multispectral reflectance indicated in transmittance measurements via remote sensing from aircraft and spacecraft

12 p2218 A70-26920

Field cotton leaves reflectance and transmittance measurement, predicting linear dimension related to cellular structure

12 p2273 A70-28122

Cotton plant leaves from high saline soil area, observing chlorophyll content on color photographs

14 p2576 A70-30977

Reflectance of single leaves and field plots of cotton, determining Cycocel treatment effects on aerial IR photography

14 p2577 A70-31233

Photoelectric device for recording plant rhythmic leaf movements in space

16 p2849 A70-33998

Ecological potentials in spectral signature analysis, using laboratory leaf and soil spectral reflectance data

17 p3078 A70-35612

Auxin downward transport by gravity in leaves, examining ethylene inhibition

20 p3570 A70-39234

Cotton leaves ammonia induced discoloration spectrophotometric examination, discussing light reflectance, transmittance and absorbance

22 p4014 A70-42771

LECTURES

Lectures on forms in many variables covering Chevalley-Waring and Lang-Nagata theorems for finite and function fields, discrete valuation rings, etc

13 p2441 A70-29454

LEE WAVES

Wave drag in stratified flow lee waves without upstream influence calculated for cylindrical and three dimensional obstacles

03 p0479 A70-14229

Lee wave theory for two dimensional stratified atmospheric models, noting local intense vertical beam into high stratosphere

08 p1540 A70-21972

Earth profile influence on two dimensional nonlinear lee waves in troposphere, discussing Helmholtz perturbation equation and stream function field

11 p2075 A70-25391

Lee wave flow disturbances due to mountains by midtroposphere balloon and aircraft observation, noting flow features nonstationarity

12 p2262 A70-26883

Nonlinear orographic waves in atmosphere, investigating influence of meteorological parameters, temperature jump, incident flow and ridge geometry on flow patterns

12 p2263 A70-27517

Computer plotting of flow patterns and orographic cloud over/in lee wave flow, including rotors, blocking and high level turbulence

12 p2264 A70-27722

Maximum up- and downdrafts altitude, using two dimensional model of lee wave disturbances for post-frontal subsidence modification

16 p2945 A70-32948

Nonlinear orographic waves in atmosphere, investigating influence of meteorological parameters, temperature jump, incident flow and ridge geometry on flow patterns

21 p3846 A70-41165

LEG [ANATOMY]

NT KNEE [ANATOMY]

Speed and accuracy of foot operation of controls tested by circular targets in rows within reach of right foot

02 p0245 A70-12144

Bed rest effects on whole leg venous distensibility, discussing heart rate and leg volume measurements

06 p0999 A70-17288

Orthostatic tolerance in humans increased by lower limb muscles electrostimulation, correlating subjective feelings with heart and pulse rate measurements

09 p1615 A70-22089

Orthostatic tolerance in humans increased by lower limb muscles electrostimulation, correlating subjective feelings with heart and pulse rate measurements

15 p2685 A70-32685

Elastic bounce of body resulting from falling to ground with calf muscles in sustained contraction and without knee bending

21 p3765 A70-42151

Fatigue effects on relationship between oxygen consumption, electromyographic activity and isometric contraction in human leg muscles

21 p3766 A70-42159

Human leg blood flow distribution between deep and superficial veins during alternate treadmill work-rest periods

21 p3767 A70-42160

LEGAL LIABILITY

International law framework for outer space, resolutions and recommendations by UN and international bodies and Space Treaty of 27 January 1967

03 p0611 A70-14257

International Law Association and development of legal regime of outer space, discussing treaties

03 p0611 A70-14258

Latin American viewpoint on Space Treaty and prior UN Declaration implications, discussing military activity, astronaut legal treatment, liability, information access, etc

03 p0611 A70-14260

Liability convention requirements for international space law, considering personal injury or property damage caused by space activities of another state

03 p0612 A70-14262

Spacecraft registration and legal liability issues, noting UN Treaty assumption of registration

03 p0612 A70-14264

Montreal agreement of 1966 approved by CAB, considering air carrier liability

07 p1426 A70-18878

Legal and national justification for limitation in air freight carrier liability taking into consideration Warsaw convention and legal decisions

07 p1426 A70-18880

Air carriers legal liability, considering case decided in London involving Warsaw convention text

07 p1426 A70-18881

Legal aspects of liability for aircraft noise by German laws, discussing property owners obligation to permit flights over properties and admissible claims for compensation

07 p1427 A70-18884

Air cargo damage liability, considering national and international air transportation, delivery schedules, etc

07 p1427 A70-18888

Airfreight carriers secondary services from legal viewpoint

07 p1427 A70-18889

Liability for damage due to space objects, discussing questions before UN juridical subcommittee

12 p2334 A70-26999

Liability for damages by space objects, taking into account states and international organizations

17 p3202 A70-35783

International organizations participation in convention on liability for damage caused by launching of objects into outer space

17 p3202 A70-35784

International juridical discipline of space including moon and other celestial bodies, discussing shortcomings and limitations

18 p3349 A70-36653

Liability for damages due to supersonic flight sonic booms, discussing pertinent provisions in Dutch and international law

19 p3553 A70-37561

Air freight carrier liabilities in passenger transportation international regulations, noting conflicting interpretations

19 p3553 A70-37562

Book on law relating to activities of man in space covering liability, space communication, international organization, military implications, etc

19 p3553 A70-37676

Legal guidance criteria for expert witnesses presentation of technical evidence before jury in products liability litigation

23 p4137 A70-43869

LEGENDE CODE

U COMPUTER PROGRAMMING

U NEUTRON SCATTERING

LEGENDE FUNCTIONS

Coefficients of Legendre polynomial expansion of earth gravitational potential, using Stokes problem solution

03 p0474 A70-13344

Governing equations of plane elasticity to define suitable approximate theories for structural analysis [ASME PAPER 69-WA/APM-22]

04 p0771 A70-14909

Paired integral equations of elasticity with kernels containing Legendre spherical harmonics, admitting exact solution in quadratures

08 p1544 A70-20960

Spherical isotropic shells motion equations solved in terms of associated Legendre functions, considering surface loads and body forces

10 p1953 A70-23876

Arbitrary function expansion into series of Legendre functions by generalizing Weyl-Lebedev-Skalskia integral transform

13 p2441 A70-29312
Coefficients of Legendre polynomial expansion of earth gravitational potential, using Stokes problem solution

14 p2573 A70-30719
Paired integral equations of elasticity with kernels containing Legendre spherical harmonics, admitting exact solution in quadratures

20 p3672 A70-39382

LEGENDRE POLYNOMIALS

U LEGENDRE FUNCTIONS

LEGENDRE TRANSFORMATION

U LEGENDRE FUNCTIONS

LEIDENFROST PHENOMENON

Liquid or solid Leidenfrost film boiling on saturated cryogenic liquid surface, discussing hydrodynamic model similar to propellant spillage accidents

17 p3194 A70-34744

LEM [LUNAR MODULE]

U LUNAR MODULE

LEMMAS

U THEOREMS

LENGTH

Laser methods for industrial length measurements

11 p2061 A70-25355
Length effect on modulus determination test for thin laminated tube under combined loading using shell theory

11 p2136 A70-26086
Thin plates finite length effects on thermal conductivity measurement by impulse method, verifying results with n-type silicon samples

12 p2332 A70-28047

LENNARD-JONES GAS

Reduced second virial gas coefficients calculations by modified Lennard-Jones intermolecular potential function

12 p2180 A70-26860

LENS ANTENNAS

Radiation pattern computation for lens corrected conical scalar horn, comparing patterns and beam-widths with uncorrected horn and waveguide

04 p0656 A70-14721
Radiation patterns widened from plane and circular waveguide ends closed by planoconcave homogeneous dielectric lens

10 p1843 A70-25135
Multiple feed waveguide lens in variable coverage communications antenna for geostationary LES-7 satellite

11 p2016 A70-25461
Antenna pattern and power gain determination from near field measurements on electrically large horn lens, standard gain horn and measuring antenna duplicate

15 p2698 A70-31956
Antenna gain, efficiency, half power bandwidth, sidelobe level and focal length for circularly polarized metallic lens antenna at X band frequencies

16 p2872 A70-32969
Geodesic Luneberg lens Q band antenna design, construction and evaluation, noting point feeding and energy collimation

16 p2876 A70-33408
Lens antennas design for communication satellites, discussing power gain, beam width, sidelobe level, temperature distribution, etc

16 p2982 A70-33772
Lens antennas for performing radiation collimating function through refraction, discussing solid and artificial dielectrics lens design, beam scanning applications, etc

17 p3052 A70-35069
Luneberg lens application to construct multiple beam mechanically despun antenna for spin stabilized satellites, discussing temperature problems

17 p3055 A70-35663

LENS DESIGN

Hyperbolic type gas lens design and focusing characteristics for use in laser light beam waveguide

01 p0106 A70-10033
Microwave holography, discussing zone plate lens design, coherent side-looking radar, large antennas, three dimensional radar display applications

01 p0086 A70-10415
Birefringent lens producing spatially separated multiple images, discussing polarization control, thin crystalline lenses and electro-optic control

01 p0091 A70-10915
Cassegrain telescopes lens corrector systems, critically examining various published articles

02 p0297 A70-11927
Elliptically shaped lenses to eliminate reflection losses by positioning obliquely in optical line

05 p0812 A70-16244
Basic equations governing optical properties of telecentric lens systems for moire analysis, discussing suitability for stress analysis

07 p1248 A70-19238
Objective lens systems with high chromatic aberration correction for visible spectral region

08 p1494 A70-20834

Aerial color photography, considering lens types, exposure, filters, films, etc

08 p1498 A70-21543
Holographic recording of Q switched neodymium laser beam achieved through lens testing on reconstructed beam

09 p1697 A70-22845
TV camera with diffraction limited pinhole lens for visual simulation, solving depth of field and extending field of view without distortion

10 p1887 A70-24217
Big Bear Solar Observatory, discussing site selection, observatory construction and telescope optical system

12 p2205 A70-26864
Multilens quasi-optical transmission lines construction by determining lens profile for optimal conversion of source field into specified field at receiver end

13 p2366 A70-29403
Optical cross correlator with consecutive recording of mutual correlation function, using transparencies on different side of lens

13 p2412 A70-29865
Glancing incidence extreme UV telescopes optical design in solar physics applications, employing surfaces of revolution

15 p2736 A70-32029
Foreground presence for computer generated and painted three dimensional photographic displays using fly eye lenses

16 p2906 A70-33177
Bicylindrical microwave lenses, discussing collimating, virtual line source and point feed scanning lenses design

16 p2876 A70-33405
Allowable transmission bandwidth of lens waveguide with curved axis, considering light beam deflection due to chromatic aberration

17 p3050 A70-34583
Lens antennas for performing radiation collimating function through refraction, discussing solid and artificial dielectrics lens design, beam scanning applications, etc

17 p3052 A70-35069
Spatial signal transmission through open resonator determination based on resonator integral equation, extending to dielectric lens with finite Fresnel diffraction number

18 p3259 A70-36480
Astrophotograph optical center coordinates and camera focal length calculations

18 p3260 A70-36992
Lens systems configuration and aberration, determining suitability for wide angle oculars of Galilean telescopes

19 p3420 A70-37262
Lens with radial symmetry for mm wave scanning antenna

20 p3598 A70-40307
Diffraction theory relationship to ray optics for coherent light propagation through lens systems

21 p3829 A70-41929

LENSES

NT WIDE ANGLE LENSES

NT WIRE GRID LENSES

Fourier transform applied to power spectral distribution determination for two dimensional Fraunhofer holographic data of thin spherical lenses

01 p0090 A70-10907
Circulation gas lens temperature distribution, considering effects of gravity, wall thermal conductivity, glass interlayer, etc

03 p0604 A70-13387
Two loop control system model of human lens accommodative system derived on basis of muscle mechanics, optics and experiments

03 p0439 A70-14275
Ciliary nerve stimulation and lens motion data to identify open-loop plant dynamics of lens accommodation

07 p1216 A70-18858
Thermal lens effect produced by photocurrent in CdS, using focused laser beam to generate photocurrent causing local heating changes of refractivity

10 p1898 A70-23980
Deformed grating frequency multiplication by filtering in Fourier plane of lens, forming moire pattern in image plane by mechanical interference

10 p1890 A70-24592
Lens aberrations compensations in partially coherent image holography

10 p1891 A70-24838
Plasma self Q switching in pulsed far IR lasers, discussing lens effect of plasma electrons delaying laser pulses

11 p2062 A70-25634
Wide angle emitter images transformation into circular by reflecting cone and lens system, describing photographic and photoelectric methods

12 p2237 A70-28157
Focusing lens edge diffraction effect on angular distribution of laser radiation, considering zero mode field distribution

13 p2428 A70-29367

Fourth order aberration in gas lens used as focusing element in light beam waveguide systems

15 p2697 A70-31829
Combined lens-hologram system for strain measurements by moire technique

17 p3087 A70-35024
Coherent light communication system quasi-optical lens line output field examination, using laser assembly to study parasitic, radiative and overall power losses

19 p3443 A70-37288
Large collimator objectives lenses focal lengths measurement in vibrations and temperature gradients

22 p4073 A70-42511
Satellite tracking camera lens-distortion coefficient from comparison of standard stellar and measured X-Y coordinates

22 p4029 A70-42596
Laser radiation effects on lens lipid content in adult Rana temporaria frogs during cataract development

22 p3978 A70-43139
Monograph on optimum focusing of laser light with nonideal lenses having spherical aberration

22 p4052 A70-43739
Pulsed ruby laser radiation energy characteristics relation to crystal temperature distribution, thermal deformation and compensating lens focal length

24 p4352 A70-45460

LEONID METEOROIDS

Radar and photographic studies of meteors from Leonid and Perseid showers, presenting velocities, luminescence and ionization

01 p0193 A70-11602
Leonid meteoroids mass distribution law exponent evaluation based on unstable meteoric radio echo durations integral distribution

03 p0574 A70-13884
Microparticle collection experiments during 1966 Orionid and Leonid meteor showers accomplished by Luster and ALARR /air launched-air recovered rocket/ instruments

08 p1575 A70-21393
Leonid meteor shower radar observation data, analyzing flux rates and particle size distribution

13 p2487 A70-28694
Time-amplitude characteristics and abundance in Leonid meteor shower from azimuthal radar observations

14 p2635 A70-30306
Radio observations of dense briefly visible Leonid meteor shower with fixed pencil beam antenna in coping with wave scattering in trails

15 p2796 A70-31511
Atmospheric turbulence scale and dissipation from 80 to 120 km, using photographic observations of Leonid meteor trails

19 p3515 A70-37663
Leonid meteoroids orbital elements mean values from photographic observations

19 p3526 A70-38776
Spectral energy distribution of meteor trail in Leonid meteor shower from photographic analysis

19 p3526 A70-38779
Ionospheric Si and SiO ions equilibrium interconversion during Leonid meteor shower

20 p3621 A70-39351

LEPTONS

NT ANTINEUTRINOS

Lepton charge and neutrino astrophysics, discussing oscillations role in solar neutrino detection difficulties

07 p1371 A70-20329
Deep inelastic lepton-hadron scattering cross sections universality properties based on Wilson theory

20 p3674 A70-39150
Secondary cosmic ray muon inelasticity in high energy neutrino interactions for deep mine experiments, using lepton current

21 p3845 A70-41139
Neutrino processes in lepton era as primeval fireball relic, discussing coupling constant for muon-electron neutrinos interactions

23 p4253 A70-44849

LES

U LINCOLN EXPERIMENTAL SATELLITES

LESA [LUNAR EXPLORATION SYSTEM]

U LUNAR EXPLORATION SYSTEM FOR APOLLO

LESIONS

NT PULMONARY LESIONS

NN dimethylguanadine for prevention of arterial lesions induced by cholesterol in rabbits

01 p0020 A70-10707
Temporary suppression of cortical associative responses in cats with electrocoagulated thalamic relay nuclei lesions

04 p0632 A70-15220
Time course of changes in rat brain norepinephrine levels after olfactory bulb lesions, discussing autonomic and biological mechanisms

08 p1448 A70-21841
Long bone necrosis in response to reduced atmospheric pressure exposure, comparing lesions with caisson disease

08 p1449 A70-21944

LETTERS [SYMBOLS]

U SYMBOLS

LEUCINE

Refutation of Sylven-Snellman report of catalysis of benzoylarginine beta-naphthylamide and leucine beta-naphthylamide hydrolysis by beef spleen cathepsin B
10 p1812 A70-24534

LEUKOCYTES

NT EOSINOPHILS
NT LYMPHOCYTES

Phagocytic activity and carbohydrate metabolism in peripheral blood neutrophils of men exposed to atmosphere with increased O content, noting neutrophil energy exchange disorder role
03 p0426 A70-13901

Adrenaline effects on rats peripheral blood leukocyte content used for X-irradiation sensitivity estimation
10 p1822 A70-25177

LEVEL [HORIZONTAL]

Two-axis electrolytic bubble level as precision vertical reference and tilt indicator for ballistic missiles inertial navigation systems
[AIAA PAPER 70-949] 20 p3631 A70-39578

LEVEL [QUANTITY]

NT ATOMIC ENERGY LEVELS
NT ELECTRON STATES
NT ENERGY LEVELS
NT GROUND STATE
NT INTERMOLECULAR FORCES
NT MOLECULAR ENERGY LEVELS

LEVELING

Error propagation in rectangular grid leveling networks assuming fixed height of center of mass
11 p2045 A70-25798

LEVITATION

Critical Levitation Loci for floating spheres on cryogenic fluids
17 p3136 A70-34743

High magnetic fields applications, emphasizing metal forming and superconducting rings levitation
19 p3471 A70-37948

LEWIS NUMBERS

Heat transfer coefficient of chemically reacting gas mixture as function of Lewis-Semenov number, discussing nitrogen dioxide decomposition
19 p3550 A70-37251

LIABILITIES

NT LEGAL LIABILITY

LIAPUNOV FUNCTIONS

Nonlocal continuity and correctness of principle for comparing functions with Liapunov vector function, demonstrating continuous dependence of principle on certain parameters
01 p0130 A70-10151

Stability and asymptotic stability criteria for attraction sets in dispersed dynamic systems obtained in terms of Liapunov function
01 p0141 A70-10152

Differential equation comparison with Liapunov vector function, applying Caratheodory condition
01 p0130 A70-10156

Autonomous functional differential equations with finite time lag using Liapunov functionals, discussing stability and instability
01 p0132 A70-11070

Randomly sampled linear systems stability with linear or nonlinear feedback loops, using stochastic Liapunov function method
02 p0272 A70-12727

Liapunov function for automatic control systems, deriving theorem to ensure stability
03 p0460 A70-13434

Liapunov second method extension to dynamical systems stability, illustrating wing torsional divergence and panel supersonic flutter
05 p0941 A70-16564

Liapunov function construction and stability criteria based on linear differential equations containing periodic and aperiodic coefficients and small parameter
05 p0883 A70-16859

Boundary value problems in closed spaces with fine grained Liapunov boundary described by second order elliptic differential operators
05 p0877 A70-16881

Liapunov functions generation by matrix transformation of state-space system vector applicable to linear and nonlinear systems
06 p1023 A70-17544

Liapunov functionals for time delay systems generated by path integrals in state space in terms of convolution equations
06 p1094 A70-17953

Nonlinear control systems stability with stochastic coefficients, applying Liapunov function
06 p1026 A70-17971

Routh theorem and Chetaev method for construction of Liapunov function to investigate steady state motions, obtaining stability conditions
07 p1332 A70-18677

Relay control design for model-tracking system with parameter uncertainties and disturbances using semidefinite Liapunov function
07 p1247 A70-20026

Liapunov vector functions for asymptotically stable omega-periodic solution existence in case of finite dimensional system
08 p1534 A70-21002

Liapunov direct method for synthesizing self adaptive model reference control system with simultaneously used passive /signal/ and active /parameter/ adjustment loops
08 p1480 A70-21018

Extension of Liapunov systems to time lag systems with small periodic parameter
08 p1546 A70-21628

Nonlinear stability theory for applying perturbed equations to dynamical system based on Liapunov stability theorem
09 p1727 A70-22612

Liapunov stability conditions for critical point of ordinary differential equation, determining optimal criterion
09 p1727 A70-22664

Numerical algorithms for solving Liapunov matrix equation in nonlinear stability analysis and optimal systems design
09 p1641 A70-22959

Coupled systems stability and oscillatory behavior analysis using Liapunov theory
10 p1855 A70-24763

Algorithm developed for constructing first approximation system from Cauchy matrix for Liapunov stability problem solution
10 p1917 A70-25302

Triangular system of linear differential equations reducible to block form by Liapunov transformation, deriving indices stability conditions
10 p1911 A70-25303

Asymptotic stability of multivariable autonomous control systems used Liapunov vector function method
11 p2083 A70-25606

Asymptotic stabilization of multivariable dynamic systems, using subsystem decomposition and Liapunov second method
11 p2023 A70-25607

Liapunov functions construction through conversion of differential equation with polynomial nonlinearities into auxiliary exact differential equation using algorithm
12 p2262 A70-28070

Finite time stability of differential equations system using Liapunov functions
13 p2442 A70-29488

Adaptive hydraulic servomechanism control systems synthesis by Liapunov direct method, noting parameter compensation effect on state error reduction
14 p2534 A70-30621

Routh theorem and Chetaev method for construction of Liapunov function to investigate steady state motions, obtaining stability conditions
15 p2774 A70-31469

Floquet-Liapunov theorem matrix representation derivation, improving accuracy of Liapunov classical representation
15 p2774 A70-31643

Rumanian book on flight stability and control covering Liapunov general stability theory, control systems, stability models, etc
15 p2673 A70-31695

Liapunov functions direct generation by state space system vector matrix transformation
15 p2768 A70-32555

Asymptotic motion stability bound for nonholonomic nonlinear electrodynamic systems, using energy metric algorithm for Liapunov functions generation
15 p2768 A70-32556

Digital computer generation of system stability Liapunov functions for ninth order spacecraft attitude control
16 p2867 A70-33043

Criteria for estimating errors in quadratic approximations to asymptotic stability involving Popov condition based on existence of quadratic Liapunov functions
16 p2941 A70-33045

Liapunov functions synthesis for aperiodic linear systems by inspecting traces of state matrix and products
17 p3129 A70-34955

Steady forced regime stability in pulse frequency modulated servosystems, using Liapunov method
18 p3234 A70-36071

Generalized Carleman boundary value problem, discussing analytical function in simply connected region on Liapunov contour
18 p3280 A70-36159

Elastic continuum conducting heat under general loads, investigating stability thermodynamics- Liapunov criterion relations
18 p3337 A70-36336

Gravity stabilized gyrostatt satellite attitude motion stability, using three dimensional diagram and Liapunov functions
18 p3334 A70-37061

Liapunov stability analysis of dynamic systems described by simultaneous ordinary and partial differential equations of motion, applying to satellite spin stabilization
19 p3472 A70-38860

Real matrix stability determination by right half plane eigenvalues, using symmetric solution of Liapunov equation
24 p4370 A70-46098

LIBRARIES

SPIRAL system for free-flowing text information storage and retrieval in machine readable library
02 p0264 A70-12129

Radiation Shielding Information Center computer code library for radiation transport or shielding calculations, listing programs available
07 p1239 A70-20364

LIBRATION

Autonomous two degrees of freedom Hamiltonian system triangular libration points found stable for all mass ratios in circular restricted three body problem
01 p0192 A70-11575

Lunar limb ellipsoid orientation and parameters based on Greenwich meridional measurements of visible lunar diameters, noting use for observation reduction for various librations
03 p0569 A70-13356

Libration clouds reality possibility from satellite dust counting experiments
03 p0572 A70-13819

Libration limits of satellite in Keplerian circular orbit, estimating potential energy of perturbing forces
08 p1582 A70-20967

Lunar photographs on star-calibrated plates for lunar features coordinates or physical libration determination, outlining photographic technique and computer program
09 p1674 A70-22308

Lunar limb ellipsoid orientation and parameters based on Greenwich meridional measurements of visible lunar diameters, noting use for observation reduction for various librations
11 p2118 A70-26721

Librational motion of damped gravity oriented satellite in circular orbit
12 p2313 A70-27201

Computer techniques for determining physical libration of moon in longitude
13 p2488 A70-28765

Lunar rotary motion predetermination for spacecraft landing in mountainous region
15 p2773 A70-32266

Heliostationary spacecraft at L2 point for solar wind observation, describing mission, instrumentation and spacecraft design
17 p3168 A70-35252

Heliostationary spacecraft for solar observation near libration point between sun and earth, discussing attitude stabilization by solar pressure
17 p3178 A70-35254

Triangular libration points stability in elliptic restricted three body problem, determining parametric resonance region
17 p3137 A70-35690

Controlled libration point satellite limit cycle motion, deriving solution in infinite series by harmonic analysis
17 p3181 A70-35752

Planar Tethered Orbiting Interferometer satellite for long wavelength solar and planetary radio astronomy, discussing deployment control and libration damping
18 p3333 A70-36230

Lunar gravitational field effect on sun-earth exterior libration point location, examining placement on line passing through sun and earth-moon barycenter
18 p3320 A70-37059

Gravity gradient attitude control for satellites near lunar far side libration point
19 p3528 A70-38868

Libration limits of satellite in Keplerian circular orbit, estimating potential energy of perturbing forces
20 p3713 A70-39388

Ephemerides for lunar-orbiting observation of dust clouds in earth-moon system libration points L4 and L5 by observer orbiting over lunar equator
22 p4097 A70-42308

Satellites with many flexibly coupled rigid bodies, calculating libration upper bounds for predicting perturbation and stability
23 p4262 A70-44682

LIBRATIONAL MOTION
Moon figure and gravitational field determination based on hydrostatic theory, libration observations, node and perigee motion, lunar satellite trajectories and visible topography
06 p1141 A70-17824

Particle nonlinear motion near equilateral libration points in restricted three body problem
06 p1146 A70-18226

Material particles unrealizability of periodic motion near libration points of triaxial ellipsoid rotating steadily about polar axis
08 p1543 A70-20491

Computer program for generating tables to calculate lunar libration at any epoch

09 p1752 A70-22313

Solar attraction effects on zero-mass body planar motion near triangular earth-moon libration points, obtaining variational equations of motion

09 p1754 A70-22477

Periodic solutions of restricted three body libration point perturbation due to fourth body gravitational and radiative influence using Huang model

09 p1761 A70-23053

Material elasticity effects on librational motion of arbitrary shaped satellite

10 p1950 A70-24177

Newtonian gravitational system of three point masses with oscillatory motion at time t approaching infinity, discussing particles mutual distance

10 p1938 A70-24182

Lunar libration constants determination from Bessel to present, discussing data reduction methods, international cooperation and impact of lunar exploration

13 p2490 A70-28946

Heliometric lunar libration series joined to obtain uniform equation

13 p2490 A70-28949

Soviet book on physical libration constants of moon based on visual and photographic observations of two craters by position angle method

14 p2642 A70-30959

Book on passive gravity gradient libration dampers covering design, flight experience, evaluation criteria, performance monitoring, failure prevention, etc

16 p2983 A70-33954

Torsion wire libration damper for satellite gravity-gradient stabilization at near synchronous altitudes

16 p2985 A70-34134

Plane galactic orbits near spiral field particle resonance, calculating numerically for ring orbits librating near maxima at Lagrangian points

18 p3331 A70-37193

Spacecraft fuel optimal controls for out-of-plane motion about translunar libration point based on phase plane methods

19 p3530 A70-38890

Nonperiodic Transtrojan orbits for various mass parameter values in three body problem, discussing double libration

21 p3888 A70-41144

Optimal moments of inertia of rigid satellite in circular orbit by generalization of Beletskij concept, discussing libration boundaries

23 p4261 A70-44677

Lunar libration amplitude estimation, using stochastic process theory

23 p4247 A70-44771

LIBYAN DESERT

Time-temperature relation necessary to fine Libyan desert glass and remove gas bubbles calculated by viscosity determination at various temperatures

05 p0843 A70-16833

LIDAR

U OPTICAL RADAR

LIE GROUPS

NT SPINOR GROUPS

Perturbation theory based on Lie transforms, reducing Deprit equation to generate general recursion formulas

05 p0908 A70-16336

Birkhoff normalizing canonical transformation built at elliptic type of equilibrium without internal resonance, using Lie transforms

05 p0909 A70-16340

Operational calculus for semisimple complex Lie group

07 p1321 A70-18658

Momentum-energy tensor and angular momentum for hydrodynamic and electrodynamic fields determined in transformations of m -parametric Lie group

10 p1922 A70-24098

Von Zeipel mappings equivalence to Lie transforms shown by order independent method

14 p2639 A70-30706

Artificial satellite theory main problem for small and moderate eccentricities, using perturbation techniques based on Lie transforms for computer programming

18 p3334 A70-37062

NT SERVICE LIFE

NT STORAGE STABILITY

Dry lubricated instrument-size ball bearings operation in vacuum for long life and quality performance

[ASME PAPER 69-LUB-21] 01 p0101 A70-10386

Load, speed and coating thickness effect on near life of resin bonded solid lubricant, using oscillating motion and low pressure blocks

[ASLE PREPRINT 69-AM-SC-3] 01 p0103 A70-10447

Durability of refractory tubes of small thickness under creep with account of scale factor and unsteady conditions, tabulating experimental and theoretical values

03 p0508 A70-13247

Thermoelectric-couple life tests and efficiency measurements at constant thermal input, noting insulation for limiting parasitic heat losses

[ASME PAPER 69-WA/ENER-14] 04 p0731 A70-14896

NH emission systems radiative lifetimes and SiD and SiH transition probabilities measured, noting effects of radiative cascading

05 p0885 A70-16424

SERT 2 thruster hollow cathode durability tested in bell jar

[AIAA PAPER 69-304] 07 p1364 A70-19703

Mean lives measurement for excited levels in singlet system of neutral He using beam foil technique

07 p1338 A70-19821

Emission kinetics variations of ruby laser due to aging attributed to inhomogeneity of active medium developing simultaneously with color centers

07 p1300 A70-19872

Comet brightness outbursts monochromatic measurements for lifetime of parent gaseous molecules in solar radiation fields

08 p1575 A70-21373

Line strength and radiative lifetimes for Ne II determined from spontaneous emission data obtained from CW neon laser discharge

09 p1730 A70-22070

Solar corpuscular streams effect on meteoric particles behavior in circular orbit around sun, determining lifetime on basis of mass loss due to pulverization

09 p1763 A70-23382

Cramer-Rao efficiencies of best linear invariant estimators, using Weibull distribution in model for survival populations connected with life testing

10 p1910 A70-24604

Aviation equipment and systems operational durability, formulating physical model to construct functions for analysis

12 p2240 A70-27015

Complete sample estimation techniques for reparameterizations of Weibull density function to assign probabilities to components and systems lifetimes

12 p2243 A70-28012

Pulsed CO₂ laser calculating upper level lifetime of carbon dioxide molecule with allowance for gas heating at relaxation

12 p2251 A70-28296

Photon lifetime dependence on hole and electron concentration in GaAs from IR reflection spectra analysis

13 p2470 A70-28882

Safety, microdamages and lifetime of elastic structures under random Poisson pulsed loads

16 p2996 A70-34328

Comet Morehouse CO ions lifetime and density from photometric analysis

18 p3313 A70-36324

Hybrid boost bearing with long life and free starting, stopping and oil system failure characteristics of rolling element bearing

[ASME PAPER 69-LUB-16] 19 p3435 A70-37605

Lifetimes and fine structure of differentially metastable autoionizing states of negative He ion in axial magnetic field, using time of flight techniques

19 p3473 A70-37746

Durability of refractory tubes of small thickness under creep with account of scale factor and unsteady conditions, tabulating experimental and theoretical values

19 p3453 A70-38465

High purity surface-free GaAs epitaxial layer carrier lifetime measurement by optical transmission and excitation technique

22 p4086 A70-43017

Outer zone electrons radial diffusion coefficients and lifetimes determined as functions of magnetic shell parameter, based on satellite measurement following geomagnetic storm

23 p4236 A70-43831

Optimal burn-in testing of repairable equipment, improving reliability by decreasing failure rate with age under operating conditions

23 p4199 A70-43923

LIFE DETECTORS

Bioscience for recovered lunar samples, discussing Surveyor analyses, Lunar Receiving Laboratory methods and life detection using biological markers

01 p0042 A70-11637

Organic compounds detection and identification on Mars surface for living systems existence or evolution

16 p2857 A70-33977

Hydrogen flame ionization detector /HYFID/ for life-derived organic matter in Martian/Lunar soil

19 p3426 A70-37896

Life detection for unmanned planetary exploration from extraterrestrial sample involving growth, gas changes and carbon dioxide fixation

21 p3769 A70-41003

Lunar soil sample preparation and monitoring for viable microorganisms presence

22 p3978 A70-42973

Hydrogen, N, O, Kr methane and carbon dioxide gas chromatographic examination, discussing life detection device for Mars landing

22 p3983 A70-43094

LIFE RAFTS

Physiological research on humans in hypothermia resulting from confinement to life raft on open sea, analyzing thermal conditions, thermoregulation and survival

01 p0013 A70-10233

Three man space escape system, describing emergency situations, parachute descent, life raft design, rescue operations and engineering tests

[AIAA PAPER 68-936] 04 p0763 A70-15403

Physical discomfort and miseries contribution to psychological deterioration during water survival tests on life raft

07 p1218 A70-19009

Emergency equipment for aircraft accidents with dual channel radio beacons installed on life rafts, noting electronically conducted search

07 p1191 A70-19011

LIFE SCIENCES

Chimkurgan reservoir algae life and physicochemical characteristics

09 p1627 A70-23148

Photo-optical processes and optical measuring techniques in research programs at Ames Research Center for aerodynamics, life sciences and space sciences

09 p1657 A70-23501

Microorganisms metabolic activity effects on rocks and minerals, observing solubilization and altered IR absorption in Si-oxygen vibration region during penicillium simplicissimum growth

21 p3761 A70-40712

Bibliographical guide for literature concerning chemical evolution and origin of life

23 p4148 A70-44842

LIFE SUPPORT SYSTEMS

NT CLOSED ECOLOGICAL SYSTEMS

NT EMERGENCY LIFE SUSTAINING SYSTEMS

Langley integrated life support system design, discussing manned test results including system engineering, atmospheric and water chemical analyses and microbial measurements

01 p0038 A70-10973

Life support system model using heart rate to monitor man doing physical work in space suits under simulated space environment

02 p0245 A70-12146

Equations and techniques to analyze transient heat and mass transfer characteristics of packed adsorption beds for spacecraft life support systems

04 p0786 A70-15316

Apollo extravehicular mobility unit /EMU/ system developed from Gemini EVA system with improved thermal control and mobility to support contingency extravehicular transfer in emergency

04 p0645 A70-15665

Water electrolysis module long term operation in providing oxygen for life support systems

05 p0804 A70-15843

Hydrophobic-hydrophilic zero gravity liquid-gas phase separator for Apollo 11 flight life support system

[SAE PAPER 690638] 05 p0804 A70-15844

Regenerative life support system development for multiman crews on extended space missions, considering maintainability, reliability and automation

[SAE PAPER 690637] 05 p0804 A70-15845

Aircraft life support systems and equipment evaluated in Vietnam combat environment, discussing combat ejection conditions, injuries cause and severity, fatalities, etc

05 p0806 A70-16298

Mathematical model of optimal partially closed life support system consisting of man, recycling unit, storage unit and waste disposal outlet

05 p0809 A70-17110

Life support and survival gear design, testing, manufacture, supply and maintenance for combat ejections over rugged enemy terrain, discussing pilot injuries

06 p1002 A70-17706

Physiological training programs and equipment for life support in transports, discussing changes in protective helmet and quick donning harness

06 p1002 A70-17708

Commercial flight crew oxygen system using mask mounted diluter demand regulator

06 p1002 A70-17715

Space stations life support systems for air purification, water reclamation and oxygen recovery

08 p1449 A70-20630

Physicochemical methods of producing formaldehyde for carbohydrate synthesis in life support systems

09 p1623 A70-22080

Life support systems general inspection procedures, personal and survival equipment and accessories

11 p1990 A70-25673

Environmental control of confined spaces and life support systems by Pontryagin maximum principle of optimal control theory, discussing cabins, heat exchanger, etc

11 p1991 A70-26363

Apollo command and service modules environmental control system, discussing redesign of faulty hardware

[SAE PAPER 690618]

12 p2167 A70-27948

Lunar resources classified as rocket fuel, construction and life support materials, discussing implications for manned surface exploration missions

14 p2634 A70-30198

Extraterrestrial resources for space flight maintenance and human life support in space and on extraterrestrial bodies

14 p2634 A70-30199

Physicochemical methods of producing formaldehyde for carbohydrate synthesis in life support systems

15 p2693 A70-32676

Ben Franklin submarine life support systems tested during Gulf Stream Drift Mission, discussing atmosphere control, water, waste and food management

[ASME PAPER 70-DE-60]

16 p2852 A70-33515

Hydrogenomonas vs Chlorella spacecraft life support systems, discussing human requirements and equipment for balanced food supply on long duration space missions

16 p2855 A70-34315

GE-RESO primate life support subsystem design for NASA-ARC biosatellite program

17 p3174 A70-34766

Optimum algae cultivator construction for life support system, using Chlorella culture model

17 p3026 A70-35320

Wheat culture continuous subirrigation for life support system applications in spacecraft, discussing harvest yields

17 p3026 A70-35321

Medicobiological approach to living conditions for sustained residence and human activity during prolonged space flights, describing sealed chamber experiment

19 p3367 A70-37525

Hypoxia warning systems using polarographic sensor and miniaturized electronics for face-mask and cabin installation for aircraft and spacecraft

20 p3579 A70-39429

Portable contingency transfer life support system for crewman of Apollo missions providing oxygen and cooling

20 p3580 A70-39441

Life support systems based on Chlorella-bacterial culture, investigating water exchange and reclamation

20 p3574 A70-40184

Human mass exchange parameters permissible errors for manned space vehicles life support systems design

20 p3581 A70-40200

Environmental control-life support systems (ECLSS) waste methane gas utilization in low thrust resistojet for manned space applications

[AIAA PAPER 70-1131]

20 p3568 A70-40214

Integrated environmental control/life support resistojet systems, surveying NASA programs

[AIAA PAPER 70-1130]

20 p3690 A70-40215

Advanced Integrated Life Support Systems, discussing subsystem requirements and mission parameters

21 p3768 A70-40988

Integrated Life Support System hardware tests, discussing oxygen and water recovery, contaminant control, personal accommodations and failure detection

21 p3833 A70-40989

NASA aircrew oxygen system, describing carbon dioxide control and oxygen generation subsystems

21 p3768 A70-40990

Life support systems oxygen generation mode selection based on mission parameters, including duration, crew size, resupply, vehicle leakage, etc

21 p3768 A70-40991

Life support water electrolysis system design, discussing alkaline or acid electrolyte selection

21 p3768 A70-40993

Spacecraft design to overcome space and launch environment, including environmental protection

23 p4257 A70-44327

Aerospace medicine approach to medical investigator training for aircraft accidents, noting flight surgeon role as life support specialists chief

23 p4152 A70-44454

Continuous flow requirements in aircraft passenger oxygen systems using phased dilution principle, discussing breathing mask efficiencies

23 p4141 A70-44483

Testing laboratory for safety, survival and life support equipment concerning parachutes, aircrew protective helmets and maintenance manuals

23 p4141 A70-44488

Integrated regenerative life support manned tests for space laboratory design and development

23 p4154 A70-44632

Space cabin atmosphere regeneration by unicellular algae photosynthesis, discussing Chlorella cultivation procedures and additional functions in life support systems

23 p4154 A70-44655

Life support systems for biological flight experiments on Biosatellite project and Skylab A mission

23 p4154 A70-44665

Manned space flight regenerative life support systems requirements, considering weight, volume, power, cost effectiveness and integration problems

23 p4156 A70-45023

Closed loop life support system employing algae and bacteria cultures to recycle water in addition to atmospheric regeneration

23 p4156 A70-45024

Biological life support system based on mutual equilibration of human metabolism and technically controlled algae culture, discussing experimental evaluation

23 p4156 A70-45026

Biological life support systems mass exchange processes analysis based on mathematical models, predicting artificial ecological systems stability

23 p4149 A70-45029

Earth-to-orbit space shuttle environmental control and life support system

[AIAA PAPER 70-1253]

24 p4418 A70-45967

Optimal temperature control for confined spaces and life support systems, using mathematical models of environmental control systems

24 p4295 A70-46373

LIFETIME [DURABILITY]

U LIFE [DURABILITY]

LIFT

NT INTERFERENCE LIFT

NT JET LIFT

NT ROTOR LIFT

Canterleaved and doubly supported structures calculated for critical aeroelastic divergence speed resulting from lift and drag

01 p0200 A70-10551

Minimum drag hypersonic delta wing, analyzing shape for given planform, lift, pitching moment and volume using correction for pressure coefficient

01 p0002 A70-10557

Leading edge suction analogy for predicting low speed lift and drag-due-to-lift characteristics of sharp edge delta and related wing planforms

[AIAA PAPER 69-1133]

01 p0002 A70-10607

STOL aircraft configurations optimization including cost effectiveness, considering propulsive lift systems

[AIAA PAPER 69-1131]

01 p0162 A70-10609

Spacecraft horizontal maneuvers in homogeneous gravitational field to achieve soft landing on planetary surface, including optimal liftoff and orbital transfer

01 p0197 A70-11501

Unsteady state lift and moment action on lattice of profiles moving in incompressible fluid, determining suction originating at leading edges of profiles

03 p0409 A70-13868

Vortex separation effects on elliptic bodies lift distribution, analyzing separated flow pattern

04 p0619 A70-15385

Lift effectiveness of slender wings with streamwise root gaps and fences, obtaining lift curve slope variation with fence height

04 p0621 A70-15611

Separated incompressible flow around wing profile, considering calculation of separated potential flow generation with given separation point

06 p0966 A70-17253

Lift and vortex drag due to flaps on thin sweptback tapered wings in inviscid incompressible flow, obtaining spanwise loadings

06 p0967 A70-17256

Lift forces and pressure on vibrating cylinders in plane perpendicular to air flow measured in wind tunnel

06 p0968 A70-17545

Upper surface suction effect on thin plate aerodynamic characteristics, considering relations for lift and pitching moment coefficients

06 p0968 A70-17851

Nonlinear pursuit problem solution taking into account drag and lift in pursuing object equations of motion

07 p1330 A70-18682

Propulsive and lifting motions of pointed profile in ideal incompressible fluid related to alternate vortices emission

08 p1433 A70-21234

Fokker F-28 wing flap, lift dumpers and aileron development, including wind tunnel and flight tests

08 p1438 A70-21864

Shear flow near walls through cascade of untwisted blades, observing variation in lift coefficient across span

11 p1975 A70-25788

Correction factor for finite span effect on unsteady wing lift or moment during sinusoidal gusts or vertical oscillations

12 p2155 A70-27200

Lift and drag characteristics of flexible parawings at subsonic speeds, predicting angle of attack for trailing edge flutter commencement

12 p2157 A70-28079

Rigid wing subsonic and supersonic civil and military aircraft utilizing aerodynamic lift at takeoff and landing

13 p2344 A70-28543

Vortex- and Doublet-Lattice methods for calculating aerodynamic lift distributions on surfaces in steady and oscillatory motion at subsonic speeds

[AIAA PAPER 70-539]

13 p2339 A70-29006

Wing section pressure distributions, lift and drag in transonic mixed flow, considering prediction methods

14 p2529 A70-30866

DC 8 Super 63 aircraft direct lift control flight evaluation

17 p3018 A70-35496

Lifting and side force distributions acting on body in transonic flow

17 p3012 A70-35696

Lift forces acting on spheres in cylindrical tube laminar flow

19 p3352 A70-37647

One dimensional channel flow theory for ram wings, deriving lift and drag laws for comparison with wind tunnel and free flight tests results

[AIAA PAPER 70-971]

20 p3558 A70-39558

Slender wings of low aspect ratio and sharp leading edges, predicting inviscid maximum lift

21 p3743 A70-40585

Flat plate airfoil unsteady lift due to chordwise velocity perturbations, using Horlock frozen gust pattern theory

22 p3957 A70-42303

Short wing lift investigated via lateral fluid jets fired in wind tunnel for various lengths

22 p3958 A70-42614

Optimum pressure distribution and airfoil profiles for maximum lift without separation in incompressible flow determined by second order theory

[AIAA PAPER 69-739]

22 p3959 A70-42704

Vortex induced vibration problems, deriving mathematical model for periodic lift on circular cylinder

22 p3960 A70-43546

Continuous trailing vortex sheet rolling up into two discrete vortices, discussing wing lift limitations

23 p4131 A70-43890

Satellite drag and lift from spatial impulsive surface interaction model

[ICAS PAPER 70-05]

23 p4132 A70-44116

Low speed airfoil two dimensional testing in wind tunnel with slotted wall, examining lift, drag and pitching moments

[ICAS PAPER 70-08]

23 p4132 A70-44119

Lifting quasi-elliptical airfoils with supercritical shock free flow, discussing Nieuwland hodograph theory to compute profile number

[ICAS PAPER 70-15]

23 p4132 A70-44126

Lift determination of slender curved periodically recurring airfoils array in plane potential flow of inviscid incompressible fluid

23 p4133 A70-44158

Hypersonic viscous effects on space shuttle entry trajectory, measuring lift and drag in free flight regime

23 p4258 A70-44526

Aircraft longitudinal motion during takeoff and landing due to loss of lift after boundary layer control system failure

24 p4372 A70-45448

LIFT AUGMENTATION

V/STOL aircraft propellers featuring thrust augmenting air jet slits for increased lift

[DGLR-69-36]

04 p0616 A70-15175

Heaving airfoil wakes visualization with jet flap augmented lift, measuring vortex street parameters

13 p2338 A70-28821

Ground effect for increasing lift during aircraft landing

13 p2345 A70-28973

Plane plate motion in weightless fluid flow with free upper boundary, showing lifting capacity increment by underlying solid surface

13 p2390 A70-29644

High lift airfoils boundary layer separation suppression by blowing, describing wall jets streamwise development prediction methods

[AIAA PAPER 70-872]

17 p3010 A70-34818

Increased lift via hinge suction jet flaps on augmentor wings, using thin airfoil model and small disturbance theory

22 p3960 A70-43432

Wing lift increase by spanwise blowing along upper surface, causing flow reattachment on wing and vortex induced effective aerodynamic camber increase

[ICAS PAPER 70-09]

23 p4132 A70-44120

LIFT COEFFICIENTS

U AERODYNAMIC COEFFICIENTS

U LIFT

LIFT DEVICES

Aerodynamics of conventional aircraft high lift devices, considering effect of leading edge geometry on lift coefficient at stall of plain and flapped airfoils 01 p0001 A70-10046

Research program to improve performance of high lift devices on wings having small sweepback and high aspect ratio 01 p0001 A70-10047

Flight evaluation of direct lift control (DLC) on modified B-52 aircraft, noting controllability improvement during ILS approaches and aerial refueling [SAE PAPER 690406] 03 p0411 A70-12896

Numerical method for attacking-lifting problems of general three dimensional wing executing arbitrary motion in potential flow 03 p0405 A70-12930

Subsonic lifting surface theory including leading edge, discussing singularities in solution of integral equation for determination of aerodynamic properties [AIAA PAPER 69-37] 04 p0619 A70-15387

Aircraft configurations designed for eliminating sonic boom due to lift 05 p0791 A70-16798

High lift devices design and operation problems in short and vertical takeoff 07 p1189 A70-19874

Pneumatically operated lifting mechanism and fluidic control system added to Izod impact testing machine for automatic impact repetition, counting and stopping 11 p2034 A70-26837

Plenum-chamber air-bearing and labyrinth-seal types air cushion lifting mechanisms performance in simulated hovering flight 12 p2162 A70-27981

Lifting surface problem for finite span wing in ground effect using matched asymptotic expansions method 14 p2527 A70-30280

Sears function and lifting surface theory for harmonic gust fields in incompressible flow, modifying function for accurate interpolation of large numbers 14 p2528 A70-30860

Dynamic stability derivatives calculation using steady and oscillatory lifting surface theory with allowance for Bryan limitations 14 p2529 A70-30864

Lightweight lift jet engine design, testing and performance for V/STOL aircraft [ASME PAPER 70-GT-32] 18 p3302 A70-36833

Subsonic high lift cruise wing optimal design using kernel function method of planar lifting surface theory 22 p3959 A70-42709

Aerodynamic theory of pressure lift induced on lifting surface by isotropic atmospheric turbulence, considering transfer function of Concorde aircraft [ICAS PAPER 70-30] 23 p4138 A70-44104

Aerodynamic interferences of lifting surfaces harmonically vibrating in subsonic flow 23 p4136 A70-44765

Kinematically unsteady aerodynamic coefficients consistent with stiffness and inertia properties of lifting surface in supersonic flow by finite element method 24 p4287 A70-45154

LIFT DISTRIBUTION

U FORCE DISTRIBUTION

U LIFT

LIFT DRAG RATIO

Lift-dump system for Hawker Siddeley DH 125, combining aerodynamic drag increase with lift reduction to improve deceleration 02 p0225 A70-12266

Optimal lift-drag ratio of cascades dependence on optimal pitch of cascades calculated for axial flow turbomachinery 02 p0356 A70-12750

Delta wing of given volume and planform with maximum lift-drag ratio in hypersonic flow 04 p0618 A70-15243

Higher order boundary layer effects on zero-lift drag of sphere-cones, investigating transverse curvature, shock vorticity, displacement, slip and temperature jump 06 p1041 A70-18173

Strap-on ferry package for reusable spacecraft and launch vehicles subsonic lift/drag increase [AIAA PAPER 70-259] 07 p1397 A70-20390

Circulation controlled lifting rotor wind tunnel test results concerning factors affecting lift and drag 08 p1432 A70-21039

Wedges calculated for lift-drag ratios at hypersonic speeds to find optimum surface geometry 09 p1606 A70-23282

Ram wing tube ground transportation vehicle, analyzing optimum lift-drag ratio and induced power requirements 11 p1975 A70-25966

Flat-top airfoil determined for lower surface shape to maximize lift drag ratio at hypersonic speeds using calculus of variations 11 p1977 A70-26397

Aerodynamics theory for separated flow effects on helicopter lift-drag capability, taking into account three dimensional flow and blade aeroelasticity 18 p3205 A70-35956

Slender hypersonic airfoil shape optimization for maximum lift to drag ratio for given profile area, chord and free stream conditions 19 p3352 A70-38304

Aerodynamic characteristics of thick sharp edged cropped delta and gothic wings, giving low lift-dependent drag 19 p3353 A70-38615

Atmospheric ascent optimal trajectories for medium to high lift drag ratio space shuttle type rocket vehicles [AIAA PAPER 70-978] 20 p3714 A70-39551

Strap-on ferry package for reusable spacecraft and launch vehicles subsonic lift/drag increase [AIAA PAPER 70-259] 21 p3931 A70-41867

Wave-riders aerodynamics and heat transfer, investigating lift to drag ratios for supersonic and hypersonic vehicles [ICAS PAPER 70-18] 23 p4276 A70-44129

LIFT FANS

Noise radiated from VTOL lifting fan in wing inlet under static inflow conditions, attributing discrete tones to spacing between rotor and stator blades [ASME PAPER 69-WA/GT-6] 04 p0734 A70-14889

Heaving and pitching motion analysis of wave action-induced pressure gradients in captured air bubble /CAB/ ship bubble chamber, discussing fan system design [ASME PAPER 69-WA/AV-6] 04 p0622 A70-14902

Lift fan V/STOL tactical aircraft performance capabilities determination, using digital computer program 07 p1191 A70-18975

Aerodynamic forces and moments effect of VTOL aircraft lift fan configurations on flow past wing 10 p1798 A70-24047

Lift fan propulsion for VTOL passenger aircraft, discussing design, thrust augmentation, optimum element combination, engine-wing integrations and tests [DGLR-70-007] 10 p1929 A70-24049

Low pressure ratio lift fan propulsion system for intercity VTOL transports, considering thrust, safety, noise, weight, components, speed, turbine and transmission [AIAA PAPER 70-670] 16 p2971 A70-33952

LIFT FORCES

U LIFT

LIFTING BODIES

NT LIFTING REENTRY VEHICLES

Aircrew escape/rescue capability /AERCAB/ flying ejection seat design and test programs, noting rotary wing, fixed wing and parawing feasibility 01 p0035 A70-10714

Large-tilt-angle lifting surface theory for V/STOL aircraft based on inclined actuator disk analysis 04 p0619 A70-15377

Subsonic lifting surface theory including leading edge, discussing singularities in solution of integral equation for determination of aerodynamic properties [AIAA PAPER 69-37] 04 p0619 A70-15387

Transonic flow theory, investigating thin three dimensional lifting wings, similarity for lift and drag, plane flow past airfoil, far field and hodograph solutions [D1-82-0878] 05 p0834 A70-16693

Gaussian quadrature integration technique developed for collocation approach for integral equation of steady subsonic lifting surface theory [AIAA PAPER 70-191] 06 p0970 A70-18097

Lifting surface theory for calculation of steady subsonic and supersonic flow over various wing and air-plane configurations, emphasizing finite element load prediction method [AIAA PAPER 70-192] 06 p0971 A70-18114

Steady supercritical planar inviscid transonic flows over lifting airfoils, generating unsteady flow by impulsively imposing airfoil boundary condition [AIAA PAPER 70-47] 06 p0972 A70-18130

Tangent plane method and polar coordinates for lifting surfaces, calculating normal velocity at field point on surface carrying doublet distribution for incompressible flow [AIAA PAPER 70-78] 06 p0975 A70-18195

Wing lifting surface theory for V/STOL aircraft based on inclined actuator disk theory to predict span loading and downwash angle 07 p1190 A70-20408

Perfect fluid sonic flows around weakly lifting three dimensional bodies downstream of shock wave, proving existence of lifting boundary layer 08 p1433 A70-21238

Mathematical model for describing flow in Hele-Shaw cell, predicting attached viscous shear layers in lifting body wake 13 p2338 A70-28818

Load generation on two dimensional thin airfoil by yawed sinusoidal gust in incompressible flow, using lifting surface theory 13 p2344 A70-30025

Lifting surface problem for finite span wing in ground effect using matched asymptotic expansions method 14 p2527 A70-30280

Sears function and lifting surface theory for harmonic gust fields in incompressible flow, modifying function for accurate interpolation of large numbers 14 p2528 A70-30860

Dynamic stability derivatives calculation using steady and oscillatory lifting surface theory with allowance for Bryan limitations 14 p2529 A70-30864

Lifting body pressure and heat transfer measurements at various angles of attack in hypersonic flow [DGLR-70-029] 15 p2828 A70-32841

Nonrolling lifting gliding vehicle hypersonic longitudinal dynamic stability, applying analysis to space shuttles [AIAA PAPER 70-977] 20 p3715 A70-39552

Surface pressure coefficient dependence on specific heat ratio for yawed conical lifting bodies in supersonic streams 21 p3747 A70-41877

ONERA calculations in aeroelasticity including lifting surface optimization, control surface vibration, pressure fields, aircraft transfer functions and panel flutter 23 p4274 A70-44762

Thermal flux surface distribution lifting bodies, discussing aerodynamic efficiency dependence on drag and zero angle of attack Mach number 23 p4136 A70-45019

LIFTING REENTRY VEHICLES

Optimal lift control of hypersonic lifting body during planetary entry, assuming exponential variation of atmospheric density 04 p0620 A70-15532

Reusable lifting entry vehicle flight tests, investigating handling qualities and subsonic-transonic aerodynamics of M2-F2 /M2-F3/, HL-10 and X-24A [SAE PAPER 690662] 05 p0792 A70-15840

Aerodynamic flight characteristics of lifting reentry bodies in subsonic to hypersonic range in wind tunnel tests 06 p1154 A70-17249

Lifting reentry compact body aerodynamic coefficients, comparing calculated and experimental values for subsonic, supersonic and hypersonic flows [DGLR-69-036] 07 p1392 A70-18982

Reusable lifting reentry bodies subsonic and hypersonic aerodynamic characteristics, considering viscosity effects [DGLR-69-038] 07 p1392 A70-18984

Compact reentry flight test body construction featuring extended permissible entry corridor by means of generated lift [DGLR-69-035] 07 p1392 A70-18987

Flight maneuver for roll modulated lifting reentry vehicle to reduce deployment dynamic pressure 07 p1394 A70-19724

Refurbishable ablative thermal protection for reusable lifting reentry vehicles [AIAA PAPER 70-277] 07 p1397 A70-20386

Boride composites with high strength and thermal resistance suitable as nose cap and leading edge materials for reusable lifting reentry systems [AIAA PAPER 70-278] 07 p1315 A70-20387

Abort and staging separation maneuvers of two equal size reusable lifting entry vehicles in wind tunnel tests [AIAA PAPER 70-260] 07 p1397 A70-20389

Adaptive control function technique for lateral stability augmentation system design for manned lifting body entry vehicle 07 p1247 A70-20404

NASA earth-orbit shuttle /EOS/ for achieving routine arrival, conventional landing after orbital flight and reentry 09 p1766 A70-22677

Lifting reentry dynamic stability of flare stabilizers and flap controls 09 p1766 A70-23242

Subsonic glide landing approach guidance for unpowered lifting vehicles, using perturbation feedback and approximation of heading and position coordinates [AIAA PAPER 69-865] 09 p1725 A70-23253

Ground based simulation for hypersonic reusable lifting reentry vehicle design with pilot-in-loop, discussing six degree of freedom simulation [AIAA PAPER 70-385] 10 p1861 A70-24920

Expendable propellant tanks /Tip Tank Concept/ on lifting body reusable booster operations to reduce cost for low earth orbital transport mission 11 p2122 A70-26052

Lifting entry vehicle thermal protection system /TPS/ material performance, analyzing metallic radiator and passive transpiration systems and rigid insulator 11 p2150 A70-26368

Steerable landing gear system consisting of freely casting rotating wheel nose gear, tiltable axle and main gear skids for lifting body spacecraft [AIAA PAPER 69-790] 13 p2344 A70-28514

Temperature rate flight control system /TRFCS/ for lifting reentry vehicles control and guidance 14 p2614 A70-30464

Multibody lifting entry vehicle clusters separation dynamics, describing digital simulation, wind tunnel tests, separation mechanisms, etc

16 p2981 A70-33704

Optimum guidance and control law for lifting reentry bodies, investigating plane descent trajectories for minimum structural heating

16 p2982 A70-33774

Lifting reentry vehicles control surface aerodynamics, considering boundary layer separation, shock interference, unsteady flow, etc

18 p3333 A70-36958

Lifting reentry vehicle two dimensional motion optimization with inequality constraints explicitly containing control by perturbation method

21 p3845 A70-41265

Pressure distribution, force and heat transfer measurements on varied-configurations of lifting reentry vehicles in hypersonic flow

[ICAS PAPER 70-03]

23 p4132 A70-44117

Lifting reentry flight test vehicle aerodynamic configuration development, emphasizing lateral stability and maneuverability

[ICAS PAPER 70-02]

23 p4257 A70-44118

Lifting entry vehicles turbulent boundary layer aerodynamic heating, comparing heat transfer prediction methods

23 p4258 A70-44530

Aeroelastic and aerothermoelastic development of winged interorbital space shuttle concerning panel flutter, stability and nonstationary lifting surface theory

23 p4273 A70-44760

LIFTING ROTORS

Lifting rotor blades flapping response to atmospheric turbulence, discussing time averaging and perturbation schemes

[AIAA PAPER 69-206]

04 p0624 A70-15378

Circulation controlled lifting rotor wind tunnel test results concerning factors affecting lift and drag

08 p1432 A70-21039

Circulation-controlled lifting rotor built and tested on hovering rig, analyzing performance

09 p1611 A70-23284

Bifilar pendulum vibration absorber for counteracting helicopter main motor vibratory forces

10 p1805 A70-24657

Lifting rotor blade motions stability computation using Floquet transition matrix

17 p3009 A70-34726

Helicopter rotor blade stall flutter response prediction based on NACA 0012 airfoil aerodynamic data

17 p3009 A70-34734

Surface pressure and lift measurement on model lifting rotor blade as function of vortex interaction, using flush mounted pressure transducers

17 p3009 A70-34737

Three dimensional inviscid small perturbation compressible flow past lifting axial compressor rotor at subsonic and transonic speeds

18 p3208 A70-36691

Runway test vehicle for lifting rotor performance in simulated forward flight, comparing with wind tunnel tests

19 p3402 A70-38611

LIFTING SURFACES

U LIFT DEVICES

U LIFTING BODIES

U SURFACES

LIGANDS

Shift in nuclear paramagnetic resonance frequency of ligand nuclei in ferromagnets above Neel temperature

10 p1928 A70-24826

LIGHT [VISIBLE RADIATION]

NT AIRGLOW

NT COHERENT LIGHT

NT DAYGLOW

NT GEOCORONAL EMISSIONS

NT LIGHT BEAMS

NT NIGHTGLOW

NT SKY RADIATION

NT SUNLIGHT

NT TWILIGHT LIGHT

NT ZODIACAL GLOW

Tissue protein changes under visible and UV radiation noting denaturation, chemical bonds, protein configurations, clinical disease patterns, etc

01 p0022 A70-10856

Photodynamic damage in biological cells, discussing free radical originators and protective action of thiourea, mono and polyvinylpyrrolidone, cysteine and antibiotics

03 p0419 A70-13306

Thermodynamics of radiation and photosynthesis, discussing Ross-Calvin maximal efficiencies, Duysens method, light and dark conditions and polarized light

03 p0428 A70-14011

Slitless system using interference filter, fixed Fabry-Perot etalon and automatically controlled etalon for recording spectral information for efficient light detection

04 p0685 A70-14523

Beam fluctuations damping in beam waveguide, determining fluctuations cause as random displacement of lenses

04 p0651 A70-15290

Angular distribution measurements of visible and near IR radiation reflected from carbon dioxide cryodeposits formed on liquid nitrogen cooled surface in vacuum

[AIAA PAPER 69-63]

04 p0720 A70-15538

Solar energy converter with shutter, determining light pulse power from solar light intensity and exposure time

07 p1196 A70-19624

Laser focused hologram reconstruction in passing white light

07 p1289 A70-20320

Yearly fluctuations of Seyfert galaxy 3C 120 light curve, discussing effects of ambient temperature

08 p1563 A70-20498

Binocular achromatic and color thresholds of constant and flickering lights determined from background of different brightness

08 p1443 A70-20732

Objective lens systems with high chromatic aberration correction for visible spectral region

08 p1494 A70-20834

Quasi-stellar objects absolute spectral energy distribution, considering electron temperature and photon density

08 p1572 A70-20916

Optical information processing in noncoherent light, considering applicability to simulating antenna radiation patterns using field distribution in aperture obtained by Fourier transformation

08 p1494 A70-20971

Mammalian pineal organ control experiments involving light and sympathetic nerve stimulation

10 p1812 A70-24396

Photon nature, considering light-magnetic flux similarities

11 p2084 A70-26027

Light storage by Venus machine using refractive properties of gas and involving fluid mechanical optics

11 p2114 A70-26575

Light-induced electron paramagnetic resonance signal detected in *Anacystis nidulans*

11 p1989 A70-26847

Holographic achromatic reconstruction of laser holograms in transmitted white light using zonal plate

12 p2238 A70-28297

Wavefront reconstruction by holograms of focused images illuminated by white light, analyzing spatial coherence

13 p2408 A70-29364

UV, visible and IR radiation measurement, discussing spectral distribution, thermopiles, monochromatic radiation and power measurements

13 p2410 A70-29653

Light absorption coefficient of two band superconductor with nonmagnetic impurity, observing electron pairs removal from condensate and transition into excited states

13 p2472 A70-29723

Electron density, characteristic dimensions and vertical density gradient of coronal enhancements in white light, observing elliptical cross section

13 p2479 A70-30004

Atmospheric absorption, scattering and turbulence effect on visible and IR radiation propagation, discussing optical systems performance

14 p2583 A70-30399

Spectropolarimeter for measurements of polarization characteristics of atmospheric radiation in nanometer range

14 p2583 A70-30414

Circadian variation of pituitary-adrenal steroid levels, noting light role

14 p2540 A70-31430

Gas pressure effects on visible and UV laser action in small argon Z-pinch plasma discharge, using streak photographs

15 p2750 A70-31968

Hill reaction color sensitivity in red and blue light during chloroplast disintegration, considering oxygen evolution capacity

15 p2684 A70-32548

Solid state logarithmic radiometer, measuring radiation within narrow portions of optical spectrum

16 p2905 A70-33160

Low light intensities measured using photon counting method, comparing signal to noise ratio with lock-in method

16 p2911 A70-33524

Solid state IR to visible converter, using minority carriers stimulated tunnel injection into wide band gap phosphor

17 p3081 A70-34648

Impulsive loading of structures via light-initiated sprayed explosives

17 p3059 A70-35162

Crab Nebula pulsar NP 0532 optical and X ray synchrotron radiation, explaining ratio of pulsar energy flux to nebula

17 p3152 A70-35747

Star AG Draconis spectrum in visible range by meniscus prismatic camera, deriving energy distribution

18 p3315 A70-36575

Approximate formulas for disperse attenuation and scattering coefficients for water drops in visible and IR spectrum

18 p3260 A70-36973

Nitrogen dioxide continuous visible emission under thermal and recombination excitation, examining spectral characteristics

19 p3374 A70-38267

Light curves bumps properties of Population I cepheids in Magellanic Clouds, Milky Way galaxy and M 31 as function of period

19 p3523 A70-38691

Visible and IR imagery by meteorological satellites measuring surface temperature, atmospheric circulation and state parameters, storm development and tracking, cloud motions, etc

20 p3660 A70-39076

High speed electro-optic spectral scanning in UV, visible and IR regions, using monochromator deflection of dispersed light

20 p3671 A70-39090

Superradiant light /SRL/ converted from electron beam energy by semiconductor targets applied to nanosecond photography

20 p3635 A70-40529

Large sunspot umbra continuum intensity, examining visible spectra

21 p3885 A70-40956

Blue stellar objects emission at 9.5 and 3.5 mm, suggesting quasi-stellar objects with small intrinsic radio luminosity

21 p3922 A70-41993

Fluctuating light pulse packet detection by inertialess photodetector, deriving optimal algorithm

22 p3987 A70-42554

Fluctuating light pulses detection and arrival time estimation for heterodyne reception

22 p3987 A70-42560

Light curve for eclipsing stars with scattering envelopes applied to V444 Cygni binary system

22 p4103 A70-42989

Sources of variability in laboratory carbon arc weathering of light stabilized polyester resin

22 p4059 A70-43080

Hypervelocity impact flash resolved into sub-microsecond continuum radiation pulse succeeded by slow rising long duration light pulse from neutral atomic line emission

23 p4227 A70-44553

[AIAA PAPER 69-364] Light effect on cis-trans-isomerization of cinamoyl-alpha-chymotrypsin, considering molecular modeling of visual reception

24 p4298 A70-45496

Monochromator design for UV and visible wavenumbers linear output, noting application to absorption coefficient measurement

24 p4336 A70-45669

UV Ceti type variable flare stars, observing radio and optical spectral regions for X ray production

24 p4397 A70-45763

Cerenkov light longitudinal distribution from extensive air showers, using near UV receivers

24 p4398 A70-46225

LIGHT ABSORPTION

U ELECTROMAGNETIC ABSORPTION

LIGHT ADAPTATION

Photoperiod variation effects on ambulatory primate *Cebus albifrons* deep body temperature /DBT/, locomotor activity /LMA/ phase relationships and DBT waveform

01 p0011 A70-10035

Light valve projectors and TV cameras, showing disparity between video information generation and large screen real time high brightness image presentation

01 p0088 A70-10811

Melatonin biosynthesis, discussing regulation by light and sympathetic nerves, daily pineal rhythms, estrous rhythms and ovarian hormones

03 p0424 A70-13809

Readaptation times of eyes adapted to darkness using night vision training device in relation to helicopter flight safety conditions

03 p0436 A70-13823

Pupil diameter changes associated with constant change in accommodative stimulus as retinal illuminance varies

03 p0427 A70-13950

Critical discreteness interval of visual analyzer, investigating dependence on stimulus location, flare brightness and adaptation

08 p1443 A70-20734

Visual acuity and light detection after preadaptation to red and orange lights, discussing photopic and scotopic vision

11 p1986 A70-25828

Aircraft pilot and nonpilot night vision adaptation comparison, using Goldman-Weekers adaptometer

17 p3038 A70-35138

Bilateral cortical cerebellar hemispheric ablations effect on feline light-dark discrimination learning
21 p3762 A70-41142

Spatial summation of retinal neurons receptive field centers excitation from single optic tract fibers action potential in light-adapted cats
22 p3971 A70-43403

Spatial aspects of sensitization effect properties compared to background light fields, lowering rod threshold at center by light addition to surrounding annular region
23 p4147 A70-44779

LIGHT AIRCRAFT

NT DH 125 AIRCRAFT
NT F-28 HELICOPTER
NT G-91 AIRCRAFT
NT OH-6 HELICOPTER

German light aircraft construction industry situation and prospects regarding manufacture of gliders, sport-ing and touring aircraft and motor gliders
03 p0413 A70-13791

Forward air control and light attack aircraft survivability design
[SAE PAPER 690707] 05 p0791 A70-15829

Flight deck controls and instrument disposition in business aircraft emphasizing size
06 p1061 A70-17318

Hansa 330 fan jet design for executive and com-muter market, discussing forward-swept wing concept and standardized structures and systems
07 p1194 A70-19619

Light aircraft lateral and longitudinal response to at-mospheric turbulence, presenting equations and charts for design load calculations
[SAE PAPER 700239] 11 p1981 A70-25908

Performance, stability and control improvements of light aircraft, applying computerized parametric analy-sis
[SAE PAPER 700240] 11 p1981 A70-25909

Light general aviation aircraft production cost reduction, considering adhesive bonding, production certification, etc
[SAE PAPER 700242] 11 p1981 A70-25911

Engine design for future small passenger and sports aircraft, discussing piston, shaft turbine, Wankel and bypass engines and synthetic materials application
11 p1981 A70-25949

Falcon 10 simplified airliner-type equipment for operation under Category 2 weather conditions
12 p2167 A70-28028

Light twin engined aircraft airframe fatigue evalua-tion program
[SAE PAPER 700219] 13 p2348 A70-29606

British light aircraft designs, engines and costs, con-sidering business, agricultural, gliding, private, school and club flying
14 p2532 A70-31394

Twin jet light transport Corvette airframe, discussing flight characteristics and economical as-pects
15 p2676 A70-32793

Antenna design for single engine light general avia-tion aircraft weather radar, reviewing attenuation and terrain return problems
16 p2864 A70-33471

Rotary piston engine for powered gliders and light aircraft power source by modifying industrial Wankel engine
17 p3147 A70-34690

Servoactuator for stick force augmentation on light turboprop STOL aircraft at high angles of attack
[AIAA PAPER 70-909] 17 p3019 A70-35821

Four-seat two-engined STOL propeller passenger and sport aircraft design and performance
19 p3355 A70-37371

MBB Bo-209 Monsoon travel, commuter and acrobatics aircraft, discussing configurations, speci-fications, structure and handling characteristics
19 p3355 A70-37388

Air conditioning in piston-powered light general aviation aircraft, comparing vapor cycle and cryogenic systems
19 p3359 A70-38500

Light rigid civil aircraft response to continuous at-mospheric turbulence estimated using two rigid body degrees of freedom method for vertical and lateral gusts
[AIAA PAPER 69-766] 22 p3961 A70-42703

Small airplane unsteady motion downwash angle at low speeds, comparing results from rectilinear steady flights
[ICAS PAPER 70-25] 23 p4138 A70-44108

OV-10A forward air control and light attack aircraft design, specifications and performance
[SAE PAPER 700837] 24 p4290 A70-45883

LIGHT ALLOYS

NT ALUMINUM ALLOYS
NT BERYLLIUM ALLOYS
NT MAGNESIUM ALLOYS

LIGHT AMPLIFIERS

Laser amplifier electromagnetic field in arbitrary quantum mechanical state, deriving complex am-plitude distribution function to calculate phase uncer-tainty
03 p0503 A70-14174

Light signals amplification efficiency, considering double-pass regenerative amplifier
04 p0702 A70-15225

Laser gain investigated for amplifications of shor emission pulses in neodymium glass, discussing line broadening nonuniform mechanism
04 p0702 A70-15226

Injection laser amplifier with emitting and amplifying diodes coupled by planar polyharmonic beam waveguide
04 p0702 A70-15292

Light signals frequency converters and amplifiers applied to detection problems
05 p0813 A70-16264

Laser signal modulation at RF by subjecting emitting atoms of Xe-He laser amplifier to simultane-ous DC and RF magnetic fields
06 p1079 A70-17191

GaAs diode amplifiers and switching devices behavior, describing optical coupling between two GaAs lasers
07 p1241 A70-19399

Signal to noise ratios and fluctuation spectrum of photomultiplier illuminated by laser passing through laser amplifier, noting population level effect
07 p1300 A70-19869

Laser amplifier effect on autocorrelation function of laser radiation intensity fluctuations, determining emission coherence time
07 p1300 A70-19870

Nonresonant multipath carbon dioxide laser ampli-fier small signal gain of 39 dB utilizing White optical reflector design
09 p1699 A70-23365

Amplifier properties and oscillator mode structure of multipath carbon dioxide laser
09 p1699 A70-23538

Book on lasers, light amplifiers and oscillators covering optical resonators, optical pumping, pulsed lasers, etc
09 p1700 A70-23541

Single-pass multimode carbon dioxide laser ampli-fier power gain optimization
10 p1897 A70-23815

He-Ne laser amplifier in axial magnetic field, meas-uring Faraday rotation and gain for various input signal intensity values
10 p1901 A70-24945

Stationary regime stability of one dimensional model of optical quantum traveling wave amplifier, determining trapping band of traveling wave laser
10 p1901 A70-25158

GaAs light amplifier p-n junction gain and output noise determination for wide photon energy ranges, studying input noise levels effects on sensitivity
10 p1928 A70-25167

Signal amplitude and intensity fluctuations after laser amplification, considering P representation for density operator
11 p2063 A70-25867

Triple passage crystal amplifier of single frequency ruby laser emission, noting radiation structure and coherence
12 p2250 A70-28183

Molecular velocity influence of optically active medium in gas dynamic quantum amplifier on monochromatic radiation transport, using corpuscular light model
15 p2721 A70-32356

Optical quantum amplifier frequency characteristics dependence on broad spectral composition amplified signal intensity and resonator parameters
15 p2754 A70-32862

Laser beam anticorrelation after attenuation by two photon amplifier, deriving density matrix in time de-pendent perturbation theory
16 p2928 A70-33283

Three level gas laser amplifier theory, considering quantum mechanical atomic system in interaction with two monochromatic EM waves
19 p3446 A70-37829

Laser pulse amplification by stimulated thermal Rayleigh scattering in absorbing media by transient theory
20 p3640 A70-39113

Pulse light amplification by stimulated thermal Rayleigh scattering measured as function of time, ab-sorption coefficient and interaction length
20 p3640 A70-39114

Spatial gain variations transverse to discharge in ax-ially flowing carbon dioxide laser amplifier, noting relationship to flow velocity
20 p3640 A70-39391

He/Ne laser amplifier and oscillator threshold band-width measurement by double laser device
20 p3643 A70-40126

Single picosecond mode-locked laser pulse selection and multiple pass amplification device, obtaining high energy and signal to noise ratio
21 p3838 A70-42023

Nitrogen laser pumped cyclohex 4-Methylumbel-liferone and rhodamine 6G dye laser amplifier, mea-suring single pass power gain vs wavelength
24 p4355 A70-46088

LIGHT BEAMS

Hyperbolic type gas lens design and focusing characteristics for use in laser light beam waveguide
01 p0106 A70-10033

Confocal parameters, spot sizes, waist positions and stability conditions of astigmatic Gaussian beams formed by spherical mirror laser cavity resonators
01 p0108 A70-10426

Holographic two beam real-time Fizeau inter-ferometer for recording and reconstructing reflected light waves in silvered flat surfaces measurement
01 p0090 A70-10905

Banana self focusing in water of laser beams with nonmonotonic intensity distribution, noting ruby laser experiment
02 p0312 A70-12260

Photoelectronic measurement of distance from laser beam axis to reference plane, discussing applications to surveying, vibration measurements and atmospher-ic investigations
02 p0314 A70-12785

Three dimensional Gaussian light beam propagation in anisotropic inhomogeneous media with dielectric constant decreasing from energy flow direction
03 p0525 A70-13533

Bouguer single-scatter theory applicability depen-dence on angular aperture of receiver and laser beam parameters in water mist
03 p0451 A70-13756

Light spark and rapid nonlinear effects in focusing powerful light by longitudinal beam
04 p0718 A70-14405

Collimated light beam enhanced scattering and anomalous absorption due to decay into plasma waves
04 p0727 A70-14996

Temporal isolation between pulsed orthogonal polarization state laser beams, showing selection de-pendence on sampling time
04 p0701 A70-15032

Collapsing beam transition into self focusing light channel numerically analyzed allowing for Kerr effect saturation, multiphoton absorption and stimulated Raman scattering
04 p0650 A70-15285

Saturation induced wave front distortions effect on beam divergence and frequency modulation in laser amplifiers, discussing refractive index changes
04 p0703 A70-15620

Monograph on He-Ne laser beam noise properties and intensity fluctuations during single mode opera-tion
05 p0860 A70-16559

Optical crossbeam technique for remote sensing of wind speeds, relating light fluctuations to convective wind velocity by space-time correlation methods
05 p0850 A70-16688

Light scattering at 90 deg from laser-induced break-down plasmas in air, discussing origin
06 p1114 A70-17189

Turbine flowmeter with hydraulic bearings opera-tion based on photosensitive recording of light beam interruptions, discussing test results
06 p1065 A70-17911

Successive small birefringences undergone by polarized light ray crossing photoelastic model represented by rotations in equatorial plane on Poin-care sphere
06 p1168 A70-17918

Optical properties of Gabor holograms with pure reference beam, discussing image reconstruction using He-Ne laser
06 p1072 A70-18565

Intense light beams self focusing in nonlinear media with quadratic Kerr effect, assuming spherical initial phase front after passing through condensing lens
07 p1296 A70-18720

Radiation focusing properties of gravitational bodies associated with curving light trajectories analyzed by geometrical and waveguide optics approx-imations
07 p1384 A70-19411

Caustic surface of spherical resonator with external mirrors used to calculate light angular divergence and spectral properties
07 p1299 A70-19859

Laser beam trajectory equation in scanning ul-trasonic cell for nonzero incidence angle, relating input and output beam divergence
07 p1300 A70-19865

Diffuse radiation intensity determination in finite optical thickness atmosphere illuminated by parallel light beams
07 p1389 A70-20204

Laser radiation angular distribution determination by self calibrating method based on dividing light beam into spatially similar beams of various intensities
08 p1510 A70-20515

Birefringence determination from contrast of inter-fering natural light beams
08 p1543 A70-20521

Light beam deflection for three dimensional fixed and time varying visual displays, discussing mechani-cal, acousto-optic, electro-optic, digital and holo-graphic techniques
08 p1449 A70-20673

Light beam intensity variations during propagation in nonlinear medium taking into account combination scattering, solving equations by difference method
08 p1461 A70-20858

Holographic technique of coherent light field transformation with desirable phase distribution from laser light beams of arbitrary wavefront characteristics
08 p1497 A70-21410

Second harmonic generation and frequency conversion efficiencies for laser beam shaping in nonlinear medium
08 p1514 A70-21984

Radiation transfer in semiinfinite medium illuminated by parallel light beams assuming trinomial scattering indicatrix, deriving radiative effects and radiation field
09 p1751 A70-22154

Coherent light beams scanning and propagation direction control by acoustooptical method for laser applications
09 p1695 A70-22315

Laser beam deflection techniques for directional control of laser beams, noting applications to optical computer memories and active imaging and display devices
09 p1696 A70-22783

Pulsed laser beams intensity fluctuations correlation functions dependence on propagation distance in turbulent atmosphere
09 p1636 A70-23135

Relativistic nonlinear coupled longitudinal-transverse propagation of intense laser beams in cold overdense plasma
10 p1921 A70-23968

Einstein theory applied to sample modeling of planetary orbits and light beams touching sun in solar gravitational field
10 p1939 A70-24268

Bouguer single-scatter theory applicability dependence on angular aperture of receiver and laser beam parameters in water mists
10 p1842 A70-25005

Divergence measurement of beam emitted by ruby laser in relaxation mode as function of cavity length and excitation voltage
11 p2063 A70-26462

Semiquantitative study showing variations in degree of laser beam coherence due to turbulence
12 p2245 A70-26980

Laser microplasma formation in focus of two laser beams impinging on crystalline lithium hydride targets
12 p2246 A70-27355

Photoelectric receiver and light beam alignment in gas laser aerial photography, considering directrix rectilinearity verification
12 p2247 A70-27476

Phase modulated laser light beam statistical analysis, using Michelson interferometer with piezoelectric crystal driven mirror connected to Gaussian random noise generator
12 p2249 A70-27877

Laser beam intensity distribution determination from measuring Fresnel diffraction pattern at straight edge using photographic plate
12 p2249 A70-28032

Monochromators dispersion and resolution increased by multiple passage of light through singly dispersive element, comparing optical schemes
12 p2237 A70-28160

Threshold light flux densities for thin Al film breakdown by laser radiation
13 p2428 A70-29383

Fourth order aberration in gas lens used as focusing element in light beam waveguide systems
15 p2697 A70-31829

Solar simulation systems for uniform collimated intense light, noting high intensity lamp development
15 p2717 A70-32034

Pulsed laser alignment using pentaprism-directed continuous laser light beam
15 p2752 A70-32047

Laser beam shaping for streak interferometry, obtaining thin beam uniform over filling length
15 p2752 A70-32049

Laser beam scattering by free electrons in terms of classical electrodynamics, discussing radiation damping effects
15 p2752 A70-32451

Phase modulated holography for inherent noise reduction using thicker recording media, increasing signal beamwidth or beam ratio
16 p2904 A70-33137

Laser beam anticorrelation after attenuation by two photon amplifier, deriving density matrix in time dependent perturbation theory
16 p2928 A70-33283

Laser beam photography by multiple reflections from partially reflecting mirrors
16 p2913 A70-33985

Lasing action and reduced output without beam distortion from misaligned carbon dioxide lasers by DC-Tesla coil pumping
16 p2929 A70-33986

High power Nd-glass solid state laser characteristics measured to improve beam properties
17 p3105 A70-35090

Photodetector frequency response measurement, using beat light signals from mixed single mode He-Ne lasers
17 p3108 A70-35688

Picosecond light pulse measurement by two beam overlap technique using nonlinear photoelectric effect
17 p3097 A70-35912

Electronmicroscopical structure of laser irradiated Garding-Passy melanoma cell organelles, noting mitochondria damage
18 p3224 A70-36636

Resonant modes of GaAs junction laser beams with Hermite-Gaussian rectangular symmetry, using stripe geometry with lens-slit combination
18 p3268 A70-36732

Backscattering of collimated light beam emitted by pulsed point source into opaque medium
19 p3461 A70-37421

Laser beam alignment system for monitoring dielectric film evaporation
19 p3445 A70-37686

Optimum laser beam deflection for instrument design, considering tandem, rotary mirror and analog methods
19 p3446 A70-37879

Nuclear fusion realization by focusing from intense beam neodymium glass laser
19 p3447 A70-38167

He-Ne laser beam hazard to human retina
19 p3371 A70-38309

Einstein theory applied to sample modeling of planetary orbits and light beams touching sun in solar gravitational field
19 p3520 A70-38393

Laser and electron beam removal of material in manufacturing technology
19 p3447 A70-38451

Polarization in inverse Compton effect for arbitrary photon and electron distributions, discussing monochromatic photon beam
19 p3524 A70-38696

Gaseous media absorption coefficient and refractive index in field of two nonmonochromatic radiation streams quasi-resonant with neighboring atoms and molecules transitions
19 p3448 A70-38740

Coherent light beam characteristics with Gaussian radial intensity variation during propagation along optical system axis, determining radius from diffraction theory
20 p3639 A70-39086

Light focusing glass fiber with variable refractive index using ion exchange process, discussing applications to laser communications and data processing
20 p3671 A70-39129

Microwave hologram recording for surface displacement, with laser beam illumination for optical reconstruction of image
20 p3628 A70-39152

Laser beam for military weapons applications, investigating energy levels and beam guidance
20 p3641 A70-39421

Propagation mode conversion of Gaussian light beam due to random fluctuations of turbulent medium, discussing effect of aperture size and fluctuations anisotropy
20 p3585 A70-39451

Turbulence characteristics determination by measuring light beam arrival angle fluctuation using photoelectric recording shadow devices
20 p3634 A70-40401

Electrons optical scale time averaged motion dependence in focused laser beam on light intensity gradient, calculating bremsstrahlung spectrum
21 p3836 A70-40723

Frequency shifted diffraction of monochromatic Gaussian light beam by reflection off ultrasonic surface wave
21 p3850 A70-41907

Total reflectance of composite light diffuser with nonuniform absorption by two beam model, noting application to photochemistry
21 p3829 A70-41936

Single and crossed light beam techniques for optical measurement of fluid turbulence with refractive index fluctuations
22 p4011 A70-42694

Interferometric investigation of rapidly variable frequency dependent phase objects, using ruby laser waves
22 p4034 A70-43049

[SMPTE PREPRINT 26] Intense laser light pulse longitudinal compression resulting from nonlinear intensity-dependent refractive index
22 p4050 A70-43221

Monograph on optimum focusing of laser light with nonideal lenses having spherical aberration
22 p4052 A70-43739

Thermal defocusing and deflection of light beam by lateral wind effect in absorbing media
23 p4200 A70-43950

Plasma diagnostics based on light beam refractivity, considering laser interferometry and holographic methods
23 p4225 A70-44188

Light beam direction variation by crystal deflectors, examining changing internal reflection angle by applied electric field or mechanical stress
23 p4196 A70-44411

Focused image holographic interferometry by double exposure with reconstruction in white light applied to flat rotating subject
23 p4199 A70-45058

Multiple light beam interferences, using complex diagrams for reflection fringe visualization
24 p4381 A70-46096

Interference fringes on gas laser beam reflected by total reflection prism
24 p4356 A70-46272

LIGHT ELEMENTS

Microprobe analyzer for light elements using electronic optics probe, sample visualization devices and equipment for X photon detection and measurement [ONERA-TP-774]
02 p0275 A70-12210

Mechanical properties of cast light alloys at low temperatures, showing satisfactory plasticity and insensitivity to stress raisers
05 p0864 A70-16868

Light Mg-Li alloys physical and mechanical properties, production and treatment [DFVLR-SONDDR-18]
07 p1306 A70-19234

Light elements detection in interstellar grains by observing halo around X ray source arising from small angle scattering
14 p2631 A70-30539

Cosmic X ray extinction and halo by interstellar grains, applying to light elements identification
21 p3883 A70-42200

Stellar surface and solar system light element abundances, explaining formation by energetic proton flux nucleosynthetic effect
24 p4398 A70-46163

NT OPTICAL RESONANCE

NT PHOSPHORESCENCE

NT PHOTOLUMINESCENCE

NT SHOCK WAVE LUMINESCENCE

NT THERMOLUMINESCENCE

NT X RAY FLUORESCENCE

Negative resistance light emitting lateral GaAs diode, analyzing oscillation frequency, I-V characteristics, temperature and magnetic effects
01 p0050 A70-10565

Duty factor and contrast in scanned displays, discussing light modulator and emitting displays
01 p0043 A70-10780

Auroral light emission and electron density simultaneous measurements by rocket flights into auroral glow, deriving recombination rates
01 p0171 A70-10872

Light curve and relative dimensions of eclipsing system V338 Herculis, from photoelectric measurements, discussing component stars
01 p0184 A70-10951

Light emission by solids, discussing injection lasers, luminescence semiconductor diodes, group 2 and 6 compounds, etc
01 p0160 A70-11288

Binary system Nova WZ Sge model with nonnegligible secondary component contribution to total light explaining WUMA type light curve
03 p0568 A70-13324

Beta lyrae light curve changes by comparing international program observations with 1958 Lick Observatory results, discussing period, brightness, spectra, etc
03 p0568 A70-13327

Photoconductivity growth and decay curves green edge emission and integral flux in optical flare of cadmium sulfide crystals due to hole trapping process
03 p0540 A70-13503

Relationship between 6300 A monochromatic auroral arc and visible aurora during magnetic storm, determining directional speeds
03 p0478 A70-14000

Supernova light emitted from surrounding gas layer, describing gas density role in type I and type II events
04 p0748 A70-14590

Light emission from collapsing nonrotating gas in general relativity, noting restrictions on range and frequency shift
04 p0719 A70-14702

Lyman alpha auroral emissions observations made with narrow band sky scanning photometer mounted on earth-oriented polar orbiting satellite
04 p0741 A70-15107

Cepheid variable 1 Carinae light curve from photoelectric observations, calculating periodicities from best fitting Fourier series

04 p0759 A70-15708

Visible light emission from nonequilibrium Cs plasma measured for spectral intensity distribution, suggesting excitation mechanism in terms of collision-radiation model

05 p0887 A70-16109

Venus-earth carbon dioxide atomic parameters used to determine ionization and optical emission rates in Venus upper atmosphere resulting from solar cosmic rays

05 p0901 A70-16276

Transient emissions on He I wavelength during breakup phase of auroral events, discussing observational interference by OH bands

05 p0907 A70-16277

Spatial and temporal relations between auroral emission at green line 5577 and cosmic noise absorption studied to determine energy spectra and particles distribution

05 p0907 A70-16281

Light emission and gas phase ignition of homogeneous solid propellants under shock tube conditions [ALAA PAPER 70-120]

06 p1128 A70-18042

UV rocket-borne up-down photometer measuring zenith and nadir intensities for auroral profile studies

06 p1072 A70-18518

Correlation function prediction of rapid brightness variations in quasar based on variable optical emission model including flares

07 p1383 A70-19403

Axicon systems for spectroscopy of light emitted by foil-excited accelerator beams, discussing scattering contribution to spectral line widths

07 p1287 A70-20083

Intensity and altitude profile of H beta light emission and energetic hydrogen fluxes during auroral breakup using rocket soundings

08 p1489 A70-21383

Late stage stellar evolution association with supernovae in terms of gravitational collapse and exploding light emission using evolutionary model

09 p1749 A70-21993

Airglow hydroxyl emissions diurnal variations as function of height, using digital computer for time dependent solution of equations for oxygen-hydrogen atmosphere

10 p1872 A70-23826

Light-emitting integrated circuit semiconductor display devices with inherent memory permitting logic and optical output functions performed on surface

10 p1846 A70-23883

Molecular-statistical theory of second-harmonic light generation by isotropic bodies immersed in external AC or DC electric field

10 p1916 A70-24379

Auroral green line rocket measurements, showing roles of atomic and molecular oxygen dissociative recombinations

10 p1874 A70-24432

Predicted Jupiter visual auroras investigated with high sensitivity spectrograph

10 p1947 A70-24993

Pulsating auroras X ray association with luminosity via balloon-borne X ray detector and ground based image intensifier TV system

13 p2478 A70-29228

Polar auroral hydrogen emission intensity dependence on K index of geomagnetic activity

14 p2569 A70-30213

Electro-optical transducers based on photoconductive cells, phototransistors and microminiature incandescent and solid state light emitters

16 p2904 A70-33144

Simultaneous measurement of optical and X ray emission from Scorpius X-1 and X ray diffuse background, using rocket-borne scintillation counter

17 p3157 A70-34831

Optical frequency standards research covering lasers application with superstable emission frequency

17 p3104 A70-35081

Visible light-emitting p-n junctions formed in AlAs via Zn diffusion into single crystal n-type vapor grown AlAs layers

18 p3297 A70-36316

Auroral physics, discussing visibility, relations to geomagnetism and sunspots spectrum, morphology, optical emissions and particles in magnetosphere

20 p3623 A70-39929

Auroral optical emission measurements, examining oxygen atmospheric and IR bands by rocket sounding

21 p3817 A70-41092

Emission and escape of light from inside spherically symmetric gravitational mass, examining escape cone

21 p3923 A70-42106

Light generation by free electrons interaction with metallic diffraction grating, devising experiments for explaining incompatibility with simple electrostatic image theory

22 p4074 A70-42943

GaAs laser and noncoherent IR emitting diodes fabrication and design, discussing card readers, en-

coders, alarms, range finders, bomb fuses and night vision systems

22 p4050 A70-43248

Mode locked neodymium-glass pulsed laser stimulated picosecond time resolved light emission observation by cross beam technique

24 p4354 A70-45647

Current sheet motion and pulsar radio, optical and X ray emission, investigating finite thickness oscillating interface radiation with independent particle

24 p4397 A70-45760

Polar auroral hydrogen emission intensity dependence on K index of geomagnetic activity

24 p4331 A70-46288

LIGHT INTENSITY

U LUMINOUS INTENSITY

LIGHT MODULATION

NT ULTRASONIC LIGHT MODULATION

Interferometer for compressing linearly FM light pulses and analyzing spectra of picosecond pulses

01 p0111 A70-10670

Duty factor and contrast in scanned displays, discussing light modulator and emitting displays

01 p0043 A70-10780

Light induced modulation of optical absorption of CdS crystals by chopped laser excitation, noting use for fast recombination center detection

02 p0310 A70-11846

Birefringences and phase retardations in lithium niobate crystals for light propagation directions near optical axis, considering electro-optic modulation

02 p0313 A70-12451

Light pulse demodulator using zero crossing technique to eliminate photomultiplier bandwidth and sensitivity limitations

02 p0271 A70-12744

IR light beam modulation in Gunn oscillator near fundamental edge of GaAs, investigating mechanism

03 p0539 A70-13160

UHF self modulation in GaAs laser coupled to external cavity, focusing convergent beam on external mirror

04 p0701 A70-14718

Faraday modulator for polarized laser radiation, eliminating analyzer by oblique magneto-optical active element, converting angular modulation into amplitude modulation

05 p0858 A70-16251

Emission modulation in multifunctional injection laser-photodiode system used as optical memory, pulse generator, multivibrator and trigger

05 p0859 A70-16268

Laser beam modulation by electro-optic devices, investigating modulator characteristics in longitudinal and transverse configurations

05 p0860 A70-16489

Laser signal modulation at RF by subjecting emitting atoms of Xe-He laser amplifier to simultaneous DC and RF magnetic fields

06 p1079 A70-17191

Half octave bandwidth traveling wave X band optical phase modulator, noting multiple interactions of optical and microwave fields in electro-optical crystal

06 p1079 A70-17192

Carbon dioxide laser beam modulation by molecular Stark effect

06 p1080 A70-17448

Microwave in-cavity modulation of helium-neon laser, obtaining frequency dependence of modulation depth

09 p1696 A70-22628

Parametric image transformation during sum frequency generation

09 p1636 A70-23134

He-Ne laser Q factor modulator based on Fabry-Perot interferometer with alternating absorption

10 p1899 A70-24255

He-Ne laser emission electro-optical modulation by three mirror optical cavity, considering structural and thermal stability and coupled resonators geometry effects

10 p1899 A70-24260

Doppler beat spectrum and modulation depth of He-Ne laser emission with backward beam reflected from moving mirror into resonator

10 p1901 A70-25123

Optical modulation using rotating diffraction grating to obtain frequency shifts

11 p2049 A70-25633

Temperature instability of electro-optical laser modulators using ADP, KDP and DKDP crystals taking into account phase shift between coherent light beams

11 p2063 A70-25848

Interferometric combinations of frequency-shifted mode-locked laser pulses achieved by optical modulation-demodulation methods

12 p2249 A70-27755

Phase modulated laser light beam statistical analysis, using Michelson interferometer with piezoelectric crystal driven mirror connected to Gaussian random noise generator

12 p2249 A70-27877

Spontaneous emission modulation, interference beat and level crossings observable in gas laser operating at two output frequencies

13 p2425 A70-28599

Electro-optical light modulators representation by two port matrices, deriving amplitude modulation methods

13 p2427 A70-28924

Amplitude and phase modulation of laser beams by tetragonal crystal cuts

13 p2429 A70-29533

CW HCN laser driven phase matched traveling wave lithium niobate electro-optic light modulator performance

15 p2750 A70-31976

Stabilized platform stellar detector for French probe balloons, using semicircular light modulator

15 p2738 A70-32249

Solid state subnanosecond electro-optic light switch for mode locked laser controller or light shutter

15 p2753 A70-32815

Ruby and neodymium glass free running lasers output power modulation relationship to excited modes and active rod position in resonator

15 p2753 A70-32822

Optical spatial phase modulator array using membrane light modulator for coherent optical processing and character recognition

16 p2904 A70-33147

Light modulation electro-optical device with liquid crystals, determining liquid nematic stability

16 p2907 A70-33181

Traveling wave light modulator with 15 GHz bandwidth using cubic ZnS crystal with anomalous response

16 p2876 A70-33403

Coherent optical computer system driven by membrane light modulator (MLM), describing electro-optical properties and operating characteristics

16 p2871 A70-34055

Modulation method for phase detection in electro-optical light modulator of optical range finder

16 p2914 A70-34213

Gas laser phase locking due to loss modulation with double mode spacing

17 p3107 A70-35474

Real time holographic reconstruction by electro-optic light modulation through crystal

18 p3258 A70-36312

Self phase modulation of stimulated Raman light in carbon disulfide, discussing Stokes and anti-Stokes spectrum regions

18 p3266 A70-36422

Microwave self modulating GaAs diode laser, showing coupled external cavity resonator influence on intrinsic resonance frequency

18 p3269 A70-36733

Carbon dioxide laser producing nearly 100 percent amplitude modulation of output by intracavity polarization modulation technique

18 p3270 A70-36747

Modulation of carbon dioxide laser with Stark cell internal to cavity, using methyl chloride electrooptical gas

18 p3270 A70-36748

Electro-optical SHF modulator characteristics calculation from light wave interaction with traveling wave

19 p3443 A70-37291

Traveling medium solid state lasers radiation intensity modulation by active element motion

19 p3444 A70-37442

Doppler beat spectrum and modulation depth of He-Ne laser emission with backward beam reflected from moving mirror into resonator

20 p3643 A70-40516

Optical communications system for transmission and detection of PCM word pattern at gigahertz rates, discussing optical and electrical modulation

21 p3788 A70-41339

High speed photodetectors for microwave demodulation of light, discussing electrical properties, equivalent circuits and noise factors

21 p3799 A70-41420

Electro-optical modulation lock-in techniques for minimizing statistical fluctuations and eliminating internal noise in sampling of light signals

21 p3827 A70-41462

Light modulator design based on Fabry-Perot interferometer controlled by electro-optical effect

22 p4026 A70-42507

Time average hologram interferometry, calculating light beam modulation effects on fringe loci and localization

22 p4030 A70-42950

Frequency modulated gas laser communication system, discussing Raman-Nath effect, Doppler shifting phase grating, monochromatic light, pseudostanding wave, optical heterodyne detector, etc

22 p3989 A70-42966

Microwave frequency light modulators waveguides, examining optimal cross sections to increase modulator efficiency

23 p4196 A70-44409

LIGHT PRESSURE

U ILLUMINANCE

LIGHT PROBES

U LIGHT BEAMS

LIGHT SCATTERING

Light Raman scattering in semiconductors under constant magnetic field, studying electron-phonon spectrum characteristics

01 p0155 A70-10183

Periodic potential and residual Coulomb interaction effect on inelastic light scattering from electronic excitations in semiconductors, using diagrammatic perturbation theory

01 p0156 A70-10280

Optical data display involving laser light deflection by vibrating mirrors actuated by mechanical resonators

01 p0108 A70-10355

Cirrus clouds signature analysis, discussing light scattering pertinent to lidar equation

01 p0076 A70-10913

Book on scattering of light and other electromagnetic radiation, treating scattering by spheres, cylinders, liquids, Rayleigh-Debye scattering, particle size analysis, etc

02 p0337 A70-11689

Albedo variations for single scattering in atmosphere of arbitrary optical thickness by linearizing transfer equations with perturbation technique

02 p0338 A70-11790

Coherent light scattering disturbance in level-crossing signals of Rb 85 and Rb 87 second excited state by noble gas atoms

02 p0311 A70-11851

Focal length-to-aperture ratio for maximizing collection of scattered light at right angles to illuminating laser beam used in Raman spectroscopy

02 p0311 A70-11888

Holograms of light scattered by clouds of water droplets to determine drop size, noting agreement with Mie theory

02 p0296 A70-11890

Diffuse illumination in holography indicating spread increase dependence on product of phase mean-square value and spatial frequency bandwidth

02 p0296 A70-11891

Light scattering from thermally stable magnesium oxide particles in premixed turbulent flames used for measuring mean and fluctuating temperature values

02 p0398 A70-12039

Water vapor condensation by homogeneous nucleation measured for cluster number using laser light scattering compared with theory in condensing supersonic flow

02 p0279 A70-12048

Molecular rotations and kinetics from spectral features of molecular Raman spectra, using light scattering spectroscopy

02 p0343 A70-12077

High intensity pulsed laser radiation scattering by free electrons, studying linearly polarized incident radiation

02 p0312 A70-12276

Aerosol induced light scattering optical properties in atmospheric boundary layer measured with three photometer setup with He-Ne laser

02 p0328 A70-12437

Brillouin scattering of hypersonic waves produced in liquid medium, using He-Ne laser light source

02 p0313 A70-12471

Three dimensional photoelastic case bonded solid propellant motor model, analyzing stress distribution using scattered light photoelasticity [SESA PAPER 1587]

03 p0583 A70-12885

UV radiation scattering and rocking instrument error source in vertical ozone profile determination with optical ozone probes

03 p0557 A70-13296

Current density and electron concentration fluctuations in semiconductors under electric field, obtaining theory of light scattering at hot electrons

03 p0539 A70-13405

Three dimensional structure determination for weakly scattering semitransparent objects from holographic data, discussing inverse scattering problem and refractive index calculation

03 p0487 A70-13647

Scattered light photoelastic stress analysis using doubly refracting materials and lasers

03 p0594 A70-13657

Bouguer single-scatter theory applicability dependence on angular aperture of receiver and laser beam parameters in water mists

03 p0451 A70-13756

Three dimensional characteristic of light scattered by lunar surface determined for various incidence angles and azimuths from Zond 3 photometric measurements

04 p0744 A70-14441

Illuminating conditions in deep layers of turbid plane-parallel medium for highly elongated scattering characteristic

04 p0745 A70-14497

Laser beam broadening in atmospheric propagation from Born approximation and Gaussian model, showing no contribution by second scattered field

04 p0701 A70-14963

Collimated light beam enhanced scattering and anomalous absorption due to decay into plasma waves

04 p0727 A70-14996

Satellite lines from diffraction grating observed by densitometer tracings of plates connected with optical mixing in stimulated Brillouin scattering

04 p0701 A70-15030

Photocathode internal light scattering effect on photomultiplier time response

05 p0845 A70-15806

Correctness of Meixner assumption of scattered light field singularity near grating edge due to diffraction

05 p0816 A70-16879

Light scattering at 90 deg from laser-induced breakdown plasmas in air, discussing origin

06 p1114 A70-17189

Scattered Lyman alpha radiation intensities measured for mixtures of partially dissociated hydrogen in Ar, measuring quenching cross sections

06 p1053 A70-17327

Laser radiation attenuation coefficient in artificial fog related to water droplet concentration, suggesting single scattering for given optical thickness

07 p1296 A70-18725

Light scattering from free electrons in laboratory plasma, showing frequency spectrum equal to electron density fluctuations

07 p1347 A70-18899

Photon scattering in inhomogeneous medium, deriving expressions for mean number of photons escaping or annihilated in medium

07 p1376 A70-18910

Visibility, atmospheric light scattering coefficient and aerosol mass concentration related by integrating nephelometer measurements

07 p1328 A70-18923

Catalog of lunar features brightness interpreted in terms of photometric function uniformity of lunar surface, considering second order light scattering

07 p1377 A70-18971

Laser emission photons scattering by semiconductor conduction electrons allowing for electron-phonon interaction

07 p1357 A70-19857

Group theory investigation of three photon light scattering tensor for all vibration modes of specific crystal classes

07 p1299 A70-19861

Laser-forced medium anisotropy effects on non-linear optical frequency mixing and combined forced scattering

07 p1335 A70-19863

Light beam intensity variations during propagation in nonlinear medium taking into account combination scattering, solving equations by difference method

08 p1461 A70-20858

Optical to IR conversion in circumstellar dust envelope with spherical symmetry based on optical radiation scattering and absorption by dust

08 p1573 A70-21047

Polarized light electroreflection from GaAs single crystal, noting useful signal linear dependence on electric field

08 p1556 A70-21124

Astronomical sounding balloon to study interplanetary scattered light, discussing actuating and control, structure, onboard and ground electronics

08 p1497 A70-21349

Scattered field amplitude and phase determined from hologram light intensity distribution, noting biological applications

08 p1500 A70-21786

Photon scattering by Ar in vacuum UV measured for cross sections

09 p1730 A70-22071

Radiation transfer in semiinfinite medium illuminated by parallel light beams assuming trinomial scattering indicatrix, deriving radiative effects and radiation field

09 p1751 A70-22154

Radiation transfer in scattering medium with nonuniform density distribution of absorbing matter expressed in terms of photon distribution

09 p1666 A70-22178

Backscattered sun and skylight spectra from sea obtained from low flying aircraft as measure of chlorophyll concentration

09 p1666 A70-22250

Photographic emulsions design for increased water depth penetration during aerial multispectral recording of light absorption and scattering in water masses

09 p1674 A70-22261

Resonance radiation transport in optically thick layer, obtaining conservative light scattering solution

09 p1753 A70-22451

Calibration of shear sensitive cholesteric liquid crystals film, measuring shearing forces and scattering light intensity

09 p1656 A70-22992

Polychromatic nonlinear light scattering in plane parallel layer solved by self consistent optical depths method

09 p1762 A70-23117

Single and clad glass fibers radii and refractive indices measurements on basis of laser light scattering

09 p1699 A70-23444

Upper atmosphere aerosols and cosmic dust properties investigation by laser beam scattering measurements using photoelectron counters for weak signal detection

10 p1898 A70-23818

Granularity spectrum of diffusing screen uniformly illuminated by normally incident coherent light, basing study on long and short distance visual observations

10 p1899 A70-24031

IR light dispersion filters of compressed mixed powdered crystals, discussing optimal preparation procedures, passbands temperature dependence and stability

10 p1915 A70-24256

Plasma magnetic field measurement by scattered light, analyzing electron spectrum modulation with gyration frequency

10 p1916 A70-24401

Polydisperse dielectric system distribution parameters determined from hard monochromatic polarized radiation scatter by artificial aerosols

10 p1916 A70-24500

Power spectrum of light scattered by two level atom driven by monochromatic electric field obtained from atomic dipole moment correlation function

10 p1920 A70-24632

Ozone measurement from satellite by direct beam and scattered light methods employing UV sunlight attenuation

10 p1890 A70-24639

Martian soil surface anomalies observed from polarimetric analysis of light diffused by Hellas region

10 p1943 A70-24708

Bouguer single-scatter theory applicability dependence on angular aperture of receiver and laser beam parameters in water mists

10 p1842 A70-25005

Spectroscopy applied to spontaneous combination scattering of light

10 p1892 A70-25026

Light scattering, turbulent disturbances and absorption by binary oxygen complexes in atmospheric layers

10 p1843 A70-25126

Structural detail in transparent object through holographic measurement of scattered monochromatic light, noting similarity to crystal structure reconstruction in X ray diffraction experiments

11 p2048 A70-25360

Terrestrial clouds near IR light scattering compared to reflectivity of water and ice particles, discussing Mie and multiple scattering

11 p2045 A70-25649

Poincare sphere application to automatic polarization forms measurements and two/three dimensional photoelasticity by scattered light

11 p2142 A70-26633

First order scattering formulae for s- and p-light reflected and transmitted by rough plane surface using perturbation theory

11 p2086 A70-26840

Laser light investigations of atoms, molecules and plasmas, considering Raman molecular spectroscopy, acoustic phonons interactions and plasma diagnostics by light scattering

12 p2245 A70-27063

Reflected light directional diagram effects on scintillating surface luminescence yield, considering scattering function gradient

12 p2231 A70-27310

Honda 1968c comet head light polarization measurements, noting correspondence to scattering on dust particles

12 p2300 A70-27499

Light scattering by atom generalized for multilevel system, showing additional coherent spontaneous scattering and incoherent stimulated combination scattering

12 p2272 A70-27549

Stimulated Mandelstam-Brillouin and entropy backscattering of light pulses, determining intensity and spectral distribution allowing for fluctuations in medium

12 p2248 A70-27550

Upper atmosphere probing based on light scattering from laser radar beam by atmospheric constituents

12 p2185 A70-27740

Cold variable stars intrinsic polarization model proposing light scattering in circumstellar dust shells

12 p2307 A70-27865

Ruby and He-Ne laser radiation attenuation found due to scattering by gas molecules and aerosols from atmospheric spectral transparency fine structure studies

12 p2191 A70-28294

Three dimensional characteristic of light scattered by lunar surface determined for various incidence an-

gles and azimuths from Zond 3 photometric measurements 13 p2485 A70-28466

Small angle light scattering indicatrices in ruby crystals approximated by Gauss type function 13 p2431 A70-29869

Side scattered light effects on atmospheric transmittance measurements, showing influence on total receiver illumination 14 p2603 A70-30411

Light scattering from plasmas with nonMaxwellian electron velocity distribution function 14 p2622 A70-30694

Plane wave ray optical scattering by two spheres for arbitrary angle of incidence and observation, noting importance of first order interaction terms 14 p2551 A70-31157

Autocorrelation of coherence characteristics of polarized components of light scattered at curved rough surface, showing nonadequate Kirchhoff approximation 15 p2749 A70-31555

Scattering function and image quality in sharp edge holography using single mode laser, analyzing coherent and diffuse light 15 p2733 A70-31556

Polarized light scattering angle relationship with Mueller matrix elements for polydisperse systems of irregular randomly oriented particles 15 p2775 A70-32040

Scattered light rosette using three polarized light beams intersecting at surface point to evaluate photoelastic stress data 15 p2739 A70-32320

Laser beam scattering by free electrons in terms of classical electrodynamics, discussing radiation damping effects 15 p2752 A70-32451

Laser beam scattering by free electrons in semiclassical radiation theory, discussing intensity dependent frequency shift 15 p2753 A70-32452

Planetary atmospheric light diffuse reflection and transmission, applying anisotropic scattering theory 15 p2802 A70-32493

Solar stray light, determining spread function, limb profile and aureole at various wavelengths 15 p2795 A70-32625

Light scattering in one dimensional semiinfinite medium with moving boundary, deriving escape and reflection probability expressions 15 p2808 A70-32880

Edson layer theory explaining phase anomaly of inner planets in terms of light scattering by thin layer above Venus cloud cover 16 p2973 A70-33113

Stimulated light scattering by capillary waves on incompressible fluid surface or by Rayleigh waves on surface of isotropic solid body with small opticoelastic moduli 16 p2951 A70-33195

Quantum theory for spontaneous parametric light scattering, determining photon spectral distribution 16 p2951 A70-33196

Atmospheric optical properties stability determination for various optical densities, assuming horizontally homogeneous medium with properties constant during observation 16 p2899 A70-34181

Holographic techniques, investigating ultrasonic fields in transparent media based on light separation by grating into optical moments 16 p2915 A70-34330

Ellipsometry with Poincare sphere representation, describing application to automatic two and three dimensional photoelasticity by scattered light 17 p3086 A70-35014

Optical correlator for displacement measurements using laser produced speckle patterns of scattered coherent light 17 p3088 A70-35026

Remote sensing of plankton and matter in sea by determining spectral changes in scattered light measured with radiometer 17 p3079 A70-35619

Mutual coherence function of light scattered by plasma turbulent electron density fluctuations, taking into account refractive index changes 17 p3137 A70-35722

Quantum mechanical model of stimulated thermal, Brillouin and molecular excitation scattering of light due to absorption 18 p3266 A70-36409

Brightness field spatial structure of solar radiation reflected from earth by Cosmos 149 satellite, discussing homogeneity and isotropy 18 p3247 A70-36629

Unsteady light field spatial moments in turbid medium boundary layer with intense anisotropic scattering during illumination by narrow beam 18 p3285 A70-36631

Backscattering of collimated light beam emitted by pulsed point source into opaque medium 19 p3461 A70-37421

Light propagation in plane parallel layer of scattering medium containing absorbing substance with random density distribution 19 p3461 A70-37422

Light combinatorial scattering by longitudinal photons with frequency near forbidden zone width, calculating Raman scattering cross sections 19 p3444 A70-37444

Relaxation theory of Rayleigh scattering of light by isotropic continuous medium, deriving spectral densities via fluctuation dissipation theorem 19 p3470 A70-37446

Photoelectric and polarimetric observations of comet 1968 c Honda in BV system, noting dust scattering role in emission 19 p3515 A70-37657

Dual scatter laser Doppler velocimeter /LDV/ technique, considering system design, performance and experimental verifications 19 p3424 A70-37876

Maximum secondary principal stress axis and isotropic points determination in scattered light photoelastic analysis, considering bar in uniaxial tension and rectangular beam 19 p3546 A70-38345

Holography, discussing light propagation, basic principles, skew reference wave, diffused illumination interferometry, character recognition, microscopy, high density information storage, etc 19 p3427 A70-38449

Ikeya-Seki /1967n/, Thomas /1968b/ and Honda /1968c/ comet photoelectric spectrum, examining swan bands, continuum and reflected scattered light 20 p3703 A70-39024

Optical properties of system measuring atmospheric transmittance by recording light backscattered from atmospheric layers 20 p3660 A70-39033

Water droplet size measurement by forward light scatter holography, evaluating reconstructed wave front by Fresnel transform 20 p3628 A70-39132

Double holography on phase objects in diffused light using pulsed ruby laser 20 p3630 A70-39499

Hologram line scattering function dependence on light source spatial coherence, presenting quantitative evaluation, theoretical and experimental data 20 p3633 A70-39760

Fuel nozzle sprays mean droplet diameter based on computerized analysis of small angle forward scattered light profile 21 p3806 A70-40805

Photographic emulsions and photosensitive materials for holography, measuring noise spectral power density at high spatial frequencies by scattered light method 21 p3822 A70-40812

Saturn ring photometric properties, discussing multiple scattering and Seeliger principal photometric theory deviation 21 p3885 A70-40932

Refractive index complex part effect on polarization and radiance of reflected and transmitted light for continental haze and nimbostratus cloud models 21 p3847 A70-41724

B-V and U-B colors and B and V polarization calculation in single scattering for slab model reflection nebulae with dielectric or graphite grains 22 p4103 A70-42984

Acoustic Bragg diffraction for laser light deflection, solving high speed photography and holography motion problems [SMPT PREPRINT 5] 22 p4035 A70-43055

Numerical model of light diffraction on plane shock waves at optical phase jump region for shadow and schlieren techniques [SMPT PREPRINT 97] 22 p4035 A70-43058

Laser light pulse interaction with solid targets, observing second harmonic generation in induced plasma from time resolved spectra 22 p4084 A70-43673

Planetary atmospheric light diffuse reflection and transmission, applying anisotropic scattering theory 23 p4240 A70-43915

Laser light scattering in plasma for charged particle correlation function 23 p4225 A70-44187

Light scatterers use behind phase object in double exposure holography, determining laser radiation wave front dynamics effect on image quality 24 p4334 A70-45461

Laser light scattering by moist air flows with condensed droplets of water vapor 24 p4353 A70-45565

Magnetic field measurement by laser light scattering intensity fine structure determination in plasma 24 p4353 A70-45567

LIGHT SCATTERING METERS

Methods and equipments for light dispersion measurements for determining atmospheric refraction in terrestrial angle and electrooptical distance measurements 16 p2911 A70-33523

LIGHT SOURCES

NT ILLUMINATORS

Equilibrium state of high current discharge in low conductivity plasmas, obtaining light sources at low temperatures 01 p0152 A70-10993

Ballistic compressor performance as high intensity pulsed light source, discussing Xe gas heating and laser pumping 02 p0311 A70-11921

High power pulsed lasers development compared to thermal light sources, discussing applications to nonlinear optics 02 p0312 A70-12070

CW laser light sources for Mach-Zehnder interferometer, obtaining results for carbon dioxide injected through porous bottom wall into air flow 03 p0484 A70-13397

Controllable light source for experiments on human pupillary servomechanism 04 p0642 A70-14633

Horizontal disparity and ratio of perceived egocentric distance related in stereoscopic vision during investigation of three point light sources problem 08 p1447 A70-21725

Holographic image reconstruction analysis based on two beam interferometry by spatially incoherent light source, obtaining optical transfer function 08 p1514 A70-21790

Plasma discharge studies by holographic interferometry using ruby laser pulse for light source 09 p1674 A70-22171

Broad spectrum light sources effects on mammalian endocrine apparatus development and function determined in rats 09 p1617 A70-22335

He-Ne laser light source for oil damped spiral gauge used as vacuum system pressure nulling device 09 p1698 A70-23000

Mercury arc injection lamp as radiation source for testing sunlight biological effects 10 p1888 A70-24388

Gas jet bounding of Ar arc column, providing high power/intensity light source 12 p2237 A70-28159

Reflectivity measurement in near IR using black bodies near room temperature for light sources 14 p2588 A70-31210

Light sources design with variable uniform luminance for space exploration cameras calibration [JPL-TR-32-1470] 15 p2737 A70-32037

Amplitude and intensity interference relations from pseudothermal light sources, noting applicability to stellar interferometry 16 p2900 A70-32999

Optical system and light source imperfection effects interference image contrast lowering in laser interferometer for length measurements 16 p2928 A70-33292

Plasma opacity measurements using CW He-Ne and Ar lasers as light sources 17 p3106 A70-35107

Light gathering nonuniformity in cylindrical plastic scintillator, analyzing detector signal amplitudes for various pulsed light source positions 20 p3629 A70-39318

Extreme UV spectroscopy with synchrotron radiation storage ring light sources in 40-400 A range, including thin film photoabsorption measurements 21 p3826 A70-41451

Pulsating light source afterglow increasing high speed film information content, discussing streak image, tearing process and impact stress tests [SMPT PREPRINT 66] 22 p4032 A70-43036

Exploding wire light source modification by immersing in transparent fluid to increase intensity, measuring spectral characteristics [SMPT PREPRINT 64] 22 p4032 A70-43037

Ultrabright nanosecond flash light generation technique, using superradiant light sources for shadowgraph photography in high resolution hypervelocity field [SMPT PREPRINT 74] 22 p4037 A70-43070

Light source spatial coherence measurement, verifying laser heterodyne interferometer theory 24 p4354 A70-45665

Fourier hologram synthesis using laser point source and Wollaston birefringent prism 24 p4336 A70-45667

LIGHT SPEED

Optical and radio pulses from pulsars as test of light speed variation with frequency and photon mass possible existence 02 p0373 A70-12394

Relativity theory and quantum mechanics relation concerning point charge velocity and motion at light speed, deriving elementary particle mass formula 06 p1106 A70-17833

Optimal information selection for determining spacecraft trajectory, considering atmosphere, light speed and series expansion coefficients of planetary gravitational potentials 06 p1142 A70-17891

Light velocity measurement at low cost, describing circuits and experimental results

06 p1067 A70-18399

Tachyons /faster than light particles/ on basis of relativity theory, noting reaction with light speed particles and relation to quantum theory

10 p1916 A70-24385

Nonviscous relativistic fluid energy momentum tensor modification to rule out sound wave propagation velocities above speed of light

13 p2454 A70-29900

Light velocity from frequency and wavelength differences between gas laser lines, using precision long path interferometry

17 p3104 A70-35085

Various light velocities, including controvelocity for describing EM radiation transport

19 p3472 A70-38274

Ne absorption cell and He-Ne gain cell pulse velocities compared with free space light velocity

22 p4048 A70-42329

Faster-than-light particles impossibility in causal loops using nonquantum special relativity framework, considering tachyons

24 p4378 A70-45424

Newton and Einstein gravitation theories applied to light velocity in gravitational field

24 p4379 A70-45487

Light velocity frequency dependence in variable stars gravitational fields suggested from yellow and UV NP 0532 observations

24 p4405 A70-45488

Electro-optical light speed measurements with interference comparator using He-Ne lasers with light modulators

24 p4353 A70-45562

LIGHT TRANSMISSION

NT LIGHT SCATTERING

Metal film graded filter fabrication for schlieren photographic system with laser light source and framing camera, using vacuum evaporation

01 p0113 A70-10921

CRT resolution measurements by double slit method, relating light spot response to slit width

01 p0093 A70-11278

Diffuse isotropic light interaction with compact corn leaf, using transparent plate model with rough plane-parallel surfaces

02 p0338 A70-11893

Resin bonding material suitable for IR detectors noting transmission properties

02 p0321 A70-11926

Visible radiation reflection, transmission and inside intensities of terrestrial clouds calculated by Monte Carlo program utilizing scattering phase function

02 p0326 A70-12286

Birefringences and phase retardations in lithium niobate crystals for light propagation directions near optical axis, considering electro-optic modulation

02 p0313 A70-12451

Optical transmission spectra of polypeptide films showing exciton structure near 1600 A for alpha and polyproline II helices

02 p0345 A70-12723

Optical properties changes of various transmitting materials under simulated micrometeoroid environment, using silicon carbide particles accelerated in shock tube

03 p0523 A70-13027

Three dimensional Gaussian light beam propagation in anisotropic inhomogeneous media with dielectric constant decreasing from energy flow direction

03 p0525 A70-13533

Light pulses propagation in nonlinear laser medium, obtaining equations of motion for density matrix

04 p0700 A70-14687

Phase and amplitude level of plane light wave propagation in medium with randomly discontinuous refractive index, discussing wave phase dependence on dielectric constant

04 p0650 A70-15288

Carbon dioxide-nitrogen laser emission absorption in atmospheric surface layer by wings of distant strong lines investigated statistically

06 p1082 A70-17807

Light inductions and echo intensities in liquids and gases, investigating thermal vibrations, translational Brownian motion, particle collisions and laser diffusion effects

06 p1082 A70-17809

Spectral transparency inversion of aerosol-containing atmosphere

06 p1098 A70-17832

Light refraction in Venusian atmosphere from Venera 4 probe measured data, noting horizontal rays traversing planet along circumference at 8.3 km height

06 p1142 A70-17889

Light pulse propagation in nonlinearly amplifying or absorbing medium, discussing coherent and non-coherent interaction between pulse and medium

07 p1296 A70-18745

Pumping light distribution in rectangular laser rods showing corner maxima and overall nonhomogeneity

07 p1300 A70-19871

Light beam intensity variations during propagation in nonlinear medium taking into account combination scattering, solving equations by difference method

08 p1461 A70-20858

Two photon interaction between ultrashort light pulse and medium, showing pulse propagation through medium without absorption

08 p1514 A70-21820

Supernovae hydrodynamics, discussing early light curves energy requirements and shock wave dynamics in terms of neutrino diffusion

09 p1749 A70-21992

Pulsed laser beams intensity fluctuations correlation functions dependence on propagation distance in turbulent atmosphere

09 p1636 A70-23135

Amplitude measurement of plane light wave propagating in turbulent atmosphere, giving log amplitude dependence on dispersion of logarithm fluctuations

09 p1636 A70-23136

Turbulent medium refractive index fluctuations effect on parameters of focused plane light wave, calculating diffraction patterns center of gravity

09 p1636 A70-23138

Laser beam intensity fluctuations during propagation through turbulent atmosphere

09 p1637 A70-23142

Sensitivity of nondiffuse double exposure holographic interferometry with transparent medium increased via multiple beam passage through medium placed in optical cavity

09 p1682 A70-23360

Magnetophotoelastic model applied to plates bending stress analysis, deriving polarized light propagation equations

09 p1728 A70-23447

Optical transmission technology for aerospace launch operations investigated on wideband communication systems projects involving use of gallium arsenide lasers and diodes

09 p1640 A70-23776

Diffuse light transmission from point sources over horizontal paths in lower atmosphere, discussing effect of range

10 p1912 A70-24424

Electromagnetic radiation frequency shift during passage by sun or earth not caused by electrostatic or magnetic fields

10 p1917 A70-24860

Laser light propagation along strongly inhomogeneous turbulent path, measuring intensity fluctuations dispersion and light amplitude

10 p1844 A70-25161

Geometrical light depolarization in randomly inhomogeneous medium, discussing light propagation in turbulent atmosphere and ionospheric radio propagation

10 p1844 A70-25162

Near IR radiation diurnal variations in corn canopy accounted for by Duntley equations for unidirectionally incident light propagation through diffusing medium

11 p2082 A70-25364

Magneto-optical birefringence anisotropy and light propagation in terbium ferrite garnet in presence of Faraday and Cotton-Mouton effects

11 p2097 A70-25377

Hyperbolic velocity space physical significance based on cosmological model of light propagation associated with uniformly expanding universe

11 p2114 A70-26551

Moire theory applied to direct strain measurement methods based on light diffraction

11 p2058 A70-26835

Monochromatic light propagation in medium with large scale Markov nonuniformities of dielectric constant using parabolic equation approximation

12 p2272 A70-27359

Transmission diffraction grating for astronomical applications constructed holographically with laser light and photoresist films

12 p2234 A70-27589

Light pulse propagation in dispersive nonlinear dielectric analyzed on nonlinear Lorentz model

12 p2274 A70-28216

Multiwavelength laser beam propagation with point source transmitters, determining turbulence levels independently

13 p2426 A70-28837

He-Ne laser beam transmission through atmosphere, investigating intensity, spot size, polarization and power spectrum fluctuations

13 p2427 A70-29103

Light transmission losses in optical resonators partially filled with inhomogeneous dielectric, specifying optimal geometrical parameters

13 p2378 A70-29404

Interferometric measurement of spatial correlation function of optical radiation fields propagating through turbulent atmosphere

13 p2454 A70-29825

Side scattered light effects on atmospheric transmittance measurements, showing influence on total receiver illumination

14 p2603 A70-30411

Venus atmosphere opacity law determination as function of wavelength, comparing interferometric and integrated brightness temperatures with model calculations for various atmospheric compositions

14 p2646 A70-31069

Planetary atmospheric light diffuse reflection and transmission, applying anisotropic scattering theory

15 p2802 A70-32493

Light scattering in one dimensional semiinfinite medium with moving boundary, deriving escape and reflection probability expressions

15 p2808 A70-32880

Coherent light pulses propagation through resonant medium, discussing energy loss

16 p2928 A70-33278

Earth atmosphere transmission coefficients determination by relation between transparency and daytime sky brightness, noting limits of applicability

16 p2899 A70-34180

Earth atmosphere transmission coefficient and optical stability based on solar aureole observation

16 p2899 A70-34186

Atmospheric optical inhomogeneity effect on image quality, investigating deflection angles for spherical light wave passage at various altitudes

16 p2915 A70-34215

Attenuation, refraction and multiple reflection effects on light reflection from shock front at near grazing incidence

16 p2953 A70-34271

Allowable transmission bandwidth of lens waveguide with curved axis, considering light beam deflection due to chromatic aberration

17 p3050 A70-34583

Light propagation-shift relationships in optically pumped atomic vapors, discussing susceptibilities, birefringence, conversion efficiencies, coupling, etc

17 p3103 A70-35000

Intensity logarithm fluctuations of focused laser beam propagating in summer daytime atmosphere at 250 and 650 meter path lengths

17 p3048 A70-35685

Coherent light propagation through turbulent atmosphere observed by applying He-Ne lasers to simultaneous measurements of scintillation effects over homogeneous optical paths

17 p3108 A70-35721

Thick plane fog layers reflection and transmission properties, using emerging light angular distribution for Milne problem

18 p3284 A70-35944

GaAs lasers with light propagation along curved junctions, discussing threshold current density variation with radius of curvature

18 p3269 A70-36738

Contaminated optical surface investigation technique in near UV, visible and near IR range, investigating property changes of systems in transmission and reflection

18 p3292 A70-36786

Atmospheric turbulence effects on light propagation, measuring refractive index variations by high speed temperature sensors

18 p3285 A70-36961

Light propagation in plane parallel layer of scattering medium containing absorbing substance with random density distribution

19 p3461 A70-37422

Coherent light beam characteristics with Gaussian radial intensity variation during propagation along optical system axis, determining radius from diffraction theory

20 p3639 A70-39086

Aircraft navigation light visibility, discussing visual threshold, source intensity, atmospheric transmissivity, color, background luminance, etc

20 p3564 A70-39719

Dynamic compensation of thermal pumping-induced deformation of laser active elements via thermal bending of resonator mirrors achieved by coatings

20 p3642 A70-39744

Short light pulse coherent absorption in homogeneously broadened resonant medium, discussing influence of input pulse area and atomic coherence on propagation properties

21 p3784 A70-40565

Dispersive spectrometer multiplexing light in entrance and exit slit positions compared with Michelson interferometric spectrometers

21 p3823 A70-40848

Light pulse propagation in nonlinearly amplifying or absorbing medium, discussing coherent and non-coherent interaction between pulse and medium

21 p3836 A70-41170

Refractive index complex part effect on polarization and radiance of reflected and transmitted light for continental haze and nimbostratus cloud models

21 p3847 A70-41724

Diffraction theory relationship to ray optics for coherent light propagation through lens systems

21 p3829 A70-41929

Optical communication waveguides with diffused boundaries, calculating modal propagation fields by perturbation theory

21 p3792 A70-42045

Atmospheric communication channel modeling for laser wavelengths, considering point, area, heterodyne and direct detection receivers, nonplanar and infinite plane wave propagations, etc

21 p3793 A70-42179

Fiber optic components quality control by image transmission intensity distribution measurement

22 p4045 A70-42513

Cotton leaves ammonia induced discoloration spectrophotometric examination, discussing light reflectance, transmittance and absorbance

22 p4014 A70-42771

Monochromatic light propagation in medium with large scale Markov nonuniformities of dielectric constant using parabolic equation approximation

22 p4075 A70-43600

Planetary atmospheric light diffuse reflection and transmission, applying anisotropic scattering theory

23 p4240 A70-43915

Delta function approximation in diffuse transmission and reflection of light for phase function with sharp forward peak, using scattering compensation

23 p4214 A70-44034

Signal arrival time variance in optical communication system with high lag photodetectors, examining input, detection and amplification noise

23 p4196 A70-44410

German monograph on quantum statistics for light propagation in laser-active fluctuating media

24 p4350 A70-45090

Optical wave propagation through random atmospheric turbulence, deriving wave equation power series solution for homogeneous random refractive index field

24 p4314 A70-46126

LIGHTHILL GAS MODEL

Subsonic circular jet noise radiation intensity and directional distribution, based on effects of refraction and Lighthill quadrupole model for aerodynamic noise

05 p0834 A70-16780

Hypersonic flow past blunted cylinder at Mach number of infinity, investigating real gas effect using Lighthill ideal dissociating gas model

08 p1431 A70-20646

Equations for unsteady frozen nonequilibrium flow of dissociating and relaxing gas, using Lighthill ideal dissociating diatomic gas for aerothermochemical model

22 p4124 A70-42754

LIGHTHILL METHOD

Surface inhomogeneities effect on sound radiated by nearby turbulence near flexible boundary, using converted Lighthill wave equation to obtain far field radiation

07 p1256 A70-19262

Aerodynamic sound emission from compact eddy region by singular perturbation approach, discussing Lighthill and Ribner theories

11 p1977 A70-26687

LIGHTING

U ILLUMINATING

LIGHTING EQUIPMENT

NT AIRCRAFT LIGHTS

NT AIRPORT LIGHTS

NT ARC LAMPS

NT FLASH LAMPS

NT ILLUMINATORS

NT LUMINAIRES

NT MERCURY LAMPS

NT RUNWAY LIGHTS

NT SEARCHLIGHTS

NT XENON LAMPS

Stroboscope lighting system for microstructural examination of fatigue test sample failure

05 p0845 A70-15882

High speed photographic systems for ballistic studies, describing high intensity lighting systems

20 p3635 A70-40527

LIGHTNING

Thunderstorm lightning discharge formation mechanism, investigating electric charge concentration and motion of free electrons

01 p0134 A70-10169

Transistorized lightning protected VHF ground antenna for air traffic communication providing high operational safety standards

03 p0459 A70-14297

Electromagnetic energy spectra of lightning expressed as function of electric field spectral density of atmospheric

05 p0843 A70-16762

Physical theory of ball lightning based on cooling air spheres models, calculating equilibrium composition, temperature profiles, output radiation and mass density

05 p0843 A70-17102

Spectral amplitude distribution of lightning spherics predicted over VLF-SHF range using theoretical analysis of lightning streamers

07 p1272 A70-20215

Aircraft skin heating by lightning, discussing possibility of exceeding jet fuel vapor ignition temperature

07 p1195 A70-20402

Thunderstorms lightning flashes time distribution recorded visually and on radar screens, discussing statistical variations in sigma

08 p1539 A70-21648

Pulse rate counter for randomly repetitive random processes, noting applications to lightning flash noise bursts in receivers

10 p1848 A70-23996

Lightning protection development programs application to light aircraft plastic components, emphasizing structure and fuel systems designers awareness [SAE PAPER 700220]

11 p1980 A70-25892

Conditions leading to lightning as triggered by Apollo 12 and suggestions for minimizing such hazards

13 p3294 A70-28838

Thunderstorm detection and warning system, measuring vertical potential gradient and changes caused by lightning discharges

14 p2607 A70-30574

Electromagnetic ELF radiation model for multiple return strokes of cloud to ground lightning discharges, considering channel length

15 p2726 A70-31864

Lightning discharge slow tail atmospheric relation to return stroke, using VLF spectra and frequency analysis

15 p2727 A70-31871

Slow tail atmospheric and VLF pulse measurements at close-to-thunderstorm fields, indicating return stroke origin

17 p3046 A70-35395

Nighttime lightning activity observations by orbiting solar satellite OSO-B, determining thunderstorms positions by optical radiation detection

20 p3623 A70-39978

Thunderstorm development processes investigated by aircraft measurements of electrical structure in cumulonimbus clouds, noting lightning probability dependence on turbulence within cloud

22 p4064 A70-42775

Lightning discharge characteristics contributing to electromagnetic background noise at ELF determined from slow tail waveform measurements

22 p4015 A70-42777

Global thunderstorm activity experiment by Ariel 3 satellite, investigating lightning discharge number and noise power

22 p4015 A70-42778

Ball lightning model assuming radiation field within plasma dielectric region resonant at higher than collision frequency

22 p4016 A70-42780

Hot air temperature decay, discussing relaxation process of lightning channel behavior

22 p4016 A70-42781

Computerized simulation of raindrop effects on initiation of cloud-to-ground lightning strokes

24 p4371 A70-45978

LIGHTS

U LUMINAIRES

LIGNIN

Phenolic aldehydes generated from lignin in fossil woods and carbonaceous sediments by oxidative degradation

13 p2361 A70-28911

LIMBS

Solar limb brightening in various ranges, suggesting obtaining temperature distribution during solar eclipse

05 p0911 A70-16436

Limb effect of solar Fraunhofer lines determined by telescope equipped with autocollimated type diffraction spectrograph

05 p0918 A70-16912

NT KNEE [ANATOMY]

NT LEG [ANATOMY]

Lower limbs circulation of peripheral vascular diseased patients transcatheterously assessed with ultrasonic flow detector, comparing results with arteriograms

07 p1217 A70-18956

Posthypoxic vasodilation in extremities of anesthetized dogs preserved after carotid and aortic reflexogenic zones exclusion

07 p1204 A70-19139

Weightless astronaut self rotation by limb maneuvers producing pitch and yaw motion

07 p1219 A70-19245

Heterochronism of coordinated cophasal flexor and extensor movements during acrobatic leap in human subjects

12 p2168 A70-27344

LIME

U CALCIUM OXIDES

LIMESTONE

Natural thermoluminescence of limestone within/near Charlevoix meteorite impact structure, discussing impact effects on quartz-rich rocks

18 p3314 A70-36499

LIMITATIONS

U CONSTRAINTS

LIMITER CIRCUITS

NT CLIPPER CIRCUITS

Output autocorrelation properties of ideal limiters driven by binary deterministic signal plus stationary zero-mean Gaussian noise

06 p1013 A70-18625

Narrow band limiter influence on SNR at FM reception output by computer simulation using threshold pulse model

07 p1227 A70-19124

Nonlinear phase distortion measurement in microwave limiters under dynamic conditions using two tone test signal

09 p1647 A70-22714

Nomograms simplifying noise and natural loop bandwidths calculation for phase locked loop receiver, determining limiter suppression factor

10 p1844 A70-25244

Multiple access to communication satellite by limiting repeater, considering model of n signals plus band limited white Gaussian noise in zero memory device

11 p2008 A70-26229

FM limiter-discriminator followed with ideal band-pass filter, deriving output signal to noise ratio

14 p2558 A70-31189

Hard limiting bandpass limiter output signal to noise ratio in PM signal detection calculated using probability density function

14 p2552 A70-31194

Ideal limiter with polyharmonic signal input, calculating output spectral composition by Fourier series expansion

20 p3587 A70-40143

LIMITS

Quasi-brittle materials limit surface, approximating curve in deviator plane by second order curves leading to strength criteria

10 p1965 A70-25292

Plasticity limit theorems applicability extended without geometry change requirement, discussing load elastic buckling and fiber pullout from composite materials

17 p3186 A70-34977

LIMITS [MATHEMATICS]

Limits on signal amplitude, spectrum, derivatives and modulus of variations

03 p0453 A70-14283

Perturbations classes for self adjoint operator limit spectrum preservation

07 p1327 A70-19807

Radio wave propagation equations, applying stationary phase method for finite limits of dimensionless line integral

09 p1638 A70-23662

Limiting distributions of sums of random variables coupled in homogeneous Markov chain with finite number of states

12 p2261 A70-27551

Boundary value problem for Navier-Stokes equations to obtain stationary flows as limits of nonstationary solutions

14 p2600 A70-31347

Limit theorems for sums of multidimensional stochastic step processes, giving necessary and sufficient conditions for convergence to Poisson measures

16 p2942 A70-33700

Displacement bounding principle for finitely deforming rigid plastic structures exhibiting geometric stability, with application to cylindrical shell

17 p1814 A70-34906

Relativistic and nonrelativistic fluid dynamic equations, deriving limiting procedure leading to fluid magnetodynamic Lundquist equations

19 p3478 A70-37590

Safety factor limit analysis for anisotropic nonhomogeneous solids by variational method, exemplifying by four layer rectangular beam

19 p3547 A70-38355

Bounds to direct influence coefficient derived by hybrid stress finite element method

22 p4116 A70-43203

Approximate bounds for differential eigenvalues of self adjoint linear operators in Hilbert space

23 p4211 A70-44245

Limit analysis for ionization potential reduction effect on ionized gas atomic composition, considering temperature and electron density

23 p4220 A70-44435

LINCOLN EXPERIMENTAL SATELLITES

LES-6 satellite solid Teflon pulsed plasma thruster performance, determining energy balance, thrust and circuit parameters

06 p1132 A70-18206

Solar cell degradation by proton damage in synchronous orbit studied on LES-6 satellite [AIAA PAPER 70-600]

11 p2119 A70-25430

Visible light sensors application in LES control system for circular near equatorial orbits [AIAA PAPER 70-477]

11 p2107 A70-25432

LES 5 and 6 feasibility demonstration of satellite communications at VHF/UHF to mobile terminals and as test beds, emphasizing stationkeeping and attitude control [AIAA PAPER 70-494]

11 p2121 A70-25474

Pulsed plasma microthruster propulsion system for synchronous orbit LES 6 satellite [AIAA PAPER 69-298] 13 p2473 A70-28504
RFI measurements at X band on LES-7 prototype pulsed plasma thruster 17 p3149 A70-35669

LINE SHAPE

Lorentz absorption line shape computations in radiation scattered by homogeneous planetary atmosphere compared with results for isotropic scattering by van de Hulst similarity relations 02 p0364 A70-11792

Collision-narrowed growth curves for interpreting hydrogen quadrupole lines applied to photoelectric observations of Jupiter vibration-rotation bands 02 p0368 A70-11824

Giant pulse Q switched lasers generated plasmas, noting VUV spectral line shifts, asymmetries and existence of satellite lines 02 p0345 A70-11894

Stellar spectral lines fine analysis methods compared for curves of growth, line profiles and related contribution curves in model atmospheres for Procyon and sun 02 p0343 A70-11906

O-C diagrams of RR Lyrae variables in M5, considering representation by parabolas or intersecting straight lines 03 p0567 A70-13321

Zeeman-split Fraunhofer line profiles for pure absorption lines determined taking into account solar atmosphere elliptical birefringence 03 p0570 A70-13595

K line profiles of Ca II for two component chromosphere, obtaining line source function and optical depth from steady state and radiative transfer equations 05 p0911 A70-16430

Line profiles in expanding and rotating atmospheres via Monte Carlo techniques, considering noncoherent scattering, atomic levels and atmospheric characteristics 07 p1339 A70-20057

Spectral line shapes determination for radiating atoms immersed in plasma developed without neglecting ion-electron interaction and static-ion assumption 07 p1346 A70-20247

Deuterium Lyman alpha line profiles generated from microwave powered lamp for experimental testing of two layer model characterizing emission line profiles 09 p1730 A70-22066

Generatrix shape determined for body of revolution moving at supersonic speed with minimum wave drag 09 p1603 A70-22434

Excited gas kinetic state determination from observed spectral profiles during interaction with radiation 10 p1919 A70-24147

Ruby monopulse laser with narrow emission line, describing two generator system 10 p1899 A70-24264

Band or line shape effect on radiative transfer in nongray medium between parallel walls, discussing temperature distribution and radiative flux 13 p2521 A70-29136

Non-LTE and LTE line profiles and equivalent widths for transitions in singlet and triplet systems of neutral He in hot stars, explaining anomaly 14 p2641 A70-30884

Stark broadening calculations of H alpha and H gamma hydrogen lineshapes 14 p2620 A70-31303

H alpha and Fe I lines, calculating velocity effects on profiles for differentially moving atmosphere 15 p2804 A70-32616

Spectral line formation in Mars and Venus atmospheres, discussing Lorentz and Doppler broadening 16 p2976 A70-33793

Stellar UV spectral line profiles interpretation, using atmospheric models and line formation theory 17 p3161 A70-34890

Solar potassium resonance line shape and gravitational red shift, using atomic beam technique 17 p3173 A70-35861

Solar C II resonance doublet profiles, discussing possible broadening mechanisms 17 p3174 A70-35862

Hologram line scattering function dependence on light source spatial coherence, presenting quantitative evaluation, theoretical and experimental data 20 p3633 A70-39760

Brillouin effect lines shape dependence on analogous acoustical waves temporal and spatial coherence 21 p3839 A70-42100

LINE SPECTRA

NT BALMER SERIES
NT D LINES

NT TELLURIC LINES

Photospheric Fe I abundance variation with excitation potential 01 p0175 A70-10239

Reply to Swings comments on validity of forbidden SI lines in solar spectrum communicated by Swenson 01 p0175 A70-10240

Solar corona red and green lines during 30 May 1965 total eclipse, discussing indicated radial, turbulent and displacement velocities 01 p0176 A70-10249

X ray line emission from Sco X-1 using Monte Carlo estimates of spectral distribution of scattered photons in terms of Fe line and cosmic abundance 01 p0169 A70-10338

Nova Delphini 1967 emission line spectrum at 8400-9600 A, using diffraction spectrograph attached to astronomical telescope 01 p0182 A70-10675

Galactic water vapor line emission observations indicating short term variability in spectra of several sources 01 p0182 A70-10722

Velocity field measurements in NGC 5128 galaxy, discussing relative motion between gas and stars and correspondence of emission and absorption lines 01 p0184 A70-10898

Antarctic twilight observation by photoelectric scanning spectrometer in search for metallic emission lines in upper atmosphere 01 p0081 A70-11231

Ammonia spectral lines positions, intensities and half widths under Jovian conditions calculated, including ground state rotation and rotation inversion bands 02 p0368 A70-11820

Extreme UV spectral line intensity enhancement during class 3 flare related to abundance of radiating element 02 p0358 A70-12205

Coronal emission lines wide slit photometry systematic error analysis and suggested error elimination by varying observation method 02 p0373 A70-12375

Night airglow emission intensities during IQSY concerning Na, OH and H alpha lines compared with intensities during IGY 02 p0292 A70-12433

Atmospheric oxygen A band individual rotational lines intensities and half widths measurements 02 p0344 A70-12656

Transition probabilities computed for spectral lines due to magnetic quadrupole radiation, discussing deexcitation of excited atoms in solar corona 02 p0359 A70-12706

Satellite lines of forbidden transition in laser-produced He plasma attributed to longitudinal plasma oscillations 02 p0379 A70-12717

Emission lines origin in radio galaxies optical spectra explained by using energy gained from radioactive elements decay 03 p0563 A70-13214

Orbits computation from double lined spectra of eclipsing binaries 31 Men and 9 Cha, emphasizing systemic velocity and mass ratio derivation method 03 p0565 A70-13268

Quasar spectra interpretation, analyzing observational data and absorption lines correspondence to different red shifts 03 p0570 A70-13484

Ar X and Ar XIV identification in solar corona and unidentified coronal lines origin, discussing Fe and Ni transitions from metastable levels 03 p0571 A70-13598

Spectroscopic calibration of laser lines at simultaneous carbon dioxide and nitrous oxide transitions in gas flow, showing abnormal line intensity 03 p0501 A70-13685

Cloud layer multiple scattering in Jovian atmosphere, discussing influence on Lorentzian contour of planetary absorption lines 03 p0574 A70-13882

Peculiar emission object with emissions narrower and with lower ionization lines than cool Wolf-Rayet stars 03 p0574 A70-13933

Xenon sensitized photolysis of carbon dioxide compared with direct photolysis at 1470 A resonance line 03 p0441 A70-14005

Fe I line enhancement in flare of 7 August 1958 interpreted as selective excitation effect, discussing similarity to late type dwarf stars observations 04 p0739 A70-14598

Stark broadening of ionized helium lines by collective electric fields in theta pinch 04 p0722 A70-14684

Satellite lines from diffraction grating observed by densitometer tracings of plates connected with optical mixing in stimulated Brillouin scattering 04 p0701 A70-15030

Statistical model of ozone absorption bands for calculating intensity, rotational line position and transmission functions of complex spectral regions 04 p0680 A70-15252

Axial and rotational velocity profiles of plasma jet from Doppler shift of spectral lines 04 p0729 A70-15612

[DFVLR-SONDDR-27] Solar helium-like ion line intensities, determining electron densities and excitation rate ratios 04 p0758 A70-15696

Line transfer with scattering described by redistribution function numerically solved, using discrete ordinate method 04 p0720 A70-15701

Nickel IV forbidden lines suggested from spectrum study of slow nova RR Telescopii 05 p0905 A70-15758

Excitation temperature functions calculated in rare gases spectrum lines to determine radial plasma temperature distribution 05 p0886 A70-15798

Forbidden Fe II lines and AIO band intensities in long period variable stars confirming stratified models of emitting layers 05 p0907 A70-16031

Length shifts measurement with single 2-mode laser by observing beat frequency, obtaining frequency shift proportional to length shifts 05 p0859 A70-16356

Identification of lines in Mohler photometric atlas of IR solar spectrum wavelengths 05 p0910 A70-16427

Diatomic carbon swan band violet line absence from sunspot suggested in accordance with molecular equilibrium predictions 05 p0911 A70-16433

Flare radiation influence on high photospheric and low chromospheric lines in H alpha, H and K regions 05 p0902 A70-16439

Center dip formation in curve relating output power and frequency of carbon dioxide laser line operating in single mode on single wavelength 05 p0860 A70-16667

Opacity-probability distributions for CO, computing theoretical spectra of line absorption coefficient, discussing effects of temperature and/or turbulent velocity 05 p0919 A70-16938

Empirical astrophysical damping constants derived for neutral Fe lines using solar spectra, applying constants to abundances and surface gravity determination 05 p0919 A70-16939

Neutral Ne emission line in visible solar spectrum during bright events in inner corona, noting 1958 outburst of RS Oph 05 p0920 A70-16944

Sco X-1 line spectra search in X ray spectrum by rocket-borne proportional counters, noting iron line emission 05 p0904 A70-16979

C V lines measured near 1s-2p line of C VI, identifying lines belonging to various transitions 05 p0921 A70-16982

Power spectra of pulsar radiation intensity fluctuations, showing line structure 05 p0921 A70-16983

Dispersion function and measured line profile distortion by rectangular detector slit of order scanning Fabry-Perot spectrometer 06 p1063 A70-17622

Granular and intergranular region solar magnetic field difference detection attempt from line profiles, noting equivalent width increase in ionized Cr line 06 p1142 A70-17989

Solar Cd abundance, using spectrograph and synthetic spectral line computer program 06 p1143 A70-17995

Optical spectra of discharge chambers of electron bombardment mercury ion thrusters with hollow and oxide cathodes 06 p1132 A70-18157

[AIAA PAPER 70-176] Calcium neutral and ionic lines broadening and shift by microfields measured by plasma flame observations 06 p1148 A70-18453

Longitudinal spectral line intensity distributions measured for plasma temperature determination 06 p1074 A70-18601

Doppler shift measurements of axial and rotational velocities in MPD arc, using references from iron arc [AIAA PAPER 69-110] 07 p1364 A70-19324

Pressure-narrowing theory applied to calculating equivalent widths of lines in quadrupole rotation-vibration spectrum of molecular hydrogen 07 p1338 A70-19366

Wave numbers, intensity and half width of lines of vibration-rotation relative to carbon monoxide transition, noting band center displacement dependence on pressure 07 p1338 A70-19380

Absorption lines in quasars spectra indicating line formation close to quasar nucleus 07 p1383 A70-19402

Solar protuberance radiation polarization in Ca I 4227 Å line, discussing depolarization and electron-and photoexcitation

07 p1384 A70-19416

Effective pressure and rotation line intensity in Uranus upper atmosphere obtained from methane band spectrograms, calculating maximum temperature at subsolar point

07 p1385 A70-19423

Predawn enhancement of emission rate of 6300 Å forbidden O I line in nightglow spectrum, discussing onset time

07 p1275 A70-20286

Magnetic field effects on ruby absorption in R-line region

08 p1555 A70-20543

Tunable Q switched pulsed discharge carbon dioxide laser intensity dependence on time delay investigated for various vibrational/rotational lines and gas mixtures

08 p1512 A70-20618

Binary star spectrum analysis establishing seasonal and season-to-season variations in He II emission band intensity and shift toward long wave region

08 p1569 A70-20827

Ti I spectrum oscillator strengths, determining formula for relative-absolute values transition

08 p1569 A70-20832

Brightness distribution of spectroheliograms taken in metal lines reflecting velocity field structure in photosphere

08 p1570 A70-20839

Effective depths of formation of absorption lines in solar atmosphere used for magnetic field recording

08 p1570 A70-20842

Magnesium hydride absorption lines in sunspot spectrograms indicating heavy Mg enhancement in sun relative to earth

08 p1571 A70-20904

Spectral radiometer for observing excited hydrogen radio frequency lines using paramagnetic traveling wave quantum amplifier

08 p1495 A70-21052

Oscillator strengths of Fe II lines and solar iron abundance measured by arc burning in Ar with iron chloride admixture

08 p1576 A70-21398

Anomalous microwave recombination line at 11 cm detected in NGC 2024, Orion A, and IC 1795, discussing peak antenna temperature

08 p1576 A70-21399

Relative rotational lines intensities of carbon dioxide, considering sigma-sigma transitions for abundant isotopes

08 p1549 A70-21575

Line strength and radiative lifetimes for Ne II determined from spontaneous emission data obtained from CW neon laser discharge

09 p1730 A70-22070

Corona green /5303 Å/ and red /6374 Å/ lines during minimum solar activity in 1964, discussing N-S and E-W asymmetries and intensities

09 p1750 A70-22100

Vacuum UV atomic nitrogen and oxygen lines contribution to energy transfer in high density plasma, noting f values and Stark half widths

09 p1730 A70-22229

Collision effects on saturation of He line transition in He-Ne laser, determining power output dependence on cavity tuning and gas pressure

09 p1695 A70-22322

Homogeneous model solar photosphere in strict radiative equilibrium with depth-dependent line blanketing by neutral and ionized metals

09 p1757 A70-22728

Solar equatorial XUV limb brightening for resonance lines of Li-like ions from OSO-4 observations interpreted by coronal model

09 p1757 A70-22732

Ni L alpha X ray emission line shape and position as function of bombarding electron energy, observing differential self absorption in anode

09 p1731 A70-22777

Stark effect He II and H beta on lines observed for transverse and longitudinal fields, using beam-foil light source

09 p1731 A70-22779

Measured and theoretical Stark-broadened line profiles and asymptotic wing approximation of hydrogen Balmer lines at specific electron density and temperature

09 p1732 A70-22782

Doppler effect induced small spectral line shifts measured by modified duochromator in MPD arc jet

09 p1684 A70-23531

Optically variable compact galaxy with broad emission lines similar to Seyfert and N-type galaxies, noting no stellar contribution in continuous spectrum

09 p1765 A70-23808

Predawn enhancement morphology and variations of 6300 Å airglow, discussing solar declination and activity effect

10 p1873 A70-23831

Neutral atomic oxygen auroral and nebular emissions in twilight airglow, suggesting photodissociation of molecules by sunlight

10 p1873 A70-23832

Galactic sources H109 alpha line and continuum surveys, showing thermal continuum spectrum for sources with radio recombination lines

10 p1936 A70-23903

Line profiles and equivalent widths from Si II, Mg II, Ni II and Fe II spectra of shell star zeta Tauri

10 p1936 A70-23941

Auroral green line rocket measurements, showing roles of atomic and molecular oxygen dissociative recombinations

10 p1874 A70-24432

Spectral lines and radial velocities of paired galaxies, noting red shift difference between emission and absorption lines

10 p1946 A70-24978

Gadolinium II solar lines classification from photographic IR observations

10 p1947 A70-24990

Solar limb brightening of XUV lines of carbon, nitrogen, oxygen and silicon ions in chromospheric-coronal transition region

11 p2108 A70-25740

Electron and proton excitation of forbidden transition lines in Ca XV ground configuration determined for coronal densities and temperature

11 p2109 A70-25742

Energy dependence and threshold behavior of ion Ar lines excited in low-energy He ion-Ar collisions

11 p2087 A70-26402

Star 15 Vulpeculae metal lines analyzed by growth curve differential method

11 p2113 A70-26464

Solar photospheric turbulence from observing Ti I line profiles at different center to limb distances, showing anisotropy

11 p2116 A70-26591

Zeeman effect on solar flares metallic lines splitting

11 p2106 A70-26592

Neutral helium line profiles for line-blanketed model atmospheres grid

11 p2117 A70-26660

Nonthermal radiation effects on emission line spectra of Seyfert galaxies and quasars determined from ionization equilibrium of gas envelope

12 p2293 A70-27585

Molecular line identification in sunspot spectrum of CN, diatomic carbon, TiO, MgH, CaH, NiH and water vapor

12 p2302 A70-27590

Computer programs for calculating spectral lines oscillator strength in Coulomb approximation, proposing Fortran program

12 p2192 A70-27595

Solar IR triplet of singly ionized Ca, suggesting limb darkening caused by chromospheric inhomogeneities for source function inequality

12 p2303 A70-27703

Solar rotational line positions due to red band in IR continuum region to resolve blue-violet ambiguity

12 p2303 A70-27704

Magnetically sensitive Fe lines usefulness to solar polarimetry, observing absorption coefficient dependence on temperature variations

12 p2303 A70-27706

Coronal condensation spectra during 4 February 1962 total eclipse, determining abundances, ionization equilibria, electron densities, etc, from Fe and Ca XV lines analysis

12 p2303 A70-27712

Auroral green line decay of atomic oxygen measured photometrically from multiple exposure spectra of meteor wakes

12 p2304 A70-27713

Stellar atmosphere model for multilevel spectral line emission, assuming semiinfinite hydrogen atmosphere with sequence of plane parallel zones

12 p2306 A70-27856

Summertime midnight airglow enhancement of 6300 Å line by sensitive continuum compensating photometer, suggesting F 2 region electron density increase for emission

12 p2225 A70-27895

Energy levels of Th lines computed from weighted averages of interferometrically measured wavelengths data

12 p2277 A70-28119

Forbidden Ne iv lines intensity in high excitation gaseous nebulae based on upper level-j populations

12 p2277 A70-28215

CH molecule line formation mechanism for 4300 Å transition in solar photosphere, noting collisions with hydrogen atoms

12 p2311 A70-28309

Hanle effect in single mode He-Ne laser, observing spontaneous emission on different spectral lines and estimating lifetimes of Ne excited states

13 p2424 A70-28598

Solar iron-to-hydrogen ratio and oscillator strengths for Fe I lines compared with laboratory measurements of line broadening by neutral atoms

13 p2486 A70-28628

Planetary nebula NGC 7027, discussing hydrogen recombination lines

13 p2486 A70-28629

Spectroscopic parameters for attenuation and dispersion caused by 22 GHz water vapor line, using differential microwave refractometer

13 p2393 A70-28784

Stark-broadened neutral atomic line widths and shifts, determining electron densities from H beta profiles and pressure-temperature data

13 p2455 A70-29220

Rossland stellar opacity calculation allowing for photon absorption in spectral lines using non-relativistic dipole approximation

13 p2495 A70-29752

Solar spectral line source function frequency dependence

13 p2496 A70-29842

Photosphere model and magnetic field gradient effects on line contours and magnetographic calibration curves, using nonlinear source function

13 p2496 A70-29845

Forbidden lines of OI, NI, CI, Fe II, Ni II, Si I, Si and Ca II in solar absorption, investigating effects on element abundance and gaps in thermodynamic equilibrium

14 p2637 A70-30339

Atmospheric molecular oxygen photometric absorption spectral bands, calculating growth curves

14 p2572 A70-30403

Water vapor absorption bands in solar IR spectrum, considering earth curvature and atmospheric inhomogeneity and refraction

14 p2572 A70-30404

Arcturus atmosphere Mg abundances from rotational lines noting terrestrial proportions

14 p2637 A70-30540

Heterochromatic spectrophotometry, discussing maxima and integral techniques for line measurement, photoemulsion properties and Eberhard effect

14 p2585 A70-30784

Absorption spectrum of terrestrial atmosphere with sun as source, obtaining formaldehyde line with rotating grid spectrometer

14 p2579 A70-31256

Spectral line formation, assuming frequency redistribution for plane parallel stellar atmosphere containing nonuniform distribution of internal emission sources

14 p2651 A70-31289

Nitrogen K-L Auger spectrum high energy lines measurement by high resolution electron spectrometer

14 p2620 A70-31301

Ionized iron lines observations under coronal conditions, giving halfwidths and kinetic temperatures for forbidden lines Fe X-Fe XV

14 p2651 A70-31377

Temperature influence on luminosity centers and line darkening in synthetic ruby powder with chromium concentration

15 p2782 A70-31558

Rocket engine propellants flame temperature measurement by spectral line intensity comparison method

15 p2786 A70-32270

Solar disk 10830 Å He absorption line, attributing depression at blue wing to triplet

15 p2802 A70-32488

Line formation in solar magnetic fields with allowance for absorption emission and scattering processes, discussing Hanle effect and atomic level polarization

15 p2804 A70-32617

Book on stellar spectra theory covering line absorption coefficient expressions, radiative transfer, line source function, line broadening, etc

16 p2974 A70-33270

Doppler temperature and motion of solar corona from ionized Fe line using Fabry-Perot interferometer

16 p2977 A70-33841

Argon II line transition probabilities, observing UV spectral region, upper energy levels and temperature differences

16 p2956 A70-34251

Diatomic nitrogen ions branch overlapping, discussing rotational line structure in first negative system vibrational bands

16 p2956 A70-34254

Resonance and satellite lines of highly ionized iron in solar spectra, discussing spectrum features during chromospheric flares

17 p3154 A70-34541

Excitation cross sections for Ar I and He I spectral lines in low energy He ion-Ar collisions

17 p3138 A70-34642

Iron line emission at 1.9 Å during solar flares observed by OSO-4 proportional counter spectrometer

17 p3150 A70-34836

Nonhydrogen spectral lines in interstellar gas, discussing Ca/Na abundance anomaly

17 p3162 A70-34900

Optical study of Crab Nebula linear expansion and filamentary proper motions, considering line emission

17 p3164 A70-35113

Solar corona radiation at 1-100 Å for 1-10 million K, using Jordan ionization equilibrium calculations

17 p3151 A70-35582

Lithium-like line spectra in Mg, Al and Si observed with grazing incidence spectrometer and low inductance microfarad spark source

17 p3138 A70-35720

Fe II line behavior in plagues near solar limb

17 p3174 A70-35866

Regular and stochastic oscillations in plasma beam discharge produced by beam instability from observing time dependent variations in spectral line luminescence intensities

18 p3294 A70-36147

Orion nebula core radio recombination line intensities, showing variations in mean electron temperatures and physical conditions

18 p3313 A70-36329

Oxygen absorption coefficients at Lyman alpha line and other transmission windows, verifying dependence on pressure source line width and doublet separation

18 p3293 A70-36753

Solar Ga abundance from spectral synthesis of region around 4172 Å line

18 p3316 A70-36894

Radiative transfer equation for spectral line formed in multidimensional atmosphere, solving for two dimensional atmospheric model

18 p3317 A70-37008

Ba II emission lines in solar chromosphere, examining excitation and ionization equilibrium and resonance line intensities by eclipse observations

18 p3317 A70-37010

Interstellar hot low density intercloud medium in H I region, estimating diffuse emission in forbidden lines O I at 6300 Å and N I at 5200 Å

18 p3310 A70-37020

P Cygni line profiles emission and absorption components rectification procedure, considering errors

18 p3321 A70-37123

Galactic 21 cm line emission motion picture film, discussing contour maps on neutral hydrogen distribution

18 p3327 A70-37163

Raman line coherence degree and polarization rate measurement, applying Wolf matrix

19 p3443 A70-37359

Pulsar AP 2015 21cm line absorption profile, indicating uniform density and temperature neutral H model invalid

19 p3518 A70-38026

Radio polarization of quasars with and without absorption line spectra

19 p3523 A70-38605

Am and Ap stars metallic absorption lines, determining photometrical indices correction

19 p3523 A70-38689

Quasars PHL 5200 and RS 23 spectra absorption lines, examining resonance line transfer of radiation through differentially expanding atmosphere

20 p3701 A70-39006

Non-LTE line blanketed solar model atmospheres with various temperature distributions

20 p3703 A70-39020

Helium II line broadening in high temperature plasma, measuring profile for comparison with theoretical prediction

20 p3677 A70-39115

Transition probabilities of visible and near-IR neon lines, using gas-driven shock tube spectroscopy

20 p3674 A70-39134

Uranium ion impact ejection and electronic excitation of thin foil particles, observing optical spectra of Be, carbon and Al atoms and ions

20 p3674 A70-39135

Coronal data comparison based on 5303 Å line intensities and distribution with respect to position angles

20 p3704 A70-39461

Electric fields influence on emission lines shape of multiply charged ions in coronal plasma, discussing kinetic temperature

20 p3704 A70-39462

Spectral lines self rotation effects on plasma temperature and density measurement in MHD duct boundary layer

20 p3678 A70-39632

RF spectral recombination lines from atomic level transitions, discussing populations, H lines, electron temperature, density and emission and formation

20 p3706 A70-39934

Solar search for neutral rhenium lines using low noise, high resolution photometric tracings of Fraunhofer spectrum

20 p3711 A70-40406

Helium-like resonance, intercombination and forbidden transitions of Ca, Si and S lines during 3b solar flare decay

20 p3700 A70-40420

Lorentz lines radiative transfer in nonisothermal gases, developing Landenberg-Reiche analysis for isolated unshifted lines growth curves

21 p3852 A70-40590

Galactic K series emission at 1-10 keV by low energy cosmic rays and diffuse X rays interaction with H I region heavy ions

21 p3877 A70-40704

Tungsten-helium arc atmospheric contaminants spectral monitoring parameters under welding conditions, using rotating circular wedge to oscillate emission lines across exit slits

21 p3831 A70-40725

Hyades giant stars epsilon and gamma Tau strong line profile analysis, obtaining effective temperatures

21 p3885 A70-40931

Nova Vulpeculae 1968 Number 1 medium dispersion spectra, using radial velocity line identification and line profile reductions

21 p3889 A70-41152

Radiation line transfer in Wolf-Rayet envelopes with rapid radial expansion by escape probability method, including radiation effect from stellar core

21 p3892 A70-41248

Color-color diagram of M92, computing synthetic stellar spectra for line absorption effect

21 p3892 A70-41249

Autoionization spectral lines growth curves analysis, applying to 3s-4p transition in Ar at 466 Å with specified absorption cross section

21 p3781 A70-41931

Electronic transitions in B by beam foil technique for spectral lines in 450-5000 Å range, measuring excited levels mean lives

21 p3781 A70-41932

Laboratory measurement and low noise search in W3 OH/ for microwave emission lines in excited rotational level of interstellar OH

21 p3922 A70-41977

Rossland stellar opacity calculation allowing for photon absorption in spectral lines using non-relativistic dipole approximation

21 p3923 A70-42072

Solar equatorial limb brightening of far UV resonance lines of lithium-like N V, O VI, Ne VIII, Mg X and Si XIII ions, interpreting o-s-o data with coronal model

21 p3924 A70-42185

Constricted arc characteristics in air and nitrogen at various pressures, considering spectral lines radiation transfer and electron, atom and ion temperature difference effects

22 p4079 A70-42369

Beta CMa variable star HD 43818 spectral observations, discussing line profiles and radial velocities

22 p4100 A70-42853

Photospheric metallic line profiles numerical experiment, investigating physical processes causing shape and asymmetry change

22 p4101 A70-42866

Scorpius X-1 X ray line emission, discussing continuum and background counts and cosmic abundance of iron

22 p4094 A70-42931

Planetary nebula NGC 7027 IR line spectra emission, examining S IV and AR III line intensities

22 p4094 A70-42933

Stellar evolution, rotation and atmospheric motion, discussing gravity darkening, spectral lines, angular momentum, braking mechanisms and late stars

22 p4102 A70-42970

Forbidden iron emission lines excitation in Seyfert galaxies, discussing various mechanisms

22 p4102 A70-42977

Alpha hydrogen recombination lines 156, 166, 167 and 168 from galactic center, using radio telescope

22 p4103 A70-42980

Electron impact induced transitions in ions with configurations 3p/q responsible for forbidden lines in gaseous nebulae

22 p4105 A70-43234

Ionization rates in auroras detected by atomic oxygen and nitrogen lines

22 p4024 A70-43308

Spectrum generator with step recovery diode multiplier, discussing line spacing, energy and phase coherence

22 p3990 A70-43485

Auroral spectrophotometer measurements from 1968 NASA airborne expedition, discussing oxygen and nitrogen spectral lines

23 p4186 A70-43855

Solar disk 10830 Å He absorption line, attributing depression at blue wing to triplet

23 p4240 A70-43911

Venus carbon dioxide band, deriving rotational temperatures at various phase angles

23 p4241 A70-44257

Absorption line multiple scattering in thick planetary atmosphere, using successive scattering method for single-scattering phase function based on line profile and equivalent width

23 p4222 A70-44550

Stellar abundance determination, considering rapid uniform rotation effects on equivalent spectral line widths

23 p4250 A70-44811

Solar limb emission spectrum between 300-2803 Å, using Skylark rocket instrumentation

24 p4399 A70-45301

Solar center-limb observations of line brightness and Doppler shift fluctuations for Mg b lines

24 p4399 A70-45302

Li doublet in 21 March 1969 sunspot, examining fine structure caused by self reversal in line core

24 p4400 A70-45309

Solar spectrum O I, obtaining high resolution UV line profiles from rocket-borne spectrograms

24 p4410 A70-45766

G8, IV subdwarf 31 Aql spectrum at 4000-6600 Å, discussing Ba II 4554 Å, G and CN bands and spectral lines

24 p4414 A70-46329

LINEAR ACCELERATORS

Energy spectrum of electrons accelerated in linear plasma betatron close to potential compared to cyclic betatron results

13 p2463 A70-29379

LINEAR AMPLIFIERS

Traveling wave maser with increased linear gain obtained by slow wave structure through asymmetrical positioning of dielectric

06 p1082 A70-17778

LINEAR ARRAYS

NT ENDFIRE ARRAYS

NT YAGI ANTENNAS

Linear arrays computerized design with variable element spacing and excitation amplitude

02 p0269 A70-12596

Optimal linear antenna synthesis, determining current distribution resulting in specified radiation pattern for superdirective antennas

08 p1472 A70-20972

Thin linear antennas in plasma analyzed for radiation characteristics by linearized hydrodynamic theory, showing effect of feed points displacement

09 p1643 A70-22207

Linear antenna array synthesis by variational calculus, minimizing sidelobe level for fixed input powers and field strengths

09 p1644 A70-22404

Electromagnetic wave diffraction on array of plane waveguides, determining scattered field by solving infinite system of algebraic equations

09 p1632 A70-22407

Self focusing antennas directive gain losses reduction for wave with jagged phase front impinging on linear array having passed through inhomogeneous atmosphere

09 p1648 A70-23163

Antenna arrays elements mutual coupling effects on pattern and impedance characteristics

10 p1849 A70-24536

Optimum scattering from linear array of half-wave dipoles at bistatic angle, employing coupled impedance loading network

12 p2198 A70-27958

Superdirective small linear antennas computer aided design using Fourier integral and transform techniques

15 p2711 A70-32601

Optimal perturbation signal waveform linearizing nonlinear transfer characteristic of image sensing receptor array

15 p2705 A70-32725

HF electrical communication based on Kelvin transmission line and Maxwell field theories, noting linear arrays

16 p2860 A70-32951

Linear antennas theory using integral equations for current distributions

17 p3044 A70-35058

Linear phased antenna arrays, calculating influence of interaction between radiating elements on radiation pattern

17 p3048 A70-35686

Acoustic/microwave/ holography for large masses by crossed linear array of microphones, discussing computer simulation of virtual holograms and image reconstruction

21 p3822 A70-40715

Two identical parallel arbitrarily located thin asymmetrical dipole antennas, calculating self and mutual admittances

21 p3800 A70-41945

Linear phased arrays computer aided design, discussing search algorithms in multivariable optimization program

23 p4172 A70-44015

Skew arrays of coupled linear antennas, calculating planar and nonplanar configurations mutual admittance vs rotation angle between dipoles

23 p4166 A70-44969

LINEAR CIRCUITS

Automated modeling and structure optimization of linear dynamic systems and circuits, using hybrid computer techniques and time-domain test data

04 p0654 A70-15452

Linear circuit output waveform calculation without first resolving transfer functions on complex frequency plane, applied to current switching circuit analysis

06 p1018 A70-17460

Corrective open-loop circuit, using delay elements for compensation of transient response in linear circuits with lumped parameters for pulse modulation transmissions

06 p1023 A70-17774

Black box modeling of linear integrated circuits for computer analysis in frequency domain

06 p1026 A70-18416

- On-line computer programs allowing for man machine interactions in linear circuits design 06 p1015 A70-18417
- Linear control circuits transfer function analysis, revising Nyquist criterion 07 p1328 A70-20212
- Four-terminal p-n-p-n small signal semiconductor tetrode amplifier operation principle and linear circuit applications 19 p3390 A70-38305
- Linear IC for RF applications including multistage amplifiers, simulating by actual units 22 p3999 A70-42821
- LINEAR EQUATIONS**
- Solution existence of linear unsteady Boltzmann equation for single space variable in Hilbert space defined by scalar product 01 p0143 A70-10673
- Kharlamov conditions for existence of linear and quadratic invariant relationships between equations of motion of body about fixed point 01 p0145 A70-11435
- Observation process optimization in system described by linear differential equations of motion reducible to optimal control problem 01 p0047 A70-11574
- Linear theory of second grade elastic materials for small deformations, discussing special case of couple stress 02 p0387 A70-11995
- Riccati equation role in solving finite dimensional time invariant transport equations based on equivalent coupled linear equations 02 p0324 A70-12667
- Generalized multiple scales method for solving linear differential equations with variable coefficients applied to Liouville-Green approximation 03 p0518 A70-12994
- Linear regression equations to relate atmospheric precipitable water to surface dew point, sky cover and weather 03 p0520 A70-13163
- Optimal strategies for controlled plant guidance into convex space assuming linear differential equations of motion 03 p0459 A70-13339
- Linear functionals over Sobolev spaces and elliptical boundary value problems generated by theorems on homeomorphisms 03 p0519 A70-13505
- Linearized steady state hydrodynamic equations describing solar wind meridional motions used for studying zonal pressure perturbations 03 p0558 A70-13599
- Existence conditions of conjugate points for non-trivial solution of fourth order differential equation 03 p0519 A70-14079
- Distribution of zeros of solutions of canonical fourth order linear differential equations 04 p0713 A70-14675
- Computational methods of homogeneous ill-conditioned and singular simultaneous linear equations 04 p0714 A70-15096
- Least squares iterative method for solving simultaneous linear equations having singular coefficient matrix 04 p0714 A70-15450
- Solutions existence for differential, integral and integrodifferential equations proved by variational imbedding of nonlocal linear Euler-Lagrange operator functioning as automatic adjoint calculator 05 p0881 A70-16060
- Hori canonical equations solved by eliminating short period terms in general planetary theory, noting reduction to systems of linear differential equations 05 p0907 A70-16160
- Mathematical and numerical least squares solution of linear equations, using Householder algorithm [JPL-TR-32-1431] 05 p0876 A70-16311
- Ordinary linear differential equations of high order and normal form with integrable and bounded coefficients in real and complex planes 05 p0876 A70-16561
- Optimally ordered triangular factorization for solving symmetrical systems of linear matrix equations 05 p0876 A70-16573
- Randomly perturbed linear differential equation involving first derivative of n-vector function of real variable 05 p0878 A70-17096
- Right weak solution of Cauchy problem for first order quasi-linear equation 06 p1093 A70-17531
- Linear Boltzmann equation in bounded domain, studying solutions existence, uniqueness and structure 06 p1047 A70-18317
- Kinetic theory treatment of linearized Rayleigh problem using wall boundary condition models 06 p1049 A70-18329
- Optimal control for distributed parameter systems described by biharmonic linear partial differential equation using dynamic programming 07 p1244 A70-18843
- Optimal control of dynamical systems with transport lag determined using differential-integral equations 07 p1245 A70-19094
- Matrix graph concept to unify signal-flow, flow- and N-graph technique approaches to representation and evaluation of matrices and linear algebraic equations 07 p1238 A70-19676
- Error propagation in linear first order difference equations studied to improve accuracy of derivative recursive computation 07 p1328 A70-20249
- Linear differential controller equations for optimal automatic control system with disturbances 08 p1479 A70-20870
- Mixed problems with linear homogeneous boundary conditions with time-independent coefficients for semihyperbolic equations, discussing constraints 08 p1534 A70-21005
- Cauchy-Dirichlet problem for linear inhomogeneous polycaloric /polyparabolic/ equation with constant coefficients under certain boundary conditions 08 p1597 A70-21006
- Stability of solutions to linear differential equations pair, determining bound conditions having S-property 08 p1534 A70-21100
- Linear integral equations solutions using invariant functions 09 p1711 A70-22208
- Optimal control with time delays in system model described by constant coefficient linear differential-difference equations 09 p1653 A70-22346
- Asymptotic splitting of system of linear differential equations with slowly varying coefficients in cases with characteristic equation having multiple roots 09 p1712 A70-23119
- Solvability of linear problems with minimal smoothness constraints and of mixed problems for quasi-linear hyperbolic equations with coefficients and boundary conditions nonlinearities 09 p1712 A70-23120
- Rarefied gas flow past arbitrary three dimensional body using variational principles based on linearized BGK equation, considering constant and adiabatic wall temperature 09 p1605 A70-23178
- Ill conditioned linear two point boundary value problems solved by Riccati transformation avoiding forward integration 10 p1909 A70-24059
- Monte Carlo method research development concerning techniques for variance reduction, linear equations solutions and use of various random sequences 10 p1910 A70-24844
- Triangular system of linear differential equations reducible to block form by Liapunov transformation, deriving indices stability conditions 10 p1911 A70-25303
- Mixed boundary value problem for linear parabolic equations with discontinuous coefficients, proving solution existence and uniqueness by functional method 10 p1911 A70-25304
- Boundary value problem in parallelepiped constructed for linear partial differential equation with constant coefficients using expansions in Riesz bases 10 p1911 A70-25305
- One-step numerical integration of linear differential equations based on Labotto quadrature, including higher order applications and stability analysis 11 p2071 A70-25840
- Nonlinear dynamic theory describing elastic Cosserat curves plane motion, developing linear displacement equations and dynamic stability concept 11 p2142 A70-26632
- Dispersion relations for linearized Grad equations of three dimensional rarefied gas dynamics, including nonequilibrium pressure term for bulk viscosity 12 p2210 A70-27520
- Linear periodic coefficient differential equations stability analysis by infinite determinate method, considering applications to damped mechanical systems motion and dual spin satellite 12 p2261 A70-27813
- Variational principle in electromagnetics to produce linear algebraic equations with Rayleigh-Ritz procedure for application to dielectrically coated slot antenna 12 p2198 A70-27957
- Asymmetric missile nonlinear angular motion, describing quasi-linear relations for frequencies, damping rates and swerving motion amplitude [AIAA PAPER 70-534] 13 p2506 A70-29002
- Discretized linear theory of arbitrary shell forms 13 p2513 A70-29151
- Periodic solutions to linear differential equations with delay, applying numerical-analytical procedure 13 p2441 A70-29315
- Isothermal quasi-linear theory of viscoelastic isotropic continuum, considering constitutive equations 13 p2516 A70-29534
- Variational principles of linear asymmetric elasticity for dynamic problems with initial and boundary conditions, using Laplace transforms 13 p2517 A70-29724
- Computer techniques for rounding error analysis, stability in linear algebra, matrices factorization, Jacobi rotation method and iteration procedures 13 p2443 A70-29768
- Riccati-like linear functional differential equation with quadratic cost, analyzing feedback control solution existence and uniqueness 14 p2600 A70-31204
- Shock and simple wave interactions, using quasi-linear equations for forward facing wave overtaking forward facing shock 14 p2567 A70-31283
- Linear integral equations for radiative transfer between parallel plates, using least squares method 15 p2826 A70-31822
- Unique solvability of mixed semihyperbolic linear equations of higher order with respect to spatial variables and time 15 p2768 A70-32475
- Solutions behavior of nonlinear system of linear Volterra integral equations, discussing applicability of standard fixed point theorems 16 p2943 A70-34000
- Stochastic approximation for identification of distributed parameter system solutions described by linear partial differential equations 17 p1311 A70-35557
- Power series solutions to linear and nonlinear differential equations in region of asymptotic stability 18 p3279 A70-36155
- Plane electromagnetic waves diffraction by periodic structure of infinite system of parallel strips, reducing problem to solution of linear algebraic equations 18 p3227 A70-36287
- Linear differential equation integration method, using Eulerian technique for error reduction 18 p3282 A70-36358
- Boundary value problem approximation method for large numbers, using projective method applicable to linear integral, integrodifferential and differential equations 18 p3282 A70-36360
- Nonrigorous hyperbolic systems, discussing existence and uniqueness theorems contradiction in linear equations and proof of Cauchy problem 19 p3478 A70-37582
- Linear partial differential equations solvability, deriving necessary conditions for pseudo differential operator 19 p3457 A70-37677
- Uniform asymptotic solutions of second order linear differential equations with arbitrarily many turning points or Stokes lines 19 p3457 A70-37681
- Sufficient conditions for local solvability of linear partial differential equations with operator on complex functions 19 p3457 A70-37682
- Linear equations for wave diffraction in rectangular waveguides with step-shaped inhomogeneities 19 p3378 A70-37730
- Nonlinear integral equations formal solution method, noting relationship to Fredholm solutions of linear integral equations 19 p3458 A70-38063
- Linear homogeneous differential equations nonautonomous systems integration techniques, deriving finite forms of solutions 19 p3460 A70-38938
- Boundary value problems for linear ordinary differential equations with singularities, determining eigenvalues by computer oriented method 20 p3659 A70-40134
- Multidimensional linear differential equations with periodic coefficients, proving analog of Floquet-Liapunov theorem 20 p3659 A70-40170
- Dispersion relations for linearized Grad equations of three dimensional rarefied gas dynamics, including nonequilibrium pressure term for bulk viscosity 21 p3807 A70-41168
- Linear differential equation solution associated with FM signal generation, presenting analytical methods for FM and AM components 22 p4063 A70-43209
- Matrix transformations and minimization of computation algorithms for arbitrary linear equations systems, using direct methods 22 p4063 A70-43479
- Minimal deviation estimates for linear approximations by seminorms for space defined by differential equations 23 p4210 A70-44018
- Non-Chebyshevian moments induced by system of linearly independent functions expanding to seminfinite programs 23 p4211 A70-44243
- Linear algebraic system stability and monotony, investigating plane structures by finite element method 23 p4213 A70-44996

German monograph on Hamilton principle and Hermetian polynomials for solving linear and nonlinear differential equations via computer method
24 p4369 A70-45091

Linear elasticity with constraint couples, establishing existence theorems by variational methods
24 p4420 A70-45267

Algorithm for Chebyshev solution of $n+1$ inconsistent linear equations in n unknowns, using minimax technique
24 p4370 A70-46241

LINEAR FILTERS

Bias-free estimation of linear process in recursive filtering, avoiding numerical inaccuracies introduced by computations with vectors and matrices
02 p0273 A70-12730

Sensitivity analysis of discrete filtering and smoothing algorithms, noting in-track motion of circular orbit satellite and marine inertial navigation [AIAA PAPER 68-824]
03 p0459 A70-12913

Phase lock loop circuit for spacecraft communication noise filtration, describing linear study of first-four-order loops
03 p0448 A70-13537

Differential equations for minimum variance linear filter separating signals from additive correlated noise, using discrete time optimum formulas [AIAA PAPER 69-73]
04 p0663 A70-15586

Sequential filter equations for nonlinear system dynamics and observational model with linear estimator, comparing difference between white and colored noise filter results
11 p2024 A70-26126

Kalman-Bucy filtering for estimating initial conditions and smoothing problems in linear dynamic systems, applicable to rectilinear motion of randomly accelerated spacecraft
12 p2186 A70-27905

Book on stochastic processes and filtering theory covering probability theory, Markov processes, linear and nonlinear filters, etc
13 p2442 A70-29575

Adaptive Kalman filtering with unknown process and measurement noise covariance matrices
16 p2880 A70-32983

Optimal linear filter analysis from singular optimal control viewpoint, considering white and correlated measurement noise
16 p2885 A70-33320

Linear sequential Kalman filter for time correlated noise without state augmenting and measurement differencing demanding less computer sizing
16 p2887 A70-33350

Electron spin-echo device as programmable linear matched filter for PN modulated carrier waveforms detection
16 p2864 A70-33480

Optimal Kalman tracking filter performance estimation for manned maneuvering targets
16 p2949 A70-34057

Digital simulation of linear filter, investigating noise and rounding errors effects on decoding signals from lunar and interplanetary probes
17 p3049 A70-34612

Implementation delay error reduction in discrete Kalman filter, noting application to inertial navigation systems analysis
18 p3236 A70-36712

Linear stochastic continuous feedback system with white noise and control input, investigating combined problem of filtering and optimal control
19 p3393 A70-37850

Optimal synthesis of linear active RC filters with controlled source, using feedforward and feedback weighted signals
20 p3596 A70-39163

Real time kalman filtering of Apollo LM/AGS rendezvous radar data [AIAA PAPER 70-957]
20 p3600 A70-39572

Discrete Kalman-Bucy linear filtering with inaccurate noise covariances, considering optimal and sub-optimal systems, error analysis, probability theory, etc [AIAA PAPER 70-955]
20 p3601 A70-39573

Kalman filter sizing for air-launched tactical missile via covariance sensitivity matrix [AIAA PAPER 70-954]
20 p3601 A70-39574

General linear/Kalman/sequential filter to account for finite correlated white noise without state vector augmentation or measurement differentiation
21 p3828 A70-41735

Quasi-linearization relationship with Kalman filtering for nonlinear systems parameter estimation in process noise absence
21 p3845 A70-41749

Transfer function optimization for linear follow-up frequency filter with controlled resonance, analyzing noise band performance
22 p3985 A70-42402

Kalman filters for data mixing in optimally aided inertial navigation systems
22 p4067 A70-42661

Linear FM radar pulse compression matched filter response calculated by computer evaluation of cross

ambiguity function for design tradeoff between resolution and performance
22 p3992 A70-43589

Suboptimum filter for trajectory estimation from parameters, using modified covariance with least squares formulation in Kalman setting
23 p4177 A70-44601

State-space method of parameter tracking for adaptive control, using Riccati equation and Kalman filtering
23 p4177 A70-44675

LINEAR PREDICTION

Linear statistical forecast accuracy and optimal predictor dimensionality based on multiple regression equation
04 p0715 A70-15251

Adaptive linear estimator for stationary time series, evaluating asymptotic mean square error bound
17 p3128 A70-34852

Nonstationary inhomogeneous random vector fields linear prediction, determining minimum mean square approximation error
20 p3604 A70-39911

Iterative linear prediction method for stochastic process with zero mean value and known covariance function
23 p4211 A70-44026

LINEAR PROGRAMMING

Algorithm for L-shaped linear programs in optimal control problems and stochastic programming, outlining cutting hyperplane
01 p0047 A70-11069

Differential correction procedures, using residuals to obtain celestial body orbital elements by linear programming
04 p0751 A70-14943

Finite element discretization and linear programming methods for shakedown theory in perfect elastoplasticity with associated and nonassociated flow laws
05 p0925 A70-15873

Linear and quadratic programming techniques for large scale continuous time optimal control problems with accurate switching times
07 p1325 A70-19268

Duality theorem for complex quadratic programming over polyhedral cones
07 p1238 A70-19356

Stochastic programming models for flight scheduling within airlift system accounting for cargo uncertainties, using convex programming, linear programming codes, etc
08 p1600 A70-20605

Linear programming for aircraft takeoff and landing schedules for traffic control on airport runway, using simplex technique for proposed algorithm
08 p1540 A70-20872

Narrow throat problems of linear dynamic programming concerning maximum linear functional determination in set of vector functions, giving algorithm for solution
10 p1855 A70-24393

Equivalent linear programming in integer variables to solve production scheduling for N identical machines, minimizing changeover and inventory costs
10 p1895 A70-24662

Penalty function algorithm for linear/nonlinear programming optimization problems subject to equality/inequality constraints, discussing feasibility determination capability
13 p2373 A70-29462

Quasi-linear elliptic boundary value problem approximate solution and error bounds, considering linear programming for computation
14 p2599 A70-30646

Soviet book on numerical methods of Chebyshev approximation covering minimax problems, computer methods, linear programming, etc
19 p3456 A70-37232

Two stage turbine engine parts adjustment optimization in terms of fuel consumption or thrust control by linear programming techniques
19 p3489 A70-37241

Fuel optimal orbital transfer trajectories by linear programming
20 p3711 A70-40337

Book on theory of optimal control and mathematical programming covering linear, nonlinear, quadratic programmings, etc
21 p3845 A70-40891

Discrete decision variable models formulated as linear integer programs, deriving shrinking boundary algorithm for optimization
22 p3994 A70-43497

Radio electronic circuits precision, deriving relationship between frequency response and component variations solvable by linear programming
23 p4171 A70-43958

Linear programming problems in optimal control numerical analysis, discussing iterative solution
23 p4177 A70-44303

LINEAR SYSTEMS

Equivalent linear dynamic systems obtained by analog computers for determining equivalence equa-

tions coefficients and by Chebyshev functional to assess discrepancy
01 p0052 A70-10193

Finite difference scheme for linear second order third boundary value problem in ordinary differential equations
01 p0131 A70-10455

Linear physical chains with Sturm-Liouville characteristic polynomials used for natural frequency determination of coupled harmonic oscillators or electrical analog
01 p0142 A70-10520

Terminal state control systems efficiency from determining permissible range of control parameter variation for steady and unsteady linear dynamic systems
01 p0052 A70-10982

Cauchy problem solution asymptotic behavior for linearized system of rotating compressible fluid at time approaching infinity
01 p0064 A70-11031

Mappings of linear vector spaces induced by transformation matrix applied to linear dynamical systems
01 p0132 A70-11125

Random vibration of interconnected systems, analyzing power flow and energy levels in linear oscillator interacting with environments, using Thevenin-Norton representations
01 p0207 A70-11161

Linear system response to random signal inputs, deriving SNR and noise figure equations using autocorrelation and spectral analysis concepts
02 p0257 A70-12193

Optimal linear controller synthesis with allowance for continuous perturbations effect, describing weighting factors selection
02 p0272 A70-12413

Analytical design of optimum linear multivariable control systems with randomly sampled stationary random signals, evaluating matrix complex convolution integral using Laplace transforms
02 p0272 A70-12610

Singular perturbation problem solution asymptotic expansions applied to linearized theory of elasticity equilibrium problem with stress couples
02 p0389 A70-12685

Randomly sampled linear systems stability with linear or nonlinear feedback loops, using stochastic Liapunov function method
02 p0272 A70-12727

Optimal use of adaptive renewal capability determined for first order time varying linear systems with quadratic performance index by exponential model of component failure
02 p0273 A70-12729

Algorithm for fixed time minimum energy discrete optimal control problems of linear plants with convex constraints imposed on terminal state
02 p0273 A70-12731

Optimal servocontrol via nonquadratic performance index and linear plant dynamics obtainable as nonlinear function of error between controllable states and input vector
02 p0273 A70-12732

Mixed anisotropic linear elastic solids stability with internal friction due to mechanical interaction, considering asymptotic motion stability
03 p0586 A70-13116

Detection efficiency compared for system containing clipper circuit and quasi-optimal linear system for video pulse signal with additive noise background
03 p0446 A70-13201

Control problem of linear system with phase coordinate constraints, discussing solution properties, boundary conditions and function minimization procedure
03 p0460 A70-13340

Unsteady linear automatic control systems transient functions determined by approximation method
03 p0460 A70-13732

Linear separation systems for aerospace applications covering mild detonating fuse and cord flexible linear shaped charge, SUPER ZIP concepts, etc
03 p0546 A70-14103

Structure theorem for time invariant multivariable linear systems proof and formulation for use in controller design and synthesis
03 p0461 A70-14166

Linear system theory in abstract algebraic framework applied to nonlinear machines in automata theory, discussing Ho algorithm, convolution and Kalman module theory
03 p0520 A70-14273

Dual type method solving discrete optimal control problems with linear plants, convex cost and constraint taking into account dynamic structure
03 p0461 A70-14274

Optimal control of multidimensional distributed parameters plants described by linear or nonlinear partial differential equations, considering boundary conditions
04 p0660 A70-14551

Topological analysis of lumped mechanical vibration systems using mathematical induction, considering linear graphs properties

04 p0773 A70-15077

Coefficient matrix-structural method for obtaining transfer function of linear automatic control systems

04 p0662 A70-15277

Automated modeling and structure optimization of linear dynamic systems and circuits, using hybrid computer techniques and time-domain test data

04 p0654 A70-15452

Linear regulator optimal for exponentially time-weighted quadratic performance indices, using cost equivalence concept in infinite terminal time solution

04 p0663 A70-15604

Periodic vibrations of quasi-linear autonomous systems with retardation, deriving sufficient conditions for asymptotic stability

05 p0925 A70-15822

State variable diagram for transfer function of single output/input linear stationary system obtained by parallel, direct and iterative methods

05 p0928 A70-16027

Averaging analysis of oscillations attenuation of relaxing one dimensional linear viscoelastic systems under external force at resonance applied to nonlinear multidimensional systems

05 p0933 A70-16208

Random vibrations of linear system with viscous damping excited by stochastically acting force with monotonically varying frequency, using correlation method

05 p0882 A70-16372

Dynamic strength calculation for linear viscoelastic body and elastic-viscous liquid with retardation and relaxation times spectra respectively

05 p0940 A70-16511

Stochastic differential games with constrained state estimators, involving linear system, quadratic cost functional and white Gaussian noises corrupting output measurements

06 p1024 A70-17954

Adaptive control algorithm for parameter adjustment of unknown dynamic characteristics of linear systems

06 p1025 A70-17956

Optimal control generated by Kalman filter and least mean-squared predictor for linear systems with time delay

06 p1025 A70-17959

Optimal feedback controls design for linear systems relative to time-multiplied performance indices

06 p1025 A70-17960

Separation theorem for nonlinear measurements, discrete-time linear systems and quadratic cost to achieve stochastic control without dynamic programming

06 p1026 A70-17967

Linear optimal stochastic control systems described by covariance matrix correlating errors and estimates of state variables, analyzing instability under parameter variations

[AIAA PAPER 70-36] 06 p1095 A70-18054

Identification algorithm for estimating parameters in constant coefficient linear system independent of prior estimates

[AIAA PAPER 70-34] 06 p1015 A70-18164

Hybrid NASAP program module for direct design of linear dynamic circuits using simple optimization without sophisticated computer programming

06 p1015 A70-18422

Loops and paths in Mason signal flow graph of linear systems using algorithm with remote time shared digital computation

07 p1238 A70-18842

Monograph on functional analysis and time optimal control as application of mathematics

07 p1322 A70-18857

Multivariate linear model and robust estimators of parameters based on rank tests

07 p1323 A70-19027

Suboptimal computational algorithm for terminal control of random linear dynamical system, noting increasing optimality with random variations degeneration to deterministic quantities

07 p1324 A70-19091

Optimal control of linear distributed parameter systems using functional analysis

07 p1245 A70-19096

Control system composed of linear and nonlinear components and distributed parameters, deriving stability criterion for simple crucial case

07 p1246 A70-19539

Digital cross correlator design for impulse response determination in linear systems, noting real time operation without software and storage problems

07 p1236 A70-20068

Motion of second order autonomous quasi-linear system with disturbances, obtaining criterion for recognition of random forced and self oscillations

07 p1247 A70-20180

Quasi-stable linear differential equations systems with nearly periodic coefficients, noting application to

equations with zero real portions of matrix characteristic roots

08 p1533 A70-20492

Optimal feedback control synthesis for linear system with time delay through error criterion minimization

08 p1478 A70-20780

Optimal linear control system with multiple controls, determining stability margins with respect to phase, amplitude, oscillation index and cut-off frequency

08 p1480 A70-21015

Optimal synthesis of linear steady multidimensional systems with common output ensuring minimum rms error in reproducing control action

08 p1480 A70-21497

Existence theorem for linear stochastic systems optimal control described by differential equation with random coefficients, providing rms stabilization

08 p1480 A70-21637

Consistent and inconsistent linear inequalities evaluating speed and efficiency of algorithm for pattern recognition problems

08 p1467 A70-21782

Linear one degree of freedom mechanical system loaded by time dependent force with constraints on loading/unloading rate, studying minimum of dynamic coefficient

09 p1727 A70-22536

Linear high order aircraft and missile control systems design using Horowitz frequency response method

09 p1654 A70-22835

Root-locus approximation technique extended for complex plane analysis of equations with quadratic term in variable parameter for linear multivariable feedback systems

10 p1855 A70-24449

Linear control systems design with restricted number of feedbacks based on optimization criteria concerning responses to initial disturbance

10 p1855 A70-24703

Linear time-varying systems transient responses prediction, using Krylov-Bogoliubov method and parameter plane analysis

10 p1855 A70-24704

Equations of motion, modal vectors and natural frequencies of n-degree of freedom structurally damped linear system determined directly from test data

10 p1961 A70-25058

Undamped natural modes intercoupling resulting from arbitrary linear damping addition to linear dynamic system

10 p1962 A70-25061

Final state vector norm minimizing in linear optimal control, using successive approximation and quadratic programming

10 p1856 A70-25188

Scalar measure of system sensitivity to plant parameter variations applied to design of linear lumped stationary multivariable feedback control systems

10 p1856 A70-25233

Optimal stochastic control investigated for linear systems with driving noise intensity proportional to control input

10 p1856 A70-25234

Optimal feedback control obtained for linear time-varying system with time delay, developing numerical method for solving performance differential equations

10 p1856 A70-25235

Necessary and sufficient conditions for absolute stability of nonstationary nonlinear system, showing equivalency to asymptotic instability in small position equilibrium piecewise linear systems

11 p2021 A70-25337

Linear steady and unsteady systems time optimal control switching points determination by introducing parameterization to reduce number of transcendental equations

11 p2021 A70-25339

Digital simulation of complex dynamic systems using homing missile as example, basing algorithm on l transforms for linear systems

11 p2013 A70-25692

Control theory, Volume 1, covering linear, nonlinear, stochastic, optimal, adaptive and learning systems, sensitivity analysis, etc

11 p2023 A70-25771

Decoupling and pole assignments in linear multivariable control systems using geometric method

11 p2072 A70-26160

Time-invariant linear dynamical systems transfer equivalence leading to algorithm for minimal realizations of transfer function matrices

11 p2072 A70-26161

Linear systems optimal control problems with sensitivity considerations for restriction to linear feedback of output variables

11 p2026 A70-26235

Linear time-varying control process with bounded control amplitudes and rates, deriving conditions for recoverability

11 p2028 A70-26314

Linear networks fault detection and isolation using computerized test procedure and symbolic transfer function generation technique

11 p2029 A70-26337

Invariance conditions and state transition matrix of linear systems

11 p2074 A70-26400

Multidegree of freedom linear vibrating system analysis by dividing differential equation method

11 p2139 A70-26414

Maxima increases without limit in damped linear oscillator response to random wideband excitation interpreted by heuristic explanation

11 p2085 A70-26694

Subdivisional method for linear systems vibration and buckling problems, reducing governing equation to ordinary differential equation with variable coefficients

12 p2320 A70-27145

Computational methods for multiinput linear control systems applied to designing lateral and longitudinal autopilots for jet transports subject to gust loads

12 p2203 A70-27417

Iterative algorithm for synthesis of discrete minimum time and amplitude controls for linear systems, noting guaranteed convergence

12 p2204 A70-27667

Linear time dependent stochastic optimal control with nonquadratic performance indices using function space approach

12 p2204 A70-27668

Book on three dimensional problems of linear elasticity of homogeneous and isotropic solids, discussing prismatic bodies, bodies of revolution, notch effect, etc

12 p2326 A70-27669

Optimal linear band limited time invariant data transmission systems, discussing pulse interference tolerance based on eye parameters as quality criteria

12 p2185 A70-27688

Kalman-Bucy filtering for estimating initial conditions and smoothing problems in linear dynamic systems, applicable to rectilinear motion of randomly accelerated spacecraft

12 p2186 A70-27905

Minimax one step and recursive nonlinear predictors for linear discrete time-invariant first order plant driven by unknown bounded forcing function

12 p2204 A70-28069

Space navigation procedures verification considering vehicle trajectory parameters, noting applicability to linear systems with estimable parameters

13 p2447 A70-28412

Soviet book on theory of oscillations of linear and nonlinear time lag systems

13 p2450 A70-28699

Dynamic linear system simplification and order reduction, showing utilization precautions and validity

13 p2381 A70-28938

Book on linear time varying systems analysis and synthesis covering multivariable systems, operational algebra, controllability, observability, canonical structures, minimal realization, etc

13 p2381 A70-28975

State estimation in linear discrete time systems operating in Markov dependent switching environments, using Bayes theorem for filtering

13 p2381 A70-29062

Gain of optimal filter and predictor, using recursive estimation in discrete linear systems

13 p2381 A70-29063

Optimal constant output feedback gains for linear multivariable systems, noting control vector as time invariant function of output vector

13 p2382 A70-29064

Random reversible failures effect on linear automatic control systems precision treated as randomly varying structure, proposing statistical characteristics calculation

13 p2382 A70-29279

Gradient algorithm for sequential identification of features in dynamic linear systems

13 p2383 A70-29582

Linear distributed system with periodic parameters spectral characteristics based on multidimensional Fourier transforms with drift

13 p2383 A70-29718

Optimal policy for linearly distributed parameter control system, describing sufficient conditions

13 p2384 A70-29899

Discrete time systems, deriving algorithm for testing decomposition property as necessary condition for linearity

13 p2375 A70-29939

Linear control systems identification and synthesis from data containing modulus and phase information as frequency functions

14 p2559 A70-30520

SCAMP I DC statistical circuit analysis program for linear and nonlinear circuits, describing program structure

14 p2560 A70-30664

Dynamical optimal control for infinite dimensional linear systems, examining Balakrishnan solution technique

14 p2562 A70-31201

Recoverability for amplitude and rate bounded optimal control of linear time varying systems

14 p2562 A70-31203

Dynamical systems optimal control approximation without solving differential equations, considering linear systems with quadratic cost functional

14 p2562 A70-31411

Automatic optimal discrete time control for linear distributed parameter systems with quadratic cost function

14 p2562 A70-31412

Soviet book on mathematical theory of linear and nonlinear control systems covering differential and difference equations, calculus variations, etc

15 p2715 A70-32200

Multidimensional linear stationary systems controllability and observability with given transfer matrix

15 p2716 A70-32345

Linear stationary systems observability with stochastic inputs for linearly independent row vectors, determining state vector components mean values

15 p2716 A70-32346

Homomorphic filters, discussing nonlinear filters for generalized linear system

15 p2710 A70-32580

Minimal time closed loop controller design for linear systems with bounded control amplitudes and rates using approximate functional expression

16 p2880 A70-32984

Pursuit-evasion differential games involving two linear dynamic systems with state and control dependent thermal noise

16 p2881 A70-32985

Nonlinear systems stabilization with linear system estimator output state to provide feedback for asymptotic stability of overall system

16 p2881 A70-33033

Stable adaptive control design for linear time-invariant system with same number of inputs as outputs, considering disturbance effect

16 p2881 A70-33035

Control strategy for linear system performance based on synthesis of optimal closed loop controller with both sensitivity and state feedback

16 p2882 A70-33042

Time optimal control for linear distributed parameter system using functional analysis with method of deepest descent

16 p2882 A70-33122

Algorithm for implementing learning controller based on subgoal concept applicable to linear stationary system

16 p2868 A70-33312

Desensitized linear servo model following feedback control systems design using specific optimal control concepts

16 p2884 A70-33315

Linear multivariable feedback control systems design method based on transfer matrix, testing decoupling desirability

16 p2884 A70-33318

Suboptimal nonlinear feedback control synthesis for linear time-invariant system with convex cost functional

16 p2886 A70-33334

Linear continuous vibratory system unknown parameters identification from frequency response data

16 p2988 A70-33337

Linear systems approximate minimum energy controller, suggesting algorithm for mathematical model evaluation

16 p2886 A70-33344

Linear systems simultaneous optimal stochastic control and observation strategies, assuming quadratic observation cost

16 p2886 A70-33346

Linear distributed dynamic system simulation using infinite product expansions for transcendental terms in transfer functions

16 p2942 A70-33348

Quasi-linear hyperbolic systems interactions for rarefaction waves, applying Glimm difference method

16 p2943 A70-33782

Linear second order equation systems decoupling transformation, noting applications to structural feedback, flutter and control systems

16 p2943 A70-33891

Linear dynamic systems under nonconservative and harmonic forces, examining stability conditions

16 p2952 A70-33896

Potential stability theory for linear and nonlinear systems trajectory

16 p2943 A70-34042

Free and forced vibrations of linear systems, dissipative systems with nonlinear friction, aeroelastic vibrations, rotor vibrations, mode locking, random vibrations, etc

16 p3004 A70-34277

Linear system under ergodic random processes, determining optimal dynamic characteristics by approximation of spectral density by Laguerre series

16 p2944 A70-34280

Linear and nonlinear systems natural frequency and stability determination, using theorems for degenerate systems

16 p2944 A70-34284

Linear systems with two degrees of freedom modeled as rigid beam on elastic supports, considering vibration damping

16 p2996 A70-34291

Dynamics of continuously operating linear servosystems stimulated by stochastic signals, using vectorial equation and impulse response matrix

16 p2944 A70-34295

Liapunov functions synthesis for aperiodic linear systems by inspecting traces of state matrix and products

17 p3129 A70-34955

Equilibria stability of linear discrete dynamic systems involving elastic, nonconservative, dissipative and gyroscopic forces, using Liapunov-type energy method

17 p3129 A70-34958

Sufficient condition for asymptotic stability of ergodic coefficient linear stochastic systems

17 p3129 A70-34982

Parameter variation effects on iterative identification of linear system by learning method

17 p3130 A70-35299

Second order incompressible elastic torsion problems reduction to two dimensional classical linear elasticity problem without body force

17 p3189 A70-35434

Linear time invariant plant driven by scalar control, deriving second variation algorithm for minimum fuel problems

17 p3057 A70-35555

Identification-adaptive control algorithm for quadratic cost control of discrete linear systems

17 p3057 A70-35558

Thin elastic shells linear theory, examining three dimensional stress distribution and displacement field

17 p3191 A70-35608

Existence and uniqueness of optimal control for one dimensional linear system with distributed control parameter using input-output integral with quadratic functional

17 p3057 A70-35627

Parametric functions of integral matrices representing linear differential system via continuous coefficients

18 p3279 A70-36156

Graphical stability for linear systems in parameter plane with time delay

18 p3235 A70-36479

Linear control systems stability range with delay time examined by digital computer, discussing critical loop gain

18 p3235 A70-36501

Discrete automatic control theories, including linear, nonlinear, feedback, optimal and adaptive systems and bibliographies

18 p3235 A70-36626

Linear continuous feedback control system with dead time compensated by proportional plus integral controller, considering stability region variations

18 p3236 A70-36943

Linear feedback control system with dead time compensated by proportional integral derivative action controller, evaluating stability by digital computer

18 p3236 A70-36944

Spiral structure gravitational theory, discussing separation between linear and nonlinear effects

18 p3330 A70-37189

Soviet book on vibrations in flight vehicle engines covering linear and nonlinear systems, computer methods, etc

18 p3305 A70-37229

Algorithm for dynamic processes in unsteady linear automatic control system during finite time interval

19 p3470 A70-37256

Soviet book on statistical calculation methods for linear and nonlinear automatic aircraft control systems design, using correlation theory of stochastic processes

19 p3463 A70-37403

Linear stochastic continuous feedback system with white noise and control input, investigating combined problem of filtering and optimal control

19 p3393 A70-37850

Linear time varying systems optimal control through decoupling of boundary value problems

19 p3393 A70-37866

Simultaneous generation of sensitivity functions for linear automatic control system with known characteristic differential equation

19 p3394 A70-37867

Random vibration first threshold crossing probability density function for linear oscillator

19 p3427 A70-38038

Optimal control of processes with lags, including linear analytical regulator problem

19 p3395 A70-38718

Kalman filter set for state vector and observation error variance estimation in discrete time linear system, using empirical Bayes techniques

[AIAA PAPER 70-1058] 19 p3395 A70-38873

Dirichlet problem for elliptic linear system of partial differential equations with constant first order coefficients

20 p3657 A70-39120

Book on optimal control covering optimization, estimation, dynamic and linear control systems, programming, probability and random processes, environmental influence, etc

20 p3600 A70-39124

Variational principles in linear quasi-static theory of inhomogeneous and isotropic viscoelastic solids with microstructure

20 p3718 A70-39229

Anisotropic elastic solids linear dynamic theory, discussing uniqueness theorem, reciprocal identity and far elastodynamic field quiescence

20 p3718 A70-39231

Linear time-invariant system dependent on small parameter epsilon, deriving conditions for bounded-input bounded-state stability

20 p3657 A70-39395

Thor launch vehicles steering filters design using automated method of optimizing large order linear stochastic systems control

20 p3600 A70-39543

Sensitivity optimization for linear optimal control systems design, describing aircraft lateral-directional control case study

20 p3600 A70-39567

Recursive formulas for stability tests and quadratic loss functions evaluation for linear discrete time dynamical systems

20 p3659 A70-40114

Linear feedback control system with quadratic penalty function, deriving lower bound on optimal performance for suboptimality evaluation

20 p3604 A70-40116

Linear multivariable feedback control system, deriving conditions for existence of triangular decoupling transfer function matrices

20 p3605 A70-40118

Optimal terminal control stochastic synthesis for linear systems by Bellman second order nonlinear partial differential equation

21 p3801 A70-40607

Identification adaptive quadratic cost linear system control by mean and covariance correction algorithm

21 p3801 A70-40741

First order linear distributed systems with two point boundary values, obtaining eigenfunction expansion by generalized Fourier method

21 p3846 A70-41949

Structures of linear field theories concerning constitutive equations and operators dual relationship

21 p3851 A70-42098

Noise effect on signal parameter control in linear measurement devices

22 p3984 A70-42394

Dynamical linear thermoelasticity theorem generalization with time dependent conductivities, elasticities and density

22 p4112 A70-42483

Linear dynamic systems stability under various types of forces

22 p4061 A70-42536

Linear elasticity problem approximation by elastic energy expression modification, deriving upper bounds for errors

22 p4113 A70-42537

Linear discrete feedback systems uniqueness, existence and stability under various input-output conditions

22 p4004 A70-43024

Linear distributed parameter systems state estimation from noisy measurements, developing sequential algorithms for prediction, filtering and smoothing

22 p4063 A70-43026

Linear elastomechanical systems natural vibration parameters by harmonic excitation method

22 p4116 A70-43200

Linear control plant identification by solving integral equation obtained from input and output signals

22 p4005 A70-43565

Linear systems with phase coordinates bounded by given time functions, obtaining optimal control by iterative solution involving Lagrange multipliers

23 p4177 A70-44302

Decoupling and pole assignment in linear multivariable control systems, minimizing dynamic compensation

23 p4213 A70-44904

Nonlinear filtering for linear parabolic distributed parameter systems with white noise, considering stochastic boundary value problem

23 p4177 A70-44905

Lightly damped second order linear system mean square response to nonstationary random load excitation

24 p4421 A70-45280

Harmonic oscillations recurrence in linear systems with lumped and distributed parameters, obtaining amplitudes by least squares estimator

24 p4379 A70-45483

Maximum-likelihood decoding in analog form of linear convolutional codes with respect to constraint length by one-step threshold method
24 p4313 A70-46059

Cyclic q-ary codes invariant under linear group substitutions using polynomial method
24 p4313 A70-46062

Necessary and sufficient conditions on coefficients of real nonnegative polynomial π/ω , obtaining algebraic criterion for stability, optimality and passivity of dynamic linear systems
24 p4322 A70-46156

Linear stationary systems rms stability under parametric disturbances by white noise random processes
24 p4427 A70-46379

LINEAR TRANSFORMATIONS

Linear transformation for random-data vector z reduction to smaller dimension vector
04 p0714 A70-15066

Linear transformation of waves in nonuniform magnetoactive plasma by solving wave equation with/without allowance for spatial dispersion
06 p1119 A70-17498

Book on mathematical theory of electromagnetic waves covering vector analysis, reduced wave equation, linear transformations, boundary value problems and radiation patterns
08 p1533 A70-20759

LINEAR VIBRATION

Rectilinear vibration attenuation problem on shop setup, describing adjustable passive and active electromagnetic dampers
14 p2656 A70-30299

Linear, nonlinear and random vibrations - Conference, Poznan, Poland, April 1968
16 p2994 A70-34276

Linear damping theory, discussing simple harmonic motion model extension to transient motion
19 p3472 A70-38041

Harmonically oscillating wing linearized motion in subsonic flow, calculating generalized aerodynamic forces
22 p4105 A70-43118

LINEARITY

Pulsars linear polarization Stokes parameters measured, noting PSR 2045-16 radiation beamed into hollow cone centered on magnetic pole
13 p2487 A70-28631

Microwave radiometric receiver, analyzing video detector saturation effects on linearity
16 p2880 A70-34075

LINEARIZATION

Optimal nonlinear filtering for nonlinear dynamic system subjected to additive white Gaussian noise with corrupted observations, using successive linearization scheme
03 p0461 A70-14340

Boundary layer equations of motion linearized with self similar profiles
04 p0665 A70-14482

Linearized velocity profiles for turbulent free shear layers using transverse shift and longitudinal motion equation
[ASME PAPER 69-WA/APM-28]

04 p0668 A70-14904

Monitor for linearizing nonlinear characteristics of thermistors used for temperature sensors in Apollo Telescope Mount, optimizing circuit values with FORTRAN IV computer program
05 p0851 A70-16692

Nonlinear system theory for optimal linearization in holography, discussing generalized method for photographic emulsion and first order amplitude transmittance
06 p1072 A70-18521

Approximate linearization of nonlinear automatic control systems with two frequency forced oscillations
07 p1243 A70-18687

Quasi-linearization technique in computer program for aircraft parameters identification featuring efficient search for optimal parameters in algebraic or differential equations
08 p1465 A70-20784

Nonlinear transport equations linearization by hodograph and inversion techniques
08 p1597 A70-21125

Proportional navigation law three dimensional vectorial equation analyzed in kinematic conditions, discussing perturbation effects on linearized trajectory
09 p1720 A70-22420

Statistical linearization technique for nonlinear control systems with feedback and zero memory under random input excitation evaluated for output signal characteristics
09 p1654 A70-22960

Quasi-linearization extension to numerical solution of multipoint boundary value problems for ordinary differential equations arising from state constrained optimal control problems
10 p1909 A70-24421

Linearization of elastic forces in vibration system with percussion
10 p1958 A70-24516

Periodic solution existence theorem using harmonic linearization method
11 p2023 A70-25725

Axisymmetric or two dimensional incompressible laminar boundary layer flow field numerical analysis using quasi-linearization and Chebyshev series
11 p2072 A70-25965

Equivalent linearization for random vibration, considering stationary statistics of bilinear hysteretic one degree of freedom oscillator response
14 p2661 A70-31428

Cylindrical shells upper critical loads calculation based on linearization of nonlinear shell theory equations
15 p2818 A70-32181

Linearization error bound analysis in solution of equations of motion of reentry vehicle
16 p2974 A70-33319

Quasi-linearization for VTOL aircraft equations of motion, using spline functions for unknown parameters initial estimation
16 p2942 A70-33328

Nonlinear systems excitation by two harmonic forces, analyzing vibration by linearization of differential equation of motion
16 p2995 A70-34286

Stochastic linearization approximation to solve nonlinear dynamical systems filtering problems in Markovian framework
17 p3056 A70-34953

Quasi-linearization /generalized Newton-Raphson process/ in orbit determination, comparing with differential correction method
17 p3168 A70-35235

Linear representations of symmetry groups and use in discrete automatic control systems
18 p3290 A70-36070

Shallow spherical shell dynamics nonlinear problems solution with algorithm permitting use of straight lines method
18 p3341 A70-36590

Conducting gas channel and jet flow in electric and magnetic fields, using linearizing equations of motion under assumption of small magnetic Reynolds number
19 p3479 A70-37598

Quasi-linearization relationship with Kalman filtering for nonlinear systems parameter estimation in process noise absence
21 p3845 A70-41749

Soviet papers on harmonic linearization method in design of nonlinear automatic control systems
22 p3999 A70-42826

Harmonic linearization method for nonlinear automatic control systems, describing theoretical fundamentals
22 p4000 A70-42827

Harmonic linearization of nonlinear hysteretic elements in automatic control systems
22 p4000 A70-42828

Harmonic linearization method for periodic regimes in nonlinear control systems based on periodic solution sensitivity to higher harmonics and small parameters
22 p4000 A70-42829

Harmonic linearization equations for frequency and amplitude of self oscillations in nonlinear automatic control systems
22 p4001 A70-42832

Harmonic linearization method for periodic regimes in discrete nonlinear automatic control systems performing signal quantization with respect to level or time
22 p4001 A70-42833

Harmonic linearization for nonsearching self adaptive automatic control systems described by nonlinear differential equations
22 p4001 A70-42835

Harmonic linearization method for nonlinear automatic control systems with finite automata, discussing self oscillating modes of operation
22 p4001 A70-42836

Harmonic linearization method application to automatic phase control system with periodic nonlinearities
22 p4002 A70-42840

Harmonic linearization method for automatic control systems having hydraulic or pneumatic actuating device with two nonlinear elements
22 p4002 A70-42841

Nonlinear unsteady thermal conductivity problems linearization based on temperature substitution by integral analogs
22 p4125 A70-43370

Brittle fracture stress statistics for Weibull distribution function parameter determination, comparing linearizing, least squares curve fitting and maximum likelihood techniques
22 p4117 A70-43414

Computer program for nonlinear differential equations related to nonlinear boundary value problems

based on Newtonian iteration process difference analog of linearization method
23 p4212 A70-44338

Monochromator design for UV and visible wavenumbers linear output, noting application to absorption coefficient measurement
24 p4336 A70-45669

LINERS

U LININGS

LINE (GEOMETRY)

Horizontal-vertical illusion and foreshortening of receding horizontal lines during visual observations
02 p0249 A70-12839

Hidden-line determination for computer-drawn polyhedra using edge classification scheme for CRT display applications
09 p1641 A70-22966

Linear and nonlinear parabolic boundary value problems with first boundary conditions solved by method of lines, estimating error
12 p2262 A70-28031

Line tilting aftereffects on central and peripheral vision following spatial coincidence of inspection and test contours
21 p3767 A70-40752

LINE OF FORCE

Magnetic lines of force penetration into magnetosphere accompanied by plasma insertion generating ring current responsible for main phase of magnetic storm
01 p0083 A70-11543

Geomagnetic field directed hydromagnetic waves propagation in lower ionosphere noting inhomogeneous conductivity, Hall effect and lines of force role
01 p0083 A70-11546

Magnetic fields neutral lines length as indicator of solar flare productivity
03 p0561 A70-14001

Geomagnetic field lines inclination effect on hydromagnetic waves propagation in lower ionosphere, using atmospheric model in plane form with integral conductivity tensor
04 p0683 A70-15737

VLF and ULF whistler modes propagating along geomagnetic field-line paths in magnetosphere, studying cyclotron resonance amplification
06 p1118 A70-17379

Geomagnetic field lines coordinates calculation based on coefficients obtained in spherical harmonic analysis
07 p1278 A70-20460

Inhomogeneous elastic half space surface response to moving line loads
08 p1584 A70-20645

Model for magnetic field-line reconnection in conducting incompressible fluid, determining maximum reconnection rate entirely by null point conditions
08 p1553 A70-21615

Hydrogen ion flux detected along earth magnetic force lines in Northern Hemisphere midlatitudes, determining flux magnitude
10 p1874 A70-24321

Mapping electric field components perpendicular to magnetic field line in ionosphere at equatorial plane, discussing discrepancy with convection patterns
10 p1875 A70-24437

Lines of influence of bending moments and cutting force for straight beam using differential equation integration
10 p1959 A70-24777

Ion temperature gradient along magnetic field lines in outer plasmasphere by thermal diffusion equations compared with electron temperature observations
11 p2047 A70-26568

Geomagnetic tail formation, cross section and length and auroral irradiation, discussing observations, models, vacuum magnetic merging and field aligned currents processes
13 p2402 A70-30060

Geomagnetic tail structure and shape from Explorer 33 and Pioneer 8 observation data, examining field lines divergence with distance from earth
13 p2402 A70-30075

Magnetosphere boundary altitude dependence on longitude, considering role of electric current density along geomagnetic lines of force
14 p2570 A70-30217

Geomagnetic field lines inclination effect on hydrodynamic waves propagation in lower ionosphere, using atmospheric model in plane form with integral conductivity tensor
14 p2575 A70-30821

Rod antenna radiation representation by instantaneous pictures of electric field lines, considering wave detachment mechanism
17 p3050 A70-34575

Magnetic field lines reconnection in steady incompressible hydromagnetic two dimensional flow, formulating governing equations with cylindrical polar coordinates
17 p3140 A70-34926

Solstitial solar quiet currents along magnetic lines of force in magnetosphere, discussing ionospheric wind asymmetry effects
17 p3077 A70-34949

Tau-decomposition stability analysis method applied to two degrees of freedom system subjected to retarded follower forces

17 p3176 A70-34957

Equilibria stability of linear discrete dynamic systems involving elastic, nonconservative, dissipative and gyroscopic forces, using Liapunov-type energy method

17 p3129 A70-34958

Syrovatskii mechanism of high energy particle production near neutral line of magnetic field, noting solar flares occurrence conditions

19 p3478 A70-37581

Pc-1 pulsation production by Cerenkov emission of proton beam oscillating along magnetic field line

19 p3417 A70-38590

Thermal plasma model along magnetic field lines outside plasmasphere with sharp density gradient in equatorial plane, using OGO-4 ion composition measurements

21 p3815 A70-41057

Deuterium plasma three dimensional flow in coaxial accelerators, examining magnetic structure of filaments (field lines bundles)

21 p3856 A70-41321

Geomagnetic perturbation effects on conduction along field lines and short period fluctuations associated with plasma turbulence in magnetosphere

23 p4189 A70-44065

Magnetosphere boundary altitude dependence on longitude, considering role of electric current density along geomagnetic lines of force

24 p4331 A70-46292

LING-TEMCO-VOUGHT AIRCRAFT

NT A-7 AIRCRAFT

NT F-8 AIRCRAFT

LING-TEMCO-VOUGHT MILITARY AIRCRAFT

U MILITARY AIRCRAFT

LINGUISTICS

NT MACHINE TRANSLATION

NT SENTENCES

NT WORDS [LANGUAGE]

Natural language a priori description and linguistic algorithms construction, using statistical phrase contraction with Hoffman codes

22 p3993 A70-42492

LINING PROCESSES

Rocket motor combustion chamber lining thickness distribution matching to effusor by designing effusor as multiple nozzle made of circular graphite plate

15 p2790 A70-32271

LININGS

NT ROCKET LININGS

Metal lined glass filament-wound pressure vessel performance at cryogenic temperatures, discussing fibers, resins and liners

06 p1091 A70-17615

Elastomeric liner material for missile launch system design, developing bowed-knotted strut for compression-deflection characteristics

13 p2513 A70-29256

Missile tube liner design with cast polyurethane elastomers, discussing effect of polymer composition and processing on physical properties

13 p2439 A70-29257

Acoustic lining technology and materials for turbofan engine ducts, considering environmental factors and noise spectra

22 p4089 A70-42530

Structural and environmental design criteria for acoustical duct-lining materials in turbofan noise suppression

22 p4089 A70-42531

Duct lining parameters effects on engine inlet and fan discharge noise reduction during fan jet landing

22 p4090 A70-42532

Acoustically treated inlet and fan exhaust duct configurations for JT3D turbofan engine on DC 8 aircraft

22 p4090 A70-42533

LINKAGES

Direct links existence between rabbit temporal cortex neurons and neurons in each division of hippocampus, discussing topographic arrangement and axons quantity

03 p0417 A70-13071

LILOUVILLE EQUATIONS

Final motions of Hamiltonian conservative systems, analyzing Liouville type, homogeneous and similar systems

01 p0146 A70-11561

Local uniqueness and instability theorem for Einstein-Liouville equations using energy inequalities, noting relevance to Cauchy problem

11 p2084 A70-26458

Turbulence theory from Liouville equation for Navier-Stokes velocity field distribution

17 p3073 A70-35629

Kinetic equation for rarefied polyatomic gases derived from Liouville equation

17 p3138 A70-35728

LIPID METABOLISM

Phospholipid metabolism intensity in brains of adrenalectomized and pseudo operated rats under hypoxia

01 p0012 A70-10054

Lipid and carbohydrate behavioral abnormalities in patients with angiographically documented coronary artery disease observed by glucose tolerance tests

01 p0016 A70-10441

LIPIDS

Lung lipid embolization effect in decompression sickness on obese mice, showing no relationship to dysbaric syndrome

01 p0015 A70-10361

Platelet and lipid changes in thrombocytopenic and control rats subjected to bends producing technique in aeroembolism

01 p0015 A70-10364

Gas chromatography study of fatty acids and polar lipids of thermophilic filamentous bacterial masses from hot Yellowstone Park springs

01 p0021 A70-10791

Graft copolymerization and chemiluminescence analysis of lipids complexes in animal and plant tissue homogenates exposed to gamma radiation

03 p0419 A70-13305

Free radical antioxidation reactions in lipids from blood, liver, spleen, brain and intestines of rats exposed to ionizing radiation

03 p0419 A70-13309

Interactions between nutrition, blood coagulation and atherosclerosis by Duguid theory, emphasizing fibrinolysis, thrombosis and alimentary lipids

03 p0431 A70-14280

Plasma lipids and lipoprotein changes following myocardial infarction, discussing rise and normal return times of free fatty acids, cholesterol and beta lipoproteins

04 p0636 A70-15464

Fat embolism and decompression sickness similarities, studying lipid stability changes resulting from liver tissue injury by nitrogen bubbles

07 p1222 A70-19936

Hydration and lipid-protein ionic interaction in stearic acid monolayers during conformation of poly-L-lysine films

19 p3373 A70-37840

LIPOPROTEINS

Plasma lipids and lipoprotein changes following myocardial infarction, discussing rise and normal return times of free fatty acids, cholesterol and beta lipoproteins

04 p0636 A70-15464

Surface active lipoproteins of lung, discussing quantitative determination and labeling on basis of per-bronchial wash-out procedure over trachea

15 p2680 A70-31725

Lipoprotein lipase activation on emulsified triglycerides by specific glycopeptides of human serum lipoproteins

24 p4298 A70-45802

LIPSCHITZ CONDITION

Elastic-plastic torsion of convex cylindrical bars

06 p1165 A70-17534

Nonlinear equations boundary value problem solution by Galerkin method in integrodifferential equations form, determining Lipschitz conditions constant and proving existence and uniqueness

13 p2442 A70-29513

LIQUEFACTION

Nonisothermal condensation in ionized vapor as function of energy additions to droplets

20 p3680 A70-39989

LIQUEFIED GASES

NT LIQUID AMMONIA

NT LIQUID HELIUM

NT LIQUID HYDROGEN

NT LIQUID NITROGEN

NT LIQUID OXYGEN

Temperature limit of efficiency threshold for ground based liquid propane sprayer for supercooled fog dispersal at Orly airport

02 p0324 A70-11872

Liquefied natural gas or liquefied methane as burning propulsion system for SST, examining storage volume, fuel-tank insulation and implosion danger

03 p0543 A70-12998

Specific heat, thermal pressure and molar volume of liquid krypton measured with adiabatic calorimeter, discussing thermal expansion coefficients

14 p2617 A70-31016

LPG use in fuel cells, discussing efficiency, weight and size

18 p3216 A70-36657

LIQUID AMMONIA

Ammonia micropropulsion operation modes and performance for stabilizing synchronous communication satellite, noting advantages over chemical and ion propulsions

11 p2122 A70-25817

Zero gravity liquid ammonia propellant feed system, describing regulator/capillary tube assembly for propellant delivery pressure control

[AIAA PAPER 70-1151] 20 p3690 A70-40204

LIQUID ATOMIZATION

Rocket engines gas/liquid injectors atomization characteristics using molten wax technique, considering drop sizes and gas streams velocity, density and pressure

01 p0161 A70-10326

Ultrasonic atomizer system for liquid fuels combustion

02 p0356 A70-12470

Liquid sheet and jet breakup in supersonic gas stream, characterizing breakup mechanism by gross jet fracture

[AIAA PAPER 70-89] 06 p1039 A70-18109

LIQUID COOLED REACTORS

NT HEAVY WATER REACTORS

NT NRX REACTORS

NT PLUM BROOK REACTOR

Rankine cycle technology concerning high temperature, refractory alloy and liquid metal experience, showing applicability to nuclear Brayton and thermionic power systems

02 p0229 A70-12513

High temperature liquid metal cooled nuclear reactor for military aircraft with long flight endurance and range

22 p4071 A70-43188

LIQUID COOLING

NT FILM COOLING

Contactless asynchronous flowmeter for measuring liquid metal coolant small flow rates, describing design and characteristics

03 p0483 A70-13211

Stable two phase water flow system for transpiration cooling in thermal protection of SST noise suppressor situated in afterburning engine exhaust gas stream

[AIAA PAPER 70-151] 06 p1181 A70-18146

Projection CRT with liquid-cooled phosphor faceplate, showing linear relationship between brightness and beam current

09 p1673 A70-22034

Water cooled space suits automatic control based on physiological changes in astronaut during hard work

09 p1627 A70-23458

Temperature limitation on CRT tube performance in high brightness displays imposed by glass breakage danger, discussing liquid cooling of phosphor substrate

09 p1686 A70-23759

Water cooled metallic diaphragm thermal stability effect on plasmatron electric arc characteristics stabilized by vortex air flow

11 p2093 A70-26736

Al radiator with thin stainless steel tube liner using liquid metal coolant tested for heat rejection system of SNAP-8 Rankine cycle power system

[AIAA PAPER 70-855] 16 p3000 A70-33922

Solar simulators using water cooled 30 kw Xe arc lamps

17 p3060 A70-35248

Ar ion laser gas discharge tube construction, using anodically oxidized directly cooled aluminum segments

19 p3444 A70-37567

Cryogenic pipelines cooldown to operating temperature, calculating cryogen flow rate limits due to thermal stresses in steel and Al flanges

23 p4280 A70-44368

High speed internal combustion engine mixed flow type liquid cooling system, deriving dynamic thermal characteristics from differential equations solution

24 p4393 A70-45502

LIQUID CRYSTALS

Optical reconstruction of microwave holograms recorded by liquid crystal detectors, emphasizing dependence on IR heat bias provided by incandescent bulb

01 p0086 A70-10421

Electric field effects on dielectric properties and molecular arrangements of cholesteric liquid crystals with temperature dependent helical pitch

01 p0160 A70-11352

Honeycomb structure fracture initiation flaw detection method using liquid crystal determination of stress concentration sites, noting absence of external heat source

03 p0515 A70-13121

Optical rotatory power measurement for compensated cholesteric liquid crystal helical structure to observe thermally induced inversion and electric field perturbations

03 p0542 A70-14003

Aircraft visual flight control displays development, considering liquid crystals in alpha numeric data output devices and holograms for three dimensional structures reproduction

05 p0853 A70-17090

Cholesteryl chloride-cholesteryl myristate /CM/ mixture liquid crystal molecular and helical axes orientation from dielectric constant change measurements in magnetic fields

06 p1126 A70-17326

Combining color response in cholesteric liquid crystals generated by trace contaminants applicable to detection of vapors trace amounts

07 p1222 A70-19930

Molecular dipole moments-electric field interaction induction of cholesteric liquid crystal transition to nematic phase

07 p1225 A70-20053

Collection of patent papers on liquid crystals applications including radiation detection, polarizing, thermal imaging, etc

08 p1556 A70-21346

Liquid crystals biaxial smectic C phases tilt and optic axial angles determined from convergent light observations

09 p1738 A70-22271

Room temperature cholesteric liquid crystals retention of information on past electric field excitation by changes in optical transmission properties

09 p1740 A70-22924

Calibration of shear sensitive cholesteric liquid crystals film, measuring shearing forces and scattering light intensity

09 p1656 A70-22992

Liquid crystal of cholesteryl chloride and myristate measured for complex dielectric constant, noting role of molecular rotation modes in dipole relaxation

12 p2180 A70-26859

Acoustographic imaging system (AGIS) using liquid crystal detection screen to provide color display of ultrasonic wave information

12 p2235 A70-27724

Electron paramagnetic resonance of viscous nematic liquid crystal, investigating order as function of temperature

16 p2960 A70-33058

Encapsulated liquid crystal screens for IR laser beam imaging detectors with high thermal sensitivity and real time viewing in bright light

16 p2927 A70-33167

Light modulation electro-optical device with liquid crystals, determining liquid nematic stability

16 p2907 A70-33181

Cutaneous liquid crystal temperature sensors for thermographic patterns of angina pectoris induced by treadmill exercise

19 p3364 A70-38361

Liquid crystal smectic C phase temperature dependent tilt angle, using conoscopic observation and circularly polarized light

21 p3862 A70-41322

Liquid crystals orientational ordering molecular field theory examined by cluster variation method, predicting first order transition

22 p4085 A70-42485

Liquid crystals as solid state organic material with physical properties of liquid, discussing electro-optical properties and applications

22 p4085 A70-42724

LIQUID DROPS

U DROPS (LIQUIDS)

LIQUID DYNAMICS

U FLUID DYNAMICS

U LIQUID FLOW

LIQUID FILLED SHELLS

Pressure waves in accelerated sphere filled with compressible liquid, using convolution integral for pressure distribution on inner surface

01 p0067 A70-11186

Body motions containing cavity filled with viscous fluid under influence of gravity, formulating motion equations for fluid and body

01 p0068 A70-11576

Liquid heating in thin walled porous shells under various boundary conditions, deriving formulas for temperature fields

03 p0604 A70-13208

Natural oscillation frequencies of partially liquid-filled cylindrical shells determined by resonance method

03 p0592 A70-13444

Perturbed motion of solid body with cylindrical cavity partially filled with viscous fluid, using Rabinovich equations

04 p0766 A70-14476

Soviet book on boundary value problems involving motion of ideal fluids in unsteady cavities of various geometries, determining attached fluid masses and oscillation frequencies

04 p0666 A70-14678

Hydrodynamic coefficients of algebraic equations for boundary value problems in disturbed motion of body with rib-reinforced liquid filled cavity

05 p0836 A70-16956

Liquid filled dampers for nutation damping of spacecraft with momentum wheel for attitude stabilization

06 p1154 A70-17163

Dynamic instability of motion of rigid and elastic bodies with liquid filled cavities associated with practical problems of rocket technology

06 p1107 A70-18415

Container fluid viscosity effect on container-obstacle interaction solved in Fourier series form

07 p1252 A70-18676

Frequency equation for harmonic waves propagating in fluid filled circular cylindrical cavity in infinite isotropic solid medium

07 p1253 A70-18846

Human head model for craniocerebral trauma analysis, studying fluid filled spherical shell free vibrations axisymmetric response

07 p1219 A70-19243

Equilibrium of torque-free cylindrical shell vertically positioned and partly filled with liquid, obtaining solution for biaxial stress

07 p1415 A70-20192

Dynamic calculation of oscillating liquid filled elastic cavity on elastic kinematic system under random load, using random signals transmission theory

07 p1416 A70-20194

Soviet book on free, forced and parametric vibrations of thin walled shells containing liquid, gas and continuous elastic medium

08 p1584 A70-20762

Ideal fluid in lightly filled spherical vessel under gravitational force investigated for surface tension effect on vibration frequencies

08 p1482 A70-20853

Elastic body with incompressible fluid filled cavities, studying motion and stability by deriving motion equations starting from principle of least action

08 p1544 A70-20951

Motion of body with cavity completely filled with viscous fluid about center of mass in potential mass-force field, applying small parameter method

08 p1546 A70-21630

Oscillations of highly viscous incompressible fluid in partially filled cavity of body moving about fixed point, solving Navier-Stokes equations by asymptotic method

08 p1485 A70-21632

Nonlinear equations for large fluid oscillations in axisymmetric rotating cavities with radial partitions

09 p1660 A70-22438

Liquid motion dynamic effects in open cylindrical and conical tanks with translational motion

09 p1662 A70-23293

Forced inertial oscillations in rotating processing fluid-filled circular cylinder

09 p1664 A70-23682

Optimization in epiphydrostatics and epiphydrodynamics, discussing liquid in rectangular tank, electro-magneto-epiphydrodynamics and thermal instability

10 p1866 A70-24108

Swirl velocity and cavity stability in rotating container filled radially through porous cylindrical wall at constant and applied pressure

10 p1868 A70-24195

Two dimensional irrotational incompressible fluid motion bounded by flexible stretched and unstretched film, noting hydrodynamic shock for closed film

12 p2213 A70-28238

Motion stability of variable mass solid body with ideal liquid filled cavities about stationary point using Liapunov theorem

13 p2452 A70-29310

Unstable Ekman boundary layer vortex structure analysis by generating similar flow in liquid filled rotating cylinder

14 p2604 A70-30545

Cylindrical propellant tanks dynamic stability and parametric resonance, analyzing axial preload, liquid depth top impedance and ullage pressure by Donnell theory

14 p2657 A70-30764

Elastohydrodynamic monochromatic wave coupling in liquid filled container as model for Alfvén and magnetoacoustic waves transmission in plasma

14 p2625 A70-31356

Container fluid viscosity effect on container-obstacle interaction solved in Fourier series form

15 p2719 A70-31468

Perturbed motion of body with partially filled cylindrical cavity with damping ribs, discussing vibrations boundary value problems of liquid filling

15 p2775 A70-32157

Oscillations of rigidly clamped elastic liquid filled hemispherical shell with gas bubble

18 p3242 A70-36583

Elastic body with incompressible fluid filled cavities, studying motion and stability by deriving motion equations starting from principle of least action

20 p3672 A70-39376

Liquid fuel behavior in right circular cylindrical tank inclined to earth gravitational field, computing fundamental sloshing frequency

20 p3610 A70-39694

Thin walled circular cylindrical steel shells dynamic stability partly filled with liquid and subjected to longitudinal excitation

20 p3723 A70-39852

Perturbed motion linear equations of body rigidly coupled to thin walled elastic shell partially filled with heavy compressible fluid

21 p3806 A70-40602

Sufficient conditions for confined fluids stability, defining critical and modified Rayleigh numbers

21 p3810 A70-41952

Fluid filled elastic spherical shell, calculating free vibration axisymmetric response and fundamental mode

21 p3940 A70-42053

Transient elastic vibrations of air and liquid filled cylindrical shells under radial impact, using shadow-optical cinematography

22 p4031 A70-43030

Flutter of elastic current-carrying shell containing incompressible inviscid nonconducting fluid flow

22 p4117 A70-43383

Artificial liquid satellite orbited to verify tidal theory

23 p4183 A70-44659

Potential liquid flow in pulsating bulb applied to blood flow

23 p4155 A70-44847

LIQUID FLOW

NT WATER FLOW

Turbulence characteristics in liquids measured by hot film anemometry, discussing calibration methods selecting criteria as temperature control, drift influence and relative speed determination

02 p0303 A70-12687

Liquid flow through cylindrical slot of constant and variable thickness, calculating flow variations

06 p1034 A70-17630

Liquid sheet and jet breakup in supersonic gas stream, characterizing breakup mechanism by gross jet fracture

[AIAA PAPER 70-89]

06 p1039 A70-18109

Nusselt theory of laminar liquid films movement on vertical smooth solid surface, attributing thickness variation to gas movement and surface active agents in liquid

07 p1251 A70-18656

Temperature fields and hydrodynamics in laminar flow of vertical liquid layers during free convection

07 p1422 A70-19655

Radiation effect on heat transfer during film boiling in forced convection boundary layer of liquid flow past plate, noting vaporization temperature

07 p1423 A70-19812

Circulating flow around elliptical cylinder in inviscid liquid vortex

09 p1659 A70-22435

Acoustic pressure sensors positioning on bodies of revolution to determine laminar boundary layer stability loss during ideal liquid flow at nonzero angles of attack

09 p1660 A70-22479

Numerical methods of viscous liquid dynamics, considering unsteady flow in simply and multiply connected regions

10 p1866 A70-24110

Small linear disturbance and stability of potential unsteady motion of finite mass of liquid with free boundary

10 p1866 A70-24111

Liquid film steady motion on ablating body surface allowing for radiative heat transfer from interior

12 p2334 A70-28244

Vibration spectra, kinetic and dispersion equations of solid spherical particles moving in incompressible weakly viscous liquid

13 p2388 A70-29368

Permittivity cell and encapsulation for liquids subjected to high pressures and temperature extremes

14 p2533 A70-30502

Unsteady state Newtonian liquid diffusion in laminar flow in circular tube, using mathematical model

17 p3072 A70-35544

Viscous incompressible liquid two dimensional flow around flat plate, discussing visualization techniques and velocity distribution measurement

18 p3239 A70-36218

Radiation effect on heat transfer during film boiling in forced convection boundary layer of liquid flow past plate, noting vaporization temperature

20 p3736 A70-39259

Laminar flow of liquid in duct with zero heat resistance of walls, calculating temperature distribution during radiative convective heating

20 p3613 A70-40297

Cold plate immersed in warm flowing liquid, calculating two dimensional transient and steady state solidification by conformal mapping

21 p3949 A70-41319

Heat transfer in closed partially liquid filled steady state porous systems, testing linear flux force equation validity

21 p3952 A70-42081

Liquid lubricant unsteady motion and pressure distribution during pivot harmonic vibration in hydrodynamic bearing

23 p4200 A70-44163

Gravity waves produced in liquid electric conductor by piston subjected to sinusoidal pulsation, calculating magnetic field effect on amplitude and phase velocity

23 p4225 A70-44208

Mass transfer between sphere and liquid flow at small Reynolds numbers

23 p4276 A70-44219

Potential liquid flow in pulsating bulb applied to blood flow

23 p4155 A70-44847

Flow visualization measuring liquid flow velocity, using flow dichroism

24 p4338 A70-45816

LIQUID HELIUM

Thermodynamic equilibrium of rotating liquid He II on basis of Landau theory, noting stability and dissipative effects

04 p0785 A70-14986

Low temperature thermoelasticity theory for elastic fluids, considering fountain and second sound effects and viscosity anomalies in He II

06 p1164 A70-17442

Liquid helium cryostat for onboard satellite storing designed with allowance for overloads and vibrations during powered flight

08 p1440 A70-21220

Helium low temperature applications to fuel tank pressurization, superconducting magnet cooling and cryopumping of solar space simulators

11 p2083 A70-25620

Heat transport by internal convection through He 2 in two fluid hydrodynamics model noting roles of thermal flux, superfluid component vorticity, normal component turbulence, etc

12 p2329 A70-27022

Liquid He temperature fluctuation effects on cryogenic superconducting bolometer noise spectrum, deriving transfer functions

12 p2237 A70-28156

Jupiter Red Spot, explaining motion rate in terms of cellular convection in liquid hydrogen-helium layer

15 p2799 A70-31895

Microscopic quantum theory of liquid He isotopes emphasizing method of correlated basis functions

16 p2951 A70-32997

Longitudinal and transverse hypersonic mm waves excitation in quartz single crystal at liquid helium temperature

16 p2952 A70-33258

Liquid He surface layer thickness as function of temperature, considering capillary waves effect due to gravity

16 p2952 A70-33288

Energy flow between two superfluid helium baths at different temperatures and separated by thin plate

19 p3471 A70-37648

Liquid He 4.2 K in narrow channels with laminar and turbulent flow, measuring boiling heat transfer as function of temperature difference

20 p3735 A70-39155

Comparative analytic and experimental film boiling heat transfer for horizontal cylinders in helium II [ASME PAPER 70-HT-3]

22 p4122 A70-42441

Threshold parameters of liquid and gaseous helium breakdown caused by ruby laser beam, noting Mandelstam-Brillouin scattering in liquid phase

22 p4051 A70-43465

Longitudinal and transverse hypersonic mm waves excitation in quartz single crystal at liquid helium temperature

23 p4218 A70-44281

Liquid He II, determining correlation of depth effect on film boiling heat transfer with vapor film geometry from motion pictures

23 p4279 A70-44363

Corona discharges from fine W points in liquid He initiated by field ionization or emission, noting anomalous characteristics

23 p4221 A70-44889

Green function theory of evaporation of He 3 atoms from liquid He 3/He 4 mixtures, determining energy distribution

24 p4377 A70-45255

LIQUID HYDROGEN

Far IR spectra of liquid hydrogen at para concentrations, noting absorption coefficient variation consistent with composition

04 p0718 A70-14696

Fluorine injectors for main tank injection of space vehicle liquid hydrogen tank, including study of hypergolicity and reaction product freezing

04 p0736 A70-15406

Liquid and slush hydrogen gravimetric flow calibration system for research in slush generation, slush fluid mechanics and flow instrumentation

06 p1031 A70-18449

Twin spool hydrogen turbopump performance at zero net positive suction pressure (NPSP) saturated fluid in propellant tank, including steady state and simulated transient engine tests

07 p1295 A70-19709

Payload optimization factors for orbital storage of liquid hydrogen, considering payload cost of agitation, tank pressure, pressurant weight, etc

09 p1767 A70-23262

Jupiter Red Spot, explaining motion rate in terms of cellular convection in liquid hydrogen-helium layer

15 p2799 A70-31895

Hydrogen oxygen rocket engine two phase liquid hydrogen pump capability and hydrodynamic design, analyzing constant-quality flow, acoustic effects, compressible flow and cavitation

15 p2791 A70-32511

Thermal conductivity of gaseous and liquid hydrogen with guarded horizontal flat plate calorimeter, investigating temperature and density effects in critical region

16 p2996 A70-33011

Vapor fraction dependence on liquid hydrogen propellant outflow during NERVA operation under stored gas or autogenous pressurization, using computer simulation

[AIAA PAPER 70-677] 16 p2950 A70-33578

Liquid hydrogen axial flow pump inducer, describing suction pressure measurements, fluid conditions and flow rate

[AIAA PAPER 70-627] 16 p2919 A70-33592

Cryogenic single tubes transient cool-down by liquid hydrogen, deriving film boiling heat transfer correlation

[AIAA PAPER 70-660] 16 p2998 A70-33621

Liquid hydrogen balloon inflation system for use at remote locations, discussing characteristics and economy

20 p3607 A70-40086

Pressurized liquid nitrogen and hydrogen dielectrics for cryogenic cables, measuring dissipation factor and voltage breakdown by concentric cylindrical test cell

21 p3851 A70-42125

Quasi-hybrid rocket engines with solid propellant and liquid hydrogen injection, discussing performance in comparison with other propellant systems

22 p4089 A70-42498

Thermodynamic properties, tables and equations of state of liquid para hydrogen from liquid-gas and liquid-solid phase equilibria

23 p4220 A70-44434

LIQUID INJECTION

NT WATER INJECTION

Rocket engines gas/liquid injectors atomization characteristics using molten wax technique, considering drop sizes and gas streams velocity, density and pressure

01 p0161 A70-10326

Combustion and flow characteristics associated with direct injection of liquid hydrocarbons into high speed air stream

[AIAA PAPER 70-88] 06 p1182 A70-18198

Liquid propellant spray injection into high pressure gaseous environment noting geometric, dynamic and thermal characteristics

[AIAA PAPER 70-8] 06 p1182 A70-18211

Interaction shock shape prediction for gaseous and liquid injection in supersonic flow, using solid body and complementary models

09 p1662 A70-23244

Gas turbine engine performance prediction with water-methanol injection, describing analytical method

[SAE PAPER 700208] 11 p2102 A70-25881

Quasi-hybrid rocket engines with solid propellant and liquid hydrogen injection, discussing performance in comparison with other propellant systems

22 p4089 A70-42498

LIQUID LASERS

Raman effect liquid laser power as function of cavity length, using Q switched ruby laser beam focused by cylindrical lens for optical pump

01 p0111 A70-10674

Flash lamp-pumped organic dye scintillator lasers using coaxial Xe-filled lamp, tabulating blue-violet organic liquid lasers characteristics

03 p0499 A70-13161

Inorganic liquid laser materials and use of circulating active medium

08 p1513 A70-21302

Flashlamp-excited organic liquid UV lasers

13 p2427 A70-29141

Mechanically heterogeneous and optically homogeneous solid/liquid mixed laser with active centers contained in Ne bathed in liquid

16 p2926 A70-33109

Spatial-angular characteristics of Nd doped phosphorus oxychloride liquid lasers, discussing beam divergence effects

18 p3266 A70-36416

Low threshold laser action of Nd-containing chelate in host media consisting of polymethyl methacrylate and organic liquid

23 p4201 A70-44869

Inorganic liquid lasers, discussing Nd salts solution preparation and handling methods

23 p4201 A70-44929

Giant pulses by actively and passively Q-switched inorganic neodymium liquid lasers with varying modulation due to mode coupling

23 p4202 A70-44937

Phosphorus and selenium oxychloride based liquid laser transmission loss measurement

24 p4355 A70-46265

Laser gain coefficient increased via organic compounds addition to rhodamine 6G aqueous solution

24 p4356 A70-46273

LIQUID LEVELS

Liquid metal level indicators and resistance type level meters for turbines using alkali metal as working media

14 p2587 A70-31010

Contactless electromagnetic level sensor for liquid metal using eddy currents

14 p2587 A70-31011

LIQUID METALS

NT LIQUID POTASSIUM

NT LIQUID SODIUM

NT MERCURY [METAL]

NT MERCURY VAPOR

Liquid metals contact effect on mechanical strength of T shaped graphite specimens at high temperatures in argon atmosphere

01 p0129 A70-11038

Contactless asynchronous flowmeter for measuring liquid metal coolant small flow rates, describing design and characteristics

03 p0483 A70-13211

Liquid metal MHD, discussing conduction/induction MHD devices, measurement gages and devices for suspending liquid metal by magnetic force

04 p0724 A70-14527

Liquid metal pump design and performance in SNAP 8 Mercury Rankine and Advanced Rankine fluid power systems, including containment materials and corrosion effects

04 p0718 A70-15641

Thermoelectric powers of liquid metals calculated from structure factors, using screened model potential

05 p0892 A70-16313

Refluxing capsule tests of refractory metal alloys-boiling alkali metals corrosion compatibility, noting role of capsule geometry

06 p1087 A70-17510

Hall effect measurements in liquid semiconductors and metals

06 p1127 A70-17919

Liquid metal alloys surface composition and electronic structure roles in electrocatalysis evaluated by studying hydrogen-ion discharge reaction and electrical double layer

06 p1005 A70-18392

Electrohydrodynamic /EHD/ technique for generating ions from liquid metals by using electrostatic forces to overcome surface tension forces for field emission of ions

06 p1125 A70-18610

Rankine cycle two loop Li boiling Ka facility for nuclear turbopump simulation, studying alkali metal corrosion for operation with and without hot traps

07 p1304 A70-18809

Heat pipe structural alloys compatibility with different working fluids using capsule tests at high temperatures, noting corrosion behavior

07 p1304 A70-18812

Liquid metals atomic structure, discussing X ray and neutron diffraction measurements

07 p1338 A70-19575

Molten Al alloys flow rate and behavior in various casting systems, considering gate geometry and casting temperature effects

08 p1505 A70-21133

Heat treatment effects on hardened steels acoustic constants, calculating sound velocity in liquid metals

09 p1692 A70-22643

Oxygen solubility in liquid Mo in presence of volatile oxides, determining equilibrium constant of dissolution reaction

09 p1709 A70-23784

Kinematic viscosity of molten steel containing corundum inclusions as function of temperature

10 p1904 A70-24271

Welding techniques for Nb-stainless steel bimetal tubing for liquid metal containment, determining structural integrity and bond interface condition after thermal cycling

10 p1897 A70-25309

Working body properties effects on one component liquid-metal MHD system efficiency with vapor condensation cycle

12 p2164 A70-27329

Fe-Cr system and Fe-Cr-Ni liquid alloys studied by Knudsen cell-mass spectrometer combination, deriving phase equilibria from ion current ratios

12 p2255 A70-27602

Asynchronous liquid metal MHD generator parameters, assuming constant vertical distribution of working fluid velocity

13 p2349 A70-28968

Liquid metallic particles fragmentation in two phase flow injected into vacuum, noting atomization enhancement by sodium nitrate

13 p2391 A70-29994

Liquid metal level indicators and resistance type level meters for turbines using alkali metal as working media

14 p2587 A70-31010

Contactless electromagnetic level sensor for liquid metal using eddy currents

14 p2587 A70-31011

Liquid metals pump with cylindrical hydraulic coupling for actuating axial wheel, investigating cavitation and pumping effects on performance

14 p2535 A70-31012

Tri- and bipropellants in spacecraft propulsion, discussing liquid and powder metals, hybrids, frozen tripropellants, etc

15 p2789 A70-32253

Al radiator with thin stainless steel tube liner using liquid metal coolant tested for heat rejection system of SNAP-8 Rankine cycle power system
[AIAA PAPER 70-855] 16 p3000 A70-33922

Corrosion by liquid metals - AIME Conference, Philadelphia, October 1969 16 p2932 A70-34201

Refractory metals penetration by liquid alkali metals along grain boundaries and crystallographic planes, considering threshold oxygen concentration 16 p2932 A70-34203

Refractory alloys Li corrosion resistance, examining effects of oxygen contamination during welding 16 p2924 A70-34205

Molten contaminated Li effects on microstructure, tensile strength and stress corrosion of stainless steels and refractory metals 16 p2933 A70-34206

Liquid metal corrosion of heat pipe refractory alloys at high temperatures, noting oxygen role 16 p2933 A70-34208

Liquid Fe-Cr-C, Fe-P-C and Fe-Cr-P systems, evaluating interaction coefficients 18 p3272 A70-36032

Oxygen dilute solutions in liquid Fe-Ni-Co alloys, investigating thermodynamic properties by hydrogen-water vapor equilibrium 18 p3272 A70-36033

Nitrogen solubility calculation in transition metals liquid binary systems, using quasi-chemical model 18 p3273 A70-36045

Ti, Nb and Mo solubility during surface doping in Al melts containing various metals, discussing melt lattice structure effects 18 p3276 A70-36208

Rotating Ti disk in liquid Co flow, investigating titanium carbide dissolution kinetics 20 p3648 A70-39245

Liquid metal MHD conservation cycles, discussing evolution and status of power generation at various temperatures 20 p3563 A70-39325

Liquid metal MHD power conversion system with Cs and Li as working fluids, describing hydraulic, electrical and high temperature tests results 20 p3680 A70-39986

Unmanned nuclear electric propelled spacecraft using reactor with liquid metal MHD power conversion system 20 p3566 A70-40016

Liquid metal hydraulic servoactuation packages for flight control in high temperature environments without coolant systems 21 p3750 A70-40785

Liquid metal heat pipes in magnetic fields of controlled fusion reactors, considering geometry, compound wick structure and vapor flow 21 p3946 A70-41046

Working body properties effects on one component liquid-metal MHD system efficiency with vapor condensation cycle 21 p3760 A70-42070

Liquid metal turbulent jet flow dependence on longitudinal magnetic field, measuring mean velocity profiles at various cross sections 21 p3861 A70-42230

Conduction liquid metal MHD machine channels design with baffles installed to decrease shunting effect of end zones, calculating segments by circuit theory methods 21 p3760 A70-42233

Ti embrittlement by liquid Cd, discussing ductile-brittle transition temperature dependence on strain rate 22 p4054 A70-42738

Nb-Zr alloy and yttria corrosion by high velocity Li flow, discussing material removal depth 22 p4055 A70-43100

High temperature gas turbine blades cooling by liquid Na-K alloy
[ONERA-TP-872] 22 p4125 A70-43458

Al and liquid Al-Mg alloys oxidation at high temperatures, noting Mg content effect 24 p4361 A70-46174

LIQUID NITROGEN
Liquid nitrogen evaporation in PSB foam polystyrene vessels compared with glass vessels for cryogenic application 02 p0305 A70-11875

Solder mechanical contact strength to CdS insulating crystal platelets tested in liquid N, noting Ag epoxy 02 p0319 A70-12738

Sound wave velocity and damping in liquid N measured along saturated vapor line using thermal Brillouin scattering techniques 06 p1105 A70-17491

Liquid nitrogen drops anomalous behavior in film boiling, resolving vaporization time discrepancies 17 p3194 A70-34741

Pressure, subcooling and diameter effects on liquid nitrogen film boiling on thin horizontal wires, using high speed movies 17 p3194 A70-34742

Buoyancy effects on liquid nitrogen film boiling in vertical flow, using resistance heated test apparatus 17 p3195 A70-34745

Liquid nitrogen boil off calorimeter for surface energy measurements, describing construction, calibration and instrument errors 18 p3261 A70-37089

Interfacial instability effect on heat transfer to liquid nitrogen drops undergoing film boiling on flat Al surface, obtaining vaporization rates and times 21 p3948 A70-41203

Pressurized liquid nitrogen and hydrogen dielectrics for cryogenic cables, measuring dissipation factor and voltage breakdown by concentric cylindrical test cell 21 p3851 A70-42125

Forced convection heat transfer to liquid nitrogen near critical point, determining coefficients from given wall temperature and heat flux 23 p4279 A70-44358

Liquid nitrogen drops undergoing film boiling on Al surface, measuring heat transfer coefficient 23 p4279 A70-44360

Liquid nitrogen saturated film boiling from wire at pressures up to critical, discussing liquid-vapor interface configuration 23 p4279 A70-44362

LIQUID OXIDIZERS

Oxygen and fluorine-based liquid fuels and oxidizers development, considering chemical rocket propulsion reaction principles 07 p1361 A70-19917

Materials static tested for compatibility with pure and moisture contaminated chlorine pentafluoride at 160 F and ambient temperatures 09 p1742 A70-23250

Stress corrosion cracking of Ti and Ti-Al-V alloy in liquid dinitrogen tetroxide 15 p2755 A70-31475

LIQUID OXYGEN

Liquid oxygen and water cavitation effects on lead, copper, nickel, iron and zinc 01 p0115 A70-10071

Helium gas shaft seal for spacecraft electrically driven LOX pump, noting advantages of floating carbon face seal type
[ASLE FICFS PREPRINT 24] 02 p0308 A70-12168

Heat transfer and flux density during bubble boiling of liquid oxygen employing simulated weak gravitational fields 03 p0605 A70-13393

Liquid oxygen usage inspection penetrant systems combining nonreactivity with flaw detection sensitivity 08 p1508 A70-21745

Pressure oscillations in LOX pump inducer of J-2 machine, using semianalytical first order model with retarded time mechanism 09 p1693 A70-23257

Fluorinated lubricating oils and greases for use as liquid oxygen compatible lubricants, correlating stability and hydrogen substitution 10 p1907 A70-24064

Centrifugal pumps of various metals for liquid oxygen, describing fire and explosion tests 14 p2617 A70-31020

Pt and Ag surface effects on LOX nucleate boiling heat transfer, considering embedded abrasives relationship to hysteresis 21 p3947 A70-41056

LIQUID PHASES

Wet vapor flow with/without inert diluent, assuming momentum and heat transfer between phases according to Stokes law and Nusselt number of unity 01 p0061 A70-10332

Hydrophobic-hydrophilic zero gravity liquid-gas phase separator for Apollo 11 flight life support system
[SAE PAPER 690638] 05 p0804 A70-15844

Nonequilibrium models describing two phase critical discharge of initially saturated or subcooled liquid through sharp edged and smooth inlet geometries 05 p0956 A70-16162

Supersaturation during droplet-liquid phase formation in clouds estimated from trough formed on curve of distribution function 06 p1097 A70-17796

Thermal control of spacecraft via solid-liquid phase change materials
[AIAA PAPER 70-12] 06 p1092 A70-18137

Liquid nitrogen tetroxide enthalpy measured by indirect heating techniques, obtaining data at supercritical temperatures 06 p1005 A70-18560

Enthalpy of nitrogen tetroxide in liquid phase using direct heating of test substance in calorimeter 07 p1358 A70-19207

Liquid crystals biaxial smectic C phases tilt and optic axial angles determined from convergent light observations 09 p1738 A70-22271

Liquid phase convective heat transfer as rate controlling mechanism for flame propagation, analyzing surface tension driven liquid flow induced by temperature profile 10 p1929 A70-24091

Bismuth oxide resistivity and structural characteristics at high temperature and during transformation from solid to liquid state 10 p1927 A70-24272

Nitrogen tetroxide thermodynamic properties calculation from pressure-volume-temperature equation of state in gas and liquid phases 12 p2332 A70-27975

Liquid crystal smectic C phase temperature dependent tilt angle, using conoscopic observation and circularly polarized light 21 p3862 A70-41322

Liquid and solid phases of substance, calculating thermodynamic properties and vapor pressure logarithm dependence on temperature 22 p4124 A70-42683

Phase analysis for individual multicomponent alloys, discussing chemical composition in case of invariant equilibria and electron beam microprobe 22 p4053 A70-42734

Electric strengths of liquid dielectrics during subjection to Q switched laser pulses, determining threshold currents for breakdown 22 p4051 A70-43338

Cesium high temperature saturated liquid and vapor phase density and critical temperature and pressure 23 p4281 A70-44450

LIQUID POTASSIUM

Solubilities and heats of solutions of Mo, W, V, Ti and Zr in liquid K 04 p0710 A70-15632

Ta oxygen concentration effects on corrosion resistance to NaK in SNAP 8 boilers 16 p2932 A70-34202

Metal corrosion effects in Rankine cycle lithium-bromide potassium test loop simulating working fluids of spacecraft nuclear turbopump propulsion system 16 p2933 A70-34204

Mo, W, V, Ti and Zr solubilities in liquid K 16 p2933 A70-34210

LIQUID PROPELLANT ROCKET ENGINES

NT F-1 ROCKET ENGINE
NT HYDRAZINE ENGINES
NT HYDROGEN OXYGEN ENGINES
NT J-2 ENGINE
Vaporization interaction liquid rocket performance model, discussing performance loss evaluation and test data 01 p0160 A70-10832

Gaseous He bubbles injection into liquid propellant launch vehicle fuel lines to reduce vehicle pogo oscillations by lowering feed system natural frequencies 01 p0196 A70-10851

Nonlinear combustion instabilities in liquid propellant rockets, considering various combustion models and experimental techniques 02 p0351 A70-12007

Three dimensional linear combustion instability in liquid propellant rocket motors using concentrated combustion model, presenting mathematical analysis as boundary value problem 02 p0353 A70-12011

Three dimensional combustion instability in liquid-propellant rocket engines, investigating dependence on design and operating parameters via boundary value problem analysis 03 p0551 A70-13574

Flow distribution inside triangular shaped cavities of variable depth resembling liquid propellant rocket motor baffle cavities, simulating radial and tangential oscillation modes 04 p0674 A70-15566

Liquid rocket technology for chemical engineers, discussing insulating tanks, flexible lines, turbopumps and combustion chamber 05 p0896 A70-16168

Solid propellant motors relative performance as related to intermediate payload missions, considering reusable liquid strap-on stages for post-Saturn payloads 05 p0897 A70-16897

Performance analysis for electrothermal thruster using lithium propellant with supersonic heat addition
[AIAA PAPER 69-286] 06 p1129 A70-17159

Soviet book on guided ballistic missiles design and construction employing liquid and solid propellant engines with emphasis on aerodynamic heating 06 p1155 A70-17410

Liquid propellant rocket nozzle configurations maximum stress and stability limits using computer program for composite ring-stiffened shells of revolution
[AIAA PAPER 70-138] 06 p1014 A70-18053

Liquid rocket motors with concentrated combustion, studying nonlinear longitudinal instabilities with shock waves in combustion chambers 07 p1362 A70-18917

Interagency chemical rocket propulsion group method of treating measurement error for liquid rocket engine performance parameters, using uncertainty model
[AIAA PAPER 69-734] 07 p1365 A70-19723

Liquid rocket engine combustion processes determined by injector design using similarity principles 07 p1362 A70-19919

Soviet book on liquid rocket engines dynamics, emphasizing computational engineering methods and engines automatic control

08 p1558 A70-20757

Turbine pump systems operation in terms of liquid rocket engine combustion stability, noting altitude effects on pressure pulsations

08 p1559 A70-21849

Entropy or material waves effects on HF pressure oscillations in liquid rocket combustor, assuming concentrated combustion zone and zero length nozzle

10 p1929 A70-24088

Valois motor with nitrogen peroxide oxidizer for Diamant B first stage, describing design and assembly problems

10 p1930 A70-24375

Liquid rocket technology for chemical engineers, discussing propellant tanks, lines and valves, tank pressurization, turbopumps and combustion chamber problems

12 p2291 A70-27664

Europa 3 launch vehicle liquid propellant engine design and performance data, discussing West German research in high pressure rocket engines

13 p2473 A70-28447

Cost optimal booster stage for European satellite launchers, comparing liquid and solid propellant rockets

13 p2502 A70-28450

Configurations stress stability liquid propellant rocket nozzle analysis by BOSOR 3 digital program, describing mathematical model construction

13 p2508 A70-28509

Soviet book on dynamics of rockets covering solid and liquid fuel rocket stability, controllability and transfer functions

13 p2505 A70-28799

Turbopump-fed rocket engine for satellite launchers, discussing gas cooling, fuel tank pressurization, etc

13 p2474 A70-29138

Spin detonation of tangential HF vibrations in liquid rocket engine combustion chambers, discussing instability prevention

13 p2474 A70-29422

Soviet book on rocket engine theory covering liquid and solid propellants, combustion physics, nozzle and thrust chamber geometry, etc

14 p2628 A70-30628

Soviet book on liquid propellant rocket motors construction, discussing combustion chambers, frame, ducts, turbopump feed system, etc

15 p2744 A70-31850

Spacecraft propulsion development guidelines concerning rocket engines with storable propellants, rotating solid propulsion systems, cryogenic propellants, etc

15 p2790 A70-32256

Europa 3C light alloy space booster powered by Rolls-Royce engines using kerosene and LOX

15 p2810 A70-32257

Electrothermal thruster with liquid propellant, describing energy dissipation and high specific impulse

15 p2791 A70-32280

Liquid rocket engine combustion analysis, discussing bipropellant spray mass distribution, drop size and velocity, spray evaporation interphase drag and ablative chambers

[AIAA PAPER 70-622]

16 p2997 A70-33527

FLOX methane propellant rocket engines, describing operating conditions, injectors, thrust chambers fabrication and cooling, engine cycles, turbomachinery, etc

[AIAA PAPER 70-718]

16 p2965 A70-33540

Liquid rocket engine injector elements design criteria, using noncircular orifice geometry to predict efficiency

[AIAA PAPER 70-704]

16 p2967 A70-33565

S-IVB liquid rocket engine and propellant feed systems restart shutdown in orbital operations

[AIAA PAPER 70-672]

16 p2967 A70-33574

LF unsteady behavior of liquid propellant rockets from droplets evaporation and combustion rates

[AIAA PAPER 70-620]

16 p2968 A70-33589

Liquid rocket propellant engine exhaust plume flow field, discussing mathematical models for combustion chamber, throat region and nozzle

[AIAA PAPER 70-844]

16 p3001 A70-33927

Throttling venturi valves for thrust modulation of liquid propellant rocket engines, testing pressure recovery, mixture ratio control and gas saturation and boundary layer effects

[AIAA PAPER 70-703]

17 p3146 A70-34510

Pulsed laser holography for liquid rocket combustion studies, describing apparatus and techniques

17 p3092 A70-35477

Liquid propellant rocket engines, investigating fuel injection effect on formation of fuel mixture

18 p3300 A70-36252

Graphites erosion by water and carbon dioxide at high temperatures, using liquid rocket simulator for kinetics study

[AIAA PAPER 70-638]

20 p3736 A70-39587

Reusable rocket engine for space shuttle, discussing propellants, configuration, design, combustion cycle and size

20 p3689 A70-40084

Liquid propellant rocket engines performance and classification based on feed system, discussing heat transfer and thermochemical considerations

21 p3869 A70-42041

Power loss reduction from disk friction and gas leakage through rotor seals of low speed centrifugal pumps in aircraft hydraulic systems and liquid propellant rocket engines

22 p4091 A70-42806

Liquid propellant rocket engine nonisobaric cylindrical combustion chamber parameters from thermodynamic data

22 p4092 A70-43355

European rocket engine technology, discussing liquid rockets, reliability, restart capability, performance, cryogenic engine, components, facilities and U.S. cooperation

22 p4092 A70-43509

Liquid propellant rocket engine combustion instabilities, describing unsteady combustor flow by single nonlinear wave equation with stable and unstable finite amplitude limit cycles

23 p4233 A70-44425

LIQUID ROCKET PROPELLANTS

NT AEROZINE

NT CRYOGENIC ROCKET PROPELLANTS

NT GELLED ROCKET PROPELLANTS

NT HYPERGOLIC ROCKET PROPELLANTS

NT MONOPROPELLANTS

NT SLURRY PROPELLANTS

Gas solubilities investigated for gaseous pressurization of propellants

01 p0160 A70-10840

Ultrasonic atomizer system for liquid fuels combustion

02 p0356 A70-12470

Combustion processes and ignition criteria in shock wave ignition of liquid fuel drop in oxidizing atmosphere

[AIAA PAPER 70-9]

06 p1180 A70-18142

Structural element for discrete element idealization missile and liquid propellant as one composite structure

[AIAA PAPER 70-123]

06 p1042 A70-18182

Liquid propellant spray injection into high pressure gaseous environment noting geometric, dynamic and thermal characteristics

[AIAA PAPER 70-8]

06 p1182 A70-18211

Contaminants formation during pulse mode operation of liquid bipropellant attitude control rocket engine, discussing exhaust plume effects

[AIAA PAPER 69-574]

07 p1394 A70-19708

Numerical analysis of low-g fluid flow and heating problems encountered with liquid propellant storage and supply

[AIAA PAPER 69-567]

07 p1394 A70-19719

ICRPG liquid propellant thrust chamber performance evaluation methodology, reviewing imperfections and limitations

[AIAA PAPER 69-468]

07 p1365 A70-19728

Fuel and oxidizer selection for liquid bipropellant system, considering dependence on vehicle, propulsion system and propellant requirements

07 p1361 A70-19916

Oxygen and fluorine-based liquid fuels and oxidizers development, considering chemical rocket propulsion reaction principles

07 p1361 A70-19917

Laboratory and field tests to evaluate liquid rocket propellant properties for tactical mission

07 p1362 A70-19918

Earth storable liquid propellants combustion products simulation by combustion of gaseous fuel and oxidizer combination, discussing elemental composition and thermodynamic considerations

08 p1557 A70-21622

Analytical model for liquid fluorine no-vent loading operations noting application to flightweight upper stage systems

[AIAA PAPER 69-579]

09 p1662 A70-23251

Satellite attitude and orbit control systems based on electrically heated ammonia or hydrazine

09 p1767 A70-23432

Liquid propulsion studies at CNES

10 p1930 A70-24374

Combustion stability effects of additives on hydrazine/nitrogen tetroxide propellant combination by measuring droplet burning rates

11 p2100 A70-26283

Spin stabilized nonrigid satellite dynamics, considering liquid propellant behavior effect

13 p2499 A70-28401

Ignition delay-reducing catalyst for furfuryl alcohol-fuming nitric acid hypergolic bipropellant

13 p2473 A70-29992

Biphase rockets combustion characteristics, comparing results with propellant vaporization and nonlinear instability models

14 p2665 A70-30950

Space propulsion research with emphasis on tripropellant mixtures, discussing increased combustion pressure, nozzle design, reusable orbital transporter, etc

15 p2789 A70-32252

Tri- and bipropellants in spacecraft propulsion, discussing liquid and powder metals, hybrids, frozen tripropellants, etc

15 p2789 A70-32253

Small rocket engines tailoff impulse and tailoff repeatability, comparing monopropellant hydrazine and storable bipropellant engines impulse data

[AIAA PAPER 70-674]

16 p2967 A70-33576

Structural incompressible liquid element for discrete linear idealization of missile and propellant vibration analysis

16 p2991 A70-33852

Motion perturbation equations for guided space vehicles, allowing for sloshing liquid propellant viscosity effects

18 p3332 A70-36160

Liquid rocket combustion instability due to velocity vector effect, showing importance in longitudinal and transverse modes

20 p3689 A70-40079

Liquid propellant rocket combustion instability, examining droplet vaporization, wake burning and chemical kinetics

20 p3689 A70-40080

Gas velocity and static pressure effects on evaporation rate of moving liquid fuel droplets

21 p3953 A70-42094

Thermodynamic-kinetic analysis of fluorine/lithium/hydrogen tripropellant combustion efficiency, discussing liquid metal atomization, firings, facility and thrust chamber

[AIAA PAPER 68-618]

23 p4232 A70-44512

Discrete element idealization of missile and liquid propellant for vibration analysis, deriving sloshing theory

[SAE PAPER 700847]

24 p4326 A70-45885

Liquid rocket propellants tankage and components long term storage under extreme relative humidity and temperature conditions

[SAE PAPER 700800]

24 p4392 A70-45911

LIQUID ROTATION

U ROTATING LIQUIDS

LIQUID SLOSHING

Lower bounds of Stekloff and free membrane eigenvalues for sloshing of incompressible inviscid fluid, subject to gravity in rigid tank with free surface

02 p0278 A70-11999

Hydroelastic sloshing of liquid in partially filled circular cylinder with rigid or elastic walls, including surface tension effect

04 p0671 A70-15092

Dynamic instability of motion of rigid and elastic bodies with liquid filled cavities associated with practical problems of rocket technology

06 p1107 A70-18415

Simulated low gravity propellant sloshing in spherical, ellipsoidal and cylindrical tanks, discussing Bond number simulation and tank geometry effects

[AIAA PAPER 69-1004]

09 p1657 A70-23255

Liquid motion dynamic effects in open cylindrical and conical tanks with translational motion

09 p1662 A70-23293

Fluid motion in cylindrical tank with arbitrary sector annular cross section subjected to harmonic longitudinal excitation

12 p2211 A70-27818

Spin stabilized nonrigid satellite dynamics, considering liquid propellant behavior effect

13 p2499 A70-28401

Hydroelastic oscillations natural frequencies in incompressible and nonviscous liquid in circular cylinder with free surface, demonstrating wall elasticity effects

13 p2512 A70-28832

Perturbed motion of body with partially filled cylindrical cavity with damping ribs, discussing vibrations boundary value problems of liquid filling

15 p2775 A70-32157

Ideal fluid contained in half space with circular or strip-like aperture, formulating mathematical model to determine sloshing frequencies

18 p3238 A70-36057

Motion perturbation equations for guided space vehicles, allowing for sloshing liquid propellant viscosity effects

18 p3332 A70-36160

Liquid fuel behavior in right circular cylindrical tank inclined to earth gravitational field, computing fundamental sloshing frequency

20 p3610 A70-39694

Viscosity and vessel geometry effects on fluids natural and forced oscillation, taking surface tension into account

20 p3614 A70-40438

Complementary variational principles applied to free oscillations of incompressible fluid in container, using linearized hydrodynamic equations

21 p3807 A70-41323

Free fluid sloshing motion in shallow convex containers, considering isoperimetric problem for planar and axisymmetric vibrations

22 p4009 A70-42534

Principle pressure vector components for liquid in moving V-shaped and U-shaped cross section tanks

23 p4180 A70-44164

Low gravity fuel sloshing in axisymmetric rigid tank, calculating oscillations by modified Galerkin method

24 p4324 A70-45292

Discrete element idealization of missile and liquid propellant for vibration analysis, deriving sloshing theory

[SAE PAPER 700847] 24 p4326 A70-45885

Orbit-to-orbit space shuttle toroidal propellant tank design, construction and testing for outflow and slosh characteristics

[AIAA PAPER 70-1325] 24 p4417 A70-45940

LIQUID SODIUM

Liquid sodium droplets spontaneous ignition and combustion in controlled oxidizing atmosphere, discussing vapor phase diffusion flame, burning rates and evaporation constants

02 p0396 A70-12005

Gravitational effects on heat transfer during evaporation and condensation processes in heat pipe, discussing conditions in Na filled heat pipe

[DGLR-69-44] 04 p0785 A70-15171

Stainless steel corrosion rates in flowing liquid Na from mechanism based on thermodynamic partitioning of oxygen

09 p1706 A70-22942

Gravitational effects on heat transfer during evaporation and condensation processes in heat pipe, discussing conditions in Na filled heat pipe

09 p1789 A70-23427

Ta oxygen concentration effects on corrosion resistance to NaK in SNAP 8 boilers

16 p2932 A70-34202

LIQUID SURFACES

NT MENISCI

Gas chromatography based on sampling gas-vapor phase at liquid surface for determining volatile oxygen containing compounds in biological media

04 p0646 A70-14580

Interaction of infinite shallow draft cylinder oscillating at free surface with train of oblique waves

04 p0618 A70-15321

Gas flow influence on wave characteristics of thin viscous liquid layers pulled by gravity vertical surface compared with water layer experiments

08 p1482 A70-20917

Heat and mass transfer during liquid surface evaporation in vacuum, calculating temperature field on basis of heat balance level

09 p1791 A70-23717

Vortex generation in water tank, discussing velocity distribution on free surface and critical depth of air entrainment for various Reynolds numbers

14 p2567 A70-31275

Liquid or solid Leidenfrost film boiling on saturated cryogenic liquid surface, discussing hydrodynamic model similar to propellant spillage accidents

17 p3194 A70-34744

Equilibrium form shapes of fluid free surface in vessel under gravitational and magnetic field with tension

18 p3240 A70-36269

LIQUID-GAS MIXTURES

NT AEROSOLS

NT FOG

Pressure waves propagation velocity dependence on flow regime in gas-liquid mixtures

01 p0067 A70-11302

Laser beam for measuring particles velocity in two phase air-water jets by heterodyning, describing signal properties

05 p0858 A70-16258

Relation between Fourier harmonics equilibrium distribution and bulk viscosity and second thermal conductivity established in critical regions of liquid-vapor condensation and mixing

05 p0958 A70-16550

Combustion stability in air-liquid fuel zone of jet engine burner with burning rate controlled by droplet vaporization rate controlled mechanism

[WSCI PAPER 69-44] 06 p1178 A70-17980

Gas bubbles formation in supersaturated solutions and body fluids during decompression

07 p1208 A70-19511

Gas bubbles formation in supersaturated solutions and body fluids during decompression

11 p1988 A70-26110

Meniscus curvature correlation to viscosity contrast in capillary during fluid displacement

13 p2390 A70-29633

Thin cylinder longitudinal two phase dispersed flow, examining heat transfer coefficient

18 p3345 A70-36112

Liquid-gas separator design with reduced friction loss for MHD generators using two phase convergent-divergent nozzles

20 p3612 A70-40014

German monograph on flow phenomena in gas containing fluids, covering pressure and ultrasonic induced cavitation in steady and unsteady flow

24 p4324 A70-45098

Shock wave structure calculation in liquids containing gas bubbles, taking into account compression wave steepening by convection

24 p4326 A70-45783

LIQUID-LIQUID INTERFACES

Pressure drop at slender profile performing harmonic vibrations near interface between two media of different density solved by numerical method

07 p1254 A70-19079

Interfacial energy and free energy estimation by quasi-continuum approximation for two component water-organic or organic-organic liquid systems

10 p1915 A70-23843

Heat exchange and temperature distribution between two liquids divided by plate, discussing possible errors

20 p3737 A70-39634

LIQUID-SOLID INTERFACES

Liquid oxygen and water cavitation effects on lead, copper, nickel, iron and zinc

01 p0115 A70-10071

Thin liquid film equilibrium on rotating sphere, determining conditions for detachment as function of angular velocity

01 p0068 A70-11578

Heat and mass transfer in passive transpiration cooling system with two moving boundaries, observing porosities and radius of curvature effects

06 p1176 A70-17692

Unsteady interaction of compressible fluid and flat circular deforming elastic membrane analyzed by coupled computer program method

[AIAA PAPER 70-75] 06 p1039 A70-18082

Solid surface-compressible liquid drop high speed impact damage, discussing contact pressure

06 p1053 A70-18611

Interference between body and porous walls of water tunnels by one dimensional solution for usable length of tunnel

07 p1248 A70-19078

Blood-endothelial surface shear stress in artery inlet, considering asymmetric and radially symmetric plugging effects

07 p1220 A70-19248

Aluminum-base reinforced material synthesis by liquid impregnation, investigating transition layer dependence on holding time and fiber/matrix microhardness

08 p1520 A70-21500

Elastohydrodynamic lubrication of rollers relationship to pressure

09 p1693 A70-22978

Electrical conductance test for composite materials adhesive bond degradation by liquids

11 p2071 A70-26345

Nusselt numbers of nonstationary and stationary heat transfer between metal spheres and liquid flow, showing bulk heat and geometry dependence

12 p2330 A70-27288

Liquid film steady motion on ablating body surface allowing for radiative heat transfer from interior

12 p2334 A70-28244

Cell electrode potential interphasal components, defining problems due to relevant interfacial electrochemistry concepts

14 p2533 A70-30526

High temperature solid-solid reactions and solid-liquid or condensed phase-gas equilibria, using solar furnace

14 p2545 A70-30907

Oxide film and liquid effects on friction coefficient, surface relief and dislocation density along depth related to plastic deformation

15 p2743 A70-31638

Fluid flow damping in flexible liquid filled foams at various frequencies and temperatures

15 p2765 A70-31967

Incompressible flow interaction of perfect irrotational fluid through two blade wheels in relative motion, observing pressure variations at nozzle profile

16 p2836 A70-33755

Wave propagation in infinite elastic plate in contact with inviscid incompressible liquid layer, deriving dispersion relation

16 p2993 A70-34094

Fluid inertia and compressibility effects considered in equations for foil over lubricating film

[ASME PAPER 69-WA/LUB-10] 19 p3435 A70-37615

Polyurethane swelling in liquid media, measuring surface orientation effects during chemical machining on stress strain state

20 p3654 A70-39249

Liquid metal MHD conservation cycles, discussing evolution and status of power generation at various temperatures

20 p3563 A70-39325

Ideal fluid-cylindrical tank elastic bottom coupled forced oscillations, determining hydrodynamic pressure for tank reverse translational motion

20 p3615 A70-40444

Heat transfer mechanism during fluid evaporation in porous wick structure contacting heat pipe surface

21 p3946 A70-41042

Site activation in saturated nucleate boiling tests involving various fluids boiled on transparent oxide coated glass surface, correlating site density data with surface temperature

21 p3948 A70-41202

Nucleation phenomena associated with boiling heat transfer in pure liquids at solid heating surfaces

21 p3948 A70-41205

Freezing and melting of warm water flow at stagnation point over cooled plate for convective condition at solid-liquid interface

21 p3949 A70-41311

Cold plate immersed in warm flowing liquid, calculating two dimensional transient and steady state solidification by conformal mapping

21 p3949 A70-41319

Turbulent heat/mass transfer from solid boundary with shear stress dependent on wall distance for various Schmidt or Prandtl numbers

21 p3953 A70-42088

Surface tension role in microliquid layer formation on solid surface with growing bubble in nucleate boiling, using optical method

21 p3953 A70-42089

Ultrasonic Rayleigh critical angle reflectivity of liquid-solid interface energy, detecting near-surface properties changes

22 p4027 A70-42585

Transient heating by solar radiation of semitransparent solid medium and adjoining fluid, establishing criteria for maximum fluid temperature

22 p4123 A70-42598

Damage data comparison for vibratory cavitation and liquid impact on aluminum alloy, stainless steels and pure nickel

23 p4203 A70-43870

Cellular breakdown in binary Al-Cu alloys in unidirectional solidification, observing small pit stability on solid-liquid interface

24 p4362 A70-46180

Surface temperature distribution of heat generating solid body in contact with parallel viscous fluid flow

24 p4430 A70-46368

LIQUID-VAPOR EQUILIBRIUM

Supersaturated vapor condensation in supersonic nozzles, obtaining flow and droplet growth equations for local equilibrium condition

02 p0279 A70-12049

Liquid nucleation in vapor condensation on wettable, unwettable, smooth, rough and cavitated surfaces, showing positive effect of roughness elements

06 p1177 A70-17838

Vapor-liquid equilibria predictions for multicomponent cryogenic mixtures, applying to correlation selection in critical and low temperature regions

14 p2616 A70-31015

Sound velocity relation with specific heat at constant volume at liquid-gas equilibrium critical point

15 p2826 A70-32022

LIQUID-VAPOR INTERFACES

Two phase flow in cylindrical channel, formulating maximum momentum flow variational principle for laminated adiabatic vapor- and gas-liquid flows

01 p0213 A70-10216

Film-vapor interface shape for thin liquid lubricating film, analyzing two dimensional Newtonian flow including gravity, inertia and surface tension effects

[ASME PAPER 69-LUB-3] 01 p0103 A70-10399

Lubrication and leakage control mechanics of face seals, considering liquid to vapor boundary within interface

[ASLE FICFS PREPRINT 22] 02 p0308 A70-12173

Noncontacting minimum leakage dynamic seals requiring liquid-vapor interface with leakage tolerance

[ASLE FICFS PREPRINT 40] 02 p0308 A70-12175

Two phase liquid-vapor system specific heat increase at temperatures approaching critical point, using nonanalytic vapor pressure equation with data for nitrogen and oxygen

04 p0780 A70-14584

Interaction between surface liquid film and hot gaseous turbulent boundary layer analyzed for hypersonic vehicle surface thermal protection design problems

04 p0669 A70-14927

Melting ablation for two dimensional and axisymmetric blunt bodies with body force, predicting gas-liquid interface temperature for free stream conditions

06 p1176 A70-17690

Heat and mass transfer in passive transpiration cooling system with two moving boundaries, observing porosities and radius of curvature effects

06 p1176 A70-17692

Heat transfer during nucleate boiling, discussing transfer from heated surface to superheated liquid layer and exchange on gas-liquid interface

06 p1176 A70-17695

Entropy fall in superheated liquid related to vapor bubble growth from finite so-called zero radius to critical radius, noting pressure effects

07 p1418 A70-18645

- Phase growth of free vapor bubbles in water, ethanol and isopropanol at uniform superheats under normal and zero gravity 07 p1418 A70-18646
- Empirical method for calculating critical thermal flux density during boiling of underheated liquid-vapor systems 07 p1420 A70-19068
- Taylor instability of vertically accelerated horizontal two dimensional interface between liquid and air solved by method of strained coordinates 09 p1661 A70-23071
- Vapor bubble separation diameter and flow in channel boiling applied to supercooled boiling zone determination 09 p1789 A70-23379
- Empirical method for calculating critical thermal flux density during boiling of underheated liquid-vapor systems 10 p1970 A70-25219
- Microwaves reflection, absorption and thermal emission at smooth air-water interface, tabulating calculated coefficients 12 p2183 A70-27169
- Radiating drop unsteady vaporization or growth for uniformly distributed internal heat sources, discussing gas temperature distribution and diffusion thermal effect 13 p2521 A70-29417
- Shock wave interaction with burning liquid fuel droplets in gaseous oxygen atmosphere, observing wave amplification due to mass combustion rate increase 13 p2522 A70-29424
- Film condensation in tubes, considering liquid-vapor interface, zero gravity and electrostatic field conditions 15 p2828 A70-32541
- Vapor fraction dependence on liquid hydrogen propellant outflow during NERVA operation under stored gas or autogenous pressurization, using computer simulation [AIAA PAPER 70-677] 16 p2950 A70-33578
- Gas-liquid two phase flow dynamics, explaining behavior under normal and oblique shocks 16 p2893 A70-33684

LIVER

Nicotinamide adenine dinucleotide (NAD)/deamination and role of nicotinamide hypoxanthine dinucleotide (deamino-NAD) in forming ammonia from amino acids in rats/rabbits brain and liver tissue

01 p0018 A70-10505

Metabolism and biological activity of urea, citrulline, arginosuccinic acid in organism ornithine cycle, discussing role in brain and liver

01 p0019 A70-10513

Blood flow changes in portal vein and hepatic artery of anesthetized cats following intraportal and intrahepatic arterial administration of isoproterenol, epinephrine and norepinephrine

02 p0232 A70-11718

Fructose metabolism in liver and extrahepatic tissues of sea level and high altitude natives, noting lactate and pyruvate accumulation in blood

02 p0233 A70-11722

Postirradiation free radical processes in cellular organelles of rat liver exposed to gamma irradiation detected by graft copolymerization method

03 p0418 A70-13302

Ultraweak luminescence intensity, radiation damage kinetics and spectral properties of cellular organelles of rat liver exposed to gamma radiation

03 p0419 A70-13304

Purification and properties of diphosphopyridine nucleotide-linked glycerol 3-phosphate dehydrogenases from chicken breast muscle and liver

03 p0442 A70-14047

Enzyme beta-hydroxybutyrate dehydrogenase concentration in mitochondria from bovine and sheep liver

03 p0430 A70-14198

Chloride and sulfhydryl activators in glucagon degradation and secretion by purified rat liver dipeptidyl aminopeptidase I/Cathepsin C

04 p0631 A70-14682

Hepatic polysome profiles and tyrosine transaminase activity daily rhythms in rats, studying dietary protein role

06 p0997 A70-18402

Succinic dehydrogenase activity in white rats cerebrum and liver under hypothermia and after warming

07 p1207 A70-19475

Fat embolism and decompression sickness similarities, studying lipid stability changes resulting from liver tissue injury by nitrogen bubbles

07 p1222 A70-19936

Biochemical and histochemical parallels of enzymatic activity in blood, cardiac muscle and liver under hypoxia

08 p1446 A70-21445

Amino acid metabolism time dependent variations, studying tyrosine transaminase rhythm in rat liver

09 p1618 A70-22525

Dietary intake and adrenal cortex effects on diurnal rhythm of hepatic tyrosine transaminase activity and adrenal corticosterone content in rats

09 p1621 A70-23437

Portal vein smooth muscles electrical properties, using double saccharose bridge method

15 p2679 A70-31605

High altitude liver function and blood flow, determining bromsulphophthalein transport maximum and storage capacity and galactose elimination

15 p2683 A70-32531

Albumin and IgG degradation, studying high altitude effect on hepatic function in man

15 p2683 A70-32532

Repeated decelerations effects on mice and rats, noting fibrotic changes in liver

17 p3025 A70-35133

Tyrosine content and utilization in mouse liver, showing daily rhythm in composite metabolism rate

20 p3568 A70-38976

Liver blood flow in dogs during increased oxygen consumption

20 p3577 A70-40448

Oxidative enzymes histochemistry in nervous system, liver and kidney of rats in immediate and remote periods after 24-hr artificial hypobiosis

21 p3764 A70-41478

Oxidative phosphorylation and oxygen intake during circulatory hypoxia in mitochondria of liver and brain in rats subjected to acute ischemia

23 p4145 A70-44315

Oxidative phosphorylation and oxygen consumption during hyperoxia in mitochondria preparations and tissue homogenates from white rat liver

23 p4146 A70-44316

Mammalian tissues metabolic and genetic alteration during weightlessness, relating rats liver regeneration delay to centrifuging intensity following hepatectomy

23 p4146 A70-44617

Heme biosynthesis defect in vitamin E-deficient rats affecting bone marrow synthesis of delta-aminolevulinic acid and liver formation of porphobilinogen

24 p4304 A70-46146

LOAD DISTRIBUTION [FORCES]

Curved cylindrical panel flutter in presence of uniform compressive load, taking into account relationship between actual and ideal shape

01 p0202 A70-10946

Steels tested to evaluate proposed incremental strain theories predicting loads on thin walled cylinders subjected to nonproportionate loading, discussing stress-strain diagram

01 p0202 A70-11057

Clamped skew plates of orthotropic material under transverse load analyzed by stationary potential energy method and compared with isotropic case

01 p0205 A70-11140

Dynamic stability of simply supported column of linear viscoelastic materials under sinusoidal loading

01 p0206 A70-11148

Gas turbine engines vibration characteristics, discussing statistical analysis obtained through condensed vibration overload control program

01 p0166 A70-11420

Materials strength characteristics with respect to breakdown probability parameter by statistical fatigue stability analysis under unsteady loads and various distribution laws

01 p0211 A70-11424

Elastic curve deformation of rod in equilibrium under end loads, using equations analogous to Kharlamov kinematic equations and Chaplygin solution

01 p0094 A70-11440

Thin anisotropic elliptical plate elastic equilibrium weakened by hole and under concentrated loads

01 p0211 A70-11445

Nonlinear equations solvability for elastic cylindrical shells found existing for arbitrary load and clamping conditions

01 p0212 A70-11572

Machine parts fatigue behavior and service life, studying endurance margin under load cycles spectra below initial endurance limit

02 p0383 A70-11657

Aerodynamic load distribution due to wind action on elastic structures, calculating various ratios between wind and critical divergence velocity

02 p0385 A70-11913

Attachment loads and beam bending moments design curves for linear and right angle fittings on honeycomb inserts to determine internal loading

02 p0386 A70-11949

Stress-strain analysis of rectangular plates under concentrated load, noting sealed liquid compressibility effect on deflections and bending moments

02 p0388 A70-12499

Tangential force applied to column end by jet reaction from nozzle clamped to column end, obtaining critical load and oscillation frequency

02 p0389 A70-12644

Thin simply supported circular rigid ideally plastic plate subjected to dynamic transverse load uniformly distributed over central circular region

02 p0389 A70-12668

Rigid plastic body of material insensitive to strain rate under time dependent surface tension and time independent body forces

02 p0391 A70-12816

Service life analysis at randomly varying load - Conference, Muelheim-Ruhr, Germany, April 1969 [DFVLR-SONDDR-4]

02 p0391 A70-12851

Random function theory for determining influence of system oscillation characteristics on load distribution

02 p0324 A70-12852

Shells of revolution having arbitrary stiffness distribution and subjected to arbitrary loads and temperatures

03 p0583 A70-12916

Internal hydrostatic or lateral pressure effect on deformations of infinitely long thin cylindrical isotropic shell subjected to equal concentrated radial loads

03 p0584 A70-12922

LOAD DISTRIBUTION [FORCES]

Incremental strain theories for nonproportionate loading of thin walled cylinders, discussing Tresca flow, von Mises theory and Prandtl-Reuss relations

03 p0480 A70-12953

Case bonded solid propellant rocket motors stresses under transverse body force loading as function of load orientation, case stiffness and support method [SESA PAPER 1502]

03 p0579 A70-12961

Somatic motor unit spikes human biceps during posture holding, obtaining Markov chain and random variable behavior patterns

03 p0416 A70-13011

Cauchy integrals extension to axisymmetric elasticity problems, obtaining numerical results for stressed circularly symmetrical state of hollow cylinder under uniform load

03 p0586 A70-13080

Integral equations for antisymmetric shallow shell stress-strain state with crack, obtaining asymptotic solution in form of power series

03 p0591 A70-13420

Shallow elliptical planform shell under uniformly distributed normal load calculated with 'ritz and Bubnov-Galerkin variational methods

03 p0593 A70-13496

Boundary value problems for orthotropic half plane and infinite orthotropic plane with cuts, considering loads at various points

03 p0593 A70-13497

Circular cylindrical shell stressed state with rectangular opening under compressed torsion, noting opening effect on loads nonuniform distribution

03 p0593 A70-13501

Load analysis for aircraft landing gear during touchdown and braking operations

03 p0596 A70-14093

Linear nonaxisymmetric bending of infinite plate coupled to elastic half space under concentrated loads using double Fourier transforms

04 p0766 A70-14480

Astatic equilibrium loadings in Saint Venant principle for linear elasticity, analyzing physical distinction from self equilibrated loadings to explain smaller long range stresses

04 p0769 A70-14860

Stress analysis of shell loaded at free edge by concentrated forces and moments

04 p0772 A70-14920

Spherical shells axisymmetric equilibrium properties under uniformly distributed external compression

04 p0773 A70-15008

Axisymmetric structures under load and temperature distribution analyzed by matrix displacement method [DGLR-69-62]

04 p0774 A70-15167

Elastoplastic media revised mathematical model with allowance for cumulative damages effect on elastoplastic property under variable loads

04 p0775 A70-15199

Thermoplastic behavior of bodies under variable loads obtainable as function of time variable external temperature field

04 p0775 A70-15200

Swept wings aerodynamic center and span load distributions with respect to quarter-chord line

04 p0619 A70-15393

Spherical caps axisymmetric static and dynamic buckling under load, using axisymmetric nonlinear elastic shell theory approximation and finite difference equations

04 p0778 A70-15587

Stress distribution in long beams with circular annular inclusion under concentrated load solved in series form

05 p0928 A70-16024

Spread criterion and stress distribution near penny shaped crack in elastic solid under axisymmetric body forces distribution

05 p0930 A70-16079

Energy method for analyzing rectangular panels buckling under nonuniform in-plane loading, considering stability under uniform compression

05 p0931 A70-16117

Dynamic response of simply supported rectangular plate under suddenly applied transverse load, comparing solutions of classical and improved plate theories

05 p0933 A70-16174

Stress-strain state of circular orthotropic shells under bending, considering distributed loads applied to shell center

05 p0934 A70-16217

Resistance strain gauge load cell for measuring compressive loads under high hydrostatic pressure, discussing gauge bonding

05 p0848 A70-16377

Load distribution in Christmas tree turbine attachments due to centrifugal force on blades, showing strain diagrams

05 p0939 A70-16488

Lower bound limit analysis of symmetrically loaded thin shells of revolution having arbitrary meridional profiles, demonstrating methods for pressure vessel problems

05 p0944 A70-16815

Shallow spherical shell subjected to arbitrarily located concentrated normal force, discussing boundary effects on resulting stress distribution
05 p0945 A70-16817

Plastic bodies stress-strain state under variable loads generalized to cases of cyclic loads and plasticity
06 p1162 A70-17384

Displacement hybrid finite element models for analyzing shells with distributed loads
06 p1168 A70-17939

Bending stress concentrations in elastic square plate with central hole under uniform load, using finite element solutions of modified Rayleigh-Ritz method
06 p1168 A70-17940

Thin walled cylindrical shell stability with hollow filler under distributed external loads, determining critical loads
07 p1399 A70-18663

Fatigue strength of sintered aluminum powder at room and elevated temperatures, discussing sensitivity to tensile loads misalignment
07 p1304 A70-18840

Critical stresses for plate with circular hole and cracks assuming symmetrical load
07 p1402 A70-19054

Integration by orthogonalizations of envelopes of revolution loaded asymmetrically, introducing boundary conditions and structure discontinuities
07 p1404 A70-19128

Circular cylindrical shells creep buckling under nonuniform external loads, considering thermal effects and initial imperfections
07 p1405 A70-19253

Saint Venant principle in cantilever sandwich beams under two statically equivalent load systems, considering Young moduli effects
07 p1406 A70-19328

Infinite strip with longitudinal crack and under loading, analyzing stress-strain state
08 p1585 A70-20938

Statistical analysis of model parabolic mirror rigidity on multisupported suspension under symmetrically distributed load represented by mirror weight
08 p1586 A70-21057

Elastic paraboloid of revolution under axisymmetrical and nonaxisymmetrical loads, using Bessel functions of real and imaginary arguments with trigonometric functions
08 p1587 A70-21165

Stress-strain state of shells with positive Gaussian curvature under concentrated tangential loads, basing fundamental solution on two dimensional Fourier transform
08 p1587 A70-21169

Finite bending elements for static deflections of annular and circular plates loaded by concentrated forces, calculating free vibrations
08 p1588 A70-21243

Optimal inextensional buckling of uniformly loaded simply supported arches with large opening angle
08 p1589 A70-21310

Circular cylindrical shell supported along generator under arbitrary forces using finite Fourier transform, simplifying results by Euler sum formula
08 p1589 A70-21312

Elastically symmetric thin plate stress-strain state under uniformly distributed load applied to edges
08 p1591 A70-21415

Dugdale crack model extended to include effects of linearly varying tensile loading, noting plastic zone length sensitivity
08 p1593 A70-21512

Elastic equilibrium of semiinfinite two dimensional medium with Griffith crack under axisymmetric load and free and rigidly clamped edges
08 p1594 A70-21771

Metal fatigue by proliferation, diffusion and vanishing of lattice dislocations under varying loadings described by nonlinear inhomogeneous parabolic differential equations
09 p1770 A70-22253

Elastic body equilibrium forms bifurcation solution for uniform strain applied to cylindrical rod and shell under compressive strain
09 p1773 A70-22539

Limit and shakedown loads in creep range investigated on sheet rolled aluminum at room temperature for structural design applications
09 p1775 A70-22591

Fatigue crack probability distributions under oscillatory stationary random loading, basing analysis on crack propagation model
09 p1776 A70-22683

Secondary losses in axial turbine cascades without end clearance noting correlation with blade loading
09 p1743 A70-22980

Transversely isotropic body of revolution under combined surface loads and stationary axisymmetric temperature field, obtaining displacement vector and stress tensor in analytic functions
09 p1778 A70-23086

Nonisothermal loading model of polycrystalline material, investigating tangential stresses in slip

direction and plastic deformation using linear strengthening law
09 p1779 A70-23102

Carrying capacity of shallow shells of revolution, determining buckling stress and limiting equilibrium of shells with varying thickness under transverse load
09 p1781 A70-23288

Elastic ribs reinforced thin cylindrical shells stress-strain state under arbitrary load distribution allowing for rib spacing discreteness
09 p1784 A70-23590

Stress distribution in rib reinforced cylindrical shells under concentrated forces calculated using finite difference scheme
09 p1791 A70-23718

Axial tensile stress effects on stability of cylindrical shell under nonuniform external pressure
09 p1786 A70-23721

Stress distribution in anisotropic disk shaped into wedge loaded at vertex by concentrated moment determined by complex potentials method
10 p1956 A70-24084

Thick-walled toroidal shell under various load distributions, analyzing stress-strain state by networks method using computer program
10 p1957 A70-24250

Axisymmetric elasticity theory problem solution for hollow finite cylinder with symmetrical end loading, employing stress function
11 p2128 A70-25388

Titan 3C boost phase inertia loads on payload estimated for satellite design, using frequency and interface acceleration methods
11 p2120 A70-25446

Aircraft structures fatigue, discussing prediction of response to fatigue environment, load distribution, fatigue life, crack propagation rates and residual strength
11 p2132 A70-25677

Sinusoidal and random loading response of age hardening aluminum alloy determined by fatigue testing
11 p2133 A70-25732

Environment and complex load effects on fatigue life - ASTM Conference, Atlanta, September-October 1968
11 p2137 A70-26088

Spatial correlation effect of unsteady sectional loads in axial direction on average or apparent loads over finite region of circular cylinder immersed in moving fluid
11 p2036 A70-26148

Stresses and displacements determinations in spherical shells under concentrated loads, considering transverse shear deformation effect
11 p2139 A70-26347

Clamped thin circular plate bending under various loadings due to action of rigid square column on center
11 p2139 A70-26404

Fiber reinforced composites under longitudinal shear loading, noting orthotropic nature and shear moduli assuming circular fibers
11 p2141 A70-26489

Monograph on shells of revolution and prismatic shells of arbitrary cross sectional shape with arbitrary load covering partial shells, programs, boundary condition methods, etc
11 p2141 A70-26600

Axisymmetrically loaded shells of revolution with displacement behavior defined by fourth order differential equations, discussing finite difference method suitability for solution
11 p2144 A70-26679

Tension rays and load transfer from compact member via wrinkled membrane determined by variational technique using maximum strain energy
12 p2322 A70-27225

Clamped shallow spherical cap elastic buckling and initial postbuckling behavior under uniformly distributed load over circular region centered at apex
12 p2326 A70-27814

Postwrinkling nonlinear behavior of conical shell of revolution subjected to bending loads
12 p2326 A70-27816

Low aspect ratio wings calculated for roll-damping derivatives, investigating load distribution
12 p2157 A70-27983

Strain induced in laminated orthotropic fiberglass plastic cylindrical shell by normal concentrated load, using equations free from rectilinear normals hypotheses
12 p2328 A70-28279

Critical loads and stability of isotropic cylindrical shells under uniformly distributed longitudinal compression loads based on network method
13 p2514 A70-29287

Transverse bending of isotropic rectangular plate with symmetric crack under uniformly distributed load, considering corrections for stress-strain state near cracks
13 p2516 A70-29516

Creep properties of torsion-tension metal members subjected to nonproportionate loading at high temperatures
14 p2656 A70-30637

Materials durability in presence of stress concentration under biharmonic loading
15 p2813 A70-31527

Axisymmetric nonuniform initial thickness disk under pressure and twisting along interior surface of circular hole using incremental theory of plasticity for deformation analysis
15 p2816 A70-32004

Positive/negative curvature shells local stresses due to concentrated loads and heat sources, deriving approximate solutions
15 p2817 A70-32161

Influence function for thin toroidal shell under uniformly distributed axisymmetric load, determining stresses and displacements in various cross sections
15 p2817 A70-32163

Curvilinear cracks development in flat brittle body under asymmetrical loads using small parameter method
15 p2817 A70-32165

Axisymmetric elastoplastic deformation of compressible plate with arbitrary hardening under uniform load, solving in quadratures
15 p2817 A70-32167

Bifurcation stability in geometrically nonlinear shells of revolution under transverse loads, considering tension and compression deformation
15 p2817 A70-32168

Elastic equilibrium of unbounded body with central hole and concentric cracks under symmetric load
15 p2819 A70-32188

Steel and copper alloys torsion-tension members under nonproportionate loads, predicting creep behavior
15 p2759 A70-32316

Maximum stress distribution in laminar composites, considering loads on boundary of reinforcing layers
15 p2766 A70-32854

Small displacements in noncircular cylindrical shells under various loads
16 p2987 A70-32992

Elastoplastic bending of thin plate under increasing and uniformly distributed loads, defining statically admissible stresses
16 p2988 A70-33107

Membrane stresses on nonspherical domes with axisymmetric loads
16 p2990 A70-33743

Nonlinear dynamic analysis of shells of revolution under symmetric and asymmetric loads, obtaining solutions for shallow cap buckling
16 p2994 A70-34229

Ultrahigh vacuum creep rate measurements with continuously increasing loads on Ta-base alloy, relating creep life with temperature and stress rate
17 p3122 A70-34552

Inelastic analysis of unidirectional composite subjected to transverse normal loading, discussing linear response up to elastic limit and subsequent crack propagation and failure
17 p3182 A70-34557

Transversely isotropic Timoshenko beam statics and dynamics under initial stress and transverse loading
17 p3182 A70-34561

Core flexibility effects on deformation of uniformly loaded clamped parallelogrammic sandwich panels using linear theory
17 p3185 A70-34920

Singular solutions to concentrated loads on shallow shell equations with quadratic middle surface
17 p3186 A70-34968

Solutions for normal and tangential displacements and concentrated forces on shallow cylindrical shells
17 p3186 A70-34969

Normally loaded thin plate displacements, bending moments and stresses determined by hologram interferometry and indirect moire and superposition of grilles
17 p3085 A70-35011

Column end fixity using Euler load and maximum flexibility coefficient for span point lateral load
17 p3188 A70-35226

German monograph on stress and displacement in plane elastic circular rings, disk strips and wedges, considering single load distributions
17 p3189 A70-35370

Curvilinear crack propagation in elastic plane under balanced loads, using singular integral equations
18 p3341 A70-36584

Deflection behavior of uniformly loaded elliptical elastic plates on elastic foundation, using small parameter perturbation technique
18 p3343 A70-36713

Thickness determination of external elastic plates in freely supported three layer structures of uniform strength under perpendicular loads
18 p3343 A70-36717

Stress concentrations in edge-bonded elastic quarter planes with normal and shear loading at boundary
19 p3535 A70-37384

Damped linearly tapered cantilever beam elastically restrained against rotation at wall, analyzing displacement under general initial and distributed load conditions
19 p3539 A70-37802

Edge distribution of transverse reactive forces of rectangular plate with nonuniform flexural rigidity at buckling load

19 p3541 A70-38042

Core-filled thin cylindrical shell under radial ring and band pressure loads, using Boussinesq-Neuber stress function and Flugge shell theory

19 p3543 A70-38247

Clamped spherical shells under concentrated, distributed and ring loadings, analyzing large axisymmetric deflections for prebuckled and postbuckled states

19 p3545 A70-38336

Circular sandwich arc subject to central concentrated load and symmetrically applied edge couple, obtaining shakedown interaction curve

19 p3546 A70-38354

Clamped edge thin flat elliptic plate subject to elliptic paraboloidal loading, determining middle surface deformations for nonlinear large deflections

19 p3547 A70-38359

Machine parts fatigue behavior and service life, studying endurance margin under load cycles spectra below initial endurance limit

19 p3547 A70-38430

Elastic-plastic equilibrium bifurcation in geometrically simple frame model with symmetrically loaded beam, comparing characteristics with Shanley uniformly stressed column model

19 p3549 A70-38671

Elastoplastic deformation of thin circular plates under uniformly distributed transverse loads, using mixed type variational equation

20 p3721 A70-39776

Stress-strain zero moment state of thin walled helicoidal shell under uniformly distributed tensile loads

20 p3721 A70-39778

Concentrated lateral loads effect on elastic stability and moment carrying capacity of circular cylindrical shells in bending

21 p3932 A70-40544

Spacecraft parachute stress analysis, using finite elements with nonlinear elastic properties to obtain shape and load distribution [AIAA PAPER 70-1195]

21 p3753 A70-41821

Load transfer to elastic fiber in infinite elastic matrix, determining fiber force distribution

22 p4113 A70-42539

Stresses and strains concentration around elliptic hole in finite plates subjected to uniform load, using photoelasticity, moire effect and grids

22 p4114 A70-42697

Circular cylindrical shell under longitudinal line load, deriving closed form solution in Fourier series

22 p4118 A70-43547

Elastic plane equilibrium with thin walled flexible rectangular finite inclusion under symmetrical concentrated load, including computer calculated tangential stresses

22 p4118 A70-43569

Natural oscillations of cylindrical shell with elastic filler, using simple load distribution model

22 p4119 A70-43572

Transverse bending of orthotropic glass fiber reinforced plastic plates under uniformly distributed loads

22 p4120 A70-43720

Heavy homogeneous material free elastic rod dynamic stability under distributed scanning load, investigating plane transverse vibrations by differential equations

22 p4121 A70-43722

Optimal load distribution for prestressed rod system, using Chebyshev solution of inequalities

22 p4121 A70-43725

Low disk loading rotors in high speed VTOL aircraft for economical vertical payload lift [ICAS PAPER 70-57]

23 p4139 A70-44153

Spherical shell nonaxisymmetrical deformation under varying loads, relating parameters, Poisson coefficient and complex function

23 p4267 A70-44168

Rigid and elastic rectangular plates vibration under uniformly distributed dynamic load, investigating bending behavior by Galerkin method

23 p4268 A70-44170

Cantilever beam optimal stability under concentrated and uniformly distributed bending loads

23 p4268 A70-44171

Computer program for geometrical nonlinear static and dynamic structural analysis of arbitrarily loaded shells of revolution

23 p4273 A70-44724

Infinite plates and shallow shells stability under doubly periodic surface loadings, using nonlinear analysis

24 p4421 A70-45283

Shallow arch clamped at ends and subjected to uniform lateral load, deriving nonunique equilibrium stability states

24 p4426 A70-46038

Hydraulic load loops with random force signal for aircraft structures endurance testing

20 p3593 A70-39913

LOAD TESTS

Loads effects on refractory alloy fatigue strength and life at high temperatures, describing aircraft turbine blade tests

01 p0115 A70-10069

Loading frequency effects on Duralumin endurance limit in air and in water, noting stress level role

01 p0115 A70-10070

Externally pressurized journal bearing load tests, comparing load capacity data with analytical values

01 p0103 A70-10559

Constant stress creep and recovery behavior experiments of polycarbonate under combined tension and torsion stresses in weakly nonlinear range

01 p0130 A70-11083

Stress rupture strength dependence on specimen geometry /scale effect/ from analyzing metals failure under prolonged loads

02 p0383 A70-11655

Sealing mechanism theory with face seal applications, taking into account load carrying capacity and no leakage pressure gradient [ASLE FICFS PREPRINT 18]

02 p0308 A70-12172

Aircraft structures service life estimation, comparing results of serviceability tests, solo flight tests, programmed random load tests and linear defect buildup hypothesis

02 p0391 A70-12854

Stress-strain state of arbitrarily cracked cylindrical shell under symmetric and asymmetric loading

03 p0594 A70-13736

Stress wave propagation tests in thin walled tubes under combined tension and torsion, discussing predicted and observed strain-time profiles discrepancies

03 p0599 A70-14245

Test rig for load controlled strain fatigue, describing main structure, pin joint bearings and hydraulic specimen clamps

04 p0773 A70-15040

Energy dissipation patterns of metal fatigue failure during static and cyclic loading applied to untreated and heat treated steel samples

06 p1166 A70-17651

Cyclic plastic deformation changes with load increase under uniform stress with normal loading and nonuniform stress with impact loading, considering fatigue limit

06 p1168 A70-17923

Crack formation in resin matrix and effect on fiberglass reinforced composites behavior under loading

07 p1318 A70-19754

Steel strength under prolonged preliminary loading at elevated temperatures

08 p1515 A70-20934

Split ring load test method for determining shear modulus of isotropic and composite materials

08 p1530 A70-21888

Turbine components thermal stress calculations for static and variable loads, considering plastic strain, creep and temperature effects

09 p1775 A70-22592

External respiration, hemodynamics, oxygen transport and consumption in lungs during static load tests

10 p1822 A70-25176

Beam-bending and circular plate testing rigs for creep with constant and variable loading, discussing tests repeatability and accuracy

12 p2207 A70-27618

Materials life estimation under irregular load sequences, discussing computational and graphical method, applications and test and computer equipment

13 p2513 A70-29162

Fracture of failed tensile impact and compression test pieces of hardened SAE 52100 steel, using scanning electron microscope

15 p2745 A70-32443

Crack propagation, fatigue damage and interaction effects in aircraft structures and materials under flight simulation loading

17 p3185 A70-34924

Stainless steel load-strain characteristics and cumulative damage in cyclic fatigue life

18 p3273 A70-36048

MHD slider bearing load carrying capacity in tangential magnetic field, observing optimum profile in step form with riser location and step height ratio

18 p3263 A70-36672

Loading history effect on work of plastic deformation in Ni and Cu pipes, taking into account stress and strain deviators deviation from similarity

18 p3344 A70-36945

Stress rupture strength dependence on specimen geometry /scale effect/ from analyzing metals failure under prolonged loads

19 p3547 A70-38428

Instrument ball bearings running torque prediction at high speed under combined radial and axial loads [ASLE PREPRINT 70AM 3D-3]

19 p3438 A70-38803

Aircraft design fatigue life and cumulation damage problems, discussing information value of programmed load and random tests

20 p3720 A70-39622

Carbon fiber reinforced polymer (CFRP) failure mechanism, discussing nondestructive testing, destructive and cyclic loads

22 p4058 A70-42476

Human tolerance and ventilatory response to inspiratory mechanical loads

23 p4144 A70-43822

Fatigue limits of Ti alloy by Wohler and Locati loading methods

23 p4204 A70-43933

Comparative load capacity of disk models of natural gas blowers of different designs under plastic strain

23 p4232 A70-43941

Aircraft structure fatigue load monitoring, discussing strain gage installation in critical areas [ICAS PAPER 70-31]

23 p4267 A70-44102

LOADING

Dynamic control model of lift helicopters with two cable sling loads using multiple part motion equations [AIAA PAPER 70-929]

17 p3020 A70-35839

LOADING FORCES

U LOADS [FORCES]

LOADING MOMENTS

Structural analysis of rectangular plates simply supported on two edges subjected to free edge uniform moments

03 p0602 A70-14332

Stress analysis of shell loaded at free edge by concentrated forces and moments

04 p0772 A70-14920

Limiting stress states analysis in isotropic solids using loading history and replacing nonlinear stress-strain curve by approximating rectilinear polygon

06 p1165 A70-17547

Compressive stress critical moment induced instability and weakening incorporated in thin walled beam design

11 p2131 A70-25590

Loading conditions measured during aerobatic maneuvers in flight test to determine structural design requirements for aerobatic-type aircraft [SAE PAPER 700222]

11 p1980 A70-25894

Optimal variable shell thickness, describing numerical solution as function of forces, moments and thickness

20 p3725 A70-39865

LOADING OPERATIONS

Onboard cargo load equipment to make aircraft independent of specialized ground equipment

10 p1862 A70-25330

Book on Polish air cargo transport covering transport volumes, aircraft, preparation and loading operations

13 p2524 A70-29453

C-5 aircraft cargo loading system for terminals minimizing ground time

17 p3064 A70-35831

LOADING RATE

Loading frequency effect on carbon steel energy dissipation at large stress amplitudes, deriving strain rate relations

08 p1516 A70-20980

LOADING WAVES

U ELASTIC WAVES

U LOADS [FORCES]

LOADS [FORCES]

NT AERODYNAMIC LOADS

NT AXIAL COMPRESSION LOADS

NT AXIAL LOADS

NT BLAST LOADS

NT COMPRESSION LOADS

NT CYCLIC LOADS

NT DYNAMIC LOADS

NT GUST LOADS

NT IMPACT LOADS

NT LANDING LOADS

NT RANDOM LOADS

NT ROLLING CONTACT LOADS

NT SHOCK LOADS

NT STATIC LOADS

NT THRUST LOADS

NT TRANSIENT LOADS

NT VIBRATORY LOADS

NT WING LOADING

Circular plate nonlinear analysis under load and uniform midplane temperatures, using stationary potential energy principle

01 p0205 A70-11145

Construction of formulas relating stresses and plastic deformations describing inelastic bodies behavior under complex loads

01 p0210 A70-11411

Stiffness matrix derivation for curved beam emphasizing uncoupled normal to plane loads

03 p0584 A70-12949

Carrying capacity and moment of friction calculated for cylindrical MHD bearing for small magnitude of radial clearance

03 p0497 A70-13877

LOAD FACTORS

U LOADS [FORCES]

LOAD TESTING MACHINES

Automatic loading control system for tensile test machine permitting creep and creep-rupture testing

01 p0054 A70-10075

Extrusion forces required for metals and alloys determined by mathematical equations correlating extrusion pressures with process variables, discussing lubrication systems effectiveness
[ASME PAPER 69-WA/LUB-6] 04 p0697 A70-14767

Optimum one dimensional Rayleigh gas slider bearing, calculating step location, pressure and load capacity for range of bearing numbers
[ASME PAPER 69-WA/LUB-1] 04 p0698 A70-14772

Transient processes of strain wave propagation in elastic shells and plates under time varying loads
04 p0773 A70-15010

Load capacity and power loss of spiral groove bearings lubricated by incompressible liquid with temperature-dependent viscosity, using momentum and energy equations
05 p0853 A70-15778

Unloading wave in elastic-plastic half space with rigid unloading for two parameter loads, discussing deformation body model
05 p0925 A70-15825

Fiberglass reinforced rectilinear plastic plates bending under various edge loads, noting shear pliability
05 p0934 A70-16220

Revolving shells local stability developing boundary effect under normal and bending external loads solved by computer program
05 p0935 A70-16237

Structure safety in cumulative damage, considering loading as time dependent stochastic process
05 p0937 A70-16369

Time-varying loads effect on linear elastically hereditary media described by generalized fractional-order exponential functions and Rzhantitsyn type viscoelastic kernels
05 p0946 A70-16954

Plastic deformation of thin flexible axisymmetric shells under load, discussing tensile stresses
07 p1407 A70-19383

Strain gages design and development for small loads
08 p1493 A70-20586

Deformable bodies subjected to given load using method of equivalences
08 p1584 A70-20589

Pairs existence of symmetrical equilibrium forms in nonlinear shallow shell under load applicable to nonshallow shells equilibrium
08 p1591 A70-21416

Bearing capacity increase due to large viscoelastic or normal stress effects in lubricants, obtaining exact results for noncavitating plane slider bearings
08 p1507 A70-21476

Loading effects in measurements involving electrical and nonelectrical systems used in determining gas pressure and fluid flow
09 p1672 A70-22011

Dynamic force measurement methods, considering reaction force and operational compensation
09 p1672 A70-22013

Linear one degree of freedom mechanical system loaded by time dependent force with constraints on loading/unloading rate, studying minimum of dynamic coefficient
09 p1727 A70-22536

Shock absorbing forces for absorber with one degree of freedom optimized for given acceleration during periodic disturbances by variational method
09 p1727 A70-22537

Stress concentrations and load transfer around cutouts in fiber reinforced laminates, discussing boron epoxy plates with circular holes
09 p1710 A70-22793

Load parameters of externally pressurized gas journal bearing with multiple supply holes
09 p1693 A70-22977

Solutions existence for nonlinear partial differential equations describing orthotropic and nonlinear shallow shells under loads and temperature effects
10 p1954 A70-24019

Expansion bellows fatigue strength based on load and displacement measurements performed during low cycle model tests
10 p1965 A70-25299

Stress measurement in discontinuous layered medium subjected to perpendicular load under sliding friction, using photoelastic interferometric methods
11 p2131 A70-25587

Stress level, block size and constant and variable loading sequence effect on fatigue life of Al alloy box beams
11 p2138 A70-26094

Elastic stability of discrete conservative structures under combined loads
11 p2142 A70-26636

Mechanical properties in solids under dynamic incremental shear loading, discussing wave propagation tests on steel, Cu and Al
11 p2143 A70-26669

Airframe structural tests in elevated temperature environment by applied load ratios and room temperature static results
12 p2205 A70-27134

Molding procedure to orient filaments relative to loads for optimizing structural component/compressor blades/of filament reinforced composite
13 p2417 A70-28663

Contact stresses and radial displacements in circular rings with loaded inner and outer boundaries
13 p2515 A70-29506

Electrohydraulic control system dynamics, examining executive component loading at low speeds and nonlinear resistances
13 p2349 A70-29720

Stress distributions in elastomers under different loads, proposing appropriate measuring technique
14 p2655 A70-30178

Tapered cantilever Al plate load characteristics, determining elastic and plastic strain due to regular, reverse and second regular deflection sequence
15 p2821 A70-32307

Human femur junctions load actions and stresses during walking calculated from measurements
15 p2692 A70-32327

Cumulative creep strain and damage based on stress amplitude coefficients, considering continuous single step system of loads
15 p2821 A70-32339

Elastic continuum conducting heat under general loads, investigating stability thermodynamics-Liapunov criterion relations
18 p3337 A70-36336

Gas particle mixtures nozzle flow at high loading ratios
18 p3208 A70-36693

Extrusion forces required for metals and alloys determined by mathematical equations correlating extrusion pressures with process variables, discussing lubrication systems effectiveness
[ASME PAPER 69-WA/LUB-6] 19 p3435 A70-37604

Optimum one dimensional Rayleigh gas slider bearing, calculating step location, pressure and load capacity for range of bearing numbers
[ASME PAPER 69-WA/LUB-1] 19 p3436 A70-37617

Structural design load factors statistical evaluation for element optimal reliability
19 p3550 A70-38850

Overbraced frame loaded at joints, limiting elastic buckling examinations to geometrically perfect structures
20 p3717 A70-38973

Structural fatigue design loads computation for fighter aircraft using multivariable load environment model from oscillograph recorded multichannel aircraft response data
[AIAA PAPER 70-948] 20 p3719 A70-39579

Nonhomogeneous shell theory, considering load carrying surfaces with constitutive equations independent of shell curvature
20 p3719 A70-39619

Oscillation harmonics in rods under loads, giving inequalities to obtain algorithm for determination of overtones
20 p3721 A70-39781

Pneumatic actuator control system improvement, using invariance theory to compensate load variability and dynamic response of medium
20 p3564 A70-39848

Optimal variable shell thickness, describing numerical solution as function of forces, moments and thickness
20 p3725 A70-39865

Joint designs, attachment methods and load introduction in composite structures, suggesting adhesive bonding
20 p3730 A70-40041

Elastic beams optimal design for multipurpose loading, considering compliance and minimum cross section constraints
20 p3733 A70-40382

Elastomechanical system reciprocity relation principles using differential equations for bar with forces in two places
20 p3735 A70-40537

Loads induced by terminal shock boundary layer interaction on cone-cylinder bodies, discussing angle of attack effect
21 p3746 A70-41863

Spiral grooved gas lubricated thrust bearings, calculating self heating induced thermal distortion effects on load capacity
[ASME PAPER 70-LUBS-14] 22 p4044 A70-42447

Hyperelastic bodies stability subject to conservative configuration dependent forces, formulating surface potential for hydrostatic loading
22 p4114 A70-42695

Low friction seal for axial loading piston in triaxial soil testing cells
23 p4199 A70-43873

Minimum weight structural design within given stress limits due to different loads or natural frequency vibrations, using finite element method for structural analysis
23 p4268 A70-44226

Infinite plate perforated with rounded corner square hole under uniform partial loading, examining elasticity with conformal mapping
24 p4427 A70-46367

LOCALIZATION

U POSITION [LOCATION]

LOCATION

U POSITION [LOCATION]

LOCI

Root loci construction for differential equations with quadratic free parameters applied to aircraft motion with roll control
11 p2071 A70-25393

Critical Levitation Loci for floating spheres on cryogenic fluids
17 p3136 A70-34743

Feedback control system characteristic equation generalized root locus following technique using straight line approximation
20 p3659 A70-40121

LOCKHEED AIRCRAFT

NT C-5 AIRCRAFT

NT C-141 AIRCRAFT

NT F-104 AIRCRAFT

NT L-1011 AIRCRAFT

NT T-33 AIRCRAFT

NT XV-4 AIRCRAFT

YF-12A interceptor aircraft development and testing, discussing titanium alloys application, aerodynamics and thermodynamics, escape systems for high speed and altitude tests
18 p3213 A70-36451

LOCKHEED C-5 AIRCRAFT

U C-5 AIRCRAFT

LOCKHEED MILITARY AIRCRAFT

U LOCKHEED AIRCRAFT

U MILITARY AIRCRAFT

LOCKHEED XV-4A AIRCRAFT

U XV-4 AIRCRAFT

LOCKING

Nut and bolt locking, describing cotter pins, lock washers, elastic washers, prestressing, nut with lock nut and self locking nuts
06 p1075 A70-17436

Mechanical methods locking studs, discussing chemical locking based on hardening of resins by polymerization
06 p1076 A70-17437

LOCKS

Supersonic gas jets applicability as vacuum locks for molecular fluxes at thermal velocity in magnetic trap
08 p1549 A70-20509

LOCKS [FASTENERS]

Stress analysis of eyebolts in turbine blades hinged locks based on perforated plate theory with concentrated force, discussing stress distributions
01 p0210 A70-11416

LOCOMOTION

NT ASTRONAUT LOCOMOTION

NT WALKING

Male rats locomotor activity responses to altered photoperiods during exposure to varied-light artificial days
01 p0015 A70-10367

LOG PERIODIC ANTENNAS

Normal mode helical antennas performance in medium and short wave regions, discussing advantage over log periodic antennas and maximum radiation angle achieved by phase shift
02 p0270 A70-12735

Mutual coupling in arrays of log periodic dipole antennas in terms of impedance and admittance matrices
09 p1645 A70-22690

Antenna-duplexer assembly comprising log periodic antennas, power divider and hybrid loop
09 p1649 A70-23324

Log-periodic dipole /LPD/ antennas compressed along transmission-line axis, considering frequency dependent behavior in narrow bands and radiation pattern
12 p2198 A70-27955

Dual mode log periodic spiral DF antenna system, using monopulse to provide azimuth and bearing elevation data
16 p2863 A70-33450

Log periodic antennas, discussing dipole array and planar sheath spiral structures, base current and far field pattern calculations, etc
17 p3052 A70-35073

Log periodic dipole antenna arrays, calculating HF performance and patterns in presence of ground
22 p3997 A70-43176

LOGARITHMIC RECEIVERS

Solid state logarithmic radiometer, measuring radiation within narrow portions of optical spectrum
16 p2905 A70-33160

LOGARITHMS

Quasi-logarithmic readout of conventional binary scaler provided by reduced logic system following generalized equations
05 p0851 A70-16844

Algorithm for Fast Two Dimensional Fourier Transform requiring logarithm additions and multiplication
11 p2073 A70-26250

Image processing and picture enhancement by computer, using fast binary log-antilog conversion
15 p2768 A70-32567

LOGIC

- Attention theory experimental design logic, discussing quantitative theory 19 p3362 A70-38315
- Human memory information structure, discussing pattern recognition, simultaneous attention, problem solving and logic 19 p3363 A70-38322

LOGIC CIRCUITS

- NT THRESHOLD GATES
- MOSFET uses in spacecraft electronic subsystems, describing digital control unit and typical logic circuitry 03 p0456 A70-13534

- Digital network reliability with redundancy to mask logic modules failure for asymmetric failure modes 03 p0454 A70-14022

- Diode transistor microelectronic logic circuit reliability, efficiency and optimization using digital computer 04 p0659 A70-15210

- Angular resolution dependence on bearing ambiguities in radio direction finders based on interference measurement, using digital logic circuits 04 p0659 A70-15335

- Quasi-logarithmic readout of conventional binary scaler provided by reduced logic system following generalized equations 05 p0851 A70-16844

- Digital computers structural and operational address format dependence on number of storage readouts expressible with aid of linear function 05 p0818 A70-17004

- Radiation environments effect on logic circuitry constructed of MOS and bipolar transistors, discussing permanent and transient effects 07 p1242 A70-20149

- Fourth generation systems architecture in microprogramming in terms of control logic, describing inner computer as subroutine processor for controlling interstation communication 08 p1465 A70-20816

- Fluidic logic components for automatic data processing, describing circuits designed to solve specific problems 09 p1612 A70-22771

- Fluidic logic elements for controlling selected cells extinction in hybrid plasma-fluidic display 09 p1738 A70-23758

- Light-emitting integrated circuit semiconductor display devices with inherent memory permitting logic and optical output functions performed on surface 10 p1846 A70-23883

- Book on numerical control covering principles, electromechanical system using digital logic circuits, binary numbers and arithmetic, etc 10 p1854 A70-24023

- Flexible logical elements in integrated circuits with internal connections controllable from outside to realize variety of logical functions 10 p1850 A70-24618

- Digital control systems simulation on analog computer with digital logic, using conventional analog amplifiers and integrators 10 p1860 A70-24655

- Autonomous control system for moving plant based on logic threshold networks and multivariable functional converter 11 p2023 A70-25612

- Test pattern generation algorithm and program for failure detection in asynchronous sequential logic circuits, using combinational method 11 p2024 A70-26205

- T2L logic circuits design and coherent noise immunity 11 p2021 A70-26833

- Solid state proximity switches, sensors, logic and self test circuits for aircraft electrical applications to improve reliability and maintainability over mechanical switches [SAE PAPER 700305] 12 p2195 A70-27449

- Apollo Command Module inverter experience for post-Apollo spacecraft applications, discussing phase loads and control logic circuits 12 p2165 A70-27693

- Computer-aided MOS/LSI four phase logic circuit design, discussing software, design cycles and testing 13 p2380 A70-28375

- Integrated logic circuits, considering switching properties and medium and large scale integration 13 p2372 A70-29116

- Logic cells for multiple arithmetic functions suitable for LSI 13 p2377 A70-29145

- Binary division by logic gates cellular arrays, noting accuracy and operating speed 14 p2556 A70-30517

- Iterative cellular logical array for nonrestoring binary division 14 p2556 A70-30685

- Interference free and frequency stable transistorized multivibrator circuits using High Level Logic /HLL/ units 14 p2561 A70-31163

- Cascade synthesis of multistage logical network with multiple outputs capable of realizing arbitrary logical function from algebraic viewpoint 15 p2715 A70-31840

- Combinational logic cells cellular arrays synthesis, considering truth table and transition matrix 15 p2712 A70-32606

- Logic circuits reliability with series and parallel connected elements during random malfunctions, obtaining failure formulas for trigger 15 p2716 A70-32901

- Scientific satellites pulse height analyzer and associated threshold detection and logic circuitry 16 p2900 A70-33062

- Complex control systems in integrated logic circuits and light laboratory materials production, discussing measurement equipment for quality control 17 p3090 A70-35416

- Microelectronic systems radiation resistance, examining logic IC gates for reactor neutron irradiation 18 p3233 A70-36783

- LSI technology effect on digital circuits and systems designs 19 p3387 A70-37847

- Visual binary state transistor tester for positive and negative logic circuits, illuminating lamp for specific logic states 21 p3801 A70-42244

- Fluid logic sequential circuits with optional input signals, describing synthesis procedure [ASME PAPER 70-FLCS-19] 22 p3963 A70-42408

- Fluid logic circuits with combined feedback input signals, describing synthesis procedure [ASME PAPER 70-FLCS-18] 22 p3963 A70-42409

- Scientific satellites nuclear experiments fast low power drain logic system, using AND and NAND gates, pulse generators, delays and bistables 23 p4143 A70-44299

- Sequential logic circuit synthesis using truth table, minimizing by Quine-McCluskey method 23 p4167 A70-44861

- Hydraulic and pneumatic components for logic circuits of automatic controls, considering amplifiers, interlocked systems and use of fluidics 24 p4293 A70-45618

- High density packaging of micrologic flatpacks using high interconnection method for two-side use of double-sided card in space flight applications 24 p4320 A70-46248

LOGIC DESIGN

- Computerized generation of cost optimal decision logic for malfunction analysis 08 p1470 A70-20659

- Negative radix conversion results applied to logical design of serial converter 09 p1642 A70-22967

- Flexible logical elements in integrated circuits with internal connections controllable from outside to realize variety of logical functions 10 p1850 A70-24618

- Logic cells for multiple arithmetic functions suitable for LSI 13 p2377 A70-29145

- Hybrid computing techniques for solving parabolic and hyperbolic partial differential equations, discussing serial method accuracy and use of parallel logic for integrator control 13 p2373 A70-29461

- State transitions and couplings in reliability of complex systems, using logic algebra suitable for computer 15 p2709 A70-32132

- Digital logic control of chromatographic system for measuring instrumental contributions to band broadening 16 p2855 A70-33120

- Fluid logic systems synthesis by computer aided design programs, proposing referee system [ASME PAPER 70-DE-47] 16 p2844 A70-33510

- Digital logic techniques for pulse modulated radar systems, with application to controlling and timing waveforms for display 17 p3042 A70-34570

- Cellular logic arrays design for nonrestoring binary division, with application to Napierian logarithm generation 17 p3050 A70-34571

- DC transistorized Nor logic gates design based on graphic analytic method permitting influence of circuit parameters variations for reliability improvement 21 p3793 A70-40765

- One dimensional cellular logic arrays fault circumvention by bypass switching out defective cells in cascade 22 p4004 A70-43073

- Digital computer constructed with diodes and transistors logic for evaluating matrix determinants and minors 23 p4166 A70-43955

LOGIC NETWORKS

- U LOGIC CIRCUITS

LOGICAL ELEMENTS

- Semiconductor laser-photodiode system used as optical logic elements for electronic circuits describing storage elements, dynamic trigger and multivibrator 03 p0499 A70-13456

- Frequency selection systems synthesis with digital AND type logical elements, noting basic design relations 04 p0647 A70-14404

- Flexible logical elements in integrated circuits with internal connections controllable from outside to realize variety of logical functions 10 p1850 A70-24618

- Injection lasers as logic elements in optical communication systems with time division multiplexing, examining optimal switching and pulse duration reduction 13 p2428 A70-29406

- Automatic dynamic response system for testing logic and semiconductor devices 13 p2379 A70-29693

- Redundant threshold logic elements synthesis based on von Neumann multiplexing principle for automatic error correction 13 p2376 A70-29940

- Autodiagnosis of logic module failure in complex electronic systems, examining fault simulation methods and Safe system program and apparatus 14 p2561 A70-30669

- Combinational logic cells cellular arrays synthesis, considering truth table and transition matrix 15 p2712 A70-32606

- Component decision logical and temporal arrangement in visual search, defining target by several attribute value combination 19 p3362 A70-38314

- DC transistorized Nor logic gates design based on graphic analytic method permitting influence of circuit parameters variations for reliability improvement 21 p3793 A70-40765

- Scientific satellites nuclear experiments fast low power drain logic system, using AND and NAND gates, pulse generators, delays and bistables 23 p4143 A70-44299

LOGISTICS

- NT LUNAR LOGISTICS

- NT SPACE LOGISTICS

- Integrated logistic support for cost effectiveness of ground communication system 01 p0220 A70-10114

- Project ABLE stabilized platform, discussing logistics support requirement effects on system design and acquisition, reliability, maintainability and costs 02 p0401 A70-11670

- Spares management of large aircraft contract in relationship to total integrated logistics support systems management 02 p0401 A70-11672

- Weapon systems acquisition projects, studying procurement decisions interactions [ASME PAPER 69-WA/MGT-6] 04 p0788 A70-14833

- Integrated logistic support economics considered in selecting support system for generating quantitative data for cost optimization 05 p0959 A70-15846

- Project acquisition based on consideration of logistic effects /ABLE/ for tool measuring logistic consequences of reliability and maintainability 15 p2832 A70-32634

- Avionics maintenance effectiveness logistics, discussing symptom pattern observation technique /SPOT/ for in-flight data 19 p3554 A70-38399

LOH HELICOPTER

- U OH-6 HELICOPTER

LOLA [SIMULATOR]

- U LUNAR ORBIT AND LANDING SIMULATORS

LONG RANGE NAVIGATION

- U LORAN

- U LORAN D

LONG RANGE WEATHER FORECASTING

- U.S. space research and technology applications in aviation, astronomy, weather information, intercontinental communication and space shuttle design 05 p0921 A70-17091

- Nonlinear planetary long range weather forecasting problems analytical solutions, describing quasi-sole-noidal atmospheric motions model 07 p1328 A70-18649

- Numerical weather forecasting for several weeks based on global meteorological satellite network observation 10 p1913 A70-25241

- Global scale atmospheric circulation processes numerical simulation leading to long range weather forecasts for Northern Hemisphere 19 p3462 A70-38753

- Atmospheric global observation for long term weather forecasts, obtaining cloud photographs and radiation data from satellites 21 p3847 A70-42255

LONG TERM EFFECTS

- Heat resistant alloys for gas turbine blades observed for long term heating effects on changes of hardness, tensile, impact and stress-rupture properties and microstructure 01 p0116 A70-10149

Medico-engineering experiment in partially closed ecological system for long term manned space missions

01 p0032 A70-10363

Multipole analysis for earth magnetic field allowing secular variation to be illustrated by time trends in multipole parameters

02 p0288 A70-11742

Secular and short period perturbations calculation of satellite orbital elements under action of solar radiation pressure

02 p0362 A70-11763

Long term memory effects in visual perception of apparent movement, discussing experience prior to tests

02 p0239 A70-12622

Orthotropic cylindrical shell with initial deflection under long term effect of external hydrostatic pressure, solving bending problem

02 p0390 A70-12809

Long term storage effects on noise, leakage current and thickness of Li drifted Si surface barrier detectors

03 p0482 A70-13023

Secular increase in pulsar periods attributed to gravitational emission, velocity effects and galactic escape

03 p0564 A70-13219

Phobos motion observational results compared with Sharpless determination of secular acceleration

04 p0743 A70-14399

Closed life support systems tests, describing effects of long term /one year/ confinement of three human subjects

04 p0641 A70-14565

Pharmacology for long term manned space

04 p0629 A70-14566

Long term behavior of blue photographic luminosity of Seyfert galaxy 3C 120 nucleus, considering similarity to quasar 3C 273B

04 p0748 A70-14589

Secular variation in F region ionization response to sunspot number, noting dominant component as cosine term equal to four sunspot cycles

04 p0678 A70-14972

Water electrolysis module long term operation in providing oxygen for life support systems

05 p0804 A70-15843

Secular variations in small quasar components, discussing compatibility with theory of expanding synchrotron sources

05 p0913 A70-16474

Geomagnetic field secular variations relation to variations of magnetic field of optimum dipoles, noting earth core role

05 p0842 A70-16747

Second order secular perturbations formulas of distant earth satellite motion valid for nearly circular orbits with small inclination to ecliptic plane

06 p1141 A70-17823

Mass loss rates for short period comets from non-gravitational terms in equations of motion, paying particular attention to secular variations

06 p1151 A70-18490

Creep rupture and residual tensile strength tests to evaluate long time properties and structural stability of Inconel 718 alloy, performing phase analysis

07 p1310 A70-19731

Geomagnetic field total vector modulus secular variations from airborne measurements

07 p1278 A70-20461

Tidal friction induced secular changes in earth-moon system near minimum of angular momentum of moon orbit, including temporal changes in moments of inertia

08 p1579 A70-21570

Secular increase in pulsar periods attributed to gravitational emission, velocity effects and galactic escape

08 p1580 A70-21652

Solar radiation variations effect on earth climate, noting atmospheric transparency role in glaciation on thermal regime

08 p1539 A70-21919

Multipole analysis applied to 1965 International Geomagnetic Reference Field, separating secular variation field into drifting and nondrifting components

09 p1666 A70-22065

Central nervous system activity of white rats during hypokinesia, observing organism shifts and long time effects on functions

09 p1615 A70-22093

Major planets secular perturbations represented in trigonometric form using canonical transformations

09 p1751 A70-22176

Climate variations and earth orbital elements secular perturbations, noting solar radiation and celestial mechanics roles

09 p1666 A70-22177

Gas turbine blades design and exploitation processes, discussing long time fatigue strength, static durability and heating effects at elevated temperatures

09 p1772 A70-22469

Secular stability of rotating polytropes in relative equilibrium, isolating bifurcation point by calculating lowest sectorial modes for various sequences

10 p1937 A70-23946

Long time strength and creep rectilinear diagrams constructed for heat resistant alloys to obtain extrapolation values

10 p1903 A70-24239

Test results extrapolation for heat resistant alloys long time strength using exponential relation between time to rupture and value for initial stress decrease

10 p1903 A70-24240

Elongated rotating configuration evolution by gravitational radiation and secular instability using homogeneous figures of Maclaurin and Jacobi

10 p1916 A70-24404

Prolonged hypodynamia effect on human organism, describing organizational and methodological principles for conducting investigations

10 p1813 A70-24667

Prolonged hypodynamia /bed rest/ clinical observations, noting psychological and physical effects

10 p1813 A70-24668

EKG and cardiac rhythm changes during prolonged hypodynamia /bed rest/ with restricted physical activity

10 p1814 A70-24669

Human vascular tonus and hemodynamics during prolonged hypokinesia, observing changes in reaction to cold and reduced vascular tonicity

10 p1814 A70-24670

Prolonged hypodynamia effect on human cardiac cycle phases using poly- and kinetocardiographic data

10 p1814 A70-24672

Prolonged hypodynamia effect on human nutritional habits and protein metabolism, noting decrease in energy requirement and body weight

10 p1814 A70-24675

Geomagnetic field secular variation and cyclic components amplitudes separation by digital filters, observing seasonal and solar activity effects

10 p1880 A70-24808

Minuteman 3 Reentry System real time laboratory aging and surveillance test program to evaluate long-term storage effects on equipment behavior

[ALAA PAPER 70-395]

10 p1952 A70-24910

Ecliptic obliquity secular change rate apparent discrepancy possibly due to earth-moon barycenter motion

10 p1945 A70-24962

Hematologic responses of mice subjected to continuous hypoxia in subatmospheric pressure

11 p1989 A70-26666

Light pressure induced secular effect contributing to planetary satellites and lunar orbits evolution calculated by numerical integration

11 p2118 A70-26777

Earth IR horizon seasonal and longer variations for horizon sensing instruments design

12 p2226 A70-27931

Perturbation function of first order general planetary theory using Hori canonical variables, revealing mixed secular term of determining function

13 p2487 A70-28708

Marrow granulocyte reserve restoration in dogs exposed to chronic gamma radiation, discussing leukocyte reaction to pyrogenic agent

13 p2351 A70-29326

Earth rotation perturbations, analyzing secular polar shift dependence on dimensions, depth and location of seismic event

13 p2400 A70-29604

Decreasing gravitational constant effects on secular earth figure and dimension changes using Clairaut equation

14 p2568 A70-30143

Earth hydromagnetic dynamo spectrum fluctuation related to secular geomagnetic field variations, using unsteady kinematic models

14 p2568 A70-30202

Long term effects model evaluation of meteoritic impact against lunar surface compared with analyses of Lunar Orbiter photographs

14 p2645 A70-31062

Kovpak method for estimating and extrapolating heat resistance characteristics, considering alloy long term strength

15 p2755 A70-31528

Microbial flora in human subjects confined to long term Tektite 1 underwater habitat

15 p2681 A70-31879

Spherical harmonic analysis of geomagnetic secular variation, applying to regional effects

15 p2799 A70-31992

Open faced polyimide-backed strain gage for transducer and/or long term applications, considering drift and zero shifts

15 p2739 A70-32329

Long term storage effects on systems reliability, emphasizing tradeoffs regarding availability, reliability and costs

15 p2712 A70-32637

Central nervous system activity of white rats during hypokinesia, observing organism shifts and long time effects on functions

15 p2685 A70-32689

Secular variations in osculating orbital elements of particle in Saturn ring gravitational field, considering motion in both external and internal space

16 p2973 A70-33226

Biological satellite experiment, considering long term weightlessness effects on metabolism and biological rhythms of medical leech

16 p2854 A70-33993

Unnatural environment behavior of leeches for long term biosatellite experiment, determining temperature, humidity, oxygen pressure, carbon dioxide concentration, calcium hydroxide limits, etc

16 p2854 A70-33994

Long term helium-oxygen atmosphere effects on rats and mice, investigating biochemical and metabolic changes

16 p2849 A70-33996

Long term weightlessness effects on cardiovascular system of rats using miniaturized pump oxygenator

16 p2854 A70-33999

Ti alloy stability after long term creep exposure at various temperatures

17 p3120 A70-34421

Artificial planetary satellites long term orbital evolution under strong perturbations, considering solar and lunar gravitational effects

[AAS PAPER 70-038]

17 p3155 A70-34779

Shooting star shower and solar eclipse frequencies correlation with long term climatic changes

17 p3168 A70-35310

Human operators psychological response to unforeseen information received during routine activity in prolonged solitary isolation

17 p3038 A70-35362

Lunar longitude secular acceleration from occultation observations

17 p3171 A70-35444

Long term effects of ejecting from aircraft, discussing disability incidence after more than ten years

17 p3033 A70-35577

Long term geomagnetic pulsations /PCS/ with sinusoidal waveforms, using IGY data

17 p3080 A70-35642

Secular variations calculation in cosmic ray cutoff rigidities by trajectory tracing process with geomagnetic field models

18 p3306 A70-36023

Solar quadrupole moment effect on secular perturbations of planetary orbital elements

18 p3313 A70-36325

Varying thermoregulatory responses of different rodent species to long term heat and cold

18 p3218 A70-36534

Respiratory activity of internal organs and skeletal muscles in rats exposed to long term heat and cold

18 p3220 A70-36546

Respiratory gas metabolism of liver, heart, brain and muscle tissues in birds exposed to various ambient temperatures for long periods

18 p3220 A70-36547

Respiratory gas metabolism, tissue respiration and enzyme distribution in white rats skeletal muscles following long term cold acclimatization

18 p3220 A70-36548

Astronomically determined latitude longitude and azimuth reduction to common epoch, discussing secular nonperiodic pole motion due to crust drift

18 p3323 A70-37144

Power and exponential time dependences of long term creep strength for wide stress range, assuming linear heat resistance

19 p3449 A70-37340

Plastic deformation in Ni-Cr-Nb alloy precipitation hardened at different long terms of high temperature

19 p3451 A70-37706

Maclaurin spheroid secular stability, examining energy dissipation of gravitational radiation

20 p3702 A70-39017

Spherical harmonic analysis of declination and secular geomagnetic variation

21 p3820 A70-41884

Temperature and long term effects on volatility of perfluoroalkyl ether and polysiloxane greases [ASME PAPER 70-HT-31]

22 p4058 A70-42435

Hemodynamic indices of aged individuals engaging in physical exercises over long period of time

22 p3970 A70-42906

Vacuum-melted and deformed Mo alloys tests, showing long term strength decrease under cyclic heating

22 p4055 A70-43123

High latitude geomagnetic secular variations determination by running 12-month means method, recommending data acquisition free of external sources effect

23 p4190 A70-44087

Long term space flight crew habitation emphasizing food management, station housekeeping, personal hygiene and waste handling

23 p4154 A70-44622

Prolonged REM sleep deprivation effect on gamma-aminobutyric acid concentration in mice
23 p4146 A70-44658

Astronaut biological parameters monitored under prolonged space flight conditions for rescue operations
23 p4146 A70-44678

Orbital elements from secular acceleration in motion assumption, proving Comet Harrington identity with Comet Wolf
23 p4257 A70-45045

Long term storage effects on recalibrated thermistors performance stability, comparing measurements with first calibration data
24 p4333 A70-45136

Earth hydromagnetic dynamo spectrum fluctuation related to secular geomagnetic field variations, using unsteady kinematic models
24 p4330 A70-46277

LONG WAVE RADIATION

Extraterrestrial sources radiation including galactic, solar and magnetospheric radio emissions observed by RAE-I satellite at long wavelengths
[AIAA PAPER 69-1049] 01 p0170 A70-10603

Atmospheric long wave radiation fluxes and energy balance and daytime radiative temperature variations calculated and compared with thermocell measurements
06 p1098 A70-17831

Hypothesis concerning initial spectrum of metric perturbations in Friedman model, discussing long wavelength gravitational waves energy
07 p1383 A70-19406

Sunrise effects in lower ionosphere at midlatitude, discussing long wave absorption measurements, summer electron concentration profile and consistency of aeronomic model
07 p1235 A70-19436

Long wave IR spectrometer with two diffraction gratings for various micron ranges
08 p1493 A70-20544

Microwave propagation along earth-air path, studying tropospheric layer role
08 p1461 A70-20968

Gravity long wave variations correlation with crust and upper mantle geological activity, describing anomaly distribution
08 p1488 A70-21014

Ozone formation in presence of nitrogen oxides and hydrocarbons during long wave UV irradiation, noting energy yield
09 p1629 A70-22328

Long radio wave propagation and effective refraction index in turbulent magnetoplasmas with stochastic density variation
10 p1832 A70-23962

SID effects during recording of long wave transmitter field strength, indicating relation between solar X-ray flares and field anomalies
10 p1932 A70-24485

Long wave transmitter field strength calculation to 1000 km based on optical beam method and ionosphere model to account for radio wave reflection
10 p1840 A70-24495

Vertical profiles of daytime and nighttime long wave radiation fluxes in atmosphere under stratus cloud conditions
12 p2264 A70-27521

Long wave cosmic radio background emission in circumlunar space by Luna 11 and 12 satellites, observing increase in earth magnetosphere tail
12 p2295 A70-28262

IR photography extension into long wave region of spectrum, discussing contact sensitized and electrically controlled semiconductor photographic systems
15 p2734 A70-31632

Background thermal radiation veiling effect on IR photography extension into long wave spectrum
18 p3257 A70-36282

Long wave radiation fluxes calculation in troposphere based on principal radiant heat transfer components separation
18 p3285 A70-36632

Sunrise effects in lower ionosphere at midlatitude, discussing long wave absorption measurements, summer electron concentration profile and consistency of aeronomic model
18 p3249 A70-36910

Ascending long wave radiation brightness from aircraft measurements, observing angular distribution dependence on atmospheric stratification
18 p3287 A70-36970

Long wave outgoing radiation angular distributions based on effective mass and Curtis-Godson methods of accounting for absorption pressure dependence
19 p3461 A70-37634

Slot type oscillations electrodynamic suppression in coaxial magnetrons resonator systems, calculating long wave oscillation frequencies
19 p3387 A70-37738

Ic class variables long wavelength anomalous radiation, discussing emission from circumstellar dust shell
22 p4094 A70-42934

LONGERONS

Band polishing machines slave mechanisms and programmed controllers, describing helicopter longerons finishing process
07 p1291 A70-18829

LONGITUDE

Geopotential fields expansion on 500 mb surface for hemisphere in terms of Chebyshev polynomials along meridian and trigonometric polynomials along latitude
07 p1329 A70-19648

Odessa observatory meridian circle pivots wear determined during observations of eclipsing variables
08 p1574 A70-21160

Longitude and latitude dependence of pc geomagnetic micropulsations related to local time, using analog spectral analysis
09 p1666 A70-22064

Magnetosphere boundary altitude dependence on longitude, considering role of electric current density along geomagnetic lines of force
14 p2570 A70-30217

Power spectrum analysis of division errors of graduated circles associated with meridian astronomy
19 p3523 A70-38686

Magnetosphere boundary altitude dependence on longitude, considering role of electric current density along geomagnetic lines of force
24 p4331 A70-46292

LONGITUDE MEASUREMENT

Earth poles motion influence on latitude, longitude, azimuth and geocentric rectangular coordinates of points determinations on earth surface
03 p0473 A70-13187

Photoelectric exposure meter for meridian circle readings photographic recording
08 p1496 A70-21159

Astronomical navigation on lunar surface with equations for selenographic latitude and longitude
13 p2449 A70-29272

Lunar longitude secular acceleration from occultation observations
17 p3171 A70-35444

LONGITUDINAL CONTROL

Spacecraft longitudinal control during reentry of Lunar Orbiter into atmosphere, analyzing final range prediction, trajectory tracking and accelerometers performance
01 p0197 A70-11497

Hybrid simulation, determining vehicle and performance parameters on longitudinal flying qualities of STOL transport in power approach configuration
[AIAA PAPER 70-387] 10 p1806 A70-24918

Frequency and amplitude during longitudinal control surface pumping by pilots in precise flight path handling for aircraft design
[AIAA PAPER 70-567] 13 p2346 A70-29032

Longitudinal short-period flying qualities as closed-loop pilot-airplane system, noting acceptance values
[AIAA PAPER 70-569] 13 p2346 A70-29034

Optimal fixed-form pilot model computer program for VTOL longitudinal control hover task evaluation
16 p2851 A70-33341

C-5A aircraft six wheel main landing gear bogie pitching control, emphasizing braking torque compensating mechanism design
[AIAA PAPER 70-914] 17 p3020 A70-35826

Pilot/vehicle feedback systems with flight director computer for transport aircraft longitudinal control during landing, discussing design by manual control displays theory
[AIAA PAPER 70-1001] 20 p3560 A70-39530

VTOL aircraft longitudinal motion automatic stabilization in presence of turbulence and internal disturbances, using rotors and jet engines
20 p3561 A70-39838

Fighter aircraft higher order control system dynamics effects on longitudinal handling qualities evaluated by in-flight simulator for role of pilot induced oscillations tendencies
[AIAA PAPER 69-768] 22 p3961 A70-42711

Space shuttle transition trajectory optimization for cruising flight entry, considering longitudinal control, pitchup instability and angle of attack
23 p4244 A70-44623

Aircraft geometry effects on longitudinal flight characteristics calculations, noting wing aspect ratio and horizontal tail changes
24 p4289 A70-45437

LONGITUDINAL STABILITY

Hydrogen-oxygen variable length combustor longitudinal instability, studying hydrogen injection temperature effects on pressure interaction index and pressure sensitive time lag
01 p0214 A70-10324

Gaseous He bubbles injection into liquid propellant launch vehicle fuel lines to reduce vehicle pogo oscillations by lowering feed system natural frequencies
01 p0196 A70-10851

Aerodynamic derivatives in equations of motion governing aircraft longitudinal short period motion estimated using least squares methods
02 p0224 A70-11866

Flexible flight vehicles longitudinal stability with tandem lifting surfaces, studying aerodynamic time delay effects by root locus technique
03 p0408 A70-13802

Kacner method applied to longitudinal vibrations study of nonhomogeneous nonuniform bars, noting applicability to geometrical and elastic properties variations
04 p0779 A70-15702

Liquid rocket motors with concentrated combustion, studying nonlinear longitudinal instabilities with shock waves in combustion chambers
07 p1362 A70-18917

Longitudinal stability of V/STOL aircraft at low speeds, discussing three tilt wings and quad ducted propeller configurations
[AIAA PAPER 69-194] 07 p1195 A70-20410

Transverse oscillation periods of cylinder containing flowing fluid obtained by solving nonlinear partial differential equations describing transverse and longitudinal motion
08 p1592 A70-21480

Longitudinal strength characteristics of filament reinforced composites, discussing bond strength effect on filament fracture
08 p1533 A70-21918

Reinforced cylindrical shells stress-strain state under concentrated longitudinal loads, considering ribs of variable rigidity
09 p1782 A70-23289

Longitudinal distortion reduction in ultrasonic holograms
09 p1689 A70-23805

Static longitudinal stick free and stick fixed aircraft stability equations for several configurations and power effects
[SAE PAPER 700238] 11 p1981 A70-25907

Glider longitudinal stability and control in symmetrical flight positions, determining flight characteristics
12 p2161 A70-27723

Aircraft lateral and longitudinal motion stability in steady rolling, deriving inertia cross coupled stability criterion
13 p2347 A70-29445

Sailplanes flight characteristics concerning longitudinal stability and control position gradient
14 p2531 A70-30634

Parameter identification algorithm for nonlinear equations describing VTOL aircraft longitudinal response
16 p2942 A70-33327

Wings flexural deformability influence on longitudinal stability of glider, using small perturbation theory
17 p3017 A70-35190

Heat pipe performance tests under longitudinal harmonic vibration
17 p3193 A70-35751

Longitudinal dynamics of VTOL aircraft during hover-forward flight transition, using multiple time scale analysis
[AIAA PAPER 69-130] 18 p3213 A70-36681

Nonrolling lifting gliding vehicle hypersonic longitudinal dynamic stability, applying analysis to space shuttles
[AIAA PAPER 70-977] 20 p3715 A70-39552

Aircraft longitudinal motion during takeoff and landing due to loss of lift after boundary layer control system failure
24 p4372 A70-45448

LONGITUDINAL WAVES

LF longitudinal waves propagation in DC gas discharge plasma, obtaining wave dispersion equation for various limiting gases
01 p0149 A70-10162

Longitudinal wave motion in rods, plates and shells based on three dimensional equations and asymptotic expansion
01 p0209 A70-11365

Flexural and longitudinal waves propagation in infinite elastic plate, using solutions to approximate nonlinear equations of plate motion
01 p0213 A70-11634

Asymptotic dynamic theory for elastic cylindrical shells incorporating thickness effects, considering longitudinal wave propagation in infinite length shell
02 p0385 A70-11877

Plane longitudinal elastic monochromatic wave diffraction on stress free circular holes in infinite plate, calculating stresses between holes
03 p0589 A70-13375

Simultaneous equations of longitudinal impact bending, introducing temporal and spatial transformations regarding dispersive wave characteristics in elastic rod
03 p0591 A70-13428

Equatorial jet stream excitation of longitudinal waves, analyzing plasma beam instability and spectrum of short wave inhomogeneities by quasi-hydrodynamic equations
05 p0842 A70-16759

Longitudinal vibration of finite viscoelastic rod with changing boundaries under time-variant force, analyzing impulse response by transform calculus
09 p1777 A70-22833

- Strain and temperature fields interrelation effect on longitudinal wave propagation in viscoelastic cylinder, determining phase velocities and attenuation coefficients 09 p1781 A70-23285
- LF longitudinal waves propagation in DC gas discharge plasma, obtaining wave dispersion equation for various limiting gases 10 p1925 A70-25010
- Narrow band radiation from longitudinal plasma waves nonlinear interactions during solar bursts, comparing flux intensities for Corona single or double shock wave frequencies 10 p1934 A70-25272
- Longitudinal vibrations of circular elastic homogeneous cylinders with end restraints 12 p2321 A70-27152
- Radiation characteristics of ion acoustic waves from monopole and dipole antennas, observing patterns of longitudinal wave in isotropic plasma 12 p2279 A70-27778
- Longitudinal waves propagation in polyethylene bar using Boltzmann-Volterra equation, constructing dynamical stress-strain diagrams by viscous-elastic standard body model 12 p2328 A70-28276
- Longitudinal stress waves propagation in polymeric optically active plastic bars using photoelasticity method 12 p2328 A70-28277
- Collisional theory of longitudinal wave propagation in partly ionized multitemperature gases 13 p2460 A70-28637
- Differential equation for longitudinal vibrations of rod at high temperature, giving asymptotic solution 15 p2814 A70-31589
- Rarefaction wave analytical construction by successive approximation, solving hyperbolic equations for longitudinal vibrations of rods 15 p2815 A70-31644
- Dynamic asymmetric elasticity problems, considering longitudinal and torsional wave propagation in bounded and unbounded micropolar media 15 p2818 A70-32178
- Longitudinal and transverse hypersonic mm waves excitation in quartz single crystal at liquid helium temperature 16 p2952 A70-33258
- Longitudinal wave propagation in variable section bars, solving hyperbolic equation of motion by perturbation method 16 p2993 A70-34088
- Warm homogeneous magnetoplasma longitudinal cyclotron harmonic wave propagation perpendicular to static magnetic field, noting instabilities 17 p3140 A70-34927
- Torsional and longitudinal vibrations of circular cylinders of micropolar elastic solids in terms of Laplace and Helmholtz equations solutions 19 p3537 A70-37789
- Unidirectional composites subjected to free vibration and axial end loading, considering longitudinal stress wave propagation in fiber direction 19 p3540 A70-37954
- Isotropic homogeneous elastic cylindrical rods, investigating nonlinear longitudinal dispersive waves corresponding to water wave theory analogs 22 p4115 A70-42952
- Collision integral model for multicomponent mixture, investigating partially ionized plasma longitudinal vibrations 22 p4083 A70-43382
- Forced longitudinal oscillations of cylinder with given surface displacements, using Lamé equations 22 p4118 A70-43571
- Longitudinal and transverse hypersonic mm waves excitation in quartz single crystal at liquid helium temperature 23 p4218 A70-44281
- Partially ionized viscous plasma longitudinal wave propagation, formulating motion equations for electrons, ions and neutrals from Maxwell and Boltzmann equations 23 p4229 A70-44987
- Finite amplitude longitudinal shock waves in nonlinear hyperelastic materials, deriving solutions for various shock types in accordance with second law of thermodynamics and Lax stability criterion 24 p4420 A70-45265
- Pulsatile flow in circular rigid tube with and without longitudinal vibration, obtaining momentum integral solution 24 p4325 A70-45623
- LOOK ANGLES**
U AZIMUTH
U ELEVATION ANGLE
LOOP ANTENNAS
Parasitic loop counterpoise antenna radiation patterns, considering application to VOR systems 09 p1646 A70-22693
- Input impedances of small vertical and horizontal dipole and loop antennas above conducting ground plane, noting effect of refractive index 12 p2196 A70-27714

- Circular loop antenna with traveling wave current distribution, considering phase change effects on radiation pattern and gain 12 p2198 A70-27965
- Loop antenna current distribution source from radiation pattern synthesis, using Fourier series 15 p2698 A70-31837
- Pulse characteristics received by loop antenna in field of second antenna excited with step functions, calculating radiation characteristics 16 p2871 A70-32961
- Loaded resonant circular loop radiation field patterns table, determining load impedance for antenna design 16 p2872 A70-32971
- Dipole and loop antennas in isotropic compressible plasma under wave incidence, using reciprocity theorem for receiving voltages and maximum powers 16 p2957 A70-32982
- Circular loop antenna for transmission and reception, determining current distribution, admittance and radiation field by integral equation 17 p3051 A70-35061
- Square loop antenna radiation resistance in warm plasma, comparing theoretical results with measured values from Ariel 3 satellite antenna 21 p3796 A70-40562
- Satellite-borne loop antenna resistive and reactive impedance measurements in topside ionosphere 22 p4019 A70-43112
- LOOPS**
NASAP program FORTRAN subroutine LOOPS for loop detection in circuit analysis, discussing automatic instrumentation process for computation time reduction 06 p1015 A70-18421
- Small loop impedance in magnetoplasma determined for magnetic field normal and parallel to loop plane 09 p1738 A70-23671
- LOR [RENDEZVOUS]**
U LUNAR ORBITAL RENDEZVOUS
LORAN
NT LORAN C
NT LORAN D
Reconnaissance uncertainty effect on precision of return to fixed point applied to circular error probable, drms calculations and Loran 04 p0652 A70-15345
- Loran in range-range mode for computing user position based on remote clock synchronization, evaluating accuracy 09 p1719 A70-22192
- Long range navigational aids requirements for airlines, discussing self contained navigation systems capabilities 09 p1722 A70-23028
- Primary long range navigation system for SST, considering operational goals, Doppler radar systems, navigation aids, inertial systems, etc 09 p1722 A70-23029
- Hybrid long range en route navigation system extended to short range route meeting ATC and terrain problems 09 p1722 A70-23032
- Decca, Loran C/D and Omega LF and VLF hyperbolic navigation systems 23 p4215 A70-43865
- LORAN C**
LF wave propagation using Loran C radio navigation system flight performance tests 03 p0523 A70-13615
- Loran and Decca hyperbolic navigation systems 08 p1541 A70-21022
- Loran C radio wave field intensity diurnal variations measurements, investigating ionospheric waves characteristics 10 p1832 A70-23921
- Loran-C and Omega radio navigation systems, discussing hostile environment operation and hardware processing 11 p2081 A70-26507
- Loran C coordinates bias function determination by regression analysis using observed time differences 14 p2615 A70-31195
- Loran C principles, ground station operation and navigation equipment 17 p3135 A70-35881
- LORAN D**
Self contained and ground referenced radio systems combination for tactical air navigation, including Loran D and hybrid Loran/HYLO/ 04 p0716 A70-14628
- LORENTZ CONTRACTION**
Lorentz principle application to general relativity freeing formalism from inconsistencies to derive expressions for Christoffel symbols and Riemann-Christoffel tensor 06 p1105 A70-17537
- LORENTZ FORCE**
Magnetically balanced arcs in supersonic external flows, indicating central core with differential Lorentz forces analogous to Grashof number in free convection phenomena 02 p0347 A70-12233

- Electrically charged earth satellite motion under action of Lorentz force produced by geomagnetic field interaction, relating field trajectories to acceleration 06 p1142 A70-17879
- Infrasonic waves generated by pulsating aurora, using Joule heating and Lorentz force coupling 13 p2399 A70-29236
- LORENTZ GAS**
Electrons velocity distribution function in homogeneous stationary weakly ionized Lorentz plasma in neon, investigating effect on mobility, collision frequency, diffusion and kinetic energy 11 p2089 A70-25871
- Boltzmann equation in circular magnetic field solved by Fourier series and Legendre polynomials, correcting distribution function due to Fourier harmonics 13 p2464 A70-29485
- Electron distribution for transport coefficients in Lorentzian plasma under magnetic field, determining electrical conductivity, thermal diffusion and viscosity 14 p2623 A70-31033
- Lorentz plasma electron velocity distribution with allowance for elastic and inelastic collisions, using Legendre polynomial and spherical harmonic expansions in Boltzmann equation 16 p2945 A70-34337
- Two component fully ionized plasma in HF electric field, demonstrating suppression of runaway electrons in Lorentz plasma 17 p3140 A70-34934
- Lorentz lines radiative transfer in nonisothermal gases, developing Landenberg-Reiche analysis for isolated unshifted lines growth curves 21 p3852 A70-40590
- Plasma kinetic theory, applying Boltzmann equation, Lorentz gas model and relaxation method 23 p4224 A70-44177
- Partially ionized Ar transport properties, computing electron velocity distribution function as perturbation for Lorentzian mixture 23 p4220 A70-44437
- Electron runaway suppression in fully ionized Lorentz plasma by crossed magnetic and electric fields 24 p4382 A70-45105
- LORENTZ TRANSFORMATIONS**
Lorentz invariance test using bar magnet on torsion fiber, analyzing preferred reference frame in space assuming earth velocity coupled to electron spin through specific term 02 p0341 A70-12849
- Compton-Getting effect for cosmic ray particles and photons and Lorentz-invariance of distribution functions, discussing thermal background radiation, proton spectra, etc 07 p1369 A70-20071
- Complex vector parametrization of Lorentz group in relativistic kinematics, discussing Wigner rotation, Lorentz transformation and particles classification during scattering 13 p2453 A70-29722
- Schwarzschild solution singularity elimination using Lorentz transform 20 p3673 A70-39998
- LOS ALAMOS TURRET REACTOR**
U HIGH TEMPERATURE NEUTRON REACTORS
LOSSLESS EQUIPMENT
Lossless waveguide propagation analysis as transient problem by means of Laplace transform 14 p2556 A70-30923
- LOST WAX PROCESS**
U INVESTMENT CASTING
LOUDNESS
Loudness lateralization of acoustic signals in right and left ear during binaural interaction 12 p2174 A70-28357
- LOUDSPEAKERS**
Loudspeaker optimal arrangement for speech intelligibility in aircraft crew compartments, discussing apparent SNR improvement 17 p3039 A70-35564
- Electroacoustic circuits transient behavior, examining loudspeaker effectiveness 24 p4321 A70-45374
- LOVE WAVES**
Rayleigh and Love wave phase velocities for great circle paths from ordinary seismograms of World Wide Standard Seismographic Network (WWSSN)/stations 09 p1672 A70-23702
- Love wave propagation in layers with irregular boundaries, investigating scattered field to determine reflection from triangular notch 13 p2394 A70-28831
- LOW ALTITUDE**
Low altitude satellite system for aircraft navigation, considering cost factors, military applications, traffic control capabilities, etc 12 p2270 A70-27922
- Atmospheric density effect on satellite lifetime and position prediction, utilizing data from Cannon Ball and SPADES low altitude density research satellites 14 p2653 A70-30562

Visual air-to-ground target recognition simulation, comparing predictions from Autonetics Detection Model in low altitude flight 24 p4308 A70-45507

LOW ALTITUDE SUPERSONIC VEHICLES
U F-111 AIRCRAFT

LOW ASPECT RATIO
Flow separation angle and loss coefficient in cascades with small aspect ratio blades under secondary vortex pair expansion over channel 06 p1130 A70-17858

Low aspect ratio wing aerodynamic characteristics in shear flow, noting forces dependence on flow velocity gradients 14 p2529 A70-31274

Low aspect ratio plates flutter analysis for subsonic and supersonic models 16 p2991 A70-33888

Transonic high turning low aspect ratio stator cascades flow field performance prediction, reducing secondary flows by partial slots [ASME PAPER 70-GT-63] 18 p3209 A70-36875

Vibration characteristics of low aspect ratio compressor blades, using thin shell theory and Rayleigh-Ritz method [ASME PAPER 70-GT-94] 18 p3305 A70-36876

Slender wings of low aspect ratio and sharp leading edges, predicting inviscid maximum lift 21 p3743 A70-40585

Low aspect ratio compressor blade cascade performance at blade span center, discussing pressure loss, angle of attack and staggering 22 p3957 A70-42272

LOW ASPECT RATIO WINGS
NT DELTA WINGS
NT TRAPEZOIDAL WINGS

Low aspect ratio wings calculated for roll-damping derivatives, investigating load distribution 12 p2157 A70-27983

Low aspect ratio wings under conditions of creep, calculating stress by method of strains 19 p3534 A70-37244

Low aspect ratio cantilever plate wings supersonic bending torsion flutter speed calculation, using spanwise and chordwise variables and potential energy principle 22 p4112 A70-42276

Aircraft control surface aerodynamic characteristics, considering low aspect ratio wing elevons with variable sweep leading edge as longitudinal and lateral controls [ICAS PAPER 70-26] 23 p4131 A70-44107

LOW COST
Apollo program low cost factors including engineering, management quality, reliability and inspection [AIAA PAPER 70-241] 07 p1429 A70-20377

LOW DENSITY FLOW
Heat transfer from two dimensional hypersonic low density stream to wedges and sharp flat plates at expansion angles of attack 04 p0615 A70-14944

Boundary layer on sharp flat plate in low density flow computed by continuum approach, obtaining parabolic partial differential equation system [DVL-914] 06 p1034 A70-17250

Rotational relaxation times for low density hypersonic nitrogen free jet, comparing measured and predicted impact pressures 06 p1043 A70-18279

Sphere drag measurements in low density hypersonic transition and near free molecular flow 06 p1124 A70-18373

Low density hypersonic flow over slender cone using air and He test gases 07 p1188 A70-19309

Radiation effects on viscous hypersonic low density stagnation flow using two layer model, calculating flow field and heat transfer coefficient 12 p2158 A70-28204

End support cooling in hot-wire anemometry of low density high temperature flows [AIAA PAPER 70-589] 13 p2412 A70-29882

Low density hypersonic flow over finite width flat plate at zero incidence 17 p3007 A70-34473

Mach disk structure in free low density expanding supersonic jet from static pressure probe measurements 17 p3068 A70-34696

Low density gas jet from short circular cylindrical tube, calculating molecular flux radial density variation 22 p4076 A70-43430

Dissociative nonequilibrium hypersonic flow of low density gas mixtures over flat plate in free stream, noting catalytic wall effect on flow field 23 p4135 A70-44604

LOW DENSITY GASES
U RAREFIED GASES

LOW DENSITY MATERIALS
Syntactic foams of high filler content, low density, high compression strength and hydrolytic stability using hollow carbon microspheres in epoxy resin matrix 16 p2936 A70-33365

LOW DENSITY WIND TUNNELS

Flow parameters measured in low density hypersonic nozzle, estimating error of all relevant parameters 06 p1030 A70-18302

Electron beam probe applied to flow visualization in rarefied gas wind tunnels 10 p1860 A70-24549

Vacuum supersonic wind tunnel air continuous dehumidification by using multistage centrifugal blower with/without heat exchanger 12 p2206 A70-27153

Laminar boundary layers in low density supersonic and hypersonic conical and axisymmetric nozzles, treating displacement, transverse curvature, velocity slip and temperature jump [AIAA PAPER 69-653] 13 p2386 A70-28513

Hemisphere model flow field investigations in low density plasma wind tunnel, considering flow regimes of transition and shock formation 15 p2673 A70-32838

LOW FINENESS RATIO

U FINENESS RATIO

LOW FREQUENCIES

NT VERY LOW FREQUENCIES

LF wave propagation using Ioran C radio navigation system flight performance tests 03 p0523 A70-13615

Read theory application to LF operation of avalanche diodes under large signal conditions 04 p0656 A70-14720

Oblique incidence absorption measurements by pulse or CW signal strength observations or LOF data, comparing LUF to LOF 07 p1231 A70-19173

LF waves and irregularities in ionosphere - Conference, Frascati, Italy, September 1968 07 p1263 A70-19186

LF waves and irregularities in auroral ionosphere determined by radar measurements, suggesting role of plasma waves cross modulation 07 p1264 A70-19193

Spaceborne long wavelength radio astronomy, proposing lunar orbit and beyond Pluto observatories to reduce magnetospheric and interplanetary plasma effects 09 p1754 A70-22495

Broadband and highpass LF noise in distant magnetosphere detected by VLF/LF experiment on OGO 1 satellite 12 p2222 A70-27183

Ionospheric probing with LF/VLF/ELF radio waves, discussing measurement techniques and temporal and spatial resolutions 12 p2224 A70-27731

Discharge effects on LF oscillations and ion extraction in hot cathode Penning plasma 13 p2463 A70-29370

LF plane wave scattering from semielliptic groove in conducting ground plane noting validity for arbitrary polarization, incidence, directions and eccentricity 13 p2453 A70-29822

LF signals phase determination during solar eclipse of 22 September 1968, noting frequency shift magnitude 14 p2547 A70-30238

Reflection and conversion coefficients of model ionospheres for VLF and LF radio waves 14 p2573 A70-30735

Incident microwave signal in Tonks-Dattner resonance coupled to discrete LF modes in plasma column 15 p2778 A70-31756

Plane wave incident on oblate spheroid or disk, deriving LF field scattering 18 p3335 A70-35974

LF geomagnetic micropulsations recordings by two component induction magnetometer, relating diurnal frequency and occurrence variations to local K_i index changes 19 p3412 A70-37995

LF cavity loss modulations of homogeneous four-level CW Nd-YAG laser, including relaxation-oscillation regime 22 p4050 A70-43005

Homogeneous helium plasma column LF wave propagation in uniform magnetic field 22 p4082 A70-43216

D region LF and VLF sky waves opposite phase perturbation behavior 23 p4162 A70-44006

Phase and group velocity variations of LF transmission compared against crystal oscillator 23 p4163 A70-44228

LF signals phase determination during solar eclipse of 22 September 1968, noting frequency shift magnitude 24 p4316 A70-46313

LF narrow band-pass amplifiers with distributed RC structures 24 p4321 A70-46397

Discharge effects on LF oscillations and ion extraction in hot cathode Penning plasma 13 p2463 A70-29370

LF plane wave scattering from semielliptic groove in conducting ground plane noting validity for arbitrary polarization, incidence, directions and eccentricity 13 p2453 A70-29822

LF signals phase determination during solar eclipse of 22 September 1968, noting frequency shift magnitude 14 p2547 A70-30238

Reflection and conversion coefficients of model ionospheres for VLF and LF radio waves 14 p2573 A70-30735

Incident microwave signal in Tonks-Dattner resonance coupled to discrete LF modes in plasma column 15 p2778 A70-31756

Plane wave incident on oblate spheroid or disk, deriving LF field scattering 18 p3335 A70-35974

LF geomagnetic micropulsations recordings by two component induction magnetometer, relating diurnal frequency and occurrence variations to local K_i index changes 19 p3412 A70-37995

LF cavity loss modulations of homogeneous four-level CW Nd-YAG laser, including relaxation-oscillation regime 22 p4050 A70-43005

Homogeneous helium plasma column LF wave propagation in uniform magnetic field 22 p4082 A70-43216

D region LF and VLF sky waves opposite phase perturbation behavior 23 p4162 A70-44006

Phase and group velocity variations of LF transmission compared against crystal oscillator 23 p4163 A70-44228

LF signals phase determination during solar eclipse of 22 September 1968, noting frequency shift magnitude 24 p4316 A70-46313

LF narrow band-pass amplifiers with distributed RC structures 24 p4321 A70-46397

LOW GRAVITY

U REDUCED GRAVITY

LOW LATITUDES

U TROPICAL REGIONS

LOW LEVEL TURBULENCE

Atmospheric small scale turbulence observation by Doppler radar, noting role of tracers radial velocity spectrum 09 p1716 A70-22364

LOW MASS

U MASS

LOW MOLECULAR WEIGHTS

Low molecular weight organic semiconductors photoelectron UV emission spectra, studying electron energy distribution and optical ionization, dark bulk conductivity, etc 03 p0541 A70-13728

LOW NOISE

Low noise TWT, discussing dynamic range, gain and phase tracking, environmental performance, life behavior and noise factor interrelations 09 p1644 A70-22233

Low noise nonreciprocal microwave parametric amplifier with up-and-down converter and idlers in cascade 09 p1647 A70-22850

Low noise wideband amplifier design for Intelsat 3 satellite ground stations 16 p2877 A70-33415

Low noise He-Ne laser with capillary elements, measuring current threshold of noise free operation as function of design parameters 19 p3448 A70-38512

Low noise requirements of DC current sources used in circuit design 21 p3797 A70-40854

Low noise GaAs Schottky barrier beam lead mixer and chip style diodes, discussing fabrication and performance 22 p3998 A70-43333

Low noise constant temperature hot-wire anemometer design with second order high-cut filter, determining system stability 23 p4199 A70-45050

LOW PASS FILTERS

Frequency responses bounds of nonnormalized low pass and bandpass filters 05 p0820 A70-16360

Transversal filters with continuously tapped delay lines, emphasizing synthesis of low pass filter and phase shifter 05 p0822 A70-16652

Microstrip oscillator circuit design for operating with high power/efficiency avalanche diodes, describing low pass filter tuning section role 08 p1475 A70-21278

Low pass filter structure of focusing reflectors designed for quasi-optical system, noting energy absorption 08 p1476 A70-21287

Microwave band-stop filters based on ladder network low pass prototypes, comparing performance with bandpass type 14 p2557 A70-31179

Low pass filter synthesis with transfer function having frequency response boost in pass band 15 p2708 A70-31833

Linear time varying low pass filters computer aided design, introducing quadratic performance criterion to calculate steepest descent in function space 15 p2710 A70-32588

Transmitter-antenna matching, using Pi-filter for resonance transformation 19 p3389 A70-38071

Transistorized LF RC filter circuit design for desired frequency response characteristics 23 p4171 A70-43962

Multilevel FSK system with limiter discriminator followed by low pass filter as demodulator, calculating error rates for comparison with other analyses 23 p4161 A70-44003

Directional periodic linear Yagi-Uda arrays application for open low pass or bandpass filters and open resonators 23 p4166 A70-44971

Analog and digital low pass filters for radiometric postdetector filtering 24 p4321 A70-45622

LOW PRESSURE

Low pressure ionic reactions in gaseous cyclobutane 06 p1004 A70-17328

Pressure-time history in spherical shock waves flow field at low ambient pressures recorded with piezoelectric transducers, showing shock strength decrease 06 p1052 A70-18385

Fixed low pressures of nitrogen generated by chemical dissociation in system at equilibrium at constant temperature, applying results to vacuum measurement device calibration 09 p1630 A70-22954

Orbitron ion gauge experimental designs for low pressure applications 12 p2231 A70-27264

Ultravacuum measurement and calibration assembly for pressures down to one picotorr for vacuum gage standards 23 p4143 A70-44871

LOW PRESSURE CHAMBERS

U VACUUM CHAMBERS

LOW SPEED

Electrohydraulic control system dynamics, examining executive component loading at low speeds and nonlinear resistances

13 p2349 A70-29720

Constant temperature linearized hot-wire anemometer for low velocity high turbulence flow

21 p3827 A70-41455

STOL aircraft low speed handling characteristics described via approach and landing profiles, power requirements, wind effects, etc

[AIAA PAPER 70-1332]

24 p4291 A70-45936

LOW SPEED HANDLING

U CONTROLLABILITY

U LOW SPEED

LOW SPEED STABILITY

Longitudinal stability of V/STOL aircraft at low speeds, discussing three tilt wings and quad ducted propeller configurations

[AIAA PAPER 69-194]

07 p1195 A70-20410

Airfoil analysis and synthesis, discussing computer graphics application to low speed shape and improved pressure distribution

08 p1594 A70-21867

Low speed buffet intensity under pressure fluctuations on slender wing aircraft at vortex breakdown, using wind tunnel model

10 p1963 A70-25067

Blunt planetary entry body free fall drop tests determining low speed stability and base pressure characteristics

[AIAA PAPER 70-577]

13 p2342 A70-29892

Small airplane unsteady motion downwash angle at low speeds, comparing results from rectilinear steady flights

[ICAS PAPER 70-25]

23 p4138 A70-44108

LOW SPEED WIND TUNNELS

NT SUBSONIC WIND TUNNELS

Blockage and wall corrections proposed for obtaining uniform results from low speed wind tunnel models

05 p0789 A70-15812

Low speed wind tunnel test results correction program, considering solid, wake blockage, lift, static pressure gradient and wall interference effects

06 p0968 A70-17934

Low speed wind tunnel design and construction for laboratory experiments and research projects, describing test sections

16 p2889 A70-33769

Low speed airfoil two dimensional testing in wind tunnel with slotted wall, examining lift, drag and pitching moments

[ICAS PAPER 70-08]

23 p4132 A70-44119

LOW TEMPERATURE

Mass and radius relations for zero temperature spheres of chemical elements, using equation of state and numerical integration

04 p0749 A70-14599

Chilled emulsion photography for astronomy and spectrography, reducing long exposures with chilled plates

14 p2585 A70-30649

Relaxations from anelastic and dielectric measurements of fused silica and soda-silica glasses at low temperatures ascribed to vibration modes exceeding Debye spectrum

16 p2960 A70-32996

Passive radiative coolers role in utilizing IR detector systems for low temperature spacecraft applications, describing staged radiator design, optimization and tests

[AIAA PAPER 70-854]

16 p2983 A70-33921

Thermocouples and resistance thermometers comparison for low temperature measurements

19 p3432 A70-38703

Pt resistance thermometers for low temperature measurements, discussing structural and mechanical characteristics

19 p3432 A70-38704

Low temperature Ge diode thermometer with computer circuit transforming voltage to temperature readout

21 p3828 A70-41473

LOW TEMPERATURE BRAZING

Ti sandwich structures low temperature brazing with Al alloy, describing fabrication process and mechanical properties

20 p3638 A70-39969

LOW TEMPERATURE ENVIRONMENTS

Temperature measuring devices design for ultrahigh/ultralow temperatures, examining heat effects on gases, liquids and solids

02 p0295 A70-11864

Recombination emission of InSb semiconductor at low temperature during pinch effect with electron gas degeneration, calculating spectral distribution and effective temperature vs current

03 p0539 A70-13406

Thermal conductivity, electrical resistivity, Lorentz ratio and thermopower of aerospace alloys at cryogenic temperatures, considering Inconel, Hastelloy, Ti and Al alloys

03 p0512 A70-13807

Deep freezing of nuclear precession magnetometer elements for improving instrument characteristics accuracy

05 p0851 A70-16769

Testing equipment and methods for metallic materials selection for low temperature applications, characterizing plasticity by yield strength, tensile strength, elongation, etc

05 p0864 A70-16805

Correction factor for free stream Reynolds number errors resulting from low temperature viscosity in He wind tunnels

13 p2385 A70-29985

Electropneumatic actuation systems for rocket engines in extreme environment applications involving high nuclear radiation levels and high and cryogenic temperatures

14 p2535 A70-31343

Titanium monoxide thin film as low temperature getter, measuring activity coefficient and capacity under ultra high vacuum

15 p2783 A70-31844

Charpy impact test evaluation on hot rolled metal plates for low temperature welded structures

15 p2819 A70-32235

Cryobiologic potentialities on earth, investigating life forms physiological response to temperature, cryotolerance mechanisms, etc

16 p2848 A70-33093

Metal bonding at low temperatures, studying atmosphere and metal plating effects

18 p3265 A70-37203

LOW TEMPERATURE PHYSICS

Induction distances, transient pressures and wave propagation rates for detonation waves in cylindrical tube low temperature hydrogen-oxygen mixtures

03 p0607 A70-13919

Semiconductors low temperature photoconductivity fluctuations occurrence during energy relaxation probability by optical phonons

04 p0730 A70-14413

Thermal conductivity and hysteresis measured in cylindrical In foil under magnetic fields at temperatures below 1 K

05 p0891 A70-15792

Low temperature thermoelasticity theory for elastic fluids, considering fountain and second sound effects and viscosity anomalies in He II

06 p1164 A70-17442

Magnetoresistance effects in impurity conduction mode of n-type GaAs crystals below 6 K, giving electron concentration

07 p1356 A70-19796

Helium melting pressure curve to calibrate cerium magnesium nitrate or NMR low temperature thermometers

09 p1728 A70-22999

Amorphous polymers thermal conductivity measured at 0.4-4 K, observing similar temperature dependences

10 p1906 A70-23979

Aluminum alloy deformations and rupture strength under complex stress at low temperatures, observing anisotropy decrease with temperature

10 p1903 A70-24243

Parallel and perpendicular negative magnetoresistance measurements as function of magnetic field in p-type GaAs at 77 K

13 p2471 A70-29374

Specific heat measurements on disordered and ordered phases of Cu-Au alloys at low temperatures

14 p2626 A70-30497

Low temperature terminology at December 1969 Paris conference, discussing temperature scale, superconductivity, liquid He, supercooling, subcooling, cryo and cryogenic

14 p2616 A70-31013

Cryogenics and nuclear physics, discussing particle beam handling magnets, superconducting accelerators, detectors, moderators, low temperature irradiation facilities, etc

14 p2616 A70-31014

Vapor-liquid equilibria predictions for multicomponent cryogenic mixtures, applying to correlation selection in critical and low temperature regions

14 p2616 A70-31015

Thermal and electrical resistances of Na at low temperatures measured by germanium thermometers and galvanometer amplifier

14 p2617 A70-31021

Compressibility factors and virial coefficients for He-N mixture, He and nitrogen at low temperatures and high pressures

18 p3290 A70-36250

Amorphous and partly crystalline polymers low temperature thermal conductivity and heat capacity

21 p3844 A70-42136

Superconductors resonance and oscillation phenomena, discussing particle motion, energy spectrum, magnetic and temperature effects, etc

22 p4088 A70-43476

Specific heat of amorphous polymethyl methacrylate and polystyrene by pulse method below 4 K, comparing Debye and acoustic values

24 p4367 A70-45598

LOW TEMPERATURE TESTS

Critical current density enhancement in Ta-rich Zr alloys in magnetic fields at low temperature after aging

01 p0122 A70-11238

Tensile tests of polycrystalline Nb-H alloys at low temperatures, noting cooling rate effect on ductility in terms of microstructure

01 p0122 A70-11240

Friction and surface damage between clean metal hemispheres and flats at low sliding speeds and 25 K room temperature range

01 p0105 A70-11393

Age hardening characteristics of maraging martensite stainless steels containing Mo and Co subjected to subzero treatment

01 p0125 A70-11641

Calorimetric analysis and hardness test to investigate low temperature aging behavior of maraging stainless steels

01 p0125 A70-11642

Semiconductors low temperature electron energy losses due to inelastic electron scattering at neutral impurity donors shown to exceed scattering losses at phonons

03 p0539 A70-13423

Brittle fracture in neutron irradiated and nonirradiated Mo specimens tested in tension and compression at low temperature

03 p0513 A70-14013

Mechanical properties of cast light alloys at low temperatures, showing satisfactory plasticity and insensitivity to stress raisers

05 p0864 A70-16868

Stress concentration effect on mechanical properties of Ti-Ta alloys at low temperatures, showing insensitivity to notch and suitability for cryogenics

05 p0864 A70-16869

Facility for testing thin walled tubular specimens in stressed state at low temperatures by keeping stresses constant with helical gear

05 p0830 A70-17075

Materials stress rupture strength and elastic constants at liquid hydrogen temperature, describing method and facility

05 p0955 A70-17076

Rat survival rate after prolonged gradually decreased body temperature without motion restraint or kept in fixed position

05 p0804 A70-17115

Low temperature effects on deformability of middle C steel under complex stress state, showing invalid stress-strain relation and deviator similarity

08 p1516 A70-20983

Vinoflex glue for constant strain gauges in low temperature tensometry, showing satisfactory recording at single and multiple loadings

08 p1495 A70-20984

Specimen holder for 300 K/4.2 K resistance ratio measurement

09 p1655 A70-22645

Fracture toughness and deformation kinetics dependence on compositional, microstructural and textural variations of alpha and alpha-beta Ti alloys at low temperatures

09 p1704 A70-22801

Evanohm alloy resistance wire for applications in magnetic field, illustrating percentage change at 4.2 K

09 p1679 A70-22998

Nb-W single crystal low temperature thermally activated deformation, observing slope change in temperature dependence curves of flow stress and strain rate sensitivity

09 p1708 A70-23572

Apiezon N grease thermal conductivity at liquid helium temperatures noting behavior as insulator

12 p2258 A70-27024

Cavity and storage temperature effects on hydrogen maser oscillation in 77-293 K range

13 p2425 A70-28713

Al weldable alloys for cryogenic applications, considering plasticity, brittleness and tensile and yield strengths at low temperatures

14 p2597 A70-30968

Low temperature tensometry application to stress-strain state of turbine disks

15 p2733 A70-31537

Gaseous Al oxide bond bending frequency in Ne and Ar matrices at liquid He temperatures, investigating IR spectrum

15 p2695 A70-32830

Microscopic and macroscopic viewpoints of low temperature brittle fracture, noting Inglis, Griffith and Barenblatt theories

16 p2989 A70-33671

Low temperature effects on Ti alloys welded joints elasticity

17 p3126 A70-35637

Dry friction and wear tests of various materials in vacuum at low temperatures

18 p3263 A70-36471

Cryogenic attachment for cooling and tilting metal samples in electron microscope

18 p3259 A70-36474

Cardioid condenser as radiometer mirror objective in low temperature radiometry, describing optical characteristics 19 p3420 A70-37261

Low temperature creep deformation recorder with liquid He coolant, discussing Al and Pb single crystal tests 19 p3395 A70-37352

Ti alloys low temperature strength and plasticity, noting twinning and additives effects 19 p3450 A70-37457

Friction reducing oxide layer effects on Ti alloys low temperature plastic and mechanical properties 19 p3450 A70-37458

Low temperature electrical resistivities of Al, Ni, Cu, Ti and Fe alloys for different heat treated conditions 19 p3452 A70-37825

Strain measuring apparatus for multiple samples simultaneous compression tests at near absolute zero temperatures 20 p3632 A70-39628

Carbon resistors negative magnetoresistance measurement near absolute zero temperature by helium cryostat, noting anisotropy 20 p3687 A70-40168

Low temperature anharmonicity in thorium dioxide with Co 57 impurities, using Mossbauer effect of Fe 57 21 p3862 A70-40975

Polymers low temperature relaxation behavior, discussing molecular structure, crystallinity, copolymerization, etc 21 p3844 A70-42135

Impurities concentration estimate in metals by low temperature residual resistivity, investigating contact and contactless measurements 22 p4052 A70-42573

Aluminum, duralumin and stainless steel tensile strength tests at cryogenic temperatures 23 p4206 A70-44353

Cryogenic thermocouples of various metal pairs for low temperature measurements, discussing performance tests and calibrations 24 p4378 A70-45385

Vacancies in vanadium carbide /V3C2C8/ crystals with predicted lattice defects at low temperature, considering entropy 24 p4365 A70-46353

LOW THRUST

NT MICROTHRUST

Optimum low thrust ion propelled interplanetary trajectory design using two step Chebyshev method 17 p3167 A70-35232

Communication satellites low thrust transfer to synchronous orbit by two-stage operation using hydrogen resistojets and Hg ion motors [AIAA PAPER 70-1116] 20 p3691 A70-40227

Optimal low thrust transfer between coplanar circular orbits, examining thrust direction and steering as Mayer problem 22 p4097 A70-42489

LOW THRUST PROPULSION

NT ELECTROMAGNETIC PROPULSION

NT ELECTROSTATIC PROPULSION

NT ION PROPULSION

NT MAN OPERATED PROPULSION SYSTEMS

NT PHOTONIC PROPULSION

NT PLASMA PROPULSION

NT SOLAR PROPULSION

Heat exchange unit for low thrust attitude control propulsion system evaporator designed for converting liquid propellants to gas [AICHE PREPRINT 25] 01 p0216 A70-10969

Automated parameter search techniques applied to low thrust mission design, stressing trajectories and mission optimization [AIAA PAPER 69-261] 04 p0736 A70-15404

Tangential thrust, constant acceleration trajectories for close solar probe missions using low thrust electric engines 06 p1137 A70-17177

Heliocentric low thrust spacecraft trajectory analysis using two-variable asymptotic expansion method [AIAA PAPER 70-214] 06 p1145 A70-18064

Low thrust trajectory and performance analysis of solar electric propulsion system for unmanned interplanetary exploration 06 p1145 A70-18081

Analytic Trajectory Optimization Model to develop computational techniques for low thrust mission analysis [AIAA PAPER 70-96] 06 p1159 A70-18230

30 cm diameter mercury bombardment low impulse thruster development for potential space applications, discussing performance and control [AIAA PAPER 69-238] 07 p1365 A70-19704

Optimal acceleration from earth orbit to hyperbolic velocities of low thrust space vehicle, constructing asymptotic expansions near and far from central field 10 p1940 A70-24305

Pulsed plasma microthruster propulsion system for synchronous orbit LES 6 satellite [AIAA PAPER 69-298] 13 p2473 A70-28504

Hollow cathode mercury electron bombardment thruster design, emphasizing low specific impulse operation and discharge chamber improvements 13 p2473 A70-28505

Low thrust mission simulation dependence on hardware definition, discussing power plant characteristics, jet velocity and thruster efficiency 13 p2486 A70-28517

Interplanetary low thrust orbit transfer optimization by dynamic programming, including gravitational perturbation effects from earth, Mars and Jupiter 14 p2640 A70-30759

Low thrust high impulse nuclear and electric space propulsion systems, discussing performance capability for space missions 18 p3290 A70-36566

Three body numerical solutions to low thrust guidance and navigation for outer planet orbiter with nuclear-electric propulsion [AIAA PAPER 70-1040] 19 p3527 A70-38855

Low thrust interplanetary swingby trajectories optimization, considering thrusting and coasting within sphere of influence [AIAA PAPER 70-1041] 19 p3527 A70-38856

Optimal low thrust power plant for spacecraft payload-maneuver tradeoff 21 p3866 A70-40832

Low specific impulse hollow cathode mercury thruster for deep space electric propulsion, using SERT 2 configuration [AIAA PAPER 70-1099] 21 p3866 A70-40893

LOW TURBULENCE

Kinetic equation for nonlinear interaction of waves, including unstable or damped, using Bogoliubov method 09 p1659 A70-22214

Probability densities and distributions, moments and spectra from time derivatives of streamwise velocity fluctuation in curved mixing layer, measuring small scale turbulence structure 20 p3609 A70-39652

LOW VELOCITY

U LOW SPEED

LOW VISIBILITY

Visibility improvement in fog at airports, discussing fog-seeding and warm fog modification operations 01 p0135 A70-11320

Low visibility aircraft landing problem concerning pilot instrument and visual cue and federal regulations governing operational approval [AIAA PAPER 70-936] 17 p3134 A70-35845

Runway low visibility and ceilings frequency and duration at German airports, using 1949-1967 statistical data 19 p3462 A70-37925

Airport fog layers repetition frequency after low visibility periods 22 p4065 A70-43246

LOWER ATMOSPHERE

NT OZONOSPHERE

Book on atmospheric circulation systems structures and physical interpretation, concentrating on lower atmosphere and North America 01 p0069 A70-10126

Upper atmosphere-lower atmosphere interactions, middle atmospheric physics and dynamics and mesospheric seasonal and large scale zonal and meridional behavior 01 p0073 A70-10581

Hydrostatic equation nonequilibrium terms role in single and multicomponent atmospheres, deriving solutions to Boltzmann equation 02 p0328 A70-12386

Primary protons energy estimated from energy ratio with maximum extremal distribution of electron numbers in lower half of atmosphere 03 p0527 A70-13054

Diffusion categories and propagation of radioactive elements in lower atmosphere determined with respect to measured radiation balance, temperature gradient and wind 03 p0521 A70-14290

Atmospheric space charge magnitude and polarity below 50 km based on rocket probes 04 p0675 A70-14437

Lower atmosphere VLF heat turbulence as function of precipitation, indicating atmospheric layers existence for different weather situations 05 p0879 A70-16315

Lower atmospheric photochemistry, discussing tropospheric, stratospheric, mesospheric and polluted atmospheric chemical and photochemical reactions 06 p1058 A70-18485

Short lived cosmic ray produced nuclides as lower atmospheric motion tracers, studying Na 24 characteristics and activity in rain water 07 p1373 A70-20355

Atmospheric variables /velocity, temperature, energy, etc/ spectra in lowest few hundred meters 09 p1714 A70-22352

Wind HF inclination variations in lower atmosphere, considering turbulent kinetic energy dissipation and buoyancy production 09 p1714 A70-22355

Atmospheric momentum and heat flux height variations in surface boundary layer, stressing instrument performance and measurement techniques 09 p1715 A70-22359

Lower atmosphere turbulence under convective conditions, comparing Doppler radar and instrumented aircraft wind speed fluctuation measurements 09 p1716 A70-22367

Stratified atmosphere boundary layer motions, studying turbulence and internal gravity waves characteristics 09 p1716 A70-22369

Diffuse light transmission from point sources over horizontal paths in lower atmosphere, discussing effect of range 10 p1912 A70-24424

Atmospheric space charge magnitude and polarity below 50 km based on rocket probes 13 p2392 A70-28462

Radar meteorology, discussing convection in lower atmosphere and clear air turbulence observations 13 p2443 A70-28475

Lower atmospheric layer temperature and wind vertical distribution effect on wind velocity ratio to geostrophic wind at earth surface 13 p2444 A70-28586

Atmospheric optical thickness from radio telescopic measurements of wave absorption at millimeter wavelengths, showing dependence on lower atmospheric moisture content 14 p2546 A70-30127

Numerical model of diurnal variations of minor neutral constituents in mesosphere and lower atmosphere including molecular and eddy diffusion 15 p2727 A70-31909

Ionospheric E region winds correlations to lower atmosphere meteorological phenomena 17 p3077 A70-34950

Absolute cosmic ray ionization in lower atmosphere, using air-filled ionization chamber 18 p3305 A70-36001

Turbulent energy dissipation in lower atmospheric layer on meteorological mast during various temperature stratifications 18 p3247 A70-36627

Venus lower atmosphere structure and brightness temperature spectrum analysis for composition, temperature and pressure profiles 18 p3323 A70-37139

Lower atmosphere refractive index vertical distribution and fluctuations, using airborne refractometer 20 p3619 A70-39191

Lower atmosphere cosmic ray ionization calculation, using high energy transport code 20 p3699 A70-39348

Gust field in lowest atmospheric layer over homogeneous terrain, deriving statistical models and simulating effects on XV-5 V/STOL aircraft 21 p3750 A70-40784

Clear lower atmosphere meteorological parameters remote sensing for weather forecasting, comparing optical, radio and acoustic radar techniques 21 p3785 A70-40802

Mars lower atmosphere vertical temperature distributions from Mariner 6 and 7 radio occultation data, using improved trajectory estimates 21 p3884 A70-40908

Molecular oxygen density and vibrational distribution in lower atmosphere, observing solar UV radiation absorption by satellite OSO-4 21 p3816 A70-41066

Global atmospheric electrical structure, considering emf from thermally driven tidal motions in lower atmosphere 22 p4016 A70-42783

Lower atmosphere electric field vertical distribution measurement by combined balloon and rocket soundings 22 p4017 A70-42797

Perturbation method with small parameter applied to turbulent transfer equation in lower atmosphere, solving longitudinal diffusion effect on evaporation 22 p4065 A70-42911

Lower atmosphere gravity wave motions due to cooling by solar eclipse shadow 23 p1815 A70-43845

Internal gravity wave shape at temperature inversion in lower atmosphere from high resolution vertically pointing FM/CW radar sounding 23 p4162 A70-44038

Earth atmospheric boundary layer wind velocity, temperature gradients and specific humidity differences, calculating climatic correlations from mathematical circulation model 23 p4214 A70-44264

Monin-Obukhov function and nondimensional transfer coefficients variation, discussing turbulent motion decay in lower atmosphere 24 p4372 A70-46072

LOWER IONOSPHERE
NT D REGION

Lower ionosphere radio wave partial reflection strength relationship to electron density profiles measured by rocket probes

01 p0045 A70-11089

Seasonal phase changes of semidiurnal tidal wind components in lower ionosphere demonstrated from ionospheric drift measurements

01 p0078 A70-11212

Vertical wind observations during lower ionosphere wind measurements by Na release method, discussing gravity effects and standing waves

01 p0078 A70-11213

Geomagnetic field directed hydromagnetic waves propagation in lower ionosphere noting inhomogeneous conductivity, Hall effect and lines of forces role

01 p0083 A70-11546

Solar X-ray bursts observations correlation with sudden phase anomalies measured at long VHF propagation paths in lower ionosphere

03 p0558 A70-13601

Stellar X ray effect on nighttime lower ionosphere wave reflection suggested from VLF propagation data

03 p0562 A70-14224

Positive ion concentration profiles in lower nighttime midlatitude ionosphere calculated from corpuscular radiation measurements and ion recombination constants

04 p0738 A70-14436

Polar lower ionosphere, using radar VLF step frequency sounding to determine reflection phase height at given propagation path

04 p0680 A70-15115

Signal amplitude and Doppler shift statistical characteristics calculated from sounding data on scattering at lower ionospheric discontinuities

04 p0650 A70-15284

Lower ionospheric cosmic layer state during Forbush decreases from radio absorption observations interpreted on basis of electron production rate analysis

04 p0743 A70-15720

Geomagnetic field lines inclination effect on hydromagnetic waves propagation in lower ionosphere, using atmospheric model in plane form with integral conductivity tensor

04 p0683 A70-15737

Radio wave absorption coefficient in lower ionosphere related to total radiation absorption and electron concentration profile

05 p0843 A70-16761

Night lower ionosphere at midlatitudes additional ionization ascribed to solar corpuscular fluxes

06 p1135 A70-17839

Solar particles penetration to lower ionospheric heights at low latitudes indicated from proton flux measurements by Explorer 33 satellite and Calcutta station

07 p1366 A70-18849

Lower ionosphere effects on HF propagation modes observed by pulse system, discussing propagation time, mode structure, transmission loss, etc

07 p1232 A70-19179

Diurnal variations of lower F region ion composition and recombination coefficient based on numerical modeling of continuity equations for electrons and molecular species

07 p1265 A70-19431

Numerical modeling of electron and molecular ion continuity equations describing conditions in lower F region near magnetic equator using analog computer

07 p1265 A70-19434

Sunrise effects in lower ionosphere at midlatitude, discussing long wave absorption measurements, summer electron concentration profile and consistency of aeronomic model

07 p1235 A70-19436

Electron production rate enhancement by solar cosmic rays in lower ionosphere, considering particle distribution and polar cap absorption

07 p1369 A70-20153

Winter anomaly ionization in lower ionosphere at medium latitudes from radio propagation observations, comparing wave absorption and phase height measurements

07 p1274 A70-20273

Solar corpuscular fluxes directional distribution time dependent changes effect on lower ionospheric electron production rates

07 p1373 A70-20344

27-day variations in ionization layer created by galactic cosmic rays, discussing association with 27-day cosmic ray and geomagnetic field variations

07 p1373 A70-20345

Electron production in lower ionosphere by solar cosmic rays, calculating rates by computer as function of nuclear charge number, energy spectrum and height

07 p1373 A70-20348

Lower ionosphere electric fields and currents vertical profiles above geomagnetic equator under quiet geomagnetic conditions from rocket data

07 p1277 A70-20453

Lower ionosphere geomagnetic field local gradients determination by partial reflection method

07 p1277 A70-20455

Cosmic layer in lower ionosphere investigated by 164 kHz frequency absorption at night, discussing solar activity effects

10 p1934 A70-25198

Geomagnetic field upward calculation in lower ionosphere, discussing accurate data acquisition difficulties in Dirichlet problem solution

11 p2043 A70-25544

Solar L alpha and X ray emission contribution to lower ionosphere ion production, discussing altitudinal, latitudinal and temporal variations

11 p2106 A70-26789

Ionospheric lowest regions and magnetosphere probing based on atmospheric observations, detecting disturbed conditions

12 p2224 A70-27734

Forbush effects influence on cosmic layer state in lower ionosphere using long radio waves

12 p2295 A70-28220

Positive ion concentration profiles in lower nighttime midlatitude ionosphere calculated from corpuscular radiation measurements and ion recombination constants

13 p2475 A70-28461

Tidal forces effect on wind system in lower ionosphere, using Navier-Stokes equation for lower layer and Euler equations for upper layer

14 p2571 A70-30232

Lower ionosphere nonuniformities drift velocity and direction using space diversity reception

14 p2571 A70-30233

Lower ionosphere influence on radio reflection from sporadic E layer, determining diurnal variations of D region absorption for various frequencies

14 p2547 A70-30235

Lower ionosphere radio reflection during solar eclipse of 22 September 1968

14 p2571 A70-30237

VHF wave interference from heavy ion layers in lower ionosphere

14 p2574 A70-30737

Lower ionosphere electron densities seasonal variations relationship to atmospheric circulation

14 p2574 A70-30742

Lower ionospheric drift motions observed from VHF radio signal, relating to three paths near auroral zone during dark hours

14 p2574 A70-30749

Lower ionospheric cosmic layer state during Forbush decreases from radio absorption observations interpreted on basis of electron production rate analysis

14 p2632 A70-30804

Geomagnetic field lines inclination effect on hydrodynamic waves propagation in lower ionosphere, using atmospheric model in plane form with integral conductivity tensor

14 p2575 A70-30821

Winter anomaly of radio wave absorption in midlatitude lower ionosphere in terms of meteorological influences and particle influx enhancements

17 p3076 A70-34936

Zonal wind component in lower ionosphere observed for gravity waves partial reflections by temperature discontinuities, using least mean square method for reflection coefficient

17 p3077 A70-34946

Lower ionosphere electron density and winter anomaly in HF absorption

17 p3077 A70-34948

Diurnal variations of lower F region ion composition and recombination coefficient based on numerical modeling of continuity equations for electrons and molecular species

18 p3249 A70-36905

Numerical modeling of electron and molecular ion continuity equations describing conditions in lower F region near magnetic equator using analog computer

18 p3249 A70-36908

Sunrise effects in lower ionosphere at midlatitude, discussing long wave absorption measurements, summer electron concentration profile and consistency of aeronomic model

18 p3249 A70-36910

Nitrogen dioxide and molecular oxygen ions densities in lower ionosphere as function of solar corpuscular radiation

19 p3409 A70-37325

Whistler mode wave propagation amplitude, polarization and dispersion in lower ionosphere, discussing electric field experiment with Nike-Tomahawk sounding rocket

20 p3622 A70-39456

Forbush effects influence on cosmic layer state in lower ionosphere using long radio waves

20 p3700 A70-40095

Long range low loss earth-detached propagation paths in lower ionosphere indicated via OV4-1 satellite experiment on guided ionospheric propagation

20 p3591 A70-40494

Lower ionospheric structure and electromagnetic resonance phenomena, describing radio equipment for solar activity effects studies

21 p3812 A70-40620

Midlatitude stratosphere and lower ionosphere density model, discussing vertical, diurnal and seasonal variations effects on spacecraft trajectories

21 p3813 A70-40830

Geomagnetic field upward calculation in lower ionosphere, discussing accurate data acquisition difficulties in Dirichlet problem solution

21 p3819 A70-41294

ELF and VLF waves in waveguide propagation mode, calculating lower ionosphere effect on attenuation and phase velocity

22 p3989 A70-42960

Ionization and loss processes for meteoric elements in lower ionosphere, suggesting hydrates formation role in alkali metal ions depletion

22 p4106 A70-43305

Lower ionosphere ionization anomalies, discussing sunrise seasonal change effects in VLF-LF propagation, winter radio wave absorption and geomagnetic storm after-effects

22 p4024 A70-43311

Lower ionosphere electron concentration space-time variations relation to ionization source intensity fluctuations based on rocket observations and ground sounding data

23 p4190 A70-44079

Pulsed radio wave interactions with various lower ionosphere models, estimating cross modulation by computer calculation for comparison with measurements

23 p4162 A70-44080

Electron density and collision frequency distributions in lower ionosphere, deriving error limits from VLF and LF sounder data

24 p4314 A70-46127

Tidal forces effect on wind system in lower ionosphere, using Navier-Stokes equation for lower layer and Euler equations for upper layer

24 p4331 A70-46307

Lower ionosphere nonuniformities drift velocity and direction using space diversity reception

24 p4331 A70-46308

Lower ionosphere influence on radio reflection from sporadic E layer, determining diurnal variations of D region absorption for various frequencies

24 p4316 A70-46310

Lower ionosphere radio reflection during solar eclipse of 22 September 1968

24 p4332 A70-46312

LOX [OXYGEN]

U LIQUID OXYGEN

LOX-HYDROGEN ENGINES

U HYDROGEN OXYGEN ENGINES

LRC CIRCUITS

U RLC CIRCUITS

LRV [VEHICLE]

U LUNAR ROVING VEHICLES

LSI

U LARGE SCALE INTEGRATION

LUBRICANT TESTS

Roller bearing endurance dependence on shaft speed, surface finish and elastohydrodynamic lubricants temperature, viscosity and film thickness

[ASME PAPER 69-LUB-18] 01 p0101 A70-10387

Potential lubricants in friction and cup forming tests of stainless steel, Ti- and Ni-base alloys, considering boron nitride, graphitic materials and Mo oxides

02 p0309 A70-12540

Phosphorus compounds inhibition effect on oxidation and wear of graphite lubricants

13 p2437 A70-28854

Lubricating fluids effects on three-body abrasion wear rates, considering roles of viscosity and abrasive type

13 p2419 A70-28896

Materials test fixture design and fabrication for vacuum testing and evaluation of slip rings and brushes, discussing dry film lubrication

16 p2920 A70-33812

LUBRICANTS

NT GAS LUBRICANTS

NT HIGH TEMPERATURE LUBRICANTS

NT LUBRICATING OILS

NT SOLID LUBRICANTS

Film-vapor interface shape for thin liquid lubricating film, analyzing two dimensional Newtonian flow including gravity, inertia and surface tension effects

[ASME PAPER 69-LUB-3] 01 p0103 A70-10399

Inertia forces effect in turbulent and laminar, self acting and infinitely long film bearings, considering compressible and incompressible lubricants

[ASME PAPER 69-LUB-2] 01 p0103 A70-10400

Inertia effect of electrically conducting lubricant on load capacity of hydromagnetic inclined slider bearing under magnetic field

01 p0104 A70-11389

Load support and leakage from microasperity lubricated face seals, developing hydrodynamic lubricant films

[ASLE FICFS PREPRINT 21] 02 p0308 A70-12174

Conducting fluid as MHD lubricant for cylindrical bearings, deriving equations for ideally conducting shaft and bearing and arbitrary Reynolds numbers

04 p0697 A70-14544

Compression test for ductile materials based on Saint Venant principle of plasticity to reduce friction effects on deformation by lubricant pressurization
04 p0776 A70-15373

Load capacity and power loss of spiral groove bearings lubricated by incompressible liquid with temperature-dependent viscosity, using momentum and energy equations
05 p0853 A70-15778

Moisture absorptivity and hydrolytic stability effects on operational parameters of gas turbine engine lubricants
06 p1075 A70-17222

Unspinnable, molecular weight acids, alcohols and esters effect on rheological properties of lithium lubricants based on synthetic fatty acids
06 p1076 A70-17800

Plastic lubricants motion in circular pipes, determining drag and cross sectional velocity profile of laminar flows
07 p1290 A70-18652

Thickening of fluids with tetrafluoroethylene polymer to provide physically and chemically stable grease type lubricants for military applications
07 p1292 A70-18863

Sliding bearings with non-Newtonian lubricants, noting pressure gradient change effect caused by speed fluctuation and material constants
10 p1893 A70-24015

Corrosive wear due to oxygen and/or moisture in air indicated as major failure mode in lubricated gears
10 p1895 A70-24852

Die surface composition effects on lubricant efficiency in metal working judged by friction coefficient and surface damage
13 p2418 A70-28830

Nonaggressive liquid media effect on residual strains and phase transformations initiation and development in polyurethane parts operating in lubricants, discussing wear resistance
13 p2439 A70-29431

SST aircraft fuels and lubricants, discussing fire hazard and pollution minimization
13 p2473 A70-29999

Lubricant ingredients and additives properties effect on surface quality of cold rolled semifinished Al products
14 p2590 A70-30837

Molybdenum disulfide and phenol formaldehyde resin lubricants for hydroextrusion of steel
15 p2743 A70-31639

Lubrication role in aerospace engineering, discussing lubricant and component selection, environmental factors, etc
16 p2923 A70-34155

Friction and temperature fields in lubricant film of journal bearings, discussing friction torque and heat dissipation
[ASME PAPER 69-LUB-24] 19 p3434 A70-37601

Film-vapor interface shape for thin liquid lubricating film, analyzing two dimensional Newtonian flow including gravity, inertia and surface tension effects
[ASME PAPER 69-LUB-3] 19 p3435 A70-37610

Inertia forces effect in turbulent and laminar, self acting and infinitely long film bearings, considering compressible and incompressible lubricants
[ASME PAPER 69-LUB-2] 19 p3435 A70-37613

Liquid lubricant unsteady motion and pressure distribution during pivot harmonic vibration in hydrodynamic bearing
23 p4200 A70-44163

LUBRICATING OILS

Lubricating oil chemical composition changes influence on combustion engine internal friction, considering surface active Zn, armco-iron and Al
01 p0099 A70-10077

Roller bearing endurance dependence on shaft speed, surface finish and elastohydrodynamic lubricants temperature, viscosity and film thickness
[ASME PAPER 69-LUB-18] 01 p0101 A70-10387

Hydrodynamic and elasticity equations for squeeze films between elastic cylinders in normal approach reduced to integral equation
[ASME PAPER 69-LUB-13] 01 p0102 A70-10392

Rigid body dynamics of turborotors in fluid film journal bearings, investigating initial transients effect on motion stability by Runge-Kutta technique
[ASME PAPER 68-LUB-7] 02 p0307 A70-12165

Hydrodynamic theory of elastic-viscous liquid lubrication for journal bearings, assuming stress-strain relationship with unequal cross stresses
05 p0855 A70-16509

Oil vapor lubricated bearing for compensated antenna of spin stabilized spacecraft, discussing service life, power and storage in sintered porous material
[DGLR-69-062] 07 p1391 A70-18775

Liquid and solid lubricants, discussing properties, temperature ranges, costs, environmental effects and outlook
07 p1316 A70-18953

Rheology applied to motor oil viscosity, elastohydrodynamic /EHD/ and extremely thin film lubrication, examining viscosity relationship to film thickness
07 p1293 A70-18954

Ultrasonic testing of hydraulic liquids and aircraft and engine lubricating oils resistance to viscosity decrease, analyzing large molecule compounds disintegration
09 p1693 A70-23405

Lubricating oils viscosity deterioration during sliding motion in machines determined by quantitative evaluation
09 p1693 A70-23407

Irreversible viscosity decrease and thermal stability in polymer-containing lubricating oils under shearing forces effect
09 p1693 A70-23408

Fluorinated lubricating oils and greases for use as liquid oxygen compatible lubricants, correlating stability and hydrogen substitution
10 p1907 A70-24064

Hydrostatic oil journal bearings performance with several supply holes and incompressible lubricant, analyzing Reynolds pressure equation by numerical method
10 p1895 A70-24851

Spectrometric oil analysis program /SOAP/ for engine and transmission components damage detection and preventive maintenance in military aircraft
12 p2240 A70-27017

Synthetic fluids as lubricants, examining physicochemical properties of polyglycols, silicones and esters
[ASME PAPER 70-DE-13] 16 p2917 A70-33421

Aircraft engine failures advanced detection by spectrometric lubricating oil analysis
17 p3061 A70-35481

Rotational stability of heavy horizontal shaft supported on plain lubricated bearings with cavitation in lubricant
19 p3438 A70-38669

Oil seals service life as function of friction horsepower
[ASLE PREPRINT 70AM 5C-1] 19 p3439 A70-38807

Hydraulic fluids and lubrication oils resistance to mechanical shear forces by ultrasonic method based on acoustically induced cavitation effects
20 p3655 A70-39718

LUBRICATION

NT BOUNDARY LUBRICATION

NT SELF LUBRICATION

NT SPACECRAFT LUBRICATION

Elongation and combined shear stresses in incompressible creeping plane flows of viscoelastic lubrication for squeeze-film bearings
[ASME PAPER 69-LUB-22] 01 p0101 A70-10385

Dry lubricated instrument-size ball bearings operation in vacuum for long life and quality performance
[ASME PAPER 69-LUB-21] 01 p0101 A70-10386

Inertia effects in squeeze film between two curved surfaces and in externally pressurized bearing with converging lubricant film
01 p0104 A70-11388

Pressure drops in turbulent flow through circular or plane parallel section pipes, obtaining mean velocity expressions suitable for application to lubrication
02 p0277 A70-11912

Inertia effects on pressure distribution, load capacity and frictional torque in MHD hydrostatic thrust bearing lubrication flow
02 p0307 A70-12162

Lubrication problem for centrally pivoted tilting-pad sector thrust bearings with temperature and elasticity effects, noting iterative solution for coupled equations
[ASME PAPER 68-LUB-4] 02 p0307 A70-12166

Rayleigh step journal bearings, considering pressure distribution, load capacity and attitude angle and optimal film thickness ratio for incompressible fluid lubrication
02 p0307 A70-12167

Newtonian liquid lubricated spiral groove bearing load capacity and power loss dependence on viscosity variations with temperature
[ASLE PREPRINT 69-LC-21] 02 p0309 A70-12533

Calculus of variations used for determining optimum one dimensional MHD slider bearing with bounded control variables
[ASME PAPER 69-WA/LUB-2] 04 p0698 A70-14771

Laboratory tests on jet fuels indicating lubricity improvement by corrosion inhibitor addition
[SAE PAPER 690667] 05 p0894 A70-15836

Tractive behavior in elastohydrodynamic lubrication contact noting role of surface degradation layer
05 p0854 A70-15888

Lip and face seal lubrication used on rotating shafts operating in compartments with fluids under pressure
07 p1293 A70-18955

Elastohydrodynamic lubrication of rollers relationship to pressure
09 p1693 A70-22978

Hydrodynamic lubrication theory two dimensional problem, comparing numerical methods for elliptical nonlinear differential equations
10 p1893 A70-24164

Hydrodynamically lubricated rectangular taper-land bearing pads, analyzing geometry, viscosity, load

capacity, friction and operating temperature conditions
13 p2418 A70-28740

Oil-vapor lubricated ball bearing system for deployable spin-free antenna of spin stabilized spacecraft
13 p2349 A70-28843

Lubrication literature covering rolling bearings, fluid films, seals, automotive, gear and metalworking lubricants, boundary lubrication, friction and wear
13 p2419 A70-29150

Flow dynamic lubrication equation for porous bearings under radial load with undefined axial dimension
15 p2745 A70-32442

Calculus of variations used for determining optimum one dimensional MHD slider bearing with bounded control variables
[ASME PAPER 69-WA/LUB-2] 19 p3436 A70-37620

Pure metals structure effect on friction and lubrication under steady slip in ultrahigh vacuum at low temperatures
19 p3438 A70-38729

Fluid film lubricated, thrust loaded, angular contact ball bearing high speed performance, predicting skidding by isothermal Newtonian behavior in ball to raceway contact
[ASME PAPER 70-LUBS-7] 22 p0405 A70-42452

Ureter fluid mechanical model from lubrication theory viewpoint, discussing waveforms, pressure distribution, etc
23 p4179 A70-43966

Human joints boosted lubrication, discussing hyaluronic acid concentration and synovial fluid viscosity during squeeze-film action
24 p4296 A70-45160

LUBRICATION SYSTEMS

Static and centrifugal filters merits for turbine engine lubrication systems, considering mechanical reliability, efficiency, dirt capacity and maintenance
01 p0164 A70-10686

Extrusion forces required for metals and alloys determined by mathematical equations correlating extrusion pressures with process variables, discussing lubrication systems effectiveness
[ASME PAPER 69-WA/LUB-6] 04 p0697 A70-14767

Sliding wear of bearing Al lubricated with polyphenyl ethers in boundary region tested by pin and cylinder wear machine producing continuous record
05 p0854 A70-15910

Bearing capacity increase due to large viscoelastic or normal stress effects in lubricants, obtaining exact results for noncavitating plane slider bearings
08 p1507 A70-21476

Frictional traction-sliding speed relation in elastohydrodynamic lubrication in Barlow-Lamb model of viscoelastic liquid, discussing oscillatory and continuous shear
09 p1691 A70-22600

Self energized hydrostatic shaft seal operating with incompressible fluid in laminar flow regime, using general lubrication theory
13 p2417 A70-28614

Literature review of sliding electrical contacts in space vehicles, covering heavy aromatic hydrocarbons, molybdenum disulfide and other lubrication materials
16 p2920 A70-33807

Liquid lubricants applications to electrical contacts, discussing hydrodynamic and boundary lubrication, film formation on solid surfaces, etc
16 p2920 A70-33808

Lubrication system components behavior in vacuum environment, investigating evaporation, friction, adhesion, wear, etc
16 p2923 A70-34156

Lubrication system flight performance and laboratory test data for space applications, considering torque motors, slip rings, bearings and gears
16 p2923 A70-34157

Controlled leakage sealing of hydrodynamic bearing lubrication systems for space vehicles in synchronous orbit
16 p2923 A70-34158

Accelerated vacuum testing of ball bearings and slippers at 30-130 F, considering dry lubricated brush/slipping material combinations
17 p3101 A70-34762

Extrusion forces required for metals and alloys determined by mathematical equations correlating extrusion pressures with process variables, discussing lubrication systems effectiveness
[ASME PAPER 69-WA/LUB-6] 19 p3435 A70-37604

Fluid inertia and compressibility effects considered in equations for foil over lubricating film
[ASME PAPER 69-WA/LUB-10] 19 p3435 A70-37615

Parallel circular squeeze film bearing, calculating Newtonian fluid inertia effect on lubrication by perturbation solution
[ASME PAPER 70-LUBS-9] 22 p0405 A70-42451

Lubrication technology for space shuttles, discussing vehicles and airbreathing and rocket engines
22 p0407 A70-43325

LUCITE [TRADEMARK]

U POLYMETHYL METHACRYLATE

LUDEB BANDS

- U PLASTIC DEFORMATION
- U YIELD POINT

LUMBAR REGION

Lumbar vertebrae transverse processes fractures in air crashes, considering factors involved, incidence and pathogenesis

17 p0303 A70-35578

Bioelectric activity changes in rats lumbar neurons, membrane and postsynaptic potential and discharge frequency during and after asphyxiation

22 p3971 A70-43404

LUMINAIRE

- NT AIRCRAFT LIGHTS
- NT AIRPORT LIGHTS
- NT ARC LAMPS
- NT FLASH LAMPS
- NT MERCURY LAMPS
- NT RUNWAY LIGHTS
- NT SEARCHLIGHTS
- NT XENON LAMPS

Kr, Xe and W-iodine lamps efficiencies for pumping Nd-doped YAG compared for use in high continuous power lasers

02 p0311 A70-11922

Electroexplosive devices protection from electrostatic discharge by creation of preferential discharge path, considering use of high intensity neon lamp

03 p0549 A70-14134

Tungsten strip lamps spectral radiance calibration, discussing accuracy requirements for radiation constants, wavelength and black body temperature

13 p2410 A70-29655

Blinking warning lights for air navigation, signaling of obstacles and glider onboard marker lights

16 p2889 A70-34302

Nuclear light bulb and coaxial flow gaseous core nuclear rocket reactors based on energy transfer via thermal radiation

22 p4070 A70-43182

LUMINANCE

Background luminance effect on flash brightness in eyes, measuring increment threshold and luminances required for various brightnesses

01 p0025 A70-11052

Target-field luminance or duration effect on target susceptibility to masking demonstrated in visual backward masking study

01 p0039 A70-11163

Polarization role in radiation scattering by planetary atmosphere, considering luminance variation and Rayleigh scattering

14 p2651 A70-31302

Light sources design with variable uniform luminance for space exploration cameras calibration [JPL-TR-32-1470]

15 p2737 A70-32037

Exposure duration effect on luminance requirements for hue perception and identification

17 p3040 A70-35724

LUMINESCENCE

- NT BIOLUMINESCENCE
- NT CHEMILUMINESCENCE
- NT ELECTROLUMINESCENCE
- NT FLUORESCENCE
- NT LUNAR LUMINESCENCE
- NT OPTICAL RESONANCE
- NT PHOSPHORESCENCE
- NT PHOTOLUMINESCENCE
- NT SHOCK WAVE LUMINESCENCE
- NT THERMOLUMINESCENCE
- NT X RAY FLUORESCENCE

Edge luminescence effect in doped p-GaAs single crystals with various hole concentrations, determining band structure at liquid nitrogen and room temperature

01 p0154 A70-10097

Light emission by solids, discussing injection lasers, luminescence semiconductor diodes, group 2 and 6 compounds, etc

01 p0160 A70-11288

Nitrogen, oxygen and air luminescence spectra excited by fast electrons at low gas pressures in IR spectral region compared with polar auroral spectra

01 p0083 A70-11536

Luminescence quantum yield in neodymium glass, noting independence to stimulating light frequency

01 p0114 A70-11595

Electron-phonon interaction model of temperature dependence of luminescence produced by multiphonon nonradiative transitions in Cr ions of ruby crystal, deriving transition probability

03 p0538 A70-13058

Temperature dependence of luminescence quantum yields and lifetimes in transitions during excitation of ruby crystal atoms

03 p0538 A70-13059

Meteor particles spatial density and energy characteristics on space vehicles, using luminescent sensors coupled with photomultiplier

04 p0744 A70-14445

Enstatite luminescence response for bulk specimens, powders and individual grains, considering selenological implications

05 p0909 A70-16391

Luminescence materials providing primary, secondary and emergency illumination for aircraft safety, discussing application to dials, panels and anticollision measures

06 p0986 A70-17718

Minority carriers lifetime following CdS and ZnTe spontaneous luminescence relaxation after electron beam excitation

07 p1302 A70-20318

Absorption and luminescence in complex molecules and semiconductors, describing particle distribution and Fermi quasi-levels dependence on temperature and excitation intensity

08 p1555 A70-20510

Uranyl ion luminescence and absorption cross section in silicate glass excited by high power light beam, considering Q switching action of ion

08 p1510 A70-20516

Population of P level He excitation in solar prominences in H luminescence regions, noting ionization-recombination mechanism by UV radiation

08 p1564 A70-20555

Vitreous transparent solids emission after irradiation by Q switched laser, ascribing luminescence to multiphonon and excitonic phenomenon

09 p1710 A70-22836

Luminescence and destruction of gaseous boron trichloride by carbon dioxide laser radiation

11 p2064 A70-26818

Luminescing materials remote sensing during daylight by Fraunhofer line depth method with sun as excitation source

12 p2221 A70-26958

Diffuse galactic radiation and absorbing clouds luminescence illuminated by integral stellar radiation in Milky Way

12 p2307 A70-27866

Lattice defect influence on EPR spectral and luminescent characteristics of annealed Fe doped gallium arsenide crystals

12 p2288 A70-28330

Meteor particles spatial density and energy characteristics on space vehicles, using luminescent sensors coupled with photomultiplier

13 p2485 A70-28470

Luminescent line broadening effect on axial mode selectivity in pulsed neodymium lasers with Fabry-Perot resonator at above-threshold pumping power

15 p2749 A70-31554

Artificial B-doped semiconductor diamond crystals resistance temperature dependence, determining conductivity and luminescence spectra

15 p2782 A70-31630

Galactic masses and mass-luminescence ratios from motions data

15 p2801 A70-32480

Population of P level He excitation in solar prominences in H luminescence regions, noting ionization-recombination mechanism by UV radiation

15 p2805 A70-32710

Metal oxides thermal control coatings, investigating mechanisms of interaction between constituents by luminescent technique [AIAA PAPER 70-832]

16 p2940 A70-33936

Defect F centers formation in MgO, discussing optical absorption bands, oscillator strengths, luminescence band, impurity centers, etc [AIAA PAPER 70-828]

16 p2940 A70-33938

Luminescence decreases in laser active medium operating in free emission mode, using kinetic equations for integral and spectral level populations

18 p3267 A70-36615

Emission spectral distribution of atomic nitrogen reaction with carbon tetrachloride for artificial luminescent clouds

18 p3293 A70-36990

CdS crystals luminescence spectrum excitation by UV light of ruby laser, noting excitons and phonons recombination

19 p3444 A70-37368

Apollo 11 lunar fines, rocks and breccias luminescence, electron paramagnetic resonance and optical properties, discussing reflection spectra, heating effects and dipole resonance

21 p3914 A70-41654

Apollo 11 lunar crystalline rock and breccias petrography and luminescent properties, spectral analysis, color, emission bands and shock effects

21 p3918 A70-41678

Carbon monoxide-nitrogen laser luminescent phenomena by electronic spectroscopy

21 p3837 A70-41717

Galactic masses and mass-luminescence ratios from motions data

23 p4240 A70-43905

Solar stimulated terrestrial materials luminescence remote detection by Fraunhofer line depth method using UV grating spectrometer

23 p4199 A70-45007

Luminescence and destruction of gaseous boron trichloride by carbon dioxide laser radiation

24 p4351 A70-45190

LUMINESCENT INTENSITY

U LUMINOUS INTENSITY

LUMINOSITY

Cambridge one mile radio telescope observations of weak sources, extending radio source luminosity function and tabulating, graphing and mapping results

08 p1578 A70-21546

Pulsating auroras X ray association with luminosity via balloon-borne X ray detector and ground based image intensifier TV system

13 p2478 A70-29228

Temperature influence on luminosity centers and line darkening in synthetic ruby powder with chromium concentration

15 p2782 A70-31558

Spacecraft meteoroid protective shield thickness sensitivity relationship to luminous efficiency

15 p2813 A70-32518

Luminous emissions related to Apollo 12 mission observed in Belgium, discussing flight chronology, gas ejection, stage separation, etc

16 p2981 A70-34318

Photometric reduction of meteor luminosity to photovisual /international/ system

19 p3515 A70-37662

Arc luminosity in cathode region of quasi-steady MPD arc jet, using high speed photography and electric and magnetic field probes [AIAA PAPER 70-1094]

20 p3683 A70-40242

LUMINOUS FLUX DENSITY

U LUMINOUS INTENSITY

LUMINOUS INTENSITY

NT ILLUMINATION

NT LUMINANCE

Icarus asteroid rotation period and brightness variation values obtained from photometric observations at Cassegrain reflector focus

01 p0180 A70-10536

Visual observations of bright comets, deriving photometric parameters from comet head total magnitude

01 p0184 A70-10953

Background luminance effect on flash brightness in eyes, measuring increment threshold and luminances required for various brightnesses

01 p0025 A70-11052

Radar and photographic studies of meteors from Leonid and Perseid showers, presenting velocities, luminescence and ionization

01 p0193 A70-11602

Numerical solutions for laser beams intensity focused by simple lenses with varying primary spherical aberration, demonstrating isophote nonuniformity role in biomedicine

01 p0000 A70-11650

Turbulence intensity, light intensity fluctuations and frequency optical measurement in diffusion flames of city gas with air, deriving turbulence spectral functions

02 p0398 A70-12038

Sudden comet brightness changes leading to discovery, tabulating and graphing comet discoveries

02 p0373 A70-12372

High intensity short pulse flash lamps using quartz envelopes and wire electrodes for pumping high energy organic dye lasers

02 p0314 A70-12741

Ultraweak luminescence intensity, radiation damage kinetics and spectral properties of cellular organelles of rat liver exposed to gamma radiation

03 p0419 A70-13304

Beta lyrae light curve changes by comparing international program observations with 1958 Lick Observatory results, discussing period, brightness, spectra, etc

03 p0568 A70-13327

Optical variations of quasars and other radio sources using photographic photometry, emphasizing bright optically violently variable /OVV/ quasars properties

03 p0568 A70-13328

Crab Nebula pulsar light intensity fluctuations on very short time scale, noting negative observations

04 p0747 A70-14545

Long term behavior of blue photographic luminosity of Seyfert galaxy 3C 120 nucleus, considering similarity to quasar 3C 273B

04 p0748 A70-14589

Frequency distribution of apparent visual magnitudes of meteors observed from November 1960 to January 1967

04 p0750 A70-14707

Critique of paper on transverse enhanced bremsstrahlung from supraluminous and subluminal longitudinal waves in isotropic homogeneous plasma

04 p0728 A70-15006

Continuous Chlorella production as function of total illumination in high intensity light system incorporating aerobic fermenter for heterotrophic cells

04 p0645 A70-15454

Monograph on He-Ne laser beam noise properties and intensity fluctuations during single mode operation

05 p0860 A70-16559

Meteor motions at cosmic velocities in real atmosphere studies to determine cause of sudden flares

06 p1140 A70-17735

Cats visual analyzer functional rearrangement mechanisms under prolonged light stimulation, considering evoked potential dependence on pulse duration and intensity

07 p1198 A70-18699

Galactic cluster A 262 luminosity function constructed from integral magnitudes of component galaxies obtained from continuous observations

07 p1376 A70-18904

Barred galaxies colorimetric data to study relative intensities and mean surface brightnesses as function of color

07 p1376 A70-18905

Galactic clusters analyzed for identifying possible relationship between cluster configuration, type of component galaxies and radio emission

07 p1376 A70-18907

Kilston Comet /1966/ total brightness measurements, discussing integral head magnitudes, observational conditions and stars comparative magnitudes

07 p1379 A70-19042

Light intensity and polarization in twilight sky atmosphere at solar depressions

07 p1263 A70-19047

Laser amplifier effect on autocorrelation function of laser radiation intensity fluctuations, determining emission coherence time

07 p1300 A70-19870

Nova Delphini 1967 brightness visual evaluations by amateurs, discussing effect of personal factors and instruments on accuracy

08 p1568 A70-20634

Time requirement determined for visual acuity restoration after illumination with short duration bright light flash

08 p1450 A70-20746

Light sensitivity restoration in humans exposed to bright flashes, studying photonic afferent system braking effect on scotopic system

08 p1450 A70-20747

Fundus oculi in polarized light, investigating light intensity variations and polarization pattern in yellow spot

08 p1444 A70-20748

Light beam intensity variations during propagation in nonlinear medium taking into account combination scattering, solving equations by difference method

08 p1461 A70-20858

Meteor abundance determination by visual observation, calculating sighting probabilities for various magnitudes

08 p1573 A70-20949

Comet brightness outbursts monochromatic measurements for lifetime of parent gaseous molecules in solar radiation fields

08 p1575 A70-21373

Brightness curves for eclipsing binary V448 Cygni indicating gas stream flows in system

08 p1577 A70-21441

Thunderstorms lightning flashes time distribution recorded visually and on radar screens, discussing statistical variations in sigma

08 p1539 A70-21648

OI 6300 A airglow intensity decrease at dawn ascribed to scattered solar radiation

08 p1492 A70-21720

Display devices luminance and luminous efficiency measurement as function of angle

08 p1500 A70-21762

Scattered field amplitude and phase determined from hologram light intensity distribution, noting biological applications

08 p1500 A70-21786

Monocular and interocular threshold luminance changes during flicker stimulation, noting interflash duration effects

08 p1453 A70-21792

Retinal temperature increases produced by intense light absorption described by heat conduction equation

09 p1614 A70-22075

Parametric image transformation during sum frequency generation

09 p1636 A70-23134

Pulsed laser beams intensity fluctuations correlation functions dependence on propagation distance in turbulent atmosphere

09 p1636 A70-23135

Axial mode gas laser radiation intensity fluctuations for plane and spherical light waves in turbulent atmosphere

09 p1636 A70-23137

Laser beam intensity fluctuations during propagation through turbulent atmosphere

09 p1637 A70-23142

Intense light effect on refractive index of potassium niobate crystals

09 p1698 A70-23317

Mode coupling and intensity pulsations observed between two 6328 A He-Ne lasers through nonlinear gain characteristics of inverted population

09 p1699 A70-23363

Compact galaxies, discussing distribution, integral photometry and isophotometry, brightness outbursts, etc

09 p1763 A70-23373

Sodium night airglow analyzed by Chapman mechanism, considering nocturnal intensity seasonal behavior and location in upper atmosphere

10 p1873 A70-23829

Predawn enhancement morphology and variations of 6300 A airglow, discussing solar declination and activity effect

10 p1873 A70-23831

Pulse-biased phototransistor imaging mosaics behavior measurement showing significant photovoltaic mode at high light levels

10 p1846 A70-23880

Hydrogen rich material forming planetary nebula ejected from contracted core of evolved star with 20,000 times solar luminosity

10 p1936 A70-23906

Liverpool airport lighting emphasizing beacons, approach, runway and taxiway high intensity lighting installations

10 p1857 A70-24000

Visual stimuli intensity influence on delay in reaction to second of pair of visual stimuli

10 p1818 A70-24721

Bright rims in North America Nebula, measuring electron temperature to derive profile characteristics

10 p1944 A70-24956

Algol variable RV Ophiuchi photoelectric observation in B and V, representing light curve characteristics by gas stream model

10 p1945 A70-24967

Outer corona brightness and polarization during total solar eclipse from satellite photographs

10 p1947 A70-24988

IR luminosity of galactic nucleus from far IR observations, noting considerations favoring nonthermal model consisting of multiple sources

10 p1947 A70-24996

Focal plane intensity of focused laser beam passed through turbulent atmospheric layer

10 p1901 A70-25160

Laser light propagation along strongly inhomogeneous turbulent path, measuring intensity fluctuations dispersion and light amplitude

10 p1844 A70-25161

Solar outer corona brightness distribution from rocket observation with scanning devices during solar eclipse, estimating error

11 p2107 A70-25397

Ultrasonic LF modulation of solid state traveling medium lasers radiation intensity attributed to elastic vibrations of rods

11 p2062 A70-25398

Hydrogen recombination and hydrogen molecules formation may explain sharp brightness variations in later dwarf stars

11 p2115 A70-26581

VX Cas brightness determination from color plates, giving values in tabular form

11 p2115 A70-26583

Steady state two frequency laser emission threshold and intensity, studying effects of two photon transitions and optical transition probabilities-radiation density relations

12 p2245 A70-27301

Brightness distribution in hologram generated image modulated by square of temporal-spatial coherence modulus of laser emitting longitudinal and transverse modes

12 p2233 A70-27503

Nova Delphini brightness variations, observing absorption lines shift toward violet

12 p2306 A70-27860

Summertime midnight airglow enhancement of 6300 A line by sensitive continuum compensating photometer, suggesting F 2 region electron density increase for emission

12 p2225 A70-27895

Laser beam intensity distribution determination from measuring Fresnel diffraction pattern at straight edge using photographic plate

12 p2249 A70-28032

Psychophysical and evoked potential correlates of changes in stimulus color and intensity compared with minimum subjective flicker conditions

12 p2171 A70-28035

Gas jet bounding of Ar arc column, providing high power/intensity light source

12 p2237 A70-28159

Forbidden Ne iv lines intensity in high excitation gaseous nebulae based on upper level-j populations

12 p2277 A70-28215

Mars border-disk brightness comparison noting atmospheric transparency effects

12 p2311 A70-28303

Resonant absorption in ruby crystal under combined acoustic and laser pulses, noting use for laser intensity measurements

12 p2251 A70-28331

Lunar surface brightness temperatures from IR observations, determining thermal emission directional characteristics to infer surface temperatures from Surveyor data

[AJAA PAPER 69-593]

13 p2486 A70-28501

Radar and optical meteor observations comparison, discussing luminosity function and angular velocity

13 p2490 A70-29042

Visual aurora properties attributed to magnetic storm following solar flare, using multiple channel photometer measurements

13 p2478 A70-29231

Kinetic changes in spectral lines and bands intensity of individual molecular gases and mixtures for carbon dioxide lasers

13 p2428 A70-29361

Absolute magnitudes of first brightest galaxies in rich clusters from luminosity model, allowing for mass variation

13 p2495 A70-29795

Quasars magnitude relation to red shift, discussing scatter in log cz vs m plane correlation with B-V color

13 p2495 A70-29797

Solar magnetic and brightness fields simultaneous measurement by multiimage spectroheliograph

13 p2496 A70-29844

Laser beams intensity fluctuations dispersions and correlation functions at various distances

14 p2593 A70-30172

HF and DF continuous chemical lasers vibrational and rotational spectra, comparing lines and relative intensities

14 p2593 A70-30274

Jupiter luminosity as indication of internal energy magnitude, comparing limb darkening with predicted brightness distribution

14 p2643 A70-30984

Shilts method applicability to electronic camera for stellar magnitude photometry, studying instrument limitations and errors

14 p2589 A70-31379

Night sky visible brightness at minus 19 degrees declination from July 1965-June 1966 in Tsumeb, South West Africa

14 p2581 A70-31390

B, In or Ga doped Si photosensitivity dependence on sample temperature, supply voltage and illumination intensity, determining optimal operating conditions

15 p2782 A70-31631

Chorioretinal damage thresholds spectral dependence of intense light sources, describing temporal, axial and radial temperature distributions

15 p2682 A70-32014

Steady state evoked potentials Fourier analysis from human scalp during psychophysical procedure of heterochromatic flicker photometry, obtaining spectral sensitivity curve

15 p2682 A70-32015

Brightness matching and sensitivity to sinusoidal flicker for various contrasts as function of surround field luminance

15 p2683 A70-32016

Solar simulation systems for uniform collimated intense light, noting high intensity lamp development

15 p2717 A70-32034

Cepheids nonequilibrium continuous emission at maximum brightness, considering phase shift between radiation intensity and stellar contraction

15 p2802 A70-32483

Meteor abundance determination by visual observation, calculating sighting probabilities for various magnitudes

15 p2806 A70-32761

Quasar 3C 298 angular dimensions and 3C 273 scintillating component at 60 MHz based on mean quasi-periods shifts of scintillations

15 p2808 A70-32885

Arp hypothesis regarding radio source ejection from galaxies tested for quasars

15 p2808 A70-32887

Amplitude and intensity interference relations from pseudothermal light sources, noting applicability to stellar interferometry

16 p2900 A70-32999

Electronic zoom for low light level TV sensor employing electrostatic image intensifier coupled optically to SEC camera tube

16 p2903 A70-33128

Low light level TV /LLLTV/ tube, camera and sensor development for military and space applications

16 p2903 A70-33129

Low light level TV systems performance relationship to visual acuity requirements, considering interfering noise characteristics effect on target recognition

16 p2903 A70-33130

Q switched subnanosecond laser system with increased intensity, using pulse selection technique

16 p2927 A70-33163

Spectrophotometric and visual observations of twilight glow from Soyuz 5, comparing vertical monochromatic brightness profiles with calculations for Elterman aerosol model

16 p2896 A70-33218

Nitrogen and air bombardment by relativistic electrons, determining absolute fluorescence intensity of nitrogen molecular ion first negative band

16 p2954 A70-33279

Mode locked laser emission intensity correlation measurements by two photon fluorescence /TPF/ technique to determine temporal behavior, discussing domain model

16 p2928 A70-33286

Low light intensities measured using photon counting method, comparing signal to noise ratio with lock-in method

16 p2911 A70-33524

Comet Alcock flareup on 27-29 May 1969, noting visible rays in coma, dust grains expulsion from nucleus, tail structure, etc

16 p2980 A70-34304

Solar limb intensity distribution in Lyman alpha line, computing LTE departures

17 p3162 A70-34895

Chlorella reproduction rates at steady and variable illumination intensity levels, determining productivity autocorrelation function by statistical analysis

17 p3030 A70-35355

Intensity logarithm fluctuations of focused laser beam propagating in summer daytime atmosphere at 250 and 650 meter path lengths

17 p3048 A70-35685

Spectrophotometric airglow intensity measurements of OH, O 16300, hydrogen H alpha and oxygen Herzberg I bands by airborne laboratory

17 p3080 A70-35769

Regular and stochastic oscillations in plasma beam discharge produced by beam instability from observing time dependent variations in spectral line luminescence intensities

18 p3294 A70-36147

Laser emission intensity oscillations during resonator Q sinusoidal variations

18 p3267 A70-36617

Amplitude and phase fluctuations of opposing waves in ring laser with allowance for waves coupling due to backscattering

18 p3267 A70-36618

Unsteady light field spatial moments in turbid medium boundary layer with intense anisotropic scattering during illumination by narrow beam

18 p3285 A70-36631

Upper atmospheric atomic nitrogen reaction with carbon tetrachloride, estimating radiation intensity and brightness of artificial luminescent cloud

18 p3252 A70-36989

Extragalactic radio source counts analysis, suggesting luminosity evolution as dominating influence

18 p3320 A70-37073

Meteor luminous efficiency and luminosity factor for mass determinations

19 p3515 A70-37661

Gas lasers intensity expression derived by theory of double resonance spectroscopy, comparing results with He-Ne laser experimental data

19 p3445 A70-37672

Prismatic adaptation under scotopic and photopic conditions in subjects, using transfer experiments

19 p3361 A70-38052

Laser radiation and solid target interaction, calculating temperature and plasma density as function of intensity

19 p3447 A70-38166

Nuclear fusion realization by focusing from intense beam neodymium glass laser

19 p3447 A70-38167

Cooled antimony-cesium film photoelectric effect for weak luminous flux, examining electronic camera reciprocity

19 p3427 A70-38175

Luminous intensity profile of optically thick Sr artificial clouds in upper atmosphere, using Monte Carlo calculations

19 p3415 A70-38388

Comet brightness curves asymmetry with respect to perigee attributed to pre- and post-heating

19 p3526 A70-38781

Kylston comet head diameter relation to brightness from photometric observations using north polar sequence stars as reference, noting camera, equipment and exposure times

19 p3526 A70-38784

Orbital elements of photographic meteors brighter than first magnitude, tabulating dates, solar longitudes, corrected radiant, velocities, major axis, etc

19 p3526 A70-38787

Lighting effects on phenylethanolamine-N-methyltransferase (PNMT) activity and adrenal epinephrine content in rats

20 p3568 A70-38982

CW second harmonic He-Ne laser light second order intensity correlation function measurements

20 p3640 A70-39153

Coronal data comparison based on 5303 A line intensities and distribution with respect to position angles

20 p3704 A70-39461

Solar outer corona brightness distribution from rocket observation with scanning devices during solar eclipse, estimating error

20 p3710 A70-40089

Ultrasonic LF modulation of solid state traveling medium lasers radiation intensity attributed to elastic vibrations of rods

20 p3643 A70-40092

Solar equatorial limb brightening at quiet sun from solar disk scanning statistical analysis

20 p3712 A70-40418

Superradiant light (SRL) converted from electron beam energy by semiconductor targets applied to nanosecond photography

20 p3635 A70-40529

Magnitude-color relation for Cygnus X-2 and WX Centauri, indicating opposite correlation to Sco X-1 fluctuations

21 p3873 A70-40672

Electrons optical scale time averaged motion dependence in focused laser beam on light intensity gradient, calculating bremsstrahlung spectrum

21 p3836 A70-40723

Laser interferometer system unwanted reflections elimination and intensities control in each arm by linear polarization method

21 p3823 A70-40820

Large sunspot umbra continuum intensity, examining visible spectra

21 p3885 A70-40956

Sunspot intensity profiles near solar limb, observing center side penumbra photosphere border

21 p3885 A70-40957

Extragalactic radio sources observable and intrinsic properties relationship for distance estimates, considering surface brightness, diameter, luminosity, etc

21 p3889 A70-41145

Earthshine bright parts relationship to average brilliance of sun during total eclipse

21 p3893 A70-41445

Magnesium-sodium nitrate pyrotechnic flare spectral radiant energy comparison with radiative transfer theory data, considering Na resonance continuum formation

21 p3850 A70-41937

Spontaneous emission intensification at 6911 A in potassium to evaluate plasma local conditions, using low pressure arc and Q switched ruby laser

22 p4049 A70-42359

Exploding wire light source modification by immersing in transparent fluid to increase intensity, measuring spectral characteristics

22 p4032 A70-43037

Ultrabright nanosecond flash light generation technique, using superradiant light sources for shadowgraph photography in high resolution hypervelocity field

22 p4037 A70-43070

Light intensity distributions within successive slits imaged by transmission gratings, using theory for spatial moire fringe blurring

23 p4217 A70-43819

Cepheids nonequilibrium continuous emission at maximum brightness, considering phase shift between radiation intensity and stellar contraction

23 p4240 A70-43907

Omicron Ceti (Mira) spectrophotometry before, during and after 1969 maximum, noting TiO bandwidth variations

23 p4242 A70-44294

Molecular oxygen ions 1Ng band and molecular nitrogen 1Pg band relative intensities in normal and type B auroras

23 p4191 A70-44408

Spectrophotometric and visual observations of twilight glow from Soyuz 5, comparing vertical monochromatic brightness profiles with calculations for Elterman aerosol model

24 p4328 A70-45193

Sco XR-1 optical intensity power spectra oscillations searched for in pulsar frequencies and fundamental radial mode vibrations in white dwarfs and neutron stars

24 p4410 A70-45762

Time evolution of instantaneous light intensity mean and variance for Q switched single mode laser near oscillation threshold

24 p3455 A70-46090

Supernovae frequency in Sb and Sc spiral galaxies, considering luminosity class, absolute magnitude and mass of parent galaxy

24 p4413 A70-46164

LUMPING

Current distribution and near field of cylindrical antennas loaded with built-in lumped elements

22 p3998 A70-43422

LUNAR ATMOSPHERES

Lunar atmosphere molecule and atom concentration from isotropic and uniform surface evaporation due to micrometeorite impact

01 p0192 A70-11541

Space research photography role in studying earth and moon atmospheres and surfaces, determining spectral bands for contrast

03 p0483 A70-13168

Gray and colorless features of moon explained as atomic H imported by solar wind replacing lost H by photolytic decomposition of water vapor

05 p0908 A70-16303

Lunar mascons origin explanation in terms of primordial atmosphere and hydrosphere

14 p2646 A70-31065

Lunar atmospheric pressure based on twilight horizon photographic data from Surveyor 7

15 p2803 A70-32500

Lunar atmosphere as source of Ar 40 and other elements in surface materials, discussing implantation by photoionization and subsequent interaction with solar wind fields

17 p3172 A70-35624

Lunar atmospheric pressure based on twilight horizon photographic data from Surveyor 7

23 p4240 A70-43921

LUNAR BASES

Legal implications of national flags on moon as symbols of national sovereignty, considering spacecraft and lunar colonies legal status by international agreements

07 p1426 A70-18877

Lunar vehicles development, emphasizing translunar exploration vehicle (TLEV) for future lunar base

14 p2563 A70-30197

Lunar based radar beacons for nearby spacecraft navigation, noting trajectory determination advantages

14 p2614 A70-30461

Lunar based astronomical research program logistics model taking into account scientific mission, launch vehicle capacities, supply and support requirements, etc

20 p3710 A70-40336

LUNAR CINEMATOGRAPHY

U LUNAR PHOTOGRAPHY

LUNAR COMMUNICATION

Lunar communications systems considering use of satellites, metallic particle belts, rockets, lasers and particle beams

14 p2634 A70-30196

Space vehicle and mission control center telecommunications networks for Apollo lunar landing program, considering NASCOM relay system

17 p3047 A70-35585

LUNAR COMPOSITION

IR reflectance studies of lunar surface composition, showing absorption spectra suggestive of ferrous iron, olivines and orthopyroxenes

01 p0182 A70-10721

Sinus Medii lunar surface material chemical composition from alpha scattering experiment on Surveyor 6

06 p1151 A70-18483

Lunar interior electrical conductivity estimated using lunar interaction with solar wind and interplanetary electric and magnetic fields

06 p1153 A70-18544

Bottom rock structure and composition of young lunar craters compared with Kamchatka volcanic morphological analogs

07 p3385 A70-19424

Lunar science - NASA Conference, Houston, January 1970, covering moon rock composition, magnetic, electrical and physical properties, etc

08 p1565 A70-20587

Lunar surface chemical composition determination by radio astronomy, considering SHF electrical properties of silicate earth rocks

08 p1572 A70-20940

Apollo lunar landing sites geological configuration and composition

09 p1759 A70-22772

Carbon compounds composition and origin in Apollo 11 lunar samples using pyrolytic chromatography and microscopy at elevated temperature

10 p1941 A70-24531

Isotopic ratio anomaly of Re and detection at nanogram level in solar wind using decay curves of Re source from lunar specimen

10 p1932 A70-24532

Solar system objects /earth, moon, planets, meteorites, etc/ chemical composition data and analysis techniques

10 p1942 A70-24609

Lunar and planetary surface chemical composition analysis using neutron inelastic scattering as optimum for unmanned missions

10 p1942 A70-24613

Lunar rocks types determination by mass spectrometry, describing results of terrestrial rocks tests

11 p2119 A70-26799

Lunar surface material composition in terra region from alpha scattering data on Surveyor 7, noting Si Na abundance

13 p2492 A70-29265

Lunar surface terrain types and chemical composition based on Surveyor pictures

14 p2634 A70-30193

Lunar surface thermal emission spectra based on laboratory analysis of rocks and minerals emissivity

14 p2637 A70-30496

Lunar exploration by manned and unmanned space flights, discussing seismology, composition, surface features, etc

15 p2798 A70-31678

Lunar, meteoritic and terrestrial silicate rock chemical individuality based on atomic ratios

15 p2799 A70-31896

Lunar surface chemical composition determination by radio astronomy, considering SHF electrical properties of silicate earth rocks

15 p2805 A70-32752

Sound velocity differences related to composition of lunar and terrestrial rocks

16 p2978 A70-33973

Lunar atmosphere as source of Ar 40 and other elements in surface materials, discussing implantation by photoionization and subsequent interaction with solar wind fields

17 p3172 A70-35624

Apollo 11 lunar rocks mineralogy and petrology, noting anorthosite in powder and breccia

18 p3320 A70-37081

Heavy ions traces in crystals of lunar rocks, discussing applications as detectors

18 p3321 A70-37084

Lunar rock origin based on apollo samples density, impurities and mineral and chemical composition, considering structure and genesis of crust and mantle

19 p3513 A70-37524

Lunar elemental abundances examined by Surveyor project, discussing albedo contrasts, surface rock density, bulk composition, thermal regime and chondritic meteorites

20 p3707 A70-39957

Lunar surface material composition examination by Surveyor 5, discussing formation of surface

20 p3708 A70-39958

Lunar surface spectral reflectivity measured with ground based telescopes for remote mineralogical analysis

20 p3709 A70-39977

Apollo 11 lunar rock and fines chemistry, mineralogy and petrology, discussing composition, igneous rocks, microbreccias, glasses and pyroxene relations

21 p3895 A70-41507

Apollo 11 lunar igneous rocks mineralogical, chemical and petrological features by optical and electron microscopy and X ray spectrometry

21 p3896 A70-41512

Apollo 11 lunar rock mineralogy, examining petrographic and chemical features by light microscopy, electron microprobe microanalysis and detector system

21 p3898 A70-41525

Apollo 11 lunar samples mineralogical and compositional studies concerning lunar origin hypothesis

21 p3899 A70-41534

Lunar sea, mascon and interior composition, discussing crystallization of Apollo 11 Tranquillity samples and synthetic analogs at high pressure

21 p3901 A70-41542

Lunar rock composition difference from meteorites and terrestrial basalts, indicating complexities in solar abundances and initial earth and moon compositions

21 p3906 A70-41567

Apollo 11 lunar material water content and H and C isotope abundance, examining changes in deuterium and O by solar winds

21 p3774 A70-41570

Apollo 11 lunar basalt chemical composition and petrogenesis, using stable isotope dilution method

21 p3907 A70-41573

Rare earth and trace element abundances for Apollo 11 lunar samples by neutron activation, comparing with Bruderheim chondrite and submarine basalts

21 p3907 A70-41578

Apollo 11 lunar samples composition for Na, 22, Al, 26, Th and U, investigating positron activities

21 p3775 A70-41580

Carbon and sulfur concentration and isotopic variations in Apollo 11 fines, breccias and fine-grained basalts

21 p3775 A70-41586

Apollo 11 lunar rock K, Rb, Sr, Ba and rare earth element concentrations, examining relationship to terrestrial and chondritic levels

21 p3776 A70-41600

Halogens, mercury, lithium and osmium concentration measurements in Apollo 11 samples, using neutron and photon activation

21 p3777 A70-41601

Chemical composition and reducing capacity of Apollo 11 igneous rocks, breccia and soil fines, using semimicro X ray fluorescence

21 p3777 A70-41602

Uranium and Th isotopic composition in Apollo 11 samples compared to earth, using mass and alpha spectrometries

21 p3777 A70-41603

Apollo 11 lunar rocks, soil and core samples major, minor and trace elements abundance by radiochemical and instrumental activation analyses

21 p3910 A70-41614

Apollo 11 lunar, terrestrial and meteoritic basalts relationships, examining Ga, Ge, In, Ir and Au concentrations by neutron activation analyses

21 p3778 A70-41617

Apollo 11 lunar fines carbon level, finding largest component carbon monoxide in complex form

21 p3778 A70-41621

Volatilizable C compounds in lunar fines from Mare Tranquillitatis, investigating pyrolysis and acid hydrolysis products by mass spectroscopy and gas chromatography

21 p3779 A70-41628

Lunar carbonaceous, organic and organogenic materials analysis by mass spectroscopy, gas chromatography and various other methods

21 p3780 A70-41633

Mossbauer effect spectrometry application to Apollo 11 lunar rocks composition, using nuclear gamma resonance measurements for nuclide Fe 57

21 p3916 A70-41662

Initial water content on moon implied from hypothetical falling temperature lunar accretion as original earth satellite

22 p4102 A70-42954

Apollo command service module nondispersive X ray detection system for lunar composition map compilation, discussing design and performance

23 p4196 A70-44417

LUNAR CRATERS

NT TYCHO CRATER

Anomalous temperature-time cooling data for surface material of Tycho, Copernicus and Aristarchus craters, suggesting relation to magnetic phase transitions during lunar nights

01 p0183 A70-10825

Meteor explosion theory of origin of lunar craters and round maria, suggesting endogenic origin

01 p0193 A70-11592

Gas volcanic activity, meteoric impact and geological faults as origin of lunar craters, cracks, maria, etc

03 p0563 A70-13169

Far and near side lunar crater chains regularities in distribution and size

03 p0574 A70-13879

Lunar craters origin by study of slowly collapsing fluidized beds

05 p0906 A70-15920

Volcanic and meteoritic processes compared as lunar cratering agency, tabulating terrestrial lopolith and cryptexplosion structures

05 p0913 A70-16553

Apollo 10 and 11 photographs revealing probable igneous intrusions on lunar farside crater

06 p1137 A70-17195

Photometric investigation of lunar crater rays of Tycho, Copernicus, Kepler and Aristarchus compared with terrestrial explosion craters

07 p1377 A70-18972

Bottom rock structure and composition of young lunar craters compared with Kamchatka volcanic morphological analogs

07 p1385 A70-19424

Moon rotational constants determination allowing for crater Moesting A coordinate errors

08 p1574 A70-21156

Lunar origin and history, discussing evolution temperature, large and small craters and association with solar system evolution

08 p1581 A70-21822

Lunar crater meteoritic origin argument based on comparison with earth crater structure

09 p1751 A70-22195

Lunar dimple /drainage/ craters formation mechanisms, considering analogous earth drainage craters associated with lava tubes

09 p1666 A70-22311

Meteor explosion theory of origin of lunar craters and round maria, suggesting endogenic origin

09 p1763 A70-23436

Frequency-size distribution of Martian and lunar craters and oases, suggesting common mode of origin

09 p1765 A70-23810

Lunar cratering and erosion from Orbiter 5 photographs, observing crater densities, highland and maria regions, etc

10 p1942 A70-24643

Temperature distribution in shadowed lunar craters formulated in Fredholm integral equations, showing constant temperature and correction for soil thermal inertia

11 p2112 A70-26155

Lunar gravity correlation with large craters indicated from negative accelerations recorded in Apollo 12 lunar module Doppler radio tracking data

12 p2298 A70-27270

Lunar two cycle interior thermal history influence on maria and crater morphology, noting active and passive phase roles

12 p2311 A70-28302

Micrometeorites impact on lunar surface, using optical reflecting and stereoscan electron microscopes to investigate craters on Apollo 11 samples

13 p2485 A70-28474

Criticism of hypothesis regarding solar flash heating mechanism creating glaze within lunar craterlets at Apollo 11 landing site

13 p2489 A70-28912

Earth shadow enlargement during 13 April 1968 lunar eclipse, discussing craters exit and entry in umbra

13 p2491 A70-29045

Book on stratigraphic view of lunar geology covering lunar craters and terrestrial analogs, remote sensing, material ages, surface interpretations and Apollo mission results

13 p2491 A70-29060

Lunar crater Aristarchus red spot spectrum analysis, determining emission bands

13 p2494 A70-29398

Lunar surface erosion model by small projectiles impact for analytic representation of crater shape change as function of time

14 p2637 A70-30494

Soviet book on physical libration constants of moon based on visual and photographic observations of two craters by position angle method

14 p2642 A70-30959

Long term effects model evaluation of meteoritic impact against lunar surface compared with analyses of Lunar Orbiter photographs

14 p2645 A70-31062

Lunar maria absolute age from lunar crater rim height changes via isostatic settling and small craters quantity

14 p2649 A70-31213

Earth and moon meteor fall probabilities calculation using hyperbolic encounters method and lunar near and far sides crater densities difference interpretation

15 p2798 A70-31658

Lunar dimple craters formation by meteoritic erosion of concentric impact craters

15 p2807 A70-32850

Lunar cratering rates from Apollo flights data on solidation ages for Mare Tranquillitatis

16 p2979 A70-34037

Lunar maria rock thickness estimation, giving depth vs diameter diagrams for craters to show procellarian system thickness

19 p3516 A70-37982

Lunar geomorphological charts of Mare Imbrium southern region, emphasizing crater and maria formations

19 p3516 A70-37983

Small lunar crater structural characteristics and distribution

19 p3517 A70-37989

Lunar crater number and density vs diameter graph, showing rhythmic deviations from mean asymmetrical cosine curve

19 p3517 A70-37990

Lunar craters, walled plains and maria compared with volcanic formations on earth

19 p3517 A70-37991

Lunar maria and constituents characteristic differences in terms of structure, height and distribution of craters across surface, noting temperature anomalies

19 p3518 A70-37993

Lunar crater size and shape characteristics from Surveyor missions, discussing rimless shallow and cup shaped craters

20 p3707 A70-39954

Lunar surface impact cratering, comparing equilibrium size distributions

21 p3919 A70-41701

Small craters number density in southern lunar highlands, supporting Tycho Association cometary impact origin

21 p3920 A70-41882

Lunar crater Plato optical reflectance photoelectric measurements, discussing absorption and luminescent features, radiance factors, phase angles color variations and brightness

21 p3922 A70-41983

Lava thickness measurement in lunar maria from projecting rim width of partially buried craters

23 p4242 A70-44292

Lunar craters size-frequency distributions from photographic analysis, tabulating results

23 p4247 A70-44770

Multiphase volcanic eruptions associated with lunar craters Tycho and Aristarchus

23 p4253 A70-44882

LUNAR CRUST

Alpha particle emissivity measurement of moon by Explorer 35 spacecraft for U 238 abundance in outer crust

01 p0181 A70-10573

Lunar mascons formation by isostatic and volcanic processes, using normal density lunar crust and mantle model

06 p1150 A70-18476

Lunar surface reflectivity determined by measuring reflected cosmic noise, determining dielectric constant and surface material properties

06 p1151 A70-18488

Radio wave reflection coefficient power spectra for three layer lunar surface models consistent with radar spectrum, calculating porous layer thickness

08 p1565 A70-20566

Lunar surface chemical composition determination by radio astronomy, considering SHF electrical properties of silicate earth rocks

08 p1572 A70-20940

Lunar sinuous rilles formation by fluid flow mechanisms, discussing evidence for lava and rille formation by lava tube collapse

09 p1759 A70-22799

Lunar limb weak solar wind shock due to conducting crust-interplanetary magnetic field interaction

09 p1764 A70-23485

- Mascons in lunar maria depressions observed by Lunar Orbiter 5 on basis of two layer model of crust
12 p2299 A70-27281
- Lunar-earth early crust anorthosites comparison, including occurrence sites, physical and chemical properties, etc
13 p2486 A70-28616
- Lunar surface material composition in terra region from alpha scattering data on Surveyor 7, noting Si Na abundance
13 p2492 A70-29265
- Radio wave reflection coefficient power spectra for three layer lunar surface models consistent with radar spectrum, calculating porous layer thickness
15 p2805 A70-32721
- Lunar surface chemical composition determination by radio astronomy, considering SHF electrical properties of silicate earth rocks
15 p2805 A70-32752
- Lunar rock origin based on apollo samples density, impurities and mineral and chemical composition, considering structure and genesis of crust and mantle
19 p3513 A70-37524
- Lunar basalt lava bed formations, examining vacuum and gravity effects during cooling
19 p3517 A70-37988
- Lunar crystalline rock static and dynamic deformation, examining regolith and silicates textures and structures
21 p3897 A70-41515
- LUNAR DUST**
Geocentric orbital elements of lunar particles expelled into space by meteorite impact, using spheres of influence method
03 p0574 A70-13880
- Transient lunar phenomenon (observations and evanescent localized glows) related to dust raised by degassing and electrostatic glow discharges in gas phase
10 p1938 A70-24069
- Lunar rocks and dust from Apollo 11 mission investigated for origin and history of moon and solar system
12 p2310 A70-28049
- Apollo 11 lunar rocks and dust from Tranquility Sea measured for age by Rb-Sr and K-Ar methods
18 p3320 A70-37082
- Apollo 12 rock and dust analyses, discussing modifications to conclusions from Apollo 11 samples with reference to rare gas concentrations
18 p3321 A70-37085
- Lunar fragmental debris layer observations from Surveyor project, examining size, shape, texture, structure, etc
20 p3707 A70-39955
- Lunar fragmental debris physics from Surveyor observations, examining size-frequency distribution
20 p3707 A70-39956
- Lunar surface physical conditions from Surveyor landings, discussing fine cohesive rock powder
20 p3708 A70-39959
- Apollo 11 lunar rocks, breccias, dust and chip mineralogy and petrology, examining composition, texture, grain size and morphologies
21 p3896 A70-41511
- Apollo 11 lunar dust examination by neutron activation analysis, determining spallogenic manganese 53
21 p3908 A70-41579
- Trapped and cosmogenic rare gases from stepwise heated Apollo 11 lunar dust and crystalline rocks, using mass spectrometry
21 p3908 A70-41584
- Apollo 11 lunar dust and microbreccia micropaleontological examination, discussing biological morphology
21 p3778 A70-41620
- Apollo 11 lunar dust and breccia micromorphology and surface characteristics implying weathering processes
21 p3910 A70-41622
- Apollo 11 lunar powder optical and HF electrical properties, discussing reflectivity, polarization, absorption, differential mass spectrum and albedo
21 p3915 A70-41655
- Apollo 11 lunar rock and dust samples thermomagnetic properties, Curie points, magnetization and demagnetization characteristics
21 p3915 A70-41661
- Apollo 11 lunar dust, breccia and igneous rocks, using Mossbauer spectroscopy and petrographic techniques
21 p3916 A70-41664
- Apollo 11 lunar dust hysteresis curves and thermomagnetic curves, discussing metallic Fe abundance, susceptibility, alpha-gamma transition, etc
21 p3918 A70-41676
- Apollo 11 lunar dust small glassy spherules and cylinders examination by interferometry, discussing specular reflection, microcracking, chipping and origin
21 p3919 A70-41682

LUNAR ECHOES**NT LUNAR RADAR ECHOES**

- First luminous lunar echoes obtained by laser telemetry of Pic Du Midi observatory
18 p3310 A70-35948

LUNAR ECLIPSES

- Penumbra visibility of earth on lunar disk related to moon distance during lunar eclipse, discussing moon vanishing
03 p0569 A70-13361
- Penumbra during lunar eclipses analyzed photometrically, considering effects of earth upper atmosphere and lunar luminescence
07 p1377 A70-18973
- Penumbra visibility of earth on lunar disk related to moon distance during lunar eclipse, discussing moon vanishing
11 p2118 A70-26726
- Earth shadow enlargement during 13 April 1968 lunar eclipse, discussing craters exit and entry in umbra
13 p2491 A70-29045
- Atmospheric optical properties at various altitudes, using lunar disk photometric observations at different wavelengths during eclipse
15 p2801 A70-32476
- Peripheral umbra photometric analysis during lunar eclipses based on homogeneous observational material, revealing luminescence excited by solar corpuscular radiation
18 p3319 A70-37055
- Astronomical events observed in 1970 by amateur astronomers, discussing sun and moon eclipses and planets visibility
21 p3886 A70-41074
- Atmospheric optical properties at various altitudes, using lunar disk photometric observation at different wavelengths during eclipse
23 p4239 A70-43901

LUNAR EFFECTS**NT LUNAR GRAVITATIONAL EFFECTS****NT LUNAR TIDES**

- Lunar diurnal variation parameters at Irkutsk determined from IGY data concerning geometric field components
01 p0083 A70-11538
- Lunar daily variation in geophysical data determined by Chapman-Miller method, improving probable error determination method and giving computer program in FORTRAN
09 p1764 A70-23701
- Solar and lunar daily geomagnetic variations, correcting harmonic components calculated values
12 p2303 A70-27673
- Lunar perturbations in horizontal geomagnetic field, F 2 layer thickness and electron density, discussing tidal variations
20 p3617 A70-39141
- Lunar effects on vertical and shape of geoid in universal time
22 p4100 A70-42852
- Thunderstorm frequencies related to lunar phase and declination for ground stations in eastern and central U.S.
22 p4018 A70-42909
- Short period lunar perturbation on satellites by computer program with Fortran statements, considering errors, program output and table driven algebraic processors
24 p4406 A70-45532

LUNAR ENVIRONMENT**NT LUNAR ATMOSPHERES**

- Simulated lunar environmental facility to investigate effects of high risk vacuum, lunar gravity and terrain characteristics and spacesuit encumbrances on astronaut performance
01 p0037 A70-10961
- Turbulent-plasma electrons ballistic effects on solar wind magnetic field fluctuations in lunar vicinity
04 p0753 A70-15123
- Surveyor spacecraft vernier propulsion system survival in lunar environment, suggesting temperature resistant seal and valve seat material for fluid loss prevention
06 p1129 A70-17170
- ALSEP component configuration and deployment environment, describing passive thermal control system for data processing equipment
14 p2651 A70-31340
- Thermal mapping vacuum chamber tests of nuclear fuel capsules for lunar surface experiments, using remote IR radiometric microscope
15 p2718 A70-32800
- Metal-silicate rock friction in ultrahigh vacuum of lunar environment
17 p3101 A70-34760
- Thermal conductivity of particulate basalt as function of density in simulated lunar and Martian environments, noting temperature and pressure effects
18 p3316 A70-36772
- Lunar surface radiative balance and thermal environment measurement by portable meteorological station, considering lunar environment peculiarities for instruments design
19 p3514 A70-37631
- Dipole antenna radiation in compressible anisotropic electron plasma overlying imperfectly conducting half space, solving for lunar environment
19 p3381 A70-38407

- Dipole antenna radiation in compressible anisotropic electron plasma overlying imperfectly conducting half space, evaluating Fourier-Bessel integrals for lunar environment
19 p3381 A70-38408

- Antimatter detection and interaction with matter on moon, discussing radiation from electron-positron annihilation processes
19 p3521 A70-38482

- Lunar postsunset horizon afterglow observed by Surveyor 7, discussing small particle diffraction on surface
20 p3708 A70-39960

- Lunar environment diagnostic features enhancement on IR emission spectra, making moon excellent target for remote sensing
20 p3709 A70-39979

- Apollo 11 drive-tube core samples from Tranquility Base, expressing lunar surface environmental processes
21 p3914 A70-41653

- Hawaiian basalt melted in simulated lunar environment, investigating surface characteristics, internal structure and bearing strength
23 p4254 A70-44883

- Apollo 11 deployed solar cells, investigating degradation of surface properties and thermal control due to lunar module ascent effects
24 p4295 A70-46262

LUNAR EVOLUTION

- Lunar origin theories, considering lunar surface data from Surveyor spacecraft and Lunar Orbiter
01 p0178 A70-10453
- Lunar nature and origin, discussing thermal history, density, composition, surface and evolution hypotheses
01 p0185 A70-11048
- Meteor explosion theory of origin of lunar craters and round maria, suggesting endogenic origin
01 p0193 A70-11592
- Tidal disturbing functions developed with amplitude factor and lag angle expressed as sums of zonal spherical harmonics, discussing lunar formation and orbit evolution
03 p0576 A70-14083
- Pb isotope data from young mantle derived volcanics suggesting mantle evolution and lunar capture
04 p0743 A70-14396
- Moon origin theories emphasizing fission from earth, noting objections to capture theory
04 p0751 A70-15058
- Lunar craters origin by study of slowly collapsing fluidized beds
05 p0906 A70-15920
- Lunar structure and evolution based on satellite measurements of mass distribution, radius moments of inertia, gravity anomalies and topographic irregularities
05 p0920 A70-16945
- Lunar maria hypothetical simultaneous formation by impact, discussing significance of mascons
06 p1138 A70-1727
- Lunar origin and history, discussing evolution temperature, large and small craters and association with solar system evolution
08 p1581 A70-21822
- Lunar internal temperature approximation correcting solution of heat conduction equation for moon thermal histories
09 p1753 A70-22385
- Meteor explosion theory of origin of lunar craters and round maria, suggesting endogenic origin
09 p1763 A70-23436
- Lunar rocks and dust from Apollo 11 mission investigated for origin and history of moon and solar system
12 p2310 A70-28049
- Lunar two cycle interior thermal history influence on maria and crater morphology, noting active and passive phase roles
12 p2311 A70-28302
- Condensed products of vaporized primordial terrestrial material accounting for moon formation, using single stage precipitation earth origin hypothesis
13 p2488 A70-28719
- Ballistic model for lunar regolith evolution based on lunar surface characteristics from Surveyor TV pictures
14 p2644 A70-31053
- Lunar surface optical properties differences for lunar and planetary nature and evolution determination
14 p2645 A70-31063
- Lunar mascons origin explanation in terms of primordial atmosphere and hydrosphere
14 p2646 A70-31065
- Lunar rock origin based on apollo samples density, impurities and mineral and chemical composition, considering structure and genesis of crust and mantle
19 p3513 A70-37524
- Moon origin, surface, exploration, Apollo 11 landing, subsidence/uplift crater formation and Transient Lunar Phenomena
20 p3701 A70-38977

Compositional zoning in pyroxenes from grained Apollo 11 microgabbros, implying supercooled magma origin 21 p3899 A70-41532

Apollo 11 lunar samples mineralogical and compositional studies concerning lunar origin hypothesis 21 p3899 A70-41534

Apollo 11 lunar basalt petrogenesis, examining internal constitution and origin by high pressure 21 p3901 A70-41547

Lunar rock composition difference from meteorites and terrestrial basalts, indicating complexities in solar abundances and initial earth and moon compositions 21 p3906 A70-41567

Rare gas analysis of Apollo 11 lunar soil and breccia for surface layer history 21 p3906 A70-41571

Apollo 11 lunar material trace elements, examining chemical processes during and after formation and meteoritic matter influx rate 21 p3907 A70-41572

Apollo 11 sample elemental abundances, investigating environmental, paragenetic and petrogenetic problems and moon evolution 21 p3907 A70-41575

Apollo 11 lunar material isotopic age determination, discussing rock crystallization, radiogenic dust, lead isotope data and moon origin 21 p3907 A70-41576

Apollo 11 lunar rock K, Rb, Sr, Ba and rare earth element concentrations, examining relationship to terrestrial and chondritic levels 21 p3776 A70-41600

Apollo 11 lunar rock and soil bombardment produced radionuclide patterns, discussing solar flare protons and alphas, age determination and astronomical models 21 p3777 A70-41604

Lunar surface material age and post-crystallization from isotopic investigation of Apollo 11 samples of U-Th-Pb systematics 21 p3909 A70-41608

Apollo 11 lunar, terrestrial and meteoritic basalts relationships, examining Ga, Ge, In, Ir and Au concentrations by neutron activation analyses 21 p3778 A70-41617

Apollo 11 lunar fines carbon compounds, examining chemical state of porphyrins, fatty and amino acids, purines, pyrimidines and carbohydrates, etc 21 p3779 A70-41625

Lunar rocks primordial accretion, examining ablation and transport of solids, liquid and vapor on surfaces 21 p3913 A70-41641

Earth-moon system age and origin from tidal evolution equations, considering growth line counts on living and fossil marine invertebrates 21 p3921 A70-41971

Tidal friction theories relating to earth rotation and lunar evolution 21 p3921 A70-41972

Earth-moon system formation theory, discussing condensation from terrestrial hot extended silicate atmosphere 22 p4098 A70-42548

Apollo 11 data for lunar formation by earth breakup, discussing moon heating phase and correlation with planetary evolution 22 p4098 A70-42549

Lunar origin by capture, discussing moon orbit evolution, thermal history and surface features, earth evolution and tidal interactions 22 p4098 A70-42550

Lunar samples and terrestrial materials isotopic analyses, discussing mineralogical and chemical compositions for lunar origin 22 p4098 A70-42574

Initial water content on moon implied from hypothetical falling temperature lunar accretion as original earth satellite 22 p4102 A70-42954

Lunar formation from ejected terrestrial magma, considering distribution of seas, gravitational anomalies and craters with rays 23 p4247 A70-44772

Lunar formation, investigating accretion rate ratio for earth and moon as function of distance 24 p4409 A70-45674

LUNAR EXPLORATION

Tradeoff criteria between man machine and automated space systems applied to lunar and cosmic ray explorations [AIAA PAPER 69-1045] 01 p0034 A70-10644

Lunar nature and origin, discussing thermal history, density, composition, surface and evolution hypotheses 01 p0185 A70-11048

Existence probability of useful mineral resources on moon, considering physical features and geological formations 03 p0563 A70-13170

Black and white and color Apollo 11 secondary electron conduction TV cameras, discussing characteristics and mission requirements 04 p0688 A70-14692

Surveyor 7 alpha scattering experiment and TV image data revealing lunar surface chemical composition, rocks and fragments, etc 04 p0752 A70-15060

Lunar and planetary exploration costs and technology, discussing role of nuclear propelled passenger vehicles 11 p2082 A70-26061

Dead reckoning navigation of manned lunar roving vehicle (MLRV), describing hardware and coordinate system 12 p2266 A70-27414

Apollo lunar roving vehicles for manned exploration, discussing design proposals 12 p2208 A70-27943

Lunar surface mobility systems designs based on terrestrial transporters or mission requirements consideration, comparing capabilities 13 p2384 A70-28416

Pogo sticks concept for lunar exploration, showing improved performance over lunar surface or flying vehicles 13 p2505 A70-28891

Soviet lunar and interplanetary space missions during 1969 including Venera, Cosmos, Luna and Meteor satellite activities 13 p2505 A70-28901

Applied sciences research and utilization of lunar resources - Conference, New York, October 1968 14 p2633 A70-30192

Solar, nuclear, chemical and thermal energy sources for short and long duration exploration on moon 14 p2634 A70-30195

Lunar communications systems considering use of satellites, metallic particle belts, rockets, lasers and particle beams 14 p2634 A70-30196

Lunar vehicles development, emphasizing translunar exploration vehicle (TLEV) for future lunar base 14 p2563 A70-30197

Lunar resources classified as rocket fuel, construction and life support materials, discussing implications for manned surface exploration missions 14 p2634 A70-30198

Morphological box for extracting chemical elements and compounds from lunar materials for manned operations on moon 14 p2634 A70-30200

Lunar exploration by manned and unmanned space flights, discussing seismology, composition, surface features, etc 15 p2798 A70-31678

Mobile geochemical laboratory for in situ radiation measurement and elemental analyses in lunar exploration 15 p2717 A70-31801

Lunar exploration program based on U.S. antarctic research experience, considering man role, environment, logistics, transportation, economics, etc 15 p2800 A70-32058

Apollo 11 lunar mission results, discussing surface, seismology, laser ranging retroreflector, solar wind and rock samples 15 p2800 A70-32073

Lunar surface exploration vehicle (Lunar Rover) design, analyzing stowage aspects in Lunar Module 16 p2888 A70-33680

Manned lunar orbital research operations capability, systems and scientific objectives [AAS PAPER 70-022] 17 p3156 A70-34800

Moon legal status, discussing territorial sovereignty, peaceful uses, UN Resolutions and Space Treaty, rule of occupation, etc 17 p3200 A70-35323

Legal status of ownership rights of lunar soil samples and objects left on moon by astronauts 17 p3203 A70-35790

Legal aspects concerning lunar matter and product disposal resulting from human cosmic expansion 17 p3203 A70-35795

Caterpillar remote controlled unmanned lunar exploration vehicle, describing construction and scientific missions 18 p3237 A70-36512

Soviet and American lunar exploration by probes, manned surveillance flights and lunar landings, discussing NASA program 18 p3238 A70-37079

Moon origin, surface, exploration, Apollo 11 landing, subsidence/uplift crater formation and Transient Lunar Phenomena 20 p3701 A70-38977

Lunar orbital science, discussing U.S. and Soviet missions, NASA plans and results concerning remote sensing, force field and particle studies 22 p4105 A70-43144

Lunar research via direct exploration, discussing lunar geology, cartography, selenodesy, gravific potential, rotation, etc 23 p4256 A70-45037

Lunar mass and gravitational fields determined from lunar satellite dynamics 24 p4407 A70-45533

Apollo spacecraft pyrotechnic systems and devices functions during lunar exploration mission and in aborts [SAE PAPER 700833] 24 p4416 A70-45888

Book on lunar rocks covering pre-Apollo lunar scientific knowledge, Apollo and future lunar mission planning, lunar mineralogy, petrology and geochemistry, etc 24 p4412 A70-46025

LUNAR EXPLORATION SYSTEM FOR APOLLO

Apollo J mission hardware modification for lunar exploration, describing systems engineering role 21 p3928 A70-40979

LUNAR FAR SIDE

Global exploration of lunar surface by Luna 3 and Zond 3 automatic stations, confirming asymmetric distribution of sea areas on visible and remote hemispheres 01 p0177 A70-10335

Lunar surface far side stereoscopic photography by Apollo 8 mission considered for lunar control 04 p0686 A70-14618

Cartographic tying-in of Zond 3 lunar surface photographs to verify maps of moon far side 05 p0918 A70-16918

Apollo 10 and 11 photographs revealing probable igneous intrusions on lunar farside crater 06 p1137 A70-17195

Lunar surface mapping and far side gravity field probing by satellite photogrammetry 12 p2308 A70-27874

Lunar far side features position from Apollo 8 data, evaluating Apollo navigation system accuracy 12 p2309 A70-27949

Photometric maps of reverse side lunar surface from AIM Zond-3 material 18 p3323 A70-37142

Gravity gradient attitude control for satellites near lunar far side libration point [AIAA PAPER 70-1053] 19 p3528 A70-38868

LUNAR FLIGHT

Translunar Apollo orbit analysis from elementary equations relating to elliptical and hyperbolic orbits in inverse square force field 06 p1148 A70-18397

Lunar orbital science, discussing U.S. and Soviet missions, NASA plans and results concerning remote sensing, force field and particle studies 22 p4105 A70-43144

LUNAR FLYING VEHICLES

Lunar flying vehicle propulsion system optimization, discussing weight, performance, engine life, reliability, etc [AIAA PAPER 70-605] 16 p2969 A70-33602

LUNAR GEOLOGY

Surveyor 5 lunar rock data from Mare Tranquilitatis compared with pyroxene gabbros, indicating gabbro or gabbroic anorthositic classification 01 p0181 A70-10575

Free oscillations and surface wave dispersions from lunar models based on Orbiter data and corresponding pressure region of earth crust 02 p0379 A70-12777

Lunar mascon origin theories, discussing mass transfer by excess pressure generation due to rapid cooling crust and densification by water outgassing 02 p0379 A70-12779

Moon-earth historical relationship, comparing differences in figure and interior with terrestrial planets 03 p0562 A70-12875

Gas volcanic activity, meteoric impact and geological faults as origin of lunar craters, cracks, maria, etc 03 p0563 A70-13169

Existence probability of useful mineral resources on moon, considering physical features and geological formations 03 p0563 A70-13170

Tektites origin, comparing chemical composition with lunar soil from Apollo mission materials 03 p0577 A70-14096

Soviet book on lunar shape and dimensions from astronomical observations, comparing observational and theoretical data 04 p0751 A70-14952

Chemical abundance data of lunar surface rocks, suggesting basaltic achondrites and eucrites origin from moon 06 p1137 A70-17196

Lunar surface samples characteristics correlation with terrestrial igneous rocks /basalts/ and eucrite meteorites based on alpha scattering analysis 07 p1380 A70-19203

Color and black-and-white photomicrographs and photomacrographs of Apollo 11 moon rock sample consisting of spongy gray mass of pumice-like material 07 p1288 A70-20224

Lunar Orientale region structure geological interpretation based on Lunar Orbiter 4 photographs 09 p1751 A70-22196

Lunar dimple /drainage/ craters formation mechanisms, considering analogous earth drainage craters associated with lava tubes 09 p1666 A70-22311

Gaseous species in equilibrium with Apollo 11 holocrystalline rocks during crystallization

09 p1758 A70-22744

Apollo lunar landing sites geological configuration and composition

09 p1759 A70-22772

Physical, chemical, mineralogical and biological analysis of Apollo 12 lunar samples compared to Apollo 11 rocks, discussing landing site geologic setting

10 p1935 A70-23811

Physicomechanical properties of tuff rock based on similarity to lunar surface rock, determining natural density, porosity and compression strength

11 p2119 A70-26798

Lunar rocks types determination by mass spectrometry, describing results of terrestrial rocks tests

11 p2119 A70-26799

Lunar rolling stones anomalous surfaces goniphotometric properties, considering bearing strength as rock density function

12 p2296 A70-26925

Synthetic pyroxenoid stability and crystallography, noting pyroxmangite structure similar to yellow lunar mineral from Mare Tranquillitatis

12 p2226 A70-28022

Book on stratigraphic view of lunar geology covering lunar craters and terrestrial analogs, remote sensing, material ages, surface interpretations and Apollo mission results

13 p2491 A70-29060

Lunar surface fine structure and geological analysis from Ranger 7, 8 and 9 photographs

14 p2644 A70-31052

Ballistic model for lunar regolith evolution based on lunar surface characteristics from Surveyor TV pictures

14 p2644 A70-31053

Mobile geochemical laboratory for in situ radiation measurement and elemental analyses in lunar exploration

15 p2717 A70-31801

Vacuum effect on explosive coupling seismic energy considered in lunar geophysical experiment

16 p2896 A70-33092

Soviet papers on lunar geology problems covering mapping, rocks, maria, lava, craters, etc

19 p3516 A70-37980

Lunar geomorphological map technique, discussing lunar rock formation classifications

19 p3516 A70-37981

Lunar geomorphological charts of Mare Imbrium southern region, emphasizing crater and maria formations

19 p3516 A70-37983

Lunar geomorphological charts of Mare Nubium northern part, considering structural features in equatorial band

19 p3517 A70-37984

Lunar geomorphological charts of Theophilus and Ptolemaeus walled plains, investigating central region tectonics

19 p3517 A70-37985

Lunar geomorphological charts in Archimedes crater and Appenine and Haemus mountain region, examining duration and stages in Mare Imbrium depression development

19 p3517 A70-37986

Lunar basalt lava bed formations, examining vacuum and gravity effects during cooling

19 p3517 A70-37988

Lunar surface mapping and comparison of geological features with earth, considering mass, volume, density, gravity, rotation and energy and matter balance

19 p3518 A70-37994

Soviet collection of lunar geological and morphological maps and relief tracings, showing tectonic features, craters and surface characteristics

19 p3518 A70-38011

Surveyor program results, discussing lunar craters, rock fragments, particle size optical, thermal and radar characteristics and chemical composition

20 p3707 A70-39952

Lunar topographical and geological features examined by Surveyor program

20 p3707 A70-39953

Lunar crater size and shape characteristics from Surveyor missions, discussing rimless shallow and cup shaped craters

20 p3707 A70-39954

Lunar elemental abundances examined by Surveyor project, discussing albedo contrasts, surface rock density, bulk composition, thermal regime and chondritic meteorites

20 p3707 A70-39957

Lunar soil from Apollo 12, identifying chemical composition of orthopyroxene-calcic plagioclase rock fragments for origin

20 p3709 A70-39980

Lunar rock composition difference from meteorites and terrestrial basalts, indicating complexities in solar abundances and initial earth and moon compositions

21 p3906 A70-41567

Lunar carbonaceous, organic and organogenic materials analysis by mass spectroscopy, gas chromatography and various other methods

21 p3780 A70-41633

Tranquility Base regolith origin, examining thickness exposure histories, crater distribution and composition

21 p3918 A70-41677

Apollo 11 lunar samples spectral analysis, discussing Fe and Mn electron paramagnetic resonance and Al 27 nuclear magnetic resonance spectra

21 p3919 A70-41683

Lunar geomorphic features and mass wasting relation, discussing landslides, rockfalls, debris slides, slump and creep play

22 p4102 A70-42972

Crystalline rocks from Mare Tranquillitatis and Oceanus Procellarum, determining K-Ar ages

23 p4238 A70-43803

Apollo 11 and 12 results concerning lunar geology and physical features, discussing impact generated long duration seismic signals and solar wind isotopic composition experiment

23 p4244 A70-44613

Papers on lunar geology covering Tycho northeast rim, multiphase eruptions, basalt melts in simulated lunar environment and lava tubes in New Mexico

23 p4253 A70-44880

Multiphase volcanic eruptions associated with lunar craters Tycho and Aristarchus

23 p4253 A70-44882

Lunar research via direct exploration, discussing lunar geology, cartography, selenodesy, gravific potential, rotation, etc

23 p4256 A70-45037

Apollo 11 lunar fines glassy particles, investigating morphology, optical properties and chemical composition

24 p4403 A70-45401

LUNAR GRAVITATION

Apollo 11 lunar module gravity measurement on lunar surface with pulsed integrating pendulous accelerometer to compute anomaly and radius at landing site

01 p0181 A70-10574

Lunar gravitational field determination from analysis of Lunar Orbiter spacecraft tracking data

03 p0562 A70-12915

Potential determination from gravity disturbances along fixed direction in analysis of residuals of Doppler tracking of Lunar Orbiter satellites for moon gravity field

03 p0577 A70-14177

Gravity anomalies of moon mapped by time differentiation of Doppler-tracked satellite velocities, noting isostatic equilibrium

05 p0915 A70-16827

Lunar structure and evolution based on satellite measurements of mass distribution, radius moments of inertia, gravity anomalies and topographic irregularities

05 p0920 A70-16945

Moon figure and gravitational field determination based on hydrostatic theory, libration observations, node and perigee motion, lunar satellite trajectories and visible topography

06 p1141 A70-17824

Mathematical techniques for selenodesy computer simulation program, solving problems arising from infinite series of spherical harmonics for lunar gravitational potential

06 p1152 A70-18498

Potential and gravity distributions on lunar surface, showing presence of harmonics of all orders

07 p1385 A70-19425

Moon gravity field model derived from long-arc analysis of Lunar Orbiters tracking data, considering lunar mass distribution role

09 p1752 A70-22309

Gravitational field signatures for planetary fine structure analysis, describing lunar orbiter, selenodesy experiment and gravity field and earth gravity field satellite observation

11 p2111 A70-26029

Lunar surface mapping and far side gravity field probing by satellite photogrammetry

12 p2308 A70-27874

Lunar near surface gravity estimation by mass density model for agreement between Doppler tracking data from Lunar Orbiter and trajectory predictions

14 p2645 A70-31064

Mare Orientale positive gravity anomaly

17 p3158 A70-34865

Lunar research via direct exploration, discussing lunar geology, cartography, selenodesy, gravific potential, rotation, etc

23 p4256 A70-45037

Lunar mass and gravitational fields determined from lunar satellite dynamics

24 p4407 A70-45533

LUNAR GRAVITATIONAL EFFECTS

Reduced traction effects on human work performance in weightless and lunar gravity environment

01 p0037 A70-10959

Prototype lunar gravity simulator for studies of reduced gravity effects on human self locomotive capability, using magnetic air bearings and body support system

01 p0037 A70-10960

Satellite motion in lunar orbit by von Zeipel method, considering perturbations due to nonspherical lunar gravity field and earth and solar attraction

10 p1939 A70-24186

Lunar gravity correlation with large craters indicated from negative accelerations recorded in Apollo 12 lunar module Doppler radio tracking data

12 p2298 A70-27270

Lunar gravitational effects on navigation in low altitude lunar orbits using Apollo 12 data

14 p2613 A70-30460

Lunar gravitational field effect on sun-earth exterior libration point location, examining placement on line passing through sun and earth-moon barycenter

18 p3320 A70-37059

Practical stability of highly eccentric orbits quasi-normal to ecliptic, discussing lunar effects on orbital lifetime

23 p4243 A70-44510

Balloon satellite perturbations in orbital period involving air drag, lunar gravity and solar and terrestrial radiation pressures

24 p4414 A70-45358

LUNAR GRAVITY SIMULATOR

Partial gravity simulators at Manned Spacecraft Center for astronaut acquaintance with dynamics of moon walking

21 p3804 A70-41192

LUNAR IONOSPHERE

U LUNAR ATMOSPHERES

LUNAR LANDING

Apollo lunar mission optics concerning liftoff alignment theodolites, spacecraft atmosphere electro-optical sensor, helmet optical coating and laser experiment

04 p0688 A70-14693

Soviet book on piloted flights in near space with lunar landing, discussing flight mechanics of orbital aircraft, launching into space, maneuvering, etc

05 p0923 A70-16554

Emergency ejection from lunar landing training vehicles, describing working sequence and experimental results on astronaut and test pilot

06 p1003 A70-17717

Optimal landing of spacecraft on moon surface from low circular orbit, analyzing rocket thrust, altitude and landing site distance effect on spacecraft mass

06 p1155 A70-17880

Apollo-Saturn Launch Vehicle Targeting Program for Lunar Landing Missions, describing functions of integrated digital computer programs

06 p1145 A70-18093

Apollo 11 premission planning, real time situation and postflight analysis for lunar descent and ascent phases, providing navigation correction capability for Apollo 12

06 p1159 A70-18227

Apollo 11 mission crew observation of operational and scientific phenomena associated with lunar landings, discussing preflight geologic training and briefings

11 p2109 A70-25847

Rough-landing space capsule for omnidirectional touchdown in lunar and Martian missions, tabulating design characteristics and functional capabilities

11 p2123 A70-26053

Space navigation for Apollo 11 mission, emphasizing ground and onboard systems, interfaces with guidance and use in phases of lunar landing

13 p2447 A70-28547

Surveyor spacecraft landing shock absorbers design and performance assessment by digital computer simulation

16 p2922 A70-34123

Apollo docking system for CSM-LM connection and disconnection during lunar landing mission, discussing flight hardware

17 p3175 A70-34768

Apollo lunar landing guidance, navigation and control, discussing inertial and optical measurements, computer, digital autopilots, rendezvous and mid-course navigation

17 p3134 A70-35288

Apollo lunar landing flight control functions, organization, disciplines and activities at Mission Control Center

17 p3134 A70-35292

Legal problems arising from Apollo 11 lunar landing with respect to Space Treaty, discussing lunar soil removal, flag planting, Luna 15 flight, etc

17 p3203 A70-35791

Lunar surface erosion due to Apollo 11 descent engine

18 p3316 A70-36960

Lunar module systems design, describing R and D program and landing mission

21 p3928 A70-40977

Book on decision making in U.S. manned lunar landing commitment covering space policy, technical planning, national interests, Apollo experience, etc

22 p4126 A70-42314

Lunik 16 lunar soft landing technique, discussing automatic and ground controlled mission phases 22 p4110 A70-43210

LUNAR LANDING MODULES

Apollo lunar module descent engine exhaust organic combustion products, estimating ion intensities of various species in all mass spectra 02 p0356 A70-12693

Apollo spacecraft pyrotechnics on lunar landing mission, considering standard initiator, modular cartridges, noninterchangeability of special purpose devices, postmanufacture indexing and data system 03 p0582 A70-14102

Seismic analysis of lunar module impact and missile-earth impact, comparing recorded signal parameters 11 p2118 A70-26748

Apollo lunar module structural integrity for lunar landing verified by Monte Carlo dynamic analysis 12 p2312 A70-27114

Landing point redesignation during Apollo lunar module descent terminal portion, defining information and control system 14 p2613 A70-30454

Apollo 12 navigation for pinpoint lunar landing, correcting errors in downtrack position in guidance computer near powered descent initiation time 14 p2613 A70-30456

Lunar Module landing radar system design, discussing antenna and electronics assembly 16 p2865 A70-33681

Lunar landing training vehicle using Lunar Module free flight simulator for earth practicing of final descent handling 21 p3750 A70-41193

LUNAR LANDING SITES

Apollo 11 lunar module gravity measurement on lunar surface with pulsed integrating pendulous accelerometer to compute anomaly and radius at landing site 01 p0181 A70-10574

Orbiter imagery analysis program for Apollo landing site selection, using photographic interpretive techniques 03 p0571 A70-13660

Photometric reduction of Lunar Orbiter video magnetic tapes for generation of topographic information of proposed Apollo landing sites 03 p0490 A70-13661

Normal albedo of Apollo 11 landing site and intrinsic dispersion in lunar Heiligenschein determined from Apollo and earth based photographic photometry 04 p0747 A70-14549

Relative reflectivity of lunar landing site Apollo 7 compared to site Apollo 2, showing compositional and mineralogical differences 04 p0751 A70-15059

Surveyor 7 highland landing soil mechanical properties and rock diameter similar to previous sites 04 p0752 A70-15063

Apollo lunar landing sites geological configuration and composition 09 p1759 A70-22772

Physical, chemical, mineralogical and biological analysis of Apollo 12 lunar samples compared to Apollo 11 rocks, discussing landing site geologic setting 10 p1935 A70-23811

Selenodetic control system, considering photogrammetric networks, Apollo landing site, topographical maps, lunar photographs, etc 10 p1890 A70-24732

Extraterrestrial photogrammetry role in lunar photographs analysis, considering landing site triangulation and selection, coordinate system improvement, etc 10 p1948 A70-25046

Lunar surface alpha radioactivity at Surveyor 5, 6 and 7 landing sites 11 p2104 A70-25658

Criticism of hypothesis regarding solar flash heating mechanism creating glaze within lunar craterlets at Apollo 11 landing site 13 p2489 A70-28912

Landing point redesignation during Apollo lunar module descent terminal portion, defining information and control system 14 p2613 A70-30454

Apollo 12 navigation for pinpoint lunar landing, correcting errors in downtrack position in guidance computer near powered descent initiation time 14 p2613 A70-30456

Lunar rotary motion predetermination for spacecraft landing in mountainous region 15 p2773 A70-32266

Surveyor spacecraft characteristics and operation, discussing scientific payloads, landing sites, etc 20 p3716 A70-39951

Calcium-bearing iron silicate (pyroxferroite) from Apollo 11 lunar Tranquility Base samples, discussing petrographic environment, physical and optical properties 21 p3895 A70-41504

Tranquility Base lunar soil origin, establishing component nature, size distribution, density, mineralogy, constructional or destructional history 21 p3897 A70-41519

Shock metamorphic granular mafic holocrystalline lithic fragments, microbreccia, glass and anorthosite from Apollo 11 lunar surface material at Tranquility Base 21 p3900 A70-41535

Glass spherule lunar particles and breccia from Apollo 11 site, showing passage through impact generated cloud of hot fragmental material 21 p3901 A70-41541

Tranquility Base regolith origin, examining thickness exposure histories, crater distribution and composition 21 p3918 A70-41677

Apollo 11 and 12 lunar landing sites surface properties from returned rocks chemical, physical and mineralogical analysis 23 p4241 A70-44221

LUNAR LIMB

Lunar limb ellipsoid orientation and parameters based on Greenwich meridional measurements of visible lunar diameters, noting use for observation reduction for various librations 03 p0569 A70-13356

Unipolar induction to calculate moon interior electric field profiles, noting magnetic back pressure as limb shock wave and interaction with solar wind 07 p1377 A70-18970

Lunar limb weak solar wind shock due to conducting crust-interplanetary magnetic field interaction 09 p1764 A70-23485

Lunar limb ellipsoid orientation and parameters based on Greenwich meridional measurements of visible lunar diameters, noting use for observation reduction for various librations 11 p2118 A70-26721

Lunar limb shock wave observed by Explorer 35 satellite defined with respect to solar wind flow direction, discussing formation mechanism 12 p2302 A70-27594

Tropospheric inhomogeneities properties and wind conditions in relation to lunar limb image deformations 16 p2979 A70-34178

Lunar limb tabular position angles accuracy, discussing Watt charts used for star occultation examination 18 p3321 A70-37124

Watts lunar limb correction charts parameters solution, using grazing and total stellar occultations by moon 20 p3705 A70-39478

LUNAR LOGISTICS

Lunar based astronomical research program logistics model taking into account scientific mission, launch vehicle capacities, supply and support requirements, etc 20 p3710 A70-40336

LUNAR LUMINESCENCE

Gray and colorless features of moon explained as atomic H imported by solar wind replacing lost H by photolytic decomposition of water vapor 05 p0908 A70-16303

Catalog of lunar features brightness interpreted in terms of photometric function uniformity of lunar surface, considering second order light scattering 07 p1377 A70-18971

Penumbra during lunar eclipses analyzed photometrically, considering effects of earth upper atmosphere and lunar luminescence 07 p1377 A70-18973

Lunar surface luminescence considered for correlation with tidal forces of earth 09 p1758 A70-22748

Integrated lunar disk wavelength dependence of polarization using photoelectric polarimeter, tabulating results 09 p1759 A70-22910

Transient lunar phenomenon (obscurations and evanescent localized glows) related to dust raised by degassing and electrostatic glow discharges in gas phase 10 p1938 A70-24069

Luminescence of powdered silica and basalt bombarded by atomic hydrogen, relating spectral distributions dependence on ion energy to lunar luminescence 10 p1942 A70-24647

Remote sensing of lunar photometric function at small phase angles by Apollo 8 command service module 12 p2297 A70-26926

Peripheral umbra photometric analysis during lunar eclipses based on homogeneous observational material, revealing luminescence excited by solar corpuscular radiation 18 p3319 A70-37055

Lunar luminescence phenomena, examining gas eruptions from volcanic activity, solar radiation and color 21 p3886 A70-41070

Luminescence efficiencies of Apollo 11 lunar and terrestrial rocks and minerals, using UV excitation 21 p3915 A70-41656

Proton and UV excited luminescence of Apollo 11 Tranquility rocks and fines, indicating solar wind impingement 21 p3917 A70-41672

LUNAR MAGNETIC FIELDS

Magnetic field and plasma variations in lunar wake using Maxwell equations 06 p1153 A70-18636

Unipolar induction to calculate moon interior electric field profiles, noting magnetic back pressure as limb shock wave and interaction with solar wind 07 p1377 A70-18970

Lunar surface magnetometer data interpretation by analysis of moon motion relative to interplanetary magnetic field spatial irregularities, using lunar electrical conductivity models 07 p1378 A70-18974

ALSEP magnetometer mission and environmental requirements and mechanical design 16 p2914 A70-34152

Lunar magnetic monopole charge effects on nearby magnetic field configuration 18 p3316 A70-36898

Earth magnetic field, discussing origin, field absence on planets and moon and MHD theory 19 p3410 A70-37399

Lunar surface local magnetic field measurement, describing Apollo 12 magnetometer 20 p3709 A70-40087

Apollo 11 lunar rock and fines magnetic properties, associating remanent magnetization with lunar magnetic field 21 p3917 A70-41675

LUNAR MAPS

Cartographic tying-in of Zond 3 lunar surface photographs to verify maps of moon far side 05 p0918 A70-16918

Lunar photography interpretation, discussing topographic maps obtained by spacecraft 07 p1284 A70-19779

Extraterrestrial photogrammetry role in lunar photographs analysis, considering landing site triangulation and selection, coordinate system improvement, etc 10 p1948 A70-25046

Selenology by traverse method, discussing equipment and mapping procedure 11 p2111 A70-26043

Polarized and depolarized radar maps of moon, attributing anomalies and average diffuse component of echoes to scattering behavior of surface and subsurface rocks 14 p2645 A70-31060

Hypsometric chart plot of visible lunar hemisphere with consideration of relief, obtaining isohypsies 15 p2803 A70-32494

Lunar surface large scale maps by photogrammetric method requiring triangulation of convergent high resolution Lunar Orbiter photographs by block process 16 p2979 A70-34045

Lunar surface features charting from astrophysical data and direct observation, describing mapping of Sea of Tranquility 18 p3323 A70-37141

Photometric maps of reverse side lunar surface from AIM Zond-3 material 18 p3323 A70-37142

Lunar geomorphological map technique, discussing lunar rock formation classifications 19 p3516 A70-37981

Lunar geomorphological charts of Mare Imbrium southern region, emphasizing crater and maria formations 19 p3516 A70-37983

Lunar geomorphological charts of Mare Nubium northern part, considering structural features in equatorial band 19 p3517 A70-37984

Lunar geomorphological charts of Theophilus and Ptolemaeus walled plains, investigating central region tectonics 19 p3517 A70-37985

Lunar geomorphological charts in Archimedes crater and Apennine and Haemus mountain region, examining duration and stages in Mare Imbrium depression development 19 p3517 A70-37986

Lunar surface mapping and comparison of geological features with earth, considering mass, volume, density, gravity, rotation and energy and matter balance 19 p3518 A70-37994

Soviet collection of lunar geological and morphological maps and relief tracings, showing tectonic features, craters and surface characteristics 19 p3518 A70-38011

Hypsometric chart plot of visible lunar hemisphere with consideration of relief, obtaining isohypsies 23 p4240 A70-43916

LUNAR MARIA

Slopes distribution over finite span on planetary surface excavated by primary impact craters, including typical lunar mare crater densities 01 p0178 A70-10443

Meteor explosion theory of origin of lunar craters and round maria, suggesting endogenic origin

01 p0193 A70-11592

Gas volcanic activity, meteoric impact and geological faults as origin of lunar craters, cracks, maria, etc.

03 p0563 A70-13169

Photoelectric polarimetry of samples of lunar maria, terra, lavas and chemicals for wavelength dependence of polarization, comparing to Mercury, Mars and asteroids

03 p0576 A70-14082

Nonexistence of large mascons at Mare Marginis and Mare Orientale deduced from residual acceleration analysis of Lunar Orbiter Doppler tracking data

04 p0743 A70-14424

Lunar maria hypothetical simultaneous formation by impact, discussing significance of mascons

06 p1138 A70-17279

Satellite impact interpretation of lunar maria surface distribution, discussing lava origins and mascon distribution

09 p1752 A70-22310

Meteor explosion theory of origin of lunar craters and round maria, suggesting endogenic origin

09 p1763 A70-23436

Continental migration role in lunar maria formation, suggesting similarity with geological formation of earth ocean floor

09 p1765 A70-23797

Mascons in lunar maria depressions observed by Lunar Orbiter 5 on basis of two layer model of crust

12 p2299 A70-27281

Lunar two cycle interior thermal history influence on maria and crater morphology, noting active and passive phase roles

12 p2311 A70-28302

Lunar maria absolute age from lunar craters rim height changes via isostatic settling and small craters quantity

14 p2649 A70-31213

Lunar cratering rates from Apollo flights data on solidification ages for Mare Tranquillitatis

16 p2979 A70-34037

Radar reflectivity correlations with lunar surface structure in Mare Imbrium, using delay-Doppler radar maps

17 p3154 A70-34568

Mare Orientale positive gravity anomaly

17 p3158 A70-34865

Lunar regolith depth measurement by Lunar Orbiters 4 and 5 high resolution photographs, discussing thickness relation with sinuous rilles in marial regions

18 p3319 A70-37054

Lunar surface features charting from astrophysical data and direct observation, describing mapping of Sea of Tranquillity

18 p3323 A70-37141

Lunar maria rock thickness estimation, giving depth vs diameter diagrams for craters to show procellarian system thickness

19 p3516 A70-37982

Lunar geomorphological charts of Mare Imbrium southern region, emphasizing crater and maria formations

19 p3516 A70-37983

Lunar geomorphological charts of Mare Nubium northern part, considering structural features in equatorial band

19 p3517 A70-37984

Lunar geomorphological charts in Archimedes crater and Appennine and Haemus mountain region, examining duration and stages in Mare Imbrium depression development

19 p3517 A70-37986

Lunar maria distribution, explaining origin and characteristics by surface brightness

19 p3517 A70-37987

Lunar craters, walled plains and maria compared with volcanic formations on earth

19 p3517 A70-37991

Lunar maria and constituents characteristic differences in terms of structure, height and distribution of craters across surface, noting temperature anomalies

19 p3518 A70-37993

Lunar sea, mascon and interior composition, discussing crystallization of Apollo 11 Tranquillity samples and synthetic analogs at high pressure

21 p3901 A70-41542

Tranquillity Base regolith origin, examining thickness exposure histories, crater distribution and composition

21 p3918 A70-41677

Lunar maria and circular basins interrelations, form, origin and distribution from Lunar Orbiter photographs

23 p4242 A70-44263

Lava thickness measurement in lunar maria from projecting rim width of partially buried craters

23 p4242 A70-44292

LUNAR MOBILE LABORATORIES

Dynamical motion of Lunar Hopping Laboratory in plane change maneuver between ballistic and foot-in-contact phases

13 p2384 A70-28523

Mobile geochemical laboratory for in situ radiation measurement and elemental analyses in lunar exploration

15 p2717 A70-31801

LUNAR MODULE

Apollo spacecraft hardware, command, service and lunar modules, discussing design factors and tests contributing to spacecraft reliability

[AIAA PAPER 69-1095]

01 p0194 A70-10618

Computerized thermal model simulating environment control system, crew and vehicle structure in performance prediction for Apollo lunar module

[SAE PAPER 690621]

05 p0922 A70-15848

Spacecraft telecommunication and tracking systems in Gemini, Mercury and Apollo programs, emphasizing Apollo command and lunar modules equipment and mission ground stations

05 p0813 A70-16326

Lunar module motion during optimal ascent from moon surface into circular orbit of command module, noting descent maneuver similarity

06 p1155 A70-17881

Lunar module rendezvous with command and service module by coelliptic sequence establishing standard lighting and relative position and velocity for final approach

[AIAA PAPER 70-26]

06 p1157 A70-18129

Thermal vacuum simulator for testing manned Lunar Module Test Vehicle, using conformal skin heaters to control heating rates and skin temperature

09 p1656 A70-23241

Apollo lunar module manned testing in thermal vacuum, emphasizing safety aspects of hardware, procedures and training

10 p1859 A70-24389

Apollo lunar module mechanical acceptance tests evaluation based on reported flight anomalies review

[AIAA PAPER 70-401]

10 p1951 A70-24904

Apollo Lunar Module Test Program Management, discussing test requirements optimization, control, planning, etc.

[AIAA PAPER 70-368]

10 p1952 A70-24932

Lunar gravity correlation with large craters indicated from negative accelerations recorded in Apollo 12 lunar module Doppler radio tracking data

12 p2298 A70-27270

Minimum-time thrust vector control law in Apollo lunar module computerized autopilot

13 p2499 A70-28399

Real time Apollo lunar module thermal mission data analysis using computer programs

14 p2653 A70-30774

Mission simulation testing in thermal vacuum environment for Apollo Lunar Module, noting conformal skin heaters

[AIAA PAPER 69-991]

15 p2718 A70-32515

Flight performance of Apollo LM descent-ascent propulsion systems, considering telemetry data, prediction correlation and modifications

[AIAA PAPER 70-673]

16 p2967 A70-33577

Apollo lunar module rendezvous radar redundant gyro system for reliability enhancement, discussing principles and logic

16 p2983 A70-34066

Apollo lunar module alightment system, discussing design, performance and reliability

16 p2985 A70-34122

LM-Apollo rendezvous radar and transponder electronic assemblies packaging and mechanical design

18 p2322 A70-36762

Apollo Lunar Module strapdown Abort Guidance system, correlating performance prediction with flight test results

[AIAA PAPER 70-1028]

20 p3666 A70-39509

Ground based radar tracking data processing method for real time information concerning lunar module /LM/ position and velocity during Apollo 12 flight

[AIAA PAPER 70-1020]

20 p3591 A70-39514

Lunar module digital autopilot design, considering attitude state estimator, reaction control system and thrust vector control

[AIAA PAPER 70-991]

20 p3668 A70-39539

Multiple revolution lunar module reentry problem, analyzing isotropic systems trajectory, reentry environment, thermal response and ablation

[AIAA PAPER 70-989]

20 p3714 A70-39540

Manual attitude control for Lunar Module employing directional stability, coordinated turn and attitude command

20 p3716 A70-39683

Apollo 12 lunar module impact laboratory simulation, investigating possible downrange ballistic effects and cratering process

20 p3709 A70-39976

Lunar and earth surfaces imaging for astronaut training in LEM simulator

20 p3607 A70-40320

Lunar module systems design, describing R and D program and landing mission

21 p3928 A70-40977

Lunar module simulator for Apollo flight training using computers, digital conversion, cockpit replica, infinity-optics display and instructor control

21 p3805 A70-41196

Lunar module rendezvous with command and service module by coelliptic sequence, establishing standard lighting and relative position and velocity for final approach

[AIAA PAPER 70-26]

21 p3931 A70-41860

LUNAR MODULE ASCENT STAGE

Acoustic cavities use in suppressing acoustic modes of combustion instability demonstrated on LM ascent engine

[AIAA PAPER 70-618]

16 p2998 A70-33614

LUNAR OBSERVATORIES

Extrasolar planets photometric observations by telescopic mirror system on moon far side

20 p3710 A70-40131

Lunar based astronomical research program logistics model taking into account scientific mission, launch vehicle capacities, supply and support requirements, etc.

20 p3710 A70-40336

Lunar based vs orbiting astronomical observatories, discussing limitations imposed by geocorona

22 p4108 A70-43630

LUNAR OCCULTATION

NT SOLAR ECLIPSES

Brightness distributions and widths determined from monochromatic radiation intensity at earth during lunar occultation of RF source

05 p0920 A70-16941

Formaldehyde absorption profile in direction of Milky Way center observed using lunar occultation

10 p1936 A70-23905

Radio receiver bandwidth effect on lunar occultation observations

12 p2189 A70-27989

Lunar occultation observation of Jupiter by radio telescope, determining one dimensional strip brightness distribution

14 p2648 A70-31086

S band telemetric signals reception transmitted by Apollo 12 during occultation behind lunar disk, discussing lunar surface reflectivity

15 p2699 A70-32290

Weak radio sources positions, structures and optical identifications from lunar occultation observations, tabulating radio and optical data

17 p3156 A70-34826

Lunar occultation photoelectric measurement covering star angular diameters and diffraction patterns, ephemeris theory, astrometry close double star detection, etc.

17 p3170 A70-35440

High speed photoelectric measurements of lunar occultation using computer and nuclear physics instrumentation

17 p3171 A70-35441

Lunar occultation photoelectric measurements, investigating irregularities of occulted stars

17 p3171 A70-35442

Lunar longitude secular acceleration from occultation observations

17 p3171 A70-35444

Galactic center region lunar occultations in 21 cm neutral hydrogen line

18 p3313 A70-36328

Jovian continuum radiation observation by RAE-1 during lunar occultations

19 p3512 A70-38608

Watts lunar limb correction charts parameters solution, using grazing and total stellar occultations by moon

20 p3705 A70-39478

Pulse counting photoelectric photometer for lunar occultation recording of stars, discussing design, associated equipment and operation principles

22 p4030 A70-42860

Model fitting procedure applied to lunar occultation data and models analysis for point sources, close binaries and resolvable stars

24 p4399 A70-45130

LUNAR ORBIT AND LANDING SIMULATORS

Visual simulation in Lunar Module Mission simulator provided by computer controlled infinity optics system

06 p1031 A70-18603

Lunar landing training vehicle using Lunar Module free flight simulator for earth practicing of final descent handling

21 p3750 A70-41193

Command module simulators for Apollo astronaut training in moon landing, using computer, exterior visual scenes and spacecraft interior replica

21 p3804 A70-41195

Lunar module simulator for Apollo flight training using computers, digital conversion, cockpit replica, infinity-optics display and instructor control

21 p3805 A70-41196

LUNAR ORBITAL RENDEZVOUS

Lunar module rendezvous with command and service module by coelliptic sequence establishing standard lighting and relative position and velocity for final approach
[AIAA PAPER 70-26] 06 p1157 A70-18129
Apollo Guidance Computer operations and functions during lunar orbit rendezvous

13 p2446 A70-28390
Lunar module rendezvous with command and service module by coelliptic sequence, establishing standard lighting and relative position and velocity for final approach
[AIAA PAPER 70-26] 21 p3931 A70-41860

LUNAR ORBITER

Lunar origin theories, considering lunar surface data from Surveyor spacecraft and Lunar Orbiter
01 p0178 A70-10453
Spacecraft longitudinal control during reentry of Lunar Orbiter into atmosphere, analyzing final range prediction, trajectory tracking and accelerometers performance

01 p0197 A70-11497
Lunar gravitational field determination from analysis of Lunar Orbiter spacecraft tracking data

03 p0562 A70-12915
Nonexistence of large mascons at Mare Marginis and Mare Orientale deduced from residual acceleration analysis of Lunar Orbiter Doppler tracking data
04 p0743 A70-14424

Lunar mascon effects on Apollo type spacecraft orbits calculated for minimizing orbital instabilities
07 p1387 A70-19715

Moon gravity field model derived from long-arc analysis of Lunar Orbiters tracking data, considering lunar mass distribution role

09 p1752 A70-22309
Lunar Orbiter spacecraft vibration responses based on mathematical models, comparing results with experiment

12 p2315 A70-27098
Mascons in lunar maria depressions observed by Lunar Orbiter 5 on basis of two layer model of crust

12 p2299 A70-27281
Lunar spaceports for military uses from legal viewpoint, considering Space Treaty

12 p2336 A70-27774
Photographic apparatus for lunar orbiters and Apollo spacecraft, describing lunar surface closeup camera for astronauts, launch photographing, etc

13 p2406 A70-28926
Photographic techniques and optical equipment in orbiter missions for lunar surface photography

13 p2407 A70-29164
Lunar Orbiter Spacecraft Guidance and Control, discussing design and flight results

14 p2613 A70-30455
Lunar surface large scale maps by photogrammetric method requiring triangulation of convergent high resolution Lunar Orbiter photographs by block process

16 p2979 A70-34045
Lunar Orbiter photo subsystem mechanisms, discussing film transport, vacuum and mechanical clamps, focal plane shutter, processor-dryer and optical mechanical scan

16 p2914 A70-34146
Manned lunar orbital research operations capability, systems and scientific objectives

[AAS PAPER 70-022] 17 p3156 A70-34800
Lunar mass and gravitational fields determined from lunar satellite dynamics

24 p4407 A70-45533

LUNAR ORBITS

Reentry trajectories from lunar surface and orbit obtained by computer with allowance for initial data spread

01 p0191 A70-11476
French laser reflectors for lunar telemetry functioning with ruby laser, discussing applications to lunar orbital parameters, continental drift, gravity constant secular variations, etc

04 p0700 A70-14609
Lunar ephemeris, lunar theory constants and coordinate system corrections based on conditional equations formulated by analytical partial derivatives

05 p0908 A70-16334
Apollo lunar orbit irregularities attributed to mascons beneath lunar surface, using short arc perturbation method

[AIAA PAPER 70-163] 06 p1145 A70-18068
Transposition and lunar docking simulation tests for Apollo 9 and subsequent missions using test vehicles equipped with flight type hardware

[AIAA PAPER 70-170] 06 p1030 A70-18209
Lunar periodicity detected from radio aurora data as possible cause of lunar interaction with magnetosphere

07 p1389 A70-20164
Tidal friction induced secular changes in earth-moon system near minimum of angular momentum of moon orbit, including temporal changes in moments of inertia

08 p1579 A70-21570

Satellite motion in lunar orbit by von Zeipel method, considering perturbations due to nonspherical lunar gravity field and earth and solar attraction

10 p1939 A70-24186
Light pressure induced secular effect contributing to planetary satellites and lunar orbits evolution calculated by numerical integration

11 p2118 A70-26777
Navigation for lunar parking orbit with time varying osculating orbital elements, using Apollo 11 Doppler tracking data

14 p2613 A70-30457
Lunar gravitational effects on navigation in low altitude lunar orbits using Apollo 12 data

14 p2613 A70-30460
Synchronous navigation satellite system for ships and aircraft applicable to earth orbital and lunar operations

14 p2614 A70-30463
Translational-rotational motion of axisymmetrical moon in earth gravitational field

15 p2803 A70-32496
Mascon effects on close lunar orbit, using short arc perturbation technique

18 p3314 A70-36518
Transposition and lunar docking simulation tests for Apollo 9 and subsequent missions using test vehicles equipped with flight type hardware

20 p3606 A70-39685
Perturbation of body motion in vicinity of smallest primary according to Huang model of restricted four body problem, discussing near lunar satellite application

21 p3884 A70-40874
Lunar mascon detection in Sinus Aestuum neighborhood by Apollo 8 tracking data analysis

21 p3886 A70-41058
Solar eclipse calculation and prediction, discussing relationship between possible forms and earth-moon orbital configurations

21 p3924 A70-42173
Lunar origin by capture, discussing moon orbit evolution, thermal history and surface features, earth evolution and tidal interactions

22 p4098 A70-42550
Lunar orbital science, discussing U.S. and Soviet missions, NASA plans and results concerning remote sensing, force field and particle studies

22 p4105 A70-43144
Translational-rotational motion of axisymmetrical moon in earth gravitational field

23 p2420 A70-43917
Lunar theory literal solution for average node and perigee movements compared with Delaunay results, using Lie transforms for Hamiltonian function

24 p4399 A70-45141
Solar and terrestrial perturbations on lunar satellite calculated by Brown theory

24 p4407 A70-45534

LUNAR PERTURBATION

U LUNAR EFFECTS

LUNAR PHASES

Thunderstorm frequencies related to lunar phase and declination for ground stations in eastern and central U.S.

22 p4018 A70-42909
Quiet sun and new moon brightness temperature measurements at 3.3 and 5.7 mm wavelengths, giving radiometric maps

23 p4241 A70-44254

LUNAR PHOTOGRAPHS

Visual interpretation of moon and Mars surface photographs taken from satellites, analyzing craters and bumps

04 p0686 A70-14626
Cartographic tying-in of Zond 3 lunar surface photographs to verify maps of moon far side

05 p0918 A70-16918
Apollo 10 and 11 photographs revealing probable igneous intrusions on lunar farside crater

06 p1137 A70-17195
Selenodetic investigations based on lunar photographs with background stars, converting equatorial coordinates to orbital using Cracovian formulas

08 p1564 A70-20560
Selenocentric coordinate system originating at center of mass, determining lunar figure center from photographs with reference stars

08 p1572 A70-20942
Lunar photographs on star-calibrated plates for lunar features coordinates or physical libration determination, outlining photographic technique and computer program

09 p1674 A70-22308
Lunar dimple /drainage/ craters formation mechanisms, considering analogous earth drainage craters associated with lava tubes

09 p1666 A70-22311
Extraterrestrial photogrammetry role in lunar photographs analysis, considering landing site triangulation and selection, coordinate system improvement, etc

10 p1948 A70-25046

Ranger lunar photographic evidence for volcanic hypothesis, considering fracture systems, Caldera analogy, common walls, crater size, etc

12 p2977 A70-26985
Ballistic model for lunar regolith evolution based on lunar surface characteristics from Surveyor TV pictures

14 p2644 A70-31053
Lunar atmospheric pressure based on twilight horizon photographic data from Surveyor 7

15 p2803 A70-32500
Selenodetic investigations based on lunar photographs with background stars, converting equatorial coordinates to orbital using Cracovian formulas

15 p2805 A70-32715
Selenocentric coordinate system originating at center of mass, determining lunar figure center from photographs with reference stars

15 p2806 A70-32754
Mariner 7, 8 and 9 lunar photographs, discussing evidence for internally heated moon

16 p2973 A70-33112
Lunar atmospheric pressure based on twilight horizon photographic data from Surveyor 7

23 p4240 A70-43921

LUNAR PHOTOGRAPHY

Ranger, Surveyor and Lunar Orbiter televised and reconstructed picture quality, suggesting improvements in existing photographic systems

03 p0490 A70-13656
Lunar surface far side stereoscopic photography by Apollo 8 mission considered for lunar control

04 p0686 A70-14618
Multiband photographic system for automatic earth resources aerial sensing and lunar orbital mapping with manual override provisions

[AAS PAPER 69-582] 04 p0687 A70-14657
Surveyor 7 alpha scattering experiment and TV image data revealing lunar surface chemical composition, rocks and fragments, etc

04 p0752 A70-15060
Lunar photography interpretation, discussing topographic maps obtained by spacecraft

07 p1284 A70-19779
Lunar Orientale region structure geological interpretation based on Lunar Orbiter 4 photographs

09 p1751 A70-22196
Photographic apparatus for lunar orbiters and Apollo spacecraft, describing lunar surface closeup camera for astronauts, launch photographing, etc

13 p2406 A70-28926
Photographic techniques and optical equipment in orbiter missions for lunar surface photography

13 p2407 A70-29164
Lunar surface terrain types and chemical composition based on Surveyor pictures

14 p2634 A70-30193
Lunar color differentiation by computer image processing compared to earth based photoelectric photometry

[JPL-TR-32-1472] 16 p2900 A70-33097
Lunar surface large scale maps by photogrammetric method requiring triangulation of convergent high resolution Lunar Orbiter photographs by block process

16 p2979 A70-34045
Planetary and lunar photography at French observatory, discussing Pic du Midi facilities and various photographic emulsions

17 p3082 A70-34676
Surveyor 7 TV system in photon integration mode, analyzing slow scan vidicon storage characteristics and dark current limitations

[SMPT PAPER 105-72] 17 p3095 A70-35635
Lunar volcanic ridges features from interpretation of photographs by telescopes and satellites

19 p3518 A70-37992
Lunar sinuous rilles morphological and distributional observations and implications on theories of origin concerning surface water erosion

19 p3521 A70-38442
Lunar surface spectral reflectivity measured with ground based telescopes for remote mineralogical analysis

20 p3709 A70-39977
Pulsed laser radar tracking and ranging system for monitoring and directing TV camera at astronaut position on lunar surface

22 p3992 A70-43604
Apollo 11 and 12 close-up lunar surface photography, describing specially designed camera

23 p4194 A70-44255
Lunar maria and circular basins interrelations, form, origin and distribution from Lunar Orbiter photographs

23 p4242 A70-44263
Lunar topography from UBVR1 photometry, determining albedos for mountains, dark and light maria and cratered terrae

23 p4247 A70-44769

LUNAR PROBES

NT LUNIK LUNAR PROBES

NT LUNIK 3 LUNAR PROBE

NT LUNIK 12 LUNAR PROBE

NT RANGER LUNAR PROBES

LUNAR PROGRAMS

- NT SURVEYOR LUNAR PROBES
NT SURVEYOR 5 LUNAR PROBE
Cable involving woven multiconductor arrangement and aromatic polyimide insulations to connect thermal moon probe with transmitter for temperature measurements on lunar surface
05 p0798 A70-16034
Celestial methods for lunar navigation, considering terrestrial and selenographic differences
14 p2613 A70-30459
Lunar remote probing by IR and microwave thermal emission and by radar
14 p2644 A70-31056
Saturn 5 launch vehicle targeting methods for lunar missions, solving earth departure variables via iterative process
[ALAA PAPER 70-1052] 19 p3528 A70-38867
- LUNAR PROGRAMS
NT APOLLO PROJECT
NT SURVEYOR PROJECT
Development models for post-Apollo lunar cargo delivery system utilizing Saturn 1B and Centaur stages [DGLR-69-9] 04 p0763 A70-15187
Lunar exploration program based on U.S. antarctic research experience, considering man role, environment, logistics, transportation, economics, etc
15 p2800 A70-32058
- LUNAR RADAR ECHOES
Diffuse component of lunar radar echoes, using model with volume backscattering from within lunar regolith, noting rocks permissivity
05 p0816 A70-16826
Clock synchronization system using lunar radar reflections for Deep Space Network needs, discussing remote clock receiver and antenna
09 p1656 A70-23037
Lunar radar echoes wavelength dependence in terms of backscattering behavior
10 p1841 A70-24644
Ionospheric scintillations of lunar radar echo components isolation by CW Doppler shift or coherent pulse time delay techniques
10 p1841 A70-24802
Lunar surface specific effective radio signal scattering area measured by Luna 9 and 13, describing signal fluctuations
21 p3884 A70-40838
Radar astronomical polarization measurements for lunar echoes by exploiting ionospheric Faraday rotation with linearly polarized antenna
23 p4165 A70-44964
- LUNAR RADIATION
Lunar neutron flux due to cosmic radiation interaction with lunar surface layer, determining angular distribution and energy spectrum
04 p0738 A70-14442
Normal albedo of Apollo 11 landing site and intrinsic dispersion in lunar Heiligenschein determined from Apollo and earth based photographic photometry
04 p0747 A70-14549
Radio emission measurements of moon at 3.2 cm by artificial moon method, calculating radio temperature and phase amplitudes
05 p0918 A70-16919
Book on moon covering motion, earth-moon system, internal structure, hydrostatic equilibrium, thermal history, global form, gravitation, topography, etc
12 p2298 A70-27096
Neutron flux due to cosmic radiation interaction with lunar surface layer, determining angular distribution and energy spectrum
13 p2475 A70-28467
Lunar horizontal and inclined surfaces net radiation and components, discussing surface temperature, thermal emission and absorbed solar radiation
14 p2634 A70-30194
Lunar surface thermal emission spectra, calculating IR emissivities
14 p2637 A70-30495
Lunar remote probing by IR and microwave thermal emission and by radar
14 p2644 A70-31056
Lunar IR radiation measurements for estimating thermophysical properties and small scale surface nature
14 p2645 A70-31057
Balloon-borne midinfrared observations of lunar surface composition from interpreting peak emissivity differences
14 p2645 A70-31058
Lunar surface roughness effects on thermal radiation, using model surface with parallel troughs
14 p2649 A70-31212
Pulverization effects on lunar rocks albedo under full moon conditions for different grain sizes, noting inverse relation to absorption coefficient
14 p2649 A70-31214
Lunar millimeter wavelength thermal radiation measurement noting surface roughness effect on polarization
17 p3171 A70-35559
Moon as standard radio source for eliminating earth atmosphere influence during solar radio radiation measurements
19 p3522 A70-38564

- LUNAR RAYS
Photometric investigation of lunar crater rays of Tycho, Copernicus, Kepler and Aristarchus compared with terrestrial explosion craters
07 p1377 A70-18972
- LUNAR RECEIVING LABORATORY
Bioscience for recovered lunar samples, discussing Surveyor analyses, Lunar Receiving Laboratory methods and life detection using biological markers
01 p0042 A70-11637
Environmental control underground low level radiation counting facility of Lunar Receiving Laboratory for gamma ray spectrometry, including radon adsorption system
05 p0829 A70-16707
Environmental engineering at NASA MSC, surveying Lunar Receiving Laboratory, microbe incinerator, radon adsorption, Apollo Post-Landing Environmental Test Tank and vacuum chamber
10 p1860 A70-24411
Viable organisms in Apollo 11 lunar fines, discussing tests, laboratory and sterile biological barrier system
21 p3911 A70-41634
Apollo 11 rocks natural remanence and induced magnetism by triaxial magnetic gradiometer at Lunar Receiving Laboratory
21 p3914 A70-41650
- LUNAR ROCKS
Physical, chemical, mineralogical and biological analysis of Apollo 12 lunar samples compared to Apollo 11 rocks, discussing landing site geologic setting
10 p1935 A70-23811
Synthetic silicate liquid viscosity with lunar rock composition compared with volcanic rock on earth
10 p1938 A70-24074
Carbon compounds composition and origin in Apollo 11 lunar samples using pyrolytic chromatography and microscopy at elevated temperature
10 p1941 A70-24531
Lunar rolling stones anomalous surfaces goniphotometric properties, considering bearing strength as rock density function
12 p2296 A70-26925
Methane and ethane released from Apollo 11 lunar samples by crushing or acid treatment, suggesting carbides hydrolysis as main source
12 p2304 A70-27719
Lunar rocks and dust from Apollo 11 mission investigated for origin and history of moon and solar system
12 p2310 A70-28049
Rb-Sr internal isochrons of crystalline lunar rocks from Tranquility Sea for moon age estimation
13 p2485 A70-28472
Lunar rocks isotopic composition for Gd and variations due to low energy neutron capture produced by cosmic ray interactions
13 p2485 A70-28473
U and Th abundances correlation in tektites and achondrites based on oxygen isotopic composition of lunar rock specimens
13 p2488 A70-28720
Solar flare proton induced radioactivity in Apollo 11 lunar surface material compared with stony meteorite data, noting cobalt 56 concentration
13 p2489 A70-28910
Anelasticity in lunar seismology, discussing low Q regolith layer model from Apollo 12 LP seismogram
13 p2497 A70-29857
Moon rocks nature and mineralogical constitution, describing methods for age determination
14 p2634 A70-30275
Carbon and sulfur reactions with solar hydrogen atoms in Apollo 11 lunar samples accounting for isotopic composition of fine-grained basaltic rocks
14 p2545 A70-30791
Tektite glass in lunar sample from Apollo 12, discussing chemical composition and possible volcanic origin
14 p2642 A70-30983
Ballistic model for lunar regolith evolution based on lunar surface characteristics from Surveyor TV pictures
14 p2644 A70-31053
Lunar soil and rocks photometric and polarimetric properties from high resolution Surveyor pictures
14 p2644 A70-31054
Polarized and depolarized radar maps of moon, attributing anomalies and average diffuse component of echoes to scattering behavior of surface and subsurface rocks
14 p2645 A70-31060
Pulverization effects on lunar rocks albedo under full moon conditions for different grain sizes, noting inverse relation to absorption coefficient
14 p2649 A70-31214
Apollo 11 lunar mission results, discussing surface, seismology, laser ranging retroreflector, solar wind and rock samples
15 p2800 A70-32073
Ionization potentials of elemental abundances in lunar rocks compared with earth crust and class I carbonaceous chondrites, showing lunar materials differentiation
15 p2801 A70-32463

- Rb-Sr internal isochron ages from Ocean of Storms, discussing analytical results of two texturally and mineralogically distinct crystalline rocks from Apollo 12
16 p2975 A70-33659
Sound velocity differences related to composition of lunar and terrestrial rocks
16 p2978 A70-33973
Apollo 11 lunar rocks mineralogy and petrology, noting anorthosite in powder and breccia
18 p3320 A70-37081
Apollo 11 lunar rocks and dust from Tranquility Sea measured for age by Rb-Sr and K-Ar methods
18 p3320 A70-37082
Mass spectrometric analysis of lunar rocks for rare gases of solar wind, determining relative abundance, isotopic composition, rock age, exposure time, etc
18 p3320 A70-37083
Heavy ions traces in crystals of lunar rocks, discussing applications as detectors
18 p3321 A70-37084
Apollo 12 rock and dust analyses, discussing modifications to conclusions from Apollo 11 samples with reference to rare gas concentrations
18 p3321 A70-37085
Lunar rocks permissivity and density and surface roughness from radio wave scattering data
19 p3512 A70-37276
Lunar rock origin based on apollo samples density, impurities and mineral and chemical composition, considering structure and genesis of crust and mantle
19 p3513 A70-37524
Lunar geomorphological map technique, discussing lunar rock formation classifications
19 p3516 A70-37981
Lunar maria rock thickness estimation, giving depth vs diameter diagrams for craters to show procellarian system thickness
19 p3516 A70-37982
Clinopyroxenes from Apollo 12 rocks studied by X ray diffraction and electron microprobe methods, noting phenocrysts, chemical composition and crystallization
19 p3519 A70-38033
Lunar fragmental debris layer observations from Surveyor project, examining size, shape, texture, structure, etc
20 p3707 A70-39955
Lunar fragmental debris physics from Surveyor observations, examining size-frequency distribution
20 p3707 A70-39956
Lunar soil from Apollo 12, identifying chemical composition of orthopyroxene-calcic plagioclase rock fragments for origin
20 p3709 A70-39980
Lunar rocks almandine-rich garnet chemical composition and crystallography, noting cell edge and refractive index
21 p3883 A70-40711
Apollo 11 mafic crystalline rocks and mineral assemblages, discussing collection, classification and sample environments
21 p3894 A70-41502
Apollo 11 magnesium-rich opaque oxide almalcolite mineral from Tranquility Base noting relation to pseudobrookite series
21 p3895 A70-41503
Calcium-bearing iron silicate (pyroxferroite) from Apollo 11 lunar Tranquility Base samples, discussing petrographic environment, physical and optical properties
21 p3895 A70-41504
Titanian and aluminian chromites and chromian ulvöspinel in Apollo 11 fines, microbreccias and basaltic type igneous rocks
21 p3895 A70-41505
Electron microprobe and petrographic analyses of crystalline rock and separates from apollo 11 lunar soil samples
21 p3895 A70-41506
Apollo 11 lunar rock and fines chemistry, mineralogy and petrology, discussing composition, igneous rocks, microbreccias, glasses and pyroxene relations
21 p3895 A70-41507
Lunar crystalline rock melting at atmospheric pressure under partial oxygen pressure, suggesting crystallization temperature
21 p3895 A70-41508
Trace elements in Apollo 11 lunar glass clinopyroxene, plagioclase and ilmenite, using ion microprobe mass analyzer
21 p3896 A70-41510
Apollo 11 lunar rocks, breccias, dust and chip mineralogy and petrology, examining composition, texture, grain size and morphologies
21 p3896 A70-41511
Apollo 11 lunar igneous rocks mineralogical, chemical and petrological features by optical and electron microscopy and X ray spectrometry
21 p3896 A70-41512
Opaque minerals in Apollo 11 lunar igneous and fragmental rocks, using reflecting microscope and electron microprobe
21 p3896 A70-41513

- Apollo 11 lunar soil volcanic rock samples, mineralogical and petrological description and surface features 21 p3896 A70-41514
- Lunar crystalline rock static and dynamic deformation, examining regolith and silicates textures and structures 21 p3897 A70-41515
- Apollo 11 lunar crystalline rock samples petrology, discussing shock and other metamorphic effects on mineral structure 21 p3897 A70-41516
- Petrology, mineralogy and deformation of Apollo 11 rock samples using microscopic, X ray and electron microprobe methods 21 p3897 A70-41517
- Trace phyllosilicates in Apollo 11 soil sample and rock, using electron microscopy and diffraction studies 21 p3897 A70-41518
- Petrologic analyses of minerals and glass spherules in Apollo 11 lunar rocks, indicating little fractionation and shallow-level differentiation 21 p3897 A70-41521
- Crystallography of euhedral single crystals from lunar troilite indicating hexagonal forms consistent with high temperature NiAs type structure 21 p3898 A70-41522
- Apollo 11 lunar rock pyroxenes, examining band structure and magnetic ordering by high voltage electron microscopy and electron diffraction 21 p3898 A70-41523
- Petrography and shock vaporization origin of Apollo 11 lunar breccias and glasses compared to terrestrial impactites and chondrites 21 p3898 A70-41524
- Apollo 11 lunar rock mineralogy, examining petrographic and chemical features by light microscopy, electron microprobe microanalysis and detector system 21 p3898 A70-41525
- Bulk chemical compositions, mineral and glass analyses, X ray data and physical properties of Apollo 11 lunar fines and rocks 21 p3898 A70-41526
- Apollo 11 lunar rock fluorapatite and trace minerals, examining pressure and oxidizing conditions of formation, grain and crystallization 21 p3898 A70-41527
- Plagioclases, pyroxenes and olivines in lunar soils and rocks, using X ray diffraction and Mossbauer effect 21 p3899 A70-41528
- Lunar breccia and fine sample metal particles, using optical and scanning electron microscopy and electron probe microanalysis 21 p3899 A70-41529
- Apollo 11 lunar rock lavas and breccias, examining opaque minerals and olivine by reflection microscopy, electron probe and optical absorption measurements 21 p3899 A70-41530
- Compositions of lunar fines, crystalline rock and glass spherules, showing high normative anorthite 21 p3899 A70-41531
- Compositional zoning in pyroxenes from grained Apollo 11 microgabbros, implying supercooled magma origin 21 p3899 A70-41532
- Apollo 11 lunar samples mineralogical and compositional studies concerning lunar origin hypothesis 21 p3899 A70-41534
- Shock metamorphic granular mafic holocrystalline lithic fragments, microbreccia, glass and anorthosite from Apollo 11 lunar surface material at Tranquility Base 21 p3900 A70-41535
- Petrology, crystallization and magma origin of lunar clinopyroxene, ilmenite-rich dolerite and microgabbro from Apollo 11 samples 21 p3900 A70-41536
- Fission track uranium distribution studies of Apollo 11 lunar volcanic rocks, using Lexan plastic print method 21 p3900 A70-41537
- Apollo 11 lunar igneous rocks minerals and glassy phases characteristics, using electron probe microanalysis 21 p3900 A70-41538
- Mineralogy and petrology of lunar rock samples indicating meteoritic increments 21 p3900 A70-41539
- Apollo 11 samples compared to stony meteorites and terrestrial basalt, discussing lunar rock formation processes 21 p3900 A70-41540
- Glass spherule lunar particles and breccia from Apollo 11 site, showing passage through impact generated cloud of hot fragmental material 21 p3901 A70-41541
- Shock metamorphism, grain size and mineralogy of lunar surface regolith materials 21 p3901 A70-41543
- Apollo 11 lunar rock clinopyroxene, plagioclase and ilmenite internal substructure, using high voltage transmission electron microscopy 21 p3901 A70-41544
- Mineral chemistry of Apollo 11 igneous rocks, soil and breccia samples, comparing with meteorites 21 p3773 A70-41545
- Apollo 11 lunar rock samples alpha particle activity in polished thin sections, using audioradiography and electron microprobe 21 p3901 A70-41546
- Apollo 11 lunar basalt petrogenesis, examining internal constitution and origin by high pressure 21 p3901 A70-41547
- Lunar petrology of silicate melt inclusions from Apollo 11 rock samples, discussing heating experiments 21 p3902 A70-41548
- Apollo 11 lunar rocks and fines, examining clinopyroxenes augite and pigeonite by single crystal X ray diffraction microprobe optical and electron optical techniques 21 p3902 A70-41549
- Apollo 11 lunar rock and fines shock induced and melting microstructural mineral damage, discussing meteorite bombardment, phases without melting and microbreccia 21 p3902 A70-41550
- Shock metamorphism in lunar microbreccias and loose regolith materials, assuming crater formation by meteorite impacts 21 p3902 A70-41551
- Quantitative optical and electron probe studies of opaque phases in Apollo 11 lunar rocks 21 p3902 A70-41552
- High crystallization temperatures for igneous rocks from Tranquility Base indicated from late formation of sulfide liquid forming complex troilite intergrowths and iron 21 p3902 A70-41553
- Lunar rocks petrography, mineralogy and petrogenesis from Apollo 11 samples 21 p3902 A70-41554
- Apollo 11 lunar rock plagioclases crystallography, obtaining single crystal X ray diffraction patterns by Buerger precession method 21 p3903 A70-41555
- Apollo 11 lunar igneous rock mineralogy and petrology, emphasizing ferrobasalt minerals microanalysis electron probe 21 p3903 A70-41557
- Apollo 11 lunar anorthosites properties and characteristics, discussing grain size, Na content, color, density, chemical composition and geomorphic effects 21 p3903 A70-41559
- Apollo 11 lunar rock trace elements, examining basalt, gabbroic igneous rocks, breccias and fines by DC arc emission spectroscopy 21 p3774 A70-41561
- Apollo 11 lunar rocks and fines cosmic ray produced radioisotopes, considering surface exposure to high energy component flux 21 p3906 A70-41562
- Apollo 11 lunar rocks, breccias and fines age and chemistry, major element, trace element and rare earth abundances, texture, crystallization and meteoritic effects 21 p3906 A70-41563
- Tritium and Ar radioactivities attributable to galactic and solar cosmic ray interactions in Apollo 11 lunar rocks and soil 21 p3906 A70-41564
- Apollo 11 lunar rocks and fines oxygen, Si and Al content determination by neutron activation analysis 21 p3774 A70-41566
- Lunar rock composition difference from meteorites and terrestrial basalts, indicating complexities in solar abundances and initial earth and moon compositions 21 p3906 A70-41567
- Apollo 11 lunar rocks and soil hydrogen, C and Si concentration and isotopic composition 21 p3774 A70-41568
- Apollo 11 lunar material trace elements, examining chemical processes during and after formation and meteoritic matter influx rate 21 p3907 A70-41572
- Apollo 11 lunar basalt chemical composition and petrogenesis, using stable isotope dilution method 21 p3907 A70-41573
- Apollo 11 lunar rocks elemental abundances determination by instrumental activation techniques 21 p3775 A70-41574
- Apollo 11 sample elemental abundances, investigating environmental, paragenetic and petrogenetic problems and moon evolution 21 p3907 A70-41575
- Apollo 11 lunar material isotopic age determination, discussing rock crystallization, radiogenic dust, lead isotope data and moon origin 21 p3907 A70-41576
- Apollo 11 lunar samples composition for Na 22, Al 26, Th and U, investigating positron activities 21 p3775 A70-41580
- Apollo 11 lunar matter rare gas, H and N concentrations and isotopic abundances, discussing solar wind, gas diffusion loss from silicates and spallation component 21 p3908 A70-41583
- Trapped and cosmogenic rare gases from stepwise heated Apollo 11 lunar dust and crystalline rocks, using mass spectrometry 21 p3908 A70-41584
- Apollo 11 lunar rock Rb-Sr isotopic age relationships, discussing magmatic fractionation of Rb relative to Sr in moon primordial material 21 p3908 A70-41585
- Rare gas distribution in grain surfaces of lunar soil, breccias and rocks originating from solar wind, using microhelium probe 21 p3908 A70-41587
- Neutron activation analysis for Re and Os in Apollo 11 volcanic rocks, discussing possible meteoritic contamination of secondary rocks and fines 21 p3775 A70-41589
- Apollo 11 lunar rocks and soil chemical composition, examining major, minor and trace elements 21 p3776 A70-41591
- Carbon and nitrogen abundances in Apollo 11 rocks, basaltic achondrites and terrestrial basalts, using meteorite analytical techniques 21 p3776 A70-41592
- Apollo 11 lunar rock and soil elemental abundances, discussing composition, volatile element depletion, rare earths, basalt and geochemical processes 21 p3909 A70-41593
- Trace elements K, Rb, Sr and Ba distributions and Rb-Sr isotopic relations in Apollo 11 lunar breccia and fine soil samples 21 p3909 A70-41594
- Apollo 11 lunar rock and fines primordial radionuclide abundances and concentration gradients by gamma ray spectrometry at Lunar Receiving Laboratory 21 p3776 A70-41595
- Apollo 11 lunar rocks oxygen isotope ratios, examining relationship to terrestrial basalts 21 p3776 A70-41596
- Oxygen isotope fractionation and formation temperature of minerals from Apollo 11 rocks, including plagioclase-clinopyroxene-magnetite concordancy diagram 21 p3776 A70-41597
- Apollo 11 lunar fines, breccia and crystalline rocks rare gas data, emphasizing trapped and spallation Ne, Kr and Xe isotopic compositions 21 p3909 A70-41598
- Cosmogenic and primordial radionuclides in Apollo 11 lunar soil and rocks, using nondestructive gamma ray spectral measurements 21 p3776 A70-41599
- Apollo 11 lunar rock K, Rb, Sr, Ba and rare earth element concentrations, examining relationship to terrestrial and chondritic levels 21 p3776 A70-41600
- Halogens, mercury, lithium and osmium concentration measurements in Apollo 11 samples, using neutron and photon activation 21 p3777 A70-41601
- Chemical composition and reducing capacity of Apollo 11 igneous rocks, breccia and soil fines, using semimicro X ray fluorescence 21 p3777 A70-41602
- Apollo 11 lunar rock and soil bombardment produced radionuclide patterns, discussing solar flare protons and alphas, age determination and astronomical models 21 p3777 A70-41604
- Apollo 11 lunar rocks, breccia and fines U, Th and Pb isotopes systematics, considering implications for lunar history 21 p3909 A70-41605
- Elemental abundances of Apollo 11 lunar rocks and soils, using activation analysis or mass spectrometric isotope dilution 21 p3909 A70-41606
- Cosmic ray exposure age of lunar surface material by radioactive isotopes Ar 37 and 39 measurement, investigating temperature dependence 21 p3909 A70-41607
- Apollo 11 lunar rocks and minerals oxygen 18-oxygen 16 ratios 21 p3777 A70-41609
- Chemical analysis methods for Apollo 11 lunar rocks, discussing calibration standards, spectral lines and Apollo 12 data 21 p3777 A70-41610
- Chemical analysis for Li, Na, K, Rb, Cs, Ca, Sr and Ba in achondrites and Apollo 11 lunar rocks, breccia and soil samples 21 p3910 A70-41611
- Apollo 11 lunar rocks and soil chemical elements analysis by neutron activation scheme 21 p3777 A70-41612
- Apollo 11 crystalline rocks chemical analysis by argon 40/argon 39 dating techniques 21 p3778 A70-41613

Apollo 11 lunar rocks, soil and core samples major, minor and trace elements abundance by radiochemical and instrumental activation analyses

21 p3910 A70-41614

Apollo 11 fines and rocks major and trace elements data obtained by combined instrumental and neutron activation analysis

21 p3910 A70-41615

Age determination of Apollo 11 samples from isotopic composition measurements by isotope dilution techniques, comparing to terrestrial and meteoritic values

21 p3778 A70-41616

Apollo 11 lunar, terrestrial and meteoritic basalts relationships, examining Ga, Ge, In, Ir and Au concentrations by neutron activation analyses

21 p3778 A70-41617

Apollo 11 lunar surface fine material and rocks cosmogenic radio nuclides Al 26 and Na 22 concentrations determination by gamma ray spectroscopy

21 p3910 A70-41618

Apollo 11 lunar dust and microbreccia micropaleontological examination, discussing biological morphology

21 p3778 A70-41620

Apollo 11 lunar samples organic carbon content analysis by pyrolysis hydrogen flame ionization detection

21 p3779 A70-41624

Volatilizable C compounds in lunar fines from Mare Tranquillitatis, investigating pyrolysis and acid hydrolysis products by mass spectroscopy and gas chromatography

21 p3779 A70-41628

Apollo 11 lunar samples organic compounds analysis by mass spectroscopy, gas and liquid chromatography and nuclear magnetic resonance

21 p3779 A70-41629

Apollo 11 fines and rocks analysis by chromatography, mass spectrometry and light and scanning electron microscopy

21 p3779 A70-41631

Apollo 11 lunar science - Conference, Houston, January 1970, Volume 3, Physical properties

21 p3911 A70-41636

Lunar rocks mineralogy and visible and near IR reflectivity, discussing depression in telescopic curve

21 p3912 A70-41637

Magnetic monopoles electromagnetic search in Apollo 11 rock samples

21 p3912 A70-41639

Micro-breccia, igneous rocks and lunar fines elastic properties at ambient conditions and as function of pressure, discussing near surface mare region models

21 p3913 A70-41640

Lunar rocks primordial accretion, examining ablation and transport of solids, liquid and vapor on surfaces

21 p3913 A70-41641

Apollo 11 rocks IR absorption properties, specific heat and thermal conductivity, discussing heat flow in surface layer

21 p3913 A70-41642

Directional, spectral and total reflectance for Apollo 11 fines and rock chips, observing dependence on illumination angle

21 p3913 A70-41643

Apollo 11 rocks red luminescence and blue thermoluminescence under proton bombardment, discussing energy efficiency

21 p3913 A70-41644

Apollo 11 rocks spectral reflectance and albedo before/after proton irradiation and vitrification, investigating color differences for lunar surface dark and bright areas

21 p3913 A70-41645

Apollo 11 lunar rock and soil mechanical behavior and physical characteristics, discussing color, specific gravity, density, shapes and adhesive and cohesive properties

21 p3913 A70-41646

Nuclear particle tracks in Apollo 11 samples due to galactic cosmic rays and solar flares relationship to dynamic surface processes

21 p3914 A70-41648

Apollo 11 fines, breccias and crystalline rocks thermoluminescence, observing temperature dependence of glow curve peaks

21 p3914 A70-41649

Apollo 11 rocks natural remanence and induced magnetism by triaxial magnetic gradiometer at Lunar Receiving Laboratory

21 p3914 A70-41650

Apollo 11 type C breccia sample remanent magnetism, observing viscous component with several hours time constant

21 p3914 A70-41651

Rock particle tracks of primary cosmic rays, spallation recoil nuclei, nuclear fission and solar wind ions, observing time scale multiple soil orientation

21 p3914 A70-41652

Apollo 11 drive-tube core samples from Tranquility Base, expressing lunar surface environmental processes

21 p3914 A70-41653

Apollo 11 lunar fines, rocks and breccias luminescence, electron paramagnetic resonance and optical properties, discussing reflection spectra, heating effects and dipole resonance

21 p3914 A70-41654

Luminescence efficiencies of Apollo 11 lunar and terrestrial rocks and minerals, using UV excitation

21 p3915 A70-41656

Fe 57 nuclear hyperfine splittings in clinopyroxenes from lunar igneous rocks, determining temperature dependent cation distribution

21 p3915 A70-41659

Apollo 11 lunar rock and dust samples thermomagnetic properties, Curie points, magnetization and demagnetization characteristics

21 p3915 A70-41661

Mossbauer effect spectrometry application to Apollo 11 lunar rocks composition, using nuclear gamma resonance measurements for nuclide Fe 57

21 p3916 A70-41662

Apollo 11 lunar specimen thermal diffusivity, conductivity and inertia in breccias and crystalline igneous rocks measured over wide temperature range

21 p3916 A70-41663

Apollo 11 lunar dust, breccia and igneous rocks, using Mossbauer spectroscopy and petrographic techniques

21 p3916 A70-41664

Thermoluminescence, X ray and stored energy measurements of Apollo 11 samples, comparing surface outputs to interior

21 p3916 A70-41665

Apollo 11 lunar sample elastic wave velocities at high pressures, examining P and S waves, Q value and geophysical implications

21 p3916 A70-41666

Apollo 11 bulk and core tube fines and rock cosmic ray tracks, discussing material history and corpuscular radiation flux and energy spectra near moon

21 p3916 A70-41667

Magnetic properties of Apollo 11 lunar breccia samples, determining natural remanent magnetization and susceptibility via paleomagnetism instruments and methods

21 p3916 A70-41668

Apollo 11 rock and fines magnetic resonance, examining line shapes, temperature dependences and electron spin

21 p3917 A70-41670

Lunar rocks magnetic properties and natural remanent magnetization, examining pyroxene paramagnetism, ferrosilite and ilmenite antiferromagnetism and native iron ferromagnetism

21 p3917 A70-41671

Proton and UV excited luminescence of Apollo 11 Tranquility rocks and fines, indicating solar wind impingement

21 p3917 A70-41672

Fe-group cosmic ray exposure tracks in Apollo 11 lunar rock interior, erosion rate and solar flare paleontology

21 p3917 A70-41673

Apollo 11 sample specific heats at 90-350 K, using adiabatic calorimeter

21 p3917 A70-41674

Apollo 11 lunar rock and fines magnetic properties, associating remanent magnetization with lunar magnetic field

21 p3917 A70-41675

Apollo 11 lunar crystalline rock and breccias petrography and luminescent properties, spectral analysis, color, emission bands and shock effects

21 p3918 A70-41678

Apollo 11 lunar crystalline rock, microbreccia and fines compressibilities at room temperature, loading-unloading and pressure volume curves

21 p3918 A70-41679

Apollo 11 lunar samples spectral analysis, discussing Fe and Mn electron paramagnetic resonance and Al 27 nuclear magnetic resonance spectra

21 p3919 A70-41683

Metallic Fe grains in Apollo 12 igneous rocks, discussing Ni and Co abundances

21 p3920 A70-41881

Lunar samples and terrestrial materials isotopic analyses, discussing mineralogical and chemical compositions for lunar origin

22 p4098 A70-42574

Apollo 11 lunar rock samples examined for clues to moon life

22 p3972 A70-43425

Crystalline rocks from Mare Tranquillitatis and Oceanus Procellarum, determining K-Ar ages

23 p4238 A70-43803

Terrestrial and synthetic lunar igneous rocks thermal conductivities in melting range, discussing thermal gradient

23 p4238 A70-43804

Tektite glass absence in Apollo 12 lunar sample

23 p4238 A70-43806

Apollo 11 ilmenite basalts petrology from regolith samples

23 p4239 A70-43898

Apollo 11 and 12 lunar landing sites surface properties from returned rocks chemical, physical and mineralogical analysis

23 p4241 A70-44221

Book on lunar rocks covering pre-Apollo lunar scientific knowledge, Apollo and future lunar mission planning, lunar mineralogy, petrology and geochemistry, etc

24 p4412 A70-46025

LUNAR ROVING VEHICLES

Optimal traction drive system design for lunar roving vehicle, considering weight, energy consumption, operational flexibility, power supply, motor and power train

11 p2030 A70-25375

Dead reckoning navigation of manned lunar roving vehicle /MLRV/, describing hardware and coordinate system

12 p2266 A70-27414

Apollo lunar roving vehicles for manned exploration, discussing design proposals

12 p2208 A70-27943

Lunar vehicle design, discussing dual power steering, switching and joystick control handle

12 p2208 A70-27944

Bendix design approach for lunar vehicle using operating mockup, noting trend towards lighter machines

12 p2208 A70-27945

Lunar roving vehicle stability and agility design approach by Grumman, using articulated steering and conical wheels

12 p2208 A70-27946

Chrysler lunar vehicle design featuring flexible metal wheels and Ackerman front wheel steering, noting back-to-back seating and centrally mounted control display panel

12 p2208 A70-27947

Pogo sticks concept for lunar exploration, showing improved performance over lunar surface or flying vehicles

13 p2505 A70-28891

Lunar surface exploration vehicle /Lunar Rover/ design, analyzing storage aspects in Lunar Module

16 p2888 A70-33680

Manned lunar roving vehicle /MLRV/ navigation scheme based on dead reckoning concept, discussing instruments effectiveness for vehicle velocity and orientation measurements

19 p3396 A70-37849

LUNAR SATELLITES

NT LUNAR ORBITER

Moon figure and gravitational field determination based on hydrostatic theory, libration observations, node and perigee motion, lunar satellite trajectories and visible topography

06 p1141 A70-17824

Apollo Command and Service Modules for lunar orbital science missions, discussing spacecraft-experiment integration

21 p3928 A70-40978

LUNAR SCATTERING

U DIFFUSE RADIATION

U LUNAR RADAR ECHOES

LUNAR SEISMOGRAPHS

Seismic analysis of lunar module impact and missile-earth impact, comparing recorded signal parameters

11 p2118 A70-26748

Seismic echo produced by jettisoned Apollo 12 S-4B stage impact at lunar surface analyzed by multiscatter scattering theory

12 p2298 A70-27280

Lunar elastic waves anomalous propagation, considering Apollo seismographic records and earth rocks specific dissipation function measurements

13 p2486 A70-28617

Lunar seismogram response behavior in terms of power law model of sedimentary earth rock anelasticity

13 p2497 A70-29856

Anelasticity in lunar seismology, discussing low Q regolith layer model from Apollo 12 LP seismogram

13 p2497 A70-29857

Body waves in lunar models, calculating travel times and amplitudes

14 p2638 A70-30674

Localization of lunar acoustic energy, discussing long reverberation time measured at Apollo 12 site after module explosion

18 p3319 A70-37053

Apollo 11 passive seismic experiment package, discussing design, performance and various received signals

21 p3917 A70-41669

LUNAR SHADOW

Electric field sense and magnitude determination from lunar particle shadows in solar electron fluxes

13 p2492 A70-29196

Moon shadow solar eclipse encounter probability for high altitude satellite in circular earth orbit

15 p2803 A70-32502

Lower atmosphere gravity wave motions due to cooling by solar eclipse shadow

23 p4185 A70-43845

LUNAR SOIL

NT LUNAR DUST

Bioscience for recovered lunar samples, discussing Surveyor analyses, Lunar Receiving Laboratory methods and life detection using biological markers

01 p0042 A70-11637

Photoelectric polarimetry of samples of lunar maria, terra, lavas and chemicals for wavelength dependence of polarization, comparing to Mercury, Mars and asteroids

03 p0576 A70-14082

Kamchatka regions volcanic deposits structural and mechanical characteristics compared with lunar soil characteristics

04 p0744 A70-14440

Lunar neutron flux due to cosmic radiation interaction with lunar surface layer, determining angular distribution and energy spectrum

04 p0738 A70-14442

Lunar regolith and polarized component of earthlight observations by Surveyor 7 TV camera

04 p0752 A70-15061

Surveyor 7 highland landing soil mechanical properties and rock diameter similar to previous sites

04 p0752 A70-15063

Surveyor 7 lunar surface sampler, obtaining soil and rock data

04 p0752 A70-15064

Sinus Medii lunar surface material chemical composition from alpha scattering experiment on Surveyor 6

06 p1151 A70-18483

Thermocouple vacuum gauge joined to Apollo lunar sample return containers (ALSRC), describing two step welding procedure with transition cylinder

08 p1507 A70-21483

Laboratory irradiation of rock samples for solar wind flux effects on IR reflectivity of lunar rocks

08 p1579 A70-21565

Apollo 11 lunar material X ray diffraction and microscope studies, noting chemical composition agreement with Surveyor 7 data

09 p1752 A70-22245

Temperature distribution in shadowed lunar craters formulated in Fredholm integral equations, showing constant temperature and correction for soil thermal inertia

[AIAA PAPER 69-595]

11 p2112 A70-26155

Apollo 13 lunar surface heat flow experiment to measure vertical temperature gradients as function of time and soil thermal conductivity

11 p2118 A70-26747

Mass spectrometric analysis of lunar material from soil vaporization products ion component by electron beam

11 p2119 A70-26800

Kamchatka regions volcanic deposits structural and mechanical characteristics compared with lunar soil characteristics

13 p2485 A70-28465

Neutron flux due to cosmic radiation interaction with lunar surface layer, determining angular distribution and energy spectrum

13 p2475 A70-28467

Lunar soil and rocks photometric and polarimetric properties from high resolution Surveyor pictures

14 p2644 A70-31054

Lunar surface mechanical properties from Surveyor spacecraft interactions with soil /exclusive of surface sampler/

14 p2644 A70-31055

Lunar IR radiation measurements for estimating thermophysical properties and small scale surface nature

14 p2645 A70-31057

Lunar surface optical properties differences for lunar and planetary nature and evolution determination

14 p2645 A70-31063

Lunar mascons origin explanation in terms of primordial atmosphere and hydrosphere

14 p2646 A70-31065

Legal status of ownership rights of lunar soil samples and objects left on moon by astronauts

17 p3203 A70-35790

Lunar soil characteristics, analyzing sample from Apollo 11 mission

18 p3316 A70-36892

Lunar regolith depth measurement by Lunar Orbiters 4 and 5 high resolution photographs, discussing thickness relation with sinuous rilles in maria regions

18 p3319 A70-37054

Physical model of lunar soil prior to Apollo 11 landing, discussing meteoritic shock formation of powdery soil

18 p3320 A70-37080

Apollo 11 and 12 results tabulated for soil packing characteristics, composition and rare gas analysis data

18 p3332 A70-37223

Biological tests of fish and invertebrates exposed to Apollo 11 lunar surface material, noting absence of pathological effects

19 p3513 A70-37409

Hydrogen flame ionization detector /HYFID/ for life-derived organic matter in Martian/Lunar soil

19 p3426 A70-37896

Lunar anorthosites Ni-Fe grains from Mare Tranquillitatis, discussing contamination by meteoritic metal, magnetic fractionation and fractional crystallization

19 p3519 A70-38032

Lunar soil from Apollo 12, identifying chemical composition of orthopyroxene-calcic plagioclase rock fragments for origin

20 p3709 A70-39980

Electron microprobe and petrographic analyses of crystalline rock and separates from Apollo 11 lunar soil samples

21 p3895 A70-41506

Apollo 11 lunar rock and fines chemistry, mineralogy and petrology, discussing composition, igneous rocks, microbreccias, glasses and pyroxene relations

21 p3895 A70-41507

Mineralogy and chemistry of Apollo 11 lunar soil samples, using three-channel electron microprobe analyzer

21 p3896 A70-41509

Apollo 11 lunar soil volcanic rock samples, mineralogical and petrological description and surface features

21 p3896 A70-41514

Trace phyllosilicates in Apollo 11 soil sample and rock, using electron microscopy and diffraction studies

21 p3897 A70-41518

Tranquility Base lunar soil origin, establishing component nature, size distribution, density, mineralogy, constructional or destructional history

21 p3897 A70-41519

Apollo 11 lunar soil and breccia shock metamorphism, examining plastic deformation structures in plagioclase, pyroxene and olivine

21 p3897 A70-41520

Bulk chemical compositions, mineral and glass analyses, X ray data and physical properties of Apollo 11 lunar fines and rocks

21 p3898 A70-41526

Plagioclases, pyroxenes and olivines in lunar soils and rocks, using X ray diffraction and Mossbauer effect

21 p3899 A70-41528

Lunar breccia and fine sample metal particles, using optical and scanning electron microscopy and electron probe microanalysis

21 p3899 A70-41529

Compositions of lunar fines, crystalline rock and glass spherules, showing high normative anorthite

21 p3899 A70-41531

Type 1 carbonaceous chondrites contribution to lunar soil, comparing mineralogical and trace element evidence

21 p3899 A70-41533

Apollo 11 samples compared to stony meteorites and terrestrial basalt, discussing lunar rock formation processes

21 p3900 A70-41540

Mineral chemistry of Apollo 11 igneous rocks, soil and breccia samples, comparing with meteorites

21 p3773 A70-41545

Apollo 11 lunar rocks and fines, examining clinopyroxenes augite and pigeonite by single crystal X ray diffraction microprobe optical and electron optical techniques

21 p3902 A70-41549

Elemental composition and structure of metallic iron particles in lunar fines compared to meteorites, using neutron activation technique

21 p3774 A70-41556

Microprobe analysis of glassy spherules from Apollo 11 lunar regolith, discussing zoning, composition and hypervelocity impact formation

21 p3903 A70-41558

Apollo 11 lunar rocks and fines cosmic ray produced radioisotopes, considering surface exposure to high energy component flux

21 p3906 A70-41562

Apollo 11 lunar rocks, breccias and fines age and chemistry, major element, trace element and rare earth abundances, texture, crystallization and meteoritic effects

21 p3906 A70-41563

Apollo 11 lunar fines trapped noble gas elemental and isotopic abundances, suggesting solar wind origin

21 p3906 A70-41565

Apollo 11 lunar rocks and fines oxygen, Si and Al content determination by neutron activation analysis

21 p3774 A70-41566

Apollo 11 lunar material actinide element abundance and isotopic composition, examining Th, U and transuranium elements by mass spectrometric and radiometric techniques

21 p3774 A70-41569

Apollo 11 lunar material water content and H and C isotope abundance, examining changes in deuterium and O by solar winds

21 p3774 A70-41570

Rare gas analysis of Apollo 11 lunar soil and breccia for surface layer history

21 p3906 A70-41571

Apollo 11 lunar material trace elements, examining chemical processes during and after formation and meteoritic matter influx rate

21 p3907 A70-41572

Apollo 11 fines gas evolution and physical changes via heat treatment, discussing Ar 40 anomaly, lava structure origin and oxidation rate

21 p3907 A70-41577

Radiogenic and cosmogenic inert gases and isotopic ratios in Tranquility Base fines indicating solar wind saturation

21 p3775 A70-41581

Surface correlation of excess Ar 40 in lunar fines from Apollo 11

21 p3908 A70-41582

Apollo 11 lunar matter rare gas, H and N concentrations and isotopic abundances, discussing solar wind, gas diffusion loss from silicates and spallation component

21 p3908 A70-41583

Rare gas distribution in grain surfaces of lunar soil, breccias and rocks originating from solar wind, using microhelium probe

21 p3908 A70-41587

Lead and thallium isotopic compositions of Apollo 11 fines compared with meteorites and earth for lunar surface age determination

21 p3775 A70-41588

Apollo 11 lunar soil irradiation history from solar wind rare gas abundances and cosmic ray spallation products

21 p3908 A70-41590

Apollo 11 lunar rocks and soil chemical composition, examining major, minor and trace elements

21 p3776 A70-41591

Apollo 11 lunar rock and soil elemental abundances, discussing composition, volatile element depletion, rare earths, basalt and geochemical processes

21 p3909 A70-41593

Trace elements K, Rb, Sr and Ba distributions and Rb-Sr isotopic relations in Apollo 11 lunar breccia and fine soil samples

21 p3909 A70-41594

Apollo 11 lunar rock and fines primordial radionuclide abundances and concentration gradients by gamma ray spectrometry at Lunar Receiving Laboratory

21 p3776 A70-41595

Apollo 11 lunar fines, breccia and crystalline rocks rare gas data, emphasizing trapped and spallation Ne, Kr and Xe isotopic compositions

21 p3909 A70-41598

Cosmogenic and primordial radionuclides in Apollo 11 lunar soil and rocks, using nondestructive gamma ray spectral measurements

21 p3776 A70-41599

Halogens, mercury, lithium and osmium concentration measurements in Apollo 11 samples, using neutron and photon activation

21 p3777 A70-41601

Apollo 11 lunar rock and soil bombardment produced radionuclide patterns, discussing solar flare protons and alphas, age determination and astronomical models

21 p3777 A70-41604

Elemental abundances of Apollo 11 lunar rocks and soils, using activation analysis or mass spectrometric isotope dilution

21 p3909 A70-41606

Chemical analysis for Li, Na, K, Rb, Cs, Ca, Sr and Ba in achondrites and Apollo 11 lunar rocks, breccia and soil samples

21 p3910 A70-41611

Apollo 11 lunar rocks and soil chemical elements analysis by neutron activation scheme

21 p3777 A70-41612

Apollo 11 lunar rocks, soil and core samples major, minor and trace elements abundance by radiochemical and instrumental activation analyses

21 p3910 A70-41614

Apollo 11 fines and rocks major and trace elements data obtained by combined instrumental and neutron activation analysis

21 p3910 A70-41615

Apollo 11 lunar, terrestrial and meteoritic basalts relationships, examining Ga, Ge, In, Ir and Au concentrations by neutron activation analyses

21 p3778 A70-41617

Apollo 11 lunar surface fine material and rocks cosmogenic radio nuclides Al 26 and Na 22 concentrations determination by gamma ray spectroscopy

21 p3910 A70-41618

Apollo 11 lunar fines examined for organic compounds via solvent extraction, vacuum crushing, programmed heating and hydrofluoric acid etching

21 p3778 A70-41619

Apollo 11 lunar fines carbon level, finding largest component carbon monoxide in complex form

21 p3778 A70-41621

Amino acids analysis of Apollo 11 lunar fines by hydrolysis of aqueous extracts

21 p3778 A70-41623

Apollo 11 lunar fines carbon compounds, examining chemical state of porphyrins, fatty and amino acids, purines, pyrimidines and carbohydrates, etc
21 p3779 A70-41625

Apollo 11 lunar fines porphyrin-like pigments content demonstrated by fluorescence spectrometry and analytical demetallation, suggesting rocket exhaust source
21 p3910 A70-41626

Lunar fines hydrochloric acid hydrolysates examination by gas-liquid chromatography indicating presence of organosiloxanes
21 p3779 A70-41627

Volatilizable C compounds in lunar fines from Mare Tranquillitatis, investigating pyrolysis and acid hydrolysis products by mass spectroscopy and gas chromatography
21 p3779 A70-41628

Apollo 11 lunar fines chemical analysis for alkanes of 15-30 carbon atom length, obtaining negative results
21 p3779 A70-41630

Apollo 11 fines and rocks analysis by chromatography, mass spectrometry and light and scanning electron microscopy
21 p3779 A70-41631

Apollo 11 lunar fines organic compounds detection and identification by mass spectrometry
21 p3780 A70-41632

Viable organisms in Apollo 11 lunar fines, discussing tests, laboratory and sterile biological barrier system
21 p3911 A70-41634

Organic solvent extracts of Apollo 11 bulk fine sample examined for porphyrins using spectrofluometry
21 p3780 A70-41635

Apollo 11 lunar science - Conference, Houston, January 1970, Volume 3, Physical properties
21 p3911 A70-41636

Micro-breccia, igneous rocks and lunar fines elastic properties at ambient conditions and as function of pressure, discussing near surface mare region models
21 p3913 A70-41640

Apollo 11 lunar rock and soil mechanical behavior and physical characteristics, discussing color, specific gravity, density, shapes and adhesive and cohesive properties
21 p3913 A70-41646

Apollo 11 fines thermal conductivity under vacuum, using line heat source technique
21 p3913 A70-41647

Apollo 11 fines, breccias and crystalline rocks thermoluminescence, observing temperature dependence of glow curve peaks
21 p3914 A70-41649

Apollo 11 lunar fines, rocks and breccias luminescence, electron paramagnetic resonance and optical properties, discussing reflection spectra, heating effects and dipole resonance
21 p3914 A70-41654

Mossbauer spectra of Apollo 11 lunar fines and microbreccia, showing iron oxidation, site symmetry and magnetic state
21 p3915 A70-41657

Time dependent adhesion in ultrahigh vacuum of Apollo 11 lunar soil sample 10065-33, considering microchemical and microphysical properties
21 p3915 A70-41658

Apollo 11 lunar fines, investigating solar radiation effects on optical properties by standing and heating
21 p3915 A70-41660

Apollo 11 bulk and core tube fines and rock cosmic ray tracks, discussing material history and corpuscular radiation flux and energy spectra near moon
21 p3916 A70-41667

Apollo 11 rock and fines magnetic resonance, examining line shapes, temperature dependences and electron spin
21 p3917 A70-41670

Apollo 11 sample specific heats at 90-350 K, using adiabatic calorimeter
21 p3917 A70-41674

Apollo 11 lunar rock and fines magnetic properties, associating remanent magnetization with lunar magnetic field
21 p3917 A70-41675

Apollo 11 lunar crystalline rock, microbreccia and fines compressibilities at room temperature, loading-unloading and pressure volume curves
21 p3918 A70-41679

Apollo 11 lunar breccia and fines magnetic properties, examining remanence, composition, oxidation, volcanic activity and stoichiometry
21 p3918 A70-41680

Apollo 11 lunar fines glass spherules magnetic properties, considering soft and hard ferromagnetic components
21 p3918 A70-41681

Seismic signal by Apollo 12 lunar module impact indicating deep layer of powder by signal propagation
21 p3920 A70-41894

Lunar samples and terrestrial materials isotopic analyses, discussing mineralogical and chemical compositions for lunar origin
22 p4098 A70-42574

Lunar soil sample preparation and monitoring for viable microorganisms presence
22 p3978 A70-42973

Apollo 11 lunar fine thermal conductivity measurement under vacuum conditions and lunar temperature range, using line heat source method
23 p4243 A70-44442

Apollo 11 lunar fines glassy particles, investigating morphology, optical properties and chemical composition
24 p4403 A70-45401

Lunar launch vehicles quality control and reliability, describing management procedures for test facilities, preproduction and purchased materials quality
22 p4126 A70-42384

LUNAR SURFACE

U LUNAR TOPOGRAPHY

LUNAR SURFACE VEHICLES

NT LUNAR MOBILE LABORATORIES

NT LUNAR ROVING VEHICLES

Lunar surface mobility systems designs based on terrestrial transporters or mission requirements consideration, comparing capabilities
13 p2384 A70-28416

Lunar vehicles development, emphasizing translunar exploration vehicle (TLEV) for future lunar base
14 p2563 A70-30197

Caterpillar remote controlled unmanned lunar exploration vehicle, describing construction and scientific missions
18 p3237 A70-36512

Gyrocompassing for self contained lunar surface vehicles navigation, proposing local vertical determination method
20 p3667 A70-39528

LUNAR TEMPERATURE

Creep behavior of mascons to infer lunar temperatures at depth compared with electrical conductivity data and heat conduction equation
05 p0906 A70-15892

Inhomogeneous model of upper lunar surface layer assuming temperature dependent heat conductivity and capacity, showing agreement with IR measurements
08 p1564 A70-20559

Lunar origin and history, discussing evolution temperature, large and small craters and association with solar system evolution
08 p1581 A70-21822

Lunar internal temperature approximation correcting solution of heat conduction equation for moon thermal histories
09 p1753 A70-22385

Apollo 13 lunar surface heat flow experiment to measure vertical temperature gradients as function of time and soil thermal conductivity
11 p2118 A70-26747

Inhomogeneous model of upper lunar surface layer assuming temperature dependent heat conductivity and capacity, showing agreement with IR measurements
15 p2805 A70-32714

X ray differential drift scans of moon, measuring cold limb brightness temperature and temperature distribution
16 p2974 A70-33646

Lunar rilles temperature distribution analysis, examining contour shape, aspect ratio and solar elevation angles effects
17 p3152 A70-34507

Apollo 11 lunar fine thermal conductivity measurement under vacuum conditions and lunar temperature range, using line heat source method
23 p4243 A70-44442

LUNAR TIDES

Lunar atmospheric tidal wind semidiurnal variations from Hong Kong and Uppsala data, discussing agreement with theory
02 p0325 A70-12217

Tidal disturbing functions developed with amplitude factor and lag angle expressed as sums of zonal spherical harmonics, discussing lunar formation and orbit evolution
03 p0576 A70-14083

Lunar tide in E region phase height from measurements of diurnal phase path change for continuous wave
04 p0678 A70-14973

Lunar tides in midday critical frequency of F 2 layer, determining phase reversal location
04 p0651 A70-15309

Semidiurnal lunar tidal wave influence on clock corrections obtained by observations of stellar meridian passages at four localities
04 p0756 A70-15479

Lunar density gradient, free oscillation and tides study inferring lunar atomic number similarity to Si and earth mantle
05 p0908 A70-16316

Tidal friction induced secular changes in earth-moon system near minimum of angular momentum of moon orbit, including temporal changes in moments of inertia
08 p1579 A70-21570

Lunar daily and monthly tidal variations in horizontal magnetic field and F 2 region maximum electron density and peak ionization height at Puerto Rico
10 p1872 A70-23823

Lunar semidiurnal tidal oscillations of surface pressure in atmosphere, observing constant amplitude with maximum and minimum phase lag variations
11 p2045 A70-25645

Lunar tides relationship with equatorial electrojet currents using daily variations at fixed lunar ages and monthly variations at lunar hours of horizontal magnetic field
11 p2114 A70-26564

Book on thermal and gravitational atmospheric tides covering solar oscillations, lunar air tides, upper air data, ozone radiation absorption, etc
14 p2573 A70-30633

Lunar tide in ionospheric D region absorption near magnetic equator, noting annual variation relationship to sunspots
14 p2574 A70-30747

Lunar tidal diurnal and semidiurnal variations in equatorial sporadic E layer related to H geomagnetic field and sunspot period
15 p2726 A70-31862

Lunar tidal force influence on meteoritic material fission before impact, calculating internal to explain topographical features
18 p3319 A70-37051

Ionospheric electric current distribution response to horizontal wind induced emf, using lunar tidal wind models
19 p3415 A70-38386

Lunar perturbations in horizontal geomagnetic field, F 2 layer thickness and electron density, discussing tidal variations
20 p3617 A70-39141

Lunar tidal components in atmospheric pressure for various observatories, discussing seasonal variations
20 p3661 A70-39142

Earth rotation rate deceleration due to lunar tidal friction taking into account fluctuations from internal processes, discussing moon retreat from earth
21 p3921 A70-41970

Earth-moon system age and origin from tidal evolution equations, considering growth line counts on living and fossil marine invertebrates
21 p3921 A70-41971

Tidal friction theories relating to earth rotation and lunar evolution
21 p3921 A70-41972

Lunar tidal effects on horizontal magnetic field compared at equatorial and midlatitude stations
22 p4021 A70-43279

Hough eigenfunctions of lunar diurnal and semidiurnal atmospheric oscillations using matrix and group methods
24 p4328 A70-45351

LUNAR TOPOGRAPHY

Global exploration of lunar surface by Luna 3 and Zond 3 automatic stations, confirming asymmetric distribution of sea areas on visible and remote hemispheres
01 p0177 A70-10335

Lunar origin theories, considering lunar surface data from Surveyor spacecraft and Lunar Orbiter
01 p0178 A70-10453

Lunar atmosphere molecule and atom concentration from isotropic and uniform surface evaporation due to micrometeorite impact
01 p0192 A70-11541

Space research photography role in studying earth and moon atmospheres and surfaces, determining spectral bands for contrast
03 p0483 A70-13168

Spectral polarization characteristics phase variations used for classifying lunar surface features
03 p0565 A70-13234

Photometric reduction of Lunar Orbiter video magnetic tapes for generation of topographic information of proposed Apollo landing sites
03 p0490 A70-13661

Three dimensional characteristic of light scattered by lunar surface determined for various incidence angles and azimuths from Zond 3 photometric measurements
04 p0744 A70-14441

Lunar surface far side stereoscopic photography by Apollo 8 mission considered for lunar control
04 p0686 A70-14618

Optical facilities of Apollo 11 mission and NASA Manned Spacecraft Center noting Fzadow telescopes, lunar cartography, photometric surface analysis, etc

04 p0687 A70-14690

Soviet book on lunar shape and dimensions from astronomical observations, comparing observational and theoretical data

04 p0751 A70-14952

Surveyor 7 alpha scattering experiment and TV image data revealing lunar surface chemical composition, rocks and fragments, etc

04 p0752 A70-15060

Surveyor 5, 6, 7 missions alpha-scattering experiments, lunar rocks chemical composition compared with earth rocks and chondritic meteorites

04 p0752 A70-15062

Diffuse component of lunar radar echoes, using model with volume backscattering from within lunar regolith, noting rocks permittivity

05 p0816 A70-16826

Gravity anomalies of moon mapped by time differentiation of Doppler-tracked satellite velocities, noting isostatic equilibrium

05 p0915 A70-16827

Surveyor 7 lunar mission landing site, equipment, operations, etc

05 p0915 A70-16830

Cartographic tying-in of Zond 3 lunar surface photographs to verify maps of moon far side

05 p0918 A70-16918

Lunar structure and evolution based on satellite measurements of mass distribution, radius moments of inertia, gravity anomalies and topographic irregularities

05 p0920 A70-16945

Moon figure and gravitational field determination based on hydrostatic theory, libration observations, node and perigee motion, lunar satellite trajectories and visible topography

06 p1141 A70-17824

Catalog of lunar features brightness interpreted in terms of photometric function uniformity of lunar surface, considering second order light scattering

07 p1377 A70-18971

Potential and gravity distributions on lunar surface, showing presence of harmonics of all orders

07 p1385 A70-19425

Lunar photography interpretation, discussing topographic maps obtained by spacecraft

07 p1284 A70-19779

Inhomogeneous model of upper lunar surface layer assuming temperature dependent heat conductivity and capacity, showing agreement with IR measurements

08 p1564 A70-20559

Lunar latitude evaluation investigated for origin of discrepancy between two methods

08 p1577 A70-21494

Spectral polarization characteristics phase variations used for classifying lunar surface features

08 p1580 A70-21667

Lunar Orientale region structure geological interpretation based on Lunar Orbiter 4 photographs

09 p1751 A70-22196

Satellite impact interpretation of lunar maria surface distribution, discussing lava origins and mascon distribution

09 p1752 A70-22310

Soviet book on lunar physics covering exploration, topography, internal structure, etc

09 p1756 A70-22528

Lunar sinuous rilles as volcano-tectonic fracture traces of sites of gas emission

09 p1758 A70-22743

Apollo lunar landing sites geological configuration and composition

09 p1759 A70-22772

Selenodetic control system, considering photogrammetric networks, Apollo landing site, topographical maps, lunar photographs, etc

10 p1890 A70-24732

Lunar sinuous rilles and Mojave desert stream channels similarities, discussing presence of terraces

11 p2108 A70-25701

Random processes correlation functions determined by stochastic differential equations applied to lunar surface statistical characteristics determination

11 p2118 A70-26785

Physicomechanical properties of tuff rock based on similarity to lunar surface rock, determining natural density, porosity and compression strength

11 p2119 A70-26798

Ranger lunar photographic evidence for volcanic hypothesis, considering fracture systems, Caldera analogy, common walls, crater size, etc

12 p2297 A70-26985

Book on moon covering motion, earth-moon system, internal structure, hydrostatic equilibrium, thermal history, global form, gravitation, topography, etc

12 p2298 A70-27096

Lunar surface mapping and far side gravity field probing by satellite photogrammetry

12 p2308 A70-27874

Lunar far side features position from Apollo 8 data, evaluating Apollo navigation system accuracy

12 p2309 A70-27949

Three dimensional characteristic of light scattered by lunar surface determined for various incidence angles and azimuths from Zond 3 photometric measurements

13 p2485 A70-28466

Rb-Sr internal isochrons of crystalline lunar rocks from Tranquility Sea for moon age estimation

13 p2485 A70-28472

Micrometeorites impact on lunar surface, using optical reflecting and stereoscan electron microscopes to investigate craters on Apollo 11 samples

13 p2485 A70-28474

Lunar surface brightness temperatures from IR observations, determining thermal emission directional characteristics to infer surface temperatures from Surveyor data

[AIAA PAPER 69-593] 13 p2486 A70-28501

Proton and electron irradiation producing oxygen vacancies in silicates, minerals and rocks, indicating similar processes in lunar surface materials erosion and transport

13 p2395 A70-28908

Book on stratigraphic view of lunar geology covering lunar craters and terrestrial analogs, remote sensing, material ages, surface interpretations and Apollo mission results

13 p2491 A70-29060

Photographic techniques and optical equipment in orbiter missions for lunar surface photography

13 p2407 A70-29164

Lunar surface material composition in terra region from alpha scattering data on Surveyor 7, noting Si Na abundance

13 p2492 A70-29265

Astronomical navigation on lunar surface with equations for selenographic latitude and longitude

13 p2449 A70-29272

Lunar surface terrain types and chemical composition based on Surveyor pictures

14 p2634 A70-30193

Lunar horizontal and inclined surfaces net radiation and components, discussing surface temperature, thermal emission and absorbed solar radiation

14 p2634 A70-30194

Manned lunar surface navigation requirements emphasizing dead reckoning system

14 p2613 A70-30458

Lunar surface erosion model by small projectiles impact for analytic representation of crater shape change as function of time

14 p2637 A70-30494

Lunar surface thermal emission spectra, calculating IR emissivities

14 p2637 A70-30495

Lunar surface thermal emission spectra based on laboratory analysis of rocks and minerals emissivity

14 p2637 A70-30496

Lunar surface fine structure and geological analysis from Ranger 7, 8 and 9 photographs

14 p2644 A70-31052

Balloon-borne midinfrared observations of lunar surface composition from interpreting peak emissivity differences

14 p2645 A70-31058

Radio astronomical observations of lunar surface material EM properties compared with Surveyor 7 chemical analysis

14 p2645 A70-31059

Topographic variations in lunar surface from bistatic radar observations on Explorer 35

14 p2645 A70-31061

Lunar surface roughness effects on thermal radiation, using model surface with parallel troughs

14 p2649 A70-31212

Apollo lunar laser ranging experiment /LURE/ for range measurements from earth to lunar surface

15 p2750 A70-31675

Lunar exploration by manned and unmanned space flights, discussing seismology, composition, surface features, etc

15 p2798 A70-31678

Apollo 11 lunar mission results, discussing surface, seismology, laser ranging retroreflector, solar wind and rock samples

15 p2800 A70-32073

Lunar rotary motion predetermination for spacecraft landing in mountainous region

15 p2773 A70-32266

Hypsometric chart plot of visible lunar hemisphere with consideration of relief, obtaining isohypsies

15 p2803 A70-32494

Inhomogeneous model of upper lunar surface layer assuming temperature dependent heat conductivity and capacity, showing agreement with IR measurements

15 p2805 A70-32714

Mariner 7, 8 and 9 lunar photographs, discussing evidence for internally heated moon

16 p2973 A70-33112

Lunar surface exploration vehicle /Lunar Rover/ design, analyzing stowage aspects in Lunar Module

16 p2888 A70-33680

Lunar surface large scale maps by photogrammetric method requiring triangulation of convergent high resolution Lunar Orbiter photographs by block process

16 p2979 A70-34045

Lunar rilles temperature distribution analysis, examining contour shape, aspect ratio and solar elevation angles effects

17 p3152 A70-34507

Radar reflectivity correlations with lunar surface structure in Mare Imbrium, using delay-Doppler radar maps

17 p3154 A70-34568

Lunar surface erosion due to Apollo 11 descent engine

18 p3316 A70-36960

Lunar tidal force influence on meteoritic material fission before impact, calculating internal to explain topographical features

18 p3319 A70-37051

Lunar surface features charting from astrophysical data and direct observation, describing mapping of Sea of Tranquility

18 p3323 A70-37141

Moon Surface Basic Points catalogs differences, estimating position dispersion by residuals of transformations

18 p3323 A70-37143

Lunar rocks permissivity and density and surface roughness from radio wave scattering data

19 p3512 A70-37276

Lunar maria distribution, explaining origin and characteristics by surface brightness

19 p3517 A70-37987

Lunar craters, walled plains and maria compared with volcanic formations on earth

19 p3517 A70-37991

Lunar volcanic ridges features from interpretation of photographs by telescopes and satellites

19 p3518 A70-37992

Lunar maria and constituents characteristic differences in terms of structure, height and distribution of craters across surface, noting temperature anomalies

19 p3518 A70-37993

Lunar surface mapping and comparison of geological features with earth, considering mass, volume, density, gravity, rotation and energy and matter balance

19 p3518 A70-37994

Lunar sinuous rilles morphological and distributional observations and implications on theories of origin concerning surface water erosion

19 p3521 A70-38442

Moon origin, surface, exploration, Apollo 11 landing, subsidence/uplift crater formation and Transient Lunar Phenomena

20 p3701 A70-38977

Surveyor program results, discussing lunar craters, rock fragments, particle size optical, thermal and radar characteristics and chemical composition

20 p3707 A70-39952

Lunar topographical and geological features examined by Surveyor program

20 p3707 A70-39953

Lunar surface material composition examination by Surveyor 5, discussing formation of surface

20 p3708 A70-39958

Lunar surface physical conditions from Surveyor landings, discussing fine cohesive rock powder

20 p3708 A70-39959

Lunar postsunset horizon afterglow observed by Surveyor 7, discussing small particle diffraction on surface

20 p3708 A70-39960

Lunar and earth surfaces imaging for astronaut training in LEM simulator

20 p3607 A70-40320

Lunar surface specific effective radio signal scattering area measured by Luna 9 and 13, describing signal fluctuations

21 p3884 A70-40838

Lunar mascon detection in Sinus Aestuum neighborhood by Apollo 8 tracking data analysis

21 p3886 A70-41058

Shock metamorphism, grain size and mineralogy of lunar surface regolith materials

21 p3901 A70-41543

Lunar surface material age and post-crystallization from isotopic investigation of Apollo 11 samples of U-Th-Pb systematics

21 p3909 A70-41608

Lunar rocks mineralogy and visible and near IR reflectivity, discussing depression in telescopic curve

21 p3912 A70-41637

Micro-breccia, igneous rocks and lunar fines elastic properties at ambient conditions and as function of pressure, discussing near surface mare region models

21 p3913 A70-41640

Directional, spectral and total reflectance for Apollo 11 fines and rock chips, observing dependence on illumination angle

21 p3913 A70-41643

- Apollo 11 drive-tube core samples from Tranquility Base, expressing lunar surface environmental processes 21 p3914 A70-41653
- Lunar surface impact cratering, comparing equilibrium size distributions 21 p3919 A70-41701
- Lunar geomorphic features and mass wasting relation, discussing landslides, rockfalls, debris slides, slump and creep play 22 p4102 A70-42972
- Hypsometric chart plot of visible lunar hemisphere with consideration of relief, obtaining isohypes 23 p4240 A70-43916
- Apollo 11 and 12 close-up lunar surface photography, describing specially designed camera 23 p4194 A70-44255
- Lunar maria and circular basins interrelations, form, origin and distribution from Lunar Orbiter photographs 23 p4242 A70-44263
- Apollo 11 and 12 results concerning lunar geology and physical features, discussing impact generated long duration seismic signals and solar wind isotopic composition experiment 23 p4244 A70-44613
- Lunar topography from UBVRI photometry, determining albedos for mountains, dark and light maria and cratered terrae 23 p4247 A70-44769
- Lunar craters size-frequency distributions from photographic analysis, tabulating results 23 p4247 A70-44770
- Lunar surface selenographic reference points tabulation, considering suitability for selenodetic measures 23 p4247 A70-44773
- Tycho crater northeast rim scale relief model including lava lakes in outer walls 23 p4253 A70-44881
- New Mexico Bandera lava tube systems, noting similarities with lunar surface sinuous rilles 23 p4254 A70-44884

LUNAR TRAJECTORIES

- NT CIRCUMLUNAR TRAJECTORIES

LUNG MORPHOLOGY

- Histopathological evidence for pulmonary emboli in experimental decompression sickness in dogs detected by radioisotopic lung scanning 06 p0991 A70-17295
- Lung alveolar and capillary wall structure in mammals under normal conditions, transverse acceleration and mechanically changed pulmonary circulation 20 p3575 A70-40190
- Obstructive lung diseases clinical, radiological and functional diagnosis in legal medicine 24 p4296 A70-45122
- Air and liquid filled excised lungs P-V hysteresis curves, determining surface tension in situ 24 p4302 A70-46104
- Human lung volume-to-ventilation ratios regional dispersion, using expired nitrogen concentrations analog simulation 24 p4303 A70-46113
- LUNGS
- Lung lipid embolization effect in decompression sickness on obese mice, showing no relationship to dysbaric syndrome 01 p0015 A70-10361
- Respiratory flow rate effect on emptying of lung regions, assessing regional and end-expiratory volumes 03 p0428 A70-14155
- Data analysis of compliance, resistance, inertance and natural frequency of chest-lung system, noting trend with body mass 06 p0993 A70-17521
- Static tensibility and vital capacity of lungs statistically analyzed in relation to sex and age 07 p1210 A70-19524

Oxygen diffusion time into nitrogen in dichotomously branched human lung model calculated by finite difference technique, discussing alveolar plateau 10 p1809 A70-24003

Open circuit gas washout test of lungs under inspiration-expiration transmission symmetry, using Hilbert-Schmidt operators 12 p2175 A70-27021

Human lung closing and subdivision volume relationship to age and body position 12 p2169 A70-27657

Human lung and upper airway pressure drop and fluid flow regime of inspired air 12 p2170 A70-27660

Minute hyperventilation of human lungs causing expiratory suppression of respiration 12 p2173 A70-28315

Nitrogen respiratory elimination by human lung, analyzing expired air by mass spectrometry and volume displacement in closed systems 13 p2351 A70-29325

Gravity dependent lung region emptying sequence effects on alveolar Xe 133 and nitrogen plateaus in pivoted subjects 13 p2356 A70-29944

Stress distribution and pressure distending air spaces in lungs, using mechanical pulmonary elasticity model 13 p2356 A70-29945

Sprometers for ventilation measurement of separate lungs, recording impedance changes during respiratory cycle 14 p2541 A70-30378

Surface active lipoproteids of lung, discussing quantitative determination and labeling on basis of peribronchial wash-out procedure over trachea 15 p2680 A70-31725

Fluid analog for lung tissue response to gravitational acceleration, examining lung density, transpulmonary pressure, expansion, etc 16 p2850 A70-34257

Upper pulmonary airways plastic conduit model, measuring laminar and turbulent flow velocity profiles by hot-wire anemometer 17 p3035 A70-34469

Trans thoracic mutual impedance responses to lung ventilation, discussing spatial and temporal intravariability 17 p3035 A70-34576

Human lung internal surface area automated measurement by computerized image processing techniques, grading emphysema 17 p3035 A70-34578

Lung diffusing capacity for CO in Caucasians native to 3100 m noting membrane diffusing capacity, lung capillary volume and age effects 17 p3031 A70-35427

Topography of pleural surface pressure and vertical gradient of transpulmonary pressure above resting volume in relaxed animals as function of alveolar pressure 21 p3766 A70-42154

Pulmonary blood flow and ventilation distribution during forward acceleration by xenon 133 and lung scanning 24 p4302 A70-46105

Excised perfused dog lungs stratified dead space changes due to transpulmonary pressure and breathing frequency increase, considering pulmonary circulation 24 p4303 A70-46114

Food-water deprivation influence on alveolar surface activity of rat lungs 24 p4303 A70-46115

Recording system errors for measuring pulmonary pressure-volume curves of excised lungs 24 p4309 A70-46122

LUNIK LUNAR PROBES

NT LUNIK 12 LUNAR PROBE

LUNIK LUNAR PROBES

NT LUNIK 3 LUNAR PROBE

NT LUNIK 12 LUNAR PROBE

Lunik 16 lunar soft landing technique, discussing automatic and ground controlled mission phases 22 p4110 A70-43210

Lunik 16 lunar probe recovery technique, using steep angle and high deceleration reentry trajectory for unmanned capsule 23 p4257 A70-44096

Unmanned Luna 16 landing mission, discussing launching and automatic mission control via onboard computer and earth-radioed data 24 p4412 A70-45982

LUNIK 3 LUNAR PROBE

Global exploration of lunar surface by Luna 3 and Zond 3 automatic stations, confirming asymmetric distribution of sea areas on visible and remote hemispheres 01 p0177 A70-10335

LUNIK 12 LUNAR PROBE

Low energy proton flux in neighborhood of Moon measured by Luna 12 satellite indicating magnetized plasma region effect on burst 01 p0172 A70-11493

LYAPUNOV FUNCTIONS

U LYAPUNOV FUNCTIONS

LYMAN ALPHA RADIATION

Solar Lyman alpha line profile and atomic hydrogen vertical distribution measurement method for terrestrial atmosphere in 200-500 km range 01 p0078 A70-11208

High reflectivity mirror construction for H Lyman alpha line using vacuum deposited Al layer coated by magnesium fluoride 02 p0299 A70-12367

D-2 experiments measuring atomic oxygen emission from terrestrial atmosphere and polarization rate and emission intensity from geocoronal hydrogen 03 p0559 A70-13828

L-alpha absorption equivalent width measurements in UV spectra of beta-one, delta and pi Scorpii for interstellar hydrogen densities 04 p0748 A70-14586

Classical path methods for treating Stark spectral line broadening in plasmas illustrated by Lyman alpha line of hydrogen calculations 04 p0726 A70-14670

Lyman alpha auroral emissions observations made with narrow band sky scanning photometer mounted on earth-oriented polar orbiting satellite 04 p0741 A70-15107

Solar Lyman-alpha radiation observed by OGO 4 spacecraft showing short term fluctuations superposed with monthly variation 04 p0741 A70-15128

Lyman alpha transition line in exosphere deuterium line implying enrichment factor ratio to earth surface deuterium 04 p0742 A70-15129

Lyman alpha flux observed by satellite-borne ion chambers during solar flare of 20 March 1966 05 p0902 A70-16442

Scattered Lyman alpha radiation intensities measured for mixtures of partially dissociated hydrogen in Ar, measuring quenching cross sections 06 p1053 A70-17327

X rays from Sco XR-1 compared with galactic cosmic rays and solar Lyman alpha radiation to determine ionospheric ionization causing radio wave attenuation 06 p1134 A70-17443

Geocoronal glow as resonant scattering of solar Lyman-alpha-radiation by H atoms in upper atmosphere 07 p1270 A70-20032

Molecular oxygen concentration determined by absorption spectroscopy of solar hydrogen Lyman alpha line 08 p1490 A70-21390

Deuterium Lyman alpha line profiles generated from microwave powered lamp for experimental testing of two layer model characterizing emission line profiles 09 p1730 A70-22066

Numerical calculation of S matrices for Stark broadening of Lyman-alpha line based on straight line classical path model 09 p1730 A70-22228

Interstellar atomic and molecular hydrogen abundance and physical state using rocket observations of Lyman alpha absorption line and ground based observations 10 p1941 A70-24551

Solar L alpha and X ray emission contribution to lower ionosphere ion production, discussing altitudinal, latitudinal and temporal variations 11 p2106 A70-26789

Lyman alpha intensity and hydrogen concentration at 5 to 19 earth radii determined from OGO 3 spacecraft measurements 12 p2222 A70-27181

Absorption at solar H Lyman alpha line by earth hydrogen atmosphere measured as function of altitude from Aerobee flight spectrograms 12 p2222 A70-27182

Polarized Lyman alpha radiation emitted in electron collisions with atomic and molecular hydrogen and by electric field quenching of metastable atom 13 p2455 A70-29221

Sun Lyman alpha emission line monitoring, describing intensity variations correlation with Zurich number 15 p2798 A70-31654

Photodissociation and fluorescence cross sections for hydrogen by Lyman-alpha photons emission from collisional quenching 16 p2953 A70-33006

Solar radiation intensity at Lyman alpha wavelength and X ray spectrum before and during solar eclipse of 7 March 1970 16 p2972 A70-33827

Solar limb intensity distribution in Lyman alpha line, computing LTE departures 17 p3162 A70-34895

Lyman alpha absorption by interstellar neutral hydrogen observed in O and B stars UV spectra 17 p3162 A70-34898

Interstellar Lyman alpha observations with OAO, providing upper limit to neutral hydrogen column density

17 p3162 A70-34899

Lyman alpha radiation from gaseous hydrogen nebula model, taking into account absorption by dust and interstellar neutral hydrogen

17 p3163 A70-34904

Lyman alpha emission from Comet Bennett observed with photometer on board OGO-5 satellite

17 p3163 A70-35049

Lyman alpha wing resonance broadening opacity effects on solar spectrum in 1500 A to 8000 A range

17 p3169 A70-35383

OGO-4 observations of hydrogen Lyman-alpha airglow surrounding earth, measuring dependence on solar zenith angle

17 p3080 A70-35764

Earth Lyman alpha emission rates as function of atomic hydrogen column density in outer atmosphere, using Mariner 5 measurements

18 p3244 A70-36007

Oxygen absorption coefficients at Lyman alpha line and other transmission windows, verifying dependence on pressure source line width and doublet separation

18 p3293 A70-36753

Near collisions approximation in Stark broadening of hydrogen Lyman alpha line

18 p3296 A70-37227

Lyman alpha geocoronal emission rate as function of altitude at midnight during solar minimum, solving radiative transfer equations

20 p3619 A70-39329

Comet Bennett /1969 i/ spectrograms, discussing linear diameter, trajectory, Lyman alpha emission and hydrogen mass

22 p4097 A70-42468

Lyman alpha sky background measurements by Mariner 6 UV spectrometer

22 p4094 A70-42932

Recombination model of diurnal variation of electron density in midlatitude D region, assuming NO ionization by solar Lyman-alpha radiation

22 p4020 A70-43158

Exospheric neutral hydrogen temperature diurnal variation from satellite resonance filter data, suggesting Lyman alpha source external to geocorona

23 p4186 A70-43852

Solar L alpha absorption in upper atmosphere, using rocket-borne ionization chamber

23 p4191 A70-44270

Lyman alpha radiation scattering intensity during solar radiation period, discussing dependence of interstellar hydrogen density in interplanetary space on solar EUV

23 p4237 A70-44753

Coherent motion effects on brightness of clouds moving above photosphere, describing H alpha Doppler brightening and Lyman alpha Doppler dimming in solar prominences

24 p4400 A70-45313

Interplanetary atomic hydrogen density distribution from Lyman alpha scattering calculation, explaining background radiation anisotropy detection by Vela 7 satellite

24 p4403 A70-45392

LYMAN SPECTRA

Molecular hydrogen Lyman bands radiative transition probabilities, using electronic dipole moment functions

02 p0344 A70-12659

Radiative excitation in planetary and Orion nebulae by solving transfer equations for Lyman line and continuum radiation, using normalized on-the-spot /NOS/ approximation

04 p0758 A70-15700

Lyman-Birge-Hopfield nitrogen bands high resolution emission spectrum, giving energy values of particular states together with corresponding rotational constants and band origins

09 p1730 A70-22067

Solar chromosphere model evaluation using sensitivity of flux emission in Lyman continuum

17 p3170 A70-35386

Interstellar molecular H Lyman resonance-absorption bands in far UV spectrum using rocket observation

20 p3701 A70-39002

Vacuum UV laser action in molecular hydrogen Lyman bands, examining stimulated emission in P branch lines and light pulse duration

20 p3643 A70-40496

LYMPH

NT LYMPHOCYTES

Electrical stimulation of dogs hypothalamus effect on blood and lymph circulation and composition

13 p2352 A70-29354

LYSOGENESIS

LYMPHOCYTES

Local gamma irradiation effect on number of chromosome aberrations in lymphocytes of human blood of oncological patients after hysterectomy

01 p0013 A70-10137

Local stress effect on immunocompetent cells differentiation in guinea pigs lymphatic ganglia, noting increase in number of antibody producing cells

05 p0803 A70-17114

LYOPHILIZATION

U COLLOIDING

LYOPHILS

U COLLOIDS

LYRAE CONSTELLATION

Solar UV radiation reflected from Echo satellites measured and compared with UV fluxes from Lyrae

01 p0095 A70-11614

Photometric results on beta Lyrae from various observatories during 1959 international campaign with data reduced to BV system, showing reddening at primary eclipse

02 p0369 A70-12064

Beta Lyr spectral and brightness characteristics long period variations related to orbital motion perturbations

03 p0564 A70-13229

O-C diagrams of RR Lyrae variables in M5, considering representation by parabolas or intersecting straight lines

03 p0567 A70-13321

Mean magnitudes, colors and amplitudes for RR Lyrae variables in omega Centauri cluster obtained from photometric observations

06 p1148 A70-18455

Beta Lyr spectral and brightness characteristics long period variations related to orbital motion perturbations

08 p1580 A70-21662

Blue-violet and blue minus violet curves for beta Lyrae derived from analyzing photometric materials

12 p2309 A70-27900

LYSINE

Hydration and lipid-protein ionic interaction in stearic acid monolayers during conformation of poly-L-lysine films

19 p3373 A70-37840

LYSOGENESIS

Lambda prophage induction into lysogens, noting nalidixic acid role in DNA synthesis inhibition

20 p3573 A70-39774
